

PARTICULARS OF THE TRAGEDY IN CONCHO COUNTY AS TOLD BY BALLINGER LEDGER

Dennis Hargis, a young sheep and stockman, of Paint Rock, was shot and almost instantly killed on the Chambers ranch twenty-two miles southwest of Paint Rock shortly before sundown Thursday evening. Jack Wyatt, a companion of Hargis, was shot through the sleeve, the bullet narrowly escaping his right arm. According to an account of the killing, as given to the Ledger over the phone, the tragedy took place at a sheep camp on the Chambers ranch where Lee Brothers and Hargis had a bunch of sheep. The Mexican was herding sheep for Hargis, and the man had some trouble with the Mexican two or three weeks ago. Late Thursday evening Hargis and Wyatt went to the sheep camp to get a goat. When approaching the camp the two men saw the Mexican run into his tent, and they stopped their car anticipating trouble. A few minutes later the Mexican came out of the tent with a gun. Hargis was unarmed, but Wyatt had a gun and he handed it to Hargis. It is not known who fired the first shot, but two bullets from the Mexican's gun struck Hargis, the first penetrating the right side, and the second bullet going through the young man's right arm. After being shot in the arm Hargis dropped his gun and accompanied by Wyatt approached the Mexican, and in the scuffle that followed Hargis dropped to the ground dead, the wound in the side having been fatal. Wyatt was unable to put the two hundred pound dead body in his car and the Mexican refused to help him. The Mexican however told Wyatt that he would stay with the body of the man he had killed until Wyatt could go to a ranch house about eight miles and get help. When Wyatt returned with help the Mexican had made his escape.—Brady Standard.

FALLS TO DEATH

Local Tinner Falls 50 Feet; Dies About 30 Minutes Later.

One of the saddest and most horrible accidents ever to occur in our midst was the one of last Monday morning, about 11:00 o'clock, when Mr. Will Lange, age 31, son of Mr. and Mrs. F. Lange of this city, fell from the top of the tank, which stands in the court house yard. The distance that he fell is estimated at from 50 to 55 feet. Mr. Lange had gone up on the tank, to fix the float so that the gauge would show correctly how much water was in the tank. In trying to take the lid off the tank, which was evidently stuck tight, he had to pull hard and when the lid came off it more than likely came so suddenly that he lost his hold, falling off the tank backwards and bringing the lid of the tank with him. Several parties are reported to have seen him when he started to fall and all are of the opinion that he landed partly on his knees. Drs. Baze and Thompson were immediately summoned to the scene and after examining him found that he had crushed his right hip and the right thigh was badly broken, he had also broken his left leg just above the knee and had a bad bruise just under his right eye. The Drs. also stated that he was seriously injured internally. He was immediately moved into the shade on the court house lawn and everything that could possibly be done to bring him to consciousness, but it was to no avail, although he called his mother and spoke of his wife before he died. He died at 11:30.—Manson County News.

ACCIDENTALLY SHOOTS SELF

Accident Happens Near Home on O'clock Today. Brownwood Road—About 11:00

Shortly after 11:00 o'clock today, Sheriff Wall received a phone message that Luther Ince, 16-year old son of Walter Ince, who lives about 17 miles on the Brady-Brownwood road, had been killed. Mr. Ince was in town at the time and was told of the sad news. Justice of Peace T. J. King, accompanied by Mr. Ince and Deputy Sheriff Ed Lindeman, in the latter's car, went to the scene of the accident, and were followed shortly by Dr. Anderson in his car. The following was told to a Standard representative when the party arrived back into town: The young man had taken a single barrel shotgun with him down to the tank, a distance of about 75 yards from the house and sat down to await the appearance of a hawk which had been disturbing the chickens and which was often seen near the tank. Later on the two young sisters of Luther went down to the tank after water and noticed Luther lying over a bush apparently asleep. They sent a smaller brother over to awaken him when it was discovered that he had accidentally shot himself with the gun which he had carried to the tank with him. They gave the alarm and Sheriff Wall was notified to tell Mr. Ince who was in the city on business. An inquest revealed that the young man was sitting down with the gun across his lap and that he had his knife out probably whittling when the gun slipped off his lap, the hammer showing where it had chipped a piece of rock when it fell, the charge of shot striking him in the heart. No one at the house heard the report of the gun, and it was not until the other children went to the tank the deplorable accident was discovered.—Brady Standard.

