The Sophomore Class of Rising Star High School wanted a visible, permanent reminder of their friend and classmate, Meredith Hamblen, who died in a vehicle accident earlier this year. A live oak tree now stands on the school campus as a living, growing memorial to a girl who personified joy and laughter to her fellow students. The tree planting was organized by Sophomore Class President Jason Cook and was supervised by Meredith's grandfather, Rex LeBlau, who made the tree available to the class. Several class members took part in the planting the week before school was out.

## Singing at Amity Nears Century Mark

The First Sunday in June Singing at Amity Church, a tradition of almost 100 years, was well attended with 110 persons registering. Many were from this area and others came from such places as San Antonio, Midland, St. Louis, Mo. and Washington, D.C. The services, dinner on the ground and singing were very much enjoyed by those attending.  
Among the topics discussed at the business meeting were a proposed workday and an attempt to pinpoint the date of the first annual singing.  
When the work day is set, perhaps in the fall, several "able" bodies will be needed for the physical labor. The group plans to include work on graves of persons who no longer have family members living to help tend the cemetery. If you have family buried at Amity Cemetery and are willing and able to help at the workday, please contact Cindy Wood or Homer G. West.  
When were the first annual singings held at Amity? If you have family histories which would help establish the date, please contact Homer West. Suggestions

## Weather

Rising Star received more rain last week after the storm which netted our area 4.2 to 6.5 inches, deluged Cross Plains with 9 to 10 inches and caused heavy flooding in Comanche, Brownwood and Early last Tuesday night and Wednesday morning.  
Clouds which appeared to be full of rain and hail bypassed Rising Star Thursday afternoon after dumping their load on Carbon, Okra, De Leon and Comanche. More clouds blew in and added .6 inch of rain to Rising Star later in the afternoon.  
At least five showers added more moisture to Rising Star Friday. The last shower, late in the afternoon, was the heaviest. A report from west of town gave a total of .3 for the day.  
Reports from in town for the rain last Wednesday morning ranged from 4.6 to 5 inches.  
Rising temperatures, coupled with high humidity, have caused considerable discomfort this week.

## CJC Summer Production "Tied To The Tracks"

Cisco Junior College's opening summer dinner theatre production of "Tied To The Tracks" has required hard work and much effort from many sources but perhaps none as great as that of Tom Brown, the director and designer of the production.

Tom has an extensive background in theatre, first becoming interested in theatre his junior year of high school when he performed in a "Some Like It Hot" type of comedy. The production was such a success that he did an encore performance the following year. His interest and involvement continued on varying levels but was really "sparked" when he met his future wife, Carol, who was then the director of Temple Civic Theatre. Since that time he has been involved in an average of one show a month, serving as actor, director or designer for such productions as "Cat On A Hot Tin Roof," "Stop The World I Want To Get Off," "West Side Story," "Mary, Mary" and numerous others.

With his extensive background in theatre workshops, seminars and productions, Tom is well qualified to direct "Tied To The Tracks." "I prefer dinner theatre. You can sit comfortably with your friends in a much more intimate at-

mosphere. The informal, friendly atmosphere," he states, "make a viewer more at ease and therefore, able to further enjoy the show."

In the case of "Tied To The Tracks", he has capitalized on this attitude to the fullest by staging the play in such a way that "everyone will have a front row seat at one time or another." The play, which is performed in the Rockwell Lumberyard with the set all around the audience, fits this sort of staging very well.

However, setting up a professional production involves hard work and much time. In an attempt to put the show up on schedule, twelve and thirteen hour days are required. It is not all "fun and games", Tom emphasizes. "Most people's attitudes about theatre are influenced by the connotations of the word 'play'. People always ask me 'Don't you have a REAL job?' Entertainment-quality entertainment is a real, perhaps the hardest one around."

Hard work and time should pay off, however, as Tom describes the show's cast as being professional and extremely hard working. "They came to Cisco prepared to work and have had undying eagerness and enthusiasm under some pretty unusual conditions. I'm lucky to be working with

them." Tom sums up his feelings about dinner theatre this way: "Anyone who has ever planned and organized a big party for more than twenty people can get an idea of

what preparation for dinner theatre is like." Hard work, maximum effort and good direction promise to make "Tied To The Tracks" as enjoyable as any well organized party.

