The Rising Star Record

Serving the Most Prosperous Sections of Eastland, Brown and Comanche Counties

A Dollar Spent
Away Is Gone!

ESTABLISHED IN 1890

RISING STAR, EASTLAND COUNTY TEXAS THURSDAY, AUGUST 14, 1958

VOLUME 58, NO. 43

Through the Editor's Specs

BY BAB

Mr. and Mrs. D. D. Westfall whose Nimrod farm home was destroyed by fire Wednesday afternoon of last week, are known to many Rising Star people. Mrs. Westfall formerly taught in the Rising Star elementary school. She also taught in Scranton and in other schools in this area. They had been living at Nimrod about ten years.

The fire, originating in the garage of the dwelling, was discovered around noon by Mr. Westfall, who was reading in the living room when he heard a noise and went to investigate. He saved only the clothing he was wearing. Mrs. Westfall was away at the time, visiting.

The loss was only partially covered by insurance. The Nimrod Neighbors Progressive Club is sponsoring a shower for the couple and Rising Star friends who wish to contribute may send or take gifts to the club or to Mrs. Cecil Bostick or other friends at Nimrod.

Quite a number of years ago, when the Macedonia, Brooks and other rural common schools were flourishing, Bob Broucher taught school at Macedonia and boarded with Mrs. Cora Roach who lived there where Mr. and Mrs. John (Skeet) Clark have built their home. Thursday of last week, Mr. Broucher, now 80 years of age, and Mrs. Broucher came to Rising Star from Gorman to give Mrs. Roach a party on her 92nd birthday. They brought a cake and obtained ice cream for the surprise event which failed to come off because Mrs. Roach was visiting daughters in Abilene and Odessa. But with the help of Druggist M. D. Gibson they had a party anyway, with Aunt Kate Jones, another friend who is herself past ninety years of age.

Eastland County Farm Queen To Be Named August 25

The contest to find the fairest and most charming young farm or ranch girl to receive the title of "1958 Texas Farm Bureau Queen" has been announced, and the search is already under way in some of the Texas counties. It will be culminated with the crowning of the Queen November 9-12 at the state convention in Corpus Christi. The winner will attend the American Farm Bureau Federation convention in Boston in December.

In order to give recognition to farm and ranch girls of Texas, the contest has become an annual event. The rules provide that the contestants will be judged on gracefulness, poise, charm, and vivaciousness, and other qualities which go to make up the characteristics of Texas homemakers of the future. Any daughter or sister of a Farm Bureau member who is single, between the ages of 16 and 22 years of age, is eligible to participate. Eastland County Farm Bureau nominees from the various communities will vie for the title of "Eastland County Farm Bureau Queen of 1958" at the crowning ceremonies on August 25, at the city park in Eastland. The winner of the county title will compete for the District 7 crown along with the contestants from 12 other counties in the District event which is scheduled for that District the first week in September.

All district winners will compete in the State elimination contest at Corpus Christi.

BREAKS HIP

Mrs. J. E. Wiggins had the misfortune to fall and break a hip on Sunday morning at her home here. After receiving first aid treatments and tests at Rising Star hospital, she was taken to Hendricks Memorial Hospital in Abilene.

Mrs. Alynne Siekman and son, Bob, of Alpine, spent the weekend here with her parents, Mr. and Mrs. M. G. Joyce, and with her daughter and family, Mr. and Mrs. Art Fisher.

Cat Squad Green But Promising

Roping Club Will Host Barbecue Tuesday Evening

The Rising Star Roping Club will host a public barbecue at the rodeo arena east of town at 7 o'clock next Tuesday evening as the concluding and social event of the most successful rodeo season in the several years the club has been sponsoring the summer series here.

A big plate of barbecue and all the trimmings will be served for one dollar, tickets available at the Chamber of Commerce, or from any member of the Roping Club, President Jack Jackson announced.

The series of rodeos was concluded Friday night July 25 with a record crowd.

The club recorded the best financial success in its rodeo history with all bills paid, several head of bucking stock left, and a nice balance in the bank with which to finance improvements to the arena and stands contemplated for next year. Improvements will include enlarging the stands, repainting, improving the judges stands and stock pens.

Mrs. Mary Smith Honored Sunday At Key Reunion

The fourth reunion of the Key family was held at the Rising Star American Legion Hall on Sunday, August 10, with relatives and friends of Mrs. Mary Key Smith of Joyce Street, Rising Star, honoring her on this occasion.

Neices and nephews of Mrs. Smith and their families who attended were:

Mr. and Mrs. Clayton Bissett of Dublin; Mrs. Maudie Key Phillips of Abilene; Mr. and Mrs. Avery Stewart of Bangs; Mr. and Mrs. Guy Turpin of San Antonio; Mr. and Mrs. Lawrence Breeden and son, Terry, of Colorado City; Mr. and Mrs. George Dooley and children, Donald, Bobby and Diana, of Lubbock; Mr. and Mrs. Herbert Henry of May; Mr. and Mrs. Travis McClatchy of Brownwood; Glynn McClatchy and daughter, Mary Glynn, of Brownwood; T. E. Dooley and daughters, Sherry, and Brenda, of Fort Worth.

Also attending were Mrs. Homer Key, a sister-in-law of Mrs. Smith from Colorado City, and friends of the family, Mr. and Mrs. John Nunnally and Mr. and Mrs. Everette Parker.

Plans were made for next year's reunion.

Office supplies at the Record

G. G. Goss Honored For Long, Pioneer Service In Conservation Of Soil Here

"I have never taken part in any function at which I felt more honored than I feel now," Former State Rep. Bill Chambers of May told a large Chamber of Commerce dinner audience gathered at the Star Cafe Tuesday noon to honor G. G. Goss, retiring Brown-Mills Soil Conservation District supervisor.

Mr. Goss, pioneer in soil conservation work and Brown county supervisor for the SCD from 1941 to 1958, and who retired for reasons of health this year, received a beautiful plaque and gavel of polished walnut with a gold plate affixed bearing the words: "George G. Goss, Supervisor Brown Mills Soil Conservation District, 1941-1958."

Present for the presentation were the four supervisors of the Brown-Mills district — Anson Oden, of Brownwood, chairman; W. H. (Ben) Cook, Williams community, who succeeded Mr. Goss; Scott Lansford of Blanket who made the presentation to Mr. Goss, and Ernest Koehler of Priddy.

In his brief address, Mr. Chambers reviewed the organization of the Soil Conservation Work in Texas — a development in which he had a leading part as a legislator — and the determination of its organizers to keep control of the program in the hands of the

The Rising Star Wildcats will start a new season in a new league this year with a team that will be practically new from end to end. It will be a team, mostly without experience, but with potentialities enough to keep Coaches Ray Nunnally and Weldon Hill hoping, with their fingers crossed.

Added to the promise of the material available for building the new team is the advantage of playing in the Class B league where the Wildcats will be competing against schools of their own size. No class A teams have been scheduled.

This is not to say that the going will be easier all the way, Coach Nunnally pointed out. As a matter of fact, some of the Class B opponents which the Wildcats will face rate as tough as most Class A schools, but there will be "soft" spots here and there on the schedule which will give the team a chance to let down and to recuperate from the tough battles on the list. Heretofore, the thin Wildcat squad has been forced to meet one strong opponent after the other without any breathers.

"If the boys come through as we hope, and as they seem capable of doing, we should have a good chance to break even on our schedule and maybe do a little better," said Coach Nunnally. "We have a number of very capable boys both left over from last year's varsity and coming to us from the ward school and I think they have the desire, which is the main thing. Experience is the thing they lack most. Of course, we are not counting on the ward school graduates to be of any great help this season, but next year and the year after as they gain weight and experience, they should give us the nucleus of a good team — a team able to hold its own in district play. It all depends."

The squad will be called together for the first time at 7:30 a. m. sharp, Monday, August 25, at Wildcat field. Uniforms and equipment will be issued at that time and confirmation of practice schedules made. Until school is started September 2 there will be two practice sessions daily, probably at 7:30 a. m. and 5:30 p. m.

The first game will be played at Rising Star Friday night, Sept. 5, against Blanket. It will be a non-conference game. There are only five schools in the Rising Star B district and conference play will not start until October 10 when May, a traditional Wildcat rival now in the Rising Star district, comes here. Heretofore May and Rising Star have opened the season with a non-conference game.

Then in succession, the Wildcats meet Baird here on October 17, Jim Ned here on October 31, and Gorman at Gorman on November 7. All of these, including the

(Continued on Page 2)

land owners themselves. "The success of the program has been due to the work of the supervisors such as George Goss," he said. "We knew that its success would hinge on them and it has been so."

He paid tribute to the pioneering of Mr. Goss in soil conservation work over the years, pointing out that he had travelled constantly and far in his efforts to sell the farmers and land owners of the country upon the fact that the strength of the country ultimately depended upon saving its soil.

"You could not have given this award more worthily," he said. "No man has been more faithful and influential in making soil conservation a reality in this section than has been my friend and neighbor of sixty years. I am glad to pay him tribute and I am happy that you are doing so."

Aubrey Goss, a soil conservationist with the Rising Star office, and a son of Mr. Goss, responded for his father in a brief word of thanks. The dinner was opened with an invocation by Rev. Ed Jackson of the First Baptist Church. Minister Harry Tansil of the Church of Christ, of which Mr. Goss is a member, concluded it with a prayer.

Following the dinner, the supervisors met at the Rising Star SCS office for a business session.

RSHS Classes To Register Thurs. Aug. 28

Registration of pupils for the new term of Rising Star High School will be held Thursday, August 28, Supt. Sam Jones announced this week. Juniors and Seniors will register in the morning from 10:30 to 12 and Freshmen and Sophomores will register from 1:30 to 3. The registration will be at the High School library.

Preliminary opening activities will begin with a meeting of the faculty at 9 o'clock Thursday morning at the High School.

Classes will not begin until Tuesday morning — Monday being a Labor Day holiday — but a full schedule will be followed on the opening day, beginning at 8:15 a. m. Buses will run on schedule, also, arriving at the schools at 8 a. m.

