

THE RISING STAR

WHERE THREE GOOD TEXAS COUNTIES GET TOGETHER

out of
Bobbie's Notebook ...

"Think About It"
The virtue of all achievement is victory over oneself. Those who know this victory can never know defeat. Some men are born great; some achieve greatness; and others have thrust greatness upon them.

The easiest way to get ahead - isn't very.

Eyes are where they are - for looking ahead.

There isn't any map for the road to success; you have to find your own way.

Better to light one candle than to curse the darkness.

Too many people make cemeteries of their lives by burying their talents.

You can tell when you're on the right road - it's upgrade.

Don't worry because a rival imitates you. As long as he follows in your tracks, he can't pass you.

The quickest way to acquire self-confidence is to do exactly what you are afraid to do.

If you are going to climb, you've got to grab the branches, not the blossoms.

Have more than thou showest. Speak less than thou knowest. Lend less than thou ownest.

Business is like a bicycle; you must keep it moving forward or it will wobble.

You'll never be on top of the world if you try to carry it on your shoulders.

The secret of greatness is simple: Just do better work than any other man in your field.

Community Shelter Plan Complete For Countians

Eastland County Judge Scott Bailey announced today that work has been completed on a Community Shelter Plan for residents of Eastland County. The results of the planning effort, designed to provide all county residents with information necessary for survival in the event of a nuclear attack upon the United States, is being distributed to residents of the county.

The Community Fallout Shelter Plan will be distributed as a supplement to the "Cisco Press", the "Eastland Telegram", the "Ranger Times", the "Rising Star" and the "Gorman Progress". Subscribers or those persons who purchase one of the papers on that day will receive a copy of the Community Shelter Plan with their paper.

The plan, developed at the request of local officials, is the result of a study conducted by members of the Eastland County civil defense office in cooperation with the U.S. Army Corps of Engineers and the State Office of Defense and Disaster Relief. Funds for this undertaking were provided by the Federal Government.

The primary danger to residents of Eastland County resulting from a nuclear attack on this country would be from radioactive particles descending from the upper atmosphere and settling over the country after having been carried by high altitude wind currents. The radiation emitted by these particles can penetrate the average building and cause serious illness or death to the occupants.

Because this type of radiation decays or weakens with time, it is possible for persons who are protected from the early, intense radiation to survive with little or no ill effects. The goal of the recently completed Community Shelter Plan is to assure that everyone in Eastland County would have this type of protection if an attack occurred.

The county is fortunate in having enough space to shelter everyone in the county, but this shelter is of no value unless people know where it is. "If we received an attack warning," Judge Bailey explained, "we believe we would have about one hour to gather food, clothing and other supplies and get to a shelter before fallout arrived. Most people would never make it unless they knew what to do and where to go. There is enough space to shelter everyone in the county, but this plan will not work if too many people try to get into the same building."

The Community Shelter Plan for Eastland County contains instructions and maps telling each citizen what to do in case of attack and which building he should go to for shelter. If you do not receive a copy of the plan during the initial distribution you may obtain one by contacting the County Judge's office in the Eastland County Courthouse.

1973 Betty Crocker Exam December 5

College scholarships totaling \$111,000 will be at stake Tuesday (Dec. 5) when high school seniors here and throughout the country join in the written knowledge and attitude examination of the 1973 Betty Crocker Search for American Homemakers of Tomorrow. This year, for the first time in the 19-year history of the educational program, boys are eligible to participate.

Scores on the 50-minute test will form the basis for selection of a Homemaker of Tomorrow here. This student will receive a specially designed award from General Mills, sponsor of the Betty Crocker Search, and will, together with all other school winners, remain in the running for state and national honors.

State Homemakers of Tomorrow - one from each state and the District of Columbia - will be awarded \$1,500 scholarships. To be chosen in judging centering on performance in the written examination, they will also earn for their schools a 20-volume reference work, "The Annals of America", from Encyclopedia Britannica Educational Corporation.

Second-ranking participants in each state will receive \$500 college grants.

