

## What Time Is It ?

by Olive White  
It is time the 97th Congress, now in its second session, stand up to its constitutional obligation to govern this nation.

The first session of the 97th Congress was so charmed by the actor from Hollywood that it gave him everything he wanted—which included the biggest tax cuts on the rich in the history of this nation.

Now we have heard the President's speech on the State of the Union, which ought to tell the Congress something of its own neglect of duty.

The Congress can start with some economy in its own budget. Last year the Congressional budget was \$1.4 billion. Each Congressman draws a salary of \$60,662 per year, with \$22,000 tax free. But this is only the beginning of benefits Congress has heaped on itself.

Here are a few: retirement benefits after five years service, low cost life insurance, emergency medical care, cut-rate meals, free mail service, and free long distance telephone service, free travel, and a large staff of helpers. Civilian employees of Congress now number 41,000 and a top aide gets \$53,254 a year.

Expense allowance for a senator range from \$592,608 to \$1,190,724 depending on population of his state. House members get \$336,384 for staff salaries.

When one adds up the benefits paid to congressmen by the taxpayers, one can see that the 535 members of Congress do not believe that economy begins at home. With high unemployment at home in their districts, with housing and auto and other industries in great trouble, and signs of depression on all sides, the voters of America should speak up in November 1982 when we elect the the 98th Congress.

The composition of the present Congress, party-wise, is as follows:

Senate:  
Republican-53 members;  
Democrat-46 members;  
Independent-one member.

House:

Republican-190 members;  
Democrat-242 members; vacant-three seats.

It is up to the American people in November to send a message to Congress that this nation needs dedicated men and women who will serve the welfare of all the people. The outworn ideology of a century ago is no longer appropriate to supply answers to our current problems.

This is a nation of people, not a collection of 50 sovereign states. It is time to think in terms of the 20th century.

## R.S.H.S. Class of 1932 to be Honored

The class of 1932 will be honored for the 50th graduating anniversary and also, all classes ending in 2. We sincerely hope the class of 1982 will be 100% present.

Members of the Class of 1932 were Jack Agnew, Lynn Alford, Rastus Bucy, Ray Nunnally, Lafayette Parker, Finney Patterson, James Kyle Pringle, Travis Roach, Clark Robertds (deceased), Charles Rutherford, O.E. Wilkerson,

(deceased), Polly Barnes, Juanita Claborn (deceased), Annie Mae Cox, Edwina Eberhart (deceased), Katie Lou Falls, Margie Foster, Elen Gray, Helen Gray, Willa Faye Hamilton, Maurine Harris, Maxine Lloyd, Eunice Mayfield, Naomi McBeth, Bernice McMillan (deceased), Genelle Pate, Joyce Pate, Virginia Watkins, and Agnes White.

### WORD of GOD

That is might be fulfilled which was spoken by E-sa'ias the prophet, saying,

The people which sat in darkness saw great light; and to them which sat in the region and shadow of death light is sprung up.

## Starbrites Entertain Birthday Crowd

Tuesday night, Feb. 23, The happy birthday party was attended by 47 smiling faces. Edith Bostic was the only club member with a February birthday. Special visitors celebrating birthdays were Arthur Smith, Snova Walker, Sue Vandivere (our honorary member), Curt Smith, Jeffrey Medley and Charles R. Newman. Charles and wife, Eva were visiting Delta Webb. We had an especially enjoyable evening.

The red roses and

red cloth on the table laden with two beautiful cakes along with sandwiches, chips and dips, added to a gay old time. The Starbrites were delighted when we were asked to play. Several also stayed and played 42. This was the largest crowd we had had in a while. I want to invite all the visitors back.

Thursday, Feb. 25 was a cold wet day but twenty three enjoyed a most delicious lunch together. If any of you over 55 need a day to relax with a change of

atmosphere, come on out and have lunch with us any Thursday. Thursday night the eleven who came to play 42 went home early because of the sleet and snow.

Friday nights trip to Cross Plains had to be called off on account of the cold weather.

Saturday, March 6, remember to bring baked goods, arts and crafts for our booth at the Fat Stock Show and Fair downtown at the old community building. Reporter

## Host Families Needed to Sponsor 60 French Teenagers

Host families are being sought for sixty students from France who will arrive in New Orleans on July 13 for a four-week visit. The program is sponsored by the North Atlantic Cultural Exchange League, a non-profit organization which has the official approval of the French government and is widely supported by French teachers in the United States and English teachers in France.

Participation in the program involves sharing your home with a French teenager from July 13 to August 14. The responsibility of host families is to warmly accept the French student as a member of the family and share

everyday activities. The program provides comprehensive medical, accident and liability insurance, and the individual participants bring their own spending money.