The lunch room, in the elementary school building, will serve meals the opening day.

Parents of six-year-old children were advised that birth certificates will be required before enrollment.

N. B. Montgomery Buried Here In Rites Saturday

Funeral services for Newton B. Montgomery, 61-year-old farmer who died Thursday, August 7, at his home two miles south of town, were held at Higginbotham Funeral Home chapel here Saturday, August 9, at 11 a. m. The Rev. Hershel Smith, evangelist then holding a meeting at Union Grove Baptist Church, officiated and burial was in Rising Star cemetery under the direction of Higginbotham.

Mr. Montgomery is survived by his wife, the former Inez Latham who he married at Weatherford, Texas, February 2, 1924. They have no children. The couple had lived about three years at the farm south of town, moving here from Cottonwood.

Mr. Montgomery was a native of Springtown, Texas, born there on September 4, 1896.

North Star Club To Sponsor Exhibit Of Local Products

The North Star Home Demonstration Club will have an achievement day display in the former Bowers Grocery Building next to Joyce Insurance Agency August 29 and 30, it was announced this week.

The displays, ordinarily held at the club house north of Rising Star, will be installed in the local business building this year since there will be no Free Fall Fair as in other years.

Displays of agricultural products, household art, canning, needlework, antiques, old pictures and anything else that might be of interest and appropriate will be welcomed, Mrs. Clara Burkhead chairman of the committee, said.

There will be no charge for exhibiting the articles, and no awards will be made, but the displays promise an interesting recognition of meritorious products and hobby work, she said.

JAMES ARMSTRONG HAS STOMACH HEMMORHAGE

James Armstrong, who suffered a stomach hemorrhage while shopping at Forbes Grocery Store Wednesday afternoon of last week, was doing well at Rising Star Hospital where he was taken in a Higginbotham ambulance for treatment. He received a blood transfusion and Monday was reported resting well. His stay in the hospital will be indefinite, members of his family said. Mr. Armstrong is the son of Mr. and Mrs. A. W. Armstrong. He was formerly with the Soil Conservation Service here and is engaged in farming.

Alfred Morrison of New Mexico was here to spend a few days with his sister, Della Morrison, and with his brother, Horton Morrison.

ARGENTINA GRASS MAKES FINE PASTURE

Joe Allgood shown in field of Sorghum Alnum on his farm near Rising Star.

Joe Allgood Plants 319 Acres Sorghum Alnum Grass

Joe Allgood has 319 acres of Sorghum Alnum grass on his farm six miles southwest of Rising Star. He planted the grass under the Conservation Reserve feature of the Brown County Soil Bank Program. He is proud of an excellent stand of the grass.

Joe used a grain drill to plant the grass in 35-inch rows. He did this by plugging all but three drops on a thirteen-drop drill. "The grain drill worked fine. It put the seed at the proper depth and cut down on the planting time," Allgood said.

The recommended planting rate for Sorghum alnum is two and one half pounds per acre in rows. Joe planted five pounds per acre with the grain drill. He planted in April on a clean seedbed.

Allgood has good land in the Soil Bank program and with the great amount of organic matter which the grass can produce it should be better land when his contract is completed. Under a five year contract, he has three more years to go. He will not use the grass either for grazing or seed harvest.

Sorghum alnum originated in Argentina probably as a hybrid between Johnson grass and some other sorghum. It is a tall robust grass closely resembling Johnson grass in many ways. It has closer, larger stems, often wider leaves, and seems to grow taller than Johnson grass. To date there has been no difficulty in killing it out by plowing. The roots or rhizomes do not run like those of Johnson grass. It is expected that it will be a perennial grass under cultivation in the Rising Star area. It is a good forage producer that can be managed for hay or pasture under cultivation. It should not be used under range conditions. When planted for soil conditioning under the Soil Bank Program, it should be shredded or mowed after frost. The crop residue will protect the soil from erosion and from high surface evaporation.

Sorghum alnum may cross freely with Johnson grass. Farmers' opinions of the grass have, in many cases, come down from the "Wonder Grass" it was thought to be.

ATTEND DE LEON FESTIVAL

Attending the peach and melon festival at De Leon were Mr. and Mrs. Walter Henderson, Mr. and Mrs. John Lee, Sr., Mrs. Mollie Landreth and Mrs. Beryl Heath. The two Rising Star girls who were duchesses at the festival were Anna Little, who represented the City; and Mary Lois White who represented the Amity Community.

Mrs. Roxie Butler, accompanied by Mr. and Mrs. Doyle Lasater of Eastland, visited Mr. and Mrs. Fred Tunnell and Mr. and Mrs. J. C. Claborn at Cross Plains Sunday.

WILDCAT FOOTBALL SCHEDULE

- September 5 — Blanket at Rising Star;
- September 12 — Bangs at Bangs;
- September 19 — Early at Rising Star;
- September 26 — Richland Springs at Rising Star;
- October 2 — Woodson at Woodson;
- October 10 — May at Rising Star;
- October 17 — Baird at Rising Star;
- October 25 — Open Date
- October 31 — Jim Ned at Rising Star;
- November 7 — Gorman at Gorman;
- November 14 — Open Date.

Brooks To Preach For Methodist Revival At May

The Rev. R. A. Brooks, Jr., former pastor of the First Methodist Church in Rising Star and now pastor at Mansfield, Texas, will begin a series of revival services at the First Methodist Church in May Sunday, August 17, to last through Sunday, August 31, it was announced by the pastor, the Rev. J. Roy Williams.

The initial service at 11 a. m. will be a homecoming service with a basket luncheon at the church at noon. There will be services each evening at 8 o'clock, preceded by group prayer meeting and a children's meeting at 7:30. Week-day morning services will be held at 7 o'clock. Sunday services will be held at the usual hours. Singing will be led by Mike Michael, May postmaster.

Mrs. Bruce Glenn will be organist. The church recently installed a Hammond Organ. The public is invited.

Revival Meeting At Okra Baptist Church

A summer revival service will begin at the Okra Baptist Church Friday evening, August 15, with the Rev. W. I. Taylor of Weatherford doing the evangelistic preaching, it was announced by the pastor, the Rev. Dale Martin of Fort Worth. Rolin Earp will lead the song service.

Services will be held each morning at 10:30 and each evening at 8 o'clock. The evening service will be preceded by prayermeeting at 7:30. The public is invited to attend.

LAMESA MINISTER AND FAMILY VISIT HERE

Rev. and Mrs. J. Roy Haynes and son, James Haynes, of Lamesa, Texas, were here Sunday as guests of his sister, Mrs. J. E. Wiggins, and Mrs. Wiggins. Rev. Roy Haynes is pastor of West Side Baptist Church at Lamesa. He was born and reared at Rising Star, the son of Mr. and Mrs. Allen Haynes. His wife, also a native here, is the former Pauline Steel. They are both graduates of Howard Payne College and have served several west Texas Baptist Churches.

BACK FROM VACATION

Mr. and Mrs. Ray Nunnally have returned from a vacation trip. They were accompanied by their three children, Kenneth, Kay, and Deborah. They visited Mrs. Tucker in Somerville, Mrs. Nunnally's mother, who went with them to visit Mrs. Nunnally's brother in Houston. They also visited in the city of Galveston and enjoyed boating and swimming and sight seeing while there.

Miss Martha Jay Childress is vacationing in Washington, D. C., where they went with friends from Breckenridge who have relatives there including a member of the Secret Service at the Capitol. Attend Church Sunday!

Single Area Dial Service Is Approved

The way was paved Monday night for integration of the Rising Star and Cross Plains telephone systems into a direct-dialing area with passage by the Cross Plains City Council of an ordinance giving the Kizer Telephone Company authority to effect a rate increase necessary to finance the extended service.

The ordinance, matching one passed by the Rising Star City Council earlier, allows increases of \$1.25 in business telephone rentals and 50 cents in residential rentals, which will offset loss in revenue caused by elimination of toll charges between the two points.

When the integration is effected subscribers in the two towns may dial each other direct without having to place long distance calls through the exchange and pay a toll charge. E. O. Kizer, president of the company, was not able to say when the integration would be carried out but said it would be done with all possible dispatch.

The integrated system will give Kizer subscribers direct contact with twice as many telephones as at present and will represent what telephone people say will be a five year or more jump ahead in service. Integration of local exchanges into wider areas of service is a new advance in communication service now, it was pointed out.

The Kizer company said that a full announcement of integration plans would be made in The Record probably next week.

"We are grateful for the cooperation of the two communities which is making it possible for us to provide the area with a telephone service the equal of any in the nation in efficiency," Mr. Kizer said. "We feel it will add much to the appeal of the two towns and the surrounding area for business, farm, residential and community development."

The new rates, the same in both towns, fix the business service at \$9.25 per month; one party residential service at \$5.25; 4-party service at \$4.00 and residential extensions at \$1.00. Business extensions will cost \$1.50.

Program For State Poultry Meet At Dallas Announced

College Station, August 21 — An outstanding list of speakers has been announced for the annual meeting of the Texas Poultry Improvement Association to be held in the Baker Hotel in Dallas, August 19-21. According to Bob Griffin, extension poultry husbandman, the first day's program will deal with turkeys; the second will spotlight eggs and the third will center on the broiler industry.

Peter C. Crafts, president, National Turkey Federation, Gramere, New Hampshire, will speak on "The National Turkey Marketing Act" and M. C. Small, executive secretary of the National Federation from Mount Morris, Illinois, will discuss how his organization is serving a changing industry. Also during the morning session the candidate for "Turkey Queen" will be presented with the final selection to come during the Texas Turkey Federation luncheon.

The afternoon program will feature the first of three sessions of the seminar on "Merchandising Means Motivation" by Tom Lawrence of Kansas City, Missouri. A Federation business meeting will follow the seminar.

Opening the Wednesday morning session will be President V. F. Steckley of the American Poultry and Hatchery Federation, Kendallville, Indiana, speaking on "The New Commodity Organization for Eggs." Then will follow Cal Wallace from the Texas Department of Agriculture discussing "Enforcement of the New Texas Egg Law;" Rollie Hendrickson, General Mills, Minneapolis on "Integration and Contract Egg Production;" and L. H. Geil, general manager, Poultry and Egg National Board, Chicago, speaking on "Sales Targets Worth Shooting At."

