10-Day Order Newspapers Re-Adopts Oil Sharply Cut Runs Of April

AUSTIN, April 30 (AP) - The Texas railroad commission, oil regulatory agency in the state, today issued an oil on an industry-wide rather than an individual basis, an office of proration order for the first 10 days in May which re-adopt-ed the permissible production schedules for the first 10 days said today.

The step was taken, the order explained, because the "commission is desirous of making further studies of transportation facilities and the reasonable market demand for crude oil produced in the state of Texas during the

April's 80.

tified May production. They pre-sented the officials with purchas-

ing company nominations of 1,-

563,287 barrels a day for the

ressed the opinion that half of the state's 6,300 independent oil producers would go bankrupt it statewide production would be curtailed to 960,000 barrels daily.

The order covering the first

days in May made no changes in field or district allowables and

specified that 25 fields producing aviation gasoline-crude be shut down on May 3, 9 and 10. They

were closed in nine days in April as compared to the statewide shut-

west central district. Those

day and Thursday and another on Tuesday and Friday. First sessions will be tonight and Friday night.

Wet And Dry Arguments Sound Louder

Interest is suddenly bounding in the local option prohibition election scheduled for all Howard county voting boxes Saturday.

Both dry and wet forces are on the stump this week, making a late but strong campaign for their respective arguments, after a laggardly start in discussions of the wells over the state to be shut

Both sides are sponsoring advertisements in the Herald today. Both plan radio broadcasts tonight and tomorrow night.

Voters will voice their opinions in 14 boxes in the county including the new box 8, at West Ward. school, created out of the western half of the old box 3.

Issue will be for or against pro-hibiting sale of all slooholic beverages. Sale of all is now permitted in the county.

OPA Puts Ceiling On Cotton Goods

WASHINGTON, April 80 479has imposed a ceiling on virtually all types of cotton goods based on a price of 20.37 cents a pound for raw cotton — 1.1 cents below the minimum meetling allowed in the price control act.

The order, announced last night, left the raw cotton price itself uncontrolled, thus requiring the mills to bargain the farmers down from control act provides, in effect, that farmers should not be barred from receiving at least 21.47 cents-110 per cent of the "parity" figure which would give the farmer a purchasing power equivalent to that of 1909-14.

Kansas Tornado Takes 14 Lives

OBERLIN, Kas., April 30 CF)-A tornado ripped through a rural section of southern Decatur county late last night, killing fourteen persons and injuring 13 others. Two entire families were wiped out by the storm.

The small hospital here was jammed and other injured were will be tonight and Friday night. ning may 1. and it'll take weeks to taken to McCook, Neb., hospitals. Class time is two hours beginning plained "and it'll take weeks to straighten them out."

News.

Adequate Supply Of Feed Important Part Of Food Production

An adequate feed supply is an important factor in the success of practically every farm. With the temand for the increased production of food as it is now, it is im-perative that we use feed crops in such a way that the most pounds of butterfat, beef, pork, etc., are

Grain and forage sorghums are the principal feed crops raised in this area. An acre of sorghums fed as silage will go approximately twice as far as when fed in the form of dry bundles. In spite of this fact, only a small portion of our sorghum crops are made into The wonderful feed crop made last year offered an unusual opportunity to the farmers to stabilize their business and increase their incomes if the crop had only been properly conserved

E. R. Eudaly, extension dairyman of the Texas A. & M. college, makes this statement, "It is our experience in Texas that an acre of grain sorghum is worth at least twice as much per acre made into silage as it would be as dry feed." If the dry feed is stored in a stack for a period of two years or longer, the acre in the silo would be worth three or four times as much as the acre in the stack. This is especially true with

dairy cows. In 1933 and 1934, an experiment was conducted at the Hays sta-tion to determine the comparative value of an acre of kaffir fed as kaffir fodder, ground kaffir fod-der and silage. The results were as follows:

	Feed- Gain	Gain per
	Kaffir fodder	17735
	plus 1 pound	17.22.1
1	of C S M139 Ground kaffir	162.59
١	fodder plus 1	
	pound of C S M 2.18 Maffir silage	287.85
	plus one pound of C S M2.14	308.40

Since dry years and short crops occur frequently in this area, the fact that an acre of feed stored in a silo is worth two or three times as much as feed stored in a stack after two years or longer is espe-cially significant. The prospects are good now for

another good feed crop this year.
It is time to begin planning for
the conservation of this crop in
order to make it produce the
maximum amount of butterfat, beef, pork, etc., this year, and to be carried over to provide feed for the drouth years that may come next year or three to five years hence.

In Cotton Seed Oil

Community Use Now

Do not use compound. Peanut oil will work nearly as well as

cotton seed oil.

