British Immigration Policy Upsets Partition Time-Table

LAKE SUCCESS, Jan. 22 (AP)—Britain's refusal to give the Jews a beach-head in Palestine by February 1 for "substantial immigration" disrupted today the time-table laid down by the United Nations assembly for the partition of the Holy Land.

Green Urges More Work To Hit Inflation

Thinks 45 Hour Week Would Help Spur Production

WASHINGTON, Jan. 22. (AP) — AFL President William Green proposed today management and labor voluntarily set up a 45-hour work week on an overtime pay basis as a means of producing more goods and helping to beat inflation.

The 74-year-old labor leader told the Senate Banking committee that labor would consider the extra work hours if Congress, in turn, would approve an effective means for halting the price spiral.

Something New In Women's Hats

PARIS, Jan. 22 (AP)—Women's hats are going to have the new look too—something like pancake or a subdued mushroom.

The new models, French designers say, are intended to go with the longer dresses now being worn. They also will necessitate a new hair-do—featuring an upweep and bangs.

The year's first new collection of spring hats was shown last night by Gilbert Orsel, one of this fashion capital's leading millinery designers. The preferred shape was pancake, which in some models was puffed up a little so that it resembled a somewhat tired toast-stool. Cloche and toque shapes also were featured.

An impressive number of American buyers at the showing said they were delighted—which may mean that the new hats will sweep the United States as completely as did the new look in dresses. And the new hair-do will have to be an integral part of this hat revolution.

The back-of-the-head hat appears to be a thing of the past. Models

JESTER STARTS SECOND YEAR

Texas' Accomplishments Are Reviewed

AUSTIN, Jan. 22 (P)—Beauford H. Jester has started his second year as governor after radio-cataloguing for Texans accomplishments of the state government during the first year of his administration.

In a report to the people broadcast over half a dozen radio stations last night, Jester noted that the legislature "very graciously"

enacted into law 21 of the 27 recommendations he made to it in his message, nearly a year ago.

After listing forward steps taken during the past year, he emphasized a familiar note:

"All these things which I have reported to you were accomplished without imposing additional taxes upon our people."

Among the accomplishments of his first year in office, Jester emphasized these:

Provision for the largest appropriation for public school education and teachers' salaries in the history of Texas, and appointment of a commission (the Gilmer-Aikin committee) to make a long range study of all public school problems, including future financing.

Efforts to protect the public schools' billion dollar interest in the tidelands by securing Federal legislation giving title to Texas and other states.

Doubling of the appropriations for eleemosynary institutions; the opening of two new hospitals for tuberculosis patients; establishment of a new home and school for feeble-minded children and senile women; establishment of the Brady correctional institution for Negro girls.

Close attention to prison problems, with increased appropriations and administrative changes, and appointment of a commission to study juvenile delinquency and the training school set-up.

Detailed checking of all clemency applications, notification of local law enforcement officers of clemencies pending for persons convicted in their areas, and tightening of restrictions on restorations of operator's licenses for persons con-

victed of driving while intoxicated.

Promotion of highway safety through study in conferences, adoption of the uniform traffic code, addition of 200 highway patrolmen.

Road contracts awards totalling 70 million dollars and plans for bringing farm-to-market road mileage up to 7,500.

Raising to the constitutional limit old age assistance, aid for the needy blind and dependent children.

Development of a disaster relief plan; fire prevention emphasis; reorganization of the National Guard and creation of the state guard reserve as a backlog of home security in case the National Guard is called into Federal service.

Statewide hospital need survey, with provision for 800 new hospital beds in rural areas.

Encouragement of water resource studies and water conservation; permanent organization of the good neighbor commission; a new approach to the problem of redistricting the state.

Elected Commandant Of Marine League

DALLAS, Jan. 22 (P)—Judge Robert A. Hall of Dallas was elected commandant of a Texas state department for the Marine Corps league at an organization meeting here last night.

Until now Texas' 17 detachments of the league have operated separately.

Roy Dupriet of Waco was elected senior vice commandant and Jack Jordan, of San Angelo, judge advocate.

Heads Soil Board

DEL RIO, Jan. 22 (P)—Horace K. Fawcett of Del Rio was elected chairman of the state soil conservation board at a meeting here yesterday.

Beef Production Moves In Cycle

WASHINGTON — Cattle experts say America's beef production "factory" is operating at its greatest efficiency.

These experts of the Department of Agriculture say the number of beef cows and heifer calves—the producers of beef—is at a peak ratio compared with the total of all cattle on farms and ranches.

But beef production isn't meeting the demand because the cattle industry is in a declining cycle of production. This cycle of high and low production has existed for more than 40 years. The present declining cycle will last several years longer if it follows the pattern of those of the past.

R. H. Roberts of the Livestock Branch of the department, says two things primarily govern the marketing of beef:

1. The amount of available feed. If feed is plentiful a farmer may keep more of his cattle at home. If feed is scarce he is forced to market more of them.

2. The demand for beef. Increasing demand generally causes prices to rise. If the farmer has beef available he will market more than if the prices were low.

Here's how the cycle of marketing has operated:

Starting from a low point in 1912, the number of cattle on farms and ranches reached a peak of 74,000,000 animals in 1918—a six-year upswing.

Then there was a 10-year downswing. In 1928 there were 57,322,000 animals. But it took only six years to reach another high, in 1934, of 74,369,000 animals. Then, in four years, the cycle swung down to another low of 65,249,000.

The next upswing lasted seven years. On Jan. 1, 1945, the nation's herds were at the greatest peak in history, 87,573,000 head.

A downward trend set in, and by Jan. 1, 1947, there were 81,050,000 head. Statisticians predict the total

will be between 76,000,000 and 77,000,000 head when the 1948 count is completed.

Roberts says the two peaks that came during the last year of each of the two world wars were created because war builds a big demand for beef.

Cattlemen raise more cattle to meet this demand. Meanwhile prices rise and cause more cattle to be marketed. Thus herds are reduced.

After World War I cattle prices went from an average of \$21 a hundredweight to \$7 in 12 months during 1920-21.

Roberts says the cattle industry then was on a "steer production basis."

Between one half and three fourths of the herds were steers, male animals good for beef production only. Steers generally have to be sold when from two to three years old. Many go to cattle feeders, who fatten them with grain and sell them to the livestock markets.

After the first world war the cattlemen had to market their steers regardless of low prices.

Now, says Roberts, the cattle industry is on a "cow and calf" basis.

On Jan. 1, 1945, there were 16,456,000 beef cows in American herds, greatest number in history.

While the total number of cattle declined 4,523,000 from 1945 to 1947, the number of beef cows remained almost unchanged.

Farmers and ranchers aren't compelled to market these cows and their calves as promptly as they do steers. They may be held several years and used on farms and ranches to increase the size of herds.

"Thus the cattle industry now is more flexible," says Roberts. "The periods between the highs and lows can be shortened and the spread between peaks and valleys can be reduced."

The marketing of beef cattle last year reached an all-time high of 36,000,000 head.

The experts predict about 33,000,000 head will be slaughtered this year.

Beef production in 1947 was sufficient to provide every American with 70 pounds of beef. In 1948 it is expected 65 pounds will be available. This is less than was available during the war years but more than for any year between 1918 and 1942.

 England?
 United States?

The answer: The U. S.

We are better fed, better clothed, and have more automobiles, refrigerators, telephones, and radios per capita than any other country.

Why? One reason is the efficiency of the American farmer. In countries where farm production is low, the standard of living is low.

The American farmer represents only 2½ per cent of the world's farmers, yet he produces approximately 20 per cent of the world's food supply.

Steel production also is an accurate measure of living standards. America, with only 7 per cent of the world's population, produces 50 per cent of the world's steel.

SOIL CONSERVATION

Farmers Are Urged To Purchase Madrid Clover Seed Very Soon

Farmers who plan to plant Madrid Clover for a cover and soil building crop this spring are urged to get their seed as soon as possible. Frank Loveless, district supervisor in Zone III of the Martin-Howard Soil Conservation District stated this week.

This crop can be planted in February, Loveless said, and farmers should have their seed ready as soon as there is enough moisture to plant. The clover seed will need to be inoculated with "Nitrogen A" to insure a good growth of this crop and get maximum benefits to the land from organic matter and nitrogen added to the soil.

A 25-year planting of Hubam clover, another good soil building crop, that was made last November on the J. Y. Robb farm in the Lomax Soil Conservation group is making good growth. L. H. Batton, who is manager of the Robb place, reports.

Batton planted the clover in 48-inch rows, after inoculating the seed with "Nitrogen A" to improve the soil and provide a cover crop for protection against blowing. He is using cover and soil building crops as a part of the coordinated program of soil conservation measures on the Robb farm.

W. D. Miller, district cooperater whose farm is on the Gail road 10 miles north of Big Spring, will build about two miles of new terraces to complete the terracing needed on his cropland. Miller will also build up the terraces already on the land to make them wider

and higher. He is terracing his farm to hold all the water on the land and prevent washing as a part of his conservation program including also contour farming, crop residue management and cover and soil building crops.

Terrace construction started last week on the R. N. Adams farm in the Soash Soil Conservation group and the Nell Frazier farm two miles north and one mile west of Elbow. The farmers had the help of the SCS who laid out the

lines for the terraces. Tom Barber, cooperater with the district on his ranch at Coahoma, plans to construct about 6 1/2 miles of broad base terraces on his farm land this year. Lines for the terraces were run last week by the SCS and Barber will start construction as soon as equipment is available. He will build terraces to district size of 24 feet base width and 15 inches settled height.