Teenagers of Texas and Arkansas host families will have the opportunity to live in a family in France the following summer if they wish.

As the value of international understanding is becoming more and more evident, the NACEL program offers opportunities for building better international understanding. It provides the opportunity for French students to experience the American lifestyle, develop greater skill in speaking English, and

establish lasting American friendships. It provides the American families an extraordinary opportunity to broaden their horizons and learn first-hand about the French way of life.

Students are individually matched to families according to interests, activities, and special requests (such as living on a ranch). Families are needed to host boys ages 13 to 19 and a few girls ages 15 to 18.

If you are interested in participating in the program, write to the NACEL coordinator for Arkansas and northern Texas: Mrs. Sue Kimbro, 2105 Wood Street, Texarkana, Tx. 75501, Ph: (214)794-8273.

## Beta Upsilon to Hear Senator Glasgow

Beta Upsilon Chapter of Delta Kappa Gamma International will meet Saturday, March 6, 1982, at 9:30 a.m. in the Eastland National Bank Building in Eastland, Texas.

Guest speaker, State Senator Bob Glasgow of Stephenville will have as his topic, "Legal Frontiers for Women," as he addresses the members of Beta Upsilon.

Elected in 1980 to represent the 22nd State Senatorial District, Senator Glasgow has been a staunch supporter of free public education and separation of church and state in education. Senator Glasgow served as District Attorney of Erath County before being elected to the Senate.

## Masonic 266 Honored by OES Chapter

Rising Star Chapter 277, Order of the Eastern Star honored members and families of Masonic Lodge 266 with an evening get together in the fellowship hall Feb. 22. This was the birthdate of George Washington, our first president, who was a member and leader in the Masonic Lodge of early America.

The local group was welcomed by Claudia Mae Gardner, Worthy Matron, and Harold L. Evans, Worthy Patron. The response was made by W.E. Gardner, Worshipful Master of Rising Star Masons. A.P. Smith gave the invocation.

Plans were made to attend and help with O.E.S. School in Eastland March 9th. All were urged to be there.

Harold L. Evans explained improvements to be made on Lodge Hall beginning this week.

All present enjoyed fun, fellowship and an abundance of good food.

Ruby Daniels of Centennial Chapter 842 in Waco was a welcome visitor. Others attending were: Mr. and Mrs. Wilson H. Carleton, Mr. and Mrs. Doyle Lancaster, Mrs. Dixon Boggs, Grace Morrison, Mary Eakin, Bertha Mae White, Mr. and Mrs. F.L. Dean, H.H. Lawson, Leroy Laughlin, Mr. and Mrs. C.D. Avis Massey - Activity Director

Monday: News gathering day. Thanks to Lillie Alford for the large bag of fresh frozen peas donated to kitchen.

Tuesday: Bingo at 2 pm. numbers called by Buster Rixford. Martha Irby and Maggie Christian won 3 games each, Mary Hammett, Ora Clark won 2 games each and Estell Bolding won one game. Popcorn was enjoyed by all. We welcomed new resident, Thelma Kerby.

Wednesday: The First Baptist Church brought a lovely devotional at 11:30-12:00. Bro. Dick Williams was in charge. Della Roberts went to Brownwood Regional Hospital.

Thursday: Mr. Duensing donated quilt scraps.

Friday: The 2:00 Bible study was given by Olive Odom of the First Baptist Church of May. The lesson was God's promise of a son to Abraham and Sara in their old age. Special music was 'Open my Eyes,' sung by Bea Kelton with Cliffogene Witt at the piano. Also playing the piano were Bea Kelton and Dorothy Harris. Everyone is enjoying the study through the Bible.

Saturday: Sunday: Church service at 5:00 was in

charge of Leroy Sedwick; Ray Green was attending a funeral. A good number of residents attended.

Thanks to each of our wonderful volunteers for each of your smiles and each kind act--We love you for it.

### GREENBUGS

Gordon Woolam

Several aphids infest small grains. The greenbug is the major small grain pest. In most years, damaging populations develop throughout the area. However an individual producer may not need to apply control measures for greenbugs every year.

Greenbugs develop in large numbers under certain conditions and may cause economic losses. In some cases, entire fields of grain are lost. Greenbugs suck plant juices and inject toxins into small grain plants.

During the winter, infested fields may have yellowed spots preceding the appearance of small deadened areas. Later, greenbugs in these spots may increase and spread throughout the field. Greenbugs cause more damage when small grain crops suffer from deficient moisture during midwinter and cool spring.

