Committee Is Named to Work With Council

The Rising Star Chamber of Commerce Tuesday named a committee consisting of George Steel, Jay Koonce and A. D. Jenkins to study the matter of annexing more areas to the corporate area of Rising Star and to confer with the City Council on the question.

The resolution followed discussion of the demand for more housing in the community and the difficulties of securing lots upon which to build that meet all requirements of title, environment, community and utilty services required for sound financing.

The CofC, responding to a request from a number of residents of the Okra area, formally asked the Kizer Telephone Company to undertake to provide direct telephone service with this community.

She was drafted into golf as a companion for her husband, W. H. Hopkins. He bought her a set of clubs, then proceeded to defeat her soundly and steadily for the next three years.

When she could tolerate it no longer, Mrs. Hopkins tightened her resolve like a loose cleat sharpened her swing and retreated to the golf course whenever the sun shone. She enlisted the teaching aid of Joe Moresco, and later the pros at her home base of River Oaks, Jackson Bradley and Jerry Bass.

Although the silver cup sh won at Fairway Farms was her first, it won't be her last if Jerry Bass is any judge. "She ought to win every tourney she she needs is experience.'

Gradually Mrs. Hopkins overtook her husband, and now she estimates that "it's about even." In the process, she became a much better golfer than she dreamed possible.

WITH THE JUNIORS

Last week we had the coronation. It was really a nice thing. It looked funny to see most of the students of RSHS all dressed up to see the Queen crowned. I didn't know we had so many good-looking kids untile they started to take their places around her majesty. It was really a big thing in the school year. Miss Childress d d a swell job and everyone enjoyed it very much.

Things have been rather dull this week in school; therefore, there is not much news that I can think of. Spring is just around the corner and everyone is getting a touch of laziness and wanting to loaf and go to sleep in classes, but that doesn't slow the teachers down one bit; they keep pouring the lessons on.

Talking Is All Right-

.... if you are running for office or courting your best girl, but when it comes to buying land or town properties don't let the owner talk you out of an abstract. The fact that the seller has owned the property for many years doesn't mean necessarily that his title is good. The safest plan is to get an abstract before you buy. The cheapest property on earth is too high if the title is faulty.
