Homecoming of Rising Star Exes September 24

Saturday, September 24, will be Homecoming day for ex-students of Rising Star High School. Arrangements for the event are in the hands of Lee Hughes, president of the Ex-Students Association, and the principal event will be a football game between the Rising Star Wildcats and their arch rivals, the Cross Plains Buffaloes.

The game has been changed from its original date of Friday, September 23, to Saturday night at 8 o'clock because of the homecoming program.

A pep rally will be held at 3:30 p.m. in the gym preceding the game, Mr. Hughes said.

There will be no other formal program, although some of the classes are planning get-togethers of their own. Among these is the class of 1953 which

will have its first reunion on that date.

Highlight of the 1953 class program will be an informal dinner at the Elite Cafe.

The leg was put in a cast.

Tommy Darnell, full back, took the opening kick-off, a real boomer, on the Rising Star 3 yard line and raced 60 yards for the first of seven touchdowns scored by Lloyd Gonzalez. Gary Duggan, halfback, charged 60 yards for another; and Tommy took a Geye pass for another. The Rising Star boys scored almost at will.

Cats Whip Bangs; Play At Santa Anna This Week

The Rising Star Wildcats proved to their own satisfaction and that of their coaches and supporters that they can spot a good team six points, hand their opponents enough breaks to drive Casey Stengel out of mind, make more than their share of mistakes and still win a football game.

They defeated the Bangs Dragons at Bangs Friday night 8 to 6.

They did it the hard way, surrendering one advantage after another via penalties, fumbles and other adverse "breaks" and then rising up magnificently to stave off Bangs scoring threats that would have robbed them of victory. Several times they held the hard-driving Dragons within their own 10 and 15-yard zones.

The Dragons scored early in the game, near the middle of the first quarter on running plays. The Wildcats resorted to long passes to score near the end of the half, Worley Maynard taking a 23-yard toss from Johnny Jones near the goal line and crossing over after Jerry Alexander had carried deep into Bangs territory by completing another Jones aerial. Coy Edmiston plunged for the two points after touchdown that were the difference.

Stalwart line play that smothered the Dragon offense when the chips were down and flashes of brilliant running offset Wildcat mishaps during the game and kept the Cats in the win column.

A strong wind swept lengthwise of the field and favored both teams in their scoring drive. A drizzle of rain fell during portions of the second half but played little part in the outcome of the contest.

Coy Edmiston received the kick-off for Rising Star. Jones punted well into the wind, and Bangs took over on their 35-yard line. The Wildcats drew a penalty for having

a five-yard penalty. Morrow intercepted a Bangs pass only to have his work nullified by an offside which gave the Dragons their five yards back and set up the scoring drive on a bare fourth down and first. The Dragons crossed the stripe in three running plays but a pass attempt for two points failed.

Edmiston again received and Rodney Smith gave the Wildcats their initial first down with a neat 12-yard run. Edmiston added another of the same yardage to carry to the Bangs 39 where the drive bogged and Jones punted out on the Dragon 15.

The Dragons lost two yards in three attempts. The defensive work of Butler and Carroll was outstanding here as it was during the entire game.

Bangs punted as the second quarter opened, Rising Star taking over on the Dragon 43 where two Rising Star running plays and two incomplete passes set the Bangs team up in business again on their 37. A pass was good but the Cats held and the Dragons were forced to punt. The advantage was nullified however when a Wildcat touched the ball and Bangs recovered on the Rising Star 21. It looked bad for the Rising Star cause but a stalwart Wildcat defense stopped the Dragons at the seventh and again at the 21 to take over.

J. Edmiston started the Cats on their victory march with a brilliant run to the Rising Star 46 from which point Jones tossed to J. Alexander for a first down on the Bangs 23 and Worley Maynard caught the scoring toss out of the hands of a Bangs defender.

The second half was a seesaw affair distinguished by the defensive efforts of the Rising Star lads, miscues, fumbles and some stirring feats of offense. Larry Nichols, who alternated with Coy Edmiston at full, was a key figure in the Rising Star sector.

Edmiston led the team in rushing attack and in defense he lost the ball to R.

