Jerry Watkins Homecoming Speaker at RSHS

Jerry Watkins, 1945 Graduate of RSHS

Saturday, September 26th is the date set for the 25th Annual Rising Star Homecoming.

The full day of activities will begin at 8:30 a.m. with a coffee, registration, and visitation period at the high school gym. This will be followed by an assembly and business meeting. The Rising Star PTO will serve lunch from 11:30 a.m. to 1:00 p.m. in the new school cafeteria. A Homecoming parade will begin at 2:00 p.m., followed by a Pep Rally at 3:00 p.m. The Rising Star Wildcats will take on Abilene Christian High at 8:00 p.m. that night. Highlight of the day will be the crowning of the Homecoming King and Queen and the Rising Star Wildcat Football Sweetheart.

This year's theme is: "Memories, Spirit, Togetherness."

Jerry Watkins, superintendent of the New Mexico School of Visually Handicapped in Alamogordo will be the guest speaker. Watkins is a 1945 graduate of Rising Star High School. He attended McMurray College in Abilene where he received his B.S. Degree in 1953. He then attended New Mexico State University where he received his Master's Degree in 1958.

His 24 years of teaching experience includes elementary and secondary teaching, elementary principal, junior high principal, high school principal and Superintendent of New Mexico State School for the Visually Handicapped.

He has served as President of the Alamogordo Educa-

tion Association; President of the New Mexico Elementary Principals; President of the New Mexico Secondary Principals; President of the National Education Association in New Mexico from 1977-78; Board of Directors of the National Education Association in New Mexico for 9 years; Board of Directors of the National Education Association for 6 years; Chairman of the Committee Election Reform; Chairman of the Committee on Special Interest Groups and Board Steering Committee; Resolutions Committee for the

National Education Association for 2 years; Advisory Committee for Disadvantaged & Handicapped Students, State Dept. of Education; Advisory Council--ESEA Title III--State Department of Education; Advisory Council--ESEA Title IV--State Department of Education; Advisory Council--Vocational-Technical Education--State Dept. of Education; NCATE Evaluation Team--University of Puerto Rico-1975; NCTAE Evaluation Team--Utah State University-77; and NCATE Evaluation Team--University of San Diego-78.

Watkins is a member of the following professional organizations: the American Association of Workers for the Blind, Association for Education of the Visually Handicapped, American Association of School Administrators, New Mexico School Masters Club, New Mexico Elementary School Principals, National Education Association,

National Education Association-New Mexico, and the National Education Association at NMSVH.

Watkins is a recipient of numerous honor awards. Among them: recipient of the 1974 National Education Association-New Mexico Honor Award; Distinguished Service Award--National Education Association--1976; Special Merit Award--Alamogordo Chamber of Commerce; Alamogordo "Administrator of the Year"--Education Office Personnel-76; New Mexico

"Administrator of the Year"--Education Office Personnel-76; Who's Who in Educational Administration; and "Citizen of the Year"--Sertoma-1978.

Watkins is involved in many civic activities including President of the Alamogordo Chamber of Commerce-1979; Board of Directors--Alamogordo Chamber of Commerce-6 years; Ambassadors Club (Life

Member)--Chamber of Commerce; Rotary Club member; Board of Governors--Educators Security Insurance Company; Otero County United Fund--Chairman, 1974; Vice-President, 1975; President 1976; Board of Directors--Otero County Boys Club; Board of Directors--Otero County Youth Center; Board of Directors--Otero County Retarded Children; Board of Directors--Otero County Girls Club; Advisory Council--Esperanza Para Nuestros Ninos; Advisory Council--Retired Senior Volunteer Program; and District Chairman--White Sands District, Boy Scouts of America-1976.

He and his wife, Eva are members of the Grace United Methodist Church.

They are the parents of five children: Kay, 26; Steve, 24; Jan, 22; David, 18; and Kelly, 13. The Watkins also have four grandchildren.

Watkins stated in his acceptance letter, "I am really looking forward to September 26th and the opportunity to 'Auld Lang Syne' with everyone."

Trail Blazers To Assemble

The Annual Trail Blazers Association will meet Saturday, September 12-1981 at the Rising Star Methodist Church.

The meeting will begin at 9:30 a.m. and close at 1:00 p.m. following a catered lunch.

During the business meeting, a new slate of officers will be elected and installed. Officers for this year are:

President--Jack Shults;
Vice-President--Gladys Carter;
Secretary--Karen Davis;
Treasurer--Margie West and

Reporter--Edith Bibb.

A speaker and musical entertainment are on the agenda for the day.

One hundred and ten years ago, seven pioneer families first settled in the Rising Star area. These seven families liked what they saw and decided to stay. It was from these founding families that the town and community has grown. Members of the Trail Blazers are striving to continue the tradition today of these founding fathers.

Come and enjoy the day.

School Enrollment About the Same

Enrollment in the Rising Star Independent School District remains about the same as last year according to school officials.

A break down of individual classes is as follows:

Kindergarten--17
First Grade--18
Second Grade--22
Third Grade--22
Fourth Grade--25
Fifth Grade--17
Sixth Grade--27
Seventh Grade--20
Eighth Grade--22

Freshmen--23
Sophomores--20
Juniors--26
Seniors--24.

This is a total enrollment of 283. 93 in High School and 190 in Grade School.

High School Principal Frank Gray stated that things got off to a smooth start last week. Figures at the end of school last year are in line with early numbers this year.

Man Sentenced in Bramlett Burglary

Ignacious Inez Padillo, 33, of Abilene was given a five-year prison sentence Monday after being convicted of felony theft by a 91st District Court jury.

Padillo had been charged with the July 28th theft of two chain saws and welding equipment from Bramlett Implement Company Inc. of Rising Star.

According to testimony in the trial,

Junior Class Elects Officers

The Junior Class of 1981-82 has elected class officers. They are as follows:

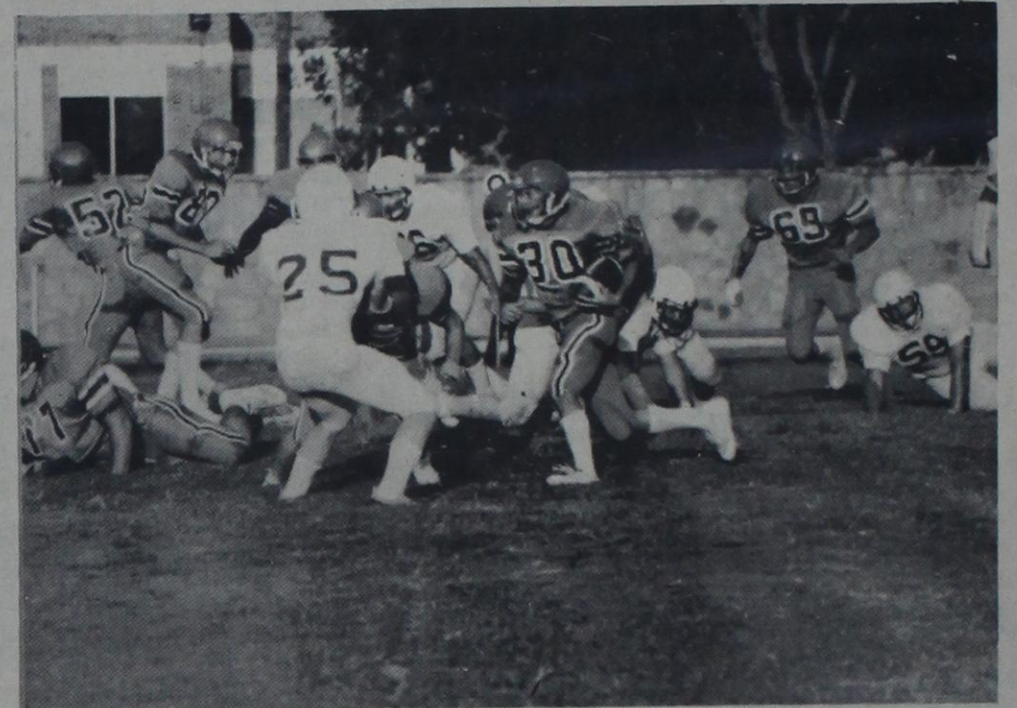

Tod Herring--President;
Oretha Morris--Vice-President;
Cindy Cotten--Secretary;
Selena McCuiston--Treasurer;
Lisa Brown--Reporter and
Angie Harris--Parliamentarian.

RS 4-H To Hold First Meeting

The Rising Star 4-H Club will hold its first meeting of the new school year Monday, Sept. 7, at 7:30 in the Ag-Shop classroom. All members are urged to be present. New

members may join at any time. Anyone planning to have a livestock project needs to attend so you can be signed up. Also, entries to the Eastland County Fair will be discussed. See you Monday night.

