# Miss "Cinderfella"

#### "Cinderfella Pageant" A Big Hit By The Office

Hilarious laughter rang loud and long in the gym last Thursday night as the Senior Class presented a "Beauty Contest" with nine senior boys vying for the title of "Miss Cinderfella." Brad "Ms Barnes, Krystal," won that ti tle, with Damon Cooper, Terry Walker and Jon Vaughn runners-up. Other winners were: Most Talented, Ed Anderson; Most Photogenic, Joey McCollum; Most Flirtatious, Mike Cogburn; Chambers, Most Con-

genial; and Clay Shults, Best Dressed. Southern Belle and Hollywood Starlet, Mrs. Kay Gray, acted as M.C. and she did a fantastic job praising and scolding the "beauties," in turn.

Contestant judges were Mildred Childers, Bill Dennard and Dr. Billy Carpenter, who did an excellent job. Ushers were Merlin-

da Munguia, Barbrie Rust, Angela Clay and Joannie Hubbard.

Cashiers were Billy Nall and Craig

Entertainment was also provided by the kindergarten and first grade children singing, directed by Julie Weise and Robbie Rutherford. They did great.

#### Marciel G. Justice Announces

#### Candidacy

Marciel G. Justice, of Carbon has announced her candidacy for the Office of District Clerk of Eastland County. She is a Democrat and has lived in Eastland almost all of her life She is presently employed as a bookkeeper in the County Auditor's Office, in the Courthouse. # Chit Chat

Comments from many who attended the Class's Senior 'Cinderfella Pageant'' have been, unanimously, "I can't remember when I have ever laughed so much," and "It was

hilarious."Those of you who missed it have no conception of what you missed.

The boys really entered into the spirit of their roles as beauties, putting aside natural disinclinations and embarrassment at appearing in public in feminine clothing, and letting sometimes ungainly "female walk," send the audience into gales of hearty laughter.

The inimitable Kay Gray gave an outstanding performance as mistress ceremonies. I personally got a big kick out of her Southern accent. No one could have done better.

I applaud the Seniors of '82 for coming up with this way of raising funds for their senior trip; you can bet the audience received their money's worth in fun and laughter.

Now back to our Spring Clean-up campaign. We do appreciate the Letters to the Editor that have come in and we expect more to be forthcoming. This beautiful weather we're having is sure giving me the clean-up fever-do you suppose it's contagious? Hope so.

Steel is currently a student of Dr. Albert Travis Southwestern Seminary in Fort Worth. A bachelor of music graduate of Hardin Simmons University,he is now a candidate for the masters of music in organ at Southwestern. He has served most recently as organist at First Presbyterian Church

in Abilene. He has served as interim organist at First Baptist here since Sept. 1, 1981. The church voted to elect him on a permanent basis in the January church conference.

"We consider ourselves most fortunate to have attracted Steel to Wax ahachie," said R. G.

Huff, Minister of Music. "He comes to us highly recommended and has already proven his fine abilities to us. He is a very gifted musician who has a real understanding of his craft."

Steel will be playing the church's 32-rank Reuter pipe organ in worship services, accompanying various choirs and groups, coordinating various events, and acting as assistant to Mr. Huff.

"One of the things that is exciting to us is that James will be giving lessons on our pipe organ," Huff con-tinued. "Since we pur-chased our new instrument, we have wanted to make it available for lessons...training some upcoming organists. James has agreed to come to Waxahachie and do some teaching to help us in our ongoing music education ministries. He will also do some instructing in piano."

# Thanks To Everyone

The 1982 Estrellita Yearbook staff wishes to thank the many people who helped make the Coronation a success. The following parents helped with the beautiful decorations: Jo Hubbard, Faye White, Norma Carpenter, Arla Hill, Janette Bass, and Carolyn Walker. These students assisted: Damon Cooper, Regina White, Angela Clay, Barbrie Rust, Lori Finley, Merlinda Munguia, Jeff Rust, Joanie Hubbard, Melinda Finley, Angie Bass, Steve Hill, and Amy Dudley.