Conservation plans were made out last week by Leland Wallace, J. R. Bond and A. M. Anderson. Wallace, who is cooperating with the district on his farm in the R-Bar Soil Conservation Group, completed a plan on 80 acres three miles north and one mile west of Coahoma and started putting up his land on the contour following guide lines run by the SCS. Bond and Anderson are building terraces on their farms as a part of their conservation program.

Claude Collins is fertilizing his pasture land on his Sterling County

Ranch near Sterling City. He is using superphosphate on several sites including bottomland, hillside and "divide" country to see if the fertilizer will increase the growth of grass and supply needed phosphorus to his livestock through the grasses grazed by them. Collins, who is interested in improving the soils and grasses on his ranches, is applying the superphosphate at different rates, from 100 lbs. per acre on up, to find out the most economical use of the fertilizer.

House Is Damaged By Short Circuit
A short circuit caused slight damage to electrical wiring in a residence at 205 North Austin St. at 10 p. m. Tuesday, the fire department reported. Occupants of the house, who were not identified, were out of town when the fire occurred.

New Suit To Contest Fishing License Law

AUSTIN, Jan. 22. (AP)—A second suit to test constitutionality of Texas' non-resident commercial fishing license law has been filed in the state Supreme Court. The Brownsville Shrimp company and others are seeking a review of lower court decisions upholding the law which slapped a \$2,500 annual license fee on non-resident commercial fishing boats and required boats to have been registered in Texas for 12 months before they may be sold \$3 resident licenses.

Labor Board Swamped

WASHINGTON, Jan. 22. (AP)—The National Labor Relations Board reported today it was swamped with a record-breaking total of 2,064 new cases during December.

Beaumont Legion Hits Jester Stand

BEAUMONT, Jan. 22. (AP)—The Beaumont American Legion post has unanimously adopted a resolution "condemning" Gov. Beauford H. Jester for his recent statement that it was "un-Texas" for World War II veterans to want bonuses. The resolution was adopted at a meeting Tuesday. It asked the governor if he thought it "un-Texas" for World War I veterans who collected bonuses.

Do FALSE TEETH

Rock, Slide or Slip? PASTEETH, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No sticky, soapy, pasty taste or feeling. PASTEETH is alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get PASTEETH at any drug store. Adv.

Judging Slated For Stock Show

Howard county 4-H club and FFA members were grooming lambs and capons this morning for competition in various premium classes. The 11th annual county livestock show moved toward the first judging events.

The lambs were to be inspected by the judge at 1 p. m. and capons were to be displayed later in the afternoon. A large majority of the entries represent 4-H club projects, with a few sheep and capons entries from FFA chapters of Coahoma and Big Spring.

W. I. Marshall, San Angelo, was to judge the events this afternoon. Beef steers, all fed by 4-H club members will be judged at 9 a. m. Friday by John C. Burns of Fort Worth.

As the show advanced this morning, officials of the Big Spring Junior chamber of commerce reported that plans were progressing for the club livestock sale scheduled for 7:30 p. m. Friday. Animals consigned to the sale will include ribbon winners in all divisions of the show. Capons will be offered to bidders for the first time in the event, and Jaycees said they were anxious for a large group of individual bidders to plan to purchase the birds. Although capons have not been included in previous sales, they represent probably the most attractive item on the sale list for individuals since they may be used as the main dish of an excellent Sunday dinner, the Jaycees pointed out.

The sale will be conducted at the show buildings, with Col. Walter Britton, College Station, as auctioneer.

Bovines, Odessa Are Favorites In Tournament

ODESSA, Jan. 22.—McCamey, Fort Stockton, Seminole and Roscoe drew first round byes but Big Spring and Odessa emerged as the teams to beat in the Odessa invitational tournament this weekend.

Big Spring is in the upper bracket of play, Odessa in the lower.

The Steers, leading in District 3AA standings at the present time, square away with Andrews at 3 o'clock Friday afternoon. If they win that one, the Big Springers clash with Fort Stockton at 8:30 p. m. Friday.

Odessa meets the tough Monahans aggregation at 4:15 Friday afternoon for the right to face Roscoe in the quarterfinals Friday night.

Other first round games pit Westbrook against Pecos at 12:30 p. m. Friday and Kermit against the Odessa B team at 1:45 p. m. Additional quarterfinal games match McCamey against the Westbrook-Pecos winner at 6 p. m. Friday and Seminole against the Kermit-Odessa B survivor at 7:15 p. m.

Semifinal games are booked for 9 a. m. and 10:15 a. m. Saturday while the championship finals go on at 9 o'clock Saturday night.

Tournament directors are Joe Coleman, A. V. Patterson, Julius Johnson and Bob Clark.

LOUSY JOB

CARLISLE, Pa., Jan. 22 (AP)—This intruder didn't give himself a ghost of a chance.

Not only did he pick a house where 11 state policemen were quartered, but in entering a window upset a stack of dishes and then fled leaving behind his jacket conveniently bearing his name and address. His name was not disclosed.

B'Spring Seeks South-Central Teachers' Meet

Big Spring has a bid in for the annual meeting of the south-central region of the National Classroom Teachers Association, Jo Hestand, president of the local unit, has announced.

On her return with other delegates from the regional session at Monroe, La., Miss Hestand said that Big Spring, Mineral Wells and Little Rock, Ark. were the only bidders for the parley, which likely will be held in March of 1949. Since Mineral Wells was host last year, she felt that Big Spring's chances were good when the executive board makes a site decision.

The meeting in Monroe developed the theme of "strengthening the moral fiber of the nation" and "developing a self-governing profession." Marie Ernst, Washington, D. C., national president was a speaker. Panel discussions developed the idea that teachers, faced with greater responsibility in the moral realm, must accept this through integration of moral values in almost every field of subject matter.

Making the trip from here were Miss Hestand, Mrs. Flossie Low, Mrs. Eleanor Hinkley and Mrs. Mary Boyvey.

Sharon Ridge Oilmen Form Organization

COLORADO CITY, Jan. 22.—Permanent organization of the Sharon Ridge Operators, Landowners, and Royalty association was completed here at a meeting Wednesday evening.

Approximately 75 members, plus guests, were on hand as guests of William Brookover and J. C. Bradley of Coltex refinery at the country club.

C. T. McLaughlin, who had been made temporary chairman at an initial organizational meeting in Snyder in November, was elected first president of the association. French Robertson, Abilene, was named first vice-president, and Harry Raliff, Colorado City, second vice-president. Roy Townsend, Big Spring, was among the 11 directors named.

Objects for the organization, set out in the constitution and by-laws adopted last night, was to promote interests of all component parts of the association in oilfield activities for the Sharon Ridge pool.

This area, marked by a discovery in southwest Seury county in 1936, produces from the 1,800-foot horizon and today has 432 producing wells in Seury and northwest Mitchell counties.

The group endorsed an Independent Petroleum Association of America resolution urging Congress to legislate against export of pipe and sanctioned the proposal of Harold Neely, Fort Worth, IPAA vice-president, for division of West Texas into three groups—Panhandle, West Texas, and Northwest Central Texas. Next session was set for February in Snyder.

The meeting followed a dinner during which Dr. Harry Logsdon and his band furnished music for delegates from Dallas, Snyder, Fort Worth, Abilene, Sweetwater, Big Spring, Midland, and Colorado City. Attending from Big Spring were Marvin Miller, Douglas Orme and George Grimes of Cosden and Roy Townsend and Bob Kountz.

Head Of Grocers' Group To Speak

Rufus G. Starnes, Abilene, president of the Texas Grocers association, is to speak at a meeting of grocery men set for 8 p. m. today in the Corral room of the Crawford hotel.

Starnes is coming here at the request of local food dealers who are interested in revitalizing the Big Spring organization, said O. R. Bolinger, secretary.

Discussions of the possibility of meat rationing and price controls are due to be heard during the evening. Bolinger said that all grocers were invited to attend the affair.

New Depot To Be Built At Midland

Midland is to get a new passenger depot, and bids are due to be advertised for the project this summer.

L. C. Porter, Dallas, assistant to the president of the T&P Railway company, told a joint meeting of the Midland city commission, zoning and planning boards and chamber of commerce officials that he hoped that construction would be pressed the latter part of this year.

He showed tentative sketches of the brick-faced structure which would be where the Baird street crossing now exists. With him R. J. Gammie, Dallas, chief engineer for T&P, George French, assistant division superintendent, and George L. Brooks, division general agent, both of Big Spring, Midland has been seeking a new terminal for the past seven years.

Woman Is Indicted In Grable Case

LOS ANGELES, Jan. 22 (AP)—Mrs. Jane Bean, 20, recently of Kaufman, was under Federal grand jury indictment today on charges that she sent extortion letters to Betty Grable demanding \$5,000 under threat to kidnap the actress' younger daughter, Jessica, eight months old.

Mrs. Bean was arrested Jan. 8 after FBI agents said a letter addressed to Miss Grable had been turned over to them by her studio.

TNG Is Supporting Armory Legislation

AUSTIN, Jan. 22 (AP)—The Texas National Guard is urging support of proposed Federal legislation appropriating \$50,000,000 a year for 10 years for armories throughout the nation.

In a statement issued yesterday, the guard said the state actually owns all or part of only four installations in Texas—Camp Mabry at Austin, Camp Wolters at Mineral Wells, Camp Hulien at Palacios and at Houston.