"Tied To The Tracks" will be performed June 9-11, 15-18, at the Rockwell Lumber Yard. Dinner will be provided by ARA Food Services. Should the weather

not permit service outdoors, the production will be presented these dates at the Hilton Dinner Theatre. ## 'Diary of Adam and Eve' at Majestic Next Week

'THE DIARY OF ADAM AND EVE' represents two significant 'firsts' in history. It is the comical but touching look at the Earth's first couple and it is Penguin Productions' first show written for an adult audience.

Penguin Productions is by no means a newcomer to the theatre world. The company has been around since 1978, touring Texas and surrounding states with quality children's plays. The 1987-88 season was 'Three Little Pigs', 'The Night Before Christmas 1987' and 'Little Red Riding Hood'.

Rena Newton, Artistic Director, writes all the childrens scripts, which now total twelve. 'The Diary of Adam and Eve' was written by Sheldon Harnick and Jerry Bock, based on a story with the same title written by Mark Twain.

Rena is excited about doing an established play that is a proven crowd-pleaser. It was produced in Broadway by Stuart Ostrow.

Producer of Penguin Productions, Bryan Lake, explains that there were so many pleased sponsors of the childrens show asking for something for adults, he decided the time was right to make that step. Bryan feels that 'The Diary of Adam and Eve' is a play that will appeal to all adults without offending anyone. The dialogue between Adam and Eve is very funny, especially to married couples.

When the show appeared on Broadway, Allen Alda played the part of Adam. In this version, a very capable actor named Don Colasanti will play the role. Mr. Colasanti currently teaches art and drama at the Crockett Episcopal School. Before teaching there, he had much experience mounting touring productions of his own. The part of Eve will be played by Rena Newton and Bryan Lake will be the Snake.

Tickets are now available at the Majestic in Eastland.

## McGruff Program Successful

It is not always easy to get people to agree on the best ways of doing things - especially on drug or crime prevention.

But there is one program which everyone has a positive feeling for - the McGruff Drug Prevention and Child Protection Program in the Cisco, Carbon and Eastland Elementary Schools.

The McGruff Program includes a bright-eyed, approx. 2 ft. high dog puppet for each home classroom. This human-like character wears plaid trousers and a snappy jacket, and uses the slogan "Take A Bite Out Of Crime." The series is designed to be presented once each week for 32 weeks, with each lesson about 15 minutes long.

McGruff is manipulated as a puppet by each classroom teacher, and comes equipped with cassette tapes containing messages delivered in an appealing, growly voice. Sometimes McGruff delights the children by singing, or captures their interest in other ways.

The detailed information on crime and drug abuse prevention is arranged to communicate with children from Kindergarten through the Sixth Grade.

Prevention of child abuse is the focus of the Kindergarten lessons, with topics such as "Stranger Danger." By the time children reach the Third Grade they have special lessons on traffic safety, and "Drugs Make You Sick."

Fourth Graders learn that "Drugs Can Be Dangerous," and their other lessons begin to include bicycle safety. The Fifth and Sixth Grades learn about drug identification, and ways to combat theft.

There are coloring sheets and hand-outs for the children. The puppet and all this material cost around \$60-70 per room.

About two years ago Joe Cooper of Cisco learned of this series and decided that

the McGruff Drug Prevention and Child Protection program would be helpful in the Cisco Elementary School.

Cooper, a member of PADD (Parents Against Dangerous Drugs), appealed to the Cisco Service Clubs for the financing of this project. "They responded 100 percent," he reports. "The material was placed in the school by the fall of 1986."

The school has used the Program for two terms now, and results seem to be good. Robert Lindsey, Principal of the Cisco Elementary School, reports that he is highly pleased with the project.

"The kids love it," he says. "McGruff is getting their attention - this is something different. I think the long-term results are going to be very good."

"I am grateful to all the Clubs that supported it."