Rubber Stamps made to order at the Record.

Wildcats—

(Continued from Page One)

May game, will be conference affairs.

Non-conference games will be with Blanket here, Bangs at Bangs, Early here, Richland Springs there and Woodson there.

Blanket, with a small but veteran squad, is rated a tough opponent; Early, Gorman and Baird are the equal of most Class A teams, each with veteran squads, returning from successful seasons last year. Baird took its region with virtually the same team that will play this year, Early was a bi-district champion, Gorman had a very successful season.

To fashion a team to meet this competition, Coaches Nunnally and Hill have:

Three returning senior lettermen — Don Long, and tackle; Gary Scott, back; and Kenneth Ridens, experienced in both line and backfield;

One senior squadman — Larry Earp;

Two junior lettermen — Pat Agnew, end and back, and Gary Maynard, tackle;

Two junior boys with experience but who failed to letter because of injuries which kept them out of play most of last season — Douglas Walker, back, and Wicky Walker, end;

One reserve junior letterman — Bobby Morrow; tackle;

Six sophomore squadmen with-

out experience but promising potential — John Burns, back; Tom Harding, lineman; Dewayne Rucker, guard; Jackie Nelson, guard; Charles Carroll, lineman, and Coy Edmiston, lineman.

A group of freshmen coming up from last year's strong Kitten squad include Larry Nichols, Johnny Jones, Jodie Ediston, Butch Butler, Worley Maynard, Morris Culwell, Larry Harding, Franklin Cox, Skipper Ezzell and Dick Morrow.

Naval Reservists Of Area Perform Training Duties

BROWNWOOD, July 31. — More than 50 young men of this West Central Texas region have performed two weeks active duty this summer through U. S. Naval Reserve Electronics Division 8-21, here, it was reported this week by Le. Comdr. W. F. Hill, Commanding Officer.

The Brownwood Division, a part of the navy's active reserve, offers reservists their choice of ship cruises or shore based training schools for the two week training requirement. Usually, the Navy men alternate by going to sea one year and attending a school the next, Comdr. Hill said.

"The Brownwood Naval Reserve program has a lot to offer the young man," Comdr. Hill said. "The Reservists attend weekly drills from 7:30 to 10 p. m.

each Wednesday at the new Navy building on Howard Payne College campus. They study in regular classroom form to increase their proficiency. They are able to advance in rate and are paid for each drill they attend in addition to the annual two weeks tour on active duty."

Comdr. Hill pointed out that Naval Reservist of this section receive several thousand dollars each year through participation in the reserve program.

"Brownwood is fortunate to have the Naval Reserve program," Comdr. Hill said. "The Navy has more than \$100,000 invested in its building and equipment. And the opportunities offered young men are splendid.

"We have openings for both officers and men in the Brownwood regional program. Under the present laws, we can accept young men under 18½ years and veterans of military service as far back as World War II. Veterans usually are accepted in the highest rate they held on active duty."

"We also have openings for both officers and enlisted Waves. The navy has some fine opportunities for young women.

"The navy has a deferment program for students. It is advantageous to the student to join the Naval Reserve; he is able to advance in pay grade and rating by the time he goes on active duty."

The navy's offices in the Howard Payne College campus building are open all week days and Wednesday night. Regular Navy personnel man the offices and have complete information for anyone interested in the Reserve program.

in the United States and in the world. In January, 1956, the seasonally adjusted rate of mill used in the U. S. was 35 percent lower than a year earlier and 45 percent lower than when the decline began in the summer of 1956.

In January and February, 1958, McHaney says the total quantity of fiber (including wool used by the wool textile industry in the spinning of yarn, other than carpet, was down 24 percent. This decline was mostly in wool. The use of man-made fiber by the wool industry was down only five percent.

During the early part of 1958, McHaney points out that cuttings for men were 23 percent below those for the same period in 1957, and 24 percent less than in 1956. The decline was much greater in suits containing predominantly wool than in suits containing less than 50 percent wool. Cuttings of most women's outerwear garments also declined early in 1958. Too, he says, mill activity has declined because of the general decline in economic activity and the uncertainty as to prospective consumer demand.

McHaney predicts that wool production in the U. S. will be slightly more in 1958 than 1957 because there are about three percent more sheep and lambs on farms and ranches, and ranges are in good condition.

He says it now appears that prices received during the 1958-59 marketing year (April, 1958 to March 31, 1959) will likely average less than in 1957-58. But he points out that the incentive program still exists, and mill activity could pick up because of the recent inventory liquidation and the fact that wool prices are lower. Too, if the mid-East situation should become more serious, chances are wool demand and prices will rise.

Typewriter Ribbons for all makes of machines and Portables at the Record.

Lower Rate Of Wool Use Drops Price of Fiber

College Station, — Why are wool prices so low?

This question is foremost in the minds of many wool producers, for prices received in March, 1958, were 21 percent lower than in March, 1957, and in June, 1958, prices were 32 percent below June of 1957.

John G. McHaney, extension economist, says the lower level of prices mainly has been caused by a decrease in the demand for wool

Absentee Voting For 2nd Primary Ends August 19

Tuesday, August 19, will be the last day for absentee voting in the Second Democratic Primary election, according to County Clerk Johnson Smith. Absentee ballots may be cast at the County Clerk's office.

Only persons who will be out of the county on election day and those who cannot go to the polls because of a physical disability are eligible to vote absentee.

Voters now out of the county who will be out of the county on election day may vote absentee by mail by sending a written request for a ballot, enclosing poll tax receipt or exemption and a return address.

A disabled person voting absentee by mail must also make a written request by mail for the ballot, enclosing poll tax receipt or exemption, a doctor's certificate, and a return address.

Farm Bureau To Select Queen In Aug. 25 Contest

A farm or ranch girl in Eastland County will be selected as Eastland County Farm Bureau Queen in ceremonies on Monday, August 25, according to an announcement here. The contest is held annually in connection with the state queen contest.

The winner of the county contest will go to the District 7 contest for competition in the first week in September. This district includes 12 counties.

The state queen contest is scheduled November 9-12 at the state farm bureau convention in Corpus Christi. Winners of the various district contests will com-

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Pasture grasses do well on badly eroded sandy land. When discussing the condition of the grasses with Steve Masey, Steve said, "I've been running this place four years and haven't plowed it once." "Of course, the grass is doing better this year than in the years past, but it lived through a drought and has stood the competition of the other vegetation."

It all started back in 1948. T. W. Moore, who now lives at 904 Irma, was operating a farm west of Grosvenor and attending veteran's school in Brownwood. He planted several kinds of grass using a Soil Conservation District grass drill. Among the grasses planted were Weeping livegrass, Sideoats grama, little bluestem and King Ranch bluestem. In 1949, he planted some Indian-grass using seed that he had harvested along the roadside. Moore cultivated the grasses in 1950 but moved off the farm that year.

Most of the top soil where these grasses are growing has been lost leaving about 3 or 4" of sand underlain with heavy clay sub-grasses he planted. He said, "You know, I should have kept

soil. Moore is proud of those that pete in the state contest. The state winner will attend the American Farm Bureau Federation convention in Boston in December.

Contestants must be between the ages of 16 and 22 years, single and the daughter or sister of a farm bureau member. They will be judged on gracefulness, poise, charm, and other characteristics.

Details of the contest will be announced later.

Military Service Medals Available To War Veterans

Former Army servicemen may now obtain all their military service medals by making one simple informal request without having to substantiate their right to the medals, Maj. Gen. Robert G. Gard, commanding general, VIII US Army Corps (Reserve), has announced.

Many veterans apparently fail to claim their service medals, that farm, by now, I would have had it all in grass."

There are several fields in the BROWN-MILLS SOIL CONSERVATION DISTRICT growing weeds that could be growing grasses.

Army, because they are unable to recall specific dates of military service and cannot name the medals they are entitled to. Actually, a veteran does not have to prove his right to a medal. The Army will obtain the proof from the veteran's service record.

Under the simplified "ask and receive" procedure, the Army will send the veteran all of the medals, as they become available, his service warrants simply in response to the ex-serviceman's written request stating "send all medals to which I am entitled," or words to that effect. He may, of course, list the medals to which he believes he is entitled.

It is most important that the ex-serviceman give his full name, service number, current address, and approximate dates of service in order to identify the proper record. Since records are filed according to service, such as

Farmers Should Take 'Break' Like City Worker
COLLEGE STATION, Aug. 5. — A "break" in morning and afternoon work hours is as important to farmers as to city workers, according to the Texas Farm and Ranch Safety Council.

World War I, World War II, and post World War II, receipt of this information will expedite action in processing the request.

This project is being handled along with current operations and there might be a considerable delay before the receipt of the medals. The Department of Defense urges that, once a request has been made for the medals, no further action be taken by that individual. Follow-up or tracer inquiries will tend to cause further delays in the receipt of medals by the individuals.

In fact, these "breaks" in work routine can prove especially important in this day of farm mechanization because they reduce the possibility of accidental deaths and injuries and improve work efficiency as well.

The farmer who just can't spare 10 to 15 minutes required to get off the tractor, walk around or maybe have a snack or something to drink in mid-morning or mid-afternoon, should be reminded that recent accident studies indicate that the highest percentage of farm accidents occur during the late morning and mid-afternoon hours.

Farm wives can help, too. They can serve as break reminders to their husbands by packing a mid-morning and mid-afternoon snack and taking it to the field.