PULLFORD DEMONSTRATION

Last Saturday afternoon W. B. Urquhart demonstrated to the farmers of San Saba county the Pullford, on the McKenna lot north of town. He started in high and continued in high, and can turn 7 acres in ten hours, plowing from 6 to 8 inches deep. The people that witnessed this demonstration are fully convinced that the Pullford is no longer an experiment but has proven a success.

STREET IMPROVEMENTS

City Marshal, Dave Chadwick and a force of hands are putting down 3 more feet of concrete on each side of Main street, connecting it with the gutter on each side. This in the near future will be extended all the way across this street and will give San Saba a solid pavement up main. This work cannot be praised too highly, for it is a character of work that is permanent, and will save the cost of continual repair bills. Besides this the appearance it will add to the town. There are 47 culverts in the town made of concrete which will not need any more repair work. Our slogan should be "Permanent Improvement, and Save Money!"

H. H. Wells, W. C. Biggs and Frank Johnson have returned from Dallas where they went to the Farmers Union Convention. They report a good meeting.

Mr. Will Robertson and sister, Miss Mahala, of Double Ford, passed through here this week, on a visit with their friend, Miss Stone at Gatesville.

Earl Bowman and wife, of San Angelo, are here this week visiting his mother, Mrs. Ira J. Bowman.

SCHOOL TO OPEN SEPTEMBER 10TH

The San Saba Schools will open Sept. 10 instead of September 3 as previously announced.

All patrons are requested to enter their children on the above date, if possible, since children entering late, work at a disadvantage, the reasons being obvious.

School books should not be purchased until the general public is so instructed, the same to be through the local papers in their next issue.

To a very great extent, by common consent, we judge the standing of any town or community by the interest taken in educational affairs. This problem is so great and so complex that it demands the attention of not only the leaders in the work but the assistance of the entire community. As in the Church, there is work for all; so let's co-operate in an effort to have the best school possible.

Lord McCaulay, when asked how he had acquired such a broad scholarship, replied, "In some respects I consider every person I meet my teacher, and in this way I learn of him." Kindly let me assure you that it is with this spirit that I continue the work with which you have entrusted me. I desire all the assistance the general public will give. If, perchance, our ideas differ upon some points, as they undoubtedly will, I further ask your kind forbearance and indulgence.

The educational principles and rules used during the last session will be continued during this term to govern the schools, all of which are given in a school catalogue, a copy of which will be given to any one desiring it.

Since I have no particular theme, I call your attention to what our foremost educators consider an error of the general public, namely, a disposition to want their children to enter school at too early an age, six and sometimes even five years of age, and then to rush them through the lower grades too rapidly. They are thus brought to the High School Department without sufficient preparation to make good, and the result is that they become discouraged and leave school before their education is complete. We wish to emphasize the fact that the best training children can have is to learn to do their work thoroughly.

As a general rule your child will take about the same interest in school that you do. If you are careless and allow him to be tardy and to attend irregularly, thus allowing many matters to come between him and his work, he soon comes to put the same value upon education that you do, of not much importance anyway.

It may be asked "How can I show my interest in school?" These suggestions are offered: First, though you may not be able to visit the school often, you can at least know your child's teacher personally and feel free to go at any time to that teacher and discuss matters in a frank, friendly way. Said teacher will always be willing to give you a courteous, patient hearing. Secondly, carefully inspect the monthly reports and give proper credit and praise for satisfactory work, and in some way ascertain cause of unsatisfactory grades and assist in removing same. Thirdly, visit the school at least once or twice a year, and really demonstrate to your children that you are interested in their school work.

An article to appear next week will contain a list of the names of the teachers and the grades to which they are assigned; also, a list of the books to be used in the different grades, etc.

Very Respectfully, W. W. HART.

SAN SABA BOYS RETURN FROM LEON SPRINGS

Burney B. Braly and Wiley B. Murray, two of San Saba's favorite sons, returned home the latter part of last week, on a ten days leave of absence, from the Officer's Training Camp at Leon Springs. These two splendid young men by their industry, ability and adaptability secured commissions in the Army now being organized—Mr. Braly being commissioned a Captain and Mr. Murray receiving a Second Lieutenant's commission. The News wishes to congratulate these young men on their success, and joins with their friends and loved ones in wishing them new honors in their new profession and a speedy and safe return from the mission which they have undertaken. Mr. Braly is the son of Rev. J. G. Braly, who was the pastor in charge of the Cumberland Presbyterian Church, at San Saba, for several years, and who is now stationed at Santa Anna. Mr. Braly has been practicing law in San Saba for two or three years, but at his country's call, gave up his chosen profession, to give his time, energy, and if needs be, his life to the cause of liberty.

