First Meeting Of Senior P-T A. Well Attended

Around 60 Attend Get-Together Of Teachers, Parents

First meeting of the Senior High PTA—a general get-together of teachers and parents—Monday evening was held in the high school library with 60 present.

Community singing under the direction of Bill Dawes opened the meeting and a program followed announced by George Gentry. After a devotional by the Rev. P. Walter Henckell, Mrs. Hayes Stripling gave a talk on the Texas birthday of the Parent-Teachers Congress which occurs October 19. PTA work in the state began in 1909.

"Relation Between Parents and Teachers" was discussed by Martelle McDonald. Billy Lynn played a piano selection and Bill Dawes sang two numbers, "Where'er You Walk" by Handel, and "By Beaming Eye" by McDowell.

In a business session presided over by Mrs. Bernard Lamun, president, H. D. Cook was elected auditor to replace H. C. Milburn and the unit accepted a proposed budget of \$75 for the year.

As a project for the year, the PTA is to sponsor a girl student by keeping her in school during the year. Mrs. W. E. McNallen made an appeal for clean literature for children and asked the cooperation of the teachers and parents in putting over the project.

During the social hour the hospitality committee, composed of Mrs. M. M. Edwards, Mrs. L. W. Croft and Lillian Jordan, served punch and cookies.

READING AND WRITING

"IN HAZARD," by Richard Hughes; (Harpers; \$2.50). Unless you are quite insensitive to the uses which can be made of words, you will not stop reading Richard Hughes' "In Hazard" until you have finished it. It is a study in monochrome—only one thing happens, and it is all one color. But it is so subtly contrived that this becomes a virtue, not a defect.

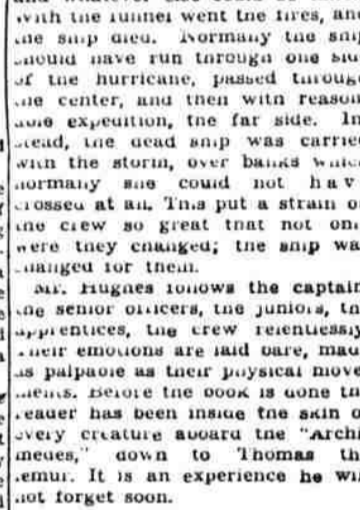

Probably "In Hazard" can be read as the story of a storm, like Conrad's "Typhoon." Actually it seems to this reader more a study of fear, or at least a study of the effect produced on the bodies and minds of a ship's crew by an unexpected emergency which probably will finish them.

The "Archimedes" was a 9,000-ton freighter built in the best British tradition, manned by British officers with a good Chinese crew in the stockhold and on the deck. The company which owned her was sound, quite as sound as she "Archimedes" herself. And one day the ship left Norfolk for the far East.

A few days later, in the Caribbean, a hurricane hit her in spite of the fact that by all the weather rules the hurricane season was weeks past. It was not even a usual hurricane; it was much worse than the usual, and its unpredictability extended to its actions after it caught up the "Archimedes." Nothing happened as it should. Bit by bit, the storm shared off

