MAY NEWS

BY Entha Campbell

Dear Sis

Several people in the May area are interested in forming a perpetual care charter for the May Cemetery Association.

Marshall has gone to Miami, Florida.

Mrs. Janice Parnell of Rising Star was seriously injured in a one cycle accident east of May. She had surgery in San Angelo for repair of one break on her right leg. The break extended into her knee joint.

Darwin Dickerson represented Higginbotham's of Rising Star at a Whirlpool Appliance meeting and dinner sponsored for several stores dealing in appliance sales. Darwin was in Dallas for the event May 15.

Mrs. Dora Taylor had surgery May 15 in Brownwood Community Hospital; she is improving.

The A.D. Evans family went to Throckmorton to visit her parents, Mr. and Mrs. Edgar Watson.

Mrs. C.H. Clardy is in Dallas visiting Mrs. Nettie Milam and family and plans to return home next week.

I visited Mrs. May Mousey in the Brownwood Care Center May 17. She told me she had blood clots in one ankle and one arm several days ago, but the clots are dissolving satisfactorily.

Mrs. Janis Harvey and Mrs. Nelda Michael made a business trip to Abilene last Friday.

While visiting in the Brownwood Care Center, I talked with Mrs. Eva McBride Smith who says she is fine and busy with her paint brush and canvas.

Mr. Ed Keegan has been hospitalized several days recently because of emphysema. He has been in a hospital in Gorman.

Mrs. Grace Glenn has been bowling in the Earlybird League for several years. On May 8 she

was awarded a hi-game trophy at the season's end for this spring with a one hundred eighty-six for her highest score. Mrs. Glenn will resume her bowling activities in early fall in Brownwood.

Mr. Charlie Weathersby has recently returned to Odessa after several days visit with his brother, Lea Weathersby, and other friends and relatives near here. I always enjoy his visit by the store.

Mrs. Oliver Steel of Brownwood visited Mrs. Bertha Nelson May 8. She also visited the Ira Nelson home and Mrs. Marshall Campbell.

Mrs. Othal Warnock and Miss Myrtle Davis returned from Dawson May 17 after spending several days with their sister, Mr. and Mrs. R.M. Hage and Mr. and Mrs. A.J. Davis.

Mr. and Mrs. P.B. Griffin of Crane visited his mother, Mrs. P.B. Griffin, Sr., last weekend.

Mr. Gene Griffin, a graduate of Texas A&I, will be assigned to a post in Anchorage, Alaska, as natural gas engineer for Atlantic-Richfield Co., after a brief vacation with relatives and friends.

More than one hundred Brown County Sheriff Posse and family members attended a golden wedding anniversary celebration for Mr. and Mrs. B.U. Ross on May 4 on the Ross Ranch in the form of a trail ride and covered dish supper.

Mrs. May Mousey visited in the home of Mr. and Mrs. Ed Keegan and Hope Pledge on May 1.

Mrs. W.A. Fry continues to improve since being home from the hospital since May 1.

Mrs. Rachel Bibby and Mrs. Sam Altum are both home and improving.

Mr. and Mrs. L.A. Sartain of Houston were visiting in this area last week. Mrs. Sartain is the former Naomi Landreth.

Obituary

Mrs. Jay B. Walsh

Graveside services for Mrs. Jay B. (Kathleen Walsh) Littlefield, 62, were held at 11 a.m. May 18, at Amity Cemetery. Mrs. Littlefield died May 13, in Philadelphia, Pa., following a brief illness. Mass of Christian Burial was held in the Immaculate Heart of Mary Church in Philadelphia on May 16.

She was survived by her husband; a son, James Landreth Littlefield; a brother, James Walsh, all of Philadelphia; two sisters-in-law, Mrs. Ima Lou Nabers of Brownwood and Mrs. Joy Lewis of San Antonio.

The funeral notice in the Philadelphia newspaper requested expressions of sympathy in the form of contributions to the Amity Cemetery Association, Rising Star, Texas.

