Tea And Open House Given By Music Club

Program Is Given By Representatives From Four Music Groups; Three New Members Elected To Organization

Dresden figurines and miniature Dresden pianos placed on a table lace-laid over blue, set the theme for the annual tea and open house given Thursday afternoon at the Settles hotel by the Music Study club.

A large silver bowl filled with pink snapdragons and white candle whips and set on a reflector centered the table and carried out the chosen colors of pink and blue. Refreshments also carried out a musical motif with sandwiches and individual cakes iced with music clefts.

The room was decorated with roses and fall flowers twined on trellis work and arranged in large baskets. Mrs. J. P. Kinney presided at the register and Mrs. Pitman and Mrs. Keaton poured.

Mrs. Bernard Lamun, president extended the welcome to guests and told of the aims and ambitions of the club. The musical program was announced by Mrs. Houser.

A short business meeting was held preceding the tea and Mrs. Carl Strom, Mrs. E. D. McDowell and Mrs. King Sides were named as active members. Mrs. Hayes Stripling, Miss Lois Carter and King Sides were elected associate members.

Members being tardy or absent from meetings were to pay fines to the treasurer, Mrs. Flewellen. The program consisted of a piano duet by Mrs. Hurt and Mrs. Pitman, representing the Senior Music club, "Salut a Peste" (Marche Hongraise) by H. Wovalski. Dorothy Carmack, accompanied by Mrs. Hurt, sang "Drink to Me Only With Thine Eyes" and Betty Jo Gay, accompanied by Miss Roberta Gay, sang "The Piper of Love" by Carew to represent the Junior Music club.

Jean McDowell played a violin solo, "La Media Noche" by J. Aviles and was accompanied by Mrs. McDowell. She is a member of the Paganini club.

Gene Nabors played a piano solo, "Sonatina," opus 28, No. 1 by Clementi, as a representative of the Allegro club. A double trio from the Music Study club sang "Open Our Eyes" by MacFarland and "Little Blue Bird of My Heart" by Frank H. Grey. Mrs. Schurman directed and Mrs. Kirkpatrick played piano accompaniment. The singers were Mrs. Lamun, Mrs. Flewellen, Mrs. Melvin J. Wise, Mrs. Keaton, Mrs. E. C. Moser and Mrs. O. L. Nabors.

Constipation Relief That Also Pepsin-izes Stomach

When constipation brings on acid indigestion, bloating, dizzy spells, gas, coated tongue, sour taste, and bad breath, your stomach is probably loaded up with undigested food and your bowels don't move. So you need both Pepsin to help break up fast that rich undigested food in your stomach, and Laxative Senna to pull the trigger on those lazy bowels. So be sure your laxative also contains Pepsin. Take Dr. Caldwell's Laxative, because its Syrup Pepsin helps you gain that wonderful stomach comfort, while the Laxative Senna moves your bowels. Tests prove the power of Pepsin to dissolve those lumps of undigested protein food which may linger in your stomach, to cause belching, gastric acidity and nausea. This is how Pepsinizing your stomach helps relieve it of such distress. At the same time this medicine wakes up lazy nerves and muscles in your bowels to relieve your constipation. So see how much better you feel by taking the laxative that also puts Pepsin to work on that stomach discomfort, too. Even finicky children love to taste this pleasant family laxative. Buy Dr. Caldwell's Laxative-Senna with Syrup Pepsin at your druggist today!

Trace Of Some Vital War Minerals To Be Found In Parts Of Texas

HERALD AUSTIN BUREAU AUSTIN, Oct. 12—A trace of six strategic war minerals has been located in West and Central Texas, according to Dr. E. H. Sellards, director of the University of Texas bureau of economic geology.

Of the 17 minerals which the U. S. war department last June asked congress to buy in large quantities for a war stockpile, Texas has chromite, nickel, manganese, tungsten, tin and bismuth.

Chromite has been reported in Gillespie county where Dr. V. E. Barnes, bureau geologist, is now plotting the minerals of the region on a gigantic aerial-photo map.

from where the samples were taken. Manganese, used in steel manufacture, has been found on the Spiller ranch in Mason county. Other deposits, reported but uninvestigated, are in Central Texas and Val Verde county. Manganese has also been shipped in small quantities from Chiapa Summit in the Big Bend country.

Tin, a highly important mineral on the national defense war list, may be developed in Mason county. A prospector recently brought the bureau grains of cassiterite, a tin oxide, but the amount it will produce has not been estimated.

District 3-AA Games Feature Hi School Football Schedule

The Sports Parade

By HANK HART

Far sighted Pat Murphy, who may or may not aspire for the District 3-AA football championship but whose Big Spring high school football team made a gigantic step in that direction last week in upsetting Odessa, made it as easy as possible for his charges in the long ago when the league chiefs met to draw up the 1939 schedule.

To claim that Murphy knew the relative strength and weaknesses of each and every ball club in the circuit is a statement hardly plausible but the fact remains that the local grid tutor did line up a schedule that favored his charges from the start, give them what can be referred to as the "rail" position.

Pat was very fortunate in getting seven of the ten games of the schedule on the home field. Too, he landed such teams as Lubbock and Austin (El Paso) on the warm-up program. Tough foes, both teams with which contact can do a world of good.

One of the more prominent reasons the Steers looked so good against Odessa was because they were subjected to a grueling test with Lubbock the week before, were girded into playing their best because they were facing one of this sector's tougher teams. The benefits of the lessons learned in that game paid dividends as the Steers really hit their stride.

Now Austin looms just ahead and after that Lamesa, Midland, San Angelo, Abilene and Sweetwater.

Austin will prove a supreme test but it is not crucial, simply one in which Murphy can gain sound out his game for the conference scramble.

It would be nice to measure the Panthers but the Bovines will not be pointing for the game, instead will be looking toward the Lamesa game a week hence.

The Bovines play Midland a week after the Lamesa tussle and the Bulldogs, by that time, either should have developed as a title threat or faded from the scene. Playing on the Big Spring field may prove a big factor in deciding the winner in that fracas.

Following the Midland game the Herd hits the road for two games, facing San Angelo in the Concho city November 11 and Abilene in Abilene November 17 before returning

Hartnett 'On The Spot'

CHICAGO, Oct. 12 (AP)—When F. K. Wrigley, owner of the Chicago Cubs, makes up his mind on a 1940 manager, it is going to be an owner's decision, not a "fan's" decision. Eight now Wrigley considers himself a disgruntled fan, and as long as he remains one it's apparent Manager Gabby Hartnett is on the spot. The Cub boss was disappointed at the fourth place finish of his National League entry. He was more distressed at the Cubs' loss in the city series after holding a 3-1 game edge. So Wrigley merely said he was "undecided" who a questioner regarding Hartnett. On Pitcher Dixie Dean, who came to the Cubs for \$125,000 and three players, Wrigley said "he can stay with us," but inferred it would not be at the reported annual salary of \$20,000 Dix has been drawing.

Locals Slated To Employ An Aerial Game

Five of the Austin (El Paso) high school gridgers who started against the Big Spring representatives in the 1938 encounter between the two teams will be in Walter Minar's lineup when the Panthers square off against the Steers here Friday night. Besides Sammy Klirk, who called in the best possible shape for the fracas with Lamesa.

YEARLING GAME IS POSTPONED

The football game between the Big Spring Junior high school Yearlings and the San Angelo Kittens, originally scheduled to be played here Friday afternoon, has been postponed until Nov. 3 at the request of San Angelo school officials.

The 48 states collected \$627,000,000 in revenue through motor fuel taxes in 1937.

Title Scraps Thruout State Are In Making

Ponies And Midland Mix; Angelo Faces Brackenridge

By HAROLD V. RATLIFF Associated Press Staff Texas' embattled school-boy legions girded their armor today for the gridiron stretch drive. "Breather" games will be far between from here on out as the teams jockey for places in the district title play-offs.