The greenbug reproduces rapidly at temperatures between 55 and 95 degrees F. Its natural enemies, however, reproduce slowly when temperatures are below 65 degrees F. Thus, in cool weather the greenbug may increase to enormous numbers while its natural enemies multiply slowly. Greenbug damage may be confused with moisture stress and/or nitrogen deficiency.

The need for applying insecticide depends on the number of greenbugs present, size and vigor of plants, temperature, time of year, moisture conditions and stage of growth and presence of parasites and predators.

Treatment may be warranted when at least 100-300 greenbugs are found per linear foot when plants are 3-6 inches in height or

when 300-800 greenbugs per linear foot of 6-18 inch plants are found. The appearance of dead plants caused by greenbugs feeding in spots within the field may also indicate a need for treatment.

Greenbug control is more effective when temperature is above 50 degrees F. Use higher recommended rates when temperature is below 65 degrees F. The chemicals most commonly recommended for greenbug control are Cygon®, DeFend®, D-Syston®, Malathion or Parathion. Be sure to check label for grazing and harvesting restrictions.

### Perfect 30-Minute Tuna Casserole

Every day, millions of Americans eat tuna fish in sandwiches, salads or casseroles. In a year, the average person eats nearly two and a half pounds of tuna.

But it was not always so. Until World War I, tuna

fish was a treat for those lucky ones who could find it fresh at the dock or a fish market.

In 1917 as America organized all resources to support its war effort, meat became scarce. The resourceful Cali-

fornia sardine canneries introduced canned tuna fish to American menus. Since then it has become a staple for favorite family casseroles.

One of the most famous of these is Perfect Tuna Casserole developed at the Campbell Soup Company's Creative Food Center. It combines smooth cream of celery or mushroom soup with canned tuna, sliced hard-cooked eggs and a vegetable, usually peas. One reason this has remained so popular is that it is so easy for busy cooks to assemble and bakes in just a half hour. Crispy potato chips add refreshing crunchiness to the creamy sauce.

#### Perfect Tuna Casserole

- 1 can (10 3/4 ounces) condensed Cream of Celery or Mushroom Soup
  - 1/4 cup milk
  - 1 can (about 7 ounces) tuna, drained and flaked
  - 2 hard-cooked eggs, sliced
  - 1 cup cooked peas
  - 1/2 cup slightly crumbled potato chips
- In 1-quart casserole, combine soup and milk; stir in tuna, eggs and peas. Bake at 350°F. for 25 minutes or until hot; stir. Top with chips; bake 5 minutes more. Makes about 4 cups, 4 servings.

Perfect Tuna Casserole is an all-time American favorite.

**FIRST UNITED METHODIST CHURCH**

**METHODIST MINUTES**

There is a condition today which has a most terrifying effect on individuals and families. In fact, this condition actually cripples more people, preventing them from living fruitful lives, than perhaps any other condition or disease. The condition is anxiety or worry.

God has provided for our peaceful existence in this world. Those of us who stand on God's word know this to be a fact and wish to share this knowledge. In the First book of Peter, chapter 5, verse 7, we find these words: "Cast all your anxieties on him, for he cares about you."

What is suggested is that we place our burdens, our cares, our worries on God and allow him to work in them. Paul tells us that: "In all things God works for good for them that love him and are called according to his purpose." (Romans 8:28) But God can only work in our worries if we give them to him.

Herein is strength to face each day. Let us

join together and place each day into God's hand and live in his peace.

If you are not currently active in a local church, join us in worship and study next Sunday. Sunday School at 9:45 am, Worship at 11 am, Evening Worship at 5:30 pm and Youth Fellowship at 6:30 pm. Also we have a family night on the fourth Sunday night each month. The Methodist Church, a church on the move. Lewis Wilkerson

**First Baptist Church**

Michael Guido tells the story of how a bee once flew into a car. The young boy riding with his father became hysterical because he knew a sting might mean his death.

The father caught the bee in his hand, and the boy relaxed. But he became frantic when the bee began to fly again. "Don't be afraid," said the father. "The bee has only one sting. When it stung me, it left its sting in me. Now it can't sting you."

When Christ died for us on the cross, death left its sting in Him. Now it can't hurt a believer. Dying is the last thing I'm going to do, and my faith in the lord has canceled my fear of death.