Late next April, the 51 State Homemakers of Tomorrow, each accompanied by a faculty adviser, will gather in Washington, D.C., for an expense-paid educational tour of the capital city and Colonial Williamsburg, Va. Personal observation and interviews during the tour will be added factors in the selection, from the state winners, of the 1973 Betty Crocker All-American Homemaker of Tomorrow and three runners-up.

Scholarships of the four national winners will be increased to \$5,000, \$4,000, \$3,000 and \$2,000.

A \$1,000 Nutrition Scholarship, instituted in last year's Betty Crocker Search, will be part of the program again this year. Recipient of this award will be the participating student who is planning a college major in nutrition or a related field, ranks among the highest in his or her state on the total Search examination and, from those meeting these two criteria, achieves the top score on the test's nutrition items.

About nine million students have been enrolled in the Betty Crocker Search since its beginning in the 1954 - 55 school year. With this year's grants, total scholarships awarded will exceed \$2 million.

The Search examination is prepared and graded by Science Research Associates, Chicago, which is also responsible for all judging and selection of winners.

Questions and Answers

Q. Because I'm retired, my 40-year-old daughter, who has been severely mentally retarded since birth, gets monthly social security checks on my record. She has just been given a job in the institution for the mentally retarded where she stays. The job pays 60 cents an hour and she only works a couple of hours each day. Do I need to notify social security about her work?
A. Yes. You should call, write, or visit your social security office immediately and notify them about your daughter's job. On the basis of the information you gave, it does not appear that your daughter's social security payments will be affected by her job, but the Social Security Administration must look into the situation carefully before a decision can be made.

Q. I recently heard something about monthly social security payments for adults who have been severely disabled since childhood. I'm 25, but I was severely hurt in a car accident when I was 16 and I'm not able to work. Since my father is going to retire this year and get social security payments, will I be eligible for payments too?
A. You may be. Severely disabled adults who were disabled before 18 are eligible for monthly social security payments if a parent insured under social security retires, dies, or becomes severely disabled. Your father should ask about social security payments for you when he applies for his retirement benefits.

Q. I'm retired and getting monthly social security payments. My 30-year-old mentally retarded son, who never worked, was also getting monthly checks on my work record until his death last month. Can I get a lump-sum payment from social security to help with his funeral expenses?
A. No. A lump-sum payment is made only when the deceased person himself had enough work under social security to be insured on his own. Your son was getting monthly payments based on your work record under social security.

Q. My mother, who's in a nursing home in another State, has most of her care paid by the Medicaid program. I would like to report some unsanitary conditions in the home. I heard that social security offices will accept such complaints. Is this true?
A. Yes. Local offices of the Social Security Administration now receive and report such complaints so they can be investigated. If you have any nursing home complaints, call, write, or visit any social security office.

The PTA was founded in Washington, D.C. in 1897 by Phoebe Apperson Hearst, wife of U.S. Senator George Hearst and mother of William Randolph Hearst, and Alice McLellan Birney, wife of a prominent Washington attorney. • In 1899 petitioned Congress for a National Health Bureau (14 years before creation of the U.S. Public Health Service).
• In 1906 played a key role in the passage of the Pure Food Bill.
• In 1946 was named primarily responsible for the passage of the federal school lunch program.
• In 1951 conducted a national conference on narcotics and drug addiction.
• In 1965 shipped more than a million books to mountain schools in Appalachia.
• In 1970 initiated Project RISE (Reading Improvement Services Everywhere).
• In 1972, under federal funding, integrated alcohol education in its smoking and health project with plans for several pilot programs to be tested at the state level.

Some people learn the hard way. Paychecks disappear fast. Day-to-day living expenses eat up a lot. And maybe part goes in the savings account for this year's vacation or another immediate goal. A good chunk of that money seems to disappear by itself. So it's no wonder that when it comes to long-term goals, or when an emergency comes up, there simply aren't funds to meet the need. Unless there was a nest egg building up all that time. A good way to build that nest egg is with U.S. Savings Bonds. The easy way to buy them is to sign up for the Payroll Savings Plan where you work. An amount you specify will be set aside from your paycheck and used to buy Bonds.