Early in the half, the Dragons drew

Peanut Support Loans Will Be Available Soon

Peanut price support loans will be available shortly at warehouses in this area, it was announced. Loans will be made by Southwestern Peanut Growers' Association. Growers are advised to consider the advantages to them of placing their peanuts under association loans, provided the commercial shellers are paying prices close to the loan advance. If growers place their peanuts under association loan, they are assured of receiving at the time the peanuts are marketed the loan advance price. Later on if a sufficient quantity of peanuts is sold by the Association into the trade, growers who placed peanuts under loan will share in the Association earnings. Growers who placed peanuts under Association loan in 1955 were paid \$2.50 per ton dividends. Growers who placed peanuts under loan in 1959 will share in dividends of \$3.54 per ton. The Association realizes earnings on the sale of loan peanuts at prices which reflect the full support value. If a peanut grower wishes to place his peanuts under loan he may do so by delivering them to any Association approved warehouse. Any sheller or commissioned buyer can tell growers which warehouses are approved to store loan peanuts. Also, the county ASC office can provide this information.

It's beginning to look as if the folks from Criswell store west are not going to get their farm-to-market road after all.

Despite the fact that County Comm'r Bob Carter has been promised that this road would be set up in the forthcoming program, he was informed this week that the Highway Department intended to use the money available in Precinct No. 2 to build a farm-to-market from Gorman to Kokomo.

During the last four years, and ever since Lake Leon was built, 72 per cent of the money available for farm-to-market construction in Eastland County has gone into Precinct No. 2, according to the records. Very little construction has been done in the other precincts, despite the fact that the traffic count on rural roads in these precincts is as high or higher than in the No. 2, according to Comm'r Bob.

"I have not pressed the needs of our precinct for construction of farm-to-market roads in view of the desire of the department to complete projects in other sections, but I have relied on the department's promise that our precinct will be next on the program," he said. "The farm-to-market road from Criswell store west was specifically promised now coming up. To find that it will again be delayed is certainly discouraging. I am not sure other precincts getting their share of the program."

I simply want our precinct—which has just as much need as the others for good roads—to get its fair share of the program. I am asking now for only four miles."

Comm'r Bob said he considers his people are entitled to an explanation of the situation since he had told them what had been promised him.

Since the construction of Lake Leon, it seems to me, a great deal of pressure, direct or implied, has been brought to bear upon the authorities to have a disproportionate share of farm-to-market funds diverted to road projects in that vicinity. The need of the farmers in the area for good roads cannot be denied and they are entitled to their full share. But is it right to deprive farmers and ranchers elsewhere in the county, who also need and are entitled to paved roads, of their fair share of this road money in order to develop a resort area?

Let's insist that the funds be equitably divided among the precincts and spent for their real purpose.

The Eastland Chamber of Commerce has put over another project—it has prevailed upon the county to light the court house! The project will cost the county \$600 while the Chamber will pay \$270, a

Rising Star Marine Inspires Fellow Members With Pride in Famous Corps

The following article concerning Sgt. Maj. J. M. Westerman, son of Mrs. Flara Westerman, appeared in a recent issue of a Marine Corps magazine at Camp Pendleton, Calif.

The article was accompanied by a picture of Sgt. Maj. Westerman and his "gungy board", displaying many of his awards, promotions, meritorious masts and previous duty stations.

When a Marine of 1st Bn., 7th Marines enters his sergeant major's office he is confronted with an unusual display.

"The United States Marine Corps has been a good career for me... Marine, what are you giving the Corps?" These are the words that Sgt. Maj. J. M. Westerman has prominently displayed on his "Gungy Board." Marines of the battalion who walk into the office with sagging shoulders come out looking like a spit and polish recruiting poster; the "Gungy Board" is pretty inspiring.

Prominently displayed appear many awards, promotions, and letters of congratulations from high officials. A roster of his duty stations and billets which he has filled during his tour also appear on the board, along with the Staff NCO sword and the ribbons he has earned.

Post-war highlights of his career include his sea going tour of 1947-48 during the occupation

of the Orient. His present tour is like "old home week", as he renewed many of his wartime friendships. Another highlight of his career was his appointment as an NROTC instructor at the University of Oklahoma. A Marine's Marine, Sgt. Maj. Westerman has filled every possible chain of command billet in a Marine Corps Rifle Company; from rifleman to company commander.