Special thanks go to Dorothy Dunn and Detta Webb for lending the wrought iron chairs.

Mrs. Billie Zellman did a great job with the entertainment: the second, third, and fourth grade singers and the Rising Star Concert Band aided by the sixth grade students who chose to play with them.

The following sponsored the program and deserve much appreciation: Billy T. Carpenter, D.O.; Chambers Grocery; Connie's Beauty Shop; First State Bank of Rising Star; Higginbothams; Grocery; Gerald Jones; Kountry Kitchen; Medley Conoco; Palace Drug; Quickway Grocery; R&R Auction - Gwynn Tharp; Jim Rutherford; The Rising Star; Jack Shults; and West Texas Utilities.

Our school productions are supported very well by the community and we do appreciate it.

# No Definite Trial Date Has Been Set For LaFlore

No trial date has been set for Charles LeFlore who is charged with murder in 91st District Court.

Presiding Judge Jim Wright reports that a definite date has not been set but that two local attorneys have been named to represent LeFlore.

In the court Monday Larry Joe Garrett pleaded no contest to a felony DWI charge, and was found guilty. Sentencing is due Friday at 9 a.m.

# Parents Warned of **Tattoo Transfer**

Drug Thursday, February 25, 1982

The Brown County Sheriff's Dept. issued a warning to parents in County.

Sheriff Deputy Hays Beam said that according to authorities, a form of tattoo transfer called "blue star" is readily available in some areas of the United States.

This is a small sheet of white paper containing blue stars the size

of a pencil eraser. Each star is impregnated with L.S.D. and can be removed from the paper to be placed in the mouth.

Absorption can also occur through the skin by simply handling the tattoo.

There are also brightly colored paper resembling postage stamps in size, which have pictures of Superman, Mickey Mouse (dressed as a socrer's apprentice), Dopey, and possibly Disney

The stamps are packed in a red cardboard box with a picture of Mickey Mouse, wrapped in foil in a clear, lock-type bag. They come in five, one inch square sheets with 100 perforated 1/4 inch square stamps.

This is a new way of selling acid. A young child could happen upon these and have a fatal "trip." It is also found that little children could be given a free "tattoo" by older children who want to have some fun. It is important that all parents be alerted in ase their child is involved, even innocent-

Beam said some of these tattoos have been intercepted by the County Brown Sheriff's Dept.

# The Golden Triangle - Linking Cisco With Australia

ROBERT KAMON is shown at the south end of his home in Cisco.

By Viola Payne Kamon House of Cisco, the home of Golden Triangle Royalty & Oil, Inc., resembles a beautiful southern estate more than a typical Corporate Headquarters. The large white columns of the two-story house, with the spreading arms of trees above neatly trimmed lawns, give a tranquil appearance. But a sign with an astonishing list of company names indicates tht the home of Robert and Effie Kamon has a lot of activity.

Golden Triangle Royalty & Oil, Inc., with Robert Kamon as President-Director, is the most recently acquired corporation amond those based at Kamon House. Controlling interest in this corporation, which was formerly located in Pennsylvania, was acquired May 15, 1979. Other corporations based here include International Royalty & Oil Co., Black Giant Oil Kamon Company, Petroleum Exploration, and U.S. Representatives.

Golden Triangle has issued more than 13 million shares, of which 4 million are publicly traded. The stock is listed with brokers in a number of U.S. cities and in London, England.

On May 6th about 60 out of approximately 3,500 Golden Triangle stockholders are expected to attend the annual Stockholder's Meeting at the Kamon House, enjoying a mixture of hospitality and reports from the Company's extensive royalty holdings. They will discuss

Johnson from Goldn, Colorado, Director Howard Siegel, Houston, Vice President/Public Relations Randy Agnew of Cisco, Lloyd London of Cisco, Vice President/Geology Robert Hare of Ft. Worth, and Attorney C.J. Eden of Breckenridge.

Various companies will meet during different times of the day, and all are expected to have favorable business reports.