Mr. Murray is the son of T. A. Murray, president of the City National Bank, who is well known to everybody living in this county. Mr. Murray was attending the University of Texas, when the call came for volunteers, casting aside his books, he gave himself unreservedly to his country.

SELLS INTEREST IN DRUG STORE

Clarence Gosch, this week sold his interest in the Simmons Drug Store to his partner, E. C. Simmons, and will in the near future enter the army of Uncle Sam. Mr. Gosch has been in the drug business here for a number of years, coming here from Llano. We will lose from our midst a good citizen and business man, but the army is gaining a good soldier. Mr. Gosch wishes to thank the public in general for their patronage and for a continuation of the same to Mr. Simmons who is now sole owner of the Simmons Drug Store.

OFF TO LEON SPRINGS

Clay W. Kuykendall and Clayton Walters, left Monday to enter the Officers Training Camp at Leon Springs, where they will go into extensive training, looking to the securing of an officer's commission in the Army. The two young men are amongst the finest that San Saba County has produced, and we have no hesitation in saying that they will make good. The News joins with the many friends and loved ones in wishing these young men success.

The Odd Fellows are having the lower floor of their building remodeled and cleaned and on the first of September the firm of Frizzelle & Taff will occupy it with a new feed business. This was the old Neal building on the north side of the square. In the near future the upper story will be used by the Odd Fellows, and will be made into a large hall with regalia departments, Banquet Room, etc. The Odd Fellows, it will be remembered, purchased this property several months ago for their home.

Rev. C. A. Lehmberg, who was the first President of the Cherokee Junior College, and who has held that position for six years; has resigned and will move to San Marcos, where he will be Presiding Elder of the General Mission Conference. Mr. Lehmberg sold his home in Cherokee to Mr. Oscar Gray.

Alex Moore and family returned last week from a visit to Mr. Moore's parents at Willow City.

SAN SABA TENNIS CLUB TO HOLD TOURNAMENT

Tournament Open to All Comers—Loving Cups Offered to Winners

The San Saba Tennis Club will hold their Annual Tennis Tournament, beginning Thursday, August 23rd, at three o'clock p. m. This bids fair to be one of the best tournaments that this club has ever held, in point of the number of players entered and in the class of tennis to be played. This tournament is open to all comers. The members of the Club extend a cordial invitation to players from West Texas counties, and visiting players are assured that they will receive courteous treatment, and will enjoy every minute of their stay in San Saba.

The Club offers splendid loving cups to the winners in doubles and singles. Mr. T. A. Gose is now the holder of the single cup, and Messrs. Gose and Walker will defend the doubles cup against all comers.

If you like tennis and good people come to San Saba and spend three or four days, and if you don't get beat in tennis you will play some fast tennis, and if you don't have a good time, and enjoy every minute of your stay, except when you get beat, it will be your own fault.

Monday afternoon, Messrs. Gose and Walker defeated Messrs. Greer and Peisker in a match to determine the championship in doubles for San Saba County for the year of 1917. The match was a fast one, and some real tennis was played, although Mr. Greer and Peisker were not at their best. The final score was 6-3; 6-4; 6-3. Messrs. Greer and Peisker had won this cup for the last two years and had they won this year they would have been entitled to the permanent possession of the doubles cup. Messrs. Gose and Walker will defend the doubles cup against all comers in the coming tournament.

MAN KILLED BY LIGHTNING

Tuesday afternoon, while riding along the road between Hall and Holt, Bud Crawford was struck by lightning and instantly killed. Mr. Crawford was 27 years old and lived with his parents at Holt, but at this time was employed on the Sellman ranch. He was riding along the road by himself, on the way to Holt, when he was struck by the lightning. He was found shortly after and taken to his home and was buried at Holt Wednesday.

BIG RANCH DEAL

The biggest ranch deal that has been made in this county in many years was this week when A. A. Huffstutler of San Angelo bought the Pierce Green ranch, which lies in San Saba and the edge of Llano Co. This ranch contains 25,000 acres of the choicest ranch land in Texas and Mr. Huffstutler has it stocked mostly with steers. The price paid for this ranch was \$200,000.00.