Wildcats Go To Eden Friday After Out-Scrimmaging 10AA Ranger

No. 30 Chuck Harris carries the ball for a good gain. Other players included were: No. 77 Thad Chambers; No. 69 Tod Herring; No. 52 Joe McCollum and No. 83 Bryan Switzer.

The Rising Star Wildcats had another good scrimmage against the Ranger Bulldogs Friday night. The Wildcats had one touchdown, a 70 yard run by Jon Vaughn which was called back because of a penalty. But the Wildcats later scored two more to outscore Ranger 2-1. The Wildcats were outnumbered, but not outplayed. Coach Finley was pleased and said, "the game film showed a few mistakes which the team will work on this week in practice." Chuck Harris ran for the first TD and Clay Shults intercepted a Ranger pass to score

the last TD.

This Friday night the Wildcats play the Eden Bulldogs at Eden. Game time is 7:30 p.m. Let's back the 1981 RSHS team and show the Wildcats some spirit.

Each Tuesday night at 7:00 p.m., the Booster Club will meet in the High School library to view the game film and discuss the game. The next opponents' scouting report will also be given. All fans, friends and parents are urged to attend.

Tentative starters for Friday night against the Bulldogs are:

OFFENSE

August Senior Citizen Honorees

The club is still active. We have had over thirty in attendance at all regular meetings. Just the reporter not on the job.

The Starbrites entertained at the Birthday Party for the residents of the Cross Plains Nursing Home. There was a 100 year old lady and a 99 year old lady in the audience. We are always made welcome there and enjoy playing for them. We were served ice cream, cake and punch.

Thursday, Aug. 20, thirty two registered for an enjoyable lunch and games. Friday, Aug. 21, the Starbrites traveled to Gorman to entertain at the nursing home there.

Peanut Harvest Begins in Rising Star

Believe it or not, the harvest is beginning for some farmers in the area. Jerry Winfrey, owner of Winfrey Feed and Peanut Company received several loads of Spanish peanuts last week and over the weekend. Early grades were in the high 60's. Recent rains

Our August Birthday Party was a great success. Annie Mae Seales, Clyde and Doris Griffin were hosts and custodians for the month. A hearty thanks to them. They wish to thank all who helped with the party. Birthday people present were Lela Clark, Lenell Henry, Beulah Stodghill, Cleo White, Rowena Mitchell, Julia Ross and Walter Richburg. Sandwiches, chips, Cake and punch was served to 35 people.

Thursday, Sept. 3, the Men's Quartet of De Leon will be our guest. Sept. 6 the Starbrites will play at 1:30 at the Center for Griggs School Reunion.

The Rising Star Tax Office and School Secretary office will be closed for Labor Day, Sept. 7th. Students in the RSISD will also observe the holiday.

CB--Damon Cooper
CB--Clay Shults
Free Safety--Terry Walker
Strong Safety--Chuck Harris.

CLOSED LABOR DAY

Postmaster Don Boyett has announced that the Rising Star Post Office will be closed Monday, September 7th in observance of Labor Day. Boyett stated that no mail will be boxed in the local office and there will be no rural delivery on that day. Out-going mail will be picked up at 9:00 a.m. from the outside box.

The Rising Star Tax Office and School Secretary office will be closed for Labor Day, Sept. 7th.

Students in the RSISD will also observe the holiday.

CARD OF THANKS

After a very very severe illness and 63 days in the Hospital, I am home. Thank each of you for your prayers, and your cards. I received over sixty cards. In my case, these were extra nice for me because I was unable to have visitors.

A special thanks to Ida Seeber for spending her time and energy keeping everybody informed of my progress. A special thanks to Brother Williams for the many visits. When I was too sick or sleeping 'he stayed a very short time or left his card, he is very understanding, thank you. Thanks to Faye and Bill for the flowers prior to surgery, when I was able to enjoy them. Thanks to my neighbors and friends who gave me a lovely blue gown, a house coat and two pair of panties. Thanks to Essie Green for the pretty pajamas and bed jacket. To Debbie and Danny White for the red rose bud, thank you.

Thanks to all of you for not sending flowers after surgery, in a case of severe sickness, the nurses, doctors and everyone needs all the room available to work with the patient. Some time they do not have time to move flowers and rearrange rooms. I wish to thank each and everyone for not keeping me on the telephone for two hours a day, when I am give out and worried sick about Millie. I know everyone is concerned and wants to know how Millie is doing, this we know and love you for feeling this way. The well one has to take care of the sick one. Thank you-Troy. Millie Willett 36-1tp

PEANUT MARKETING CARDS

We are in the process of preparing peanut marketing cards and will mail these cards when the random sample spot checks are completed. Those needing a marketing card prior to this time should call this office. **FAILED GRAIN SORGHUM-COTTON**

Producers whose crops are disaster affected will need to file a disaster claim within 15 days from the date the crop is harvested or abandoned and before the acreage is devoted to another use. Devoting the crop to another use includes plowing, shredding, grazing or otherwise disposing of the crop in any way except harvesting for grain or lint.

CROPS FIELD DAY

A crops field day will be held Thursday, Sept. 10 at the Texas A&M Research and Extension Center, 2 miles north of Stephenville at the intersection of US Highway 281 and Texas 8.

Facilities will be open from 1:00 pm until 5:00 pm with tours of field research beginning at 2:00 pm.

Other areas to be seen on the field tour will be dryland skip-row and seeding rates for Spanish and runner peanuts.

PROPOSED PEANUT CHANGES

USDA is proposing regulations that would change the sales policy for additional peanuts sold for domestic edible use. It also proposes that SWPGA, with the prior agree-

ment of the producer, may deduct up to \$1 per ton from the price support advance to conduct peanut activities outside the price support program. Also, that CCC may waive or reduce the liquidated damages assessed against a person who causes ineligible peanuts to be placed in the loan program. The proposed rules also provide that producers who file erroneous reports of acreage will be ineligible for price support, except under certain conditions.

Written comments should be sent to Director, Price Support and Loan Divisions, ASCS, U.S. Department of Agriculture, Rm. 3741 S. Bldg., P.O. Box 2415, Wash. D.C. 20013 on or before Sept. 3, 1981.

CJC Offers

Cabinet Making

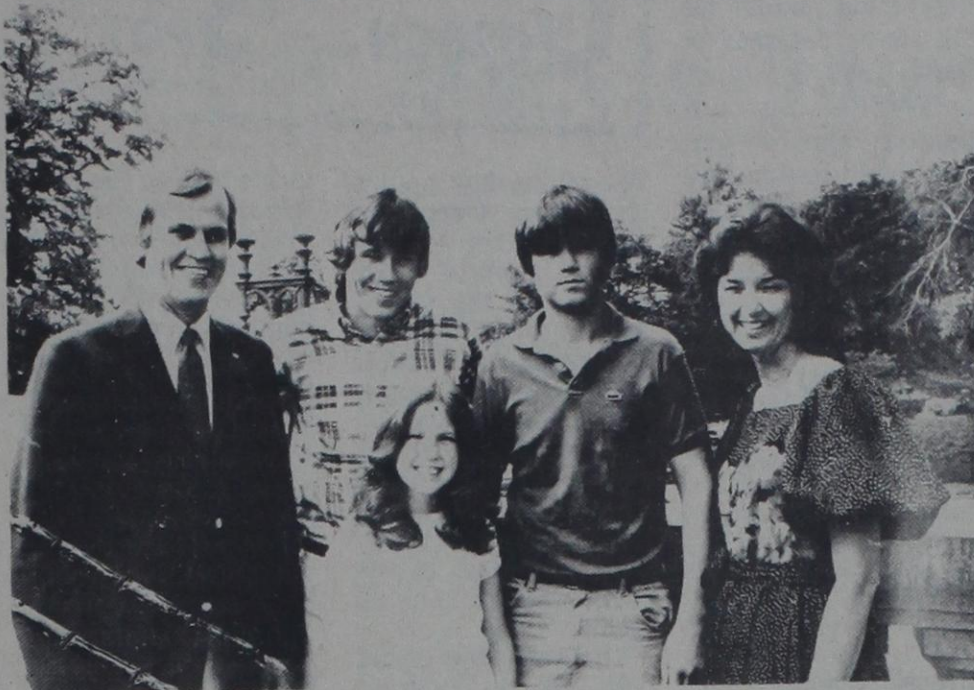

Cisco Junior College will offer the Fundamental of Cabinet Making on the Cisco campus as an evening course this fall.