Twenty-seven conference titles are scheduled this week along with 12 interdistrict battles and when the smoke has cleared the list of undefeated, untied teams will be below the 20 mark. Four of the games match teams with perfect records with Sweetwater playing at Midland, Brackenridge (San Antonio) at San Angelo, Forest (Dallas) meeting Woodrow Wilson (Dallas) and McAllen tangling with Austin at Houston.

Grid Rules To Be Interpreted For Crowd

MIDLAND, Oct. 12—A football rules interpretation demonstration, to be sponsored by the Midland Junior chamber of commerce, will be held on Lackey field here the night of October 19, it has been announced by officials of the Jaycee organization. All fans from over West Texas are invited to attend the affair which will be staged free of charge. The demonstration will start at 8 o'clock.

Through cooperation of members of the Trans-Pecos Coaches and Officials' association, plus members of the Midland high school football squad, spectators will be given a demonstration of what each rule in the book means. Officials will have the players on two chosen teams to run through different plays, pointing out the legal and illegal plays made by each team. Loud speaking equipment will be set up and as each play is run off and a decision made by one of the officials it will be explained to those present by a regular official of games in this area. Knowledge of the rules and duties of the various officials will be imparted through the show.

As each penalty is called during the exhibition, the officials will give the correct signal and the announcer will explain to the fans how to tell at all times what penalties are for by merely watching the officials after one has been inflicted against a team. Actual demonstration of various illegal plays that cause penalties will, it is believed, be impressive for those looking on.

Officials who will work in the demonstration will be announced shortly.

BAER VS. NESTELL

Arkansas, Texas Christian And Aggies Picked To Win

By FELIX R. MCKNIGHT DALLAS, Oct. 12 (AP)—One bad selection deserves another, so for this week it is Texas Tech and Baylor and Moser of the Aggies...Veterans Earle Clark of TCU and Ray Mallouf of SMU fill out the list. Ernie Lain has blossomed as a kicker, leading the league with a lustrous average of 48 yards on six punts...Kay Eakin of Arkansas leads the passers with 19 completions of 28 losses for 243 yards, considerably ahead of TCU's Jack Odle in second place with 24 out of 42 for 220 yards.

Title hopes for Howard Payne in the Texas conference soared when the New York Yankees made it four straight over Cincinnati...How come? Records of the two teams run parallel. Each has gone to the top of its league eight times since 1927 and six of the Howard Payne grid titles came in the same years the Yankees won the world series...The Yankees pointed the way again for Howard Payne by winning four world series in succession...The Yellowjackets have won the Texas conference title the past three years.

Why is Coach Pete Cawthon of Texas Tech ready to be tied? Look at his team's statistics: Played three games, lost two...Gained 550 net yards against combined yardage of 280 for Gonzaga and Texas Mines, the teams that beat them...The Red Raiders knocked off 23 first downs against 14 for the 190 yards...Soph Jack Crain of Texas is your leading ball carrier, gaining 89 yards per try on 91 carries...Soph Preston Johnston

Statistics on the conference: The Aggies, with 722 yards gained in three games to their opponents' 221, are far and away the most impressive team to date...The Farmers' 478 yards by rushing tops all other team performances by better than 100 yards...Soph Jack Crain of Texas is your leading ball carrier, gaining 89 yards per try on 91 carries...Soph Preston Johnston

signals in the Panthers' 20-6 triumph over the Longhorns in the battle last fall, Milner has Freddy Salem, all-district wing, Walter Arnold, two-year tackle, Wymond Davis, center, and James Brasher, guard, available for duty. The Panthers boast seven lettermen, Halfback Howard Hammonds and Lavender Humphrey and Buddy Sharp, guard, having also earned varsity letters in 1938. Hammonds and Humphrey had to play second fiddle to Jerry Spitzer and Dick Swisher last fall but played enough to merit awards. Come from that Austin secondary along with Spitzer and Swisher is Manuel Ornelas, fine blocking back, but Milnar has another Manuel—Manuel Ferguson—available for duty.

Others expected to start against the Bovines are Lloyd Bloodworth, 160-pound wink, and Jack Crow, 160-pound tackle. Pat Murphy, local coach, is expected to take no further chances of crippling his first string and may use Lefty Bethell, Johnny Miller and other stars sparingly. Bethell went 60 minutes against Odessa last week but Lem Nations, his understudy, can expect to see action against the Panthers.

D. R. Gartman and Horace Bostick, backs, remained on the sidelines. Gartman was not expected to be ready until the Lamesa game. Murphy wants his charges to be

Frame this as one of your favorite football yarns: Freshman Coach Jim Crow of Baylor recalls a Junior college game last year when Dwight Farkis, now a Baylor soph star, called a running play on fourth down deep in his own territory and gained 20 yards...Coach Crow remonstrated with him, warned him of the danger of not kicking on fourth down when in trouble...Came the late minutes of the game, with the same situation...Farkis again ran on fourth down, breaking far downfield for a touchdown...En route back for the kickoff, he grinned at Coach Crow, quipped: "Well, I made it Coach." Big Jim sputtered back: "Yeah, son, but you never would have made it if I had had my side!"

SPORTS ROUNDUP

By EDDIE BRIEZE NEW YORK, Oct. 12 (AP)—Scoop-Parade: Pie Traynor may be invited to join the Glant family as head of the farm system...Brooklyn fans hear the Dodgers may wind up with Ernie Lombardi...Ed Franco and Tony Siano, two Fordham stalwarts, are telling pals the Rams are gunners unless Prof. Crowley picks up a few ends and guards...Each of the four world's series umpires collected \$2,500 as their end.

Extra, extra! Did you know the Reds had a no-hitter against the Yankees in the big series? Our old pal, Cozmas Stamas of Washington scooped the world on it...The last 13 batters in the third game went out in order and the first 14 were retired by Paul Derringer in the fourth, making a total of 27 guys who didn't reach base in nine straight innings.

Here's another tip on Cornell: One of the coaches told a friend the team is 100 per cent stronger than last year. Today's guest star: Helnie Martin, Grand Rapids (Mich.) Herald: "The Reds will have a new theme song next year, but you can bet it won't be 'Yanks for the Memories!'"

Paator vs. Baer in December is being cooked up by Mike Jacobs...Add all-america candidates: Ken Kavanaugh of Louisiana State...Flash—Dan Daniel reveals in the N. Y. World-Telegram today that last winter the Yanks offered Charlie Keller to the Indians for Jeff Heathe.

Hospital note: Tug Wilson, Northwestern athletic director, couldn't attend the Oklahoma game because of illness...Well, if he hadn't been sick before the game, he certainly would be afterwards, so what's the dirt?

Hull-Daisetta Is Unbeaten Since 1935

By WILLIAM T. RIVES HULL-DAISETTA, Oct. 12 (AP)—You couldn't buy a dying man a drink of water today in Hull and Daisetta, next-door neighbor oil field towns in deep South Texas. The Hull-Daisetta football team which the two communities share, went out to meet the ancient enemy at Liberty.

The boys had at stake a delicate victory record that has withstood 38 teams and a switch in coaches and coaching strategy. So nobody wanted to miss the fun. Back in 1935, the Bobcats dropped a game to Cleveland, Tex. High, and then won the next two games, the last of the season. They've been winning ever since.

The streak began under Coach Clyde Gott, whose offense began from the short punt formation. He left in 1937 to accept a better coaching position, and Bill Stages, former Texas Aggie end, took his place. Bill used single wing, box and punt formations, and gave the kids 70 odd plays. The winning ways continued.

The boys—most of them sons of strapping oil field workers—have won the regional Class A title of the Texas interscholastic league three straight years, scoring 942 points to the enemy's 101. This year Stages has the biggest team in the school's history—two full teams and seven substitutes on his No. 1 squad, and a starting eleven averaging about 175 pounds.

In all but three games in two years, the Bobcats have driven to a touchdown the first time they got their hands on the ball.