Members Of Coahoma Study And Civic Club Feted With Banquet

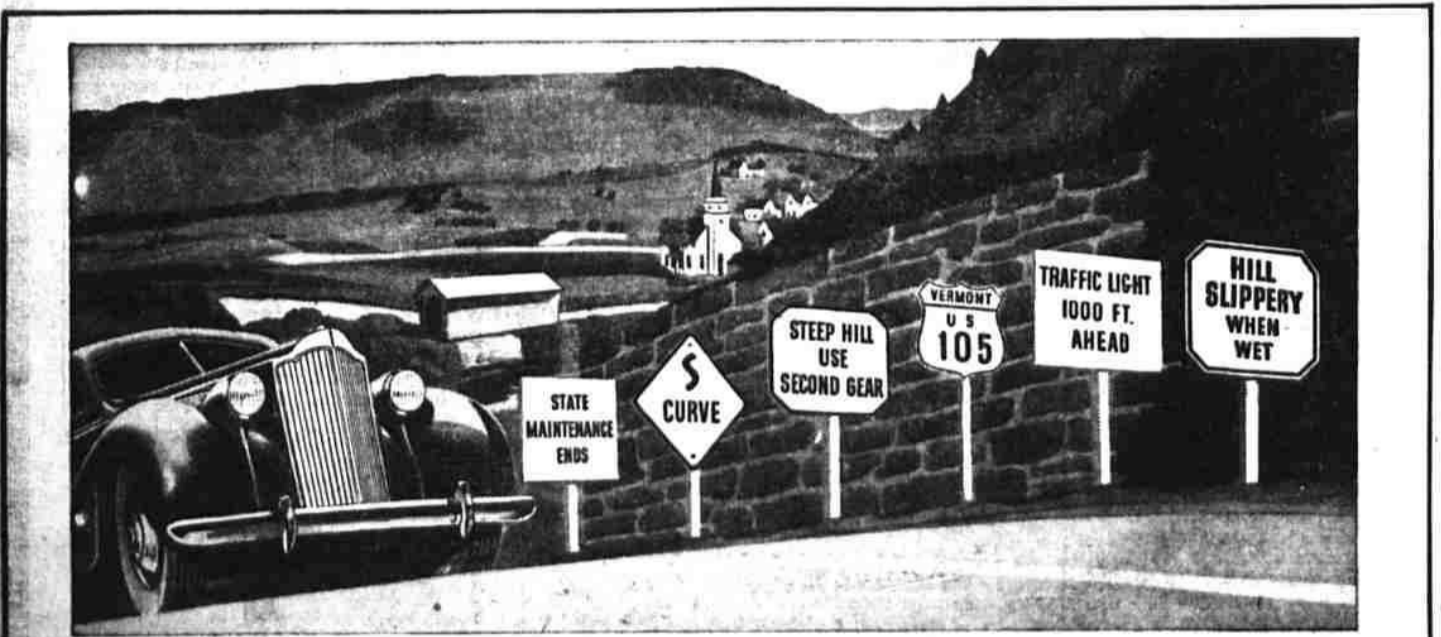

A banquet held in the new dining room of the home economics department of the Coahoma school recently was given honoring members of the Coahoma Study and Civic club. Following the dinner, a program was given which included a solo, "The Greatest Thing," by Dot O'Daniel, a piano number, "Heller's Study No. 25," by Emilee Ramsey and a trio selection by Elsie Mae Echols, Opal Smith and Jean Young. Roll call was answered by each member telling what she had accomplished during the summer. Mrs. Claudia Adams, president, gave a short talk. The next regular meeting is to be October 13 at the home of Mrs. A. G. Young with Mrs. I. H. Severance as co-hostess. History of federation is to be discussed. Attending the banquet were Mrs. Adams, Mrs. G. M. Boswell, Mrs. Ethel Byrd, Mrs. Herman Finley, Mrs. Eleanor Garrett, Mrs. B. F. Little, Mrs. R. A. Marshall, Mrs. Severance, Mrs. Young, Elizabeth Coffey, Pearl Forrester, Sybil Myers, Nettie Lee Shelton, Mabel Whitney, Emilee Ramsey, Dot O'Daniel, Elsie Mae Echols, Opal Smith and Jean Young.

SMARTNESS WITH COMFORT

From Paris comes this slim dinner gown with its tonned sleeves to complement the high collar. It's indicative of one of the winter's evening alphonettes. Molnoux designed it of black lace with a ton foundation of flesh pink crepe. Under the chin perch two big pink roses with centers of deeper pink. These gloves are made on a new principle—with panels that go over the finger-tips—so that you can wiggle all ten digits in complete comfort! Another example of this trend towards comfort in things women wear, is Modess. This sanitary napkin is made on a different principle, too. The filler in Modess is soft and fluffy—unlike napkins made of crepey, close-packed layers. That's why women everywhere say, "For comfort, there's nothing like Modess!"

Advertisement for Modess gloves, featuring the text "A miracle of comfort!" and "Buy it today at your favorite drug or department store. In sizes ranging from 20 to the economically priced 'Dollar-Pak.'"

Beginning today, these signs all say: SEE THE NEW 1939 PACKARDS!

Advertisement for Packard cars, featuring the text "FOR an eye-opening experience, test a new 1939 Packard Six or Packard One Twenty against your local traffic sign!" and "PACKARD SIX and 120. You can buy a big, roomy Packard Six 2-Door Touring Sedan, delivered in this city with standard equipment for only \$1227.50. If your present car is of average value, it will probably cover the low down payment of \$409.00. Monthly payments on the balance can be arranged. ASK THE MAN WHO OWNS ONE."

RESTRICTIONS ON BEER 'JOINTS' TO BE PERMANENT

AUSTIN, Oct. 4 (AP)—Liquor Administrator Bert Ford served notice today a policy of eliminating disorderly beer and wine establishments would become permanent.

Reiterating a warning given in September when more than a dozen permits were revoked, he declared: "The present activity is not merely a flashy effort or a temporary application of 'heat.' On the contrary, it represents a permanent policy that will be vigorously sustained."

During September license holders in Travis, Grayson, Nueces, Dallas, Harris and Wood counties lost their permits on complaints of improper practices.

The Effects of Liquor Cannot Be Repealed

"MORAL EASY MARKS"

"Altogether and taken as you find us the entire human race are moral easy marks," says Dr. Ilon Jones in an article recently published in the Presbyterian Tribune. That popular writer declares that "with full knowledge of the results of the experiments of former ages, we go on trying to prove our predecessors wrong," and as one illustration of this truth he cites the present methods of dealing with the liquor traffic in the United States.