The class will meet on Thursday evenings from 6:00 to 10:00 p.m. in the Vocational II building. Mr. James Jaggars will be the instructor for the course.

In the present world of mass production and construction, few people have retained the art and craft of cabinet making. Cisco Junior College is pleased to offer instruction in this craft.

Registration for the fall semester will continue through September 10 during regular office hours (8:00 a.m. to 12:00 p.m. and 1:00 p.m. to 5:00 p.m.) at the Registrar's office at the Cisco campus. For full information about the Cabinet Making course call Mr. Gerald Bint at 817-442-2567

Third Annual Funday Festivities Honoring Charles Stenholm

Preparations have been completed for the Third Annual Funday Festivities at the Ericksdahl Picnic Grounds near Stamford. The event is scheduled for Saturday, September 12, 1981, and is the principal fund raising event planned for Congressman Charles Stenholm.

Friends and supporters of Stenholm are invited to attend. This is the third Funday that Stenholm and his wife, Cindy, along with their three children, have returned to Texas to visit with friends and supporters from the thirty-three county 17th Congressional District. The event is sponsored by the Friends of Charlie and the Stenholm for Congress Committee.

Stenholm is presently coordinator of the much publicized Conservative Democratic Forum. He serves on the House of Representative's Agriculture Committee and Small Business Committee.

Congressman Stenholm will address the gathering at Funday concerning issues that face Congress at the present time

Tickets for the third Annual Funday Festivities and barbecue are \$10.00 each and can be purchased by contacting the Stenholm for Congress Committee Office

P.O. Box 1032, Stamford, Texas 79553, or by calling 915-773-5521. In case of bad weather, activities will be held in the Ericksdahl Lutheran Church.

Rising Star Nursing Center

Diana Bailey Activity Director

MONDAY we gathered the news for the newspaper Individual shopping for personal items was done for some of the residents.

TUESDAY was Bingo day. Buster Rixford called the numbers to the winners. Martha Irby was top winner with 5 games and 5 bananas. Cassie Allen, guest player won 3 games and gave her fruit to residents. Estelle Bolding won 2 games. One game winners were: Ora Clark, Ada Foster, Mary Hammett and Emma West. Popcorn was enjoyed during the games.

THURSDAY Avis Massey of May, Texas joined the Rising Star Nursing Center as Activity Director. Diana Bailey Jackson is leaving as a result of marriage. Mrs. Massey was introduced to residents and staff members.

FRIDAY Bible Study was conducted at 2 p.m. by Olive Odom of the First Baptist Church of May. Conti-

ning with the study of the Parables of Jesus, Mrs. Odom invited comments from attending residents. One notable comment was "one pleasant smile is worth a million dollars." Perfect three month attendance pins were awarded to Ora Clark, Mary Crisp, Elizabeth Flowers, Buster Rixford, Lavora Smith, James Smith, and Nettie Wilson. Bea Kelton played the piano as Dorothy Harris led the group singing of hymns. Opening prayer was led by Mrs. Odom. Bea Kelton led closing prayer to the 19 attending residents and 4 church members.

SUNDAY worship was conducted by Rev. F.W. Pittman of the Bible Baptist Church of Rising Star.

SPECIAL NOTES: Anne Franke and Leona Flippin went to the hospital. Delta Madison passed away August 26th. Mrs. Madison's family gave the Rising Star Nursing Center a picture of praying hands in her

memory.

May News

By Entha Campbell

Dear Sis,
I've decided to get started early this year for holiday goodie recipes. This year I will begin with my all time favorites and hints for variations. It is the German Sweet Chocolate cake.
1 pkg. yellow cake mix (2-layer size).
1 pkg. (4 oz. size) instant vanilla pudding mix.
1-4 oz. pkg. German Sweet Chocolate (melted).
4 whole eggs.
1/4 C. buttermilk.
1/4 C. crisco oil.
Add all ingredients in 1 large bowl and blend for 4 minutes.
For variety you may substitute 1/2 Cup sour cream plus 3/4 Cup water in place of buttermilk.
Bake in 4 thin layers.
Coconut Filling:
1 1/2 Cup evaporated milk
1 1/2 Cup sugar
5 egg yolks beaten
3/4 Cup marjorine.
Cook until thick. Remove from heat, add 1 1/2 Cup Angel Flake Coconut and 1 1/2 cut pecans. Use for stacking layers.
1 Cup well drained

pineapple plus 1 egg yolk may be added to filling to vary flavor.

It is good news that Cecil Richey is able to be out of the hospital and recuperating satisfactorily at the home of his sister, Mrs. Billie Chambers. Mr. Richey had a heart attack several days ago.

We had a shower on Thursday, Aug. 27, 1981.

Mrs. Dola Ritchie made a business trip to Brownwood August 26, 1981.

Mack Alford is able to return to work since he has had the cast removed from his leg.

Centennial History Books are now in construction. They may be ordered from Marion J. McDaniel.

Mrs. Boots Allen was recently released from Brownwood Community Hospital after being hospitalized for several days following the car-truck accident here.
Love,
Entha

Disposal of Resources

Persons who dispose of property or other negotiable items for less than they are worth in order to become entitled to Supplemental Security Income benefits will now find they continue to be ineligible for that program.

Glyn Hammons, manager of the Abilene social security office explained that Supplemental Security Income is a federal benefit program for which payment and eligibility for payment are based on need. To establish the claimant's need for benefits, the regulations for the program dictate that the eligible individual not exceed a specified limit in income and resources. Resources, with a few exclusions, are defined as any items (real property, bank accounts, life insurance policies) which could be converted to cash.

Hammons stated that an on-going review system of the SSI program has revealed that in a significant number of cases persons who possess resources whose values exceed the limit under which

they could qualify for SSI, have disposed of those items for much less than current market value, so that they could become entitled to SSI benefits. We now have new regulations included in an amendment to the Social Security Act which provide that if a resource is disposed of for less than its current market value for the purpose of becoming entitled to SSI, the difference between the value for which the item was sold or disposed of and its current market value will be counted in the SSI application process as if the seller had that difference in cash. For example, if an individual owned a piece of non-home property which had a current market value of \$3500 and in order to become eligible for SSI he sold it for \$1000, his SSI application would count \$2500 as if he had that amount of cash. This difference in current market value and liquidation price will continue to count in the application process for twenty-four months after the sale or transfer of ownership is made.
Hammons said that these new regulations are a result of a continuing effort to preserve the integrity of the program and to insure that tax-supported benefits go to those who truly deserve them.

GORDON SPOT

by DeMarquis Gordon

The Honeydew aphids on pecan trees are causing a lot of concern around the county. As the yellow aphid feeds on the underside of leaves, "honeydew" or sugar water is excreted by the pest. This sticky liquid falls down through the tree and is deposited on the upper leaf surface of leaves over which the aphid feeds.

The honeydew aphid does not do a great amount of damage to the trees unless the infestation is severe. If the infested trees are in your yard or near the driveway the greatest problem is the honeydew that falls on walks and cars. In this case, most people want to control the aphids.

There are several ways to control the honeydew problem. If the trees are not too large the aphids can be washed off with the use of a water hose provided you have good water pressure. Another method is to spray the trees with Malathion or Zolone or Guthion. Sevin will not kill the aphid. If you spray your trees for weevils this week and you have a honeydew problem you should mix one of the aphid insecticides with Sevin.

We are seeing more and more oak trees with drought injury. The first sign is browning of the leaf margins with the dead area progressing into the leaf and causing desiccation of leaf

tissue between the veins toward the mid-rib. These leaves being to fall and in some cases the trees die. This happens even in lawns where the lawn grass is regularly watered. The oak tree roots are very deep and due to our drought for the past seven years the root zone area has dried out. The drought of 1980 was especially hard on trees. The results of last summers drought is just now showing up.

These symptoms can also be man-made. An accumulation of salt in the soil will cause drought symptoms. Salt accumulation can develop from using irrigation water containing salts or by the use of excessive rates of inorganic fertilizer. High salt concentration simply reduces the root absorption by the root hairs and may finally result in death of the roots. This salt injury, which is a form of man-made injury, is usually more severe in dry weather than in times with adequate rainfall.

Other man-made drought injury to oak trees may be caused by soil compaction, new construction near the trees,

Thursday, September 3, 1981

disturbance of the soil such as plowing or adding soil, gas leaks or misuse of herbicides.

Extension Plant Pathologist Dr. Chip Lee, told us oak trees are showing these symptoms, and many are dying, throughout Central Texas. He expects trees will be

dying for the next ten years as the result of the 1980 drought.