Use any kind of container that will hold the oil. A large crock or lard can is best. Pack the meat in so as to leave as little space as possible—3 gallons of oil should be sufficient for 100 pounds of meat. Keep covered for sanitary rea-sons. The oil may be used over for two or three years. Meat will not absorb flavors from the oil-

Electric Hog Fence Costs Little, Proves

small cost by using an electric of all farmers—slight in compari-fence, beside electric fencing is son with what we shall have to one way to conserve labor these do with a year from now if we go fact that business and the affairs days when labor on the farm is becoming so scarce. Batteries have been promised in adequate supplies, while fencing material will be increasingly harder to get. In case you cannot get proper material to build a permanent fence, you can use old material on hand coupled with the proper battery and regulator to do the

job. If corner posts are set firmly in the bround, the other posts may be small or stakes may be used. tight wire is unnecessary, as the wire in an electric fence must only be supported in order that animals will come in contact with

ALL RIGHT CHARLIE,

YOU ASKED FOR IT!

The ministers who have been actively engaged in the present prohibition fight, and whose names have been published as endorsers of it set out to make this a "Crusade for Patriotism, Not a Campaign of Personalities," but when you gentlemen descend to that level we will meet you on your chosen territory. Let's look at some

LIBEL. You ascribed statements we did not make to us and having denied

these statements which you yourselves made, you call the Ministers who are

the leaders of Howard County Drys libellers. You know that our statement

that liquor was banned the NEXT DAY after Japan struck was true, and you know we did not say that it was not now allowed. Why do you deliberately

accuse the men chosen by the churches as moral and spiritual leaders of libel

against their own friends at Pearl Harbor by saying we accused them of ALL

BEING DRUNK? You know we made no such statement at any time. Ascribe false statements to us, then call us libellers!

ESQUIRE. When did this publication become a moral and patriotic author-

ity for the people to follow in matters of right conduct? You have read Esquire, haven't you? Don'tiyou think the Bible has some advantages over it

SUGAR. What are the brewers of alcoholic beverages using that 800,000

tons of sugar allocated to them for the manufacture of beverage alcohol, as reported in TIME, if they use no sugar in wine, beer or liquor? Do you guess

ALCOHOL FOR WAR PURPOSES. We know about alcohol being used for explosives, for plastics, etc. in legitimate methods. We know about the

wrangle the brewers had trying to get the hog share of the Cuban imports for 1942 from the Government. We know the Government has TAKEN over certain phases of the alcohol industry, but our idea is they should have it ALL for such war purposes and not for the increase of crime, auto wrecks, and

HOME BREW AND MOONSHINE LIQUOR. Far be it from us to doubt

your authority on how to make Moonshine and home-brew! We know noth-

ing about home brew, but certainly such authorities on morals, patriotism, libel, etc. will be allowed to speak on the matter. Speak up, you Nine Forces,

The I. Q. Do you know of anyone who has increased mental ability by the use

of alcohol? Frankly, don't you know a whole lot of people now in the Insane

Asylums because they drank liquor? Don't you know the Keeley Cure patients have increased many times over since liquor was made legal? Is that a mark

BOOTLEGGERS. Who authorized you to speak for the Ministers you accused of libel, and say they prefer that the liquor business be turned over to

the bootleggers? Don't you know the bootleggers vote wet and also are often

the same guys who sell legal liquor when it is made legal? 'Don't you know

the bootlegger is on the job in Howard County and has been all along? No,

we are against the liquor business legal and illegal and you good and well

But the people know you and they know us. They know the fiquor busi-

ness and whether it's a great moral agency for national defense. They know what it does around Army camps. Sweetwater knew and they put out the beer. Howard County Citizens, Do Right Saturday! Scratch the

Crowell Prepares To Rebuild After Vicious Tornado

dased citizens of this West Texas planned for the victims.

The mayor estimated that 98 per cent of Crowell citizens suffered injury, property damage, or both. community upon the ruins left by a tornado which took the lives of eight persons and injured 125 or more.

Gazing sorrowfully at the desoeommunity upon the ruins left by

Gazing sorrowfully at the deso-lation wrought by the tornado and the fire that followed it, Mayor C. T. Schlagal declared; "This town has taken an awful licking. We're all dazed but the citizens of Crowell will rebuild their town, better than ever. They're that kind of people. They can take it on the chin, hard, and come back fighting."

Mayor Schlagal announced to

day he would call a mass meeting to begin what he believed would be a five-year rebuilding job. Homeless persons slept last night in the Methodist and Chris-tian churches, and 600 spent the night at the school. Many of them took breakfast with the Red Cross on the town square.

Electricity and gas service were still cut off, but the water system was expected to be restored today. CCC and WPA workers were arriving to join volunteer workers in the tremendous clean-

ary facilities for 1,500 homeless Hospitals and homes in adjoining towns took care of the injured, at least 30 of whom were in serious condition.

Service men stood guard over the battered and fire-blackened ruins to prevent looting.
The battered Foard

courthouse, with the stilled hands of its big clock pointing at six minutes of nine, the time when the tornado struck Tuesday night, looked down on a scene of desolation, An entire business block was gutted by fire.