# Schools Schedule Project Graduation Soccer Camp

This years' Project Graduation was the party of parties for the area's graduating seniors and its success has probably established it as an annual event destined to become a tradition.

Hundreds of young people and adult sponsors crowded the Cisco Jr. College SUB, which was decorated to create a party atmosphere, giving the impression of a major fair or event.

But this major event for the graduating seniors could have been even bigger and it surely will be next year. There were some conflicting plans and not all of the schools had the same graduation date; Eastland graduated a week later.

School personnel, becoming sold on the value of Project Graduation, have quickly moved to co-ordinate their graduation dates for next year and to prevent future conflicts.

Next year's commencement exercises will be held June 2 and Project Graduation will be that evening and into the next morning.

Starting at 11 p.m. this year after most of the schools' commencement exercises, the seniors were treated to all of the recreational activities available at the SUB, along with a constant supply of food and soft drink. And the fun lasted until 5 a.m.

The purpose of the late-hour ending of the party is to keep the graduating seniors entertained with a safe and well-chaperoned celebration, free of drugs and alcohol, until they are ready to go home and go to sleep.

Seniors from Cisco, Ranger, Eastland, Cross Plains and De Leon were there in large numbers with also quite a few from Albany. Some other schools didn't show up this year, but they are making plans to join the activities next year. The smallest schools in the area, Moran and Carbon, were absent, as was Rising Star and Baird. Dublin is expected next year also. And there were a few seniors from other schools including Breckenridge.

Seniors renewed acquaintances with neighbors and friendly rivals from other schools, as well as visiting with classmates, probably realizing that some of them will be classmates in college.

Everything was free to the seniors during the event, paid for by the many businesses and other sponsors of the area who care about the graduates and their safety on this big day enough to dig deeply into their pockets, even in hard times.

As the music went from modern to tunes popular in eras before the seniors' birth, they danced the dances of those eras and even square-danced and snake-danced. The seniors seemed to be making the most of it, as parents and sponsors, probably not enjoying the late hours as much, milled through the active crowd.

And as if this wasn't enough, there were prizes and gifts in abundance for the new grads. At each intermission of the music, names were called out as the winners of various prizes. There were gift-wrapped gifts, and while most all of the prizes and gifts exceeded ten dollars in value, there were a number of more expensive major prizes. These included TV's, microwave ovens, room-sized refrigerators, typewriters and bicycles - items which might be used at college.

There averaged two prizes or gifts for each senior present, but there was one catch to receiving these items. A senior had to remain in the building until 5 a.m. in order to receive the prizes. And as the seniors left after 5 a.m. with their prizes, a full stomach and maybe their eyes just a little red or drooping, each one was given an additional ten dollars in cash.

Mike Siebert suggests that anyone who needs additional McGruff units may contact him for any assistance he can give.

# Soccer Camp Date

Soccer players, 5-13 years old, are invited to attend a Soccer Camp to be held August 8-12 at the Eastland Soccer Fields. Johnny Russo will present the "Lago Experience" Soccer School.

Russo is a U.S. Soccer Federation National Licensed Coach "B" 1607. He is also a N.T.S.S.A. Staff Coach and a storm S.C. coach. Johnny has studied soccer techniques in Italy and Germany and has played soccer for 8 years in Dallas.

Helping Russo will be Charlie Kadupski, a former professional soccer player with the Dallas Americans. He has been a MISL indoor professional for 8 years, a U.S.S.F. Region III coach, and coach director for the Storm S.C., U.S.S.F. National "A" License.

Kenneth Austin and Hassan Nazari and players who have graduated from "The Lago Experience" and are now playing for N.D.C.C.C.A. Classic League teams will also help Russo.

Cost of the school will be: \$25.00 per player for Program A which includes a T-shirt from Adidas with the school logo; \$50.00 per player for Program B which includes T-shirt from Adidas with the school logo and one leather stitched soccer ball. Both programs require a 50 percent non-refundable deposit and will include all the Dr. Pepper each player can drink.

To register call or write Carla Blackwell at 817-442-4157, Rt. 3, Box 68F, Cisco, Texas 76437. Hours to call Carla are from 6:00 to 9:00 p.m., Monday thru Friday. Deposits must be in by July 1.

