

Serving the Most Prosperous Sections of Eastland, Brown and Comanche Counties.

The Rising Star Record

WINNER
of the Distinguished Service Award of the Vocational Agriculture Teachers Association of Texas

ESTABLISHED IN 1890

RISING STAR, EASTLAND COUNTY, TEXAS,

THURSDAY, SEPT. 19, 1963

VOLUME 73, NO. 48

Through The Editor's Specs

By BAB

If you hear the sound of guns at night don't be too hastily alarmed. It may be only Jack Jackson waging nocturnal war against an armored invasion, so I am told. Jack is indignantly defending the lawn and flower beds of the lovely Jackson home on West Pioneer against armadillos.

He and Helen are not the only sufferers from the digging and rooting of this miniature natural "tank" whose bony shell protects it from its enemies. It has become one of the most destructive pests in the country.

According to the zoologists the armadillo is related to the anteaters and the sloths and spread into southern United States from Central and South America. It is, I am told, a distant cousin of the hog.

It certainly has the appetite and manners of a hog and the special characteristics of an insect. It is rapidly becoming a threat to the residential economy and the amiable disposition of the suburbanite. Unless something is done, and quickly, to arrest the destructive multiplication of this critter, it threatens to take over the country like the communists took Cuba.

Now, despite its repulsive appearance, the flesh of the armadillo is said to have the flavor and quality of pork, and was esteemed as a delicacy by certain races.

If someone could be as brave as the man who ate the first oyster perhaps we might find a solution to the problem. When a product grows wild, it is a pest. But just try to cultivate it, brother.

Brother of Mrs. Olice Jones Dies At Bangs Monday

L. Mearl Brooks, 70, of Bangs, brother of Mrs. Olice Jones of this city, died Monday morning about 5 o'clock in a Brownwood hospital after a short illness.

Burial services were to be held at Bangs First Baptist Church with burial in Bangs cemetery at a time and date yet to be announced Tuesday.

Born Feb. 7, 1893, in Brown County, he had lived here all his life. He was married to the former Miss Colysta Eads at Bangs May 1, 1917, and was a member of Bangs First Baptist Church. He attended Howard Payne College, and was a member of the Brooks quartet which sang in this area for many years.

Survivors include his wife of Bangs; one son, Maj. Perry R. Brooks of Tripoli, North Africa; three sisters, Mrs. Grace Winn of Muleshoe, Mrs. Olice Jones of Rising Star and Mrs. Treacy Flieder of Bangs; three brothers, J. V. and R. L. Brooks, both of Lubbock, and Dean Brooks, of Bangs; one step-sister, Mrs. Lou Conklin of California and two grandchildren.

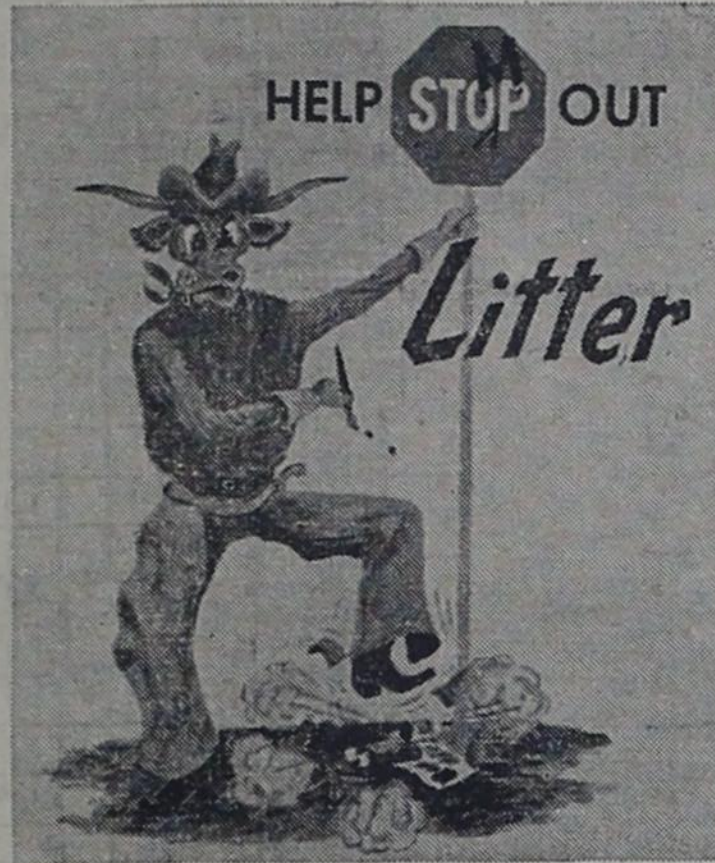

VISIT PARENTS

Mrs. Barbara Womack and son, Jeff, of Washington, D. C. are visiting her parents, Mayor and Mrs. Walter Smith. She expects to be here for about two months. Sgt. Womack, who is with the Pentagon at Washington, expects to join them soon.

IN HOSPITAL

Ed Croan was confined to the hospital at Hamlin this week under treatment for a pulmonary condition. He was reported in a satisfactory condition.

TEXAS HIGHWAY DEPARTMENT EXPANDS ANTI-LITTER CAMPAIGN

The Texas Highway Department has added two new methods to its continuing anti-litter campaign: a cartoon character printed on its Official Highway Travel Map and revised highway signs reminding drivers they can be fined from \$10 to \$200 for littering. The cartoon character, "The Litter Longhorn," pleads with the public to "Help Stomp Out Litter." The sign emphasizes that it is against the state law to litter. In 1962 the Highway Department had to spend \$1.4 million to pick up litter, an increase of a hundred thousand dollars over 1961.

Nimrod Club Barbecue To Be Held Sept. 23

The Nimrod Progressive Club met Monday night and made final plans for the annual barbecue of the club to take place Monday evening, September 23, at the Nimrod Clubhouse.

Jack Cozart led the group in a song and prayer for the opening exercises, and Herman Schaefer presided over the business session, which was concerned principally with plans for the barbecue.

Committee were named as follows:

- Meat—Walter Tonne, Jack Cozart and Herman Schaefer;
- Beans—Agnes Townsend, Willie Cozart.
- Potato Salad—May Dell Frazier, Barbara Bostick;
- Pies—Twila Carlile, Hattie Ingram;
- Pickles and onions—Ola Boles;
- Tickets—Dora Schaefer, Twila Carlile;
- Tables—Herman Harrelson and Herman Schaefer;
- Drinks—Carl Stroebel;
- Entertainment—Herman Harrelson.

Serving will start at 6 p.m. and the menu will feature barbecued beef or goat with all the trimmings. Tickets will be priced at \$1.00 for adults and

50c for children.

Door prizes will be awarded and entertainment provided.

The club will hold a work day, Friday, September 20, in preparation for the barbecue and all members were urged to be present to help.

The barbecue is open to the public.