Fred Jones

Fred Jones, 68 years of age last March, died Tuesday, May 14, at 9:30 a.m. in his home in Edgewood, which is fifty miles east of Dallas.

An independent oil operator, Mr. Jones had spent most of his time near May for the past seven years.

On his way home April 27, Mr. Jones had a blackout and crashed into a utility pole. He was hospitalized two weeks in Baylor Hospital in Dallas, one week of that in ICU. He had several broken ribs and the aorta badly bruised and ballooned.

Mr. Jones was apparently improving and had been home a few days when a blood vessel ruptured and caused his death. He was buried in Edgewood on Friday, May 17.

Mrs. Mary M. Densman

Funeral services for Mrs. Mary Magdalene Densman, 85, of Rising Star were held at 2:30 p.m. Monday May 20, 1974, at Higginbotham Funeral Home Chapel with the Rev. Johnny Lee officiating, assisted by the Rev. Vic Allen of Cisco. Burial will be in Blake Cemetery.

Mrs. Densman died at 4:25 a.m. Sunday at the Twilight Acre Nursing Home.

Born February 2, 1889, in Arkansas, she married Ruben Austin Densman in 1907 in Brown County. Mr. Densman preceded her in death. She was a member of the Primitive Baptist Church.

Survivors include three sisters, Mrs. Hattie Hastings of Rising Star, Mrs. Beulah Gothcer of Rising Star and Mrs. Della Roberts of Rising Star and a number of nieces and nephews.

ENGAGEMENT ANNOUNCED- Rev. and Mrs. G.A. Burks of 106 W. Cedar, Comanche, announce the engagement and approaching marriage of their daughter Jennifer Elaine, to David Mike McGinn, son of Rev. and Mrs. V.E. McGinn of Star Route, Carbon. The bride will be a 1974 graduate of Comanche High School. The groom is a 1974 graduate of Carbon High School. The wedding is set for May 25 at 7:00 p.m. in the Hasse Revival Center in Hasse. Friends and relatives are invited to attend.

Saturday Club Closes Year With Luncheon

OUR FIREMEN Irene S. Mayfield

The Saturday Club held the closing meeting of the 1973-74 club year at the noon hour May 15 in the Fellowship Hall of the Methodist Church. The club chose this occasion to express appreciation to the volunteer firemen, the mayor, and city councilmen for their services to our town.

A turkey dinner was prepared and each of the above mentioned were invited to this

"come as you are" affair. The tables were beautifully decorated with roses and at each place setting a "thank you" was

waiting for the guests.

The mayor and councilmen were thanked for their help in improving the library building. The firemen received the following tribute:

Your charity, courage, conviction, faith, power to protect, your love for humanity and your emotion with sanity are the essence of true brotherhood, creating in you a desire to serve your fellow man.

We thank you for your courageous sharing and love you for your unselfish giving!

Sincerely, The Saturday Club

Area Law Enforcement Agencies Get New Equipment

Law enforcement agencies in Coleman, Eastland and Knox counties will become equipped with modern and highly sophisticated radio communications equipment subject to the decision of the elected officials in those areas to participate in the WCT COG regional radio communications program. Les Wilkerson, WCT COG Criminal Justice Coordinator, said that as of the first of May he had received commitments to participate in the programs from most of the governing bodies of the agencies involved. In addition, the WCT COG Executive Committee authorized the staff, on April 24, to submit an application to the Texas Criminal Justice Council for a grant to fund seventy-five percent of the cost of including the three additional counties in the network. Estimated costs total \$80,000 for the project, which will include the equipment purchase, as well as the system design work required for each county.

The installation of the equipment for the additional three counties will complete the region-wide law enforcement network. Equipment was completely installed and was operation in sixteen of the region's nineteen counties as of the first of May. The regional radio network, when completed, will become an integral part of the statewide radio network, being established by the Governor's office.