"Just now," says Dr. Jones, "a desperate effort is being made by every known device of shrewd and heavily financed advertising, by every known appeal to the vanity, the appetites and the desires of human beings, to entice people to drink. And those who know full

well the ill effects of alcoholic beverages are succumbing to the allurement thrown before them. Thousands of people who know the facts about drink are carelessly, loosely, enthusiastically taking on the drink habit. How else can you explain this phenomenon than to say that a large portion of people are moral easy marks?"

"For several decades now," Dr. Jones continues, "novelists, the movies, psychologists, some scientists and philosophers have combined together to break down the moral idealism and undermine the moral convictions of the public. They have belittled and discounted modesty, purity, fidelity to the marriage relationship, continence, and the other virtues they call Puritanic. Those who have followed their teaching have found themselves where all such people in every age find themselves, in moral ennui, disgust and despair. Despite the fact that large groups of people

know enough history to be fully informed that such doctrines produce society's wastrels and suicides, they continue to accept the propaganda for license as against self-discipline. Are we not simply a group of moral easy marks?" (Submitted by, and published at the request of, the local W. C. T. U.)

TEXAS BOOSTING GETS REPLIES FROM JOBLESS

AUSTIN, Oct. 4 (AP)—A recent nationwide broadcast by Governor James V. Allred and Governor-nominate W. Lee O'Daniel painting Texas as the "land of opportunity" started something which forced a committee of the state planning board to call a meeting here Friday.

State and federal employment bureaus have been flooded with letters from unemployed persons throughout the United States asking where they might find work. One planning board official pointed out the state's industries had not yet found a place for 92,000 persons on WPA rolls at present.

Trav Lewis of Fort Worth, chairman of the board's government and social aspects committee, called the meeting to determine what to do with the applications.

Other members of the group are Byron Mitchell, director of the U. S. re-employment service, Porter Whaley of San Antonio and Otis Fowler of Denton.

ALLRED PROCLAIMS SPECIAL WEEKS

AUSTIN, Oct. 4 (AP)—Governor James V. Allred today proclaimed October 11 as General Pulaski's Day and the week October 16 to 22 as Parent-Teacher Week in Texas. Brigadier General Casimir Pulaski, American hero of the Revolutionary war, died from wounds received at the siege of Savannah, Ga., on Oct. 11, 1779. In his Parent-Teacher week pro-

clamation, the governor lauded the work of these organizations and called upon the citizens to encourage them in their efforts to aid school children and schools.

Barbara Collins Is Initiated Into Home Economics Club

Barbara Collins, daughter of Mr. and Mrs. J. B. Collins of Big Spring, has been initiated into membership in the Ellen H. Richards club, a home economics group of Abilene Christian college.

Ellen H. Richards club is composed of home economics majors and students interested in women's work in the home. To be eligible, a girl must have had three semester hours credit in the department.

This organization holds two major social functions during the year and also gives frequent dinners for special occasions. To give the members practical training, is the main purpose of the organization.

Two From Big Spring Visit Relatives At Colorado Recently

Mrs. I. Cain and Mrs. Nettie Heath of Big Spring spent Sunday visiting with relatives at Colorado.

Other out-of-town relatives there were Mr. and Mrs. Dave Neely, Mr. and Mrs. Fred Neely and Floyd Neely of Bakerfield, Calif., Mr. and Mrs. Ben Neely of Oklahoma City and Mr. and Mrs. Adair of Rotan.

Colorado relatives attending were Mrs. J. B. Heath, Mr. and Mrs. Hargrove, Mrs. Oran Thompson and family, Mrs. Pearl Wood and Joel Wood.

FD MORE POPULAR WHEN HE FISHES

NEW BRUNSWICK, N. J., Oct. 4 (AP)—President Roosevelt's popularity, says Dr. George Gallup, director of the American Institute of Public Opinion, goes up when he goes fishing and down when he attempts to put through a new bill.

Dr. Gallup also expressed the opinion at last night's concluding session of the New Jersey Newspaper Institute at Rutgers University that re-election of President Roosevelt for a third term was "almost impossible."

He based his forecast on nationwide polls he has conducted and said these polls indicated that the majority of the people in the "upper half of society" were against a third term and also against the president.

If the republican party is to win the next election, Dr. Gallup continued, it must get the votes of the "key people in the coming election—the majority of the middle class and the young voters."

FASTER WAR PLANES THIS NATION'S NEED

WASHINGTON, Oct. 4 (AP)—Major General Henry H. Arnold, the new chief of the army air corps, said today this country doesn't need a great many more military airplanes, but needs faster ones.

When the present air corps development program is completed in 1940 the army will have 2,320 craft, General Arnold, in an interview, called this "a very good figure as things stand now."

But greater speeds are needed.

he said, remarking that "bombing planes with speeds well in excess of 300 miles per hour are just around the corner," and that other fighting craft will be still faster.

PENNEY'S J. C. PENNEY COMPANY, Incorporated

Free Classing For Communities Growing Single-Variety Cotton

Howard county's four one-variety cotton communities Tuesday stood in a favorable position for marketing this year's crop.