Infant Buried In Graveside Service

Funeral services for Matthew Freeman Young, infant son of Mr. and Mrs. William A. Young of Rising Star, who died at birth Monday morning at 3:35 o'clock, were held at graveside in Rising Star cemetery at 1 p.m. Monday. Rev. Milton Slayden officiated and Higginbotham Funeral Home was in charge of burial arrangements. Rev. Milton Slayden of the First Methodist Church officiated.

Besides the parents, the maternal grand parents, Mr. and Mrs. John Freeman of Rising Star, and four brothers and five sisters survive.

Rev. and Mrs. D. L. Barnes of Novice visited Mrs. Beyrl Heath Sunday, Sept. 15.

Almost 2 Inches Of Rain Breaks August Drought

Rising Star has received almost two inches of rain since September 1, according to the gauge at the City Hall.

The moisture, while far from sufficient, brought a welcomed relief from the extreme heat of August, and gave new and more promising prospect to the peanut crop, and to pastures suffering from the prolonged drought.

In most cases the benefit to the peanuts will be slight, although in some sections a yield about equal to last year's was anticipated.

Game Preserve Ass'n Schedules Barbecue

The Sabanno Valley Game Preserve Ass'n will have a barbecue at Center Point school house on Saturday, Sept. 28. The meal will be served at 6:30 p.m. and plates will be \$1.00 for adults and 75c for children.

Mr. and Mrs. Lee Clark returned late Tuesday from an extended visit of three weeks with Mrs. Clark's father, Ernest Weaver, in Salt Lake City, Utah. They went in response to a telephone call from Mr. Weaver, but left him much improved.

Wildcats Drop 12-7 Thriller To Bangs; Meet Rochelle Next

The Rising Star Wildcats were not figured to give the Bangs Dragons more than a good workout at Wildcat Stadium last Friday night, but if that was what they expected, the visitors might have preferred it a bit less enthusiastic.

The Cats battled their heavier Class A opponents down to the roots of the grass turf and but for two mistakes that allowed speedy Dragon backs to get in to the open for runs of 88 and 76 yards, the score might have been somewhat less than the 12 to 7 with which the game ended. In fairness to the Dragons, it should be said that had it not been for two Bangs errors which nullified two touchdown sallies, it might have been nearer pre-game predictions. But second-guessing is about as futile as a Monday morning quarterback's strategy, and the fact is that but for the Wildcat miscues in the fourth period they might have added another touchdown to their score. Moreover, they matched the Dragons very well indeed defensively and offensively throughout the evening.

They made nine first downs to eleven for the visitors; gained 116 yards on the ground and completed four of eight passing attempts for 60 yards. Bangs outgained them on the ground by a wide margin, but completed

only five of 13 passing efforts, one of the completions netting a two-yard loss.

The Dragons scored midway of the first period when J. Rust broke over right tackle and ran 88 yards for the tally. Gary Duggan stopped the Bangs effort for two additional points.

The Wildcats had received and made a first down, featured by Bill Clark's 13-yard scamper. Danny Wooley contributed eight yards, but Bangs held and Clark punted out on the one-yard line. A five-yard penalty against the Cats improved the Dragon position, but Russell Botts and Roger Goodwin stopped two successive drives for no gains. The visitors gambled on a pass and caught the Wildcats off guard for eight yards and a first down. On the next play Rust got loose for his long run and the initial score of the game.

Larry Duggan returned the kick-off to the Rising Star 35 and Bill Clark made a first on two successive thrusts. Kenny Butler rushed to the 50-yard line where Bangs tightened and forced a punt.

The Dragons went to the air again, but the Cats were alert. One pass was too long; Doug Fisher broke up a second attempt and James Cox halted a running effort on third down four yards short of a first and

the Dragons punted.

The Cats made their first serious scoring effort on the next series of downs. Clark returned the kick to the Bangs 44, Wooley made six and Terry Geyer went to the Bangs 37 on a keeper. Clark's five-yard attack nailed a first down on the Bangs 32. In successive line smashes the Cats travelled the hard way to the visitors' 25 where Clark was swarmed at the line for only half a yard, shy of first down by a foot or so, and Bangs took over.

Botts stopped a running effort for a yard loss, but on the very next play J. White of the visitors did a repeat of Rust's touchdown feat of the first quarter and ran 76 yards for the second Bangs tally. Frazier Clark broke up a passing attempt for two extra points and Bangs had its score for the evening.

A Rising Star fumble on the Wildcats' 27 set the stage for momentarily seemed like a repeat of last year's one-sided score. The Dragons actually completed a pass to Rust for a touchdown, but a Dragon was caught holding and his team drew a 15-yard penalty. A double reverse that gained five and a pass completion that actually lost two yards left the Dragons with no option but to punt and (Continued on Page Six)

Old Settlers Will Hear Lubbock Author-Attorney

James O. Cade, prominent Lubbock, Tex., attorney, and author of "Communism vs. Christianity," will be the speaker for the Old Settlers Reunion at Rising Star American Legion Hall Saturday, it was announced by Maj. Max Prentice of May, president of the association. Mr. Cade is a native of May.

His address will highlight the program to begin at 10 a. m. He will speak at about 11 a. m. Registration for the reunion will begin about 9 a. m. and Major Prentice urged that all who plan to attend register before the opening gavel sounds.

The registration fee of \$1 includes a barbecue lunch to be served at noon in the Legion dining room.

Mr. Cade's book probes the conflict that has divided the world into two ideological camps, and presents many shocking aspects of the communist world which the American public often refuses to face.

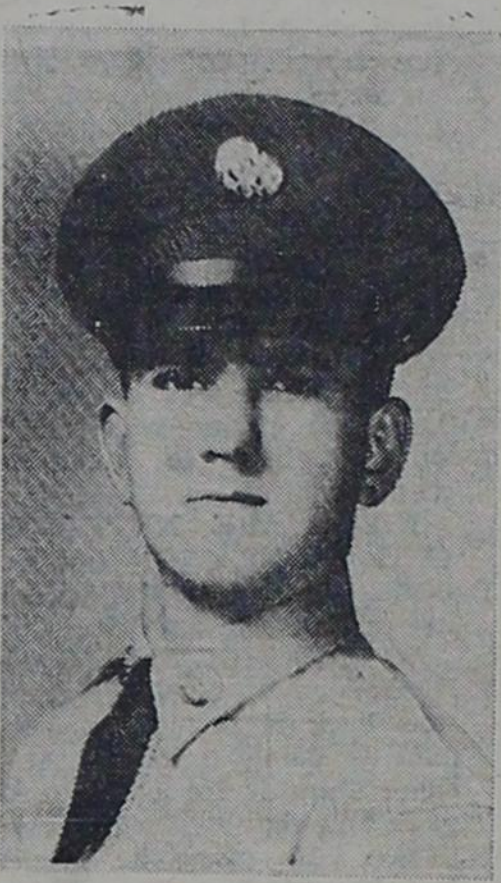

He is a disbeliever in the view that it is impossible to guess how the communists are thinking or how they will react to a given situation, and declares that there is no legitimate excuse for American citizens not understanding the Marxist revolution going on all over the world, and particularly that part of it occurring within our own country.