The Apostle Paul speaks of this sting in I Corinthians 15:55-57, "O death, where is thy sting?...the sting of death is sin....But thanks be to God, who giveth us the victory through our Lord Jesus Christ." R.D. Williams

**Commentary**

And Jesus answering said, A certain man went down from Jerusalem to Jericho, and fell among thieves, which stripped him of his raiment, and wounded him, and departed, leaving him half dead. And by chance there came down a certain priest that way: and when he saw him, he passed by on the other side. And likewise a Levite, when he was at the place, came and looked on him, and passed by on the other side. But a certain Samaritan, as he journeyed, came where he was: and when he saw him, he had compassion on him, and went to him,

and bound up his wounds, pouring in oil and wine, and set him on his own beast, and brought him to an inn, and took care of him. And on the morrow when he departed, he took out two pence, and gave them to the host, and said unto him, take care of him; and whatsoever thou spendest more, when I come again, I will repay thee. Which now of these three, thinkest thou, was neighbor unto him that fell among the thieves? And he said, he that showed mercy on him. Then said Jesus unto them, Go, and do thou likewise. (Luke 19:30-37).

**Stars of Future 4-H Club Convened March 1st**

The Stars of the Future 4-H Club from Rising Star met Monday, March 1, at 3:15 pm in the Ag-Shop Classroom. Christy Gentry, County Agent from Eastland, presented the program on Method Demonstrations and Illustrated Talks. She encouraged each member to consider doing a demonstration or talk for the County Round-up, April 1. Thanks, Christy, for preparing this good program for our club.

Members were reminded of the local livestock show and fair Saturday, March 6. Entries in the fair will be accepted until 9:00 am Saturday. Livestock is to be in stalls by 9:30 am. We sure would like to see all members enter at least one division. Let's take this opportunity to show our community what 4-H'ers can do.

**Letters To The Editor**

You have set us to thinking about a "spring-time" clean-up, in our home town. To many of us, this spot on the Texas map is "sacred ground". Because I am a late-comer to Rising Star, and my roots were not earlier put down here, it might be thought that I would not have the genuine interest which others display. However, because Rising Star has been our home some 18 years, I count myself an "adopted daughter", and am deeply grateful for that honor and privilege.

There is always something which could, and should, be done to make and keep our town more attractive. A great deal of that effort must begin at the individual home. Speaking for myself, this is a tremendous task, and un-ending. Nevertheless, the enormity of the job should not deter us from the effort. In fact, do we have any choice?

Let us envision this area as it was when the first settlers arrived. Scrub oak, lush meadow grasses and water holes were plentiful, wild game much in evidence, and the climate favorable. These were ideal conditions for the birth and growth of a settlement, here. When those hardy folks came

westward, with a new homesite in mind, they seemed to have known immediately this spot in Texas was ideal for the fulfillment of their dreams.

So it was, they halted their oxen and unloaded their wagons on this spot. They quickly set to work, clearing land for houses and garden spots. The settlers made good use of all resources--wasting nothing. The fine oaks were used in building their log cabins and crude furniture; the water-holes in nearby streams provided their first water. There was never a lack of meat on their newly-constructed-tables, for wild turkeys, deer, doves and quail were plentiful-right at the very doors. Streams were naturally stocked with fine fresh-water-fish. Buffalo and, even occasionally bear were nearby.

It was hard work, establishing a settlement here, in this unclaimed and rugged land. But, our ancestors had come seeking an ideal home place--not a place to avoid work! They approached this land with gratitude in their hearts, and a determination to develop homes in this wonderful place. When we consider the hard work and sacrifices of those who came before us,

what, then, should we feel concerning our part in the up-keep? Do we, in fact, have any choice?

In the year 1976, we observed our nation's Bi-centennial with great joy, enthusiasm and thanksgiving. We were reminded of the extreme effort and sacrificial love expended in building a nation on these shores. We who live here, today, have "fallen heirs" to this home land made possible by their love and labors. It, however, is a rule of nature that with every great gift comes, simultaneously, a great responsibility. Shall we keep and maintain the beauty, the charm, of our own home spot? Do we have a choice?

We are told in Holy Writ, "In the beginning God created the heaven and the earth.--And God saw everything that he had made, and behold, it was very good". (Gen. chapter 1.) In looking back to the origin of all things, we discover that no one made his own home spot. It was a gift from the Creator. Each of us is a steward of his own portion. The way in which the whole is preserved is the same, the world over. I am responsible for my spot, while you are

responsible for yours. I must not fail in that stewardship, nor should you. Do we have any choice?

Yes, I love this spot where Charlie and I make our home. I am deeply grateful to the lovely people of this town who have made us feel at home. We have always felt we could work in co-operation with them in preserving, maintaining and increasing the attractiveness of Rising Star.

Having looked back into history, let us, now, send our thoughts forward into the future. I wonder--when our children, our grandchildren and great grandchildren come to claim Rising Star as their own, will they find it the place of beauty and utility which we have enjoyed? Will we have kept and improved this portion for which we are responsible? Or, will we have allowed its deterioration, by neglect? Do We REALLY HAVE ANY CHOICE?