It was announced at the county agent's office that one variety association participants would have their cotton classed free of charge during the season. Classing will be done direct by the state organization, which furnishes sample bags and transportation to College Station for the classing. When the season gets in full swing, the service will require only about three days.

Since the county's one-variety associations have uniformly high quality cotton and fairly long staple, the producers will be in a better position for marketing and putting the staple under loan. In addition, they will save the classing costs.

In the Lomax community Texas Mammoth cotton is raised almost exclusively. At Vincent the same breed is raised by a large majority of producers. The breed is a product of the Von Roeder farms, just across from Vincent in Borden county. At Luther there is a one-variety association producing King Kaech, a staple that does particularly well in that tight land section. Other one-variety association which stands to profit provided a ginning arrangement can be worked out is Kneet. Cotton grown by members of this association is a native breed developed by Sam Little who started nine years ago from a Mebane cotton.

Club Boys To Show Products At Dallas

Cotton and Grain Sorghum Exhibits Are Arranged

Howard county 4-H club boys will have 10 grain sorghum and seven cotton exhibits included in the state club boy display at the Dallas fair, County Agent O. P. Griffin said Tuesday.

The agent praised the exhibits and said that he believed that there was a good chance for individuals to place both cotton and grain sorghums in the results.

It was planned to take the county's quota of eight club boys and one leader to the fair. The boys will be chosen for their work in demonstrations, three places from the cotton group, three from the grain sorghum class, one poultry and one fat fed pig group.

Those submitting exhibits, whether cotton (C) or grain sorghum (G), were:

Knott—Junior Bly (C-GS), Morris Bell (GS), Levia Johnson (GS), Varnie Jones (GS), John Ab Jones (GS), Bert Matthis (GS), Hershel Matthis (GS).

Center Point—Davis Edens (GS), and Edward Lawson (GS).

Vincent—Eddie Carpenter (C), Buddy Barr (C), John Appleton (C), Willis Winters (C).

Lomax—Lon Otis Burnett (C), Gay Hill—Wendell Lawrence (C).

Speaking of the German people, Premier Daladier said: "With them we hope to be able to establish durable peace."

Italy And Britain In Friendship Move

ROME, Oct. 4 (AP)—Diplomatic sources disclosed today that overtures for the settlement of differences between Britain and Italy had begun in a meeting between the Earl of Perth, Britain's ambassador and Foreign Minister Count Galeazzo Ciano.

Diplomats said the British ambassador called on Ciano to discuss the possibilities of further appeasement in the relations of the two countries.

Diplomatic quarters believed the prospects of bringing the Anglo-Italian treaty of last April 16 into effect were dimmed. That pact has been inoperative because the condition of a "settlement" of the Spanish civil war involving withdrawal of Italian troops from Spain has not been met.

Diplomats had expected some move toward effectuating the April pact since the four-power agreement on Czechoslovakia and the new understanding between Prime Minister Chamberlain and Reichsfuehrer Hitler for handling issues between Britain and Germany.

STOCKS UNEVEN

NEW YORK, Oct. 4 (AP)—The stock market acted fidgety today, after five consecutive rising sessions, and small fractional gains and losses were fairly well distributed during the indifferent performance.

The European situation displayed further fading tendencies as a market influence and traders had to depend principally on business signs and portent for speculative inspiration. Cheerful prospects over the remaining months of the year helped keep potential sellers more or less subdued.

wife discharges her duty of properly feeding her household." Mrs. French is well-known for her thorough knowledge of home economy, and for her charm as a talker.

In addition to the enjoyment and practical benefits to be derived, there will be other attractions in store at the cooking school. A large list of attractive samples, souvenirs and gifts will be arranged, and presentations will be made at the close of each talk.

Housewives are urged to remember the date, and to attend each day. The municipal auditorium will be the scene of the cooking school. Although no seats can be reserved, every effort will be made to provide comfortable seats for all who attend, as it is expected that a large crowd will be on hand each day.

Pioneer

(Continued From Page 1)

53 years and as head of a family prominently identified with the city's development, Mr. Barnett was widely known.

The funeral service was scheduled for 4:30 Tuesday afternoon at the Eberly chapel, with Dr. D. F. McConnell, pastor of the First Presbyterian church, officiating. Burial was to be made in the Oddfellows cemetery in the family plot where his parents and other relatives are interred.

Mr. Barnett was married on Sept. 5, 1894, to Miss Lillie M. Seals, and the widow survives. Other survivors are six daughters, one son, seven grandchildren, two brothers and two sisters, and several nephews and nieces. The children are Mrs. J. P. Schwarzenbach of San Antonio, Mrs. C. S. Anderson of Stanton, and Mrs. Iustus Davidson, Mrs. Edmund Notestine, Misses Irene and Imogene Barnett and Wilbur Barnett of Big Spring. Grandchildren are Mary, Billie Joe and Charlene Anderson, Donnie Mae Davidson, Edmund Notestine, Jr., John Weir Notestine and Gilbert Weir Barnett.