The walls in the building were papered in noticeable places with the lists of names of the many sponsors who picked up the big tab.

Would any senior want to miss all of this just to get drunk and be sick the next day, and maybe be involved in a fatal auto crash as a result?

abuse - but that's not the entire thing.

McGruff is displayed each day in the classrooms and becomes a personality. The children really enjoy his character, and look forward to the programs."

The teachers attended an in-service training session to learn how to use McGruff properly. Mrs. Allmand says. She feels they deserve special thanks for their dedication in working with the program.

Both Mike Siebert and Joe Cooper say they realize that the McGruff Program is not the final answer to the drug problem. But it helps, they say, and anything that helps is worth supporting. As small children come through this intensive education they will be in a better position to protect themselves and make wise choices.

Mike Siebert suggests that anyone who needs additional McGruff units may contact him for any assistance he can give.

## Putnam School In 1910

PUTNAM SCHOOL IN 1910--Enclosed is a Xerox copy of a picture from your newspaper that my niece, Jewel Golson of Eastland, recently mailed to me. Several years ago, I mailed this picture, along with several other pictures, to Mr. I.G. Mobley of Putnam. We have corresponded for many years.

The picture was given to me a long time ago by one of my childhood friends, Florence Anthony Hammond of Canyon, Texas. The picture was made in 1910 and is the last student body, grades 1 through 10, to use the old wood school building in Putnam. A new two story school was built of red brick about four blocks southeast from the old building. A teacher was Omar Burkett and he is standing in the top row in front of the middle window. I am in the second row down about half way between the windows. Winnie Rutherford has a scarf around her neck and is standing in the top right hand corner of the picture. Earl Rutherford, Winnie's brother, is in the upper left hand part of the picture. Earl is the father of LaVern Rutherford who is the postmaster in Putnam. The Sandlin boys, Harry, Benson, and Crayton, are standing in the door of the school. The Mobley girls, Ruth, Betty, and Mable, are in the center of the top row. They are I.G.'s sisters. I.G. is in the picture too but I am not sure where he is. My sister, Ila Crosby Culwell, late of San Antonio, is next to Bonnie Wayne Britton and they are standing with two other girls in the lower right part of the picture. Bonnie Wayne is the daughter of Doctor Britton who was a pioneer doctor in Callahan County. He attended gunshot wounds, set broken bones and delivered babies from the late 1800's until his death. Florence Anthony Hammond and her brother Barney Anthony, both of Canyon, Texas and Neil More and Jewel Golson, both of Eastland are in the picture but I am not certain about their locations. I am sure that if I had the original picture, I could identify many more people.

I was born in Ellis County, Texas on June 14, 1896, and was next to the youngest of nine children, six girls and three boys, born to Tom Crosby of South Carolina and Columbia Florence Cates of Limestone County, Texas. The Crosby family moved to a farm in Callahan County in 1896, the year I was born.

Sincerely,

# Publisher Receives County History Book

Taylor Publishing has allowed the volunteer workers six weeks to collect the memorial pages and business histories.

If you are interested in acquiring one of these pages, please contact someone on the History Book Committee or the Chamber of Commerce.

The Eastland County History Book manuscripts have been delivered to Taylor Publishing Co. to be published, and were they impressed!

Taylor executives came in to see the manuscripts, and they said that the Eastland County History Book will be the biggest book that they have seen. They stated that it will probably take the computer two months to process it.

As a result of the Taylor executives being impressed with the new book-to-be

## Estimated Tax Due

The AARP Tax-Aide program is reminding all taxpayers who must make quarterly payment on their income tax that the second payment is about due. The Internal Revenue Service requires that taxpayers owing more than \$500 on their income tax return for 1988 must pay an estimated tax quarterly. Estimated tax is the amount of tax you expect to owe for the year, after subtracting the amount of tax you wish to have withheld from salaries or wages.