Mr. Huffstutler is well known to most all of San Saba County people as a man of extra ranching ability.

This ranch joins another splendid ranch, that of our townsman, F. F. Edwards. Mr. Edwards has recently sunk a well on his ranch and got an abundance of water at 89 feet. Both Mr. Huffstutler and Mr. Edwards are improving their two splendid ranches with substantial fences, providing abundance of water, etc.

WHEAT CROP OF U. S. WON'T FILL ALLIES' NEEDS

Washington, Aug. 20.—North America's 1917 wheat crop won't come within 400,000,000 bushels of supplying the shortage of European allies and neutrals, Herbert Hoover announced Saturday night.

As a partial remedy he suggested that every person in the United States use one pound less wheat per week—a reduction of 20 per cent in present consumption.

Substitute other cereals, of which there are plenty, he said. If these cereals—corn, oats, barley and rye—are substituted in the American loaf, it means that "war bread" becomes part of the American diet. Hoover suggested that this conversation "will be of no privation to us and will reduce the privation of our allies."

His estimate of the shortage is based on normal consumption in a three-year war period.

France, Italy and the United Kingdom, he said, must import 577,000,000 bushels of wheat and 674,000,000 bushels of other cereals if normal consumption requirements are to be met.

The United States and Canada are the markets this wheat can come from, the South American crop having been practically a failure; Bulgarian and Roumanian supplies being cut off by the Teutons and the Australian and India crops being too far away and too subject to submarine boat perils to be counted on.

To meet this 577,000,000 wheat shortage the United States will have 88,000,000 and Canada 120,000,000 bushels, leaving an actual shortage to our European allies of 369,000,000 of wheat.

Hoover estimates that wheat to neutrals, from whom we receive other vital supplies in return, and enough for seed will bring the shortage to 400,000,000 bushels of wheat. An excess of other cereals, Hoover said, will be sufficient to make Europe's war bread, materially reducing her wheat consumption and also make America's and Canada's war bread reducing their wheat consumption.

Reduction of a pound of wheat flour per week per person in the United States will triple our contribution—now 88,000,000 bushels—to the shortage.

As showing how necessary is the cutting down of American consumption of wheat, Hoover cites that "in Belgium, the relief commission has been compelled to reduce the consumption of cereals by nearly 50 per cent, bringing the food supply so low that the population are incapable of labor."

T. A. Murray and son, Lieutenant Wiley, left last Friday to visit Miss Ethel Murray at Colorado Springs, Colorado.

CHRISTIAN ENCAMPMENT

The religious encampment at the San Saba Fair Grounds Park is continuing through the week. Five services each day are being held and camp life in "Tented Isreal" is being enjoyed by the campers on the ground.

In addition to the state workers reported last week, Rev. Clifford Weaver, former missionary to Japan and at present Chancellor of Texas Christian University was here Friday to Monday. Rev. J. D. Montgomery, pastor of the church at Ballinger, is in camp for the week. Rev. Edwin C. Boynton, pastor of the First Christian church at Austin, will arrive today for the week end.

Ex-Senator Goss, wife and daughter, Miss Gertrude, of Seymour, arrived Sunday and pitched tent for the week. Senator Goss will deliver his lecture, "The Divinity of Christ from a Lawyer's Viewpoint," Thursday afternoon at 4:00 o'clock.

Rev. A. D. Rogers, evangelist, is delivering each night powerful and convincing appeals to the unconverted.

One of the most consecrated and faithful workers on the grounds is Mr. Van Camp, of Pecos, cornetist. He is a young man of high ideals and consecrated life and no military camp on the far-flung battle line of continental Europe has a more punctual or more loyal bugler to rally soldiers to the flag.

Thursday afternoon and night will be devoted specially to the men of San Saba county, who have been called to defend the country's flag in France. Senator Goss will deliver his lecture and Evangelist Rogers will present a special sermon to our soldier boys. The soldier boys who are in the draft call from all parts of the county, are urged to come and their friends are urged to come and bring baskets for a spread on the ground at six o'clock.

Rev. Baxter Golightly, pastor at Llano, arrived in camp Thursday and is enjoying a week working with the church which he was instrumental in organizing some eight years ago.