The brothers are Dr. W. C. Barnett of Big Spring and Ben G. Barnett of Los Angeles, and the sisters are Mrs. W. R. Cole and Mrs. J. W. Carpenter of Big Spring. J. W. Allen is a brother-in-law.

Mr. Barnett was a member of the Masonic order and of the Odd Fellows.

ference at Munich.

"It was just as if the finger of God had drawn a rainbow once more across the sky, and ratified again his covenant with the children of men," Baldwin said.

The opposition attack was renewed by Clement R. Attlee, leader of the labor opposition, with a private notice on an "urgent" question to the prime minister.

Attlee demanded that debate not be shut off before the "back benches"—the rank and file of the house—had an opportunity to speak. He also urged that questions concerning Britain's guarantee of Czechoslovakia's new frontiers and a British loan to Prague should be threshed out thoroughly.

The debate was expected to continue through a third day. It opened yesterday with a bitter attack on the four-power Munich accord for Czechoslovakia's dismemberment by Alfred Duff Cooper, who resigned as first lord of the admiralty because the Munich terms "stuck in my throat," and Chamberlain's spirited defense.

The government expects to end the debate tomorrow when it will present a motion approving the prime minister's actions in Europe's recent war scare.

The labor opposition at a meeting today decided to introduce "a reasoned amendment" to the government's motion. It will advocate a return to collective security through the league of nations and an immediate "summoning of a world conference to consider removal of the economic and political grievances which imperil peace."

Music For Every Child Is Goal Of New Public School Dept.

Goal of the public school music program, instituted this year in the local school system, is "music for every child and every child for music," William R. Dawes, director of the program said Tuesday.

The course of study and activity planned for the Big Spring system is contemplated to put democracy in music education. One hundred years ago, said Dawes, music education was the heritage of the elite minority and its ultimate goal was the execution of "salon pieces" at the harpsichord by aspiring debutante of the wealthy family. Seeing a need for more universal music appreciation, the public schools of Boston undertook the first public school music program.

Last spring the Music Educators National conference looked back over 100 years of steady progress toward this goal, counted growth in school bands, orchestras and choruses with stimulating competitions and high standards of performance. Not only was it seen that innumerable talented soloists had emerged from school rooms to the professional field, but that the love for music had been engendered in the hearts of legions of individuals in some form of musical expression or reception.

Basic Means of Expression
"Since every child is endowed by nature with a voice," continues Dawes, "democratic music education seizes upon this as the basic means of expression. It is our objective to see that every child in our schools has the opportunity to develop to the full extent of his ability this voice as a means of artistic expression and through it come to some understanding of music."

"Further understanding of music and enjoyment of its beauty comes to the child through attentive, intelligent listening. This implies more than impulsive, unresponsive

hearing." The object is to give the individual a true aesthetic experience, and this comes only through focusing the attention on the music presented.

"In public school music, our greatest aid for giving every child the opportunity to listen to good music is the phonograph. Every phase of music and every quality of music, good and poor, has been recorded. We have to develop good taste as well as musical understanding.

"It is my privilege as director of music in your schools to see that every child has the opportunity to develop what musical abilities he has, and to foster by every means at my disposal his love of the beauty that is music. Through efforts of your school executives and trustees a sound beginning in music education for every child in the Big Spring public schools is not being made with which we feel sure will do much to make our city the cultural as well as the business center of West Texas."

And thus, under the new program, music education comes to all of the system's 2,900 enrollees this year for the first time in nearly two score years of local public schools.

Water Projects Are Being Formulated

WASHINGTON, Oct. 4 (AP)—The soil conservation service said today the department of agriculture was settling up water facility regions in each of 17 western states in cooperation with state officials. Congress provided \$500,000 for use in the states as loans in building small dams, water pumping projects and other domestic and livestock water facilities during this fiscal year.

The farm security administration decided recently to spend \$5,000,000 for a similar purpose but only on farms where rehabilitation work was necessary.

Areas in which projects may be carried on are being established in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Arizona, New Mexico, Utah, Colorado, Montana, Wyoming, Idaho, Nevada, California, Oregon and Washington.

Farmers can receive a loan up to \$50,000 for any one project. The law requires repayment in twenty years.

Crude Production For Week Lower

TULSA, Okla., Oct. 4 (AP)—A moderate decrease of 16,913 barrels daily brought average crude oil production in the United States to 3,237,960 barrels daily during the week ending Oct. 1, the Oil and Gas Journal reported today.

Oklahoma registered an increase of 5,775 barrels daily and an average of 454,050, East Texas was unchanged at 369,000 barrels daily and the total state of Texas had an increase of 1,549 barrels daily and a daily average of 1,226,296.