The death list was reduced from 11 to 8 after a careful recreck last night. The revised list included: Tom Jones, 74: Harold Durham. 19; Clara Collins, 12; Lester Donaldson, 60; Marion Williamson, 16; Gary Don Sprinkle, one; Nettle Madue Young, 30; an unidentified baby.

Critically injured were Pelonia Castillo, A. D. Campbell, Mrs. G. W. Sprinkle, Antonio Rios, and two negroes, Arthur Lee Finis and Loli Smith.

Less seriously injured were: month-old baby, a Mrs. Brown, Mrs. S. J. Ferguson, Mr. and Mrs. Pete Campbell, Geneva Ferguson, Mrs. B. M. Young, Mr. and Mrs. J. D. Spiers, Edith Hazel Langford, Mrs. J. F. Anderson, Ruth Cates, Alvin B. Cogdell, L. Adams, Mrs. Marguerite Ross and two children, Sewell, A. Greenway, Mrs. Louise Howell, Mr. and Mrs. I. T. Graves and their daughter Larue, Francis Costello, Edwin Chapman, Kelly Collins, Mr. and Mrs. E. L. Owens, Mrs. George Gates, N. Rivera, Mrs. A. D. Campbell, J. L. Bradford and the following negroes: Alex Criss, Iola Smith, A. W. Jackson, Marjorle Smith, Eugenia Smith and her two children. All of there were in hospitals at

Mrs. Pauline Dreesback was in Quanah hospital. Many strange stories were told of narrow escapes from the

storm's fury. Lewis Beillarn's garage was blown more than 50 yards, but his car, which had been standing inside, was unmoved and undar The roof was ripped off Russell Beverly's fine ho five blocks further on the roof was gone from his office

The storm pulled the west wall from Tom Bell's garage apart-ment, but not a single piece of his furniture was touched.

Mrs. J. Olds opened a storm

cellar door during the tornado and saw that a garage had settled down immediately over her. She slammed shut the door. When she opened it again the garage had

County Bond

could be deciphered here Thurs-

which compared with the monthly average of \$44,269 set from July 1941 through January of 1942, As nearly as bond and stamp officials could make out here, the monthly quota for stamp sales in Big Spring for the month of May would be \$19,700 and \$1,570 for the remaining territory of the county outside of Big Spring.

Still, this monthly quota was considerably under amount figured under the old aystem for Howard county, J. B. Collins, county chairman, been working toward a monthly ebjective of \$125,000.

However, national authorities indicated that the May quotas, based on \$800,000,000 for the nation, would serve as a starter. In June, it was pointed out, the na-tional objective would be \$800,-000,000 and the goal for succeeding months would be a flat billion dollars. From July of last year through January monthly sales over the nation averaged \$437,951,-

At a special committee meeting of retail sales representatives here Thursday morning, C. J. Staples chairman, was authorized to draft a concerted plan of action to stimulate a real stamp buying program. He said Thursday afternoon that he would be ready to report in a day or so.

Children To Skip **Around Maypole** In Friday Event

There'll be dancing around the Maypole here tomorrow, just like the good old days, when children on three playgrounds indulge in some traditional festivities.

At 4:30 p. m. a flower parade will be staged at the East Side playground, followed by the pic-turesque dance and pole-winding by little girls in gaily colored cos-

Again at 5:30 p. m. at the ABC park and at 7 p. m. at the Mexican Plaza there will be almost identical programs. At the latter two places the Maypole will be placed in the center of the circular wading pools. The recrea-

Mrs. Gordon Phillips' Mother Succumbs At Home In Baird

Funeral services were scheduled for 4 o'clock Thursday afternoon in Baird for Mrs. J. B. Cutbirth, mother of Mrs. Gordon Phillips of Rig Spring. Mrs. Cutbirth, 85, a long-time resident of Baird, suc-cumbed at her home there at 11:20 Wednesday night, following a long

Plains cemetery beside the grave of her husband, who died in 1922. The Cutbirths settled in Callahan ounty in 1877, a few months before the county was organized, near the present site of Clyde. After organizatin of the county they moved to Belle Plaine, the first county seat, and lived there until the Texas and Pacific railway came west through Baird. That same year they moved to Baird where Mrs. Cutbirth had maintained her residence. The Cutbirths

in ranching until her death. Besides Mrs. Phillips, six other children survive: Mrs. George B Scott, Cross Plains, W. L. Cut-birth of near Baird, Fred Cutbirth of near Cross Plains, Mrs. Russel Hart, Baird, Mrs. Fred Heyser Putnam, and Mrs. Howard Farm er, Baird. FACTS vs. FANCIES

The Record Shows

Prohibitionists say that the liquor industry collects \$8.50 for each \$1 that they pay in taxes.

FACT: The Federal and State tax on a quart of whiskey is \$1.33*. The amount is fixed by law and tax stamps are affixed to each bottle. Thus on the basis of Prohibitionists' 8 1-2 for I "statistics" a quart of whiskey in Big Spring would cost \$12.63. (*This is a direct tax and does not include income, property, social security, or other business privilege taxes or licenses.)