Valuable yard trees showing these drought symptoms may be helped by slow, deep soaking with good quality water. Do not over fertilize these trees as this might add to a salt problem.

UMW Meet with Mrs. Armstrong Presiding

The United Methodist Women of the First United Methodist Church met Monday morning at 9:30 in the Fellowship Hall with 10 members present.

Miss Elizabeth Robertson was in charge of the program. Mrs. James Armstrong presided. Mrs. Grace McAn-

draws gave the invocation.

The Bible Study of Isaiah will start with the next meeting on September 14th.

Each member present read a scripture or poem or some article of interest to them as the program.

The Society Benediction was repeated in unison as closing.

H & R BLOCK INCOME TAX COURSE BEGINS SEPT. 3rd

Thousands of people with spare time are earning money as tax preparers in the growing field of Income Tax Service. H&R BLOCK is offering a Basic Income Tax Course starting September 7th. There will be a choice of morning or evening classes. Classes will be held at the Cisco and Breckenridge locations.

For a total of eighty-one hours over approximately three months students will study all areas of tax preparation and receive actual experience in preparing individual returns. Experienced Block personnel will teach current laws, theory and application as practiced in their offices coast to coast. There is a classroom lecture on each subject and practice problems at every level. The course is programmed to teach students increasingly complex tax problems as study progresses. Students find this course interesting and challenging.

Anyone may enroll. There are no restrictions or qualifications of any kind. The course is ideally suited for housewives, retired persons, teachers or anyone wanting to increase his tax knowledge.

While qualified graduates of the course will be offered job interviews, they are under no obligation to accept employment with H&R BLOCK. There are franchises available to residents of small cities as well as job opportunities locally.

The modest fee charged for this course includes all textbooks, supplies and tax forms necessary for completion of the school. Certificates are awarded to all graduates.

Registration forms and brochures for the Income Tax Course may be obtained by contacting the H&R BLOCK office at 1405 Ave. D, Cisco, phone 442-2794 and 135 E. Walker, Breckenridge, Texas. p-68

Thirty Places Remain For CJC Macy's Tour

Only thirty places remain for the Thanksgiving week tour to New York City and the Macy's Parade, CJC officials have announced. The tour will accompany the Cisco Junior College Band and Wrangler Belles for their unprecedented fourth appearance in the nationally televised Turkey Day spectacular.

The tour is being coordinated by Mr. Eris Ritchie, former Band-Belles coordinator who has handled arrangements for previous trips for the Cisco group to New York, Washington, D.C. and elsewhere. Mr. Ritchie pointed out that approximately 200 extra tour places were originally available, and that 170-plus have already been taken. A total of 300, including the performing groups, are scheduled to make the trip.

"This is a terrific travel bargain for anyone interested in a trip of this kind," Ritchie said. "The \$434 per person price, which includes all air and ground transportation, hotel, some meals, entertainment, and sight-seeing, is \$50 LESS than the current price for a coach-class plane ticket from D/FW Airport to New York and back.

The group will depart early in the morning of Tuesday, November 24, and will go to D/FW Airport via chartered buses. They will fly to New York on American Airlines and will spend four days and three nights in the "Big Apple," returning late Friday night, the 27th.

They will be housed at the Southgate Towers Apartment Hotel, across the street from Madison Square Garden and two blocks from Macy's. Each room has a kitchenette, which is an unusual feature for a modern-day hotel, Ritchie said. Their ground transportation in New York will be by

McGough, Mr. & Mrs. Hershel Smith, Mrs. Virginia Russell, Mr. & Mrs. Monte Tucker & children, Mr. & Mrs. Ralph Tucker & children, Delbert Hagar & Mr. & Mrs. Pete Tucker all of Eastland.

bus and subway, and the group will be near enough to several destinations to walk, he pointed out.

Some of the special features of the tour, all included in the package price, include: a full course Thanksgiving dinner and floor show at the Riverboat Restaurant "under" the Empire State Building; a ticket to the observation deck of the famous Empire State Building; a guided tour of the Radio City Music Hall, along with Christmas spectacular at the RCMH; admission to "The New York Experience," a multi-media show in Rockefeller Center; a Grey Line sightseeing tour of Manhattan; a ferry boat ride to the Statue of Liberty; and a guided tour of the United Nations Headquarters. There will also be walking tours of Rockefeller Center, St. Patrick's Cathedral, and Times Square, and of course the Macy's Thanksgiving Day Parade.

An optional feature available to those who want it is an orchestra section ticket to the award-winning Broadway musical, "Barnum," for Tuesday evening in New York. The Band-Belles group will be going to the musical, and others may accompany them by purchasing their own tickets.

Tour participants will also have one or two entirely free evenings to go the theater, to a sports event, or do whatever they like "on their own," Mr. Ritchie said.

"We are hoping to fill the remaining thirty places by September 15," Ritchie said. We would urge anyone who wishes to make the trip to go ahead and make the necessary arrangements now. Once we reach the 300 total tour participants, the only chance for going will be to have your name placed on a waiting list and hope for possible cancellations," he said.

Mr. Tim Jones, CJC Band Director, is coordinating the reservations and financial arrangements and details for tour participants. Mr. Jones also has descriptive brochures regarding the trip, as well as contract-reservation forms. A \$100 deposit holds a place, and the balance is due no later than October 15. Mr. Jones may be reached at CJC, telephone 442-2567, or at home, 442-3419. Requests for contract-reservation forms or simply for the descriptive brochure may also be directed to Mr. Jones by mail at Cisco Junior College, Cisco, Texas 76437.

Mr. Ritchie concluded, "This is a great way to do some travelling, see New York City and the major sites there, and to enjoy some fine Thanksgiving week entertainment, all at a

relatively low price. Either Mr. Jones, Belles Director Pat Owens, or I will be happy to give your more information or answer any of your questions regarding the New York tour."

Worker Electrocuted On Job

Roy Vasquez of Eastland, an employee of Moylan Construction Company, was electrocuted around 6 p.m. Sunday, when a backhoe with which he was apparently in contact touched a 7,200 volt electric line near Texas

Highway 6, about 1/2 mile north of Carbon, said Justice of the Peace L.W. Ussery, who pronounced Vasquez dead.

Funeral services for Vasquez are pending at Bakker Funeral Home in Eastland.

Age verification must be available.

5th Sunday All Church Fellowship Enjoyed

The May First United Methodist Church hosted the 5th Sunday All Churches Fellowship at the May Community tabernacle Sunday, August 30.

Rev. Lynn McCaden, pastor of the Methodist Church, was responsible for the fellowship program. Each church met in their separate churches at 9:45 for the Sunday School classes in order to dismiss 15 minutes early to go to the tabernacle at 11:00 o'clock in time for the worship service.

Bill Wilson, music director of the Methodist Church, led the song service with Grace Glenn at the

piano. Ministers taking part in the program included Rev. Bill Campbell, pastor of the May First Baptist Church and Rev. Bob Wiley, the Calvary pastor.

Rev. McCaden welcomed all church members and visitors. He also delivered the message with emphasis on God's children, fellowshiping with each other and stressed the necessity of love for one another and what love really is. Rev. Campbell voiced the morning prayer, followed by the Lord's Prayer. The closing hymn, "I Need The Every Hour" was sung by the congregation. The benediction was

offered by Rev. Estill Allen, former pastor of the May Methodist Church for many years, now living in Early.

After dismissal, the group was welcomed to stay for lunch, served in the fellowship room of the May Community Center.

Approximately 100 people stayed for lunch served by the women.

NEW GRASS RELEASED BY SCS

A new grass strain, 'Lometa' indiagrass, has been tested and released for use by livestock producers by the USDA Soil Conservation Service in cooperation with the Agricultural Research Service and the Texas Agricultural Experiment Station.

Jack Prichard, Range Conservationist for SCS at Eastland, said 'Lometa' is a superior indiagrass strain selected for use in range seedings in Central and South Texas. Present varieties available commercially are adapted only to North Texas; in central and southern parts of the state, stands are difficult to obtain and are short lived.

"Other indiagrass varieties bloom and set seed in mid-summer," Prichard said. "Lometa blooms in late October, extending the forage production period by a couple of months. Because of its late blooming trait, however, Lometa does not produce seed abundantly in North

Texas."

Prichard said Lometa appears to be best adapted to medium heavy to light textured soils in areas receiving 22 inches or more of rainfall. West of this zone, the grass should be irrigated or planted on overflow bottomland sites. Seeding rates are about 5 pounds pure live seed per acre broadcast or drilled and 1.7 pounds in 36 to 42 inch rows. Seed should be available from commercial seed producers in early 1982.