His address will deal with this highly pertinent theme, Maj. Prentice said.

The morning program and the luncheon at noon will be followed by a business session in the afternoon.

All who have been residents of this area for ten years or more are invited to become members of the association, and the program and the luncheon are open to everyone with \$1, it was explained.

In Training . . .

Pvt. W. Poul Coldwell, Jr., son of T-Sgt. W. Paul (Banty) Coldwell, Sr., is taking basic training in the U. S. Army at Fort Knox. He is the grandson of Mrs. Beatrice Hellums.

Large Group To Attend Sheep And Goat Field Day

RANGER — A large group is expected to attend the second annual Eastland County Sheep and Goat Field Day September 20, at the old Sinclair pump station building at Tiffin, three miles north of Ranger (through the courtesy of the Ranger Junior College), according to word from the Chamber of Commerce.

Sponsored by that organization and the office of County Agent J. M. Cooper, the agricultural committee is making preparations, according to Col. Plumley, manager. His group will be host at a ranch-style lunch at noon for those in attendance.

A total of 135 attended the first sheep and goat field day in 1962, and a large group is expected to attend this program.

Designed to bring those in attendance up to date on more of the latest ranch information, speakers include some of the state's outstanding authorities on sheep and goats.

They include Jim Gray, San Angelo, Jack Groff of Kerrville, A&M Extension Service specialists on sheep and goats. Also from the Extension service will be John G. McHaney and Dr. C. M. Patterson. Dr. J. B. Henderson, Coleman, Texas Animal Health Commission veterinarian, will round out those on the program. Col. Plumley or a representative from the Ranger Chamber of Commerce, will welcome the group to Ranger.

Palbearers for the services were his nephews: Charles and Roy Branum. Max and Noble Prentice, Haynie and William Harlowe, and J. C. and Walter Bowden.

Real Estate Deals Involve Residences

Mrs. M. S. Sellers has purchased the Tom Stewart home at the corner of W. Ross and S. Anderson and is now having the house remodelled for her occupancy. She purchased only a portion of the lot on which the house is located. The west part of the lot was purchased by Buddy Cook, who has sold his residence to Clyde McKeenan.

Mr. and Mrs. C. A. Hayles of Crane, Tex., have purchased the Carl Bowers residence on S. Main. They will take possession of their new home on October 12.

Mrs. W. N. Jenkins accompanied by Mrs. Geneva Cox, visited Mrs. Jenkins' mother in Brownwood Sunday, Sept. 15.

P-TA Holds First Meeting of New Term

The Rising Star Parent and Teachers Association held their first meeting of the school year Sept. 10 in the High School Band Hall with thirty-one parents and teachers present.

Linda Holly sang two vocal solos accompanied by her mother, Mrs. Roy Holly.

After the program the meeting

JOIN THE P-TA

Home and school are important in enriching the life of every child. Your P-TA works to help both. If you haven't joined, the invitation is extended to you on behalf of your local P-TA. Dues are \$5.00 for each member. The next meeting will be Tuesday, Oct. 8th, at 3 p.m. in the high school study hall.

went into a short business meeting. Minutes of the last meeting were read the financial report was given.

The room count was won by the third and ninth grades. Meeting adjourned after a prayer by Supt. Sam Jones.

Mr. and Mrs. Freddie Tatum and their sons, Larry and Lin and Mrs. Ethel Clark, all of Cross Plains, visited Mr. and Mrs. L. B. Forbes Sunday, Sept. 15. Mrs. Clark is a sister of Mrs. Forbes.

STRICTLY FRESH

If nature didn't make us perfect, she made us blind to our faults.

Before you know it, that little girl in the frilly organ-

dy dress will be a woman in blue jeans.

There are some people in this world you have to know before you can dislike them.

Children seldom misquote; they often repeat what you shouldn't have said word for word.

As It Looks From Here

By Omar Burleson, M.C., 17th Texas District

AS IT LOOKS FROM— WASHINGTON, THE FANTASTIC ANTICS OF Buck Rogers a few decades ago are not nearly as strange and impossible today.

BEFORE THE ADVENT OF Buck Rogers were descriptions in Popular Mechanics Magazine of things of the future.

IN AN EARLY ISSUE, A PROFESSOR IN GERMANY claimed to have succeeded in analyzing the hen's egg and "by capturing and turning to various useful purposes the nitrogen in the atmosphere," hens would soon be obsolete and eggs could be produced by factories.

AN AD IN ANOTHER EARLY EDITION OF Popular Mechanics was by a New Yorker who said he had a design for a powerful four-horse power airplane engine that he thinks can cross the Atlantic. He wanted someone to put up the money to build it.

A PENNSYLVANIA MAN INVENTED A "flexible steel automobile wheel that would not need a rubber tire.

ANOTHER GERMAN PROFESSOR INVENTED AN INSTRUMENT IN 1912 which he claimed to be able to detect ore bodies in the earth by directing "wireless waves" downward at a slant. The waves, said the professor, pass readily through dirt and rock but when they hit the ore, deflect upward through the earth as a mirror casts back sunlight.

A MODERN MAGNETOMETER CAN NOW DETECT ore bodies, even from an airplane. Sound waves do bounce off rock layers and reflect back to geophones to make seismic geology which enables experts to better locate oil deposits.

ALSO IN THE TEENS A MAN INVENTED A DEVICE which he said would be "a boon to the motorist." It consisted of a circulating disk. By observing the time between mileposts, the instrument could be turned to estimate the mile per hour.

TODAY IN THE COCKPIT OF A MODERN JET PLANE, the pilot can look at a calculator which computes

temperature and pressure gradient, and gives not only true air and ground speed, but figures immediate wind correction angles—just an extension of a good idea.

THERE WAS ALWAYS THE DREAM OF A MAN TO FLY. The only trouble was for a long period he attempted to imitate birds. Then, the idea changed over to studying the ancient kite, and a glider was developed. Later an engine was placed on the glider to make an airplane.

IDEAS ARE NUTTY IN ONE GENERATION but become practical in the technical advance of another.

AS FANCIFUL AND IMAGINARY AS Buck Rogers was back a few years ago, man is doing a lot of the same things. He is able to glide and soar under his own power. In space he might be able to step out of his capsule and wander around in nothingness.

A DEVELOPMENT IS IN PROGRESS which will fire a gun by batting an eye.

A CONGRESSMAN SAID THE OTHER DAY he almost refused to believe anything is impossible. The necessary corollary is not to doubt the accomplishments of man in science and technology. Anything seems possible, and our government is spending a lot of money to find it out. The U. S. taxpayers are footing a bill estimated at \$14 billions on research alone.