Westbrook Is Hopeful Of 'Jinx' Win

Westbrook's Wolves, who have been bearing down all week in practice for their engagement with the Foran Buffaloes in District 12's outstanding six-man football game in Westbrook Friday afternoon, hope that the Friday, the 13th complex is working overtime against the Bisons but will not rely on that alone in seeking a win over the highly touted circuit leaders.

The Wolves hope to put up a whale of an argument what with three veteran backs like Red Davenport, Junior Ogleby and Buel Claxton and a tough, heavy line that gave the Buffs much trouble in their last meeting. Ogleby has been a standout all season. He scored six touchdowns against Coahoma last week and is rivaling Bill Pinkston, Courtney, and Foran's Tommy McDonald for the scoring lead.

Coch Bradly Nix, Foran, indicated he believed McDonald would be ready to play most of the time against the Wolves. The great little back has been handicapped by injuries during the past two weeks.

The Buffs won, 22-7, in the two teams' last meeting but had to come from behind in a last quarter scoring surge to realize the win. In the northern sector's other game Garner will face Coahoma at Coahoma while in southern half play Courtney tangles with Garden City at Courtney.

TEXAS HIGHWAY DEATHS MORE THAN THOSE ON FRONT

AUSTIN, Oct. 12 (AP)—All's quiet on the western front—so quiet, in fact, that the 1939 death toll from violence on Texas highways outstripped total casualties along the whole length of the Maginot-Siegfried line since the war started.

The count: Western front—1,116. Texas traffic—1,151. The number killed in western front warfare is the total reported to date in communiques issued by French and British war ministers. German casualties were estimated. The Texas traffic crash toll was taken from state police records of 1,102 dead through September plus an estimate for October based on known death rates.

Texas Citrus Output Estimated At 41 Pct. Of Nation's Total

AUSTIN, Oct. 12 (AP)—Prospective production of grapefruit in Texas, based on Oct. 1 conditions, was placed at 15,200,000 boxes today by the marketing service of the U. S. department of agriculture. Indicated production was 41 per cent of the nation's probable crop. Five years ago Texas produced less than 15 per cent. The forecast for United States production this year is 36,000,000 boxes. Harvesting of the Texas crop began the first week in October but shipments to Oct. 10 were far behind the volume to that date last year. Volume harvesting was expected to begin about mid-October. The marketing service reported that moisture was favorable during the growing season in Texas. Trees that had a reasonable amount of care were in good condition and considerable new wood growth was made during the past season. The 1939 bloom was lighter than that of the previous year but favorable conditions through May and June resulted in less dropping of fruit this year. The forecast for Texas orange production was 2,815,000 boxes compared with 2,650,000 boxes harvested in 1938-39.

AN ANALYSIS OF THE WAR DEVELOPMENTS

By DEWITT MACKENZIE

Storm clouds hung over the Baltic today as the Finnish envoys went into conference with Soviet authorities at Moscow to learn what Russia seeks from Finland after having established virtual protectorates over neighboring Estonia, Latvia and Lithuania. Sturdy little Finland prepared to fight against territorial demands. Her menfolk sent their women and children from the cities into the greater safety of the countryside, and then stood by their arms. So serious was the situation regarded that the possibility of American diplomatic action in event of a Russo-Finnish crisis was being discussed in Washington. Norway, Sweden and Denmark also were said to be prepared to move for peace. In view of the news from Washington one can't refrain from mentioning how Finland religiously paid her war debt instalments to America even in the hardest days of the depression. Maybe those debt payments will prove to have been bread cast upon the waters. The astonishing manner in which Soviet Russia is extending its domination westward, into what Germany had considered her preserves, entitles one to wonder just who inaugurated the Nazi-Communist amenities which started all this. Hitler is Paying

whoever ordered the drinks, Hitler would seem to have paid for them thus far. The question of who made the first move isn't trivial. If we could learn whether by any odd chance compulsion was used by either side to create the Russo-German anti-aggression pact which preceded the partition of Poland, then we could make a much better guess as to who (if anybody) will win the war. It certainly would be easier to see where Germany is going to wind up. In any event, the big winner up to this point is Stalin. It is highly interesting to note the trade agreement announced yesterday between Russia and England. Whether this in any way supports the idea that Moscow is playing both ends against the middle remains to be seen. As regards the underlying feeling between Russia and Germany—so hostile to each other until recently—the consensus of Europe, outside of those two countries, would appear to favor the idea that there still is no love lost between them despite outward appearances. Many observers look for a decisive showdown between them ultimately, possibly at the end of the war, the trend of which Moscow will be able to influence greatly, if present signs read true.

OVERHAUL JOB DENIED—PAUL WANER REPORTED TO BE ON WAY TO BROOKLYN CLUB

PITTSBURGH, Oct. 12 (AP)—The puncheon Pirates who wandered from second down to sixth place in the national league this year may be in for an overhauling—but their new boss won't admit it. Frankie Frisch, who succeeds Harold "Pie" Traynor in the driver's seat, came to Pittsburgh yesterday for a three-day discussion with President Bill Benbowager. But all they accomplished was signing Honus Wagner as coach for another year. He'll keep an eye out for good deals, Frisch admitted. Rumors that Paul Waner might go to the Dodgers were greeted with the comment "that's a new one to me." The same applies to whisperings that Brooklyn might like to acquire Shortstop Arky Vaughan. Waner, who with his brother Lloyd opposes the Pirates perennial brother act, was a holdout last spring in a salary dispute. Rumors of a trade blossomed then, but "Big Poison" signed up. He got a slow start then ended the season as the National league's fourth ranking hitter. Despite Frisch's denial, gossip persisted that next year Paul would be among the missing. The elder Waner has spent 14 seasons in the big time—all with Pittsburgh. The years have taken a toll of

PROPOSED RAILROAD LEASE IS TERMED FALSE ECONOMY

FORT WORTH, Oct. 12 (AP)—Amon Carter, Fort Worth newspaper publisher, told an Interstate Commerce committee hearing here a proposed lease by the Colorado and Southern of the Fort Worth and Denver City and Wichita Valley railroads was "unsound and will prove false economy." He testified before conclusion of the hearing yesterday, calling the proposal a "gross injustice" to 189 employees of the Texas lines, most of them in Fort Worth and Childress, Texas, who, he said, would lose their jobs if the application were approved. Carter said operating economies which railroads claimed would be effected under the lease might prove to be "mythical." He added that public indignation and loss of good will might cost the roads more than they thought they would save. The 1939 bear census in Yellowstone National park disclosed more bears than for any year since 1935. The estimated number of black bears was 483 and of grizzlies 277.

Terrific Storm Adds To Terror Of Passengers Aboard Iroquois, Already In Fear Of An Attack

NEW YORK, Oct. 12 (AP)—A terrific three-day storm and an ever-flowing stream of sinister rumors tortured 788 Americans—577 passengers and 211 crewmen—who reached New York last night on the liner Iroquois—the ship which the German admiralty warned would be sunk supposedly by an allied belligerent. Ablaze with lights, the 12-year-old vessel dropped anchor to the cheers of some 2,000 who had gathered to greet her. Mrs. Mary Stiegelman of Baltimore, one of the passengers, declared, "if ever there were a ship of horrors, this was it. The storm was so bad that some of the officers said they expected the top of the boat to blow off. Everyone was ill. Then, they started searching our baggage and wouldn't say what for. "They made us go into the holds—dark, dirty holds—to identify our

trunks. Some of us were so sick we couldn't go. When we told them we couldn't go, they told us they would smash our trunks open." Several passengers agreed the most frightening of the speculations aboard ship was that a time bomb had been secreted somewhere. Even two United States destroyers which met the 394-foot ship Monday to form a convoy caused alarm at first, some passengers rushing to the conclusion they were hostile vessels. The master of the Iroquois, Captain E. A. Chelton, said he was advised by Washington last Thursday of an extraordinary message from Berlin which warned that the ship would be sunk near the American coast under circumstances similar to those surrounding the destruction of the British liner Athenia. The Germans have contended the British, not they, were responsible for that disaster. "I had the ship searched every day until we got here," the captain said, "but found absolutely nothing." Scores of passengers suffered black eyes and bruises last Thursday, Friday and Saturday, when the little ship "rolled like a tin can" in a heavy gale. Tables were overturned. Sleepers were hurled from their bunks. Much of the bar's glassware was broken. Seasickness abounded.