Prohibitionists say that U. S. liquor consumption is 14.4 gallons per capita and that the increase is "appalling."

FACT: For the 131,669,275 people of the nation in 1940 the U. S. Treasury shows a consumption of 142,246,840 gallons—a per capita of 1.07 gallons, Texas, with 6,414,824 people, consumed only 4,-177,250 gallons-less than three-fourths of a gallon per capita, the Texas Liquor Control Board reports show.

"An appalling increase?" During the period of greatest Prohibition gains in history, from 1906 to 1907, when the Anti-Saloon League claimed 87.8 per cent of the nation dried up, per capita consumption climbed from 1.47 to 1.60 gallons-one third greater than today.

Prohibitionists say legalization increased auto traffic deaths.

FACT: The unbiased and authoritative National Safety Council shows that for the last six years of Prohibition, 1927-32, there were 1.71 deaths per ten million miles traveled. But for the subsequent first six years of legal sale, 1934-39, there were only 1.53-a decrease of .18 per cent. The Council records also show that the highest death record was 1.99 in the dry year of 1925; the lowest was 1.21 in wet 1939. And this in spite of faster cars and highways.

Prohibitionists say legalization has increased crime. National and Texas Dry leaders quoted J. Edgar Hoover to this effect, until he denied making such a statement in a letter of Nov. 6, 1989.

FACT: Hoover's Federal Bureau of Investigation of the U.S. Department of Justice shows marked decrease in major crime in a report for the first five full years of Repeal as compared with the last five full years of Prohibition. This government record for the Nation shows that murder and non-negligent manslaughter decreased 15.4 per cent, negligent manslaughter 15.1, robbery 29.5, burglary 11.2 and auto thefts 34.4. Further, the F. B. I. Uniform Crime Report, 4th Quarterly Bulletin, 1941, shows the three remaining dry states which prohibit legal liquor as having more per capita murder, aggravated assault, burglary and larceny than does the Nation as a whole.

Prohibitionists say liquor was responsible for what happened at Pearl Harbor and that Prohibition is desirable for military areas.

FACT: U. S. Supreme Court Justice Roberts' Commission completely War Stimson, Chief of Staff Marshall, Texas' Corps Area Commander Gen. Donovan, have said they do not want Prohibition for military camps. Beer and whiskey may be had in army camps regardless of whether the county is wet or dry.

Prohibitionists say local option laws, can be enforced and bootleggers kept out.

FACT: When national Prohibition leaders were opposing local option for legal sale, they asserted that dry areas cannot be made or kept dry with wet areas nearby. This, our present contention, was asserted by Bishop Luther B. Wilson in his opening address to the convention of the Anti-Saloon League in June, 1919; by the Rev. Purley A. Baker, late general superintendent of the League; by Ernest H. Cherrington, a leading dry who wrote "The Evolution of Prohibition" (See p. 280) and by the entire Anti-Saloon League in its "Ratification Hand-book" (see p. 20)

The foregoing, dealing with only a few of the Prohibition "fancies," are neither wet facts nor dry facts, but just plain facts of public records of recognized authorities.

Let the record speak for itself.

May 22 Proclaimed Nat'l Maritime Day

WASHINGTON, April 80. (A) WASHINGTON, April 30, (P)—
President Rooseveit by proclamation today set aside May 22 as
National Maritime Day and called
for public recognition of "the patriotism and courage of the officers and men of the cargo ships in
the victory flest" and of man in
shippards and factories "whose labor and genius go into their construction."

struction."

May 28 is the anniversary of the sailing of the steamer Savannah from Savannah, Ge., in 1819 on the first successful trans-ocean voyage under steam power. Congress voted in 1985 that each year that date be designated National Maritime

to keep key transport centers safe.

Rains Delay Farm Work

AUSTIN. April 30 (P)-Continued heavy rains delayed preparation and operations in a large part of the state last week, the U.S. department of Agriculture and Texas agricultural service reported.

The services said torrential downpours and floods damaged sections of North and East Texas and widely scattered points reported hall losses.

Field work was interrupted in all general farming areas, except in the northwestern part of the state, where moisture conditions were favorable, and in the coastal bend area and extreme South Texas, where rains still were needed. Grains made satisfactory prog-ress and further recovery from greenbug damage occurred where

acreage had not been lost. Ranges responded to the abundant to excessive moisture supplies and put on new growth rapidly, and over most of the state were in good to excellent condition. In some extreme southern counties new growth was further delayed by continued dry weather.

Sheep shearing was getting well under way as weather permitted. With the new grass growth all classes of livestock were making very satisfactory gains.

AFL, CIO Agree On Wartime Rules

WASHINGTON, April 30. (F) -The presidents of the AFL and CIO were disclosed today to have agreed on a procedure for settling all union jurisdiction disputes for the duration of the war.

In brief, the agreement provides for mediation of such disputes by labor's representatives on the war labor's representatives on the war labor board. If that fails, the

All-Out War On Business Front

If the mass of American people the solution of the solution of

administrative control action ever American people and their business result in taken by this government, in the will be better off for the govern- later date. practically every consumer commodify. It will affect every American, whether he be producer, merchandlaser or consumer.