SOME THINGS, HOWEVER, REMAIN PRETTY MUCH THE SAME. In ancient times the Scots learned that geese made better watchmen in their stillhouses than dogs or even human beings. They proved that by the slightest unauthorized intrusion, they set up an alarm most effectively.

NO BETTER SYSTEM HAS been devised and they still use them.

IN SOME PLACES IN the United States, geese are used in the cotton fields to destroy grass and insects. A research project of the University of Tennessee reports that geese have reduced the cost of growing cotton by 25 per cent. A place in Columbus, Missouri, will rent out a goose for \$150, or sell one for \$300.

THE BATTLE OF THE AGES

A weekly public service feature from the Texas State Department of Health

Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

AUSTIN — Texas' number two killer — cancer — continues deep in second place behind the nation's front runner — heart disease.

Statistics make dull reading. However, some interesting facts concerning Texas' cancer picture come to light with a close look at the final 1962 figures compiled on cancer death sites and ages.

A grand total of 12,282 Texans suffered death from cancer last year — or as the statisticians call it — malignant neoplasms.

Ages 55 to 79 are the dangerous ages for cancer, claiming well over half of all victims — 7,604.

Sad fact of the matter is that many of the cancer deaths which occur during the years may have really had their beginnings in earlier years, perhaps as young as 40 year of age.

For this reason public health authorities have been urging people to start a program of definitive physical examinations each year once they have passed their 40th birthday. Somehow, the admonitions still go unheeded by too many persons.

Deaths from cancer continue to mount. Each year the statistic is a little bit higher and a little bit sadder.

Cancer involving the digestive system, for instance, reaps the largest toll among cancer causes, claiming 3,686 lives each year.

Early diagnoses, before the malignancy has a chance to spread throughout the digestive tract, followed with modern treatment could cut this figure in half.

Breast cancer took 947 lives last year — often women in the prime of their lives. For a long while now regular medical examinations, supplemented with self-examination, have saved hundreds of lives each year. More could still be saved — if they were found early enough.

Perhaps the most tragic statistic points out the hundreds of Texas women who die each year from the effects of uterine cancer.

Examination by laboratory spec-

CONSTITUTION WEEK SIGNIFICANT

The week of September 17-28 has been designated as "Constitution Week." Each year an observance is scheduled throughout the nation in recognition of the importance of the federal constitution, which forms the basis of our national government.

For instance, mighty as our Congress is, the Constitution does not give it certain powers:

1. Neither Congress nor anybody else can suspend the writ or habeas corpus (unless the public safety demands it during rebellion or invasion.) All officers or others must obey a court and bring in anyone in their custody to see whether he is held lawfully.

2. Congress cannot pass "bills of attainder," special acts to punish someone. Congress cannot by-pass the courts.

3. Congress cannot pass an ex post facto law — a law which makes an act a crime which was not one when done, or which punishes the offender more than called for when done.

4. Congress cannot tax exports from any state nor by regulation favor one state's ports over another's nor make one state's vessels clear or pay duties to another state in order to enter, besides these denials from within, the Constitution curbs Congress and the executive and judiciary in the amend-

ments, especially the first ten.

Among other things, Congress cannot make a law respecting establishment of religion or prohibiting its free exercise, or abridging the freedom of speech, of the press or the right of the people peaceably to assemble and to petition the government for a redress of grievances.

The Constitution also curbs the courts (for example, they cannot deny a person a fair hearing duly represented by counsel.) It curbs the executive (he cannot, for example, take private property for public use without just compensation.)

The constitution, which divides the work of the three branches of government, winds up by telling where the rest of the power rests—just in case anybody gets any fancy ideas of dictatorship. There are things no state can do, for instance, "make or enforce any law which shall abridge the privileges or immunities of citizens of the United States."

If there are any powers not given to the United States government or reserved to the states, they belong to the people.

The Constitution does not seem to limit the people.

FILLERS

Those in the Know A Peterborough, England, pub-keeper bought a \$140 reference library containing dictionaries, roadmaps, an encyclopedia and a "Who's Who" to settle arguments which flare up in his pub.

Mutt Show Amarillo, Tex., had a dog show at which prizes were awarded for the shaggiest, noisiest, tallest, friendliest, shortest and most disobedient dogs.

Where Is It? Workmen for a Camden, N.J., firm tore half a block of pavement from the wrong street.

On the Level Youthful hot rod enthusiasts in Sherman, Tex., borrowed a pair of road graders from an equipment barn and used them in drag races on a county road. The graders were returned unharmed.

FUNNY BUSINESS

"Happy birthday, dear!"

New Funnel If you need a funnel for pouring oil or antifreeze, and your wife won't let you use her's from the kitchen, here's how to solve your problem. Cut the bottom out of any size plastic bottle. You will gain a nice, serviceable funnel, and peace in the family, too.

Change of Pace Turkey barbecue may be just the answer to the kind of meal to prepare for visiting friends. Get a fryer-roaster under 8 pounds in weight. It must be completely thawed before placing it on spit. If you plan to inject the bird with sauce, allow another 12 hours for it to distribute throughout the muscles. If the bird is injected, basting is not necessary. Tie the wings against the body. Pin the neck skin against the back with a skewer and tuck the legs under the skin. Be sure the bird is balanced on the spit. Allow about 20-30 minutes to a pound to barbecue the turkey if you plan to cook outdoors. Be sure to turn the barbecue away from the wind. If you cook indoors, cook as you would the Thanksgiving bird.

Carriers Will Help In Acreage Survey

Postmaster Cliffogene Witt has announced that Rural Mail Carriers will begin distributing 1963 Acreage Survey Cards to patrons on their routes about September 22.

The Post Office Department assists U.S.D.A. in making this survey each year. These reports, directly from farmers, are the basis for official estimates for Texas acreage of all crops harvested in 1963.

To be sure this community is well represented in the survey, Postmaster Witt urges each patron receiving a card to fill it out and turn it to his mailbox.

Rural mail carriers working on this project are H. B. Sone, Route 70, and R. E. Darnell, Route 70.

HOW TIME OPENS AT RIVE-IN AT 7:30 P.M.

New Study Begun By Methodist WSCS

The WSCS of the First Methodist Church met at he church Monday afternoon with 11 members and one visitor, Mrs. Jay Koonce, present.

The meeting was called to order by the president, Mrs. J. R. Bucy, and Mrs. Milton Slayden, secretary of Mission Study, was in charge of the program. Mrs. Bucy gave the devotional, and Mrs. Smith led the opening prayer. The opening song was "Oh, Master, Let Me Walk Wnith Thee."

Miss Loretta Pearce gave a reading, "Let's Get Away From It All," and Mrs. Slayden a devotional reading with posters illustrating the beginning of a study of "The Christian Family and Its Money."