School Officials Endorse School Traffic Safety

Governor Price Daniel said today that Texas school superintendents, principals and classroom teachers have responded enthusiastically to his request for sponsorship of the third annual Texas School Traffic Safety Week during the week of Sept. 18-24.

The special observance was originated in 1958 at the request of the Governor and was directed toward schools teaching driver education. Last year, it was expanded to a statewide classroom project, and more than 33,000 teachers gave special safety instructions in daily classes.

Governor Daniel, in a special message to Texas public school newspaper editors, said: "The vital importance of this particular phase of the traffic safety movement in Texas cannot be underestimated nor can we afford to ignore. The lives of the brightest and most active members of today's Texas civilization are at stake. When we realize that 545 of the 2,453 persons killed on our streets and highways last year were young Texans between the ages of 15 and 24, the high school and college age bracket, then we see how tragic our problem has actually become. Those 545 young Texans represented 22 per cent of all the traffic victims, despite their energy, and fast reactions.

"We have accurate figures which tell another part of this tragic story. Young Texans between 15 and 24 held about 18.3 per cent of all Texas driver's licenses last year, but they were involved in about 27 per cent of all the traffic crashes outside Texas cities. This, also, is much too high, considering the real ability of today's young Texans."

The Governor said these figures, and similar statistics for previous years, had led him to obtain the cooperation of the Texas Education Agency, the Texas Department of Public Safety Week.

Special brochures have been mailed to nearly 20,000 schools whose classroom teachers have already ordered the teaching aids. The three agencies named, along with the Governor's Highway Safety Commission, prepared and printed the special materials. Orders already filled are more than half the total ordered last year, and of those not yet filled, we expect at least

Browns Return From Enjoyable Visit With Relatives in Southern States

Mr. and Mrs. D. W. (Curly) Brown returned Friday of last week from a six-day motor trip through Arkansas, Mississippi, Alabama, Tennessee and Georgia during which they visited many places of historic and scenic interest and enjoyed the hospitality of relatives whom they had not seen in many years.

They spent most of their time around Chattanooga, Tenn., where they were most hospitably entertained and where they visited many points of interest from Civil War days and places of natural beauty.

They also visited Mrs. Brown's mother's birthplace at Garland's Cove, near Scottsboro, Ala., a house built of cedar and still perfectly preserved. It was one of the two houses in which her parents, Mr. and Mrs. J. W. Carmon, lived during their lifetime. They also visited the graves of her great-grandparents and other relatives near Scottsboro.

At Chattanooga they made excursions to various places of interest returning each evening to the homes of relatives who prepared delicious meals for them. Among places visited were Lookout Mountain, scene of an important Civil War battle, Sunset Rock, Ruby Falls, a cavern waterfall which is 145 feet high and 1120 feet below the earth's surface, Lover's Leap, Needle's Eye, Mushroom Rock, Balance Rock, Rainbow Hall and many other interesting places.

Lookout Mountain is located near Rock City, Tenn.