The deadline for the second quarterly installment is June 15, 1988, and you may

be charged a penalty for not making the payment on time. Taxpayers who must make estimated payments should use the 1040-ES payment voucher that is dated "Due June 15, 1988," and should also be sure to write on the payment check or money order their social security number and "1988 Form 1040-ES." This is very important so as to prevent the loss or misplacement of your check. All estimated tax payments from Eastland, Callahan and Stephens counties must be mailed to "Internal Revenue Service Center, Austin, Texas 73301" by June 15, 1988.

All taxpayers do not need to pay estimated tax, but if you have any questions or should need assistance, call your nearest Senior Citizen Center and make an appointment with an AARP Tax-

Aide counselor. There will be no charge or fee for the service.

## 'Hay Is Perishable'

The Texas Farm Bureau and five of its members have filed suit against Secretary of Agriculture Richard Lyng and the USDA, seeking inclusion of hay as a perishable crop under the Immigration Reform and Control Act of 1986.

In a letter to Lyng, TFB President S.M. True of Plainview, explained that hay is "perishable, labor intensive, and has critical and unpredictable labor demands." True said hay's inclusion as a perishable crop will alleviate serious labor problems experienced by hay producers.

Eastland County Farm Bureau President Joe Frank McCollum said, "making hay a perishable crop will make it eligible for the Special Agricultural Worker (SAW) program. This is a chance to help livestock producers who have been shut out of this important source of labor."

A similar suit was filed in Lubbock last year seeking inclusion of cotton in the Act. That suit resulted in cotton being classified as a fruit, making it eligible for the SAW program. The five plaintiffs joining Texas Farm Bureau in the suit are Sulphur Springs dairyman Don Smith, Trinity cattleman Russ Arnold, rancher James Wood of Gilmer, and Warren and Anna Madison, ranchers from McLennan County.

## 'Old Rip Day'

What was formerly the Eastland County Fair has been renamed 'Old Rip Day' and this annual event along with the parade is now being sponsored by the Eastland Chamber of Commerce.

Plan now to attend or be a part of 'Old Rip Day' on Saturday, October 1, in Eastland.

Reservations are already being accepted for booth space around the square. The usual day of fun and frolic is being scheduled, so if you want booth space, you need to get your name in early.

Booth space is reserved on a first come - first serve basis. Spaces will rent for \$15.00 again this year. Booth sizes are still 10'x18' with electricity available on the outside of the square ONLY.

We have a nice plat of booth spaces at the Chamber so drop by and pick a spot - or if you know the area you want in - just give us a call at 629-2332.

## FmHA's Proposed Lending Rules

Proposed rules, which could assist hundreds of farmers who are behind on their Farmers Home Administration loans, were issued today, according to FmHA Texas State Director J. Lynn Futch.

The new regulations will carry out portions of the Agricultural Credit Act passed by Congress last December. "There will be a 30 day comment period and additional time for any appropriate changes before the regulations become effective," Futch said.

One of the changes would allow FmHA to reduce the delinquent debt of certain borrowers to help them stay in business. There are approximately 5,000 delinquent borrowers in Texas, many of whom should be assisted with this Program once implemented.

In related actions, the Agency also issued proposed regulations to:  
\* Make it easier for farmers or their families to lease or buy back homesteads that have been lost through foreclosure or conveyance;  
\* Set up a program to help

members of minority and socially disadvantaged groups to purchase farmland and develop an outreach program to carry it out;  
\* Establish a new administrative appeals unit distinct from the rest of the Agency to handle borrower grievances;  
\* Certify and participate in state mediation programs.

Bill Austin, owner of Austin's Furniture, 706 Conrad Hill, Cisco, said his store is undergoing a new pricing structure. The change is made so that he can compete with other major furniture stores.

Austin said he is looking forward to the changes in his store. He said with the new pricing structure, he expects the store's volume to increase. He said it all depends on the people of Eastland County supporting the store, but he believes they will.

Austin would like to invite everyone to stop by his store and check out his new prices. He said he is willing to talk to anyone about his new ideas on helping the economy of Cisco and Eastland County. They are open from 9 a.m. to 6:00 p.m. Monday thru Saturday.