Louisiana's decrease of 4,850 brought its production to 290,590 daily, California declined 16,400 barrels daily to a daily average of 960,750 and Kansas was off 1,750 barrels daily to 159,375.

YOUTH DIES AFTER HUNTING MISHAP

HARDY, Ark., Oct. 7 (AP)—Howard Dark, 17, died here today of injuries suffered in a hunting accident yesterday.

A searching party, called when Dark failed to return from a squirrel hunt, found him at the base of a tree, both arms and one leg broken.

Dark apparently had shot a squirrel which lodged in the tree, then fell while climbing after it. He was the son of Mr. and Mrs. Dewey Dark, operators of a resort hotel here.

GIRL IS FREED

NEW LEXINGTON, O., Oct. 4 (AP)—Pretty, 18-year-old Virginia Annon was released from jail today after Prosecuting Attorney T. E. Williams exonerated her tentatively for shooting to death her 63-year-old father.

Williams said the girl's story of slaying John Annon with a rifle after he threatened to kill his wife was affirmed by her mother and a sister, Georgia.

Legal Notice

MONITION—IN THE UNITED STATES DISTRICT COURT FOR THE Northern District of Texas, United States of America vs. 197 Bags of Corn Meal, No. 1311-Label In Admiralty. In obedience to a Warrant of Seizure to me directed, in the above-entitled cause, I have seized and taken into my possession the following-described corn meal to wit: 197 bags, each containing twenty pounds, of corn meal labeled in part: "Aunt Jemima White Cream Corn Meal Degerminated and Enriched." For the cause set forth in the label w pending in the U. S. District Court for the Northern District of Texas, at Abilene I hereby give notice to all persons claiming the said described corn meal, or knowing or having anything to say why the same should not be condemned and forfeited, and the proceeds thereof distributed according to the prayer of the label, that they be and appear before the said Court, to be held in and for the Northern District of Texas, at the United States Court Room, in the City of Abilene on the twenty eighth day of October, 1938, at ten o'clock on the forenoon of that day, if the same shall be a day of jurisdiction, otherwise on the next day of jurisdiction thereafter, then and there to interpose a claim for the same, and to make their allegations in that behalf. J. R. WRIGHT, U. S. Marshal No. Dist. of Tex. By Charles S. Brown, Deputy.

STAR PERFORMERS IN THE LIONS-KIWANIS DONKEY BASEBALL GAME TONIGHT

When Lions and Kiwanians tangle in a donkey baseball game at 8 p. m. today in Baron park, their jobs will consist chiefly of trying to stay on these three and other donkeys. Fans who saw the game here last year between the two clubs will recall the especially wicked off-colored burro who refused to be ridden. This gentleman, Strawberry Roan, is pictured at the left, getting off to a good start. Running the Roan a close second for diabolical trickery is Mae West, the center burro. Mae banks and unseating the rider before he gets seated. In the view at the right, the venerable Sweet Milk, having done his chore of tossing rider to the turf, waits placidly for the second fling at the routine which will see the rider on the dirt again. The game tonight is to be for the benefit of Lions sight conservation and blind fund and for a Kiwanis benevolent fund.

They were fined a total of \$65,000. W. P. Crawford, Superior, Wis., a special assistant to the United States attorney general, petitioned the court of appeals, contending Judge Stone had improperly dismissed the charges for insufficient evidence. The federal government's charges against the defendants in the Madison trials were based on alleged violations of the anti-trust laws.

Brinberry In Muny Victory

Hiram Brinberry qualified to meet the winner of the Ray Mc Mahen-E. D. McDowell duel by de-

feating Tommy Neel, one up, Monday afternoon in first flight play of the Fall golf tournament at the Municipal course.

Other matches saw V. V. Strahan trounce O. C. Hart, 8 and 4; and Neil Barnaby trounce Speedy Nugent, 8 and 6. Both were second flight matches.

Reinstatement Of Auto Union Chiefs Is Recommended

WASHINGTON, Oct. 4 (AP)—C.I.O. arbiters asked the United Automobile Workers today to reinstate four officers expelled by President Homer Martin and the union's executive board.

Philip Murray and Sidney Hillman, C.I.O. vice chairmen, announced the basis of their "compromise" settlement at the board met with John L. Lewis, C.I.O. chairman.

Murray and Hillman made these two recommendations:

1—Immediate reinstatement of Vice Presidents Richard T. Frankenstein, Ed Hall and Wynham Mortimer, and Secretary-Treasurer George F. Addes.

2—Immediate recognition in the organization of "administrative responsibility and authority." The union has been torn for months by internal dissension, brought to a climax in the discharge of the four officers on the ground they interfered with President Martin's harmony program.