It is the answer to
those critics of democracy who
claim that a governmental machinery controlled by the people is too
slow and too ponderous to achieve temporarily and only to forestall a

month.

For, on May 11 and 18, there becomes effective the most sweeping out, and that in the long run the ward spiral of prices that can only ishment of price ceilings on mental action. It is the answer to

result in economic disaster at a

If we are yielding some of our

we are foregoing some profits that we would expect in normal times, let us remember above all that these are no normal times and that a victory over our Axis enemice demands all-out warfare on the business front just as much as it does all-out warfare on the military front and the home front. The president himself has re-

minded that the program for stabilizing our cost of living calls for great denial and self sacrifice. "Never in the memory of man," he said, "has there been a war in which the courage, the endurance and the loyalty of civilians have played so vital a part."

We have said before that this country faces a change of living, if the war is to be won. Of course the war will be won, and of course the American people are willing to accept a change of living.

Piano Ensemble Welds City Might Be Farmers Busy Music Of Many Into Listed If Made With Planting One Harmonic Melody 'Critical' Area

By MARY WHALEY

Try to visualize 80 fingers playing in rhythm on four planes and mrs. Omar Pitman directs the enyou begin to get a small idea of semble. the plano ensemble which will open Music Week Sunday after-noon with a program at 5 o'clock at the city auditorium.

Try to imagine six weeks of practicing three and four times a week and you get a small idea of the amount of work which the group of pianists have spent on this program to be given free of charge—the Music Study

Last night I attended just an other practice session of the group at the Moreland Music company. Seated at the pianos in pairs were Mrs. King Sides and Mrs. Stormy Thompson, Mrs. G. H. Wood and Mrs. Anne Gibson Houser, Mrs. J.

TACKLE

BOX!

The familiar "Light Cavalry" from one instrument. The shading, tonal quality and rhythm of the difficult selection seems to come easily from this group of musicians. But they'll tell you an-

other story.

Hours of going over and over perhaps just one bar of music and nights of practicing alone and together has welded the group into making 80 separate fingers play as one. Like a team of any kind, there are no individual starts and

Another number which the ensemble will play Sunday is the "Hungarian Rhapsody" No. 2 by The beauty of this wellknown composition can't help but stir your heart as you listen.

Another feature of the Sun

tion of five pianos with three pianists at each piano to make an ensemble of 15 persons playing at the same time. The P-T.
A. Mother Singers will also sing

The public is invited to attend the Sunday afternoon program and other programs scheduled throughout the week by the Music Study club.

Stanton Pensioner Aids In Navy Drive

STANTON, April 25 (Spi) From her monthly pension check of \$15, Mrs. Luella Standefer of Valley View community subtracted \$1 this month for Navy Relief. "If all the old age pensioners would contribute \$1 to the fund the state would soon have its quota raised," she pointed out. She had two sons in World War I; a grandson is in the navy now.

Baptist Seminary Head Will Retire

FORT WORTH, April 29 (49) Dr. T. R. Scarborough has announced that he will retire in August as president of Southwestern Baptist Theological seminary after 27 years.

The veteran educator, thrice president of the Southern Baptist convention and a widely known preacher, author and financier, is quitting because of ill health and will retire at the age of 71 to his residents. Mounted policemen were farm home near Edinburg.

would be frozen in the immediate overture by Von Suppe was the first rehearsal number. The music rolled from the planos as if rental area because of the army air corps school-and if price hikes warrant it.

Price Administrator Leon Henderson's order of last night affected rentals only in defense areas, later rains to bring up cotton. including 57 Texas counties. His office has the power to extend federal controls over any area, and Washington information has been all along that steps would be

Requests already have gone forward from here asking designa-tion of the city as a "critical" area, in order that plans might go forward for providing housing ac-commodations for the influx of people due in connection with the With such a designation might come an order controlling rentals as of a prior date.

Negroes Moved Into New Detroit Area

guard of more than 1,500 state troops and city and state police, negro families began moving their furnishings Wednesday into the Sojourner Truth housing project. scene of rioting two months ago between negroes and residents of the surrounding predominantly white neighborhood.

The troops, in blue-gray uniforms with bayonets fixed on their rifles, took up their stations before dawn,

Not until 9 a. m., however, did the first negro family arrive with its household goods. The parents and two children rode in a taxicab ahead of the moving truck which was followed by an automobile carrying plain clothes police

This little cavalcade entered the section without being disturbed.

State troops guarded the immediate vicinity of the 200-unit housing project, challenging all who tried to enter. Outside their lines were city and state police, patrolling streets to prevent any formation of large groups of protesting white

ending to vital spring chores.
With added rainfall last week, while definite information had most farm and ranch people were not come from Washington, there optimistic about prespects for the was reason to believe that rents year, and planting of crops was well advanced.