The new strain was collected in 1964 from a vigorous stand of indiagrass found growing on the Kirby Ranch near Lometa by SCS personnel from Lampasas. After careful testing and evaluation at the SCS plant materials center at Knox City and in 41 plantings in 30 counties, the strain proved superior to all others.

Jack Prichard, Range Conservationist for SCS at Eastland, said 'Lometa' is a superior indiagrass strain selected for use in range seedings in Central and South Texas. Present varieties available commercially are adapted only to North Texas; in central and southern parts of the state, stands are difficult to obtain and are short lived.

CARD OF THANKS

The family of Delta Madison gratefully acknowledges the kindness and sympathy shown us at this time. We say thank you for the food, flowers, comforting words of the minister, friends, neighbors and for the music. A special thanks to the staff of the Rising Star Nursing Center for all their care and kindness.

May God bless you all.

HAVE A BLAST

Country western musical Dale McBride will provide the entertainment for Stephenville Production Credit Association's annual meeting September 5, 1981 (Saturday) in the Stephenville High School. The meeting begins with registration at 10 a.m., followed by the business session. A barbecue meal will be served.

Johnny Embry, regional vice president of the Federal Intermediate Credit Bank of Texas will address the meeting.

Stephenville Production Credit Association is an agricultural credit cooperative. So far this year the Association has loaned more than \$78 million to farmers and ranchers in Comanche, Eastland, Erath, Hamilton, Hood, Johnson, Parker, Somervell, Tarrant and Wise counties.

According to president James K. Pettit, two directors will be elected. Nominees are incumbent R.W. Evans of Proctor; incumbent Jackie D. Clark of Sidney; Bill Couch of Alvarado; and D.E. Mauney of Gorman.

Other business items include the report from the board of director by J.J. Lauglin of Morgan Mill and the report from the president.

Mrs. Dorris Harrell who recently underwent surgery in Brownwood is home and doing nicely.

PUBLIC NOTICE

Continental Telephone of Texas concurs in the rates, rules, and regulations governing intrastate long distance services, leased circuits (including those used to provide foreign exchange service), and certain other services as set forth in the lawfully established tariffs of the Southwestern Bell Telephone Company.

Any changes in these tariff schedules resulting from Southwestern Bell's recently filed petition for a general rate increase (PUC Docket 3920) will also apply to those same services furnished by Continental Telephone of Texas.

3 bedroom, 2 bath brick home on 40 acres to lease. Must be at least a six months lease. \$500 a month, first and last, plus \$500 damage deposit.

For Lease! Commercial 6.8 acres in Olden. Septic tank and utilities available.

For Commercial use only. One to five acres with I20 frontage.

Ceramics Course Being Offered

Ceramics has become the fastest growing hobby in the country the last few years. Ceramic shops are springing up everywhere as people discover the fun of creating a work of art out of a lump of clay. The process of transforming something so inherently unlovely as "mud" into something colorful and functional is fascinating. Cisco Junior College offers a ceramics course that begins with the basic methods of hand building and proceeds to work on the potter's wheel. The student also learns the fundamentals of glaze composition and firing. Students are encouraged to create functional objects such as teapots and cups, lidded jars, bowls, vases and other items which have a practical use.

The first method that the student learns is the pinch method where he pushes and manipulates the clay with his fingertips until he has an even-sided, symmetrical pot. This primary method of hand building is the most primitive and natural manipulation of clay. This method carries over into every type of pottery making and familiarizes the student with the nature (limitations and possibilities) of the medium. The student learns, at this initial stage, to squeeze the particles of clay together rather than pulling them apart.

The second method of pottery making that the student experiences is the coil method, which has long been the chief method of the American Indian. The student learns how to roll out the coils, seal them as the layers rise, and control the wetness of the clay. The student determines the size and

shape of the pot and makes a template pattern which helps him to assure the symmetry of the pot. The student is made aware of the different ways of treating the surface of a coil pot to create interesting, decorative effects.

Another method of hand building is the use of a clay slab. The student uses a rolling pin to roll out a slab of uniform thickness, then cuts it into the desired shapes, and by using slip (liquid clay) glues the slabs together to make boxes and round, oval, or even free-form containers. Of course, this method of making pottery is very quick and can be used in combination with the coil and pinch methods. A wide variety of shapes can be achieved by paddling the clay with a wooden paddle. One contemporary potter even makes chairs using large slabs of clay. There is a great range of decorative possibilities using the slab method. After the pot is formed it can be carved into or impressed by various tools, or shapes can be cut away to achieve a delicate sculptured quality. This is also a favorite way for ceramic sculptors to construct their work. The sculptor forms his hollow piece by joining slabs or large coils, then he carves into or adds on clay to refine his subject.

The last method of pottery construction with which the student experiments is the potter's wheel. The student must be instructed in how to sit at the wheel, how to attach the clay to the wheel head, the various speeds that are best for centering and raising a pot, hand positions for opening and bringing up the sides, the best consistency for

Thursday, September 3, 1981

"throwing" a pot, and how to cut the pot off the wheel. This process may seem frightening to a new student, but it usually turns out to be the favorite method of pottery making.

The student learns how to follow glaze recipes and to experiment to create new glazes. The student learns the basics of firing, although the actual firing is done by the teacher. Various decorative glazing techniques are explored so that the student may become more familiar with nearly all of the methods of pottery decoration.

The decoration is introduced to ceramic sculpture during the course and creates an original sculpture during the course and creates an original sculpture using the slab method. The students are taught to simplify and to incorporate the inherent qualities of the clay into their chosen subject matter. This piece too is glazed and fired with a simple glaze that

does not detract from the form.

Cisco Junior College has recently purchased a new kiln which is capable of firing pieces up to two and one-half feet tall and about two feet wide. The department uses stoneware clay and fires to cone 6 which matures the stoneware clay. The ceramics department has three electric potter's wheels and many kick-type wheels. It also has clay which the student may purchase at a reasonable fee. The glaze materials are all furnished without cost to the student by the school.

Ceramics is a fascinating subject with great potential as a lifetime hobby for the person who enjoys working with his hands and creating an object of utilitarian function and aesthetic quality.

Registration for the fall semester will continue through Sept. 10 during regular office hours (8:00 a.m. to 12:00 p.m. and 1:00 to 5:00 p.m.) at the Registrar's office at the Cisco campus.

Six Flags Over Texas Begins Fall Season

ARLINGTON, Tex.—Six Flags Over Texas has begun weekend-only operation for the fall months following a spring and summer which produced an average attendance increase of 1,000 visitors a day.

The Arlington theme park welcomed its two millionth visitor of the 1981 season during the last week of August, the final week of daily operation.

Six Flags will open Saturdays and Sundays through the end of November.

Attendance at the State's most-visited

tourist attraction averaged just over 15,000 guests per day, compared to slightly less than 14,000 per day in 1980.

Six Flags' general manager, Ray Williams, said, "We expect rather healthy attendance during the fall months. Over our 21 seasons of operation many of our regular guests have found that the park is most enjoyable at this time of the year.

The crowds are roughly half the size of those in the spring and summer, and of course, our visitors don't have to contend with heat."

RRC To Place Emphasis On Safety

AUSTIN--Railroad Commission Chairman Jim Nugent announced plans this week to place heavy emphasis on the public safety functions of the Commission's Gas Utilities Division in the fiscal year beginning Sept. 1. The Commission's

plans will shift almost half of the Gas Utilities Division's work force to safety and engineering tasks. Most of these employees are field inspectors charged with locating dangerous situations and working local authorities to find remedies.

Nugent said an array of troubling statistics and a number of recent incidents posing "imminent danger to life and limb" convinced the Commission of the urgent need to focus additional attention on safety problems.

"The Commission has had the onerous duty of ordering communities to shut down their natural gas systems in the middle of winter because of

immediate danger to schools, churches and residents," Nugent said.

"Our inspectors have found gas concentrations of up to 60 and 70 percent under churches, in the walls of public schools and even under one city hall," he said.

Nugent said the problems result from the natural deterioration of old natural gas lines.

Information gathered by the Railroad Commission shows that one out of every five city-owned

natural gas systems loses at least 30 percent of the gas it purchases. And the cost is passed along to customers.

"The tragedy of these losses," Nugent said, "is that most of these systems serve small, rural communities with high concentrations of retired and low-income families - in other words, the people who can least afford to pay for this lost gas."

The present seven gas safety districts of the Commission will be

restructured to create an eighth district headquartered in Abilene. Under the plan, the Abilene district will encompass 234 local gas distribution systems and 448 pipeline transmission systems in 31 counties in the north-central part of the state.

The Commission also intends to develop the expertise needed to assist cities in seeking funds to rebuild or repair hazardous systems.