CHURCHILL ERRED ABOUT CAPTURE

LONDON, Oct. 12 (AP)—Winston Churchill, first lord of the admiralty, acknowledged today he had erred in announcing capture of a German submarine commander who sent him a personal SOS on behalf of the torpedoed British ship Firby Sept. 11. "I was informed by competent authorities," Churchill said, "that the facts were as stated by me (in the house of commons Sept. 26), and that the officer who sank the Firby had been made prisoner. Subsequent examination of the U-boat prisoners of war in our custody at the present time has not, however, confirmed this first assumption."

SEVEN DEATHS IN SCHOOL BUS CRASH

WAR, W. Va., Oct. 12 (AP)—Four more deaths today brought to seven the toll of dead in a school bus crash near here. Three students died soon after the crowded vehicle plunged over a 75-foot cliff after losing a front wheel yesterday. More than 70 others were injured, six of them critically. Latest victims were Hubert L. Beiler, 39, driver of the truck, Ralph Earls, 17, and Charles Colvard, 16, and Lucille White, 16.

AMNESIA VICTIM PROMPTLY IDENTIFIED BY FINGERPRINTS

SALT LAKE CITY, Oct. 12 (AP)—Prompt identification of an amnesia sufferer here as Gilbert G. Hendrix, Jr., socially prominent 33-year-old Albuquerque, N. M., financier, was heralded today as proof of the value of civil fingerprinting.

Hendrix, missing since last Friday, was positively identified last night by his brother-in-law, Fred Reid, who came here by plane from his home at Muskogee, Okla.

Reid's trip here followed announcement by Salt Lake City Police Captain A. E. Hedman that comparison of the amnesia victim's fingerprints tallied with a classification of prints made of Hendrix recently in a federal civil fingerprinting campaign.

"Gilbert doesn't seem to recall anything of the past except that he picked up a man 'with gloves on' somewhere," Reid said, after hospital here.

"We think maybe that man drugged Gilbert, abandoned his automobile in Denver, stole another one there and drove to Salt Lake City, dumping my brother-in-law out here."

SYNOD IN SESSION

OLNEY, Oct. 12 (AP)—More than 200 delegates from Texas and Louisiana are attending the Texas synod of the Cumberland Presbyterian church here.

H. H. Hunter of Garden City was elected moderator last night to succeed Ben E. Rodden of Greggton.

Oregon started the custom of the state gasoline tax in 1919. Since then it has spread to every state.

SCHOOL SAFETY WEEK PROCLAIMED

Bumpers were declared more deadly than bayonets for Texas school children as Governor O'Daniel called upon educators, parents and civic groups to intensify traffic safety education during School Safety Week, Oct. 30-Nov. 4. Directing the state-wide safety campaign will be, left to right in the picture, L. A. Woods, Superintendent of Public Instruction; Governor O'Daniel; Col. Homer Garrison, Director of Public Safety Department; and George Clarke, Secretary of the Texas Safety Association.

MANAGING EDITORS MEET IN N. YORK

NEW YORK, Oct. 12 (AP)—A national conference of front-line newspapermen—the eighth annual meeting of the Associated Press Managing Editors association—opens today.

It is a three-day forum, a broad discussion of the news, feature and picture problems of some 1,400 Associated Press newspapers across the continent—papers of which the editors association is representative. N. R. Howard, editor of the Cleveland News, is its chairman.

The war in Europe, and the vast job of covering it, has a prominent place on the agenda.

Today's program was for round-table talks on AP's world-wide news operations by AP executives, including General Manager Kent Cooper and Byron Price, the executive news editor.

FIREMAN INJURED IN TRAIN MISHAP

GRANBURY, Oct. 12 (AP)—Santa Fe Fireman S. W. Weathered of Cleburne was cut and bruised today in a rear-end collision of two freight trains.

Weathered, 45, was taken to a Fort Worth hospital. The accident occurred at 5:30 a. m. One of the trains had stopped to take on water.

New York's estate tax collections of \$32,650,000 in 1937 were the largest collections in that classification of any state.

Continue Probe In Death Of Stewardess

OAKLAND, Calif., Oct. 12 (AP)—Police continued an investigation today into the death of Miss Lorraine Rosemarie Goodall, 23-year-old air line hostess whose body was found in her blazing automobile yesterday.

The car was parked at the rear of a closed service station. The doors and windows were shut.

Dr. Gertrude Moore, pathologist, said death had been caused by carbon monoxide poisoning. Fire Chief Frank Kispert said a bottle which contained a sedative was found in the attractive girl's purse, and that a package of matches fell from her hand when the body was taken from the charred car.

Officers leaned to the theory of accidental death, believing Miss Goodall might have fallen asleep after driving into the service station and that the fire might have started from a cigaret. They said a fire inside the car could have created poisonous fumes.

TYLER BEDECKED FOR ROSE FESTIVAL

TYLER, Oct. 12 (AP)—Pennants and garlands of roses bedecked Tyler today as the city prepared to entertain thousands of visitors to the seventh annual Texas Rose Festival.

Miss Dorothy Bell will be crowned rose queen at Bergfeld amphitheater tonight as the opening event.

The program included two presentations of the coronation ceremonies, an inter-sectional football game Saturday between Texas A. & M. and Villanova University, a rose show, numerous social events and a vesper service to close the festa Sunday.

Why Not Before The Fact?

Our legislative bodies are composed of an editor or two, a scattering of farmers, some professional officeholders with no determinate means of livelihood except access to the public trough—and anywhere from 60 to 80 per cent lawyers.

Governor O'Daniel vetoed a number of important measures this year after ascertaining from the attorney general's department that they were unconstitutional. For some reason or other he neglected to ask for a ruling on the bill to remit 50 per cent of state ad valorem taxes to the counties.

While trying on the coat I remembered that I had bought a hat in this place several months previously, and had neglected to take the old one home with me. As I needed a good fishing hat, I asked the manager if he thought there was a chance to reclaim the old one, and he obliged by taking me down in the store room, where a lot of neglected hats were on pegs.

Mine was there all right, and so was Tracy's. They were much alike, except that his fitted me better, and I took it. Only after I got it home did I find the name, Spencer Tracy, under the band.

I'm afraid he isn't going to like the looks of the band any more. I hooked a couple of flies in it, and it has a little smear of oil on the brim, from the outboard motor. But outside of that it is in first-class condition, and if Spencer won't accept an apology he'll just have to sue.

Among the crazier organizations that lighten the cares of Manhattan and Hollywood's hard-working folk is the National Dunking association. That tells you everything you need to know. The Creeping Man

by Frances Shelley Wees

Chapter Three TUCK WONDERS "What is on your mind?" Michael asked his wife. "Tuck thrust her arm through his; she commanded, leading him back to the step and dropping down beside him. She put her elbow on her knee and was in the act of propping her chin on her hand again when Michael took possession of both hands and held them firmly."

"Look me in the eye," he said when she struggled, "and answer the following questions, first, who is she? And second, third, fourth and fifth, what's on your mind?" "Tuck sighed again, and not being able to use her hands, pushed her hair behind her ear with the point of Michael's shoulder. "Well," she said, "I guess it really isn't much. I was just thinking."

"Suffering peanuts!" "Tuck laughed suddenly and settled herself more comfortably. "After all," she capitulated, "it may not be much. It may be mostly imagination."

"She is Miss Lissey, Miss Ails Lissey," she informed him. "Michael groaned. "Have we got to live next door to her?" "Do you know her?" "I took Latin from her ten years ago. I nearly killed me."

"Do you know her, Tuck?" "I've been looking at her house for a week. It's as prim as a prune box and the inside is stuffed full of painted cushions and batik curtains and arty furniture."