There is another angle to the work break idea, too. This gives mothers an opportunity to take

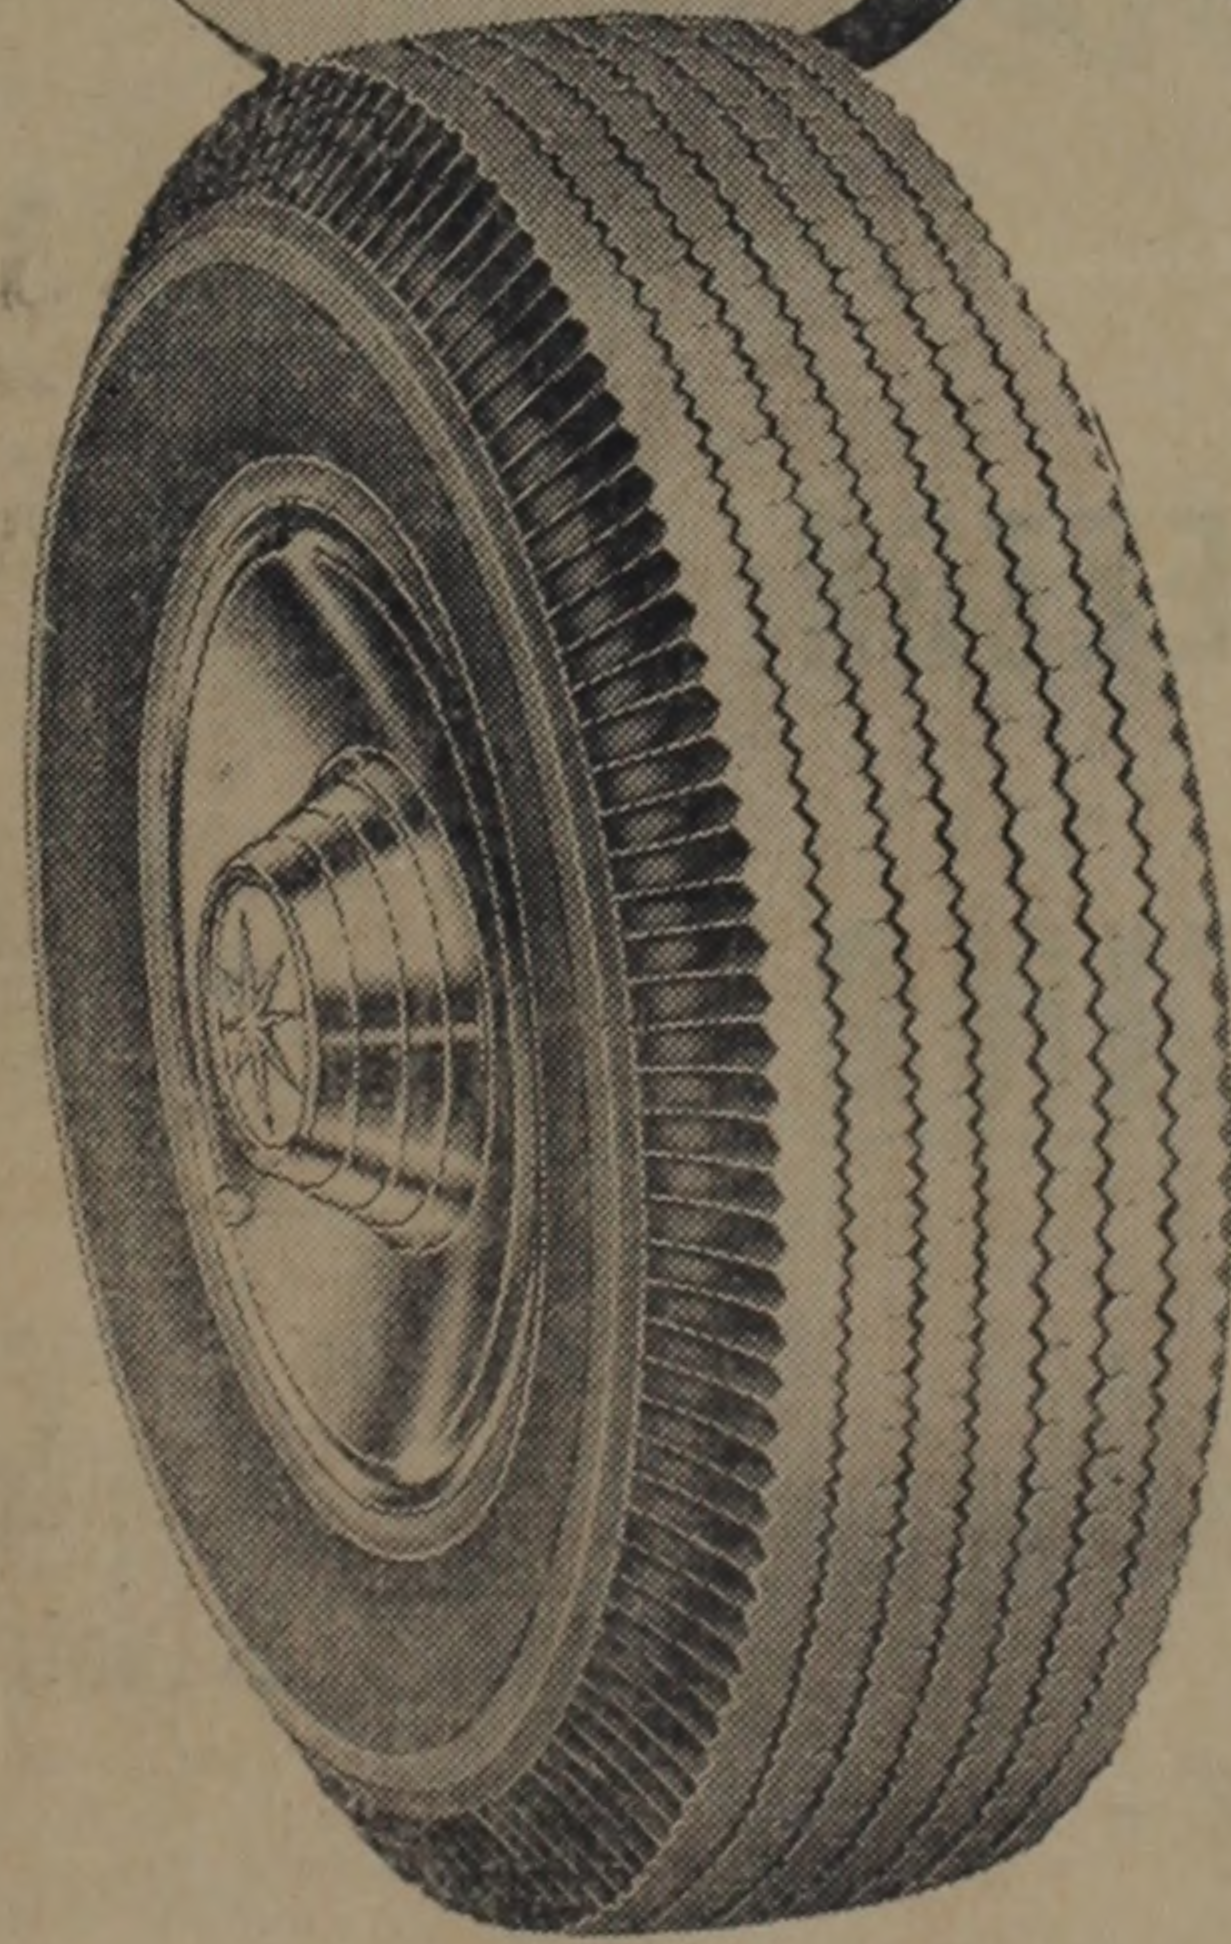

children to the field to watch their father operate the machines they find so fascinating. This is the safe way of satisfying the children's curiosity and makes a much anticipated event in the daily life of the youngsters.

So, why not follow the advice of the Texas Farm and Ranch Safety Council and take time out for a mid-morning and mid-afternoon break. It can pay off in safety, pleasure and efficiency.

SKIN ITCH
HOW TO RELIEVE IT IN JUST 15 MINUTES
If not pleased, your 48c back at any drug store. **ITCH-ME-NOT** deadens itch and burning in minutes; kills germs, fungi on contact. Wonderful for eczema, foot itch, ringworm, insect bites, surface rashes. Today at **DILL DRUG STORE**.

DOVE HUNTING SEASON BEGINS SEPT. 1ST, DEER ON NOV. 16TH

AUSTIN, Aug. 7. — Basic hunting regulations in Texas have been set by the Game and Fish Commission for the 1958 fall season. In general they will be very much the same as last season, according to the Executive Secretary of the Game and Fish Commission.

The regulations were approved by the Commission last week from recommendations made by biologists after they had studied conditions throughout the state, particularly in areas where regulatory authority has been granted to the Commission.

The hunting season will begin Sept. 1 for doves in the North zone. The season will extend through Oct. 20. In the South zone the season will be Oct. 1 through Nov. 19, except in the counties of the Rio Grande valley where it will be legal to shoot

mourning doves for the two-day open white-winged dove season. Here the season will end Nov. 17 inclusive.

Dove hunters also get another break. The U. S. Fish and Wildlife Service has authorized the possession of 20 mourning doves, after the first day. The daily bag will continue at 10.

The white-winged season begins 2 p. m. daily on Sept. 14 and 16, only, and ends at sunset on each of the two days. The bag limit is 10 per day and 10 in possession.

Deer hunters will find the white tailed season in the Edwards Plateau and South Texas areas open Nov. 16 to Dec. 31, inclusive.

Antelope seasons will be the same as last year, except that in the Trans Pecos area three more

The Vacuum Cleaner

Many of today's vacuum cleaners are streamlined and smart in appearance, with a fashion-wise use of decorator colors, some in attractive two-tone combinations. With so much to choose from, homemakers are sometimes puzzled when it comes to choosing a new model.

According to laboratory tests, the best upright cleaners do a consistently better job of cleaning rugs and carpets than the best of the tanks, while the tank models have stronger suction and therefore do a better job of above-the-floor cleaning.

Look for these features when shopping for a vacuum cleaner. Cleaner moves easily on wheels, casters, glides, dolly or by other means.

Handle stays in different positions for use and storage. Handle is easy to grasp. Finger or foot-control switch is easy to operate.

Bumper guards on cleaner and attachments for furniture protection.

days have been added. The dates are Oct. 1-3, 5-7, and 8-10 inclusive. The Panhandle dates for antelope are Oct. 14-16 and Oct. 17-19, covering two areas.