Thank you for letting me "sound-off". I love you! Elizabeth Chamberlain

during World Wars I or II are eligible for Veterans Administration health care on the same basis as U.S. veterans after 10 years of American citizenship. Documentation of such service should be obtained from France's Ministry of Defense or the British War Office.

Proposed legislation will be introduced in Congress in 1982 to restore the government's basic burial allowance to all honorably discharged war veterans and increase the amount to \$400. A law that took effect Oct. 1, 1981, limits the burial allowance, now at \$300, to veterans receiving disability compensation or pension at time of death, denying this benefit to nine-tenths of those vets formerly eligible.

Another bill to be submitted this year will seek wider eligibility for admission to nursing homes at government expense for veterans of World War I and Mexican Border service. Write to your Congressman for further details.

Veterans can get more information and assistance from any American Legion Post or Veterans Administration Office. — Jack Flynt, National Commander.

According to a recent broadcast sponsored by the Columbia-Presbyterian Medical Center and The Prudential Insurance Company, millions of Americans experience some form of food poisoning every year.

Dr. Edmund Zottola, a food microbiologist at the University of Minnesota, notes that many victims of food poisoning mistake their illness as intestinal flu. "The symptoms of food poisoning, such as vomiting, diarrhea, slight fever and retching are very mild to somewhat severe,

and bear a distinct similarity to symptoms associated with intestinal "influenza," said Dr. Zottola.

According to Dr. Zottola, the incidence of food poisoning can be minimized by applying care and common sense in food handling and storage.

"Some foods are more susceptible to contamination than others," said Dr. Zottola. "Intimate foods, those that are prepared with a lot of hand labor, are those that usually cause problems."

Those foods can become contaminated during preparation if handled by someone who has an infected cut or sore on the hand. Dr. Zottola indicates that most cases of food poisoning can be traced back to faulty preparation or improper storage after the food is prepared.

Dr. Zottola recommends that cold foods, such as salads, be kept at temperatures below 45 degrees Fahrenheit. Food to be served warm "must be kept hot to prevent the growth of undesirable microorganisms," warned Dr. Zottola. "A temperature above 150 degrees Fahrenheit is recommended."

**Supreme Court refuses to hear energy firm's case**

State Comptroller Bob Bullock said Wednesday that the U.S. Supreme Court's refusal to hear a Dallas energy firm's appeal involving state franchise tax releases \$11 million in tax receipts to the state's General Fund.

These taxes had been paid under protest pending final resolution of the case brought by Enserch Corporation of Dallas.

"The wheels of justice have been chewing on this case for nearly seven years," Bullock said, "and now the court has agreed with us."

Bullock said the state had maintained that sales by gas production companies to pipeline companies made inside Texas should be included in calculations of the companies' Texas franchise taxes.

Enserch and 16 other companies had argued that pipeline sales with gas ultimately destined for customers outside the state should be considered sales in interstate commerce and not be used in figuring the Texas tax due.

Bullock sought an Attorney General's opinion on the issue shortly after taking office in January 1975. On July 14, 1975, the Attorney General ruled that the companies' franchise taxes should be figured including the pipeline sales as Texas business. Bullock collected the taxes accordingly.

The Supreme Court's refusal to hear the Enserch case Monday effective settled the issue in the state's favor.

Thursday,  
March 4, 1982

The well will produce from an interval 2,643 to 2,648 feet into the wellbore. Total drilling depth was 2,981 feet.

Located six miles southwest of Grafrod, Wes-Mor Drilling Inc. has finalized another new gas producer in Palo Pinto County's Palo Pinto Regular Field.

The well is designated as the No. 5 Jones, producing gas at the rate of 100,000 CF per day on a .500 choke. Absolute open flow estimated at 120,000 CFPD.

Location is in a 406-acre lease in the Thomas Harrell Survey-A-236. Bottomed at 2,900 feet, the well will produce from perforations 2,806 to 2,812 feet into the hole.

The No. 1 T. Mathis was finaled by Quest Petroleum of Abilene. It is a gas developmental well in the J.V.T. Field, three miles east of Palo Pinto. Drillsite is in a 155-acre lease in Palo Pinto County's T&PRR County Survey.

Daily potential of 301,000 CF was posted with the Railroad Commission. The well went to a 4,399-ft. bottom, and top of pay zone was logged at 3,976 feet. Production will be from perforations 3,976 to 3,981 feet into the wellbore.