Washington Daybook

WASHINGTON—The other day we were discussing the emergency and other powers in the hands of the president. Most of the ones we mentioned had been granted in recent years. Below are others, showing that congress began putting power into the hands of the president a long way back.

The senate has asked the attorney general to compile a list of presidential powers. Some senators are afraid the president has too many. Cagily they are seeking to trim out some of the increased powers which the pending neutrality bill would give him. Privately some members express fear of a war not so much because of what would happen on the battlefield, but what they suspect might happen here at home because of the supposedly dictatorial powers of the chief executive during emergencies.

BACK TO 1794 The powers listed here are from an official list which no doubt will form the basis of the attorney general's report to the senate. Starting a way back we find:

Acts of June 5, 1794, and April 20, 1818—Use of land or naval forces or militia authorized to prevent fitting out of armed vessels in violation of neutrality laws. Act of March 3, 1805—Use of land or naval forces or militia authorized to compel departure of foreign armed vessels. Act of July 26, 1892—President authorized to suspend free passage of Canadian vessels through St. Marys Falls canal in case of discriminations against American vessels going through St. Lawrence river.

Act of Dec. 6, 1913—Federal reserve board authorized to suspend reserve requirements of federal reserve act. Act of March 4, 1917—President authorized to establish and make regulations for defensive sea areas. Act of March 4, 1917—President authorized to suspend eight-hour law in emergencies.

Act of May 16, 1918—Postmaster general authorized during war to instruct postmasters not to accept mail addressed to persons violating espionage act. Act of Sept. 24, 1918—Authorizing regulation of foreign exchange by the president.

Act of June 3, 1916—President authorized, in time of war or when war is imminent, through the head of any government department, to place orders for any required product or material with any individual or firm which is engaged in, or capable of, producing such supplies; such orders to be given preference over any orders theretofore placed with such firm. In case of plants equipped for the manufacture of arms or ammunition, the president is authorized, on refusal to comply with government orders, to take over such plant through the head of any department, and operate it through the ordinance department of the army.

HOLLYWOOD—There are two little words guaranteed to make the movie actor see red: Salary cut. Hollywood is hearing those two words again now. The words, timed artfully to the accompaniment of the dull thuds of many heads dropped under a sharpened economic axe, were being whispered before the first bomb was dropped on Poland—and with the expected results.

When and if the request comes, the actors will be skeptical—and with cause for which the producers have only themselves as a tribe to thank. Through the years, the movie-goers have cried wolf a couple of times too often.

Old-timers can recall the trepidation with which they assembled at executive calls to hear the bad news, and to be asked to take a 50 per cent cut. Some of them remember, even, how glad they were to take it—Jean Hersholt saw his munificent \$15 a week slashed to \$7.50; Frank Borzage began drawing \$6 instead of \$12, as did the late John Gilbert and others. And they remember, too, what happened: the movie industry boomed, the American films stole the world spotlight which they have never since relinquished.

Another time was 1927, a year when things were deemed to look pretty black—but it was just before 1929, when the industry reached its peak along with other industries, and "prosperity" was with America, however big the subsequent collapse.

And then there was 1933. The bank holidays, and—although this was merely Hollywood symbolism at work, no doubt—the earthquake. I remember attending wild assemblies of indignant actors at the old Writers' club, hearing spokesmen argue pro and con while the floors rocked and the rafters groaned. It was an industry emergency, the actors were told, and to save the good old moving pictures everybody would have to take a 50 per cent slash. The "cut" won out, finally, with the promise that losses would be restored. The "cut" lasted for the agreed three weeks. I don't know any actor who has been paid back for the "loan" to date.

BRITISH INFORMATION MINISTRY SCORED LONDON, Oct. 12 (AP)—The London Mirror said in an editorial today that the ministry of information, "which absolutely cracks with professors" was costing the government the equivalent of about a half million dollars annually.

The personnel was characterized as "a motley crew of odd job experts, handymen and junk merchants who toss out scraps of stale information when they can think of nothing better to do."

FSA Man Goes To Amarillo

John Barbee, supervisor of Howard, Glasscock and Martin counties for the Farm Security Administration, left Thursday for Amarillo where he has accepted an appointment in the regional office as land appraiser for the tenant purchase division.

He has been succeeded here by James H. Strawn, who has been associated in the work over the three county area. Strawn will assume charge of six cases in Glasscock, 43 in Martin and 90 in Howard county.

A new man attached to the staff is James R. Payne, water facilities supervisor for a 10-county area. His work will cover Ector, Midland, Martin, Howard, Glasscock, Dawson, Gaines, Terry, Andrews and Yoakum counties.

Barbee came to Big Spring as supervisor July 1, resigning a post with the loan division in the regional office. He had previously served as supervisor here from 1935 to 1937.

Together with Strawn, he worked out a dairy herd improvement program during his current three months' tenure, including addition of a dozen purebred Jersey cows and springer heifers and the establishment of two registered Jersey bull circles.

SAVINGS-LOAN ASSN. ASSETS AT \$122,536

Total assets of \$122,536, including \$112,000 in first mortgage loans and \$8,536 in cash on hand, were shown in the regular monthly report of the First Federal Savings and Loan association.

Aggregates of shares was \$115,878, of which \$77,878 is held locally and the remaining \$38,000 subscribed by the government. Undivided profits amounted to \$2,590 and during September three loans were closed in the amount of \$2,955.

WHAT! THEY'VE MADE MAXWELL HOUSE EVEN BETTER?

YES! IT'S BEEN IMPROVED LATELY IN TWO IMPORTANT WAYS!

2 DEFINITE REASONS why Maxwell House is now even richer, more delicious!

1. *New Enriched Blend.* Yes! The famous Maxwell House blend has actually been improved... made richer, smoother, even more delicious and full-flavored than ever!

2. *Improved Roasting Method!* And this magnificent new blend is now roasted by a new method called Radiant Roast. A method that roasts each bean evenly... brings out more fully the extra rich flavor of these choice coffees. No weak coffee from under-roasting. No bitter coffee from parching. Always full-flavored, always delicious!

Chamberlain

will not be the same world that we have known before."

The prime minister added:

"We are not aiming only at victory, but rather looking beyond it to the laying of a foundation of a better international system which will mean that war is not to be the lot of every succeeding generation.

"It is for Germany to make her choice," he asserted, whether to continue the war or show she wants peace by "definite acts and by the provision of effective guarantees" that her undertakings will be carried out.

Chamberlain refrained from giving a specific statement on Britain's war aims despite a widespread demand in some political quarters for such a statement.

This view was brought to the floor of the commons by Sir Archibald Sinclair, liberal leader, who expressed the hope the government would soon go further in defining war aims.

Sinclair said his own conditions for peace included the withdrawal of German troops from Czechoslovakia and Poland and letting Austria decide its destiny by plebiscite.

Chamberlain recounted the various peace efforts including those of President Roosevelt before Germany invaded Poland and added:

"It is after this wanton act of aggression with his own insistence on the use of force that the German chancellor now puts forward his proposals."

Meanwhile, Lloyd George, Britain's World War prime minister, continued to urge the "door to peace" be left open and announced his major speech before the "council of action for peace and reconstruction" would be given tomorrow.

Chamberlain asked in his brief talk:

"What stands in the way of such a peace?"

"It is the German government and the German government alone. Whatever may be the issue of the present struggle and in whatever way it may be brought to a conclusion, the world will not be the same world that we have known before."

"It is no part of our policy to exclude from her rightful place in Europe a Germany which will live in amity and confidence with other nations."

"On the contrary, we believe that no effective remedy can be found for the world's ills that does not take account of the just claims and needs of all countries."

"Whenever the time may come to draw the lines of a new peace settlement, his majesty's government would feel that the future world would hold little hope unless such a settlement could be reached through the method of negotiation and agreement."

"It is not, therefore, with any vindictive purpose that we embarked on the war but simply in defense of freedom."