A large percentage of the county's sudan — increasingly impor-tant as summer pasture for livestock-has been planted, and cotton planting is well advanced. Majority of farmers seem inclined to risk heavy weed infestations and other dangers of early planting rather than risk the coming of Some are hedging by planting

some of their cotten acreage now, delaying until mid- or late-May to plant the remainder, Several Howard county farmers have applied to the AAA office taken if prices went up out of for permits to buy peanut seed, in following the government's plea for greater peanut produc-

Several hundred acres in Howard county are due to be seeded to this crop within the next five or six weeks, whereas previous years has seen planting

Pythian Officials **Meet With Local** DETROIT, April 30 (4) Under Lodge Members

Members of Frontier Lodge No. 43, Knights of Pythias, held a stated meeting in the Woodman Hall Tuesday night and were Hosts to visitors from Lamesa, San Angelo, Pampa, Wichita Falls, Abilene and Weatherford. It was the first meeting of the local lodge since February 8, 1939.

Presiding over the session was John Ellis, district deputy grand chancellor, of San Angelo. Barney Ashley Sr., grand inner guard, also of San Angelo, spoke concerning the activities of the Order in West Texas, and Maxlee Fann, state field representative, of Pampa, discussed the progress made in reorganizing the Big Spring organiza-

Keynote speaker of the evening was Theo Yarbrough, grand keepe of of records and seal, of Weatherford. He stressed the fraternalist's place in the countrys' defense program and spoke of the activities of the Texas Pythian Home at Weath-

T-1513 Sammle Downey ess Woody Takes ore Honors In larkmanship

STANTON, April 25-Jess Woody of Stanton added more laurels to his long string as a marksman, in winning four first places and breaking one national record in the annual spring meet of the Austin teachers at Garner, C Rifle club, held in Austin last ton and Garden City.

Woody shot a 298x300 in the third match of the day to best the mark of 205 held by Al Hemming, De-troit policeman. He also took first place in No. 1 match with 196; in the No. 4 match with 187; in the No. 8 slow fire aggregate with a 581x600; and won the grand cham pionship aggregate with a 1359x 1400. Woody is a national N.R.A. .45 civilian champion and the reg-

National Employment The Week Coming Up

National employment week is but one week away, C. R. Rodden, local manager of the United States Employment Service, re-minded Saturday in calling atten-

minded Saturday in calling attention of the public to the data.

Under proclamation by President Roosevelt, the week has been set aside as a time when amployers are urged to give especial consideration to the employment of client workers, especially veterans of the last world war.

The nation can well use the experience and skill of these past to in the gigantic war production program and in job training, said the president. He appealed that they be given an opportunity to "take their place in and add their efforts to the war production program." Those who have openings were asked to list them with Users.

Softball Play To Start Next Week

There will be but one league this season — a slow one — and fireball pitchers will be barred from competition. Just when a pitcher is too fast will be decided by the executive committee, composed of team managers.

This year's edition might be termed an economy one, for entry

Games will start promptly at

140 Farmers

ors in the nation, have a responsible role to play in winning the war, said a message from Dr. H. H. Bennett, chief of the USDA soil conservation service in Washington and the outstanding authority of

the world on the subject "Conservation on this side of the ocean means salvation for those on the other side," said Dr. Bennett. Otis Witham Grafa who spoke from 39 years of experience. He listed six ways in which conservation is hastening the days of Allied victory.

1) Conservation of soil and waputting every acre of land to work on the production job it is best suited to perform; means the elimi-nation of waste in farming; means by controlling erosion, by drain-age, by irrigation, etc.; means as-T-1506 Sidney Pat Garrett surance that crops will be pro-T-1507 Herman Houston duced in spite of drouth, rainstorms, wind, snow; means assur-T-1508 Roy Burk Williams ance that the agricultural plant will not break down in the middle

of the war. The 160 farmers cooperating in the district program have had 900 miles of terrace lines run this spring and otherwise have under-taken the utilization of available machinery in the planning of a sensible and concerted conserva-

tion campaign.
Assistance in planning and establishing conservation farming systems may be obtained by application to the district supervision who are: E. T. O'Daniel, Coahoma, who are: E. T. O'Daniel, Coahoma, R. N. Adams, Ackerly, Mr. Heald, Flower Grove, Gordon Stone and M. C. Koonce, Lenorah, Also applications may be left at the SCS offices in Big Spring or Stanton, the county agents' offices in Big Spring, Stanton and Garden City agents, Stanton and Garden City or with the vocational agriculture. or with the vocational agriculture

Cauble Family **Holds Reunion**

the city park Sunday afternoon by the J. N. Cauble family. Pictures were taken of the

tures were taken of the family groups.
Attending were Mr. and Mrs. J. N. Cauble, Dee Gerald and Jane Thomas, Mr. and Mrs. Dee Foster and Mary. Mr. and Mrs. Dee Foster, Jr., Mr. and Mrs. D. R. Gartmann, Mr. and Mrs. J. H. Coots and Bud, Mr. and Mrs. J. W. Coots and Shirley Marie, Mr. and Mrs. D, J. Shappard and Patricia and Jeanetta Lee, Mr. and Mrs. Donald Anderson and Donnie, Mr. and Mrs. Eugene Thomas, Mrs. Earl Wilson and Beverly and Glenda.