A 4,605-ft. wildcat is planned by Prime Energy-Grafrod of Abilene at a drillsite seven miles northwest of Grafrod, Palo Pinto County. The location is in a 213-acre lease in the TE&L Survey-A-536. Well's designation is the No. 3 Lillie Humphries.

# Child Abuse Can Be Curtailed

Child abuse and neglect can be curtailed or prevented by citizens building a network of services to help families in distress, the chairman of the Eastland County Child Welfare Boards said this week.

"We can help parents learn how to discipline their children without injuring them," said Mrs. Ernest Reich of Cisco.

"Where local communities support a wide range of family services, child abuse can be reduced. And, there's a bonus in keeping an abused youngster from repeating the cycle of abuse when the child grows up and becomes a parent," Mrs. Reich said at a Board meeting Monday to plan the 50th anniversary of 1982 of the beginning of child protective services in Texas.

Today, more than 1,800 Texans on 172 county boards offer time and service to protect children from abuse and neglect in partnership with the Texas Department of Human Resources. Mrs. Reich noted that the likelihood for abuse or neglect goes up in families

under great stress from financial difficulties, marital discord, social isolation, or poor health.

"Something as simple as talking to a neighborhood father who has lost his job can defuse the frustration and guilt that otherwise might be taken out on the children," she said. She said an old fashioned concern for neighbors could go a long way toward helping families cope with modern stresses that are related to many abuse cases.

"Admittedly, such informal action aren't enough to help some families who need comprehensive therapeutic services," she said. "Even in those families, however, Texans can play a supportive role in programs to protect children."

Texans who want to do more to prevent child abuse and neglect usually find that an effective approach to serve as a volunteer, or involved citizen, by working with the Department of Human Resources, the county child welfare board, or through a church or civic group.

Ways to get involved:

1. Most importantly, report suspected instances of child abuse, neglect, or exploitation by calling the toll-free Child Abuse Hotline at 1-800-252-5400. It's answered day and night, seven days a week, and callers are not required to give their names.

2. Join an organization that offers caring attention to family groups suffering from frustration and isolation.

3. Increase your knowledge and understanding of child maltreatment, its causes and cures. Local libraries carry books and professional journals that discuss the subject.

4. Contact a local government agency that deals with child abuse and offer your help as a volunteer.

5. Guide a group in which you are active, such as an athletic team, neighborhood group, or church assembly, into doing something to help stem the incidence of child maltreatment in your community.

6. Assist your schools and churches in developing programs and audiences for basic education about child

rearing, parent training, and subjects dealing with human development.

7. Volunteer your time to troubled parents, "adpnt" a family in trouble, become a parent aide to mothers who are young and inexperienced in raising children, help recruit foster parents and adoptive parents, and reach out to neighbors having problems.

How to get involved: Contact a member of your county's child welfare board or the citizen involvement office in the nearest DHR office.

Serving with Mrs. Reich on the Eastland County Board are Mrs. Virgil Seaberry, Mrs. Mack Stubblefield, H.V. O'Brien, Durel Reid, Judge Scott Bailey, Jim Lehrman, Branda Hodges and Dr. R.B. Golemon.

Gail Jennings is Child Placement Worker with the Texas Department of Human Resources here, and she reports that there were 17 Hot Line Reports on possible child abuse in Eastland County during 1981.

One Hundred and ten children died as the result of child abuse in the State of Texas last year.

# Farm Program Signup Underway

We will begin accepting applications for the 1982 farm programs on February 16, James Chessir, Chairman of the Eastland County Agricultural Stabilization and Conservation Committee, said. Secretary of Agriculture John Block recently announced acreage reduction programs for wheat, corn, grain sorghum, barley, oats, rice and upland cotton.

To be eligible for loans and target price protection farmers must sign up and comply with the acreage reduction program requirements, Chessir said.

For reducing their wheat acres by 15 percent, farmers will be eligible for the \$4.05 per bushel 1982 target price for wheat, a regular loan rate of \$3.55 per bushel, and a grain reserve loan rate of \$4.00 a bushel.

Farmers who reduce their feed grain acreage by 10 percent will receive federal target prices of \$2.70 per bushel for corn; \$2.60 for sorghum and barley and \$1.50 per bushel for oats. They

will also be eligible for loan rates of \$2.55 per bushel for corn, \$2.42 for sorghum, \$2.08 for barley and \$1.31 per bushel for oats.

According to Chessir, 1982 wheat and feed grains will be eligible for immediate entry in the farmer-owned grain reserve. Feed grain reserve loan rates are \$2.90 a bushel for corn, \$2.75 for sorghum, \$2.37 for barley and \$1.49 per bushel for oats.