The group was dismissed with a society benediction in unison.

Monday, Sept. 23, is the regular monthly luncheon date for the society.—Mrs. May Pearl Hull, Reporter.

The Yardener

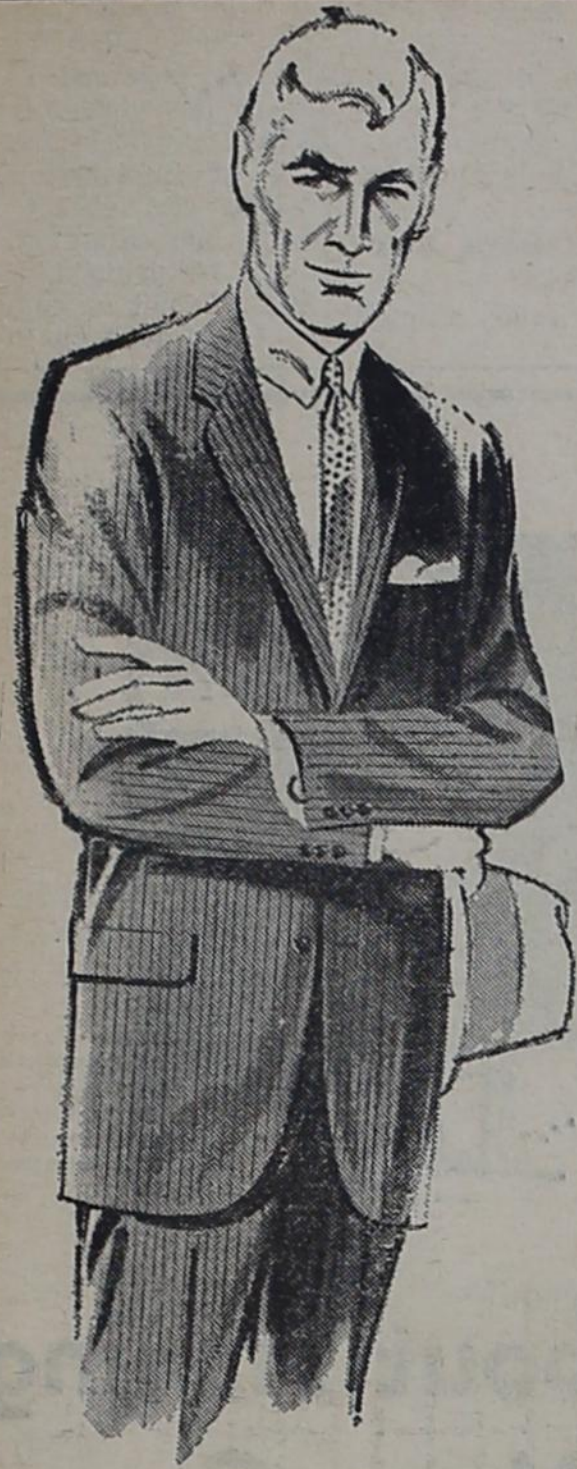

From the South Calceolaria, the double-pouched, brightly colored plant from South America, has an unusual beauty and lasting quality that makes it just right for the office or living room.

However, to raise it effectively, keep it in a cool range of temperatures.

In fact, most house plants like an area free from excess heat.

HIGGINBOTHAM'S

Browsing With Bev

By Beverley Nicholson, County HD Agent

Are you a compulsive eater when it comes to peanuts? Few people can stop with just one or two. Don't let this worry you, for it's hard to find a more wholesome food. They are packed with a combination of protein, thiamine, phosphorus and niacin, and the fats necessary for a balanced diet.

Peanut production from the 1962 crop is estimated at 1.8 billion pounds, 68 million lbs. above last year, and 274 million pounds above average. Of this total production about one-half is used for peanut butter. Making peanut butter is a relative simple process, however, you needn't burden yourself with this chore when so many delicious brands are available at your grocer's now. Peanut butte vaiations include "chunky", in which bits of chopped peanuts are mixed with finely ground peanut butter; "homogenized", to which oil is added and the mixtures processed to retard separation; "honey", to which honey is added to produce a different flavor; "yeasted", to which yeast is added to enrich its food value; and "fortified", to which vitamins are added to restore the vitamins lost in processing.

So, if you're looking for a food to include in your everyday menus, because of its high nutritive value, taste appeal and attractive price, you'll find it hard to beat peanut butter.

Many principles of good management can be taught to boys and girls early in life. Some of these principles are a cooperative attitude, sharing responsibility in the family, developing respect for resources, setting goals, time management, money management, buying skillfully, storage, equipment, lighting, and laundry.

A cooperative attitude may be taught to youngsters through learning to share ones room, responsibility in caring for it, in planning for their share of the family clothing dollars and through the respect of privacy of other members of he family.

Sharing responsibility comes naturally when a youngster has certain jobs such as setting the table, making the bed, dusting, washing dishes and preparing certain foods.

Developing respect for resources comes from seeing that the boy or girl takes goo care of personal property. When it comes to setting goals—an important practice—young people must understand that to set a goal means to need or want something important to them, and making plans for getting it at the least cost of all resources required to get it.

Time management can be taught by helping youngsters see that it is best to stay with a job until it is finished—in order to be free later to do something else he wants or needs to do. Training in money management also can start early, for by the time a child is in school he already is using a considerable amount of money. Skillful buying habits can be taught with the money management.

Storage of toys and equipment also can be taught early to youngsters.

4-H's Submitting Books For Judging

Eastland County 4-H's recently submitted their record books for judging at a county and district basis. Winners at District were Kathy Kincaid of Morton Valley, Clothing, 2nd place Jr. Division; Frank Claborn of Eastland, Soil Conservation 1st place, Jr. Division; Bobby Williams of Gorman, Swine, 2nd place Jr. Division; Texas Sheep and Goat Wool and Mohair, Tommie Lee, Cisco, 3rd. place.

Winner in the Senior Division was Ruby Wende of Nimrod, placing first in the Safety Division. Ruby's book was sent to the State Judging Contest.

Other 4-H's turning in record books on the agricultural side of the contest were: Bobby Lee, Lynn Pippen, Kathy Boyd, Ivy Ferguson of Cisco; Barbara Williams and Teddy Jordan of Gorman; David Cox and Suzanne Harbin of Eastland.

The county contest was judged by Ben McKinnis and Glyn Gilliam, both of Eastland.

Mrs. Bryan Milner returned Thursday, Sept. 12, from Midland where she kept her grandchildren, Debra and Don Collins while the Stanley Collins went to Nassau on a complimentary trip from the Gibson Appliance Company. They went by jet plane from Dallas to Nassau in 2½ hours.