It was Mrs. Brown's first trip back since she visited there

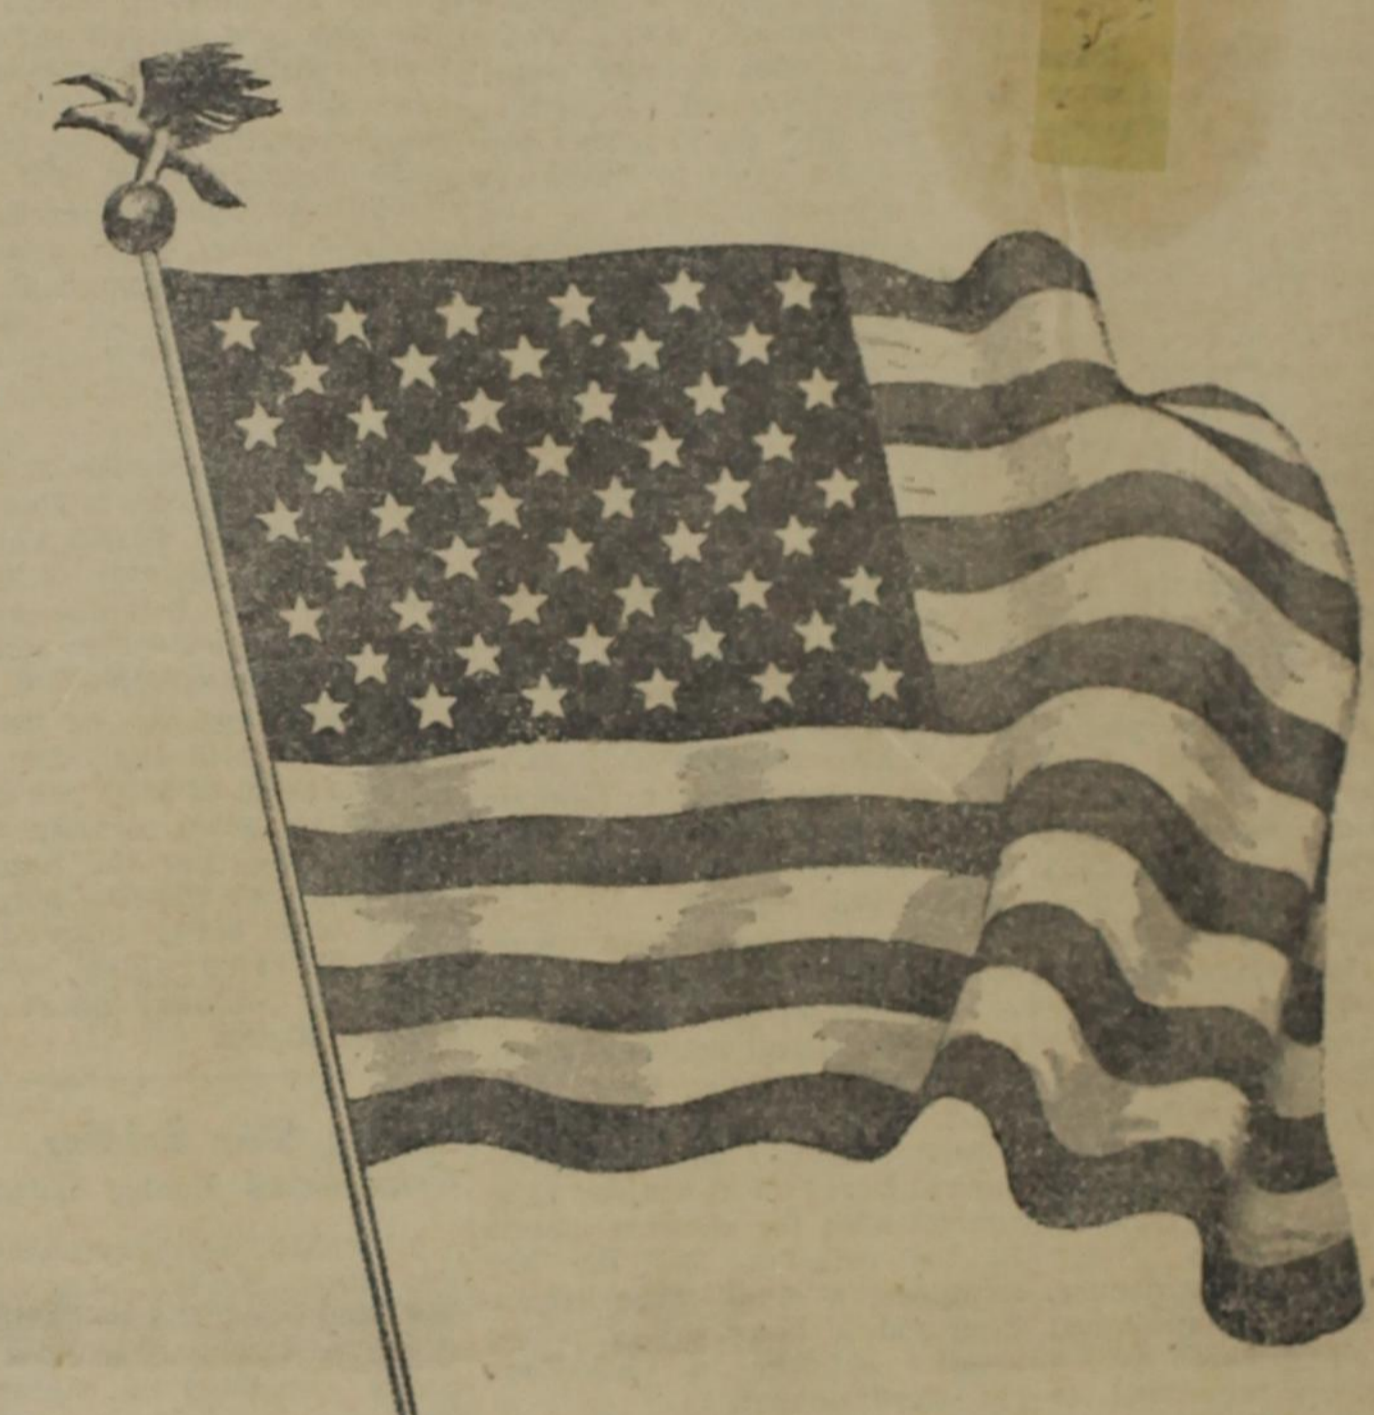

as a small child. "The hospitality we enjoyed was simply wonderful," she said. "Relatives we had never seen before went out to make us welcome and entertain us."

ALL ABOARD FOR A GRAND YEAR

Once again we get aboard the train whose journey lasts for nine months and contains the hustle and bustle that makes up the routine of another grand year. This is the third year and now we're Juniors. When we walk down the hall, we feel important because we know we are considered as upper classmen, and that our ideas and beliefs are appreciated. To live up to our honor, we are expected to do greater works and set good examples for the underclassmen.

The Juniors being the largest class in Rising Star High School, have many things to accomplish. We must first of all try to make better grades as the high honor students are determined from the last two years. We have the big decision of selection of our rings to represent our school. The Junior-Senior Banquet is before us and we want to have the best one yet as it is the last social event for the Seniors. You never can tell; there may be talent too for this year we have the junior play.

This year will be difficult; but when it is over we can look back and be proud of the knowledge we have acquired from hard work and midnight oil. —Shirley Hagerman English II

SENIOR JIVE

After one week of school we Seniors find that we are enjoying it much more than we expected. We suffered a small defeat when Melvin beat us 12-8, but it was a different

story when we played Bangs. We won 8 to 6.

We start our annual magazine drive this week and are asking you to help us reach our goal of \$850.00.

Here are some of the rumors going around school fresh off the flying carpet.

Gary—I never thought a Cross Plains red-head would get her claws into you! Tough luck, old boy!