Austin said he believes the

## Homemaking Hints

### From Janet Thomas, County Agent

#### HOW DO YOU LIKE YOUR DENIM?

The popularity of denim clothing is a wonderful example of the old saying that "you can't please all of the people all of the time." For every person who likes faded denim, there seems to be another who is unhappy about creases, steaking or color loss.

Denims Always Lose Dye Changing in most denim fabrics are inevitable because they're indigo piece dyed fabrics. The dye is applied in a heavily concentrated form so the residuals are most on the surface of the fabric. Friction with the body, rubbing or mechanical action during laundering will dislodge the dye particles from clothing.

The loss of color will be most apparent on creases, double seam thickness and edges, since they receive greater abrasion. Heavy denim lacks draping capabilities and retain the same position of creases in the washer and dryer, this also contributes to color loss and streaking.

#### Reducing Color Loss, Creases and Streaks

So what if you don't like the creases and streaks? They can be eliminated, but you can reduce them. Turn the garment inside out for washing if it's not heavily soiled. Underload the washer, increase the water level and shake out the garment before putting in the dryer.

Another alternative is to buy jeans made from a polyester-cotton blend. The dyes used on blends are different from the dyes used on 100% cotton, and are less likely to fade.

#### Fading Your Denim and Jeans

Do you like the faded, streaked look for your jeans and other denim clothes? If you do, you can save some money by purchasing regular denim cloth or clothes and fading them yourself.

At least two companies are marketing products for fading denim at clothing. **Fast Fade For Jeans** is made by the Rit Company. It's a concentrated pre-wash

product designed to fade and soften jeans and denim. The product claims that it fades and softens jeans right in the washer without damage to the fabric.

Old Blue is a denim pre-wash that softens and fades in one washing. It's manufactured by Malco Products, Inc.

#### Cautions On Bleaching And Fading

Bleaching jeans will weaken the fibers, so they will not be as strong and durable as they were before the bleaching process. Commercial pre-wash products may also have a similar effect.

Rubbing wet denim with a pumice stone or rubbing an emery board on seam edges, pockets and other areas to produce a stone-washed or worn look also weakens the fabric in those places.

However, people who like the faded look will gladly trade durability for fashion.

On 12 May 1923 Dave Earnest held a "big, old fashioned barbecue" at his home in Staff Tx in honor of his father, HENRY CLAY EARNEST, on his 100th birthday. According to info found "there were 200 members of the family and guests, who were present and partook of the generous hospitality."

One picture of this wonderful event has 102 people (men, women, & children).

If you were part of this picture or gathering and have memories of this eventful day, or had family who were there, I would like to hear from you. I have found a few who were there but need to contact as many as possible to put together a story. Please write to Jeane Pruett, Pilgrims To Pioneers, P.O. Box 99, Ranger, Tx 76470.

Through my research I have found and have in my possession the ORIGINAL marriage of J.P. BRADBERRY & SUE MONTGOMERY.

### The Next Best Thing -

.....to a clear conscience and a good night's sleep is the feeling of security in owning your own home with a clear title. Peculiar to the real estate field, values are based on land and the improvements thereon, if any. But values on these are based on the title. The title then becomes the most important item to be considered when purchase of real property is contemplated. So be careful to buy good title based on an abstract of title or a policy of title insurance.

## CISCO

The city of Cisco will have their annual July 4 Firework Show to conclude the holiday's activities, according to Don Shepard, Chamber of Commerce manager. The Chamber will again need help from local citizens to have outstanding fireworks, Shepard said. The high cost of the insurance required makes added expense for the Chamber. The day's activities will be centered around Cisco City Park, with food and game booths, the Little Miss Cisco Contests and other entertainment all day long. Everyone from the area is invited to attend and bring family and friends.

There will be a Drug Enforcement Program Wednesday, June 15, at 7 p.m. in the Corral Room, 400 Conrad Hilton Ave. Sponsors of the Program are the Cisco Lions Club and Cisco Police Department. The theme will be: "How Much is a Child's Life Worth?" Three representatives from the United State Justice Department will present a slide show and talk. There will be information about the present situation in regards to drugs in Eastland County, and what can be done about it. The public is urged to attend.