The overall objective of the program is to "reduce crime by decreasing response time and increasing clearance and

conviction rates through improved radio communication among criminal justice agencies".

WCT COG Executive Director Bob Gallagher had high praise for the new system's potential in reducing crime. Gallagher stated that the rapid exchange of information is a key to good law enforcement. He pointed out that the new system, coupled with the existing regional landline teletype network, would give all local law enforcement agencies the capability to exchange accurate information with other city, county and state agencies, as well as access to the Texas Crime Information Center in Austin and the National Crime Information Center in Washington.

Gallagher further pointed out the fact that the clearance rate of auto theft in the West Central Texas Region was fifty percent in 1973, an improvement of some sixteen percent over the prior year's clearance rate of thirty-four percent. He emphasized that a large amount of the credit for this very impressive clearance rate must be given to the improved communications and information systems. Rapid access to DPS and NCIC stolen property files is also credited with the identification of stolen vehicles before they are abandoned and the consequent arrest of the suspect while still in possession of the stolen vehicle.

The City Council of Rising Star has voted to participate in the new regional communication system.

WASHINGTON D.C. -- A LITTLE NOTICED CONFERENCE OF PHYSICIANS, astronauts, and various scientific specialists was recently held at Princeton University. Their subject was on establishing self-sufficient human colonies in space.

A RELATIVE SHORT TIME AGO MANY DEVELOPMENTS -- MOON LANDINGS, SPACE shuttles unmanned vehicles past Mercury and other planets -- were Buck Roger's imaginations. Today all these are accepted as usual and hardy dramatic.

IT DOES, HOWEVER, BOGGLE THE MIND OF US ORDINARY PEOPLE TO LEARN that there is serious discussion among technologists of building a community outside the Earth's gravity.

THE INITIAL GOAL WOULD BE THE CONSTRUCTION OF A COLONY OF ABOUT 2,000 people at a site along the orbital path of the Moon. According to these scientists, there are five points in space where the gravitation fields of the Earth and Moon balance one another. An object at one of these points would tend to remain in balance between the TWO PLANETS.

ACCORDING TO REPORTS FROM THE PRINCETON UNIVERSITY MEETING, THE initial station would be using the space shuttle and space-tug system now under development. These experts have it figured out the advantage could be taken of abundant building materials available from the Moon using a cargo launching system in retrieving these raw materials.

Dr. Gerald O'Neill, Professor of Physics at Princeton University, pointed out that "Virtually unlimited" resources exist in space and that sunlight provides a continuous source of free energy with no interruption. Furthermore, he said that in the asteroid belt there are great hunks of almost pure nickel-iron which could be fabricated into steel with minimal process.

TO THE LAYMAN, THESE DISCUSSIONS ARE FASTASTIC IN SCOPE. THE colony which they were talking about would require the transport of 10,000 tons of material from the Earth to fabricate a cylinder to house the 2,000 people mentioned in such a way to stimulate gravity on the Earth, using the natural resources from the Sun to generate electric power and to raise crops within the cylinder.

FROM THESE THEY GO ON TO LARGER COLONIES OF 10,000 people which Professor O'Neill indicated could be accomplished within the next 20 years. Probably the most dramatic opinion coming out of the conference is that in a century from now most humanity could be living in space. They talked to removing "dirty" industries from Earth utilizing non-polluting technology that would leave the Earth free of polluting influences.

IF ALL THESE DREAMS WERE EVER TO BECOME REALITY, THE EARTH THEN would become a world-wide park and a beautiful place to visit from other parts of the Universe.

Erath County Rodeo Set For June 14 And 15 In Stephenville

The Erath County Trailblazers of Stephenville, will hold their 12th annual Trailblazer Round-Up Rodeo, June 14 and 15, 1974, in the Erath County Livestock Assn. Arena, Stephenville. Rodeo time will be at 8:00 p.m. each night. The Texas Rodeo Company will be the stock producer.

The rodeo is for school age youngsters between the ages of six and 19 years of age. No college students will be allowed and identification must be presented upon request.