Banquet Ducats Are Going Fast

Tickets for the Lions club high school football banquet, which will be held at the Settles hotel Monday night, are still available but members of the sales committee insist they're going at a fast clip.

Only 300 of the ducats, priced at \$1.50 each, were printed and only that number will be allowed in the hall.

Principal speaker at the event will be Matty Bell, coach of the Southern Methodist university Mustangs, champions of the Southwest Conference the past season. Bell is bringing with him films of the SMU-Texas and SMU-TCU games.

Pastebords are available at Johnny Dibrrell's Sporting Goods Store, Hester's, at Cosden through Jack Smith and Dan Conley.

RELEASED ON BOND
Harry Dooley, indicted by the grand jury Tuesday for rape, has been released from the county jail on \$2,000 bond.

Given Sentence In Jewelry Case

Truman D. Henson, who admitted smashing a window at Nathan's Jewelry store the night of Jan. 12 and taking two watches, was sentenced to five years imprisonment in 70th district court proceedings Wednesday afternoon.

Henson was taken into custody by Night Patrolman Otto Appleton within an hour after he hastened from the scene of the burglary.

In another case brought before Judge Cecil C. Collings, Merle Lee Chaney and Charles V. Lee entered guilty pleas to charges of car theft and each drew a two year suspended sentence.

Chaney and Lee admitted stealing a vehicle belonging to Marvin Hayworth Jan. 9.

Folsom Gives Peace Offer To Newsmen

MONTGOMERY, Ala., Jan. 22 (AP)—Governor James E. Folsom offered today to re-admit daily newspaper reporters to his news conferences, but the Montgomery Advertiser-Journal said it would require its reporters to make a pledge the governor asked.

Folsom, who banned daily reporters on Jan. 7 after charging one had allowed a political opponent to see an advance copy of a radio speech, said the newsmen would be re-admitted to his conferences provided they make a pledge to "respect future confidences."

Assistant Publisher R. F. Hudson, Jr., of the Advertiser and Journal said his newsmen would not make the pledge. He declared: "They are intelligent, observant, honest x x x devoted to the ideals of all good newspapermen. Their pledge does not have to be spoken or put in writing for delivery into any man's hands."

"Furthermore," he added, "their talents are such that they can find and report the news without the governor's assistance. x x x"

Folsom's original ban on daily reporters applied to radio correspondents as well, but he lifted the radio ban the following day. At the time, the governor said he would admit only representatives of press associations and weekly newspapers to his conferences.

Hoover Urges Modification Of Aid Plan

WASHINGTON, Jan. 22 (AP)—The six-point "constructive modification" of the European recovery plan proposed by Herbert Hoover to separate "charity from business," brought pledges of careful study today from a trip of senators.

The former president declared in a letter to Chairman Vandenberg (R-Mich.) of the foreign relations committee that "we should help to the full extent which does not weaken our own economy." But he cautioned that "the only safe road for us is not to over-export."

Furthermore, Hoover said it would be "unwise" to make "even a moral commitment" to carry out the full four-year Marshall Plan program. And he suggested that the \$6,800,000,000 recommended outlay for the first 15 months of the plan be reduced.

Declaring that up to \$3,000,000,000 in food, coal, fertilizers and cotton might be extended as "gifts," Hoover proposed that Congress "define some general principles of distinction between gifts and loans."

To these and other suggestions, three members of the Foreign Relations group immediately promised "careful consideration." They are Senators Wiley (R-Wis.), George (D-Ga.) and Smith (R-N.J.). Vandenberg has made it a policy not to discuss any proposals made to the committee, and Senator Connally, the top Democrat, said he had no immediate comment.

Man Fined \$200 On Two Charges

Ed Cheek, booked on two counts, entered pleas of guilty and was fined \$200 and costs in county court this morning.

Cheek was arrested last week on a charge of carrying a slung-shot (black-jack). Last night he was taken into custody on a charge of unlawfully carrying a pistol.

In other cases cleared from the county court docket this morning, Sydney McLemore Alexander of Abilene and Lane D. Hughes, Big Spring, entered guilty pleas to charges of driving while under the influence of intoxicants.

Alexander was fined \$150 and costs while Hughes was hit with a \$75 fine. Each lost use of his driver's license for the ensuing six months.

Dentists Endorse School Program

Local dentists endorsed a proposed dental program for all school children in Howard county at a special meeting conducted Wednesday afternoon in the Settles hotel.

An outline of the program was presented by Dr. Ed Taylor, director of dental division of the State Health Department. The program is to be carried out with joint cooperation of local dentists, the State Health Department and school officials.

Wednesday's meeting was arranged by Dr. J. E. Sadler, director of the Midland-Ector-Howard county health unit.

TAXES An Accounting Problem

Income is determined by accounting. So, accounting is at the root of income taxation.

Naturally, business has always turned to Certified Public Accountants for aid in preparing its income tax reports, and for assistance in settling disputed tax items with the government.

The government, too, welcomes the aid of CPAs in explaining to taxpayers the accounting requirements involved as evidence by the fact that the Treasury Department authorizes CPAs to represent clients in tax proceedings.

By assisting in the prompt payment of the right amount of taxes — corporate or individual — Certified Public Accountants help to reduce the cost of paying — and collecting — the Nation's Taxes.

UT Business Research Man To Speak Here

Retail merchants will be making a double deal in a meeting set for 10 a. m. Friday at the Settles.

Called by the chamber of commerce retail committee, headed by Lewis Price, the meeting will feature the appearance of a representative from the bureau of business research of the University of Texas. He will explain the bureau's system of reporting which gives accurate, current information on community and state trends in business.

Also up for decision at the meeting will be business holidays for the year.

Among those suggested are May 31, as a new joint holiday honoring the dead of all wars; July 4, Independence Day; Sept. 8, Labor Day; Nov. 25, Thanksgiving; Dec. 25, Christmas; and, of course, Jan. 1 of 1949. This proposed schedule, subject to action of the group, eliminates the V-E, V-J and Armistice Day celebrations and combines them into one holiday on the traditional Memorial Day.

The bureau of business research is a branch of the university's school of business administration and is designed to be a gathering agency for factual information on economic trends throughout the state. To be included in the reporting service, a community must have about three dozen firms who send in a short monthly confidential report. In return, they each receive copies of the business review.

Jewish Militia Attacks Village

JERUSALEM, Jan. 22 (AP)—Hagana, Jewish militia, said it attacked the Arab village of Yazur and killed 12 Arabs today after seven Jewish settlement police were slain at a roadblock at the edge of town.

Yazur is about five miles south of Tel Aviv on the main road to Jerusalem. Officials confirmed the Hagana report that seven Jewish settlement police were shot or stabbed to death and said four others were wounded there. They reported only three of the Arab attackers killed.

Hagana said the Arabs who did not fall in the battle at the roadblocks were driven into Yazur and the village was surrounded.

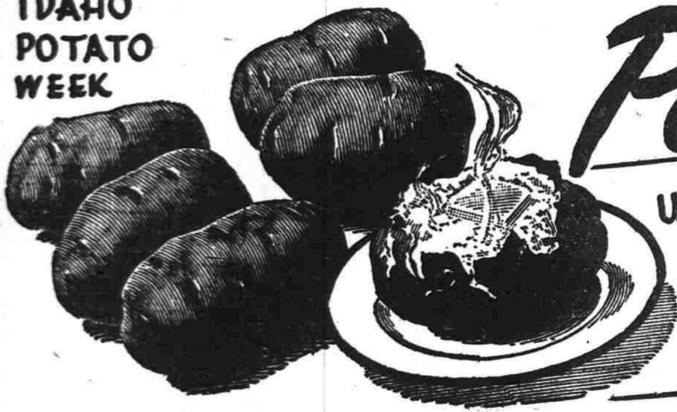

The official account said a light truck was stopped by the roadblock and set afire. Hagana reported the truck was leading a convoy which halted some distance away. The Arabs attacked in another truck, the organization said, and were repelled by mortar and automatic fire.

Released On Bond In Stealing Case

ODESSA, Jan. 22 (AP)—Three West Texas men have been released on \$1,500 bond each for charges filed in connection with the theft of \$25,000 worth of oil field equipment in Ector, Crane and Andrews counties.

Deputy Sheriff C. K. Kelly said Dewey Alford, 19, Water Valley, and D. L. Sloan, 22, San Angelo, were charged with theft. He said Travis E. Abies, Odessa, junk yard operator, was charged with receiving and concealing stolen

Lemon Cream Pie

1/4 cup sugar
1 teaspoon salt
3 tablespoons flour
3 tablespoons cornstarch
1 1/2 cups water
2 eggs
Juice 2 lemons
Grated rind 1 lemon
Baked Pastry Shell

Mix and sift dry ingredients into top of double boiler. Add water and cook over hot water until thick. Add slightly beaten egg yolks and cook 2 minutes longer. Remove from fire and add lemon juice and rind. Cool and fill baked pastry shell. Cover with meringue and brown in moderate oven, 350 degrees for 15 minutes.

Applesauce Pie With Cracker Crumb Crust

1 1/2 cups finely ground graham crackers
1/2 cup butter or margarine
1/2 cup sugar
1 teaspoon cinnamon
6 apples
1 cup chopped nut meats
Whipped cream

Mix the crushed graham crackers, butter or margarine, sugar and cinnamon together. Blend well. Reserve half of them for future use. Press remainder over the bottom and sides of a pie plate. Bake in a 375 degree oven for 15 minutes. Peel and core the apples and then cook into applesauce. Put through a sieve and sweeten to taste. Let cool and place in crumb shell. Cover with remainder of the crumbs reserved, mixed with chopped nut meats. Brown slightly under a preheated broiler. Serve cold with whipped cream topping.