Golden Triangle, as a royalty corporation, is not providing the actual drilling on the land where its mineral interests are held. It seeks and acquires favorable royalty and mineral rights, and is an owner of a percentage of the oil developed on the properties. Although Golden Triangle has oil royalty and working interests in the United States (including Eastland County), and Honduras, its main holdings are under approx. 88.5 million plus surface acres in the state of Queensland, which extends from northeastern Australia to the center of the country. Other exploration in this general area of Australia is being conducted by Esso Exploration and Production Australia Inc. (Exxon) and Abbott Petroleum Co. Harken Oil & Gas is scheduled to begin explatory drilling on Golden Triangle royalty acres by December, 1982.

Much of this exploration lies in a remote, arid, picturesque area of domes and basins. Robert Kamon and his son, Ken Kamon, made a geological field trip to the area in the summer of 1980. They made extensive surveys of the Warbreccan Dome, as well as other areas on the eastern portion of the concession.

Robert Kamon is the son of the late Rudolph and Isabel Kamon, long time residents of Cisco.

Rudolph Kamon was born in Poland, and in 1910 he came to America to study at the University of Chicago. In 1914 war began in Europe, and he learned that his family in Poland had been killed by invading armies. After that Kamon enlisted in the American Army. After the war he did extensive geological work, finally moving to Cisco with his family in the 1940's. He completed Australian work and a number of projects before his death in 1979.

Robert Kamon graduated from the University of Texas at Austin in 1949 with a Degree in Petroleum Engineering. He married Effie Hart of Cisco, daughter of a prominent ranching family, and made his exploration headquarters here from that time on. Effie and Robert Kamon have a son, Ken, who oil field. with a Degree in Geological Engineering. Ken now works out of Abilene. The Kamon's daughter, Kaye, is presently a student at the University of

In spite of the activity stirring around, Kamon House retains an atmosphere of graciousness. Visitors are ushered into a living room with a deep red carpet and French Provincial furnishings. A desk nearby holds maps, charts, and other materials describing far-away places with exotic names. On down the hall are the real working quarters spacious rooms with more desks and secretaries tackling correspondence. Mrs. Kamon, an unhurried hostess, greets guests.

Robert Kamon's office is as quiet as the eye of a hurricane. Kamon is slender,

soft spoken, and energetic. ("We can hardly keep up with him!" smiles an employee.) A filing cabinet across one side of the room contains minute data about every tract of royalty the corporations own from here to Australia. These are probably filed in Kamon's mind also, for he can rustle through papers and bring up information quickly.

When asked about Australia, and how he can handle property so far away, Kamon simply states that he has a lawyer in Australia who keeps him informed of what is going on. Of course, he makes numerous trips, not to mention the phone calls back and forth. As for the Australian Land and Cattle Co., in which he is a partner - that ranch has a foreman who handles things well. It lies in an area on the

east coast which as 43 inches of rain annually, contrasting with the 7 inches in the in-

"I feel at home in that interior of Australia - it is almost exactly like some parts of west Texas." Kamon says. "A few cattle ranches operate on the fringes of it, and occasionally an aborigine will come through hunting. There are herds of kangaroo and packs of dingos (wild dogs) in the area. Generally the natives have moved to reservations set up by the government, where they find living easier."

Kamon mentions that the roads are rough back in the area of the domes - that it

takes a 4 wheel drive Land Rover to get there. Drinking water is scarce, and must be carried in with other supplies. The Australian people - if you meet any in the back country - are friendly and easy to communicate with. They look and act like Texans, in fact, until you notice their speech.

Mr. Kamon belives that Golden Triangle has good oil prospects in the United States as well as Australia, and these will go along with the production it already has. He mentions a deep gas well in Pecos County as an example. There are others in Oklahoma and Louisiana, oil wells in the Austin Chalk formation, and production in Kansas.