Quail season will remain from Dec. 1 to Jan. 16, except in a few counties where the season has been closed by the legislature. Quail season has been opened in Crockett county this year.

The turkey season will remain the same this season as last year.

A digest of the Game and Fish Laws now is being prepared and will be ready for distribution through license dealers, wardens, and sporting goods stores as soon as possible.

Amount of suction can be controlled.

Upright cleaner has a head light. Attachments convenient in size and weight. Attachments can be securely and easily connected. Handy tool racks fastened to vacuum or a type which may be carried from room to room. Hose or wands lock or the hose is double-stretch plastic. Cords are long enough that large areas can be cleaned without changing the connection. Cord rewinds automatically. Flattened motor housing of upright cleaners allows for cleaning under furniture. Dust bags are disposable.

Work Break Important

A "break" in morning and afternoon work hours is an important to farmers as to city workers. In fact, these "breaks" in work routine can prove especially important in this day of farm mechanization because they reduce the possibility of accidental deaths and injuries and improve work efficiency as well.

Farm wives can help, too. They can serve as break reminders to their husbands by packing a mid-morning and mid-afternoon snack and taking it to the field.

Don't Miss Your SS Checks At Retirement

If you've reached retirement age (65 for men, 62 for women), C. M. Vaden of the Abilene office of the Social Security Administration wants to see you on his next trip here — provided you have some social security credits on your record.

He says he's finding many folks who miss out on some retirement checks because of the mistaken idea that all work must stop before any social security checks are due.

So, local readers with sufficient birthdays and a couple of years or more of social security credits should plan to see Mr. Vaden here at the Chamber of Commerce at 10 o'clock on Tuesday, August 12 and August 29.

IT'S THE LAW in Texas

A public service feature of the State Bar of Texas

WHO INHERITS PROPERTY IN ABSENCE OF WILL?

What will happen if you should die without executing a legal and good will? Who will inherit your property? Your husband, wife, mother, father, children, your wife's relatives? The best way you can say who will have it is to provide a will which will protect your rightful beneficiaries and dispose of your property in accordance with your wishes.

When a deceased has no will, or dies "intestate," as the law calls it, the property of that person is distributed according to a detailed formula fixed by law. In some cases this may be the way you yourself would divide it — but in many cases it is not.

The provisions of the law concerning the distribution of the property of a person who dies without a will are rather complicated, and all of the possibilities cannot be covered by a general statement.

There are different rules for real estate and for personal property, for community property and for separate property, and for all of the many possible combinations of surviving relatives. Each situation must be carefully studied to determine the correct distribution of the property.

Fore example, here is a general idea of how the community property which you and your spouse have accumulated will be divided if you do not make a will prior to your death.

If your husband or wife survives and there are no children the surviving spouse receives all of the property.

If, in addition, there are surviving children or descendants of deceased children, they would divide one-half of the property, while the surviving spouse would receive the other one-half.

Of course, grandchildren do not share in the estate unless their parent who would inherit is deceased. And when descendants of previously deceased children do inherit, they receive only the portion that the child would have received, regardless of the number of such descendants.

An odd note, perhaps, is that the surviving spouse already owns one-half of the community estate prior to your death, and the law adds nothing to this share where there are children surviving.

When there are only children and their descendants surviving, they divide the entire community estate between them.

(This column, prepared by the State Bar of Texas, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Healthy Increase In Retail Sales In Region Is Noted

nearly \$5 million a day in 1957, a survey published by the West Texas Chamber of Commerce reveals.

Based on figures developed by Sales Management magazine, the West Texas Chamber's region advanced retail sales last year by almost \$200 million compared with 1956 totals.

In addition to regional advances the survey also shows that several West Texas Counties moved forward in national rankings among the top 200 counties in the United States.

Tarrant (Fort Worth) moved from 45th to 44th in the nation in retail sales; El Paso advanced from 111th to 106th; Lubbock moved from 173 to 162, and Potter (Amarillo) jumped from 185 to 175.

The survey, which was published in the July issue of the regional chamber's monthly magazine, West Texas Today, also contained information about West Texas' effective buying income.

According to the survey, West Texas' effective buying income increased some \$65 million. The region also placed three counties among the top 200 in the nation in effective buying power. These counties were: Tarrant, rated at number 53; El Paso, listed at 109; Lubbock, rated 160.

Total retail sales for the 132 counties in the West Texas Chamber's region amounted to \$3,534,841,000 in 1957, compared with \$3,356,367,000 in 1956. Total effective buying income for the area was \$4,899,640,000.

Other information contained in the survey included a tabulation of each county's retail sales in 1957, 1956, and 1955 as well as the total effective buying income for each of the 132 counties in 1957.

New CASE-O-MATIC Booms Farm Tractor SALES

TO THE FARMERS OF RISING AREA... From your J. I. Case Dealer.

DID YOU KNOW that in the first six months of this year hundreds upon hundreds of farmers all over the country have traded in their "conventional drive" tractors for one or more of our revolutionary Case-o-Matic Drive models?

DID YOU KNOW that because of farmers' wide acceptance of Case-o-matic Drive, J. I. Case Company sales have increased more this year than those of any other farm equipment manufacturer? (First six months sales are way up -- more than 50 per cent over 1957!)

DID YOU KNOW that Case-o-Matic Drive new-look tractor styling is way out in front and is being copied more and more?

DID YOU KNOW that with the special low introductory price now in effect you can buy a Case-o-Matic Drive tractor for less money today than at any time in the foreseeable future?

DID YOU KNOW that a 1960 Case-o-Matic Drive tractor actually costs less than most so-called current model "conventional drive" tractors of similar plow-pulling capacity?

DID YOU KNOW that Case-o-Matic Drive senses the load, doubles pull-power automatically without shifting or stalling... this greater operational efficiency gives more work out-put every minute, every hour, every day.

DID YOU KNOW that Case-o-Matic Drive permits you to stop and start without changing gears or using clutch - just like your 1959-60 automobile?

DID YOU KNOW that tests under actual field conditions show that a Case-o-Matic Drive tractor will use less fuel per acre of plowing than most other tractors you can buy? Farmers are proving this every day all over the country on their farms.

DID YOU KNOW that Case-o-Matic Drive enables most farmers to ADD ANOTHER PLOW BOTTOM, thereby reducing their plowing time by as much as 25% to 33%?

DID YOU KNOW that only Case-o-Matic Drive gives you ALL 3: Torque converter drive for heavy loads; direct drive for lighter loads; and independent PTO with engine power priority for more efficient baling, chopping, combining?

DID YOU KNOW that Case-o-Matic Drive brings new efficiency to machinery whether new or old? New efficiency in plowing, disking, planting, cultivating, harvesting... a very real increase in operational efficiency to ALL farm machinery?

DID YOU KNOW that Case-o-Matic Drive absorbs shock loads, prolongs life of both tractor and implement? That is why Case-o-Matic Drive torque converter units carry a double warranty, twice the warranty period on conventional tractor transmissions.

DID YOU KNOW that the clutch in Case-o-Matic Drive tractors is hydraulically actuated, requires no adjusting? There is no burning, no occasion for excessive wear and tear.

DID YOU KNOW that Case-o-Matic Drive reduces tire slippage to a measurable minimum, improves traction, adds mile upon mile to tire life? Power is applied smoothly... you start out evenly and surely on the field or highway.