Youngest competitor in the 1936 Winter Olympics was Yetsuko Inada, 11 years old and only four feet, nine inches tall. She was a member of the Japanese figure skating team.

Preview Of 1948 Food Situation As Seen For American Families

By CECILY BROWNSTONE
Associated Press Food Editor

American families will continue to eat well in 1948. During the last two years food consumption in this country has been running some 17 or 18 percent above the prewar average. Figures based on our food production goals and the amounts of foodstuffs that will have to be sent abroad for foreign aid indicate that 1948 will see food consumption in this country still 13 or 14 percent above the prewar average.

The big item in food reduction facing Americans is meat. Altogether it is estimated that the average amount of meat available per civilian during the coming year will run about 146 pounds as compared with about 156 pounds in 1947. The shortage of meat will be most pronounced next spring and summer.

More Water in the Stew
Meat reduction can't merely be figured in terms of so many less steaks per month. Americans will be urged to use low grade meats from grass-fed beef; this means that cuts will be less tender. In order to make them palatable, hamburgers, Swiss steaks and stew will probably be the order of the day.

There will be more fresh fish on the 1948 dinner table than there was in 1947. It is predicted that canned fish supplies will be larger in 1948; tuna leads the way here with a 20 percent increase. More turkeys and fewer chickens is the prediction when it comes to poultry. Prices of both turkey and chicken are expected to average higher in 1948. Small weight quick-frozen turkeys may be a good buy later on in the year. Housewives will be urged to use fowl so new cooks had better learn how to make old-fashioned fare—fricassees, stews and pot-pies.

The outlook for the egg a day Americans have been eating for enjoyment and good nutrition seems fairly good from now to the spring—although the price of eggs will be high. Consumers need to remember that fewer eggs are the result of the reduction of flocks essential for grain saving and the feeding of hungry people abroad.

Good news for this nation of milk-drinkers is that fluid milk will probably be available for consumption in about the same quantity as it was during 1947. Evaporated milk will also be the same as for 1947, with the possibility of more cheese and butter cream will probably be as available as it is at present.

Edible fats and oils will be in about the same supply as 1947 with the exception of lard, which is expected to be lower. Gourmets will once again be able to make their special salads since supplies of olive oil from the Mediterranean countries will be the largest since 1941.

World fat supplies, however, are still critically short and consumers will continue to be asked to do their bit in fat salvaging. This means to save and reuse food fats, to salvage meat trimmings and drippings and to render, store and reuse them whenever possible.

An Apple a Day
The fruit and vegetable outlook is good. If Americans eat more vegetables and fruits, both fresh and processed, to make up for smaller supplies of other foods, the national diet will probably be improved in two important vitamins, A and C, which have been low in many American families in the past.

Apple and pear crops are good and citrus fruits such as oranges, grapefruit and lemons should be

Scalloped Squash Macaroni Special

1/2 cup cracker crumbs
1/4 cup melted butter or margarine
Salt
1/2 teaspoon powdered sugar
1/2 cup cream
Patty Pan Squash
Cut squash in small pieces. Pare and steam until soft. Drain and mash. Mix cracker crumbs with butter or margarine. Place half of the squash in bottom of baking dish and sprinkle with salt and powdered sugar. Cover with half the crumbs. Repeat and pour cream over all. Bake in hot oven, 350 degrees for 20 minutes or until crumbs are nicely browned.

in good supply. Bananas are rapidly approaching prewar supplies and it is predicted that by next exceed monthly imports may even exceed prewar rates.

There ought to be as much canned fruit available in 1948 as in '47 with supplies of canned orange juice and blended orange and grapefruit juice probably even larger. There also should be plenty of quick-frozen fruit.

Ample and reasonable will be the dried fruits. Raisins, prunes, figs and dates will be in ample supply. Dried apricots may be slightly less than in 1947.

Commercial production of fresh vegetables is expected to hold up and campaigns for home gardens will be pushed. Canned and quick-frozen vegetables are expected to continue in good supply. Supplies of both sweet and white potatoes are now plentiful.

Let 'Em Eat Nuts
Nut cracking will be able to go on apace for a while after the holidays. Close on the heels of a record crop of walnuts, pecans and almonds are filberts, of the hazelnut family.

Peoples in Europe will need to rely on our export of grains and grain products until next harvest and so Americans in 1948 will be asked to continue their conservation program.

Lime Sherbet

2-3 cup sugar
1 1/2 cups sugar
2 teaspoons gelatine
1/2 cup cold water
1/2 cup lime juice
Drop or two of green coloring
2 egg whites
1/2 teaspoon salt

Boil the sugar and water for 10 minutes. Stir in gelatine which has been dissolved in cold water. Cool syrup slightly. Add lime juice and coloring. Chill mixture in refrigerator until it begins to solidify. Turn into chilled bowl and whip with a wire whisk until fluffy. Whip egg whites with salt until stiff and fold into fruit mixture. Freeze for four hours and beat with whisk or electric beater before serving.

Aids For Potluck Cooks Should Be Kept Handy

BY CECILY BROWNSTONE
Associated Press Food Editor

If you are the kind of person who is not fazed by unexpected guests for dinner, you probably have a standby or two up your sleeve you pull out at the proper moment.

I have a casserole dish, for instance, that's made out of emergency shelf supplies, and so I'm always sure to have the jars of dried beef, the cans of butter-broiled mushrooms and the package of rice that I need for it in my cupboard. All I do is combine these ingredients with a cream sauce—the rice cooked, of course. Then I season it, put it in a casserole, top it with buttered crumbs and heat it in a moderate oven. Almost any dish can be seasoned a number of different ways, so I allow the seasoning to be whatever is in the refrigerator: green peppers or celery, for instance, or I rely on grated onion and my well-stocked herb shelf.

that's the kind of thing cookbooks never say, and a new cook—and lots of older housekeepers, too—just don't know.

POTLUCK TOMATO SOUP
1 can condensed tomato soup
2 cans water and 2 bouillon cubes
1 small carrot, washed and cut into long shavings
1/2 cup (about) canned whole-grain corn
1/2 teaspoon finely crushed dried basil
1/2 teaspoon finely crushed dried marjoram
Mix soup and water in saucepan; add bouillon cubes and carrot and heat slowly; stir occasionally to combine well and dissolve cubes. When hot add corn, basil and marjoram. Taste for seasoning and add pinch of sugar, pepper and more herbs if desired. Reheat. Six servings.

When I last made this soup I added the bone from a half-ham instead of the bouillon cubes and we liked the result very much. If you do this you'll probably want to chill the soup, as I did, before serving and skim off any fat. This combination is really a pleasant change from the pea soup with which a ham bone is usually coupled.

How about potluck desserts? Fruit and cookies do well and they can come out of cans and packages. And of course there's always cheese and crackers.

Ham And Corn Fritters

1/2 cup ground ham
1 cup canned whole kernel corn
1 tablespoon minced onion
2-3 cup of flour
1/2 teaspoons baking powder
1-4 cup milk or liquid from corn
Lard for frying

Mix ground ham, corn and onion. Sift flour and baking powder together and add to corn mixture. Add liquid and mix, well. Drop by teaspoonful into deep hot lard and cook until they are a delicate brown. Drain on unglazed paper and serve.

Sunday Morning Breakfast Hints When Friends Call Unexpectedly

BY CECILY BROWNSTONE
Associated Press Food Editor

When I was a little girl my uncle and some of my father's friends often used to drop in on Sunday morning to see him and to talk over the crops, the state of the world or maybe just the doings in Our Town. I would occasionally be elected to bring in a tray of coffee to them from the kitchen. Along with the coffee my mother would send some of her special cinnamon buns—really coffee kuchen—that a Viennese friend taught her to make—or a quick bread that she put together when she first heard the doorbell ring.

It's a friendly gesture, that one of welcoming unexpected guests for a second round of Sunday morning coffee. It's pleasant too, sometimes, to invite friends for a special "first" breakfast. In the latter case the menu ought to adhere to the same breakfast pattern recommended for every day in the year—fruit, cereal, milk, bread and butter—plus any other suitable foods appetite and budget allow. For nutritionists have discovered that if you don't get about one-third of the day's nutrients in the morning it's hard to make them up in the other two meals of the day.