Descendants of J. P. Greenwoods Meet At Abilene

Sixty-four descendants of the late Mr. and Mrs. J. P. Greenwood held their annual reunion Sunday, September 8, at Abilene State Park. Those attending were:

Mrs. T. J. Greenwood, Comanche; Mr. and Mrs. Oscar White, Mrs. Harold Dudley, Mr. and Mrs. Larry White, Rising Star; Mrs. S. R. Clements, Snyder; Mr. and Mrs. J. W. Burleson, Snyder;

Mr. and Mrs. Ed L. Greenwood; Larry, Terry, and Kenneth, Abilene;

Mr. and Mrs. Ben Greenwood, Eastland; Ira Greenwood and Regina, Abilene; Mr. Robert (short) Greenwood, Haskell;

Mrs. J. M. Jepson, Mr. and Mrs. Leslie Caldwell, Jean, Ronnie, and Kay, Mr. and Mrs. Joe Howard, Linda, Patricia, and Derryl, Mr. and Mrs. W. R. Greenwood, Raymond, Carolyn, Dickie, Reva, Rochester; Mr. and Mrs. James Harris, Jr., Harvey and Jamie, Eastland; Mrs. Earl Finely, Earline, Eddie, Sweetwater; Mr. and Mrs. Bailey Greenwood, Mr. and Mr. Clifford Straw and Paula, Munday;

Mr. and Mrs. Howard Hollowell, Mr. Clyde Hollowell, Abilene; Mr. Wallace Greenwood, Tanglewood; Mr. and Mrs. Raymond Lee Hillin, Freddy and David, Abilene.

Mr. Berry Greenwood, Carbon; Mrs. Connie Cloud, Abilene;

Mr. and Mrs. A. E. Reed and William, Big Spring; Mrs. Artie Tidwell, Mrs.

Dr. Ballew Speaks For LVN Association

Dr. Charles Ballew of Cisco was guest speaker for the meeting of the Licensed Vocational Nurses Association No. 64, held Monday, Sept. 8, at 7:30 p.m. at the Parish Hall building of the Catholic Church in Cisco.

Dr. Ballew's main topic was on "Snake Bite and New Techniques of Current Snake Bite Therapy." The basic purpose and objective of his speech was to instruct the individual L. V. N. as to her part in giving first aid to the victim of snake bite.

Doctor Ballew supplemented his talk by reading a documentary article on the spleen and he also added new interest to the meeting by showing the new edition of Image Magazine, which contains information about Decompression, the new machine designed to ease pangs of childbirth.

Twenty-one members were present at the meeting.

Mrs. Mary Sue Lee, R. N., sponsor for the group, and Mrs. Veneta Mitchell, R. N., instructor of the Vocational Nursing School at Cisco Junior College, were also present.

Refreshments were served by the Cisco members.

Austin Carver of Fort Worth was here for visit with his mother, Mrs. O. D. Carver, during the week-end. Mrs. Carver accompanied her son-in-law and daughter, Mr. and Mrs. Thurman Cox, to their home at Denver City, Monday.

Nona Sanders, and Venita, Abilene.

The visitor was Miss Sonja Ann Spurgeon.

A SALUTE TO THE SENIORS

Every student is an essential part of the school, but a senior is possibly the most important of any of the students. The Senior year, being the last year of public education, is one that no person is apt to forget. This year is the last chance for many activities that students participate in. There will never be as many chances for personal improvement as one has in his high school years; the senior year is the last opportunity one has to take advantage of this. Each year becomes somewhat more important than the previous one; by the time one becomes a senior, school work becomes a serious matter.

Every senior class must be great in its own way, but no class should surpass the senior class in Rising Star High School. They are one of the most highly praised groups of students in our school in spite of the fact that they are very small in number. There are sixteen students that plan to graduate in the Spring this being one of the smallest classes to graduate in some time. These sixteen students have done many outstanding things that classes twice and three times as large have been unable to do. They make up for the lack of quantity by their high quality.

These hard working students have made outstanding records in scholastic work, sports and extracurricular activities. This class has managed to maintain a high grade average as a whole. Some of the best athletes in our district have been members of this class. Certainly we must not forget the football boys who are playing for our school each week; they play with the determination and desire to win that makes the difference in a good team and just a team. Later on in the year we are expecting to have senior participants in all other sports. There is no activity that is carried on without the aid of seniors; they play a great part in every event connected with the school. Without these seniors

many of our organizations and groups could not function.

This is just the beginning of their senior year, and we have already begun thinking of the loss we will suffer as they graduate. We lower classmen are certainly looking forward to our association with you throughout this school year. We regret that we must part company with you in nine short months; each of you has a place in our school life as well as in our personal memories.

To you, the senior class of 1964, we say "thank you" for the many things that you have done for us and with us. No one can ever replace this class; although someone must take its place. We salute you—Seniors—and wish you the very best of everything in the years to come.

Editor.

"UPWARD AND ONWARD"

Our third week of school and only thirty-three more to go. I certainly hope they aren't as busy — we can't go much longer on "no sleep".

The game with Bangs was a good one, but we are looking for the one tomorrow night with the Rochelle Hornets.

Our magazines are on sale now, so if you haven't been contacted and would like one, just let any senior know and we will be at your door "pronto." This campaign is to raise funds for the senior trip, which is just around the corner.

Congratulations to some senior favorites. Donna Chalk and Larry McKinnerney are our class favorites; while Jimmy Rutledge and Loretta Pittman are Most Popular. Harriet Schmitt was also elected Most Attractive with James Cox, a junior. Sharon Donham and Arthur Jones were named as the most Likely to Succeed; this honor is selected by the faculty — based on grades or scholarship.

Speaking of juniors, I know some gossip on the junior reporter: Miss B. did you have fun at the fair? How about the rides? D. C. is getting a huge hunk

of ice on her left hand, third finger!
 S. D. How about swimming the Jordan—It's okay with me!

"KNOWLEDGE COMES, BUT WISDOM LINGERS"

It looks as if the third week of school has rolled around and everyone is putting their minds on books and trying to earn a good grade!

The junior class has chosen their class favorites — Sharon Stewart and Franz Clark. We are very happy with this selection. The Most Popular students of R.S.H.S. are Loretta Pittman and Jimmy Rutledge; the most attractive girl is Harriet Schmitt with James Cox as our most handsome boy.

Last week was a hectic for homework because everyone was going to the Abilene fair. There seems to be quite a few that went to this event and some became ill!

We are happy to say that the citizens of Rising Star are backing the Wildcat team with very high spirits. The student body is showing their concern with all the boys and leading them with what it takes to have a good football team. The cheerleaders are doing a very nice job of leading our pep rallies and the games. The half times are very entertaining. The band is performing very well.

Last but not least, we would like to ask a few questions of the juniors:

Charlene — Our trio in the band needs help, right?

Sharolyn — Will you ever learn to bowl?

Mike P. — Did you win a teddy bear at the fair?

Sharon S. — What is this about something taking place in June?

Frazier — Have you and gone to the fair yet?