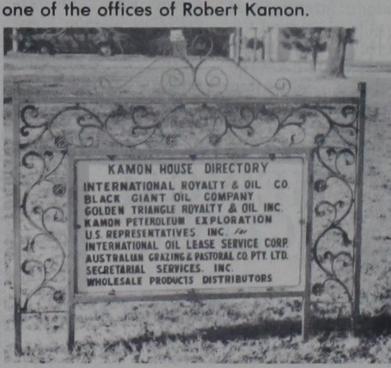

GTRO owns a 4% working interest in 5 wells drilled in Clyde Houston here in Eastland County. Furthermore, in a joint venture with Houston Oil & Energy, GTRO recently formed G&H Water Injection Co. for the purpose of disposing of salt water from area wells for 65 cents per barrel. The Company has converted one of its wells in the Foster Field to a salt water injection well.

With all these projects going on, there is little chance that the Kamon family or associates will be idle or bored in the foreseeable future. They are looking foward to this future - which is an attitude which will probably pay dividends along with oil.

ney, daughter of Mr. and Mrs. Nathan Mc-Cartney of May, celebrated her fifth birthday Saturday, February 13, in the home of her parents. Crystal's older sister

hosted the celebration. She also baked the large birthday cake and the Valentine cookies. "Strawberry Short Cake" was the theme of the decorations of the table, napkins, plates and punch. Streamers hung from the ceiling of the party room with strawberries hanging in the center of each.

The cake holding five pink candles was a large sheet iced in white with a red strawberry border and "Happy Birthday Crystal." The honoree wore a Strawberry Short Cake T-shirt to

Crystal Gail McCart- carry out the theme of the party.

After the play period and the birthday song the charming hostess served cake, pink iced heart shape cookies that held a red heart in the center of each, and red fruit punch to sixteen guests.

Special guests for this occasion included the honoree's paternal grandmother, Mrs. W.R. McCartney of May; maternal grandparents, Mr. and Mrs. Otto Dogett of Goldthwaite; also John Rothy Edwards and Teresa Petross of May; Sharon Young, Angela and Ryan; Jeannie Hardy, Craig, Robin and Kim: Jennifer Brown, Crystal's parents and sister, Seronna.

Crystal presented each guest a bag of Valentine candy on their departure.

# Commentary

The word "heart" refers to the center of man's being, which is his spirit. Now the writer of the Proverbs, inspired of the Holy Spirit, is saying the same thing that Jesus said, "The good things come out of your heart," or out or your spirit. Prov. 4:20-23. Keep thy heart with all diligence; for out of it are the issues of life." Verse 24 says, "Put away from thee a froward mouth, and preverse lips put far from thee, " or speaking contrary to what the Word says, for the WORD IS THE WISDOM OF GOD. GOD'S WORD IS HIS WISDOM (1 Corinthians 1:30) WATCH YOUR LANGUAGE-"Thou art snared with the words of thy mouth...(Proverbs6:2-). We need to notice what the word says about the mouth and the tongue. "The mouth of a righteous man is a well of life ... " (prov. 10:11). Verses 21 and 24 say, "The lips of the righteous feed many: but fools die for want of wisdom. The fear of the wicked, it shall come upon him: but the desires of the righteous shall be granted." The thing knows best. you fear will come

upon you. Fear will activate satan. Job activated satan by his fear, the thing which I greatly feared is come upon me, (Job 3:25). The active faith in the word brings God on the scene. Fear brings satan on the scene. The mouth of the just bringeth forth wisdom: but the froward tongue shall be cut out. The lips of the righteous know what is acceptable. (Prov. 10:31-32). Now notice with me in Proverbs 11:11, "By the blessing of the upright the city is exalted: but it is overthrown by the mouth of the wicked." The wicked have talked against our nation, and I'll tell you a lot of Christians have done the same. Friends let us pray for our nation's leaders instead of bad mouthing them. God said to pray for them, that we might dwell in peace. God puts the man that he wants in offices or they would not be there. And who are we to talk against what God knows is best. No matter who is in the\* President's chair, God says I will set up whom I will and I will tear down whom I choose, it doesn't matter what man thinks. God still

#### Letters To The Editor

The Random House Dictionary defines PRIDE this way: "the state or feeling of being proud."