The upland cotton program offers farmers a target price of 71 cents per pound and a loan rate of 57.08 cents per pound for reducing their cotton acres by 15 percent. Farmers who reduce their rice acres by 15 percent will be eligible for target price protection of \$10.85 per hundredweight and loans at \$8.14 per hundredweight.

Participation in the 1982 farm programs is voluntary. However, only those farmers who take part in the program will be eligible for benefits, the ASCS official said. The sign up period ends April 16.

WHERE'S AMERICA HEADED? - Stagehands at Six Flags Over Texas are moving huge letters into the theme park's Southern Palace Theater where they will be part of the backdrop of a musical production called, "America." The show, which will be seen by more than a million people during 1982, will premiere March 6, when the Arlington entertainment center begins its new season.

## Six Flags Over Texas To Begin 1982 Season

The first sign of spring in the southwest, the opening of Six Flags Over Texas for its 22nd season, is scheduled for March 6.

The Arlington themepark will be open only on weekends until May 22, when daily operation for the summer months begins. The only exception will be the

traditional spring break period, when the park will be open daily from March 13 until March 21.

Highlighting the new season's start will be the premiere of the most elaborate musical production in the park's history. The show, called "America," will be staged in the Southern

Palace Theater.

Early visitors will see a major, new ride, the Texas Cliffhanger, nearing completion. The 2.1 million dollar attraction is scheduled to open in late April. It is billed as the world's first total freefall ride, dropping thrillseekers, four at a time, from the top of a 128-foot-tall tower.

## Public Is Not Aware Of Costs

The public generally is not aware of the low cost of administering the Social Security programs, Glyn Hammons, Social Security district manager in Abilene, said recently.

In a recent public opinion poll, most of those questioned estimated the administrative costs of Social Security to be more than 50 percent of the amount paid out in benefits, while only 6 percent said the costs were less than 20 percent.

"As a matter of fact," Hammons said, "for every dollar paid in benefits, less than one and a half cents is spent for administrative expenses."

This is a noteworthy accomplishment that has not been given much publicity.

The cost of administering the Social Security programs includes charges by the Treasury Department for the collection of Social Security taxes, writing checks, and managing the trust funds' investments, as well as the expenses incurred by State agencies in helping administer the disability insurance program.

"Under the law, income to the Social Security programs can be used for the payment of benefits and for administrative expenses. Income not currently needed must

be invested in interest-bearing U.S. Government securities.

"The public can rest assured that by far the bulk of the money going into the Social Security trust funds is being used for the payment of benefits, with less than 1.5% going to pay the costs of administration."

More information about Social Security financing can be obtained at the Abilene Social Security office at 142 S. Pioneer. The telephone number is 698-1360. A toll free number 1-800-392-1603 is available for those living outside Abilene.

"I thought it was out."

## Drugs In County Is Serious Crime

The drug traffic in Eastland County is our most serious crime problem, County Criminal District Attorney Emory Walton said this week.

"Three Eastland County young men, all under 21, are presently at the Vernon Drug Center for treatment," he said, "and we're in the process of sending a 14-year-old junior high school student there for treatment."

The availability of drugs in the county is widespread, and in advising the concerned public, D.A. Walton said that the general public needs to realize that there is a problem, and to keep their eyes open for information which can be passed on to his office and/or law enforcement officials so that arrests can be made and the pushers stopped.

"And now that the county is busy with the oil industry and other assorted industrial growth, we're now into 'the big money' crime," Walton explained. "Right now we're investigating a \$20,000 embezzlement, a \$50,000 theft, an oil field theft of \$210,000 and another one for \$200,000."

Add to that the some 20 to 30 DWIs we file a month from the some 40 miles of Int. 20 across the county, and you can know that the courthouse is busy.

Walton's office is responsible for prosecution in the 91st District Court, County Court where misdemeanors are handled and five justice of the peace courts. In addition to these he works with the various state agencies including the Department of Human

Resources (primarily with child abuse and neglect cases) and the Department of Public Safety and Department of Health.

"I don't handle any private practice cases," he said, "but I sure get involved in divorce problems, primarily with helping keep child support payments coming to help children."

"A young mother, making minimum wage, with as many as three children, and no support from an oil-field working ex-husband can be a pitiful sight," he said, and we try to see that the youngsters are taken care of.

And then of course there's the "run-of-the-mill" counseling and helping those who need advice on legal matters, and the D.A.'s office is also official legal counsel to the County Commissioners Court as well as each of the county officials in legal matters.

In 1981, the District Court collected some \$33,000 in fines; the county court, \$4,700; with 537 cases filed in 91st; and 52 in county. We disposed of 735 cases in 91st District Court last year.