Some events will be jack-potted with Silver Trophy buckle being presented in first place--these events are: Bareback, Sr. Bulls, Tie Down Roping, Sr. Girls Barrel Race and Chute Dogging. Events that will award Silver Trophy Buckles to first place, ribbons thru fourth are: Jr. Bull Riding, Jr. Barrel Racing, Rescue Race (Boy & Girl team), Ribbon Roping (Boy and Girl Team), Goat Tying (Girls), Poles QH, Break-away-Roping and Goat Sacking (Girls LTeam). All Team events will be awarded belt buckles to both members of team, along with points.

A Gold and Silver, Ruby studded NELSON TROPHY

BELT BUCKLE will be awarded to All Around Cowboy and All Around Cowgirl. Contestants must enter at least three events to be eligible for All Around.

Trophies will be awarded to High Point Team and Runner-Up High Point Team.

Interested schools or individuals may contact, Trailblazers, Linda Frank, Rodeo Team Sec., P.O. Box 49, Stephenville, Texas 76401 or call AC 817-965-7184 for information and entry blanks. Entries will close June 13, 1974.

Western Dance held both nights after rodeo at Show Barn featuring the New Country Edition.

Survey To Determine Energy Policy

AUSTIN. Twenty-eight Eastland County Agricultural producers will be interviewed on their use of fuel and fertilizer as part of a Texas Department of Agriculture survey to help determine the state's energy policy.

According to Agriculture Commissioner John C. White, the comprehensive Texas Farm Fuel and Fertilizer Survey will also provide information for agricultural and research needs. The survey will begin June 17 and end July 1. It will involve nearly 1,500 farms and ranches selected at random from respondents to an earlier survey on acreage and production. Participants will provide information on their use of fuel and fertilizer for production and marketing of crops, livestock and poultry. For this survey 55 counties were chosen at random from the

State's 15 crop reporting districts.

White said the department is conducting the survey at the request of the Governor's Energy Council. The Texas Crop and Livestock Reporting Service will supervise the interviews and compile the results.

Specially trained personnel will personally interview farm and ranch operators or others knowledgeable about the operation such as foremen or managers. Persons to be interviewed will be notified and facts about individual operations will be kept confidential.

"We encourage farmers to participate", White said. "This survey will be the first giving us the facts we need to direct our activities to make sure farmers have the necessary inputs for agriculture."

Basic Certification School Is Underway

BASIC CERTIFICATION SCHOOL IS UNDERWAY
Eighteen of the region's law enforcement officers have pre-rolled in the WCT COG semi-annual Basic Certification School. The school will get underway on Monday, May 6, and will continue through the fourteenth of June. Specialized instructors for the school are provided by Texas A&M University, Law Enforcement Training Division, under contract with WCT COG and the Texas Criminal Justice Council. The course covers all aspects of search and seizure laws, laws of arrests, traffic laws, criminal

laws, and defensive tactics, a thorough knowledge of which is required to discharge the duties of a law enforcement officer. The school is conducted at no cost to the officers or their employing law enforcement agency.
Zane Welch is presently attending this Basic Certification School.

Notice To Bidders

The General Services Administration today announced that sealed bids are being solicited for replacing roof at the Federal Center, Warehouse # 4, 4900 Hemphill, Fort Worth, Texas.

Mr. Jay H. Bolton, GSA Regional Administrator, said the cost of the project is estimated to be from \$100,001 to \$500,000. Work included:

Furnishing all labor, materials, equipment and performing all work for replacing the roof of Building #4, and all other items mentioned in body of specification.

Bids will be received until 3 p.m. June 13, 1974, at the GSA Business Service Center, Room 1A03, 819 Taylor Street, Fort Worth, Texas 76102. Firms wishing bid forms or other information concerning this Project #ITX 74038, may write the Business Service Center at the above address or call Telephone 817-334-3282.