Rodney—Did you say you visited the haberdasher before school started? Get out your dictionary, old boy. (Thanks to Mr. Chaucer, a nice old chap.)

Tommy and Wayne—Found any old tires lately? Better watch out while running thru those pastures. You two are liable to get shot—er—I mean snake bit! You other three know who you are, but I won't mention any names because I fancy my life more than that.

George—What is there that attracts you to that Junior room? Could it be a certain girl?

Johnnie—Look out boys! James is gone! (But he will be back.)

J. M.—Did you all the people in Brownwood know you to be 21? I wonder why? I bet I could guess!

Rex—You can beat me with a paper all you want to but I will still write what I want to in the paper. Remember this is a free country.

Jerry—By way of the grapevine, I heard that one of the Freshman girls is madly in love with you. Come on now and give her a little encouragement!

Lanette—Did you and Dug really need a portable radio at

the Drive-Inn? I'm sure the show wasn't that boring! Charles—That phone comes in handy, doesn't it? The people on yours and Snail's party line think you two are very good conversationalists.

Folks, that is all for this week; be sure and tune us in next week. Your reporter, Finney

JUNIOR INFORMATION

The future has in store for us many thrills as well as knowledge to be gained. The first two weeks are over and away we go head speed into a new year which requires us to put on our thinking caps and learn all the things we don't know.

Since this is our third year, we are really feeling at home and just leave it to us for plenty of excitement. Nothing much has happened yet—but give us a little time.

Where are the Wildcat fans? We want to see them at the pep rallies as well as the games—backing the team all the way. One of our juniors, Johnny Jones, was hurt week before last but was back in there against Bangs.