"It is not alone the freedom of the small nations that is at stake; there is also in jeopardy the peaceful existence of Great Britain, the Dominions, India, the rest of the British empire, France and all freedom loving countries."

Fire Prevention Is Theme Of Kiwanis Luncheon Session

Fire prevention, a "must" on the annual program calendar of all Kiwanis clubs, was the theme of today's luncheon meeting of the local organization at the Crawford.

With Fire Marshal E. B. Bethell in charge, Mrs. C. B. Gentry, seventh grade teacher, was introduced and presented a playlet titled "Trial of Fire." Defendants enacted by students of Mrs. Gentry's class, were kerosene, cigarette, defective chimney, rubbish, gas, defective chimney, gasoline, lightning, bonfire and spontaneous combustion. After each had presented his own case, a verdict of not guilty was returned and "carelessness" — routed from hiding — was found guilty of destruction in each instance.

Eighteen students took part in this presentation. The same playlet will be presented over KBST at 3:30 this afternoon.

A club guest was King Sides, assistant superintendent of schools, who stressed the importance of fire prevention work in the classroom and called attention to this week's work of students in preparing posters along this line which will be judged this afternoon. Cash prizes will be awarded by Big Spring insurance companies for best illustrations, he said.

President Lee Rogers reminded Kiwanians that O. Sam Cummings of Dallas, past international president, would be with the club at next Thursday's meeting as principal speaker, and urged 100 per cent attendance for that session.

LOCAL POLO TEAM TO PLAY SPADE RANCHERS SUNDAY

Big Spring polo players, quite new at the sport, will launch formally into matched play Sunday at 4:30 p. m. in Lamesa when they meet the Spade ranch team.

Four Lamesa veterans were here Tuesday with a string of eight fine polo ponies and taught Big Spring beginners the rudiments of the game. They divided forces for an instructional game on the field south of the city.

The Sunday game will be an aftermath of a feature clash between Lamesa and another leading team of the area. The Spade ranch team, like the Big Spring one, is learning the game.

Among those who are due to appear in the lineup during the game are Lloyd Wasson, Dr. M. H. Bennett, Lewis Rix, Lane Hudson, Sonny Edwards, Pat Patterson and Dr. W. B. Hardy.

Just As Chris Went Exploring, A Reporter Searches For News

By JOE PICKLE

Since the calendar showed a red letter and it wasn't Sunday, the Chief today observed, with a note of sarcasm in his tone, that 47 years ago a guy with a nose for geography — Chris Columbus — discovered America. Hence, the admonition to "go thou and discover some news" or words to that effect.

Of course, nothing startling turned up, or at least not enough to be noticed by your reporter. Some odds and ends, however, include such inconsequential as:

Isabella would have had a tough time hocking the queenly jewels today, on account of the banks being closed.

Police weren't worrying about Columbus, they had found a definition of a policeman which added up to: Condemned if he does, and condemned if he doesn't. Auditorium twin domes maintain their sparkling appearance because they are not pointed.

Finland

learn what concessions the expanding Russian state desires of her.

Envoys of Estonia, Latvia and Lithuania who preceded Paasikivi to the Kremlin yielded there to terms which made those small Baltic republics virtual Russian protectorates, but Finland was expected to be a much tougher customer.

Finland, once a grand duchy of Imperial Russia, had complied with a Soviet invitation to parley but did so without hurry—and it appeared that her answer likewise would be unhurried.

It was unknown, of course, what proposals would be laid before the Finns when they retraced the recent steps of Estonian, Latvian and Lithuanian delegates to the conference table.

Facts with Finland's three little neighbors gave the U.S.S.R. broad trade and transport concessions but also — more significantly — strategic footholds on their soil for Red air, sea and land forces.

There was every indication that the Finns would refuse to be rushed into any pact, especially one involving territorial concessions. Foreign quarters believed that while the Finns were prepared to grant certain concessions they would fight if worst came to worst.

INDEPENDENT ACTION WASHINGTON, Oct. 12 (AP)—

The American government, it was learned authoritatively today, is expressing to Soviet Russia its earnest hope that nothing may occur calculated "to affect injuriously" peaceful relations between Russia and Finland.

It was also learned that the American move was an entirely independent action of the United States government.

Instructions covering the representations were sent to American Ambassador Laurence Steinhardt at Moscow.

An official statement by the department was expected to follow receipt of a report from Steinhardt that he had delivered the representations to the Russian government.

The American action apparently ruled out joint action by the United States, Norway, Sweden and Denmark on the Finnish situation. Dispatches from several Scandinavian capitals indicated their governments were also contemplating diplomatic steps at Moscow.

Deaths decreased 4,105 in Texas in 1938, compared with 1937, the 1938 total being 64,426.

that I have ever been ready and willing, at all times, to support and vote for and did, in fact, so support and vote for a statutory tax measure that would have provided sufficient revenue with which to pay more liberal old age assistance to the aged needy in this state. The tax measure to which I refer is House Bill No. 340, popularly known as the "Omnibus Tax Bill," which received 115 affirmative votes to 28 negative votes and for which I voted at the regular session on May 23, 1938. (House Journal, pages 3719-3720).

Aware, as I am, that the power to convene the Legislature in extraordinary session, and to limit its consideration solely to those things actually submitted, rests entirely with the executive department, I offer no suggestion with reference thereto, but will say that, if the Legislature be so convened, I shall gladly cooperate in enacting a statutory tax measure. I cannot, however, nor do I intend to, pledge or commit myself in advance to any specific tax bill, the provisions of which I have never seen nor read.

I have the honor to remain, Yours faithfully,

Former Boy Scout Executive In This Area Succumbs

ALFRED J. STILES

Services will be held in Minneapolis, Minn., Friday for Alfred J. Stiles, former area executive of the Buffalo Trail council, who died at his home in Minneapolis, 3929 Elliott street, Tuesday evening. Stiles, who came to this area as scout executive in May, 1936, succeeding A. C. Williamson, resigned his post during the summer when he suffered a nervous breakdown. After several weeks in a Fort Worth psychopathic hospital, he was removed to his family home where he was reported recovering. He died suddenly Tuesday evening. Surviving are his wife, two daughters and a son, born September 8, Stiles, a graduate of the University of Minnesota, was 32 years old and had been in the scout work for 10 years, coming to this section from Houston.

Thanksgiving

game will be held on Nov. 30 according to the original schedule. The game will be played here.

From L. A. Eubanks, manager of the Retail Merchants association, came the observation that over the southwest business in general is considering Nov. 30 as the Thanksgiving holiday. Local business, too, apparently was in that frame of mind.

Not so much due to the ironic state of affairs across the waters, but due to the fact that it falls on Saturday, there likely will be no concerted observance of Armistice Day here this year. Because it is on Saturday, business houses will not close.

The football game between Big Spring and San Angelo, down for Armistice Day, may be moved back to the evening of Nov. 10—a Friday. In addition to starting the ball rolling on the Thanksgiving date,

pastors welcomed Rev. W. Eugene Davis, pastor of the Evangelical Baptist church, as a new member and elected C. E. Lancaster, First Baptist pastor, as president; Rev. J. O. Haynes, First Methodist pastor, as vice president, and Ann Lynn, Wesley Memorial Methodist pastor, as secretary. The meeting was held at the First Methodist church and the next session will be at the First Christian church at 10 a. m. Nov. 10.

Renewal Of Pro Fight For Texas?