Walton recalled that the recent Grand Jury investigated the drug problem and called for special help, and he emphasized that the law enforcement authorities "need your help" in helping control illegal drug use.

"Crime in Eastland County was up 20 percent in 1980 over 1979," he said, "I don't know what the local figures are going to show for '82 over '81, but they won't be good."

Persons who are unaware that they are lying, even when in fact they are, cannot be caught by a lie detector.

## Official Memorandum

By  
WILLIAM P. CLEMENTS, JR.  
Governor of Texas

### GREETINGS:

The people of Texas want all children to grow up without undue want or fear and to have a family environment that provides them security, love and protection.

Child abuse and neglect continues to be a problem for some children in the State of Texas. The formation of the first County Child Welfare Board in 1932 was a positive step in resolving this problem by local citizens. The Texas Legislature authorized the establishing of these boards when it created the Division of Child Welfare in 1931.

At present, there are 172 County Child Welfare Boards operating in the State of Texas in liaison with and support of the Child Protective Services work of the Texas Department of Human Resources. This involves more than a thousand Texans who volunteer their time and services to assist children in need.

The Texas Council of Child Welfare Boards, its affiliate Regional Councils and County Child Welfare Boards have undertaken to create greater public awareness of the needs of abused and neglected children and how this tragic problem might be eliminated.

THEREFORE, I, as Governor of Texas, do hereby call attention to the observance of 1982 as A YEAR OF CONCERN BY TEXANS FOR ABUSED AND NEGLECTED CHILDREN by the Texas Council of Child Welfare Boards, its affiliate Regional Councils and County Child Welfare Boards and urge all state and local officials, public and voluntary agencies and private groups to give special awareness to the needs of and work to improve services and care for abused and neglected children and their families.

In official recognition whereof, I hereby affix my signature this 4th day of Feb., 1982

W.P. Clements, Jr.  
Governor of Texas

## Joyce Baker Named To Lead Bike-A-Thon

### WHEELS TURN FOR CHILDREN'S LIVES

Wheels are turning to help save children's lives...St. Jude Children's Research Hospital is proud to announce that Joyce Baker has been named to lead the 1982 Spring BIKE-A-THON in Rising Star, Texas.

Clifford Damstrom, St. Jude Director of the Southwest Region, stated that "we are extremely proud to find such dedicated people for this very important job."

"St. Jude Children's Research Hospital is the largest childhood cancer research center in the United States, and it is the first research center dedicated exclusively to the research and conquest of catastrophic diseases of children, such as cancer and other life-threatening diseases," Damstrom stated. "When St. Jude accepted its first patient in 1962, the survival rate for children diagnosed with acute lymphocytic was less than 5%. Today, the disease free survival

figure for children has grown to over 50%. Cancer treatment procedures that

originated at St. Jude are now being used to treat children throughout the United States and in other parts of the world. Such progress has brought world-wide acclaim to St. Jude."

"Children come to St. Jude for one purpose: A CHANCE TO LIVE!," Damstrom stated. With the wheels turning in this Bike-A-Thon, you will be making it possible for these children to have a chance to live! You will make it possible for daily treatments to continue. You will enable basic research into the cause and cure for cancer to continue. MAKE YOUR WHEELS TURN IN THIS BIKE-A-THON!

Danny Thomas, who founded St. Jude Children's Research Hospital because of a vow, stated its purpose clearly: "To wipe catastrophic diseases of children from the face of the Earth."

"Since Thomas opened the research center in 1962, his dream of conquering cancer and other diseases that destroy our children has been brought closer to reality," stated Damstrom. "Thomas is still extremely active in pursuing this goal, and he inspires all of us in this cause."

March 2 is Texas Flag Day. Over 10,000 flags are expected to be flying for this official Texas Heritage Day.

Around Texas, organizations and individuals are taking this opportunity to pay tribute to their state and its flag by flying the "Lone Star" on their homes and public buildings. Local activities will include flag raisings, proclamations by mayors and county judges, speeches and special programs by service clubs, historic organizations and patriotic groups.

The Texas Flag was adopted in 1839 as the official standard of the Republic. It became the state flag after the Treaty of Annexation was signed in 1845.

There were several designs for a national flag prior to 1839, but each of them incorporated a single star. The star signifies that Texas was alone in the Mexican Confederation and that the star of liberty was rising.

This gave Texas its nickname, "The Lone Star State"

Texas Flag Day is a Texas Heritage Project of the Texas Historical Foundation. For more information about this and other programs, contact the Texas Historical Foundation, P.O. Box 12243, Austin, Tx. 78711, 512-472-6784.