For the benefit of those who don't know F. C. was with so and so Saturday night and Butch I hear they call you Daffy!!

Larry N.—Do you really want to put it in the Soil Bank?

If you see us slapping at the air, we're not crazy—just fighting gnats. Shirley

SOPH CHATTER

Hi there, We've finally settled down to a normal routine and accepted the fact that we are Sophomores.

We really started off with a bang in Biology. We all showed off our artistic feelings by drawing a pair of cells. This is part of our study of the make-up of plants and animals. We are also destined to dissect our first insect Monday. Why we had to begin with something as large as grasshopper, I would not know.

We are beginning our poetry in English II by saying "If,"

by Rudyard Kipling. This is the first of 100 lines of poetry we are to say.

The Homemaking II girls took their first field trip downtown this week. We invaded the dry goods store looking at materials. We are also becoming acquainted with methods of weaving, construction, and dyeing. That seems to be all we have on our minds this week—well not quite all, but it occupies a large portion of it.

It seems that we Sophs taking Typing I are having a hard go of it. If we could just learn our keys we'd have it made.

That seems to take care of everything except algebra. Actually, we seem to be holding our own in it.

Now for a few lines of Soph business:

D. C.—Settled down? Never! J. M.—Lost fiancée?

M. A.—New love? Or new nuisance?

T. A.—Too good for the sophs, huh?

T. W.—Troubles? M. H.—English trouble?

Bye for now, Katy

"FRESH FISH"

These first two weeks have really passed fast. The Freshman class has finally caught on to the swing of things. We have two new students this year, Don West and Joe Whitefield. Boys, we hope that you really like RSHS. We elected two students to the student council, Patricia Burns and Jimmy Rutledge.

In English we are learning "Nobility" by Alice Cary. Two of our Freshman girls have been chosen as recreational leaders in the FHA. Loretta Pittman and Sharon Donham. The girls in Homemaking I have started cooking. The first project was to make cookies and a beverage.

Our Freshman girls are working in the award program in English. The class has voted to have dues of ten cents a month. Those who have not paid their dues this month had better get them in.

Randy—You had better learn to hold your temper. Roger—What did you and Randy mean by "Fancy"?

Juanita—Why were you running so hard? See you next week, Sharon

P. S.—Girls, let's stay away from the football field at noon. O. K.?

OFF TO A GOOD BEGINNING

Our Wildcat Band was off to a good beginning this year when we started having band practice a week before school started.

This organization isn't quite as large as it was last year because we lost several graduates and no one to replace their positions. I think we have 55 members at the present time; 30 are from high school and 20 elementary students.

The rest consists of majorettes which I am proud to say, I think we have a nice group this year; they are Linda Koonce, Maria Geyer, Judy Lewis, Mary Alford, Wanda Walker and myself; Drum Major, Joy Morrow.

We didn't get to march at our first football game, but we started marching Tuesday, so I think we will be capable of doing a good job on the field Friday night.

We also are getting ready to march in the West Texas Fair Parade, which is September 17. After the parade we plan to go to the West Texas Fair and take in the entire Fair—roller coaster included! Mary Jo Awalt

BOYS SPORTS

The Cats got off to a bad start Friday night, but they have improved since the Melvin game. They played a very good game, but they could not seem to keep going. They play Santa Anna this Friday, and we hope that everyone will be backing us.

The boys who aren't playing football have been engaged in volleyball along with other sports. Let's back the Cats!!

FHA

The FHA elected their officers for this year. They are as follows: President, Kay Lewis; Vice-

President, Jetta Butler; Secretary, Carolyn Cawley; Treasurer, Rita O'Connor; Reporter, Johnnie Harris; Parliamentarian, Ollie Winfrey; Historian, Joy Morrow; Sgt.-at-Arms, Vendell Atwood, Carol Burns; Song Leaders, Sherry Aaron, Kay Walker; Game Leaders, Loretta Pittman, Sharon Donham.

Our first year Homemakers are cooking their first refreshments this week; good luck to them. The second year homemaking class are finishing their textiles and starting on the wheels of sewing. Homemaking III is reading a chapter on marriage and making plans for our first garments. That's all for now.