(Herald Austin Bureau) AUSTIN, Oct. 12.—The fight over prohibition, which has been reasonably quiet for the past four years, may again become a burning issue in Texas politics. This was one interpretation made by Capitol observers of the letter of acceptance which Dr. W. D. Bradford, ardent dry leader, sent to Governor W. Lee O'Daniel this week as he took the job as chairman of the Texas Liquor Control Board. Dr. Bradford's appointment, in itself, was sure to draw fire from the wets, but the SMU professor's letter accepting the job was full of contention and pending warfare. He gave a preview of his actions as head of the liquor control board including the following points: 1. The liquor board should refuse to renew the permits of joints that "infect our highways and of those in the residence sections of our cities. By the exercise of such authority the board can gradually bring wine and beer saloons into the heart of our cities where there is adequate police protection. 2. The liquor control act is "one of the most disappointing pieces of legislation that has ever found its way into the Texas statutes." 3. Dr. Bradford feels that the trouble with the liquor control act is that it legalizes "beer and wine saloons" in spite of the constitutional provision that the open saloon shall be forever barred. By implication, he says that if he had his way, he would keep wine and beer from being sold by the drink, thus wiping out all beer and wine dispensaries. These views are certain to bring a roar of protest from the wets who feel that they are being persecuted because state law forbids the sale of whiskey and other distilled liquors by the drink. If the liquor control board, under Dr. Bradford's leadership, seeks to prevent the sale of beer in roadside taverns by granting permits only to dispensaries in the heart of cities and towns, it will create a storm and will open the old prohibition wounds again. More than that, if the drys start a drive to prevent the sale of beer and wine by the drink, the battle will be on in earnest.

DENES PLOTTING DEATH OF WIFE
DURANT, Okla., Oct. 12 (AP)—The murder trial of John O. Storey, former Durant soap peddler, reached conclusion today after he denied in district court that he plotted the death of his fourth wife, Ethel, who perished screaming last year in a flaming smokehouse. The 60-year-old defendant contradicted testimony of two officers that he had admitted he was responsible for the death. Or cross-examination Storey told how three sons had died violent deaths and that he had collected each time on insurance policies. He contended the deaths were accidental. Mrs. Ethel Storey also was insured. One son, Frank, was drowned in a river near Gainesville, Tex., about three years ago, Storey related, and he received \$1,430 insurance.

BERLIN, Oct. 12 (AP)—DNB, official German news agency, reported from Kaunas today that the Lithuanian sejm (parliament) had been called for Saturday to discuss ratification of the Soviet Russian-Lithuanian mutual assistance treaty.
ALEXSUND, Norway, Oct. 12 (AP)—A Norwegian fishing boat skipper asserted today that he was trapped in the midst of an hour and a half North sea naval battle Monday afternoon between five British warships and about 150 German planes. The captain of the fishing boat Kvaloy said bombs dropped on all sides and the crew, fearing their ship would be sent to the bottom, prepared to take to the lifeboats. He said his crew could see that neither ships nor planes were hit, but after the warships steamed away they heard an explosion and saw a fire column on the horizon. (Both the German and British admiralties reported a North sea engagement Monday between planes and warships. The Germans asserted their bombers scored 10 direct hits, but the British contended there was no damage.)

Creditors Sue To Collect Profits Of Insolvent Firm
INDIANAPOLIS, Oct. 12 (AP)—Charging fraud, 11 general creditors of the Cleveland Terminals Building company sought through a federal court suit today to obtain profits they had made off the insolvent firm. The suit, filed yesterday, was against George A. Ball and F. B. Bernard and the George and Frances Ball Foundation. Ball is a glass jar manufacturer and Bernard a banker in Muncie, Ind. Plaintiffs said the two men had made millions on collateral security on defaulted notes of the company. The company was a key holding in the railroad empire of O. P. and M. J. Van Swearingen of Cleveland, who died in 1935 and 1936. Ball nominally controls this empire.

IN AT START—Senators Tom Connally (left) of Texas and Elbert Thomas of Utah, Democratic members of senate foreign relations committee, are credited with having helped draft the neutrality bill being considered by a special session of congress. Since the war began Sept. 3, the American public has been signing petitions, arming, writing to congressmen about the bill.

It Did Settle Argument
ATHOL, Mass., Oct. 12.—This is one way of settling an argument, albeit a little expensive. One young man held that a main street curbing was high enough to stop a coasting automobile. The other said no. So they lined up a car, owned by one of them, gave it a push and let it coast. It coasted into the curbing, jumped over and smashed two plate glass windows in a store. That'll coast them \$100.

Bowen Must Abandon Unfair Policies
FORT WORTH, Oct. 12 (AP)—Bowen Motor Coaches, a corporation, today was ordered by the national labor relations board regional office here to cease and desist unfair labor practices of which it has been found guilty by James C. Hatten, NLRB trial examiner. Hatten based his findings on the hearing of evidence in the complaint of the Brotherhood of Railroad Trainmen here last spring. Hatten, in an intermediate report on the case, set out that the bus line by refusing to bargain collectively with the BRT and by interfering with union activities of employees was guilty of unfair labor practices.

CAPITAL TRUCE—Their difference of opinion didn't prevent this friendly meeting of Sen. Key Pittman (right) Democrat of Nevada, foreign relations committee chairman who's guiding the bill, and Sen. William E. Borah, Idaho's Republican isolationist who opposes repeal of arms embargo. Under the bill, the President could designate combat areas barred to Americans.

Counts, Nonetheless
PLYMOUTH, Oct. 12 (AP)—The city of Plymouth was ordered to pay a fine of two pounds (about \$8) to itself today for failure to blackout the Guild Hall.
The magistrate who imposed the fine said it was merely taking money out of one pocket and putting it in another, but the conviction would be on the record at any rate.
WAREHOUSE ENTERED
The sheriff's office Thursday was investigating a break into the Curie warehouse at E. 1st and Golland streets where a distributing company maintains a stock of beer. Whether anything was taken was undetermined pending a complete check. The department also had a report on a car stolen in the Mexican section of town Wednesday night.

Frisco Dock Tie-Up Is Terminated
SAN FRANCISCO, Oct. 12 (AP)—San Francisco's latest dock tie-up, which had halted negotiations for a new coastwise waterfront agreement, was ended today when the CIO ship clerks' association agreed to call off its pickets at the Panama Pacific company dock.
Employer spokesmen called the ship clerks' action, voted last night by the membership, "a real benefit" to shipping. Definite peace, however, still was a long way off on the waterfront because of the necessity of negotiating a number of new contracts.
At the same time the ship clerks voted to withdraw the pickets, they voted their policy committee the authority to call a strike at any time the committee thinks employers are not negotiating in good faith. The clerks, unlike the longshoremen who agreed to an extension of the old contract which expired September 30, are working without a contract.
Hoover Expresses His Confidence In Poland To Survive Oppression
NEW YORK, Oct. 12 (AP)—Former President Herbert Hoover believes Poland will rise again. "Oppression," he told 10,000 Polish-Americans last night, "is one of those forces which regenerates the oppressed and destroys the oppressor. No matter what may be signed on papers called peace, there can be no permanent stability and no permanent peace to either Germany or Russia so long as oppression of a great and independent race continues."

EX-CONVICT SOUGHT IN FARMER'S DEATH
GUTHRIE, Okla., Oct. 12 (AP)—Officers today sought a 20-year-old ex-convict for questioning in the axe slaying of A. M. Cupp, 73, pioneer Logan county farmer. Cupp's body was discovered in a lonely shallow grave late yesterday by neighbors who had hunted since the farmer's disappearance Sunday.
Development in recent years of five United States mineral industries, natural gas, helium, natural carbon dioxide, potash and sulphur is attributed largely to underground explorations for oil.

**Would Enact
Tax Remission
In New Form**

Herald Austin Bureau

AUSTIN, Oct. 12—A re-enactment of the recently-vetoed statewide tax remission bill so that the money would be used by counties only for direct relief was proposed here by Rep. L. C. McDaniel of Dallas.

Attorney General Gerald Mann ruled several days ago that the tax remission bill, donating \$5,000,000 a year to the various counties, was invalid.

Under the bill counties could have used the money for any purpose not prohibited by the constitution, and many counties planned to use the additional funds to take care of their relief burdens.

When Mann declared the bill invalid, he cited two main reasons—1) the money was not appropriated for a specific purpose, and 2) the bill violated the constitutional provision which says that taxes can be remitted only in cases of dire calamity.

Representative McDaniel proposed to get around these constitutional objections by having the legislature re-enact the bill, declaring that the relief situation throughout the state constitutes a dire calamity and providing that the tax remission money can be used only for relief.