There's no end to the variations you can make on that breakfast theme—especially for a weekend splurge. A California friend of mine, Essie Eliot, who is known for her fine home economics and nutrition work in that state, told me about a simple fruit starter I've come to love. It's just sliced bananas in orange juice—chilled, of course, and wonderfully delicious. Sometimes I add sectioned oranges to the banana slices, and I'm careful to cut them just right! First have your paring knife very sharp. Then cut the peel round and round, taking off all the white membrane along with the rind. Go over the orange again, cutting off any spots of membrane you may have missed. Then insert the knife blade down along the membrane wall of an orange section to the center, without lifting the knife

turn it, with a twist of the wrist, so that it will cut away the section from the other supporting wall. Start off with this or some other fruit dish and go on to cereal. My favorite way of serving any of the crisp ready-to-eat cereals is with sliced fresh dates and thin cream. Eggs in some form may, of course, be on the menu. For some reason or other when we serve ham or bacon with eggs in our family we always want something sweet with it—a preserve or a jelly, or a sweet bread. Most of these quick loaves are best when

served fresh and warm.
FRUIT COFFEE RING
1 1/2 cups sifted all-purpose flour
2 teaspoons baking powder
1/2 teaspoon salt
1/4 teaspoon cinnamon
1-9 teaspoon cloves
3/4 cup sugar
1-3 cup vitaminized margarine
1 egg, beaten
3/4 cup milk
1/2 teaspoon lemon extract
1 cup raisins
Confectioners' sugar
6 to 8 whole walnut kernels, plain or glazed
Sift flour with baking powder, salt, cinnamon, cloves and sugar. Cut vitaminized margarine into flour mixture with pastry blender or 2 knives to form coarse crumbs. Beat milk, egg and lemon extract together. Add to dry ingredients with raisins, stirring just enough to mix well. Spoon into a greased 9-inch ring mold. Bake in a mod-

Baked Potatoes With Creamed Cheese
4 baked potatoes
Cheese Sauce
Bowl of Chopped green onions
Prepare cheese sauce by adding a cup of grated cheese and 1 teaspoon of dry mustard to 1 cup of cream sauce. Serve the baked potatoes on a hot platter, accompanied by a bowl of cheese sauce and a bowl of chopped green onions. Let each one pour the cheese sauce over the potato and sprinkle the chopped onions over the top. Bake (375 F.) over 25 minutes. While still warm spread with icing made by adding enough confectioners' sugar to 1 tablespoon of milk to make a rather stiff mixture. Top with walnut kernels.

Broiled Meal
1 1/2 pound, ground lamb
1/2 teaspoon salt
1/2 teaspoon freshly ground pepper
1-3 teaspoon mace
1-5 cup bread crumbs
2 tablespoons catsup
1 egg
1/2 cup milk
1/2 cups cooked sliced carrots
3 cups creamed potatoes
Combine lamb, seasonings, crumbs, catsup, egg and milk. Mix well. Shape into patties about an inch and a half thick. Arrange the cooked carrots and potatoes in shallow casseroles on the broiler pan. Place broiler rack over vegetables and place the lamb patties on rack. Arrange rack in broiler so that the top of the patties will be about three inches from the heat. Broil on one side until nicely browned, about 12 minutes. Turn and broil on second side about eight to 10 minutes.

Tax Reduction And November Of '48

Here we go on the tax cut bill. The Republicans now have their bill shaped pretty well, pointing toward a \$5,600,000,000 slash, and they figure it will get House approval quickly.

The Democrats, who have no say in this program except from the strength they can exert in upholding a presidential veto, argue that the GOP had better soften the cut in the Senate, else reduction is doomed.

Speaker Joe Martin says the GOP will reduce the administration's budget sufficiently to absorb the tax cut and make a \$2 billion payment on the national debt. Much bolder, Rep. Taber of the appropriations committee says that the budget will be hacked sufficiently to make room for tax reduction and a \$5 billion payment on

the debt. Which is having cake and eating it, too.

These GOP pledges are, at this state, a little ineffective, just as the President's proposal of a \$40 per individual reduction across the board is unsatisfactory. Both are made with an eye on November rather than on national welfare.

Certainly everyone welcomes tax relief, but before we get too far into the pleasures of a day, we ought to see if there can't be more honest economy in government and the rate of retirement on the national debt accelerated during these flush periods of cheap money. We'd all be better off with no tax reduction if governmental expenses were cut and the margin of excess put to wringing out the debt and restoring soundness to our money.

No Two Term For MacKenzie King

William L. MacKenzie King has announced his desire to retire from the office of prime minister of Canada.

At 73, he will have held that office for roughly 21½ years come April 20 of this year and earned retirement if he sincerely wishes it.

Apparently MacKenzie King has done a pretty good job as head man for the Canadian people, for his party repeatedly has been returned to power and he has been its consistent choice for prime minister. Even in times of stress and division, he has managed to come through with votes of confidence. While not particularly flashy or adept to playing to the galleries, he has

employed a liberal and progressive ability with sound administration.

Whether it would be the brand people in the U.S. would warm to is speculative, but it has suited the majority of Canadians.

There may be some "two-term" agitation up in Canada, but probably most Canadians wouldn't warm to a rule that would bar them from utilizing the talents of another MacKenzie King for a score of years if the need ever arose. As a normal consequence, most men will never hold office but relatively short periods. The wisdom of barring them from longer than traditional tenures is doubtful when after all the people make the choice.

Affairs Of The World—DeWitt MacKenzie

Greek Paper Hits U. S. Mission

The Greeks are a proud and independent folk, with a glorious past and, we trust, a glorious future.

One of the things we admire about them is their Spartan courage and their quickness in defense of their rights. Still, there is an old saying that discretion is the better part of valor, and we take the liberty of commending this thought to the Athens royalist newspaper Vradyni, which seems to us not only to be indiscreet but ill informed—and rather ungracious toward a very good friend.

Vradyni, which frequently speaks for the dominant royalist party, has taken the American aid mission, headed by Dwight P. Griswold, to task for notes to the Greek government. The newspaper says these notes sounded

as though written for "the Japanese or to a country inhabited by gangsters." It hopes that the threat of the communist guerrillas in the north will be ended before long so "we soon can forget our friendly allies and return to where we were before."

Vradyni doesn't specify what the notes contained but it is known that Griswold recently told Foreign Minister Tsaldaris that America won't tolerate a "dictatorial solution" of Greece's problem. We also know that some Greek politicians have discussed the possibility of a semi-dictatorship under which parliament would be dissolved.

Heaven preserve Greece from another such dictatorship as she suffered under the late General (Little John) Metaxas who ruled with an iron hand from 1936 to 1941 when he died. It isn't that

Metaxas lacked capability. Most "successful" dictators have been capable, and Little John was "successful." However, Greece lived in the shadow of fear, as I found when I was there in 1938 as the world war was boiling up.

Metaxas was made premier in 1936. It took Little John just four months to make himself complete dictator. He abolished all political parties and put several thousands of his political foes into exile among the Greek islands.

Plain clothes police spied on the public and anyone who spoke disparagingly of Little John ended up in jail. The censorship on news was so fierce that a Greek newspaperman committed suicide after being hounded and arrested many times because the authorities figured he was disclosing too much.

The Nation Today—James Marlow

Background On Big Tax Fight

WASHINGTON, (AP)—The Republicans have said they'll cut taxes. They have a majority in Congress. Only a majority vote is needed to shove through a tax bill.

But there's a big difference between getting a bill and getting that bill made into law.

What kind of a bill? The kind they're talking about now?

If they pass it—the kind they're talking of now—President Truman has warned he'll try to kill it with a veto.

If he does that, the Republicans will need more than a simple majority vote to re-pass it into law over his veto. They'll need a two-thirds vote.

If they can't whip up that two-thirds vote, then the vetoed bill is dead.

Mr. Truman has told the Re-

publicans the kind of bill he'll approve. It's his idea of a tax cut. It's not the Republicans' idea.

The Republicans, being boss in Congress, are going ahead with their idea. They've thrown Mr. Truman's into the coal bin.

Take a look at what lies ahead for Congress—and you, too—before this whole thing is settled.

The Republicans in the House will shove through a tax bill first, maybe next week.

Then the House-passed bill goes to the Senate for a vote. The Senate may not vote on it for months. Meanwhile, talk, talk, talk.

Since the Senators don't always see eye to eye with their brothers in the House, they'll probably change the House bill quite a bit.

If the Senate changes the House

bill, then both houses have to appoint a joint committee to iron out the differences. More talk.

Finally, an agreed-upon bill goes to the President. If he vetoes it, back it goes to Congress. If the Republicans can't get up the two-thirds vote necessary to pass a bill over a veto, then the bill is dead.

The House Republicans are pushing a tax-cut bill fathered by a Minnesota Republican, Rep. Knutson. It would cut personal income taxes by \$5,600,000,000.

That would be \$5,600,000,000 lost to the government, since the Republicans are against making up the loss by raising the tax on corporations.

Mr. Truman wants personal income taxes cut \$3,200,000,000. Then he wants Congress to make up this loss to the government by boosting corporation taxes.

Texas Today—Clayton Hickerson

State Officials' Pay Is Low

Salaries of even typists in the well-staffed offices of congressmen are far above those which Texans pay most of their state officials.

Few Texas officials make as much as a House member's top secretary. A state senator's yearly stipend is \$600. That is half of the money he is paid for a 120-day regular session of the legislature, held biennially.

Each member of the national House of Representatives is allowed a base of \$9,500 per year for clerk salaries with which he may hire a maximum of four employees. The highest salary, usually that for the congressional assistant, is ceilinged by law at \$5,000 annually.

But with differentials, which have been added by congressional action to cover increased taxes and living costs, this \$9,500 actually amounts to about \$13,500 yearly.

For instance, a secretary on the clerk-hire rolls for \$5,000 per year actually receives \$7,022.40, while a part-time typist on the rolls for \$900 per year actually gets close to \$1,500 annually, a higher percentage of differential pay going to the lower-salaried workers.

United States senators have extra salary allowances for an executive assistant at a base salary of \$8,500 annually, or an actual salary of more than \$10,000, as much as congressmen received before 1947.

State salaries in Texas are not so high. The adjutant general receives \$4,200 yearly, his assistant \$3,000. Highway commissioners get \$4,000 per year, the agriculture commissioner gets \$4,200 yearly

and the land commissioner is paid \$6,000 yearly.

A state senator recently passed the remark that it was a sad commentary on American government when one official's secretaries was paid more than a member of the state board of control.

Salary for the latter job is \$7,000 annually. But the senator had to find a job other than his legislative work to pay his grocery bill.