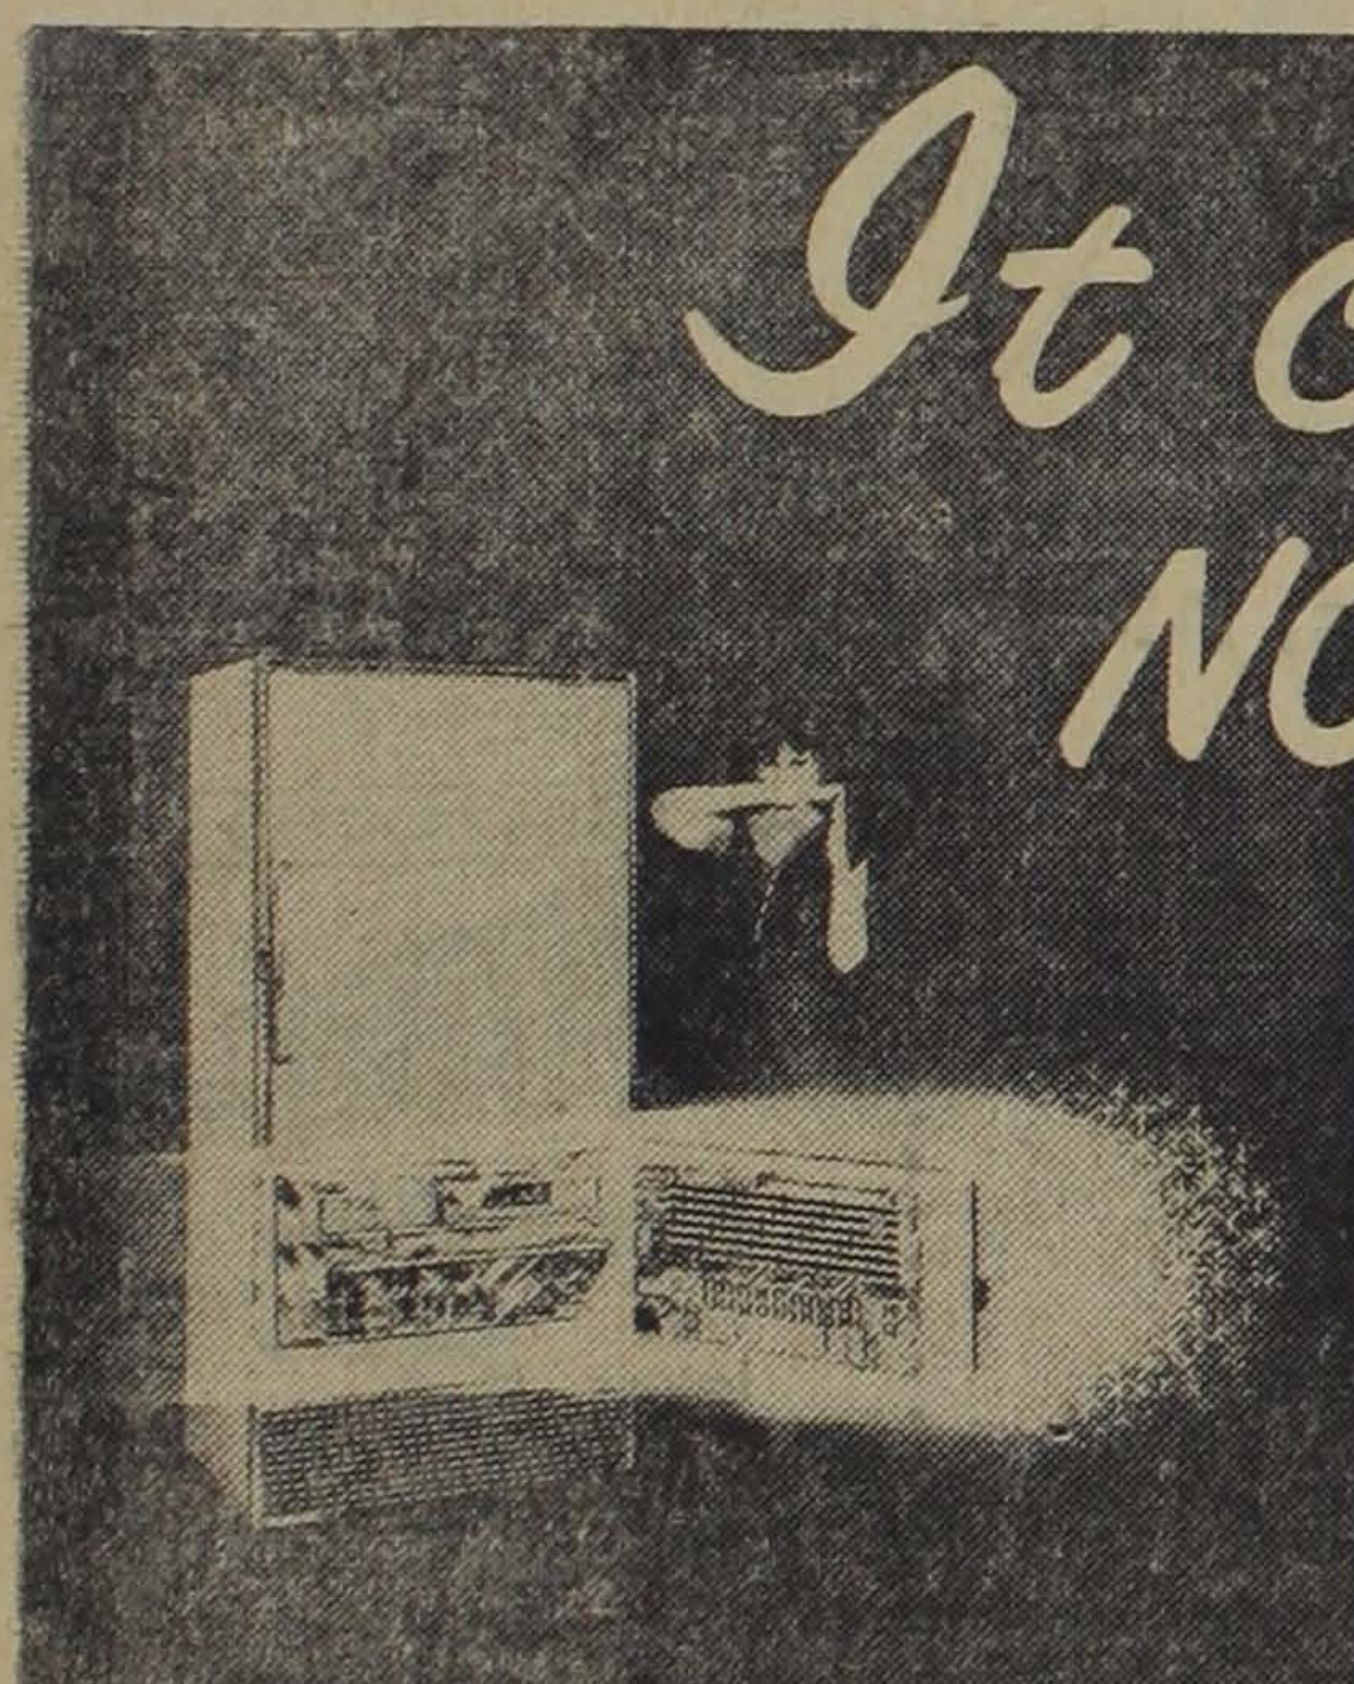

DID YOU KNOW that Case-o-Matic Drive can start heavy loads smoothly in road gear merely by pressing the accelerator... that you can come to a stop, and start out again without clutching or shifting, even on grades?

DID YOU KNOW that Case-o-Matic Drive is easier and safer to operate than conventional tractors... keeps you fresher at the end of the day because you drive the tractor and control your implements with less effort?

We are willing to stake our reputation on the fact that the statements and the features listed above can be proved or demonstrated to the satisfaction of any prospective customer.

It can be done NOW - a

REFRIGERATOR-FREEZER

that needs

NO DEFROSTING

MADE BY

FRIGIDAIRE

FROST-PROOF FOOD KEEPING - WHERE YOU NEVER DEFROST AGAIN

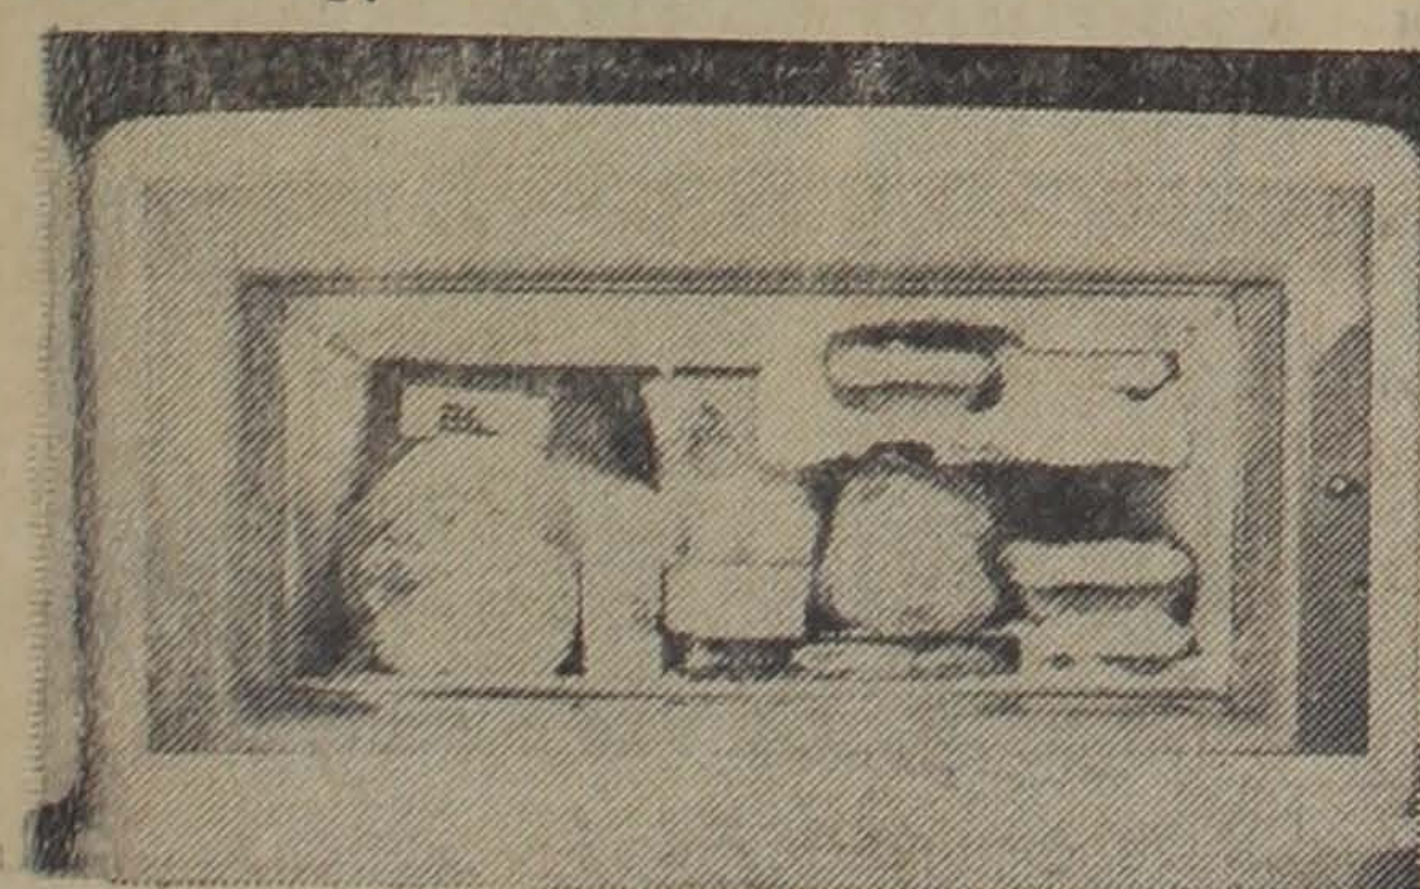

In the Flowing-Cold Refrigerator...

Flowing Cold means super-fast, more uniform chilling for all your fresh foods no matter where you store them — in the refrigerator section or on the door — regardless of outside temperatures.

And Flowing Cold means no more frost! Here's how it works:

Fresh warm air enters the refrigerator section every time you open the door — and is drawn by a fan up and over the hidden Refrig-o-Plate that cools it and removes the excess moisture after which it comes back in at the top as Flowing Cold.

Best of all, the moisture removed is evaporated automatically — there's nothing you have to do!