The Dallas lawmaker laid his plan before Gov. W. Lee O'Daniel Tuesday, but the governor declined to commit himself until 1) Mann gave an indication as to whether these changes would overcome the constitutional barrier, and 2) until the governor decides whether to call a special session of the legislature.

In the event O'Daniel does not call a tax session of the legislature, McDaniel will then ask him to call one on relief.

**'High School Day'
To Be Observed
At ACC Oct. 21**

ABILENE, Oct. 12—All high school students living in West Texas are being invited to the annual "High School Day" at Abilene Christian college Oct. 21.

Featured in this annual event will be the football game between A. C. C. and Southwestern University to which all of the high school students will receive free tickets.

Several thousand identification blanks are being mailed to high schools in the surrounding 61 counties. These blanks, signed by a high school instructor, will be presented for the football tickets. Provision will be made for students from schools not receiving these blanks previous to October 12.

Last year there were 1,671 visitors attending from 93 towns and cities of West Texas. This year the number is expected to pass 2,000.

In addition to the game, special programs and affairs are being planned during the morning and early afternoon.

**Mrs. Stark Is
Death Victim**

ORANGE, Oct. 12 (AP)—Mrs. Nita Hill Stark, former national grand secretary of Pi Beta Phi sorority, and the wife of the capitalist, H. J. Latcher Stark, died at her home here last night. She was 49 years old.

Funeral services will be held here tomorrow.

Mrs. Stark was born in Austin in 1891. She was graduated from the University of Texas, and with her husband, had many noteworthy gifts to the institution.

She was one of the most enthusiastic admirers of the university's football team and only recently had equipped the lounge room of Hill dormitory, a new home for Texas University athletes.

The dormitory was named for her father, Dr. Homer Hill, who was for many years physician of Longhorn athletic teams.

Mrs. Stark served as national secretary of Pi Beta Phi for several years, resigning in June 1938 because of ill health. She also had served as province president and as vice-president.

Her philanthropies were extensive. Because of her interest in young womanhood Baylor University in 1936 conferred on her an honorary degree of doctor of laws.

Her husband and twin sons, Homer and Bill, 16, were survivors.

**G. B. Dealey To
Be Honored**

GALVESTON, Oct. 12 (AP)—Sixty-five years ago today a 15-year-old immigrant boy from England went to work as an office boy for the Galveston News at \$3 a week.

Tonight 400 outstanding newspaper publishers, editors, educators and businessmen from Texas and other states will join in paying tribute to that boy—now a man of 80—George Bannerman Dealey, publisher of the Dallas Morning News and allied publications.

Mr. Dealey has a record of 85 years of continuous service.

The program will begin at 7 p. m. and will be broadcast over a national network (NBC). The dinner is being given by the association of the Texas Newspaper Publishers' association. Amos G. Carter, publisher of the Fort Worth Star-Telegram, will be the toastmaster.

Speakers will include Walter N. Dear, publisher of the Jersey Journal, Jersey City, N. J., and vice president of the American Newspaper Publishers' association; former Gov. W. P. Hobby, publisher of the Houston Post; Mayor Woodall Rodgers of Dallas and Major Lenox B. Lohr of New York, president of the National Broadcasting company.

**Farm Commodities
Advance In Price**

AUSTIN, Oct. 12 (AP)—All Texas agricultural commodities showed moderate sharp advances by mid-September. U. S. agriculture department's marketing service office here reported today.

Advances in grain and feed items, rice and wool were sharp and noticeably higher than on the same date last year, the service said.

"Of the meat animal group," the report stated, "all prices were higher than a month ago with hogs showing a marked price improvement. With this advance, however, hog prices still were lower than on the same date a year ago."

Butterfat prices from mid-August to mid-September were stronger than any of the dairy product group and were the only ones above the September, 1938, level.

The service said good supplies of poultry products were somewhat responsible for chicken and egg prices being considerably under last year's prices.

Turkey prices advanced one cent per pound, the same rise as was recorded last year, and general farm product advances also were reflected in the September reports of milk cow and work stock prices.

Prices paid by farmers also increased during the month ending September 15.

**ELECTRIC SERVICE
FOR MEXICO TOWNS**

MEXICO CITY, Oct. 12 (AP)—Seventeen small towns bordering the picturesque lake of Patzcuaro, state of Michoacan, where President Cardenas is vacationing, will be given electric service as a result of a presidential order.

Establishment of the plan to supply the towns with electricity will be undertaken by the secretary of national economy.

The president also ordered the construction of a highway around the lake.

BAND COMES FIRST

NOTRE DAME, Ind., Oct. 12 (AP)—The first team ever to play the Irish in Notre Dame stadium—Southern Methodist—will return here Saturday but the publicity drum beaters seem more concerned over the famed S.M.U. band, one "dope story" even pointing out that "bandmaster Frank Malone lost three men by graduation."

**British Air Training Schools In
Canada Put New Twist On U. S.
Action Under Monroe Doctrine**

WASHINGTON, Oct. 12 (AP)—Establishment of British air training schools in Canada posed a new problem today for United States officials who have been studying the relation of the Monroe Doctrine to the European war.

Two statements of President Roosevelt were regarded as being of special interest in view of the announcement by the British air secretary, Sir Kingsley Wood, that advanced training schools for British, Australian and New Zealand fliers would be concentrated in Canada.

One was made last year at Kingston, Ont., when Mr. Roosevelt said the people of the United States would "not stand idly by" if Canadian territory were violated by any other empire.

The other was at a press conference last month, when he said the Monroe Doctrine would not countenance the transfer of Canada to any other power.

The placing of air training bases in Canada, might modify such possible United States assistance, it was believed in some quarters, although no official stand has been disclosed.

The Monroe Doctrine, according to some interpretations, does not exclude an attack on a western hemisphere nation by an outside nation, but it declares the United States' opposition to any foreign nation remaining in possession of territory so occupied.

Thus, these interpretations hold that if Germany should attack Canadian air bases, but not occupy any of her territory, the United States would not be affected, insofar as the Monroe Doctrine is concerned.

**WAR BAN PLACED ON
SHIP INFORMATION**

HOUSTON, Oct. 12 (AP)—No information concerning ships will be released by the customs office, G. J. Geyer, deputy collector of United States customs here, announced today.

Geyer said he had received instructions from Washington that the record of entrances and clearances cannot be made public during the period covered by the presidential proclamation that a state of war exists between foreign nations.

with a White House secretary yesterday, but did not disclose the nature of the conversation.

American participation in any diplomatic attempt to prevent a Baltic conflict might take various forms. President Roosevelt might issue a peace appeal to the Russian and Finnish heads of state, as he did to Adolf Hitler and the Polish president late in August.

Or the state department might reaffirm in a notice to Russia the United States' refusal to recognize the acquisition of territory by force. Secretary Hull last made such a statement after the conquest of Poland.

**US Action In
Finland Case
Pondered**

WASHINGTON, Oct. 12 (AP)—The possibility of American diplomatic action in event of a crisis between Russia and Finland was under discussion today in official quarters.

It apparently depended on the progress of negotiations at Moscow between soviet representatives and a Finnish delegation.

There was a belief in some quarters that nothing would be done unless the negotiations broke down, while others thought steps might be taken before war in the Baltic became likely. A breakdown, this second group argued, probably would be followed immediately by conflict.

Norway, Sweden and Denmark were understood here to be ready to make a move for peace if it was deemed advisable.

Hjalmar Procopé, Finnish minister to the United States, talked

For Stuffy Nostrils
use MENTHOLATUM

Link them together in your mind!

IT'S easy to get quick relief from stuffy nostrils with Mentholum. This soothing ointment reduces the local congestion, thus helping to clear the breathing passages. Mentholum also checks sneezing, sneezing, soreness due to colds. It soothes irritated membranes and promotes healing. And its vapors likewise carry comfort deep into the cold-infested air passages.