Murray and Hillman said in a decision which Murray read to the board that rapid growth of the U.A.W. had brought serious administrative problems. "The failure to solve these problems has resulted in conflict and turmoil," they said. "The absence of recognized authority has led in some cases to unjustified stoppages of production in violation of outstanding collective bargaining agreements."

switching of players to other positions for the best. After all he is trying to build a better team. This coach is not complaining or groaning as some of the things I have heard and things I have read. "x x x They are all good, hard-working boys and deserve the backing of everyone in this town win or lose. "If we do this and put them on the back and encourage them, we will have a 100 per cent better ball club." "The letter was written by a former football player associated closely with athletics for several years. Exceptionally glad were we that he spoke his mind. Let us give our

side. In the first place never once has this observer attempted to degrade those players in the eyes of the fan. Quality and quantity in the local camp is not lacking. The material in the belief of many, is there and criticism naturally is going to come when failure is experienced. It is our duty to lead that criticism—constructive criticism—in our opinion. After all the game of football would not be a reality were it not

for John Q. Public who pays the freight and if he sits there on the sidelines paying for the privilege of watching the team in action hasn't he a right to try to find the weaknesses? After all he has the team at heart as much as the coach or boys or he wouldn't be there. He wants victory as much as any one else. His loyalty is unquestioned. This department certainly is not taking verbal potshots at any party. Instead, like the good fan, is trying to solve the trouble.

In several stories this observer has submitted his personal criticism which he asks to be considered as such. Although it probably has been overlooked we maintain that right, will certainly cooperate in any way possible in bettering the situation.

TWO GOLD BRICKS valued at \$1,250 were forfeited to the government by Mrs. Virginia Venturoli who—returning from a visit to Italy where she'd converted her savings into the bricks—failed to declare them at the U. S. customs and thus lost them to the treasury department. At Buffalo she and her son are reading court decision on the forfeiture.

15 Vacancies On US Bench

FD Likely To Delay Nominations Until After Elections

WASHINGTON, Oct. 4 (AP)—There are 15 vacancies on the federal bench, ranging from the supreme court to district courts.

President Roosevelt has authority to fill them at any time, but informed persons said today his nominations probably would be delayed until after the November election, and possibly until congress meets in January.

The vacancies include four places on circuit courts of appeal and 10 district judgeships in addition to the highest court vacancy resulting from the death last July of Associate Justice Benjamin N. Cardozo.

The lower court places resulted from an omnibus judgeship act approved by the last congress as part of the administration's program to expedite federal court cases by providing additional judges.

Justice department officials said prompt appointments would aid this purpose, but added that few judges would care to act until the senate had confirmed presidential appointments.

Although the president appoints the federal judiciary, subject to senate confirmation, recommendations nearly always come from the attorney general after investigations by justice department agents and consultation with senators from the states involved.

The omnibus act created a score of new judgeships. Six appointments have been made, but only one has been confirmed by the senate.

President Roosevelt selected Governor James V. Allred of Texas for the federal bench there, Edgar A. Congor for the southern district of New York, Francis J. W. Ford for Massachusetts, Leon McCord for the fifth federal circuit court, and Floyd H. Roberts for the western district of Virginia.

State Fair Steps Out Again, After Centennial Holiday, To Bring The Customers A Bigger, Better Show

By WILLIAM T. RIVES

DALLAS, Oct. 4 (AP)—The state fair of Texas, stretching lustily in its infancy, drew a deep breath in its reorganization year of 1933 and recklessly tossed \$10,000 into the amusement and edification of a few thousand awed attendants who came by ox wagon and horseback.

Today its administrators were calmly smoothing out last-minute details before exhibiting the \$25,000,000 golden jubilee show, the world's largest state fair.

They confidently expected 1,250,000 persons to click the turnstiles from opening day Saturday until the finale Oct. 23—an average of 78,000 per day.

What is the lure?

Simply application of the fundamental rule of show business—you've got to give 'em a bigger and better show, or they'll stay home.

Two minutes' conversation with state fair officials engraves the impression they believe the centennial celebrations of the past two years—gaudy, expensive and magnificent though they were—will be outstripped by the fair, which politely bowed its way to the sidelines while the centennial whooped and hollered to the world.

The centennial was staged on the sprawling, 187-acre plant of the state fair. The fair's renewal will find it setting up shop in the beautiful buildings and landscaped work which dazzled visitors to the hundredth-anniversary festivities.

A Money-Maker

The fair, however, did plenty of work on the physical properties, and is certain the show, from outward appearances, will not appear like last year's suit dragged out of the mothballs.

Where the centennial lost money, although providing a fine medium for advertising Texas, the fair officials fail to see any such outlook for their extravaganza.

They already have sold every available square inch of exhibit space—more space than the centennial show sold.

It's going to be a show for Texas and the southwest, and here are some of the reasons:

One of the world's largest livestock and agricultural shows, designed to give a complete picture of Texas farm work.

Two hundred thousand square feet—largest space ever occupied for a show of that nature—have been allotted Texas dealers in implements and farm machinery.

One hundred thousand dollars in premiums will be awarded.

"America's largest midway" will lure those interested in amusement only.