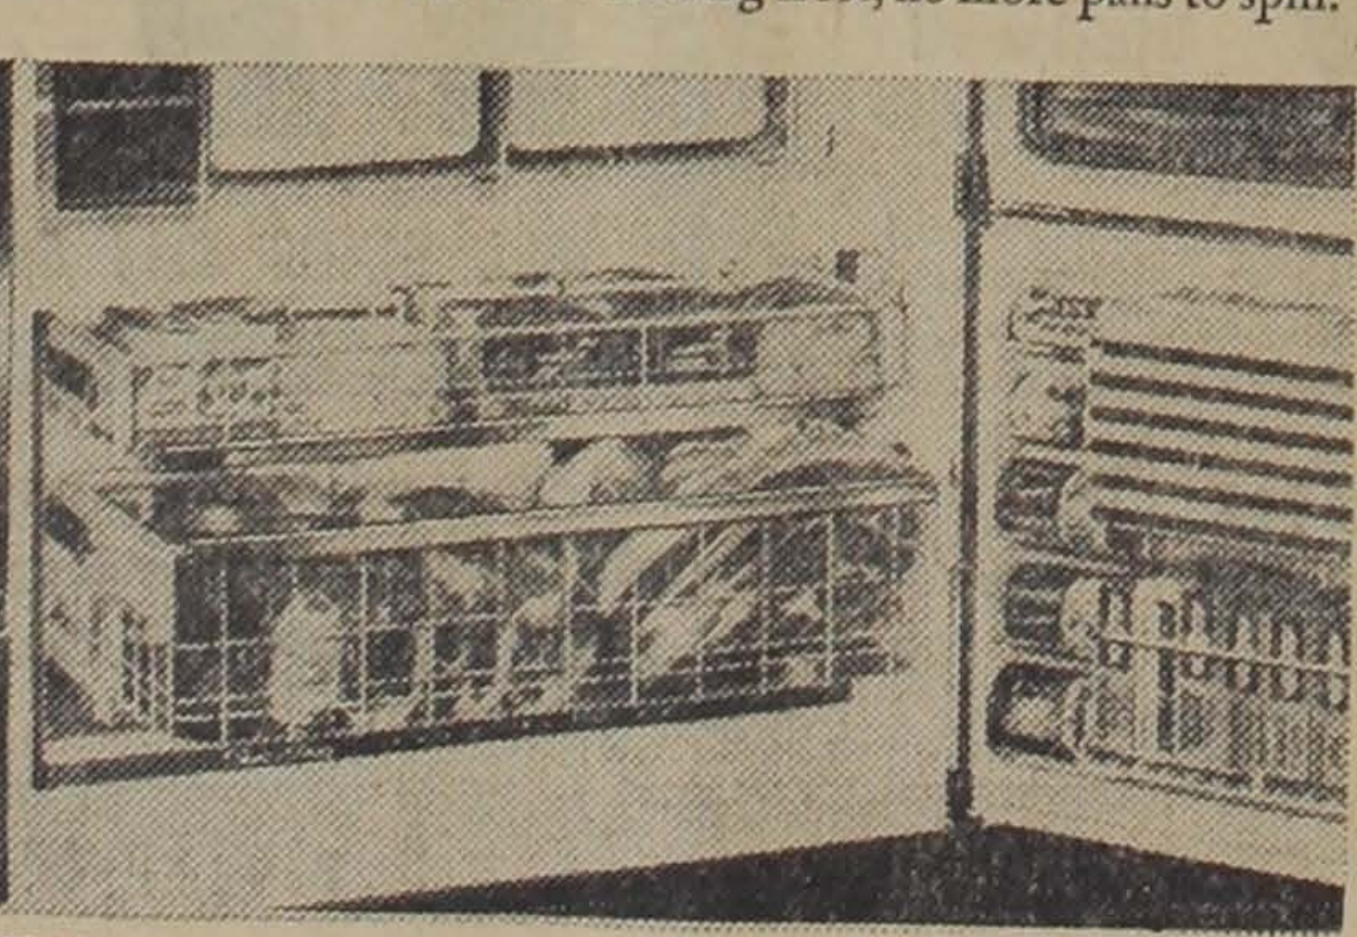

FROSTED-UP! Ordinary freezer chest after 30 days. Everything has liberal coating of frost! Some types demand do-it-yourself defrosting. Others apply electric heat to freezer to melt frost. Sometimes frost water drips down on food — refreezes on packages. Foods may thaw, then refreeze — lose flavor and vitamins!

In the Frost-Proof Freezer...

Completely new and revolutionary — completely different from so-called "automatic" defrosting systems. Frigidaire patented Frost-Proof Freezing actually whisks away heat and moisture before frost can form!

Frost-Proof Cold enters at the top, rear, cooling and removing moisture from the entire freezer. Then this warmer, moist air is drawn out of the freezer across sub-zero freezing plate underneath and completely separate from the freezer, where the air is re-chilled, changing warm air into dry, sub-zero Frost-Proof Cold!

And the moisture, of course, evaporates automatically. Frost never accumulates on freezer walls or on food. No more chipping, scraping at a stubborn ice crust. No more melting frost, no more pans to spill!

FROST-PROOF! Frigidaire Frost-Proof Freezer after months or even years! Not a whisker of frost in sight! The secret is a new kind of circulating cold — dry, sub-zero cold — that's hungry for heat and thirsty for moisture. Carries away warm air and moisture before frost can form! Freezes foods faster — keeps them frozen.

Amity News

Mrs. O. J. Reynolds

Rev. Lee Bailey preached here Sunday morning and night. He and his wife and Mr. and Mrs. Guy Taylor were dinner guest in the Walter Henderson home.

Rev. Guy Self of Comanche will preach here next Sunday, Aug. 16. Everyone is invited to hear him.

Mr. and Mrs. Edgar Philen of Dallas visited Mr. and Mrs. Jomer Smith, and Mrs. Sybil Roark last week.

Mrs. Ray Green of San Lorenzo, Calif., visited relatives and friends here last week.

Mr. and Mrs. Edd Stodghill went shopping in Brownwood last Wednesday.

Mrs. John Alford is in Rising Star hospital and will undergo surgery in a few days.

Mr. and Mrs. Homer G. West and children of Dallas spent part of last week with their parents. Mr. and Mrs. E. R. West. The Wests recently moved from Okla. City, where he was Superintendent of the Lucerne Milk Products Co. He is now Superintendent of Oak Farms Dairy at Dallas.

Visitors in the Walter Henderson home last week were a nephew of Mrs. Henderson, Rev. J. P. Morgan, his wife and daughter. Mr. Morgan is a missionary

to Japan and he and his family are on furlough, but will return to Japan soon. Other visitors were Rev. Mr. Morgan's sisters, Mrs. John Paskel and husband and son and Mrs. Adolph Friehler, and husband of Oklahoma City.

Mr. and Mrs. I. T. White visited Mr. and Mrs. Bill White near Comanche Saturday.

Mrs. O. J. Reynolds, Bob, and Bonnie visited Mrs. Sadie Willett at May, Sunday afternoon.

Mr. and Mrs. R. L. Flannagan and children of Burnett visited the Perry Mullis family Sunday.

Mrs. Lelia McBride of May, visited Mr. and Mrs. Herbert Henry last week.

Mr. and Mrs. John Robertson and children of Comanche and Elizabeth Robertson spent week-end before last in San Antonio.

Don Moore and a friend, of Petersburg spent part of last week working on the Moore farm here and visiting Mr. and Mrs. Herbert Henry.

Mr. and Mrs. Virgil Bramlet and A. D. Jenkins rode with the Rising Star Roping Club in the Peach and Melon Festival Parade at De Leon last Wednesday. Mary Lois White represented the Amity Progress Club as duchess and also rode in the parade.

L. A. Beonick of Texarkana, Tex., visited in the O. J. Reynolds home last Tuesday afternoon.

Perry Mullis, Jr., who is working for a tanking company at Abilene, spent last week end with

home folks. Buster Brown has been on the sick list for several days and won't be able to work again for quite awhile.

Bonnie Reynolds of Abilene spent last week end with home folks.

Visitors of the Progress Club meeting Saturday night were Mr. and Mrs. York Eberhart and daughters of Rising Star, and their neices the three daughters of Mr. and Mrs. Travis Martin of Plainview. The Martin girls went home with the Henry Lindley family Saturday night then attended preaching at Amity Sunday morning, and went back to the Eberharts for a longer visit.

James Crisper and two small sons of Levelland and Mrs. Willie Casper of Rising Star visited in the O. J. Reynolds home Saturday. James is the son of the late W. A. Casper.

I'm sorry that I was mistaken in the arrival of the W. T. Henderson family week before last and they live in Dayton Ohio. They were expecting to get here around the last of July but there has been a delay in his discharge papers and they won't get here until the last of August. But Mrs. Effie Anderson did come, also her son, Herchel and family of Broken Arrow, Okla., and her brother, Walter Ayers, of Marshall, Tex. Then, last week end a sister, Mrs. Neva Moffett, and two daughters from near Snyder came and last Sunday a brother, Wile Ayers, of Comanche spent the day. They were all at Mrs. Anderson's here.

James Armstrong has been seriously ill but is improving satisfactorily.

YEARBOOK

The year-book committee of the Saturday Club met to proof-read the yearbook on Tuesday, Aug. 12. The committee is composed of Mrs. A. Louise Weber, Mrs. Eve Cargile and Mrs. Fred Roberts. The books are printed by The Record.

Mr. and Mrs. Moody Smith from New London were visitors over the weekend with his brother and wife, Mr. and Mrs. Warren Smith. The Moody Smiths were very favorably impressed with this section of the country.

Pierce Scott and his daughter, Sandra were here for a visit with his parents. Sandra will enter ACC in Abilene.

TO BE WED AUGUST 30 AT LONG BRANCH

Martha Walker, daughter of Mr. and Mrs. Vernon Walker of Rising Star whose marriage to Leon Jones of Blanket will take place at the Long Branch Baptist Church August 30.

ABOUT YOUR HEALTH

A weekly public service feature from the Texas State Department of Health. HENRY A. HOLLE, M.D., Commissioner

A special eight-member committee within the State Health Department is now at work trying to unravel one of the knottiest problems of the day: What causes accidents and how can they be prevented?

