THEY DON'T LIVE IN RISING STAR.

The Canadian Record, outstanding newspaper of the North Plains country, names 13 sure-fire ways to kill your home town. They are very timely and in many ways interesting. Here is what the Canadian editor says:

Don't pay your taxes. Let the other fellow pay his and then you ride like a parasite on his money, then fuss because the streets are not kept up.

Never attend any of the meetings that are for the town. If you do, arrive late, don't have anything to say. Wait until you get outside and then cuss the ones who tried. Or, when there, vote for everything and then do nothing; then the next day, find fault with everything that was done.

Get all the City will give you, but don't give anything in return.

Talk cooperation, but don't cooperate.

Never accept an office. It is easier to criticize than to do things.

Don't do any more than you have to, and when other people willingly and unselfishly give their time and ability to make a better town, howl be-

cause the town is run by a clique. Don't back your fire department. If they work to bring insurance rates down, tell everybody that is what they are supposed to do. Don't ever thank them for donating their time and endangering their lives that you might have a safer town in which to

live. Look at every proposition in a selfish way. If you are not the one that gets the most good out of it, vote against it. Never consider what it will do for the town as a whole.

Don't do anything for the youth of the town. many interesting places and the treasures were lost, even though lis. Also visiting were Lt. Er-Criticize them. Just forget that they are the leaders of tomorrow. Keep your feet on them.

If you have good leaders, don't follow them. The best way to do is take a jealous attitude and talk

about everything they do. Don't work on any committee. It is easier to criticize the ones who do, and talk about them if things

are not run like you want them. Don't say anything good about your town, but continue to live there and pretend that if trouble comes your way it is a neighboring town that will visit you while you are ill; bring out their fire department if your property is burning; comfort you if you lose a dear one; stand back of you in disaster; protect your children and try to make your town a

cleaner, safer place in which to live. Don't support your local business places. But if you need a donation, ask them for it and then howl and raise cain if they do not see fit to donate. Ex-

pect them to back you, but don't back them. Know anybody like that?—Canadian Record.

Since adding our lot with the people of Rising Star and even before we knew too many people here, we never did hear any person, businessman, civilian, or anyone else make an unkind remark about his neighbors—all said Rising Star was a mighty good place to live and that all the people worked for the best interests of the community. Words cannot express the heartfelt thanks we wish to convey to our neighbors for their help during my illness.

HAVE YOU EVER HEARD A STORY about someone that made you want to meet him? Well, I've just heard one. A story

about a sincere, patriotic citizen who is doing something practical about his future and the peaceful future of his country. Investing in U. S. Savings Bonds. A story about you! And one that ought to make you feel proud.

I felt good, too, when I heard what a great success story the Savings Bond Program has turned out to be. For you see, I'm a Bond owner, too! And when you stop to think about how you and I and millions of our friends and neighbors all over America now own more than 49 billion dollars worth of our country's interest-earning Bonds-it makes you proud to be an American!

Great News! New money-earning features for U. S. Savings Bonds!

FIRST—Thanks to new Treasury regulations, every Series E Bond you invest in begins earning interest after only 6 months. It earns 3% interest compounded semiannually when held to maturity.

SECOND—Every Series E Bond you own can now go on earning interest for 10 more years after it reaches the original maturity date.

THIRD-All maturing E Bonds automatically earn interest at the new rate (average 3% compounded semiannually) for 10 more years.

FOURTH-If you want to be paid the interest your Bonds are earning every six months, ask at your bank about the new Series H Bonds. /

The church is also beautifully built. Four S. S. rooms, nice pews, and Chancel Rail. The auditorium will seat 150 people.

Boy Scouts Leave For Camp Billy Gibbons on Monday

Monday was a happy day for

Monday was a happy day for Boy Scouts all over eight counties of the Comanche Trail Council, which has headquarters in Brownwood, when they gather at the council summer camp site on Brady Creek in San Saba County. The camp is located on the Gibbons ranch 16 miles of Richland Springs. Billy Gibbons is the ideal wilderness Boy Scout camp with wild turkey, deer and numerous small animals in the area. Many Scouts see their first wild deer and turkey in the open. Swimming water is spring fed and changes constantly, making the swimming hole

the open. Swimming water is spring fed and changes constantly, making the swimming hole the type the Scouts' dads and granddads remember so well. The camp this year is a flood of flowers and greenery. Drinking water is furnished by a deep bored well that contains one of the finest limestone types of water, stored in a large concrete tank and treated for further precautions. The camp has a large mess hall that will accomodate 350 Scouts at one time. It has an officer, canteen, first aid room and refrigeration come. A large 16 x 120 foot ranch style porch is now under construction. Church services will be held at 9 a. m. Sunday and the final awards and goodbyes will be said at the noon meal.

Camp Billy Gibbons.

Those making the trip are: Carl Weathers, Gary Scott, Kenneth Ridens, Jack Kaltenbaugh, Howard Walker, Jack Shults, Brooks West, Burl Bailey, Wesley Walker, Charles Steel and Donald Ray Crisp.

Charles Steel and Donald Ray Crisp.