The plans described by Nugent will be im-

plemented next week at the start of the new fiscal year when increased funding from the state legislature becomes available.

The legislative appropriation totals \$1,007,000, of which \$832,000 are state funds and \$175,000 are federal monies.

Eastland County Oil News Report

Eastland County has gained site for a proposed 4,500-foot wildcat in the area eight miles northeast of Cisco.

It is Union Exploration, Lamesa, No. 1-A Kincaid, located on a 40-acre lease.

Drillsite is 1,148 feet from the north and

2,983 feet from the west lines of Section 83, Block 4, H&TC Survey.

Texas Oil Production Down

AUSTIN--Texas crude oil production totaled 73,952,092 barrels in June, according to a preliminary report released today by the Railroad Commission's Oil and Gas Division.

The figure compares with final compilations of reported May 1981 production totaling 76,663,263 barrels and

June 1980 production of 76,127,406 barrels.

Texas oil production averaged 2,465,070 barrels daily in June 1981, down from 2,472,976 barrels daily in May 1981 and down from 2,537,580 barrels daily in June 1980.

The June 1981 allowable totaled 109,786,166 barrels. The preliminary

June summary indicated Texas oil production was 32.64 percent under the allowable for the month.

State Leases Produce More Oil & Gas

AUSTIN--State leases in bays, inlets and the Gulf of Mexico produced 85,130 barrels of crude oil during June 1981, in contrast to 48,569 barrels in the same month of 1980 and 89,566 barrels in May 1981, according to operator reports to the Railroad Commis-

sion's Oil and Gas Division.

Gas well gas production from state leases amounted to 29,259,643 Mcf in June against 29,429,677 Mcf a year earlier and 20,723,276 Mcf in May.

Casinghead gas production totaled 259,431 Mcf in June against 202,999 Mcf in the same month of 1980 and 236,372 Mcf in May.

Condensate production from state leases amounted to 68,399 barrels in June, down from 112,424 barrels a year earlier and down from 71,725 barrels in May.

In June, offshore crude production was approximately .11 percent of total estimated crude production in Texas. Offshore gas well gas production was approximately 4.6 percent of the state total.

YOUR LOW-VOLUME GAS CAN MAKE YOU MONEY
A cost-efficient Eliminator 1 gas compressor can make your low volume wells profitable by economically compressing your gas volumes from as low as 20 mcf up to 300 mcf.
And just as importantly, the electrically powered Eliminator 1 lets you sell 100% of your valuable gas, and you have minimum downtime with the automatic on and off feature.
Let Greenbriar Energy show you how to make your low-volume gas operations more profitable.

HALLMARK Handsome executive design.

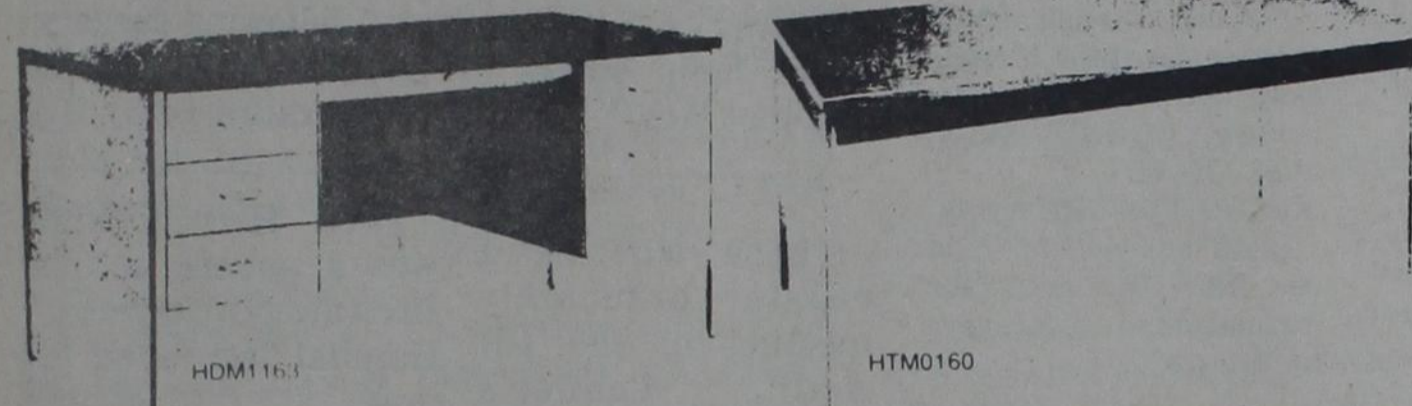

Quiet elegance is assured when you buy this contemporary desk with sound-deadened flush end panels and attractive one-piece back panel. Hallmark pedestals are constructed using a double "O" frame design that promises stability and smooth drawer operation, year after year. You'll like the convenience of the dependable

full-suspension file drawer, and the center drawer with nylon roller cushioning and all-pedestal interlock. A reference shelf and drawer dividers are added features. Matching tables are graceful additions that make possible great flexibility in office planning.

Hallmark desk and matching table available in Black with Walnut tops or Putty with Teak tops.

Mirror chrome finish.

ARMYWORM SEASON NEAR

Gordon Woolam

It will soon be time to check for armyworms. Small grains, coastal bermuda, forage sorghums and lawns are especially susceptible to damage by the fall armyworm in late summer and fall during periods of wet, mild weather. The worms eat leaves and immature seeds and often devour plants down to the ground.

Fall armyworms are principally night-feeders but are also active on cloudy days. They tend to hide deep in plant growth during the day. Grasses should be inspected frequently and carefully to detect armyworm activity. It is not common to totally miss an infestation until much damage is done. This is primarily because the small worms consume very little leaf tissue. During the 15-21 day worm stage, approximately 85 percent of the foliage consumption occurs during the last 2 to 3 days. Therefore, homeowners and ranchers fail to notice armyworms until they are large, subsequently much damage occurs before control measures can be taken.

The fall armyworm moth lays her eggs at night on foliage in masses of as many as 100 or more. Young worms are less than one-fourth inch long, but they reach a length of approximately one

and one-half when mature. These worms range in color from pale green to almost black. Distinctive markings on the fall armyworm include 3 parallel yellow lines extending along the back from head to tail, a prominent white inverted "Y" on the front of the head, and hairs arising from black spots on the body.

Control measures for the fall armyworm should be taken when populations and potential foliage loss indicate the need. As a rule of thumb, control is usually needed when there are 3 or more worms per square foot. A lesser number is tolerated in lawns. The insect can be controlled if measures are taken while they are small. Delaying the application until worms are nearly mature greatly increases the amount of forage or leaf loss.

Insecticides that have been shown to be effective for armyworm control on forage grass pastures when properly applied include Sevin, naled, parathion, and Dylox. For lawn application, Sevin, diazinon or Dursban are recommended. There is no grazing restriction or waiting period between application and harvest or grazing for Sevin or Dylox. There is a 4-day waiting period between application and harvest for naled and a 15-day waiting period between application and

grazing or harvest for parathion.

Growers applying material with ground equipment are strongly encouraged to use Sevin, Dylox or naled.

For further information contact the County Extension Office.

Pecan Weevil Spray

It is now to spray pecan trees for the pecan weevil according to County Extension Agent DeMarquis Gordon.

The pecan weevil is the insect responsible for the white grubs found in pecans about the time they are ready for harvest. After the grub eats the pecan kernel is eaten a hole in the shell, comes out and goes into the soil.

Gordon said only light infestations of weevils have been found, but a few have been found in all parts of the county.

For the most effective control pecan trees should be sprayed within the next week and again in 10 to 14 days. Other spray applications may be needed later depending on the infestation.

Commercial growers should check their trees daily for weevil infestation. One method of checking pecan weevil infestations is jarring of the

limbs. To accomplish this, place a large sheet or cloth under a tree and jar limbs with a padded pole. Weevils will drop to the ground and remain motionless for a short period of time. Some growers have traps that help determine infestations.

The pecan weevil is a brownish weevil about 1/4 inch long. It has a snout about as long as its body. One female weevil may deposit up to 60 eggs in 60 different pecans during one month.

Gordon said two to four applications of Sevin may be needed to control the weevils. Sevin should be used at the rate of 3 pounds of 80% wettable powder per 100 gallons of water. If spray is applied in small quantities mix 3 tablespoons of 80% WP Sevin per gallon of water or 4 tablespoons of 50% WP Sevin per gallon.

CARD OF THANKS

The family of Cora Wheeler would like to say thank you, for every expression of sympathy during her illness and death. A special thanks to Rev. Bill Easley.