People are specially invited to come next Sunday and bring basket dinners, spread in the cool shades and spend the whole day. There will be dinner all day and preaching on the grounds."

ARIE-GAUNY

Nic Arie, the popular bar tender at the Legal Tender surprised his friends Sunday by running off to Brady and returning with Miss Annie Gauny of San Saba. Immediately upon returning to Menard they sought out His Honor, Judge Callan and were quietly married. Miss Gauny is a most charming young lady and all of Nic's friends have been trying to find out what argument Nic put up that convinced her to become Mrs. Arie. We congratulate them both.--Menard Messenger.

Miss Gauny is the daughter of Mr. and Mrs. J. M. Gauny, who live six miles above town. She was born and raised in this county and possesses those characters that go to make up true womanhood. The News wishes for them a happy life.

The Wednesday night following the conclusion of "Secret Kingdom" we will show the first McClure's "Deadly Sins". One of these will be shown each Wednesday night until we have shown the seven, then we will show Triangle features each Wednesday night.--The Majestic.

SERVING BY SAVING

(Don T. Griswold, Assistant Husbandman, A. and M. College.)

If there ever was a time when anything capable of serving as food for man or beast should not be allowed to go to waste that time is now. Perhaps the livestock industry of Texas is facing the greatest crisis in its history. The feed crop is the shortest in years, and few of this generation have ever before seen corn tending at \$2.25 per bushel. Hay is hard to get, and too high to buy. If nature is as bountiful this fall and winter as some past seasons, we will have crops of acorns, hickory nuts, persimmons, bur clover, rescue grass, and other stock feeds going to waste valued at millions of dollars, unless we can more readily shift animals from some parts of the state, short on feed, to those with more feed than stock.

They tell us there will not be such a great crop of acorns as there was last year, and perhaps this is true. However we are receiving word from parts of the state that the crop is at least good. From other parts we hear that the mesquite bean crop is fair. Some men write us that as low as ten per cent of all the peanut fields are grazed by hogs in their counties, after the nuts have been harvested. When the question is asked, "How many sheep or goat flocks are in your county?" the common answer in all but a few western counties, is, "Not many; entirely too few to consume the weeds, fence corner grass, and other feeds refused by all other classes of farm animals." A few days ago in Erath county I went twelve miles in the country by one road and returned by another. In this ride I saw one flock of goats, and not one of sheep. On the other hand, I did not see a single farm that would not be better looking if it had a small flock of either turned loose on it to clean up the Johnson grass, Bermuda, brush, and weeds of all description. But good looks would not be the only benefit to each farm. It would mean fewer weeds and more money. What is true of Erath county is true of most others.

If you who read this article live in a community where feeds, commonly wasted, are in greater abundance than livestock, take time to write us about it, and we shall try to help you find the livestock. If you live in a community where the unusual drought has left nothing for animals to eat, and all your stock, especially females fit for breeding, are being sold to the butcher, let us know about that. It may be that we can help you save them from slaughter, thereby rendering a patriotic service to our state and nation.

CLIP THIS AND PIN ON WIFE'S DRESSER

Cincinnati man tells how to shrivel up corns or calluses so they lift off with fingers.

Ouch ! ! ! ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn or hardened callus stops soreness at once, and soon the corn or callus dries up and lifts right off without pain.

He says freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezone tell him to order a small bottle for you.

PICKED PARAGRAPH PELETS

He is not the best carpenter who makes the most chips.

A hundred years of fretting will not pay a cent of debt.

Soldiers of the Lord fight best on their knees.

Error needs artificial support. Truth can stand alone.

Beware of trusting to Providence matters which Providence has plainly trusted to you.

Some men trust God for their salvation, but they won't trust God with the key to their cash box.

When some men pray they give God Almighty information He had ages before they were born.

A kicking man and a kicking mule are both dangerous, and should be "conscripted" and sent to the front.

The man who wants to talk all the time doesn't give himself a chance to pick up enough information to make his talk worth listening to.

A small henpecked little man was about to take an examination for life insurance.

"You don't dissipate, do you?" asked the physician as he made ready for tests.

The little man hesitated a moment, looked a little bit frightened, then replied in a small, piping voice, "I sometimes chew a little gum."

"Father", said little daughter, "I feel in my bones that you are going to buy me a new hat for Children's Day."