V. A. DEPT.

Twenty-seven boys enrolled in V. A. for the 1960-61 term under the direction of Mr. H. L. Geyer, who has been teaching vocational agriculture for the last 13 years in the Rising Star High School.

We spent two class periods discussing the importance of college and advanced education.

One day was used in "How to Study"; after this we began a unit on farm management. Sez Jim

WILDCAT CHEERS WITH PATTY

Man, what a game! Everybody came home from Bangs Friday night hoarse but happy, and very proud of our boys. For those of you who haven't heard, the score was R. S. 8, Bangs 6. I have a feeling we will be backing a winning team this year. We would like to encourage more of you to attend our pep rally every Friday morning at 10:10, to help boost school spirit. Our game next Friday is with Santa Anna, at 8. Hope to see you all there. —P. H.

Mrs. W. G. Babb and granddaughter, Sandra Wallin, of Royalty, Texas; Miss Jodie Pickery of Odessa, Mr. and Mrs. O. Y. Miller of Glen Rose and Mr. and Mrs. H. J. Boase and son, Robert, of Beaumont, were recent guests in the home of Misses Artie and Mary Boase.

Peanut Research Program Is Told At Gorman Meet

GORMAN. — Work of the Southwestern Peanut Research Foundation was outlined at a meeting of interested persons Thursday night at a dinner meeting in the Brown Jug cafe in Gorman. Host for the night was the Gorman National Bank.

Glen Kirk, president of the bank, served as master of ceremonies at the informal meeting, and Hezzie Dean of De Leon, president of the SPRF, and Ross Wilson, treasurer of the organization and manager of the Southwestern Peanut Growers Association, aided in explaining work to be done by the organization. Bob Green outlined the collection plan.

The SPRF was organized in July of this year when five organizations agreed to sponsor the Association. Sponsors are the Southwestern Peanut Growers Association, the Texas Farm Bureau, the Oklahoma Farm Bureau, Oklahoma Farmers Union and Southwest Peanut Shellers Association.

Dean explained that the whole program is aimed at improving the quality of Spanish peanuts, lowering production costs and expanding markets. He said major emphasis at present is being placed on finding ways through research to eliminate such plant diseases as Southern Blight and Root Rot. Dean said both diseases are costing Texas and Oklahoma growers millions of dollars annually.

Growers are asked to contribute 50¢ per ton on peanuts marketed, which Dean explained is less than a cent a bushel. Peanut growers and warehousemen have been asked to contribute their services in collecting the money for the Foundation.

Wilson said all money collected from growers except the small amount needed for administrative expenses and an amount not to exceed eight cents per ton for the National Peanut Council will be used for research. And he stressed the fact that no salaries will be paid.

J. B. Mauldin is here from South America and is receiving some treatments for a sprained vertebra. He goes to Temple for his treatments. His wife, Betty, is with him, and their little daughter.

Sept. 30 Final Date to File for Gas Tax Refund

Eastland county farmers, eligible for the federal gas tax refund, on gasoline used on their farms or ranches are advised that they only have until September 30 to file claims for this refund according to word today from the county agent's office in Eastland.

The claim must be on file with the District Director of the Internal Revenue at Dallas by the last day of this month it was said.

Tenants as well as owners and operators are eligible for this refund that amounts to three cents a gallon on gasoline purchased between July 1, 1959 and October 1, 1959 and four cents per gallon from October 1, 1959 and June 30, 1960.

This is a different refund of gas tax from the state.

Most of those eligible over the county have already filed but there are some who have never filed the proper form.

Those needing the forms may secure one by writing or calling at the County Agents office on the second floor of the courthouse and asking for Form No. 2240.

Forms filed after the deadline date will not receive the refund.

Post Office to Make Acreage Survey

Postmaster C. L. Smith announced today that rural mail carriers will begin distributing 1960 acreage survey cards to patrons on their routes about September 14.

The Post Office and U. S. Agriculture departments cooperatively make this survey each year. These reports, directly from farmers, are the basis for official estimates for Texas acreage of all crops harvested in 1960.

To be sure this community is well represented in the survey, Postmaster Smith urges each patron receiving a card to fill it out and return it to his mailbox.