In casting a critical but friendly eye over the town of Rising Star I wonder how and where to apply that

My critical eye sees peeling paint and abandoned buildings, uneven sidewalks and ragged weeds, pot holes and potheads. And I am tempted to remain here and hurl barbs and criticisms at our inadequacies.

But my friendly eye finds enough and more to satisfy my need to feel PRIDE in my town.

I see new businesses and am proud of them all. Karla Murdoch (Trails West) and Danny Medley (Conoco Station) provide us good examples of young people who have invested time and energy into a business and in so doing have upgraded the appearance of our town. Thanks and Congratulations!

We can all feel proud that after long years of being the sole provider of medical services to our town Dr. Carpenter now has a fellow practitioner in town in the person of Dr. Palisoc. Welcome to Rising Star, Doctor.

The Music Department at school is a source of pride to this parent: it has come far under the skillful and dedicated professionalism of Billie Zellman. Laurels to Billie!

Let us always be self-critical lest we become complacent and moss over like the turtle. Let us get out our paint cans, pick up our trash, sweep our streets and prune our trees. But let us not ever forget that kind hearts and helpful hands make the soul of the community whereas its physical appearance only makes the face of it.

promised some comments on "How to Quilt" for this column. I didn't remember that it would be in this month so I have to "put that on the back burner" for this time.

Some teachers of the late forties and earlier made much use of the historical events of each month as it came. Lessons in citizenship along with "Readin, Ritin and Rithmetic, art and music were correlated into units of study with special days, events of the month being the focus for learning.

**Emphasis** February was on the birthdays of George Washington, Abraham Lincoln as well as Valentines Day. With some time being given to birthdays of Longfellow, Sidney Lanier, Charles Lindberg, Victor Hugo, Thomas Edison, Babe Ruth, James Russel Lowell, Buffalo Bill and others according to the grade level.

Today, Feb. 22nd is the date of George Washingtons birth twohundred and fifty years ago. Those two important events and Februarys being Valentine month gave teachers much to empasize. Silhouetts, quotes, booklets, pictures, calenders, the flag, games and sometimes the sandtable were media for pupil participation and expression...

Only a brief outline can be given here of the life and works of the first President of the United States. He born was Westmorland Co.Va., in 1732. In due time, at the death of his father and his brother, he became owner and manager of Mt Vernon. He divided his large farm into smaller farms, each with a manager. Here he spent the happiest days of his life, leaving it only to serve his country.

He raised horses, mules, sheep and cattle, besides his crops. He housed his animals in barns of his own design and construction; one an octagonal shaped barn which showed his talent as an architect.

His farm managers were required to keep records on worth of fleece, mutton and tallow, along with records of feeding costs. By such records he could determine if there were more profits in selling animals on foot or to butcher and the meat.

He was the first farmers to raise mules in America. He was the first to improve the breeds of hogs. He crossed the Razor back hog with the Guinea hogs and by selection he produced the first

market type hog. We could forget our wonderful heritage if we do not remember the great contributions of Washington and other statesmen at the time of the borning and nurturing of our wonfderful country. First as Commander--in chief of the American Army, President of the First Continental Congress then in 1789 becoming our first President.

Among the many firsts-"First in War, First in Peace and First in the hearts of his countrymen-" we find that he was also first in farming also. His success in almost everything he undertook was due to his scrupulous attention to detail; he showed this in being a general, a statesman and a farmer.

He died Dec. 14, 1799, from an attack of Quinsy due to exposure in severe cold. His wife, Martha, his beloved servant and his secretary were by his side. Had he lived eighteen more days he could have ushered in the new Century.

Washington stated in his Farewell Address, that in regard to foreign nations, in extending our commercial relations, to have as little political connection as possible. One of his rules of civility, written when he was fifteen years old was: "Be not curious to know the affairs of others neither approach those that speak in private."