Rodney Sharpe was recently promoted to Superintendent of Postal Operations at the Cisco Post Office. Sharpe took over Melvin Wende's position, vacated when Wende was promoted to Postmaster. Sharpe is a native of Cisco, and has worked for the Postal Service about nine years. His duties will include being the immediate supervisor

over the city carriers. He will also supervise postal clerks and their duties.

Ruth Schaefer Stewart's biography has been selected to appear in the 16th edition of *Who's Who of American Women*. This distinction is given because of outstanding achievements. Mrs. Stewart is a professional educator with certification to teach LLD. She is currently employed by the Cisco School District, and teaches Resource (K-2) in Cisco Elementary. Ruth Stewart received her Masters in Education from Tarleton State University, and also has certification for counseling in public schools. She is the wife of Dale Stewart, well-known sculptor, and assists her husband with the promotion and sales of his work. Ruth is a multi-talented person who also sings, plays several instruments, assists with Church work, writes, and enjoys homemaking.

## BAIRD

Baird's Elementary School's principal, Mrs. Jackie Pruett, was presented an award from the Texas State Board of Education at the eighth grade graduation exercises. The award was for exceptional gains in mastery on

all sections of the Texas Educational Assessment of Minimum Skills for a period of two years - 1985-87. Only 300 such awards were presented in the state, and only four in Region 14. This award recognized the effort put forth by Mrs. Pruett and the elementary staff, as well as the students.

A good crowd turned out for Baird's 15th Annual Trades Day last Saturday. There were arts and crafts, food and music, and demonstrations by the Baird Volunteer Fire Department. At 6 p.m. the action moved from the Courthouse lawn and downtown Baird to the Baird Rodeo Arena east of town. There the Sheriff's Posse presented the first Ranch Rodeo Scramble, with ten teams - each composed of five members - participating. There were ten businessmen from within Callahan County, ten over-50 cowboys and 30 other cowboys. Each of these scrambled teams did team roping and doctoring, penning, branding, and wild cow milking. After this Rodeo a street dance downtown concluded the festivities.

Dyer's Sports Alley will hold their 1988 Super Smash Tennis Tournament on June 23 and June 25.

Headquarters will be at Dyer's at 905 Cherry in Baird. There will be divisions for beginners and adults and Jr. High. Entry fees are \$8 per person per event. For more information, contact Cathy Goldsmith at 854-1340. Entry deadline is Saturday, June 11 at 6 p.m. This Tournament should be very interesting.

## EASTLAND

What was formerly the Eastland County Fair has been renamed "Old Rip Day". This event, along with the Parade, is now being sponsored by the Eastland Chamber of Commerce. The usual day of fun and frolic is being scheduled and reservations are being accepted for booth space around the Square. Spaces will rent for \$15 again this year, with booth sizes the same. Plan now to attend or be a part of this big celebration.

Due to a recent court ruling which changed the law of liability as it applies to organizations such as Fair Associations, the Eastland County Fair Association found it necessary to disband and turn the sponsorship of the Fair over to the Eastland Chamber of Commerce. It was decided that beyond start-up costs of the next Fair, the Association's remaining resources would be used for something to benefit the county. A new

patio is being erected on the southeast lawn of the Courthouse, to make it a meeting place for county residents as they visit the Courthouse. The patio will also be a memorial to people of the county's cities who have worked together to make things happen, including the County Fair.

Master Chefs Lewis Tiner and Jim Wright will prepare their usual great meal for the annual Eastland Chamber of Commerce Bar-B-Que at City Park. This will be June 18, with serving beginning promptly at 6 p.m. There will be entertainment by Al Anderson and his band, as well as a lot of good fellowship. Doyle Maxwell, Chairman of this special event, encourages everyone to come out and enjoy the evening.

Bike-A-Thon Chairman Don Knox of the Eastland Kiwanis presented a check for over \$1,800 to Re-Hab Director Shelley Smith at the local Club's breakfast last Wednesday. Smith, who launched the program 35 years ago, briefed the Club on the Center's work. "We're serving some 861 patients a day at the two units, and the Re-Hab has an annual budget of some \$6 million," Smith said. He reported that the local gift will go toward a matching fund effort for a \$1.30 million grant from the Mabee Foundation for ex-

tensive expansions and additions.