The Family of Cora Wheeler

Homemaking Hints

By Janet Thomas

Last week I received three long distance calls from a resort company. The representative is calling to notify me that I have already won prizes and they will Present me with free gas money - all for the drive to a new lake resort. Of course, the company wants us to buy a lot in this exclusive resort development. It is an offer you can't pass up!

Does this sound familiar to you? Probably you have received similar telephone calls or letters from land development companies.

Many Texans have made this trip seeking a pot of gold at the end of the rainbow and finding only aggressive sales people followed by months of filing complaints.

Formal complaints filed with the Texas Attorney General's office against developers and land sales corporations include: refusing to issue federally required property reports designed to reveal debts on the property or other liabilities, false promises of future site improvements, abusive or high pressure sales tactics, deceptive advertising and switching lots after the contract had been signed.

Land or real estate shoppers should keep the following precautions in mind:

- * Beware of the developer who comes calling through mass mailings and telephone solicitations. If the property is so valuable, why are they trying so hard to sell it by mail or telephone solicitation to probably everyone on the block?
- * Never buy land sight unseen.
- * Do not sign anything until you or your lawyer understand all the documents.
- * Learn the land's "real market value", not just its price. One way to learn the

market value is by asking a reputable real estate agent in the area for prices of similar property. A better method is to have the land independently appraised.

- * Get all promises of recreational facilities or services, such as roads, water, and sewer in writing.

- * Federal law requires developers to supply buyers with a property disclosure report before they sign a sales agreement. However, the report is worthless to buyers who fail to read it prior to signing, or those who merely flip through the document with the salesman.

- * If the salesman refuses to let you take the report and sales agreement home for review, "DON'T SIGN, JUST LEAVE".

RECIPE FOR THE WEEK

Pears are plentiful right now. Here is a good pear marmalade you might like to try this year.

Ruby Pear Marmalade
3 cups diced ripe pears
1 orange, pulp and coarsely grated rind
1 box powdered pectin

Thursday, September 3, 1981

1 cup crushed pineapple (1 9-oz. can)
1/2 cup chopped maraschino cherries
4 1/2 cups sugar

Measure sugar into a dry bowl to be added later. Mix diced pears, pineapple, orange pulp and rind, maraschino cherries and powdered pectin. Bring mixture to a boil rapidly over high heat, stirring constantly. Add sugar; bring to a full rolling boil and boil exactly 2 minutes, stirring frequently. Pour into hot, sterilized jars. Leave 1/2 inch of head space. Close and process for 5 minutes in boiling water bath. Makes 5 half-pint jars.

There will be a regular bi-monthly meeting of the 4-H Adults Leader's Association on Thursday, September 3 beginning at 7:30 p.m. in the TESCO Reddy Room. Items on the

agenda will include annual Eastland County Fair, County Awards Banquet, National 4-H Week, Wildlife Field Day exhibit, etc. Also, the possibility of alternating locations of Adult Leader meetings will be discussed.

Please mark your calendar and attend this 4-H meeting on September 3!

PERSONALS

"As we convert to lignite generating, your utility bill is going to increase."

WILLIAM G. PARKER
Manager

"But there's good news too!"

In the early 1970's, the member cooperatives of the Brazos Electric Power Cooperative foresaw continued increasing costs and possible shortages in using natural gas as a primary energy source. In order to guarantee our member owners the electricity they would need, we began construction of the lignite-fueled San Miguel Plant. Building a lignite-fueled plant is a great deal more expensive than building a natural gas-fueled plant. For example, approximately 30% of the total cost is expended to meet requirements of the Federal Clean Air Act. When we switch to the San Miguel plant as our primary source of electricity later this year, the effect of the high construction costs will make a noticeable increase in your monthly electric bill.

But the cost of lignite will increase more slowly than natural gas, making electricity from San Miguel more economical as time goes on. In future years, this plant will help us to slow inevitably rising costs and assure our member owners of a reliable, available source of electricity. We believe THAT'S GOOD NEWS!

Because we saw the need early and acted on it, we will have more control of future fuel prices affecting the cost of electricity to the member owners of the Brazos Electric Power Cooperative.

Oil News

Twin Drilling Company of Rising Star, filed applications to drill two Eastland County wildcats with each test for 3400 feet.

No.1 Miss Emma Graf will be drilled five miles northwest of Rising Star on a 53 acre lease.

Drillsite is 875 feet from the north and 1070 feet from the east lines of W. Ahrenbeck & Brothers Survey 1, A-4.

Other wildcat is No. 1 E.F. Agnew, located on a 58 acre lease four miles northwest of Rising Star.

It spots 330 feet from the north and 1650 feet from the east lines of Section 41, ETRR Survey.

CJS Energy Company of Brownwood, No. 2 Jessie Bilbrey is a planned 1000 foot wildcat for the area

five miles west of Cisco.

Location is on a 127 acre lease. Spotting 2900 feet from the north and 920 feet from the west lines of Section 7, Block 2, BBB&C Survey.

Powder River Oil Co. of Fort Worth, No. 2-4-E GL&CC Chicago is a planned 3000 foot wildcat for Comanche County.

The test will be drilled one mile southeast of Sipe Springs.

Location is on a 320 acre lease. It spots 330 feet from the north and east lines of J.R. Beard Survey, A-2060, and also located in the northwest quarter of Section 54, LAL Survey.

Another wildcat for the county will be drilled five miles northwest of De Leon. It is Buck Wheat Resources Inc., of Eastland, No. 2 Dyson, located on a 121 acre lease.

Drillsite is 5169 feet from the north and 625

feet from the southeast lines of Section 53, Block 2, H&TC Survey.

Proposed depth is 3100 feet.

Sparkman Oil Company of May has completed its No. 6 Sparkman "A" in the Zourette, N. (Marble Falls) Field of Comanche County, five miles northeast of May.

Drillsite is 3560 feet from the north and 2110 feet from the east lines of A.W. Sullivan Survey, A-840.

The well finished for a calculated, absolute flow potential of 153,000,000 cubic feet of dry gas per day.

Total depth was 2869 feet, plugged back to 2716 feet. Perforations are from 2708-16 feet.

Operator set four and one-half inch casing at 2868 feet.

Steer Brothers & Brown Inc., Houston, No. 2 Bar H Bar Ranch is a planned 4,200-foot wildcat for Eastland

County.

It will be drilled seven miles northeast of Cisco on a 168-acre lease.

Drillsite is 1,670 feet from the south and 1,650 feet from the east lines of Section 54, Block 4, H&TC Survey.

Another wildcat will be drilled nine miles southwest of Thurber as Credo Oil & Gas Inc., Beaumont, No.1 Charles Masseegee.

The planned 3,600-foot venture is located on a 282-acre lease.

It spots 2,139 feet from the north and 850 feet from the west lines of W. Flint Survey, A-131.

Staked in Eastland County Regular Field was Jerry Rooney & Associates of La Fayette, La. No. 1, H.A.Reynolds.

Location for the planned 4,000 foot venture is on an 80 acre lease, five miles east of Carbon.

It spots 2210 feet from the north and 2350 feet from the west lines of Seciton 20, Block 1, H&TC Survey.

Furry Producing Company of Brownwood will drill No. 6 J.C. EXCELLENCE Brown County Regular (Marble Falls) gas pool two miles north of Byrds.

The planned 3,000 foot venture is located on a 200 acre lease.

Drillsite is 1050 feet from the north and 680 feet from the east lines of E.M.Tanner Survey 150.

Pioneer News

By Mabel Halsell

By all infallible proofs, Fall is here. Schools are starting everywhere. Back to school and Fall of the year go together, as I see it. What better time to salute our teachers and all school personnel? Oft times we forget these unsung heroes; just take them for granted.

Our Texas teachers are part of a long heritage, beginning with the very first teacher, when the state was young. The trend is to praise the dedication and works of pioneer teachers, and that is good. Before mentioning a few of them, I wish to thank all present day, dedicated teachers. They are a bulwark in our free, democratic society.

A glimpse at a few early day teachers is interesting and challenging. Annie Webb Blanton, 1870-1929. Teacher in Austin 1902. Pres. State Teachers Assoc. 1916. State School Supt. 1919....

Teacher in University of Texas 1923-1927. Organized the Delta Kappa Gamma Society-1929.

A dauntless spirit, amazing capacity for work; concerned with the advancement of her profession. Bell Elmond 1854-?

Taught school in Waco. A teacher of Dorothy Dix (Elizabeth Meriweather). A quote from a letter written by Miss Dix, "She was the first teacher to awaken my interest in literature and I have always felt very grateful to her. Please give her my love and tender remembrance."