Business Picks Up

ROY, N. M. (UP)—Marriage business was slow for Peace Justice Howard Dikeman, who took office more than a year ago. Now he's happy, for he got to tie his first matrimonial knot. It was a double ceremony.

Pays Off

BOSTON (UP)—The Boston collector's office receives an average of \$900 annually for its conscience fund. Contributors turn in sums ranging from \$50 up to \$3,335, which was the record 1946 total. The 1947 fund was \$1,075.

Live So Long

NEW YORK, (U.P.)—Dr. Harry L. Shapiro, anthropologist with the Museum of Natural History, believes man eventually will have heads as round and shiny as billiard balls, four toes, no appendix, no third molar, a larger brain and a smaller face. He estimated that will be their appearance about the year 501, 984 A. D.

Washington Merry-Go-Round—Drew Pearson

Thomas May Be In For Trouble

WASHINGTON — Oklahoma's slippery Senator Elmer Thomas, who finally admitted trading on the commodity market may get a full-fledged investigation from his own colleagues.

Thomas told his side of the speculating story in a slushy letter, full of self-righteous alibis, which he sent to Senator Ferguson's investigating subcommittee.

The subcommittee was called together for a very hush-hush meeting in Ferguson's private office. Ferguson read the letter to other members who impatiently snorted that the committee had better supplement the information with specific questions about Senator Thomas' speculations.

A letter was then fired back bluntly asking Thomas for names and dates of all commodities purchased.

However, Washington observers are still keeping their fingers crossed as to whether the senators really will probe another member of "the club." After all, Senator Ferguson pulled his punches when serious charges were brought against his GOP colleague, Brewster of Maine.

MOVIE BUSINESS

Memories of Hollywood are still lingering from last year's razzle-dazzle before the un-American affairs committee. As a result, GOP senators are now planning to make movies of their own—complete with Hollywood stars and animated cartoons.

They plan to produce 25 political films before November, glorifying the accomplishments of the 80th Congress.

The movie idea was given the rousing approval of Senate Republicans the other day at a secret luncheon-caucus, which touched off the 1948 senatorial campaign. First movie will go into production tentatively May 1.

Actors George Murphy, Robert Montgomery and Adolphe Menjou were mentioned as loyal Republicans who could be called upon to help with the project. But the main actors will be men such as Bob Taft and Arthur Vandenberg, who played the heavy roles in Congress. They will be shown in action on the screen, occasionally in glamorous technicolor. Cartoon characters also will be used, scrambling over charts and

graphs and gaily pointing out favorable statistics.

Spadework for the project was done by three senate secretaries—Charles Egenrod (secretary to Senator Capehart of Indiana), Art Burgess (Senator Cain of Washington), and Charles Kapnik (Senator Martin of Pennsylvania).

Egenrod told Senators at the private luncheon that the movies would cost approximately \$50,000.

"Do you think that will be enough?" broke in New Jersey's Senator Albert Hawkes, former president of the U. S. Chamber of Commerce. He suggested \$100,000 as a more likely figure.

Senator Arthur Watkins of Utah wanted to be sure the movies would not be used to campaign in the primaries, and Senator Joe Ball of Minnesota asked how the Democrats were going to be dragged in to see the pictures.

"What good will it do just to show them to Republicans?" he asked.

"Senator, if you announce there is going to be a show, it will bring out more Republicans," Burgess spoke up. "Then when election day comes along, maybe some of those Republicans who would rather play golf will come out and vote instead."

Note—Smitten with the same bug, the Democratic party is quietly buying up 16-mm. movie projectors to show political films. Economy-minded Republicans are not buying any projectors, plan to ask each county chairman to borrow a projector instead.

CZAR PETRILLO UNBENDS

Music Czar James Petrillo has hinted to the House Labor Committee that he might be willing to call off his ban on recordings if the Taft-Hartley law is altered. He has asked for changes in the law in order to stretch the union's welfare fund to the full 200,000 membership.

As the law now stands, only the 32,500 musicians who do live broadcasting and recording are eligible for welfare benefits.

Petrillo made his proposal to acting Chairman Gerald Landis of Indiana, indicated he would be willing to enter negotiations to change his ban on recordings if the law could be revised. Landis consulted two of his colleagues on the committee, Congressmen Charles Kersten of Wisconsin and Richard Nixon of California, who said they would not object to considering a Taft-Hartley revision.

Ready To Give

SPRINGFIELD, Mass. (UP)—After donating his blood for the 126th time, James W. McConnell, a World War I Navy veteran, said he felt "just fine." He hopes to make 50 more donations.

Break In Reverse

CARLSBAD, N. M. (UP)—Two members of the night patrol here don't like to admit it, but they locked themselves out of jail one night and had to call on the Carlsbad fire department for help to get in.

Education Higher

CHICAGO, (U.P.)—Education will become a big business in Chicago for 1948 with a proposed budget of \$103,900,000 scheduled to be submitted by the Board of Education. Principal funds for the budget will come from an increased property tax of 1.30. The rate was 96 cents last year.

Hal Boyle's Notebook

Taxi Driver's Tips

WASHINGTON, (AP)—Taxi drivers earn their tips in Los Angeles by courtesy—in Manhattan by hypnotizing you out of your loose change my shame or wisecracks.

But here in the nation's capital, the cab jockeys are plain polite and philosophic by nature.

The Washington taxi driver is a freer man with an opinion than the average legislator. He has views on every subject—the inside of the inside.

His forum is the highway, his rostrum the front seat of his cab, which he probably owns, himself—and that makes him a small businessman and therefore gives him the right to say how the country should be run.

Ask him to take it easy at the wheel, and he's off.

"I'm in no hurry either. Don't worry about me hitting any pedestrians. Can't afford to any more. The repair costs to the cars run too high nowadays. It's \$100 now where it used to be \$18."

"Kinda new here aren't you? I been here most of my life. It's a swell city, but I never saw one like it for middle-aged women getting tanked. Darn near every night gotta drive some ginned-up woman home."

"Tips? You'd think with all these high-priced people around here they'd hand out a little money. But you're lucky if you get a dime from these ten-to-fifteen thousand-dollar men."

"Senators—they hand me a laugh, but that's about all. Once one of them tipped me a nickel. However, I took another one home once—pretty good old guy, he was—and he said, 'You have to get my car home, too. I've drunk too much to drive.' So I got a friend and we drove his car home, and the Senator slipped me ten bucks and winked and said, 'Now my wife will think I'm alright when she sees the car's home.'"

"Funny thing about the presidents. Most of them go get up-pty. But you take Woodrow Wilson. People say he was a cold man. But I saw him at a theater and walked right up and spoke to him. He was real pleasant. A fine man."

"Still and all, you take presidents generally. I don't understand it. But with most them soon's they get to be President right away they begin to think they're a big shot."

"It's hard to say just what it takes to be a hero to a taxi driver in Washington."

In Hollywood—Bob Thomas

Starts Wierd Film

HOLLYWOOD, (AP)—One of the weirdest film projects within history of man got started here last week.

Alfred Hitchcock, the wry English director, is shooting "The Rope" in 10 days. Lotsa quickie producers could do that, but this is no quickie. Its budget pushes slightly over the million mark, it's in color, and its cast includes James Stewart, John Dall and Farley Granger.

Actually, the film isn't as economical as it sounds. A full crew will work on it for six weeks. The stunt is this: the cast and crew will work on a scene for five days, then shoot it in a day. Each scene will last for a reel, or about 10 minutes. The action, which takes place from sunset to darkness, will be continuous; there will be no cuts, no close-ups.

The entire action takes place in a New York apartment, where Dall and Granger commit a murder "just for the thrill."

"The Rope" requires stage-experienced actors, since many movie performers can't remember more than three lines at a time.

Only seven characters appear in "The Rope." How, then, will Hitchcock, who makes a fleeting appearance in each of his films, get into this one?

"It's easy," he smiled. "One of the neon signs in the skyline outside the window will flash my profile."

Curtest sight of the week was Candy Bergen, 20 months, watching Charlie McCarthy perform for the first time. Candy has seen her father's famed dummy and heard him on the air, but had never watched Charlie talk. Needless to say, she was astounded.

"The Treasure of the Sierra Madre" (WB) is a fine example of combining an intelligent movie with entertainment. It presents three well-etched characters (Bogart, Tim Holt, Walter Huston) on a grim gold-hunting trip in Mexico and provides enough action to keep up interest all the way.

Big Springers Vanquish Andrews Quint, 30-24

Reserves Also Win, 34-26

ANDREWS, Jan. 22.—The Big Spring high school basketball Steers, priming their guns for the weekend Odessa Invitational tournament, knocked off the Andrews Mustangs, 30-24, in a practice game here Wednesday night.

Their triumph over the Ponies was somewhat more decisive than the score indicated. The Longhorns were never behind, in fact never were pressed.

Eddie Houser again was the chief torpedo in the Bovine pyrotechnics, collecting 15 points. As usual, he got good co-operation on the part of his mates. B. B. Lees and Delmar Turner each tossed in six points for the winners.

Big Spring led at the end of the first period, 6-4; at half time, 17-12; and after three quarters of play, 24-18.

Johnny Malaise's gang was playing without the services of two regulars, Jim Bill Little and Ike Robb, both of whom were riding the bench because of injuries.

The same two clubs meet in the first round of play in the Odessa tournament Friday afternoon.