A public hearing for the proposed County Budget for next year and the use of Federal Revenue Sharing Funds (if available) will be held at 10 a.m., June 13 in the Eastland County Commissioners Court. This is located on the second floor of the Courthouse. The public will have an opportunity to be informed and give opinions. Copies of the proposed budget, including revenue sharing, will be available for public inspection in the County Auditors office beginning June 8, as completed.

## RANGER

Roaring Ranger Days 1988 has been set for October 15 this year. A meeting to help plan this annual event was held at Lillie's Coffee Pot Restaurant Monday, and more details will be announced soon. If you are interested in helping with the celebration, please call Phylecia Schooling at 647-3750.

Lacasa Community, ten miles north of Ranger, will be holding the first community homecoming on June 11, at 10 a.m. The homecoming will be on the grounds of the New Hope Baptist Church. Lunch will be served by the community, but those who wish may bring salads or desserts. Visitors are to bring lawn chairs with them if possible. Special recognition will be given to those traveling the greatest distance, the oldest, youngest, past and present deacons, former pastors, and families with the most members present. The first settlers arrived in Lacasa around the Civil War, and several families of the original settlers still reside in the community. Lacasa

was once a thriving town, with a number of businesses.

Steven R. Herod, son of Mr. and Mrs. Bill Herod, has set up a Law Office at 212 Main Street. Steve Herod was born in Ranger, and graduated from the schools here. He received his B.B.A. in Finance from Tarleton State University, and Doctor of Jurisprudence from Texas Tech University School of Law. He will be practicing General Law.

## Drug Program Is June 15

**HOW MUCH IS A CHILD'S LIFE WORTH?**  
There will be a Drug Enforcement Program Wednesday, June 15, at 7 p.m. in the Corral Room, 400 Conrad Hilton Avenue, Cisco. There will be three representatives from the United States Justice Department presenting a slide show and talk. Sponsoring the program are the

Cisco Lions Club and Cisco Police Department. The theme for the program is "How Much Is A Child's Life Worth?" There will be entertainment before the program. The Cisco Noon Lion Club is offering a barbecue meal immediately preceding the program.

A spokesman for the sponsors said, "We need to get people here to let us be an example for the rest of the Big Country. This big meeting is very important. We are pretty smug in this county. We like to believe everything is hunky-doo, but we don't want to wait until we have to dodge rifle bullets to go to the grocery store. This program will be to inform individuals and communities about our present situation and what we can do about it. If we can save ONE child, it will be worth these two months of effort."

The spokesman asked that the meeting be announced at all churches and organizations.

Fliers about the meeting are available by contacting Earl Vernon Ray or Jane Ray.

## Red Cross Seeks Flood Victim Help

Fred Snyder, director of the American Red Cross disaster team, reported Saturday that a total of eighty dwellings or businesses were damaged or destroyed in the Comanche flood area.

There were four homes destroyed and 29 reported with major damage and 40 with minor damage. Three mobile homes suffered major damage and six apartments minor damage. Thirteen small businesses were affected and one public building.

Ninety-seven were sheltered following the flood and 650 meals furnished to those stranded.

It was previously reported that one home was destroyed by a tornado in Jones County but this report has been updated to read two homes.

Those wishing to help the American Red Cross with this relief effort please send your contribution to the Disaster Relief Fund, Comanche National Bank, Comanche.

Members of the Red Cross team that assisted families with food, clothing and shelter came from Wichita Falls, San Antonio, Stephenville, and Temple.

## County Resources Will Meet Wednesday

The Eastland County Resources Association will meet on Wednesday, June 15 at 12 noon at Eastland Centennial Memorial Library. This association was formed to help individuals and families who are in need of food, clothing, shelter and other necessities.

A membership drive for the Association is going very well, according to David Bondurant, President of the group. Various people have assumed memberships, which are \$10 per month or \$120 per

The Extension Homemakers' groups have been working on a County Survey which will list different helping agencies, Bondurant says. The Directory is going well, but volunteers could be used for more typing or surveying.