And while you're going through grocery bills, car repairs, vacation weekends, kids' toys and nights out on the town, you'll know you're saving money too. That's good to know.

Now E Bonds pay 5 1/2% interest when held to maturity of 5 years, 10 months 4% the first year. Bonds are replaced if lost, stolen, or destroyed. When needed they can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America.

Annual Wool Contest December 1-2 At TCU

Texas Christian University will host the District II annual Make It Yourself with Wool contest and fashion show Dec. 1-2 in Ed Landreth Auditorium. Five winners selected from the 130 entrants will compete in the mid-December state contest.

Dr. Myrtle Bailey of the University's home economics department is the director of the 34-county district portion of the nation-wide sewing and knitting contest. She announced that the winners will be presented following the fashion show beginning at 9 a.m. Saturday.

This is the first year men have been allowed to enter the wool competition, said Dr. Bailey. Four men are among the 1972 District II entrants; all will follow the same rules.

Competition is divided into three age groups: The junior division, 14-16; the senior division, 17-21; and the adult division, over 21. The three categories of judging are dresses, coats, and two-piece suits. Slacks also are eligible for competition.

The TCU home economics department and the women's auxiliary of the National Wool Growers Association are co-sponsors for the district meeting. Local and national merchants contributed prizes for the contest winners.

Contestants select the fabric or yarn, pattern and accessories to construct a garment which they will model in the fashion show. The garment must be 100 percent American wool. Ten judges will grade the entries Friday in a private session.

The judges include Mrs. Claudie Chapman, Texas Agricultural Extension agent; Mrs. Kim Dawson, Kim Dawson Agency; Mrs. Willie Lee Glass, Texas Education Agency; Mrs. Herbert LaGrone, president of the Weaver's Guild; and Dan Miller, Neiman Marcus personnel director.

Others are Mrs. Sammie Pittman, Texas Education Agency; Mrs. Shirley Ripley, former national wool contest winner; A.L. Ross, divisional manager and buyer of fabrics for Leonard's; Mrs. Marijon Rutherford, Everman High

School home economics department; and Mrs. Martha Thomas, fashion designer for Russell-Newman Manufacturing.

The garments will be judged on construction, overall appearance and design.

All 34 counties will be represented by high school and college students, who will begin registering at 1 p.m. Friday.

Winners of the Dec. 15-16 state competition at Texas A&M University will meet in the national finals Jan. 23 in Washington, D.C.

Grand Prize for the winners in both the junior and senior divisions will be a trip to Europe plus other prizes for district, state and national winners.

Counties included in the District II competition to be held at TCU include Eastland.

Geigy Salutes

The Pharmacist

Egyptian mythology reveals that Imhotep, the god of medicine, also practiced pharmacy. Papyrus scrolls record the use of castor oil, whale oil, turpentine, and opium as medicines.

During the Middle Ages, the first register of reliable medicinal compounds was written by the scribe Scribonius Largus. In the 17th Century, King James of England gave apothecaries a charter which enfranchised them as legitimate practitioners of pharmacy.

Today the profession of pharmacy is being commemorated on a U.S. Postage Stamp. We at Geigy Pharmaceuticals are proud that pharmacists are being honored.

Geigy congratulates pharmacists on the great job they're doing.

Consumers Report

The office of Consumer Credit Commissioner was created in 1967 to administer and enforce the provisions of the Texas Consumer Credit Code. This is the law regulating the majority of the consumer credit transactions in Texas. The Commissioner has the responsibility of issuing licenses to those in the business of loaning monies, and, in general, to supervise and regulate the activities of the licensees. Persons making cash loans or selling goods under installment sales agreements fall under the Commissioner's regulation.

If you borrow money from a loan company, or purchase an appliance or an automobile in installments over a period of time, the transaction would be one which is regulated by the Commissioner's office.

On the other hand, if the loan is one in which the entire amount is repayable in a lump sum at the end of the term, rather than through periodic installments, the transaction is not within the Commissioner's jurisdiction unless an usurious interest rate is charged.