Cuin Grigsby was hot as the proverbial 25-cent cap pistol in the B game, meshing 21 points to lead the Dogies to a 34-26 victory over the Andrews reserves. Grigsby couldn't miss, bagging eight field goals and five gratis pitches to enjoy his hottest night of the season.

A GAME	FG	FT	PF	TP
BIG SPRING	8	12	19	2
Houser	3	0	0	0
Malaise	0	0	0	0

MORE — MORE

PROMOTER WILL ACCEPT ENTRIES THRU FRIDAY

Entries for the boxing show to be held at the Howard County Junior college gymnasium Friday night will be taken up to the eve of the fights. Promoter Vernon Fowler has announced.

Fowler has his local team working out nightly at the Salvation Army canteen. He is expecting entries from Odessa, Midland, Coahoma and possibly Sweetwater.

The promoter said he expected to have a ten-bout program.

Public American Legion Dance Saturday

THE OLD COLLEGE TRY — Curt Norris of Colgate goes all out in an effort to tally a field goal in the first half of the Colgate-New York University basketball game in New York. He missed. NYU scored three baskets in the last minute to win 64-59 and remain undefeated. (AP Wirephoto).

LOOKING 'EM OVER

With TOMMY HART
Andy Cohen, the Boston Braves' scout who popped up at Steer park so often last year the management proffered to buy him a tepee and let him camp there, is reported to be in line for the managerial post of the Juarez Indians in the Arizona-Texas league.

Andy lives in El Paso and has managed teams of the Border City before. He caught on with the Braves last year. The scout took a liking to Gaspar Del Toro, the Big Spring second sacker-shortstop, and must have seen him in action at least 20 times.

The Arizona-Texas circuit will open a 130-game schedule April 23. Juarez was the last entry in the re-organized circuit.

STEEERS FAVORED IN ODESSA BASKETBALL SHOW
The well known monkey is on Johnny Malaise's back in the Odessa Invitational basketball tournament this weekend. Johnny wouldn't want it that way but his Big Spring Steers have been installed as favorites in the show.

If the boys perform up to law, they're liable to bring home the bacon. Win or lose, the tourney will be good experience for the youngsters.

CAPABLE OFFICIALS TO HANDLE TOURNAMENT
Three officials will divide time in traffic copping the two-day Odessa meet, all of them capable arbiters. They are G. B. Rush of Ranter, Burns McKinney, Midland; and W. L. Taylor, the likeable Jack-of-all-trades from Midland.

McKinney is the former Hardin-Simmons university football star who was an HSU backfield luminary at the time Bulldogs Turner was in school over in the Abilene school.

FAUROT ALSO RUMORED FOR NAVY COACHING POST
Matty Bell, the Southern Methodist football mentor who will serve as principal speaker at the high school football banquet here Monday night, isn't the only mentor west of the Mississippi being considered for the U. S. Naval Academy coaching job.

Reports from the Midwest insist Don Faurot of Missouri has an excellent chance to land the job. Faurot is one of the shrewdest craftsmen of them all.

Doak Walker, Matty's All-America back, won't be able to make the trip with Bell here, by the way. He wanted to come out from Dallas to visit his aunt and uncle here but is in the midst of mid term examinations and can't leave school.

Ed McKeever, the former Texas Tech athlete who now is coach at San Francisco university, may take a job in pro football soon. That job would be with Detroit, a club which changed hands recently.

BASEBALL 'CASTER TO OPERATE ON FOUR-DAY WEEK
For the information of those who have been wondering about the baseball broadcasts next summer, the local station KBST will probably relay home games on Mondays, Tuesdays, Thursdays and Fridays, plus many an out-of-town contest.

Sunday broadcasts will not be allowed — club owners and radio men are in agreement that the service could hurt the gate. KBST has network commitments on the Wednesday, Friday and Saturday nights.

Lloyd Hawkins is oiling up his tonsils to handle the play-by-play account again next season.

If Chandler-Pasquel Peace Comes, Exiled Players May Play Again

CINCINNATI, Jan. 22. (AP)—Reports that Baseball Commissioner A. B. Chandler is agreeable to a peace treaty with the reformed Mexican league today cheered a penitent band of American players under suspension for succumbing to the lure of Pasquel pesos two years ago.

An unquestionable source close to Chandler's plush Cincinnati office yesterday termed "obvious" the purpose of current conferences in Mexico City between Walter McHenry, secretary of baseball, and Alejandro Aguilera Reyes, commissioner of the Mexican league.

And, the source added, should amicable relations be restored, the outlawed players probably would be welcomed back to Organized baseball without having to serve out the rest of their five-year suspensions.

Informed his suspension for "jumping" to the Mexican league in 1946 might be lifted, Mickey Owen, former Brooklyn catcher, said at his home at Willard, Mo.

"I'll be glad to get rid of the stigma of baseball outlaw, even if I never play again. I'll just sit tight and hope that nothing happens to keep me from being reinstated now."

"I've certainly learned my lesson and I'm really hot to get back into Organized baseball," said Big Bill "Buck" Tanner, 21-year-old fireball right-hander who deserted Montreal of the International

league to play for Mexico City. Jorge Pasquel, millionaire sportsman and importer, led the raid on American diamond talent in 1946 with sky-high-figured contracts. Many players soon quit in disgust, however, with loud complaints about such things as playing field conditions and modes of travel.

Among the players who went south of the border—and felt the sting of Commissioner Chandler's jolting penalty—were three members of the St. Louis Cardinals, Pitchers Max Lanier and Fred Martin and Second Baseman Lou Klein; four New York Giants, infielders Nap Reyes and George Hausmann, Outfielder Danny Gardella and Pitcher Ace Adams, and another Brooklyn Dodger, Outfielder Louis Olmo.

The Mexican league reorganized last fall by returning to the commissioner system of rule, with regulations limiting club payrolls and providing that a majority of the players must be Mexicans.

PARIS TO HOST LEGION MEET
AUSTIN, Jan. 22. (AP)—The finals in the state American Legion junior baseball tournament this year will be played in Paris, Youth Director Bill Cummins announced here yesterday.

This breaks a custom of several years standing under which the finals were held in Austin. Cummins said the Texas Department's Junior Baseball committee decided to give other cities the opportunity to stage the meet.

The four-day tournament will end Aug. 15. Games will be played at the new Paris baseball stadium.

EAGAN ASKS FOR NAMES

New York District Attorney Fires Blast At Fight Game

NEW YORK, Jan. 22. (AP)—Boxing's dirty linen flaps from a front window today with New York District Attorney Frank Hogan charging the sport is corrupted by "criminal elements" and Commissioner Eddie Eagan asking court proof of any crimes in the form of indictments.

After the public servants traded verbal blasts in an unscheduled bout at last night's tenth annual dinner of the New York Boxing Writers' association, acting promoter Sol Strauss of the Twentieth Century Sporting club rushed to the defense with an impromptu plea.

"District attorney after district attorney has investigated boxing," said Strauss whose thin voice cracked with emotion as he talked over, behind and sometimes into a microphone.

"What did they find? Nothing. Not a thing. Every legislator

wants to get his name in the papers and asks for an investigation. I tell you we are just as good as basketball, baseball, football or any other sport. Why Mike Jacobs (the ailing promoter) did more for boxing in the last 10 years than anybody else."

Turning toward Eagan, chairman of the New York State Athletic commission, Strauss pointed his finger in courtroom fashion as he asked:

"Why was Rocky Graziano suspended? Why can he not fight in New York state. He's just a political football. The public wants him to fight and nobody has the right to say no."

Hogan, whose investigation of Graziano after he allegedly failed to report a bribe attempt, resulted in Rocky's indefinite suspension, had left the hall before Strauss' talk, Eagan said tonight.

Earlier both had plenty to say about boxing in general in their first open clash during the district attorney's investigation of the sport that has been continuing since the fall of 1946.

"We have been attempting to expose some of the rottenness of boxing," Hogan claimed. "The deeper we dig the more corruption we find. There's no reason to believe it has reached the roots of the sports. The roots are too solidly planted. But if the poison is not to spread, a surgical operation is imperative."

Hogan asked the commission to conduct public hearings as the result of the 700 pages of grand jury testimony turned over by his office. He also demanded lifetime punishment for all who "trafficked with criminals" and urged formation of a permanent corps of investigators.

Obviously stirred by Hogan's blast, Eagan fired a broadside into the district attorney's office when he said:

"I say to the district attorney, if he's found a crime, for goodness sake, indict the criminal. The commission does not have the power to indict anybody."

Answering Hogan's request for public hearings on the grand jury records, Eagan said "when you hand me private records of a grand jury all I can do is call in

the fighters. I ask them if they want a public hearing and they say 'no.' All I can do is refuse to give them a license.

"We have a complete file. All I ask is evidence. If there's a crime, let them be indicted and kicked out of boxing. Show me a criminal, show me anything crooked in boxing and believe me, brother, I'll do my damndest."

Brown Assumes Auburn Post

AUBURN, Ala., Jan. 22. (AP)—Auburn's week-long search for a head football coach ended today with the naming of Earl M. Brown, Canisius college mentor and former Notre Dame star, to the post.

Salary terms were not disclosed. Brown succeeds Carl M. Voyles, whose contract was bought up by when the Auburn football team won two games and lost seven.

Voyles was named head coach of the Brooklyn Dodgers of the All American Pro football conference by Branch Rickey yesterday.

Legion Defeats Sterling City

Trailing, 14-12, at half time, the American Legion team of Big Spring rallied strongly in the final two periods to defeat the Sterling City Independents, 34-31, in a basketball exhibition played at the Howard County Junior college Wednesday night.