By the way, the new fashion in high school seems to be shifts.

Until next week,
 Linda B.

"LIVE AND LEARN"

Hi! It's the second week of school and we have elected class favorites. They are Caroline Brown and Davy Jones.

Each class has organized their officers and are discussing their plans for the coming year.

Classes are underway. The Algebra I students had their weekly test today. The Ag. II boys have had a test and are taking up a different section; while the Home Ec. II girls have also had a test and are studying a chapter called, "The Color and Design of Your Clothes." The Biology I students have handed in their first five units of work; some worked very hard the last day. The World History students are working on Chapter IV. The seventh period P.E. girls are finding it very hard to get up in the morning; their legs just refuse to move.

Our Sophomore football

players saw a lot of action during the Melvin game and we are very proud of the part they played. There are ten of them — Bobby Burns, Kenny Butler, Russell Botts, Doug Fisher, Dick Goldston, John Hutchinson, Davy Jones, Rex Long, Eddie Reeves, and Franz Pittman. We are looking forward to seeing them tomorrow night. Until next week — Maria

"IN THE FISH BOWL"

We Freshmen are slowly getting into the routine of high school. We are learning the rules and getting used to this way of life.

Class favorites were elected last week — Sara Schmitt and Freddy Stover. Congratulations!

Now, back to the more serious side of life. In Algebra we are learning about sets and subsets; we have also taken up graphing. We dissected a frog in General Science class on Friday. In English I we are having daily tests over our stories and are also working on our vocabulary. The girls are making cookies in Homemaking I as their first introduction to the lab. In Ag. the boys are discussing their projects.

The sixth period P.E. girls are playing basketball and taking exercise; did those exercises make us sore!

The Wildcats go to Rochelle for their game Friday night and we will be there backing them all the way. Congratulations the Freshmen boys that have played in the previous games — Bobby Reeves, Danny White, and Jimmy Rutherford.

Sara S. is that look in your eye so obvious that even Mrs. Claborn noticed it?

Reporter

"LEARNING TO DO"

The Future Farmers are off to another good start this week. By entering farm products and various crops in the West Texas Fair, we have collected eighteen dollars for our chapter. We are still selling magazines, but it seems that the Va I boys are outselling the Va II boys. Already given away are two knives, which have gone to Freddy Stover and Floyd McKinnerney, both from the Freshman group. Next Monday there is to be given away a .22 rifle to the boy whose name is drawn. The Va I boys are studying what various feeding projects would be more profitable and ways of making and saving money. The Va. II boys are studying various feeding nutrients and different feeding values.

"TOWARD NEW HORIZONS"

We have elected our local officers in F.H.A. for this year. They are:

President — Charlene Vermillion;
 First Vice President in charge of program planning — Linda Duggan.
 Second Vice President in charge of F.H.A. degrees — Linda Ezzell;

Third Vice President in charge of recreation — Sharolyn Lewis.

Fourth Vice President in charge of recreation — Sharolyn Roach.

Fifth Vice President in charge of public relations — Becky Nowlin.

Secretary — Marcia Lee.
 Historian in charge of scrapbook — Julie Watkins.

Parliamentarian — Letha Clark.

This year the dues are \$1.25. Let's get them in as soon as possible.

Until next week,
 Becky

"BAND NOTES"

Since this is the start of a new band year, I might start by listing the new band officers: President — Larry Weise; 1st Lieut., Tommy Darnell; 2nd Lieut., Larry McKinnerney; Secretary, Sharon Donham; Treasurer, Judy Lewis and Reporter, Mike Pruet. We hope these officers can succeed in leading the band.

Mr. Roan is our new band director and has been doing a real fine job. The first few games are usually the hardest and we usually make quite a few mistakes, but we do seem to be improving. This just goes to show practice makes perfect.

We have a few new majorettes, but we still have all the old ones back too. Our drum major is Judy Lewis, who does a fine job of leading the band, along with Sharolyn Roach, head majorette. The other majorettes are Sandra Teague, Charlene Vermillion, Sherry Jones, Virginia Bishop, and Marcelene Roberts.

We hope to see you all at the next football game so good-bye for now.

Mike

CHEERLEADING NEWS

Wildcats, you are starting the season off fine. The cheerleaders and fans are always behind you. Remember.

Our next game is with Rochelle, which will be played there. The cheerleaders are going to back the Wildcats and we hope you will too.

We want to invite you fans again to come to the pep rallies every Friday morning at 10:10. You will help the spirit of our

boys in a big way.
 We want the boys to bring home a victory from Rochelle, and you can help by going and helping the boys all the way.

Until game time,
 Linda Duggan

"KNOWLEDGE COMES BUT WISDOM LINGERS"

Have you ever really thought

about that ageless motto? Does it hold some secret guide for you? I think it does.

What is knowledge? You have heard the word for many years. You know it is the understanding of information and ideas. You can obtain much from books and studying. The knowledge of principles, truths, and ideals is not so easy to accomplish.
 (Continued on Page Five)

B. and Geegee Long, Lony and Jimmy, Midland; Bill and Isabell Maples, San Angelo; Bob Mr. and Mrs. Giles Lockhart, Jr., Vicky, Rita, Regina, & Tony, Austin; James and Greta Isbell, Brenda and Janet, Brady; Mrs. Genelle McCutchen and Candy, Debra, Cynthia and Michael of Euless; Stanley and Maurine Wells, Albany, Miss.; Ernest Maples, Valera, and grandson, Bill Donheim, Mason; Mr. and Mrs. John Rateliff, Darrell, Terry, Sharon and Rita Sue, Iowa Park, and Mrs. Frankie Blackwell, Gorman.

Union Center Club Resumes Meetings
The Union Center Club met September 10 after a six-week summer respite to await cooler weather. It wasn't.

We made two quilts. Present were Mmes. Burkhalter, Trantham, Ham, Heairren, Wright, Gage, Reed, Scott, Crowell, and Perkins.

The need of rain was the main subject of conversation.—Lela Ham, reporter.

Mr. and Mrs. Gaylon Swift of Andrews, visited his parents, Mr. and Mrs. Ira Swift, recently.

Maples Kin Hold Reunion Recently At Lake Cisco

The descendants of Mr. and Mrs. J. C. Maples met at Lake Cisco recently for a family reunion for the first time in 32 years.

Mr. and Mrs. Maples lived at Romney, where Mr. Maples farmed, from the latter part of the 19th century until his death in 1931.

All of the living children of he Maples were present with the exception of Cecil Maples of Fort Worth. A large majority of the grandchildren, great-grandchildren, and great-great-grandchildren were also present. All who attended the reunion were members of the family except eleven, four of whom had known the family for more than 50 years.

A member of the family reported that the extreme heat was almost unnoticed during the visiting and reminiscing.