Accidents are the fourth leading cause of death in Texas and the nation generally. Of all the patients in America's 6,000 hospitals, almost seven percent are victims of accidents. Thirty-two of every 100 patients seen in hospital emergency rooms are accident cases. The care of accident victims in hospitals cost upwards of \$350 million every year.

If it were not for preventable accidents, our shortage of hospital beds would not be nearly as acute as it is. At least 50,500 beds are presently devoted to accident patients — beds desperately needed for sufferers of non-preventable chronic diseases.

There is one bright spot in the accident picture, however. State Health Department records show a noticeable decrease in death rates from motor vehicle mishaps for the past few months. Perhaps this is due to state and national educational campaigns.

As for accidents of other types, little improvements can be seen, despite the time and money spent on massive educational drives to alert the public to hazards of their environment. Accidents still happen with appalling frequency even where no hazards exist.

We know the ages most susceptible to accidents, the most prevalent types, and that males are more liable than females. We know the results — how accidents maim and kill — but much of their cause and methods of prevention remain puzzles yet to be solved.

This is the mammoth task assigned to the new health department committee. With each member an authority in his own field, the committee is composed of specialists in nursing, health education, occupational health, vital statistics, engineering, mental health, maternal and child health, and foods and drugs. Studies by competent researchers show that only 15 of every 100 accidents happen purely by chance. The rest are products of human failings — haste, inattention, preoccupation, distraction — all of which may result from the emotional strain of anxiety, anger, fear, frustration, hate aggression, or guilt.

As a start on their enormously complex task, the new health department committee will attempt to correlate accidents with biologic conditions such as fatigue, temporary stress-produced inattention, impaired vision or hearing, or underlying disease.

Their findings may open up a whole new approach to the control of accidents.

VISITING PREACHER

Rev. J. D. Smoot was in charge of the preaching hour at the Methodist Church on Sunday August 3rd. Rev. Smoot preached his first sermon here in 1910. He now lives at Comanche. He is 82 years of age, and is still a good preacher. While visiting here, he and his wife were guests of Mrs. Beryl Heath.

SOCIETY, CLUB AND CHURCH

MRS. F. W. ROBERTS, Editor

Telephone 5-4301

Officers Named By WMU Of First Baptist Church

Mrs. Ed Jackson gave a very interesting review of the book, "God's World Plan," a missionary study of the Bible, at the meeting of the Baptist WMU Monday. The book had been carefully studied in the various circles.

In reviewing the book, Mrs. Jackson emphasized knowledge of God's World Plan through nature, through Bible study and prayer. The Bible, she said, is the guidepost. The book review was well received by the eleven members present.

During the business session officers were elected as follows: President, Mrs. Raymond Turner; vice-president, Mrs. B. B. Morris; Recording secretary, Mrs. Lee Clark; corresponding secretary and treasurer, Mrs. Clark Crownover; circle chairman, Mrs. Charles Watson and Mrs. C. M. Cox.

Other officers are Mrs. W. G. Reed, YWA sponsor; Mrs. H. L. Geye, Mrs. J. R. Morrow and Mrs. Oliver Smith, G. A. sponsors, and Mrs. Roy Holly, Sunbeam sponsor.

LOCAL ITEMS

Mr. and Mrs. Douglas Eakin left Friday for an extended fishing trip in Cool Colorado.

Mr. and Mrs. Moody Smith from New London visited Mr. and Mrs. Warren Smith, and attended church here Sunday night.

Parents of J. W. Bishop from Goliad are here for a visit with the Bishop family.

Diana and Sandra Pittman of Monahans, and Charlotte, Melody, and James Ogletree of Wink are visiting their grandparents, Mr. and Mrs. Charles Watson.

Mrs. Clinton Ruse and family from Hereford have returned to their home, after a visit here with her parents, Mr. and Mrs. Wilburn Scott. She also visited in Ballinger.

Mr. and Mrs. G. W. Duke and their three children from Artesia, Arkansas, were here the past week for a visit with her parents, Mr. and Mrs. Sterling Tucker, and other relatives.

Phyllis Phillips of Eastland is here for a visit with her grandparents, Mr. and Mrs. B. B. Morris and Bennie Sue.

W. P. Crisp of Lancaster, Texas is visiting his brother, Tommy Crisp, and family.

Karlee Ann Arnsberg of Port Arthur was a visitor here Sunday.

Mr. and Mrs. Bailey Hutton, Mrs. Lee Henry, Miss Ben Westerman and Miss Naomi Hutton went to Temple last week to be with a brother, M. E. Hutton, 80-year-old Spur, Texas, man who underwent major surgery at Scott and White Hospital Tuesday of last week. His condition was serious but not critical, it was learned.

Mr. and Mrs. W. P. Crisp of Lancaster, Texas, and Mr. and Mrs. Tom Henry of Palestine, were week-end guests of Mr. and Mrs. T. C. Crisp. W. P. Crisp is a brother and Mrs. Henry a sister of T. C. Crisp.

Mr. and Mrs. Oliver Kjelland and Kenneth, and Mrs. Miller, all of Temple, and Mr. and Mrs. Eugene Stanfield and son of Brownwood, visited in the home of Mr. and Mrs. Everette Harris Sunday.

Mr. and Mrs. Joe Johnson returned Sunday from Kermit, Texas where they spent a few days with relatives and friends.

Miss Drinkard Bride At Snyder August 3

The marriage of Miss Totsy Drinkard, daughter of Mr. and Mrs. A. M. Drinkard of Rising Star to Mr. George Hatley took place at the home of the bride's sister, Mrs. Carl Turner, at Snyder, August 3, it has been announced here by the bride's parents.

The bride, who attended Rising Star High School, went to Snyder two years ago to be employed in a drug store there. She completed her high school education at Snyder.

The couple will make their home in Snyder where the groom is an oil company employe.

Mrs. Leeman Underwood, the former Madie Dawney, underwent surgery in our local hospital, recently.

Mr. and Mrs. Will Owens visited in the home of Mr. and Mrs. John Sharkey Sunday evening.

Mr. and Mrs. Eugene Stanfield and son of Brownwood were guests of Mr. and Mrs. T. C. Chisp Sunday.

Mr. and Mrs. Otis Mayfield from Andrews were here, with their two sons to spend Sunday with his mother, Mrs. L. W. Mayfield.

CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT THE GENERAL ELECTION ON NOVEMBER 4, 1958.

HJR #30—Number Three on the Ballot.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 4, 1958.

HOUSE JOINT RESOLUTION NO. 30 proposing an amendment to the Constitution of Texas to require that vacancies in the office of County Judge and Justices of the Peace be filled by the Commissioners Court only until the next General Election.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. Section 23 of Article 5 of the Constitution of the State of Texas is hereby amended so as hereafter to read as follows:

Section 23. Vacancies in Offices of Judges of Superior Courts To Be Filled By The Governor.

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1958, at which election all ballots shall have printed thereon: "FOR THE Constitutional Amendment providing that vacancies in the office of County Judge and Justices of the Peace shall be filled by the Commissioners Court only until the next General Election."

"AGAINST THE Constitutional Amendment providing that vacancies in the office of County Judge and Justices of the Peace shall be filled by the Commissioners Court only until the next General Election."

If it appears from the returns of said election that a majority of the votes have been cast in favor of said amendment, same shall become a part of the Constitution of the State of Texas.

Sec. 3. The Governor of Texas shall issue the necessary proclamation for the election herein provided for and shall cause this proposed amendment to be published in the manner required by law and shall cause said election to be held as required by the Constitution and laws of this State.

Stop - Look - Listen!

Some times it pays to STOP, LOOK and LISTEN! This is especially true when selecting a bank upon which you can safely rely as a SAFE place in which to keep your hard-earned surplus money.

Recently, on the front page of the Star-Telegram, there appeared this headline:

"KANSAS BANK SHORTAGE OVER HALF OF DEPOSITS"

Then followed an account of the closing of the State Bank of Hoyt, Kansas, and the disappearance of its cashier. The bank's deposits were not insured and "MANY PERSONS LOST THEIR LIFE SAVINGS."

This will never happen to you if you are a customer and depositor of the FIRST STATE BANK of Rising Star, regardless of the amount of money you have on deposit with it. For more than fifty years we have been on the "same old corner", through a depression and several droughts. When banks were literally closing by the hundreds during the THIRTIES our doors were never closed.

We have always strived to put safety first and good banking service next. Our loyal customers are our greatest asset.

First State Bank

New Method Of Johnson Grass Control Developed

College Station, — Johnsongrass is an aggressive perennial which infests over five million acres of cropland in Texas. It is difficult to control with normal cultivation methods and is quite a "pain-in-the-neck" to many farmers.
Farmers long have used grazing, mowing, tillage, cultivation, rotary weeding and hoeing for the mass control of Johnsongrass. Some have used, but usually have not accepted, pre-emergence chemical treatments, lateral application of chemicals and flaming for this purpose. These methods are effective for reducing stands when they are used persistently.

But the newest, cheapest and most effective method for Johnsongrass control is spot-spraying. This practice was introduced by the Texas Agricultural Experiment Station in 1954 and was immediately popular as a supplement to cultural practices, particularly for scattered infestations in cotton.

Spot-spraying was used on 89,491 acres of infested cotton land in 133 Texas counties in 1956. Subsequent progress by the Texas Station has increased the efficiency of the practice and extended its use.

The Texas agricultural Experiment Station and Texas Agricultural Extension Service recently released a bulletin entitled "Spot-spraying Johnsongrass." The author is H. E. Rea, associate professor, Department of Agronomy, Texas A&M College.

This 14-page publication is loaded with information on Johnsongrass, effect of farming practices, chemicals for spot-spraying, spot-sprayers and cost of spot-spraying.

The bulletin can be very helpful to anyone confronted with Johnsongrass. It can be obtained from local county agents or from the Agricultural Information Office, College Station, Texas. Ask for Bulletin 902.

Mr. and Mrs. Carl Arnsberg are here from Port Arthur for a visit with her mother, Mrs. Mary Chick.
