Growth and Problems are Twin Companions

....and go along together in the evolution of Progress. Two years ago in a Western city, we witnessed the processing of 4400 County Clerk documents into the records of a large title plant. Every day it was the same. Every instrument filed added another entry to someone's abstract and another problem to the abstracter who processed it. And as we walked away, we thought of our big responsiblity in preserving your title records even in this small county. Yes, it's a problem, but Progress in action!

Telephone Company Asking For Increase

AT&T, parent company of the Bell System, is asking for a 10.5 percent increase in rates for all out-ofstate long distance calls. It is their first request for a general rate increase in over four years. The announcement was made locally by Continental Telephone.

AT&T is asking the Federal Comunications Commission for an across-the-board increase of 10.5 percent. The company has asked that this take place in two steps. If approved, the first increase would raise rates by 5.65 percent and become effective June 1, 1980. On October 1, 1980 an additional increase would become effective, thus raising

of 10.5 percent. Armstrong, Customer terstate companies concur in businesses for pro-AT&T charges for long viding interstate toll distance services so free "800 service". that rates are uniform. Therefore, changes in long distance rates approved for AT&T would affect all telephone users the nation regardless of which company provides the serviced.

The spokesman explained that each non-Bell company remits long distance revenue generated by their customers to AT&T. Through an elaborate

settlement process, they are then reimbursed for their cost in helping to provide the service.

As an example of the proposed rate applicable for long distance calls, the full weekday direct dialed rates for a one minute call from most Texas points to New York City would go from the current 52 cents to 55 cents in June, and up to 57 cents in October. That same call dialed at night after 11 p.m. would go from 21 cents to 22 cents, and finally to 23 cents.

The increase would apply to all out-of-state long distance calls made in the U.S. (except calls to and from Alaska, Hawaii, Puerto Rico, and the Virgin Islands); calls current rates by a total .involving Mexico, Canada, and all According to Alan foreign points; inleased Service Manager for business circuits; and Continental, all phone charges made to

What Saith The Scriptures?

Jon N. Bailey Question: Why does the Bible place so much emphasis on the blood of Jesus?

Answer: The blood of Jesus provides for us the most important blessings of life.

The blood of Jesus is the source of our forgiveness. The scriptures teach that "all things are cleansed with blood, and apart from the shedding of blood there is no remis-(forgiveness)" sion (Heb. 9:22). The blood which Jesus shed on the cross was "poured out for many, unto the remission (for the forgiveness) of sins" (Matt. 26:28).

The blood of Jesus is also that by which we are justified. The apostle Paul wrote, "Much more then, being now justified by his blood, shall we be saved from the wrath of God through (Rom.5:9).

The blood also redeems us from sin. The word "redeem" in the New Testament literally means "to obtain release of a slave or captive through payment of a ransom". The ransom of our redemption was "the precious blood of Christ" (1 Pet.1:18-19), for in Jesus "we have redemption through his blood"

(Eph.1:17). The blood of Jesus also cleanses us from sin. Those who shall dwell with God are described as having "washed their robes, and made them white in the blood of the Lamb" (Rev.7:14; cf.1:5). To a person who is still in his sins, God says, "And now, why tarriest thou? arise and be baptized, and wash away thy sins, calling on his name" (Acts. 22:16). To those who have initially washed away their sins through faith and baptism into Christ's death (Rom.6:3-4), God promises us continually cleansing. The apostle John wrote, "if we walk in the light as he is in the light, we have fellowship one with another, and the blood of Jesus his Son cleanseth us from all sin" (John 1:17).

These and other precious reasons are why the scriptures give so much emphasis to the blood of Jesus. If you would like a free booklet on this subject, or if you wish to have a question Bible answered, please write

We must keep the eye fixed on Jesus, feeling or no feeling. We should seek to faithfully perform every known duty, and then calmly rest in the promises of God.

At times a deep sense of unworthiness will send a thrill of terror through the soul, but this is no evidence that God has changed toward us, or we toward God. The Third Step, Prayer was discussed and "Sweet Hour of Prayer" was played. The Fourth Step, "Walk", Walk in the Light and the song, "I'll Walk With God" was played. Joyce had the subject--Christ Calls Us To Follow Him, and gave a prayer.