It is the Commissioner's duty to insure that all interest and other finance charges are within the limits authorized by Texas law and that all disclosures and other requirements concerning documentation of the transaction are complied with.

Maximum rates of interest set by Texas statute are \$18 a year for each \$100 up to \$300.

For each \$100 in excess of \$300 but not more than \$2500 the maximum rate is \$8 a year.

On loans of \$100 or less, a different rule applies. If the loan is \$29.99 or less, the lender may charge \$1 for each \$5 loanes.

If the loan is more than \$29.99 but not more than \$35, an acquisition charge not in excess of one-tenth of the cash advance is allowed. In addition, an installment account handling charge not exceeding \$3 a month is allowed.

When the cash advance is in excess of \$35 but is not more than \$70, the authorized acquisition charge is the same but an installment account handling charge not to exceed \$3.50 a month is allowed.

The acquisition charge on cash advances of from \$70 and not exceeding \$100 is the same, but an installment account handling charge of not more than \$4 per month is allowed.

In addition to the licensing and supervision of persons making small loans, the Commissioner has concurrent responsibility with my office for enforcing the deceptive trade practice provisions found in Chapter 10 of the Code. He has the authority to authorize investigation of alleged deceptive trade practice violations on his own. If the facts warrant, he may request the Attorney General's office to file suit on behalf of the State to enjoin such conduct in the future.

It is apparent that the Con-

sumer Credit Commissioner's office is of vital importance to the Texas consumer. This office is the one you should contact if you have questions or problems in the areas discussed above.

Stalk Destruction Deadline Nears... Boll Weevil Suppression Program Popular and Successful... 4.5 Million Market News Bulletins... Turkey Promotion Year Round

Cotton producers in 44 north central and east Texas counties are reminded that Nov. 30 is the deadline for cotton stalk destruction. No area extensions are expected to be made. Individual extensions may be granted, but requests for those will have to be made by contacting Texas Department of Agriculture at Austin.

Cotton stalk destruction reduces the number of pink bollworms that enter hibernation next year as well as reducing infestations of other cotton insects.

THE STATE'S boll weevil suppression program for this year has been as popular as it was successful. A total of \$300,000 was allocated for the program this year which is matched on a half-and-half basis by producers. About 450,000 acres were included in the program which is aimed at reducing next year's weevil populations.

Records show there was a greater infestation of weevils this year than in any season since the program began in 1965. Farmers in 11 counties participated in the diapause program for the 1972 season.

Funds for the program are limited although it is expected that more requests for assistance will be forthcoming from cotton producers in 1973.

ABOUT 4.5 million market news bulletins will have been mailed to Texas agricultural producers by the end of this year from the Texas Department of Agriculture's market news service.

They will be mailed to about 85,000 Texans. The market news service contacts about 1,200 people each week in collecting its market news reports.

Items ranging from daisies to ornamental crops to molasses to livestock and crop reports are covered in the market news reports.

The livestock market news apparently is the most popular. It is an eight-page publication and includes 16 state livestock markets plus grain markets from five areas. It goes to 77,000 people each week.

The poultry and egg report is also popular. It is mailed to 1,800 egg producers and egg industry people.

One of the most popular reports right now is the pecan market. Other market reports include watermelons, rice, ornamental crops, and vegetable and fruit market reports from Hereford, Dallas, and Weslaco.

You can also get instant market news by calling these numbers:

- Austin-pecans, poultry and eggs: 1-512-475-3845.
- Amarillo-livestock: 1-806-372-3494.
- San Antonio-livestock: 1-512-223-4100.
- McAllen (after 5 p.m.)-fruits, vegetables: 1-512-682-3351

PROMOTION of turkeys will continue through the year through the cooperation of the state's turkey producers and the Texas Agricultural Products program. Texas is the fifth leading state in the nation in total turkey production. Turkeys grown in the state totaled more than 8 million head.

The Central Texas area is the state's major turkey producing region. Bell County is the top turkey producing county in the state, Hill, McLennan, Falls, and Robertson counties are also in the top 10. Total production of those counties accounts for almost 40 percent of all turkeys produced in Texas.