She opened new worlds to many pupils who were at a loss.

Katherine Tarver 1868-1944.

Taught school and held Principal's post in Laredo. County School Supt. Webb Co. 1933.

Faculty member Southwestern Univ. at Georgetown 1926. One of her pupils, a prominent Laredo business man said of her:

"None of Miss Tarver's Geometry pupils will ever forget Miss Tarver as she went into action. Rolling up her sleeves, she tackled her problems with such energy that she literally forced the lesson into the heads of even the most impossible pupils....When she taught Miss Tarver got results.....She was our teacher, and principal, club sponsor, basketball coach, and above all, the best sport in the world."

Mrs. Bill Rigsby 1836-1934. Beaumont's first woman teacher, First woman to teach in Tyler County.

The first woman in the state of Texas to draw and cash a public school voucher.

She received her education in the little rural school near her home in Jasper Co. and from Collegiate Institute at Jasper. In addition to her academic studies she studied painting, piano and the violin. She died in 1934 at the age of ninety-eight.

There are many more worthy of the Hall of Fame because they were teachers. Maybe more later, including some I remember for the lasting influence they left to this heritage.

Mrs. Ethel Brown's visitors this week were Mrs. Opal Dean of Rising Star and daughter-in-law Mrs. Kenny Allen, son Russell of Midland, Mrs. Mildred Coggin and daughter Mary Ruth of Waco, Velma Brown, Mabel Birchfield, Lou Grider of Cross Plains, and Mabel Halsell.

Lou Grider and Mrs. Brown made a business trip to Brownwood on Friday. Mrs. Brown saw her doctor while there.

Visitors with Eddie and Gail Flippin were his sister and husband, Pearl and Jim Kramer, Lake Brownwood and Mrs. Winnie Flippin on Sunday.

We are glad to report that Mr. Bill Sessums is convalescing normally from the injury to his neck. He is at home now under Gladys' competent care.

Their visitors this weekend were Mr. and Mrs. W.T. Sessums Jr. and Mr. Henry Roe of Lubbock, Mr. and Mrs. Pete Fore, Mr. and Mrs. Fred Zedlitz and Mr. Bill Robason.

Mr. and Mrs. Joe Fleming visited several times with her mother, Mrs. Mathews. She is in Hendrick Medical Center in Abilene.

Their visitors were Mrs. Betty Meiron, daughter-in-law, Detra and baby son, Trey IV, who live in New York. They visited Charlene and Jim Fleming also.

Gary and Louann, Kristopher, and Kris Bates and David Taylor had lunch with her grandparents, Mr. and Mrs. Halsell on Friday. They were enroute to Denton to return David after a visit with them in San Angelo. Mrs. Dale Gary visited

the Halsells on Thursday.

Visitors during the week and weekend with Mr. and Mrs. Foster were their sons Billy Wayne, wife and daughters from Henrietta, Okla., Charles and wife of Clyde and Eugene and Norma of the community.

The Pioneer Quilting Club met on Tuesday after their summer vacation. They will meet each Tuesday.

Mrs. Foster announced Game Night on Thursday, Sept. 3. The menu is ice cream. They will eat before games begin.

Mrs. C.T. Barton visited her brother, Mr. W.G. Reed in Rising Star on Sunday. He is doing fine after surgery.

Mr. James Alexander visited the Bartons recently.

Mrs. Gann reports they are getting along fairly well. Their son from Wichita Falls comes as often as he can get away from his duties at Shepherd Air Base.

Mr. and Mrs. David Smelser of Odessa visited her great-grandmother, Mrs. Grace Norris last week. Other visitors are Mrs. Annie Hill of Amarillo, Mrs. Ruby McCowan and Naomi, Cross Plains and Mrs. Winnie Flippin of the community.

Mrs. Estaloy Dickson, Mrs. G.L. Hobby, Carolyn Glover and Sharolyn Walker visited Mrs. Betty Beggs and got pears recently. Dick, Karon Dickson and daughter visited his mother, Mrs. Estaloy Dickson recently.

Visitors with Mrs. Rody were Mr. and Mrs. Barr of Coleman, Mr. and Mrs. Bob Raody of Cross Plains and Mr. and Mrs. Bob McNeil of Baird, and Jo McNeil of Kansas.

Mrs. Nora Phillips, Glenda and Janice Phillips made a business trip to Eastland this week.

Ella Mentry

Registration Continues at CJC

CJC Registration Cisco Junior College's registrar, Olin O. Odom, III reminds area residents that registration will continue through Thursday, September 10 at the Cisco campus and all off-campus centers. Though there will be no problem in registering as late as September 10, Mr. Odom urges those who wish to take college-credit courses to register now in order to begin attending classes. Classes are presently in session, and a minimum amount of missed class time is beneficial to the student.

Mr. Odom said, "Cisco Junior College offers a wide range of opportunities for expanding knowledge. We're anticipating a large enrollment this year, and we invite anyone, college-age or older, to enroll in one of the many programs we offer."

Students may register at the main campus in Cisco, at the Clyde Educational Center, or at the Community College Center of Abilene at anytime during regular office hours, 8:00 a.m. to 5:00 p.m.

Church News

United Methodist

One spring during the depression years a farmer faced a hard decision. His crops the previous year had been very poor because of the lack of rain. It was time to plant again. He asked himself, "Shall I plant what little seed corn I saved from last year and lose all control of what may happen to it, or should I carry it to the mill to be ground into meal to make bread? He pondered his decision, "I have corn now. I can use it as I want to. I can do what I want to with it. On the other hand I can plant it and if it rains at the right time I will make an abundant corn crop. The seed that the farmer planted had the potential to multiply and produce many more times that which he planted. God has placed that potential for growth in your life, your time, your talents and your resources. But God does not make the decision for you. Only you can do that. Will you hold on to what you are and what you have? Or will you make an investment in the work of God's Kingdom? The decision is complicated because we have been taught to hold on to what we have and not to take chances. There's just one problem in doing that. We cut ourselves off from any return on our investment. How can God bless us if we hold

on to what we are and to what we have and never make an investment in His Kingdom's work? Think about it.

The Rev. Lloyd Coker a former pastor will preach this Sunday morning. Plan now to be in Church and welcome Lloyd and Mary. There will be no evening service.
Bill Easley, Pastor

COMMENTARY By Myrtle Owen

It is God's harvest time; Psalm, 35:1-28; 36:1-12 and chapter 37, Jesus is our Salvation! Satan is our enemy. The Lord will fight our battle against Satan, if we will only let Him. Jesus cares for our souls. The Lord will plead our cause, with them that strive against us. Who strives against us? Satan, he will use people who are unaware that they are being used of Satan, to cause us to fall into his net Satan has lain in our path to trip us in our work for the Lord. We must pray for God's help. (Psalm 37:1-10) says fret not thyself because of evildoers, neither be thou envious against the workers of iniquity. For they shall soon be cut down like the grass, and wither as the green herb.

Trust in the Lord, and do good; so shalt thou dwell in the land, and verily thou shalt be

fed. Delight thyself also in the Lord; and He shall give thee the desires of thy heart. Commit thy way unto the Lord; trust also in Him; and He shall bring it to pass. And He shall bring forth thy righteousness as the light, and thy judgement as the noonday. Rest in the Lord, and wait patiently for Him: fret not thyself because of him who prospereth in his way, because of the man who bringeth wicked devices to pass. Cease from anger, and forsake wrath: fret not thyself in any wise to do evil. For evildoers shall be cut off: but those that wait upon the Lord, they shall inherit the earth. Psm.37: 3,4,5. TRUST in the Lord, and do good; DELIGHT thyself also in the Lord; COMMIT thy way unto the Lord; TRUST also in Him; and He shall bring it to pass. TRUST-DELIGHT-AND-COMMIT your whole soul and body to the Lord Jesus Christ, and then He will bring forth your righteousness as the light, and your judgement as the noonday. The meek shall inherit the earth; and shall delight themselves in the abundance of peace.

Local Briefs

Mrs. Alice Dombrowa and Allison of Aberdeen, Scotland have been visiting her parents, Mr. and Mrs. E.M. (Bob) Roberts.

OBITUARY

Cora Wheeler

Cora Etta Wheeler, 94, of Rising Star died at 6:30 p.m. Monday in the Brownwood Regional Hospital. Services were held at 2 p.m. Wednesday at the Higginbotham Funeral Home Chapel.

The Rev. Bill Easley of the First United Methodist Church officiated. Burial was in the Blake Cemetery. Born August 10, 1887, in Alabama, she married William Henry Wheeler of December 28, 1906. He preceded her in death in 1965. She was a Methodist.

Delta Madison