City Receives Sales Tax

State Comtroller Bob Bullock Friday said city sales tax rebates for the first quarter of 1980 grew substantially compared to the first quarter of 1979 but the increases don't fare as well under close inspection.

The apparent increases are partly offset by the fact that during the first quarter of 1979 city sales tax allocations were down due to late filings and a backlog of 2400 returns in the agency's accounting system, Bullock

System provements have eliminated the backlog and strengthened the agency's ability to quickly handle returns and put more money into the system for rebates, he said.

Bullock said 1980 rebates to cities from the first of the year total \$138.7 million, compared to 1979 payments of \$100 million over the same period, an increase of about 38 percent. He said 924 Texas cities will share \$78.6 million in sales tax rebates during March, compared to \$56.6 million in March of last year.

"A 38 percent growth at first blush seems astonishing, but my current revenue estimate projects that sales tax revenue would grow 26.5 percent during the current budget period and we've got 17 more months before we'll close the books," Bullock said.

Rising Star received \$4214.75 for the period ending February 28, 1980. This is up from the \$2275.72 the city received for the same period of last year. Total payments to date are \$5877.94.

The city sales tax is collected by merchants and other sales tax permit holders along with the state sales tax and is rebated monthly to cities in which it is collected by the Comptroller's office.

Last weekend we had one of the most unusual events I've seen during my stay in prison.

We were visited by the Bill Glass Evangelistic Crusade. This is not your run of the mill group of preachers.

Bill Glass, who is the head of this unusual troup, is a famous Pro football great for the Cleveland Browns. Since retiring from Pro-football he has dedicated his life to bringing the gospel to prisons and institu-

They moved a flatbed trailer into one corner of our prison yard. This was the stage where we witnessed some very unusual performances.

We had the shows Friday afternoon, three shows Saturday, and one show Sunday morning. In addition to the great performers on stage there were fifty two counselors mixed in with the crowd. These counselors came from all over the country at their own expense to help with this crusade. During, before and after every performance they moved through the crowd offering to talk and help in any way they could. I spoke to most of these counselors at one time or another and found them all to be a very sincere and dedicated group. But the most unusual part of this crusade were the performances upon the

flatbed trailer. We saw a magician who kept us in stitches with his funny slight of

hand. A former Mr. America gave us an exhibition on his physique and then answered questions on body building and weightlifting. Another show was a musical team, a singer and an organist who made some very beautiful music for us.

One of the best received shows was by an expert on Kung Foo who chopped a watermelon in half on an inmate's belly with a sword, without cutting the inmate, I might add. A world champion power lifter lifted almost seven hundred pounds of weights at one time. .

A former probasketball player challenged anybody in our prison to a game of one on one. We brought out our best man but he didn't have a chance. He beat our man soundly in a very humorous manner, then answered questions on basketball.

Hardly a man in our unit missed the appearance of Earl Campbell of the Houston Oilers. He answered questions about football and told us a little about his private life.

There were many wonderful and exciting things that went on in this crusade. I can't begin to tell them all here now. But the bottom line was all these men were Christians. They came here to tell us they loved us and Christ loved us. They were a very inspiring group. And myself as well as many of my fellow inmates are very glad to have met them.

WHY YOUR PHONE KEEPS WORKING WHEN THE T.V., LIGHTS AND TOASTER DON'T.

In the event of a power outage, it's good to know there are a couple of things you can depend on.

Like a reliable flashlight with a fresh set of batteries.

And your telephone. Unlike regular electrical appliances, your telephone won't go dead during a black-out. That's because it's backed up by a secondary power system consisting of batteries and a standby generator.

But these batteries are unlike anything you'll find in a flashlight. Ours are large enough to fill a room. The batteries are kept in

constant charge by commer-cial power. Then if there is an outage they're switched on automatically until our standby generator has time to take over.

Naturally this system is more expensive than one relying solely on regular commercial power. But it helps make your phone system more dependable, particularly in the event of an emergency.

And we think it's impor-

tant that you can depend on your telephone during the times when you depend upon it most.

You can always call on us.