Play will start next Tuesday on the 1942 softball season. H. F. Malona, city-WPA recreational supervisor, announced Tuesday following a parley of managers of six teams to be represented in the current chase.

Quick Lunch, Vaughn's, American Business Club, the Liona, Boy Scout Troop No. 2 and Garcia Grocery were represented at the league organization meeting, and Tuesday/there appeared a possibility that Radford Grocery and possibly one other would be represented.

Tees were held to \$2.50 and no umpire fees will be paid in contrast to former years. Managers will agree on the arbiters at game time.

Play proper will be based on a straight season with the winner current of the total entry fees. Championship will be settled by a Shaughnessy play-off in which the top four teams will have a chance. Winner will get 45 per cent of the fee total and the runner-up 12 per cent. League treasurer will be V. A. Whittington.

Games will start promptly at

"A second wedding ceremony Mr. Nelson dressed in an oxford marked the 50th wedding anniver- gray suit. Mr. and Mrs. J. H.

Mrs. Duane Griffith was at the register and Mrs. Albort McKinney was guest host. In charge of the gifts were Mrs. Jim Crenshaw, Mrs. J. T. Davidson and Mrs. Eugene Long. Assisting with the serving were Mrs. Hoyle Nix, Mrs. Ben Nix and Marie Long.

Others present were James Simms, Helen Hendricks, Sgt. Charles Nelson, Marie Ladd, Addison Nelson, Mrs. G. W. Webb, Mr.

son Nelson, Mrs. G. W. Webb, Mr. and Mrs. J. F. Wolcott, Mr. and Mrs. Jeff Cross and family. Participate In

'Grow A Garden' Is Patriotic Cry: Hints Are Listed

By Ur. D. KENDRICK .

"Buy a Bond" as a part of the efforts of farm people this year to time may come when there will n help hasten victory in this war, be certain kinds of food to sen Our nation needs every ounce of Imagine how you will feel if you food that good soil and able hands have been a party to creating such can grow, but we have no time, seeds or tools for wasteful planting, so our gardens need careful But there is another and a still But there is another and a still

and has a high germination. Planting instructions that come on seed packages from reliable seed com-

Don't cultivate too deep, because vegetable roots are shallow, and if they are injured, the plant does not grow so well.

Be on the lookout constantly for disease and insect attacks. Plant-ing disease-resistant varieties of seed is a good practice. If disease or insects get under sey, the hest thing to do is find out what is causing the trouble. For complete information on disease and insect control, ask your county agent or write the United States department of agriculture, for Farmers Bulle-tin 1871, "Disease and Insect of Garden Vegetables."

After a good crop of vegetables have been grown, you can lose a lot of flavor and food value. One mistake in harvesting is in not harvesting soon enough. Another is in harvesting before you are ready to use your vegetables. The sooner you cook them after they are picked, the better they will taste and the richer they will be in food values. Don't fool yourself that

down a hill; don't use too much seed: don't plant too much of one thing; don't let the pole beans black out the beets: don't wield too heavy a hoe; don't spare the water; don't let the weed crop win; don't let the bugs beat you to it; don't

Need For Certain Types Of Food In Wartime Explained

By O. P. GRIFFIN This article will attempt to clear up some misunderstanding relative to the "Food for Victory" program. Questions have been asked about whether there will be a market Louise Ann Bennett, daughter of for the food after it is produced.

But why insist so much that A cup will be sent to Miss Bennett as her trophy award. This marks the second time in four states that Big Spring students, taught by Miss Lillian Shick, have placed in state competition. Since our garden and truck crops are consumption. If our people we have consumption of the consumption. there will be no tournament next for home consumption. If our peoyear due to the war, the cup will ple must continue to buy their food remain in Miss Bennett's posses-in cans, there will be that much sion until the tournaments are re-less for shipment abroad. If the

enough to supply their home that will release vant quantities food for war uses

The Japs were able to gy the garrison on Batsan Pe "Grow a Garden" will rank with That, of course, was because because our boys did not have f

more important reason for growing If you live on a farm, you should garden and truck crops. Fresh

If you live on a farm, you should have a garden. That is one way you can make your family and our nation strong. Trucks, trains, and ships that do not have to work for you, bringing food from distant places, can do more work for others less fortunately fixed than you. If you live in town, and have good land available, you should have a garden, the vegetables you raise can enrich your family's meals. If you have gardened before and can extend your planting, so much the better. You can give your surplus to others who do not have land for a garden. Grow what you like to eat, but select varieties best adapted to this locality.