Prepared by the American Society of Chartered Life Underwriters, the national society of life insurance professionals who have earned the C.L.U. designation by meeting high educational, ethical and experience requirements.

Q. In the policy I took out ten years ago, when I was still married, I remember making my son the "contingent beneficiary." That means he collects if the contingency, my death, comes to pass, right?
A. No, no.

If he's the contingent beneficiary, it means that he collects only if, at the time of your death, the person you've named primary beneficiary is no longer alive.

If you named your former wife, by name, as your primary beneficiary, then she is still your beneficiary even though she's no longer your wife!

To prevent situations like this, in which the insurance being carried is different from what the insured wants to carry (or even thinks he's carrying) it's a good idea to haul out your insurance policies once a year and go over them with a life insurance agent.

The Consumer Alert
by John L. Hill
Attorney General

AUSTIN. Want to look 10 years younger, with a smooth, wrinkle-free skin or a full head of hair?

There are some commercial establishments that promise all this and more. They offer such things as face peeling and suture implantation to hold hairpieces.

Unfortunately, some doctors say, what they may also inadvertently deliver to some persons is a discolored, scarred face or an infected scalp.

The court of inquiry held in Dallas last summer to examine practices in the health and beauty industry revealed that some reducing spas offered such related services as face peeling, sometimes called "chemotherapy".

Some establishments claim to use "secret chemical formulas" to peel off the outer skin, theoretically leaving smooth, youthful skin free of wrinkles and blotches.

But no matter what the "secret formula", the process invariably involves applying some caustic chemical (often carbolic acid) to the face to, in effect, "burn away" the top layer of skin.

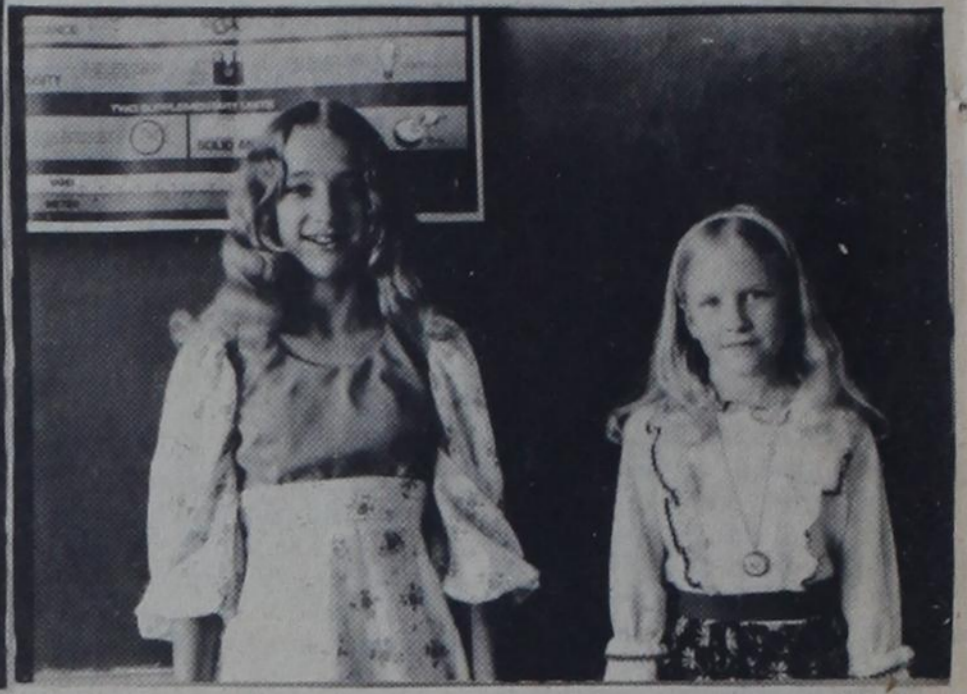

Plastic surgeons and other physicians sometimes regard the process as a helpful procedure when performed under medical supervision by trained personnel on certain individuals after extensive skin tests. It is sometimes used after a surgical face lift to remove any tiny scars.