Davis and Selden had a big hand in the Legion victory, collecting 14 and 10 points, respectively. Abernathy was Sterling's standout performer with 14 points.

The Legionnaires got few opportunities to shoot free pitches but made good on enough of them to amble off with the triumph. The visitors, on the other hand, could capitalize on but one of five opportunities from the foul line.

Man Drops Dead

Emory Lampkin, 54, manager of the Lemon-Shepherd company in Stamford, dropped dead there Wednesday morning, Bill Griese local manager, was informed. Lampkin, who visited here on several occasions and was known well in the Big Spring-Abilene territory, had gone to breakfast at a coffee shop with his wife when he was stricken suddenly with a heart seizure.

Lana Turner Is Reinstated By MGM

HOLLYWOOD, Jan. 22.—Lana Turner is back in good standing at her studio. Metro-Goldwyn-Mayer reinstated the screen actress Tuesday after she agreed to play the role she earlier turned down, of Lady de Winter in "The Three Musketeers."

OVER 40 GROUPS ACTIVE

Congress Has Yen For Investigations

By The Associated Press

WASHINGTON—More than 40 congressional investigating committees are on the prowl — looking into things as widely assorted as surplus war plans and potato prices.

The record is almost sufficient to bear out the promise made by an exiting Republican congressman after his party took control of the House and Senate:

"We will start each session with a prayer and end it with a probe."

An exact count of the committees is impossible, because every regular committee has the authority to split into subcommittees. One subcommittee even split itself into "sub" subcommittees last year.

When its assigned job is finished, a subcommittee dissolves. So the total number in action can change from week to week.

Probably the daddy of them all is the committee now headed by Senator Brewster (R-Me.) and called the Committee to Investigate the National Defense. It started out investigating the war effort years ago. Its first boss was the then junior senator from Missouri, Harry S. Truman.

This committee most recently hit the headlines with the gaudy story of how an air forces general lived the full life during the war and retired on a disability pension.

The House's best known investigating body, the Committee on Un-American Activities, is an old timer too, but it has a different status from all other such groups. It is permanently established by law. The rest have to be continued from time to time by congressional action.

The House and Senate have seven joint investigating committees, one with a subcommittee. This one is the Joint Committee on the Economic Report. Senator Taft (R-Ohio) is chairman and Rep. Wolcott (R-Mich.) vice chairman. It has a triple-threat subcommittee investigating cost-of-living prices, and the three chairmen are Senator Flanders (R-Vt.) and Watkins (R-Utah) and Rep. Bender (R-Ohio).

There is a Joint Committee on housing, and its chairman is Rep. Gamble (R-N.Y.). Senator Hick-enlooper (R-Ia.) heads the Joint Committee on Atomic Energy, and Senator Ball (R-Minn.) is boss of a special committee to study labor-management relations as they work out under the Taft-Hartley law.

The other joint committees are studying the executive branch of the government, non-essential expenditures and taxation.

The House and Senate each has a committee on small business—chaired respectively by Rep. Ploeser (R-Mo.) and Senator Wherry (R-Neb.). Each has a committee investigating govern-

Stock Show At Brownwood Gets Underway

BROWNWOOD, Jan. 21 (AP)—The fifth Brownwood livestock show opened yesterday with heavy entries in all divisions. It will continue through next Tuesday.

Over 700 entries were made in the sheep show, with 10 in one class—crossbred lambs. Nineteen counties were represented in the club show.

The Brown County Club show, held Tuesday, had over 100 entries. Grand championships were awarded to Gene Tongate, Brooksmith, sheep; Billy Greer, Zephyr, and Keith Brinson, Bangs, hogs, and Neal Tom Oliver, Zephyr, steers.

Sixty head will be sold at the Brown County Hereford Breeders association auction Monday and 62 head at the Brown County Polled Hereford association auction Tuesday.

The show is being held for the first time at a 74-acre Camp Bowie site in 25 buildings purchased recently for \$27,000, augmented by a 300-foot tent.

Increase Seen In Texas Crude Oil Production

AUSTIN, Jan. 22 (AP)—An increase over current crude oil production is anticipated by the railroad commission in its February oil order, issued Tuesday and designed to bring a flow of 2,397,888 barrels per day.

The commission set a net allowable of 2,612,502 barrels per day, but increased its estimate of underproduction from 7.68 per cent for January to 8.25 per cent for February.

Analysis shows the actual production for February will be 3,000 barrels per day more than that reached with a net allowable of 2,593,912 barrels daily on Jan. 17, the latest available figure.

Increased production for February will be achieved by maintaining a 20-day schedule for the East Texas field in the 29-day month. This will mean an increase in net allowable of 19,590 barrels. All other fields, which are exempt from shutdown, maintain the same allowables as now are in effect.

Texas crude production will exceed the U. S. bureau of mines estimate of market demand by 37,888 barrels. An additional 220,178 barrels of natural gasoline and distillate will kick total Texas production to 2,618,066 barrels, 258,066 barrels per day above the bureau of mines figure.

Membership has been retained by Garden City since 1938. General school property improvements, increased salaries for teachers and additional teacher training greatly facilitate the meeting of the high standard set by the association.

Forty-five percent of the Garden City High school faculty hold master degrees.

Two Men Given Terms In Prison

Two of three men who entered pleas of guilty to charges of forged drew terms in district court yesterday. The third got off with a suspended sentence.

Jimmy D. Rogers, who allegedly jumped bond here several weeks ago and was re-arrested only last week, was sentenced to two years in the state penitentiary as was Xirxes Tanton, arrested in Arizona last month and returned here.

Dolph Prather drew a two-year suspended term.

Tap Pleads Innocent To War Crime Charges

YOKOAMA, Jan. 22.—Junsho Hayashi, former Japanese Army lieutenant, has pleaded innocent to charges of contributing to the deaths of numerous allied prisoners in Tokyo and Yokohama camps he commanded during the war.

Among the survivors of his mistreatment was listed Wilford A. Moss, Route 2, Tyler.

Among those listed as dead were William H. Knight, El Paso; Edgar B. Parker, Route One, Novice.

It is estimated that it costs about \$4 a year to keep a rat on a U. S. farm.

Schools Approved By Association

GARDEN CITY, Jan. 22.—Application for renewal of membership in the Southern Association of Secondary Schools and Colleges by Garden City High school has been approved.

A certificate of approval has been received by C. G. Parsons, superintendent.

Membership has been retained by Garden City since 1938. General school property improvements, increased salaries for teachers and additional teacher training greatly facilitate the meeting of the high standard set by the association.

Forty-five percent of the Garden City High school faculty hold master degrees.

MORTON'S SALT

PLAIN OR IODIZED

From where I sit... by Joe Marsh

From Sheepskin to Sheep

There aren't too many college graduates in our town. Good honest thinking, yes... but most folks went from high school into farming.

No harm in that! But I admire veterans like Dick Newcomb... who's 23, but going to college under the G.I. Bill of Rights. Intends to be a sheep farmer—but a better-informed, more scientific farmer, with more know-how!

And veterans like Dick aren't letting anything interfere. What little relaxation they allow themselves is in the form of needed exercise, or books, or conversation and an occasional glass of beer with friends.

Seems as if, just by having their education postponed, they've put a higher value on it... and on things like temperance (that glass of beer, for instance), understanding, and good citizenship. And from where I sit, when Dick gets his sheepskin—he won't have lost much time. He'll be an even better farmer than his Dad. (Exactly what Dad wanted!)

Joe Marsh

Army Announces New Program For Negro Enlistment

The Department of the Army has announced a new program for the enlistment of specially qualified Negroes for duty with specified units of the Army Ground Forces and technical services.

Those eligible are: men with prior military service who have completed high school or have been awarded a decoration for valor, the Bronze Star Medal or the Army Commendation Ribbon, and on the standard Army test; and all others who can attain a standard score of 17 or better on the same test. Varying physical standards must be reached, the most rigid being for service with Parachute Infantry units.

All enlistments are by men now in civilian life and the period of enlistment will be for three, four, or five years.

The program, which began the latter part of December and will continue until March 27, 1948, fixes definite weekly quotas by Army areas.

Prior to enlistment, each applicant will be informed that assignment to the specific unit of his choice will be for initial assignment only, and no promise will be made or implied that the assignment is for any specific period of time, or that it is for continued service within the continental limits of the United States. However, if an enlistee proves himself well qualified for the duty concerned, he may reasonable expect to remain assigned to the unit unless eligible for overseas duty.

Case Against Citrus Growers Is Closed

AUSTIN, Jan. 2 (AP)—Investigation of complaints that the Texas Citrus advisory council has been trying to get shippers and producers to withhold No. 3 and cull citrus fruits from the market has been completed and the case is closed, Attorney General Price Daniel reported yesterday.

Daniel said Assistant Attorney General James T. Bryan made a routine investigation in the valley last week and found no agreements being made in violation of state anti-trust laws.

California Citrus Growers Fight Cold

LOS ANGELES, Jan. 22 (AP)—Southern California citrus growers lighted orchard heaters again yesterday as the temperature dropped to freezing or below for the second successive day.

There were no reports of appreciable damage to the citrus crop from yesterday's cold. In the fruit belt, well-protected by smudgepots, Riverside reported a low yesterday of 2 degrees, Pomona, 25.5 and Van Nuys, 25.

Many Never Suspect Cause of Backaches

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backaches quickly, once they discover that the real cause of their trouble may be tired kidneys. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous wastes from your blood. Get Doan's Pills.

ery, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.