Take care of the soil," is the gardener's first command. Don't work your soil when it is too wet, it should be dry enough to crumble when you press a lump between your fingers. Have the seed bed in good condition before seed are planted. One of the best ways to insure a good harvest is to start with good seed. Good seed is seed that is free of weeds and disease, and has a high germination. Planting instructions that come on seed

res it may come a drouth and some of the things you plant will not make anything. But isn't that true of anything you plant. And it you will feel a lot better when you have to go to out, you must cultivate regularly.

Yes it may come a drouth and some of the things you plant will not make anything. But isn't that true of anything you plant. And if you try and fall you will feel a lot better when you have to go to the store and buy those foods that are needed to be shipped abroad.

Experiments Show Overgrazing Cuts Profit In Cattle

The rancher probably has less experimental work on which to base his operations than any other industry. All large industries maintain a special experimental staff to test the various methods used in the hustings. used in the business and the open tions of the industry are based up on the results obtained. Fortunate ly, the experiments that are bein conducted on range land bear out the belief of most programive ranchers that reasonable stocking pays greater dividends than

heavy stocking.

The New Mexico Range Experimental Station has found that 78 cows on a given range produced a 90 percent calf crop with a total over-size vegetables are always better than average size. They usually months, while 116 cows of equa are not as good.

A dozen "don'ts" for gardeners are: Don't start when you can't finish; don't waste good seed on crop weighing 8,400 pounds at the breeding and quality running on

bad soil; don't work ground when same age. The 78 cows then too wet; don't run rows up and brought in \$768 more than the 116 cows, if beef is figured at 8 cents per pound. In Oregon similar results were obtained. The following is a mary taken from Bulletin 397.

mary taken from Bulletin 397.

"A range will produce the maximum amount of beef per acre when there are barely enough cattle on it to consume the grass. If there are any more than this, the total amount of beef produced will be less, while if the number is doubled, they will live but make no gains. In view of the fact that the crop of grass is always uncertain. crop of grass is always uncertain, more beef will be produced in the long run if we carry a for les stock than the range will suppor in average years. A steer shoul a pound a day for every day he is out. One hundred steers would make 100 pounds of beef a day. Put 150 steers on the same range and they will gain one-half p and they will gain one-half pound
a day, or 75 pounds for the 160
head. Put 200 steers on the asme
range and they will gain nothing.
Similarly, 30 pounds of affaifa a
day fed to one 800-pound stear will
make a pound of beef. The same
hay fed to two steers will keep
them alive, but will make no gain.
Many of our ranges would no them alive, but will make no gain.

Many of our ranges would produce more beef and cheeper beef if they were stocked less heavily."

In our present effort to produce more beef for the Food for Freedom program it would be well to keep these facts in mind since we are also obligated to conserve our range land for future economical production and if we stock too heavily, now, we will not accomplish either purpose.

Coffee Gets Welcome news came by several roundabout channels to Mr. and Mrs. B. Y. Dixon and family last night and today, They learned that their son, Floyd, a seaman second class who weathered the terrific assault on Wake Island, was alive in a Japansee prison camp. It was the first word they had had of the fate of the local sallor since Christmastima. A few days after Christmastima. A few days after Christmastima. A few days after Christmas they had received a Christmas card with the terse message "To all the family, love, Floyd," dated December 14. Menday night the Red Cross announced that through the International Red Cross committee in Geneva, a partial list of prisoners had been received. Floyd Dixon's since February, 1841. The Ax, Too

WASHINGTON, April 28, UP "Here are the keys to the pastry, jeeves; I feel like having some caffee and sugar with my cream this morning."

"It's not quite as bad as that, but a start may have been taken with the announcement that a 28 per cent cut has been ordered in the consumption of coffee.

To Continue Construction

Washington with orders which will of the Youal unit.

He and that the War Produc-Board had given orders above three per cent in the 10 on of construction work, sek ago when the job apparent igged on WPB regulations. Failing to get the matter straightened out by telephone, Bryan left last week for the national Rural Electrification Administration office in St. Louis. From there, a REA official acanied him to Washington.

The "B" section job was startwhen five miles of holes had been dug and poles strung along 15 miles. McClure Electric Co. of Dallas had contract for the ork and was in process of assigning 75 men for a rapid comletion. Notified by Bryan, Mc-Clure was back at work,

The line is set up for 163 miles serve around 330 consumers in Howard, Martin, Midland, Glasscock, Borden and Dawson coun-ties. It will reach into the three latter countles for the first time and will serve more than a score of dairies in this area, said Bryan.

Requests For Sugar Have To Go Unfilled

Spring groceries are still asking for sugar, although Uncle Sam says they can have no more until ration cards are issued next week.

And when the grocers tell them. Sorry, but we can't sell it until sext week, and only then if you have a ration card," most of them are taking it pretty cheerfully.

teason for continued requests sugar, although sales were sen Monday night, apparently is that many householders are una-ware that sales have been stopped. This is despite the fact that the newspapers have repeatedly warned that sugar sales would cease

wever, there were few if any being worked. Most of those asking for sugar had a few pounds on hand, were buying simto replenish their stocks. Few ed that there would be a before ration books are ed, and these no doubt can from their neighbors