Those attending were Mr. and Mrs. Bill Forman and Hugh, Mr. and Mrs. Walter Denton and Linda, James and Charlene Douglas and Cliff, Mr. and Mrs. Floyd Harrelson, Mrs. Christine Brown and Neva, and Mr. and Mrs. Herman Harrelson, all of Cisco;

Wiley Maples, Buck and Mildred Maples, Mrs. Mary Denton, Charles and Delia Walker, Pearl and Giles Lockhart, Mrs. Dorothy Dunn, Mr. and Mrs. Leon Gipson, Mr. and Mrs. Gill Walker, all of Rising Star;

Mr. and Mrs. Paul Lloyd of Brownwood; Gene and Frankie Maples, Lonnie and Connie of Paoli, Okla.;

Gerald and Shirley Tucker, Gary, Jody and Rhonda, Carbon; David and Dot Massengale David and Tammy, Brownfield; Mattie Childress and son, Steve, Rogers, Sim and Euna Maples, all of Fort Worth; Elvis and Lucille Moore, Petersburg; Mrs. Emma Lou Brown and Mr. Brown, Azle;

J. B. and Geegee Long, Lony and Jimmy, Midland; Bill and Isabell Maples, San Angelo; Bob Mr. and Mrs. Giles Lockhart, Jr., Vicky, Rita, Regina, & Tony, Austin; James and Greta Isbell, Brenda and Janet, Brady; Mrs. Genelle McCutchen and Candy, Debra, Cynthia and Michael of Euless; Stanley and Maurine Wells, Albany, Miss.; Ernest Maples, Valera, and grandson, Bill Donheim, Mason; Mr. and Mrs. John Rateliff, Darrell, Terry, Sharon and Rita Sue, Iowa Park, and Mrs. Frankie Blackwell, Gorman.

BIRTH ANNOUNCED
Mr. and Mrs. B. B. Morris are to be congratulated on the arrival of a new granddaughter, born to their daughter, Bennie Sue, and Truman Gordon in Brownwood. The mother and baby are doing well and will visit here with her parents for a few days. The baby is named Sydney Sue Gordon.

Goal For Baptist Offering Increased

Sunday, Sept. 22, the First Baptist Church will receive the offering for State Missions. Last year the church gave \$156.00 for this cause. A new goal is set for \$175.00.

The pulpit committee composed of H. L. Geyer, Ira Hudler, Fred Roberds, A. P. Smith and Carl Smith was to have a report to make on Wednesday, Sept. 18, at prayer services.

WMS Circles Meet In Homes for Study Program

Monday, Sept. 16, W.M.S. of the First Baptist Church met in circles in the homes of members for a study of the theme, "Unto the Statute of Christ."

The Frank B. Owens Circle met with Mrs. R. Turner with nine members present. Those giving parts on the program were Mrs. Love Shults, Mrs. Oral Davis, Mrs. Rufus Pierce, and Mrs. Geneva Cox.

Other members who were present were Mrs. Earl Marsh, Mrs. Harry Frye and the hostess who served delicious refreshments.

Mrs. J. W. Murphy also attended the meeting.

The E. Freeland Circle met with Mrs. Chas. Watson with eight members present. The study was the same for all circles. Those who gave parts were Mrs. J. D. W. Jones, Mrs. Everett Parker, Mrs. F. W. Repp and Mrs. Ethel Barnes, T. C. Crisp, Mrs. Chas. Carroll, Mrs. C. E. Baker and the hostess who served refreshments.

The Minnie Alexander Circle met with Mrs. Fred Roberds. Call to Prayer was led by Mrs. Dennis Clark.

Others on the program were Mrs. Jesse Martin, Mrs. Elizabeth Williams, Mrs. L. W. Mayfield and Mrs. D. Clark.

Prayers were said by each member present. Refreshments were served by the hostess.

The Dub Jackson Circle will meet with Mrs. James Wolf on Thursday, Sept. 19, at 2 p.m.

Continued from Page One

Geye regained possession for the Cats on the home 20. Geye passed to Larry Duggan for 16 yards and Bill Clark picked up eight. Geye's long pass was just out of the reach of Rex Long and Kenny Butler plunged for a first on the Rising Star 48. Larry Duggan again completed a Geye pass, this time for 12 yards and a first down on the Dragon 40. But here the Dragons stiffened and Clark punted out on the 23. Bangs mounted a threatening drive, but the Cats with good defensive work, brought it to a halt and took over deep in

CARD OF THANKS
My family and I wish to thank Dr. Schmitt for his faithful care and understanding, his entire staff for their services cheerfully rendered, our many friends and relatives for their expressions of kindness and cheer during my hospitalization and convalescence. We are grateful for the cards, letters, flowers, gifts, prayers, inquiries and other expressions of interest and concern. May God bless you for your kindness.
Mrs. Raymond Gray

their own territory a few seconds before the half ended. Rex Long's fine maneuver in avoiding a blocker and nailing a Bangs runner on fourth down may have saved another Bangs score. Kenny Butler racked up a six-yard advance as the half ended. The Wildcats made their score midway of the third period after another Bangs touchdown was nullified by a penalty. Frazier Clark, whose kicking is one of the Wildcats' most effective weapons, sent a long kick-off soaring to J. Rust who was blocked down by John Hutchinson on the Bangs two-yard line. Bangs made a first, lost five, and then passed for seven. Gary Duggan broke up the drive with an interception on the 27. Butler made four, Bobby Reeves two and Clark three. The Cats were set back with a five-yard assessment for too much time.

From that point Terry Geye employed a pass or run option for 12 yards to the Bangs three and a first down. In two tries the Rising Star quarter went over and Frazier Clark sent one of his perfect placements soaring through the posts for the extra point. That was the scoring for the evening, but there was plenty of action left. Cox spoiled a hand-off attempt on the kick-off return and Bangs

started play from their 19. They did quite well for a time, with two short over-the-line passes and a running play that gained to the 35. But Doug Fisher—who contributed one of the most spectacular defensive plays of the Melvin game a week earlier—broke up a passing attempt in the flat, and Bangs, after a gain of only five yards, had to punt. In the Melvin game Fisher outtraced a Melvin back to stop a long run short of a touchdown.

Geye heaved the punt, and lateralled to Clark who brought it back to the Rising Star 23. The Cats were forced to kick, however, despite a 16-yard pass completion from Geye to Clark, and Bangs took possession on their 12. The Wildcats held and a partially blocked punt gave Rising Star the ball on the visitors' 29. Clark took a pass to the 18, picked up two more, but a series of Wildcat miscues cost them a further chance to score.

On the next series a 15-yard penalty for roughing the kicker nullified a fine Cat defensive effort deep in Bangs territory. This week the Wildcats go to Rochelle for a game with the Hornets. Rochelle holds a narrow victory over the May Tigers and the outcome of Friday night's contest should furnish some indication of the relative strengths of the Wildcats and the Tigers who are district foes.