However, at the court of inquiry, doctors testified that in the hands of unskilled individuals, the process could result in pain, swelling, redness, and blisters. More permanent damage could include infection, scarring, and an inability to stand sunlight.

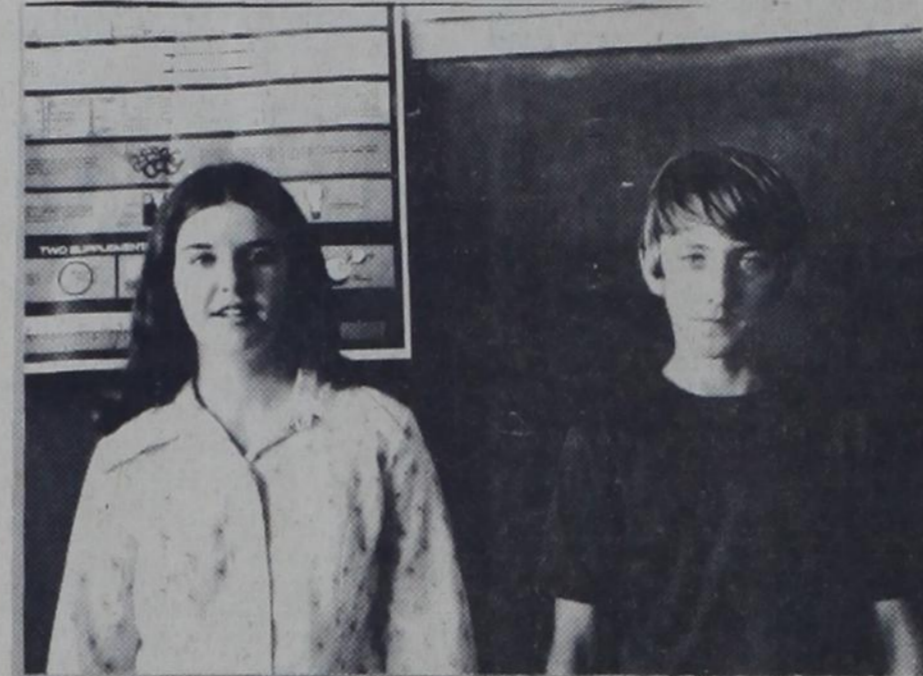

The Federal Trade Commission has ordered several face peeling establishments to tell prospective customers in their advertising and promotional material just what is involved in the peeling process, and what it

Jr. High Science Students Receive Awards

**Clovis McCarty
Junior High
Science Teacher**

In science at the end of each school year we give a gold and silver award. The Gold award is for the student with the best grade through out the year. The Silver award goes to the best all around student.

We feel this has been a good year in science. By a good year we mean the students have made much progress in science.

We also feel that if you have a student in the 5th, 6th, 7th or 8th and you have not been to school for a visit you have

Show that you are an interested citizen -- Keep our town CLEAN.

missed seeing some very nice projects and some very hard work.

I would like to say that my students are very hard workers. I am not teaching a single student that can't do the work--with hard work. I think my science students can compete with science students anywhere anytime, any place.

If for any reason you feel your youngster has not done as well as you would like--please come by early next year and let us help you help them. We can both surely make them succeed!!

We have some students that have been very good students from start to finish.

Karen Guthrie won the Gold Medal in Science with a 93+ and Glenn Dennard won the Silver Medal with a 91+ for the eighth grade.

Kim Harris won the 7th grade Gold medal with a 99.7. Mark Wilson won the Silver Medal with a 94.0

Laurie Stovall won the 6th grade Gold Medal with a 95.5 and Cindy Walker won the Silver with a 94.9.

Konnie won the Gold Medal with a 97.8 and Theresa won the 5th grade Silver Medal with a 92.0

We have surely enjoyed teaching science here at Rising Star. We sincerely hope we have taught every student.

Your Jr. High
Science Teacher
Clovis McCarty