RETURNS TO PRISON, THIS TIME FOR PAY

McALISTER, Okla., Oct. 4 (AP)—Three days ago Dr. W. R. Armstrong completed his five-year theft term at the state penitentiary.

Today he was back at the prison as a staff member receiving \$175 monthly.

His work as an inmate instructor at the Stringtown sub-prison school brought favorable attention.

So prison officials named him director of academic courses at the prison school and resident physician.

MOUNTAIN CLIMBER IS KILLED IN FALL FROM LEDGE

LONE PINE, Calif., Oct. 4 (AP)—A short cut down Mount Whitney, whose 14,495-foot peak is the highest in the United States, led to death for Charles George Hengst, 42, of Exeter, Calif.

Rescuers, summoned by the victim's 17-year-old cousin, Herbert W. Hengst of Woodlawn, Tex., reached his body at the base of a 200-foot precipice last night.

Young Hengst said he and his relative climbed to a snow-covered government cabin near the summit of the mountain shortly after noon Sunday. Tired, but anxious to avoid being overtaken by darkness, they hunted a short cut on the downward hike.

Complaining of faintness, the elder man seated himself beside a rock. Young Hengst said he looked back a few moments later and saw his kinsman topple off a ledge.

"The youth, losing his way during the night, was chilled and exhausted when he finally reached a camp at Lone Pine lake yesterday.

GALES LASH ISLES, EIGHT LIVES LOST

LONDON, Oct. 4 (AP)—Wind reaching 93 miles an hour in some sections lashed the British Isles and caused eight deaths during the night.

A large tree crushed a South London double-decker bus and killed three. The other deaths were in rural accidents.

The wind snapped telephone and telegraph wires, wrecked small houses and drove ashore many light craft.

BRITISH SHIPS ARE HIT BY BOMBS

MADRID, Oct. 4 (AP)—Three British ships were struck by bombs today and two of them set afire in a renewal of Spanish insurgent air raids along the Mediterranean coast of government Spain.

Fourteen Savoia (Italian) type planes in a raid on the Barcelona waterfront bombed and set on fire the Theorpebay, 2,182 tons, and the Gothic, 2,146 tons. No casualties were reported.

In Valencia harbor a lone seaplane dropped 12 bombs, one of which struck the 1,074-ton British vessel Llanunach. The ship's cook, said to be British, was injured.

In another seaplane raid several buildings were destroyed at the port of Denia.

KBST WILL "AIR" WORLD SERIES

Listeners of KBST will hear play-by-play reports of the World Series starting Wednesday.

This was made possible by the announcement yesterday by Baseball Commissioner K. M. Landis that the three major networks had been granted permission to broadcast the series. Mutual Broadcasting System, of which KBST is an affiliate, immediately notified the local station that the coast-to-coast network would carry the games.

The opening game will be in Chicago Wednesday. Mutual will begin broadcasting color and line-ups fifteen minutes before start of the game.

Green Estate Fight Nearing An End

AUSTIN, Oct. 4 (AP)—The legal battle among four states over the right to tax the estate of Col. E. H. R. Green is nearing an end, Lieutenant Duke, assistant attorney general of Texas, said today.

Duke said Texas had filed exhibits and briefs with the special master of the United States supreme court appointed to receive testimony and now is awaiting the master's report, which is expected sometime this month.

"The master will tell the court who is entitled to the money," Duke said. "Then it will be up to the disappointed parties to file exceptions, and thereafter will come the arguments."

He expressed opinion the supreme court would render final decision early next year.

NOTE TO WIVES; LET HIM 'BLOW OFF' AT GAME

CHICAGO, Oct. 4 (AP)—These world series was bringing peace to the "psychopeds."

—That with ultra-rapid baseball fans blowing off emotional steam by crushing derbies, throwing scorecards and cushions and calling umpires anything from "robbers" to "dirty bums"—but it's true, nonetheless, Dr. Robert N. McMurry, psychologist, said today.

"A 'psychoped,'" said Dr. McMurry by way of definition, is a person who has never entirely outgrown his capacity for adolescent enthusiasms and rivalries, a person who lets his emotions run away with him—in his domestic and political life as well as in the sphere of sports.

Dr. McMurry's reasoning was something like this: A man who gives vent of his emotions at a ball game isn't likely to go home and beat up his wife or commit any other crime because his mental "explosion" at the ball park has acted as an emotional safety valve.

AGREEMENT MADE ON INTERSTATE BRIDGE

OKLAHOMA CITY, Oct. 4 (AP)—Formal agreement on construction and maintenance of an interstate bridge across Red river southwest of Waurika, Okla., was made yesterday by the Oklahoma and Texas highway commissions.

The agreement provides that the contractor must hire workers from both states in equitable proportion; that the Oklahoma highway department will prepare plans and specifications and supervise construction and that the two states will split the cost equally out of federal aid funds.

Tentative plans call for letting the contract for the 4,850-foot structure Nov. 22.