A gentleman—A man that is clean inside and out; who neither looks up to the rich nor down to the poor; who can loose without complaining and who can win without bragging; who is too brave to lie, too generous to cheat, and who takes his share of the world and lets other people have theirs.

When you've got a little thing to say, Say it: Don't take half a day, When your tale's got little in it, Crowd the whole thing in a minute, Life is short—a fleeting vapor Don't you fill the whole blank paper With a tale which at a pinch, Could be crowded in an inch. Boil her down until she simmers, Polish her until she glimmers. When you've got a thing to say, Say it. Don't take half a day.

Harold and Ralph were walking along the street when Ralph, with a smile, took off his hat to a lady on the other side.

"Who is that lady?" asked Harold.

"That is my mother."

"Do you always take off your hat to your mother?"

"Why, of course I do. Don't you?"

"I do to other ladies."

"Well my mother is about the nicest lady I know. I think she's worth being polite to."

Moral—Your mother is worth being polite to.

MAN REFUSES TO REGISTER

Arrested Saturday As a Slacker; Will Be Turned over to the Federal Officers.

Saturday evening Sheriff Wall arrested Elias Davis of Melvin, on the charge of failing to register under the selective draft law. When taken to the court house and asked by the county attorney to take an oath for a statement, Davis refused to be sworn, stating that it was against his belief to swear an oath, and that he thought those who were volunteering for the war were only murderers, and that he would neither go fight nor sign up the register.

Three others who did not register in time, one white man, a negro and a Mexican, were told to remain in the city until further advice from the Federal authorities.—Brady Standard.

FOOD SURVEYS WILL BE BEGUN AT ONCE

Washington, Aug. 21.—A nation wide food survey, authorized under the first of the food laws recently enacted by congress, will be started immediately by the department of agriculture.

Plans for the census, announced tonight, show that it will cover nearly 100 items of food and supplies on the farms, in warehouses, in stores and even the stocks in the family pantry. A quick survey will be taken first of the supplies of eighteen of the principal articles of diet, and probably can be completed in three or four weeks, to be followed by a complete census after the crops are gathered.

Information gathered by the department will be turned over to the food administration, who will base its operations largely on the statistics supplied. After the survey is finished monthly reports will be prepared on the supplies of the principal foods. Both actual inventories and estimates will be employed. Estimates of the food and feed products on farms will be made for the whole country by bureau crop estimators through 35,000 picked co-operators in the field.

Information regarding stock in wholesale, jobbing, storing, manufacturing and other commercial establishments, including large retail houses, will be obtained by requiring from each concern a statement of the exact amount of each of the various products held by it. Comprehensive lists of such establishments compiled by the bureau of markets within the last few days will be employed in this work.

The study of families will be concerned even more with the current consumption per month than with the actual stock of food supplies on hand.

The nearly 100 items on which statistics are to be gathered include grains and seeds, grain food products, dried fruits and nuts, vegetables, fats, sugar, syrups, starch, meat and meat products, food products preserved in tin and other containers, dairy and related products, fish and feeds.

JAIL DELIVERY TUESDAY NIGHT

When D. E. Northcut, constable and jailer, returned from up town just after the conclusion of the moving picture show Tuesday night he found that Earnest Shoemaker had successfully made his escape from the jail. He telephoned this intelligence to Sheriff Neal at his residence. Mr. Neal had not yet returned from church at the Fair Grounds park. Upon arrival at home a few minutes later he went immediately to the jail. By this time the escaped prisoner had walked deliberately into the jail and told the jailer that he had been to the moving picture show. He said he sat just two seats in the rear of Mr. Northcut during the exhibition.

He had been permitted to use the run-around and the large cell for several days. He is confined on a charge of burglary and is waiting the convening of the grand jury. He had picked the lock out of the cell and then the lock of the outer door, pass-two locks without noise or disturbance. The Sheriff promptly committed him to an inner cell and has placed Yale locks on the outer doors.

Additional List of Names of Registrants in the "Order Number" List

In addition to the first call of 300 men for physical examination the percentage of discharges and physical disabilities has made it necessary for the board to summon from 180 to 200 more men before the county's quota of 97 men can be secured.

The following is a list of the additional 200 names in which they will be called for examination.

Table with columns: Serial No, Name, Add on Reg Card, Order No. Lists names of registrants such as Loyd Havins, Frank Raymond Gray, John Terry Walker, etc.

PINK BOLLWORM SPREADING IN MEXICO

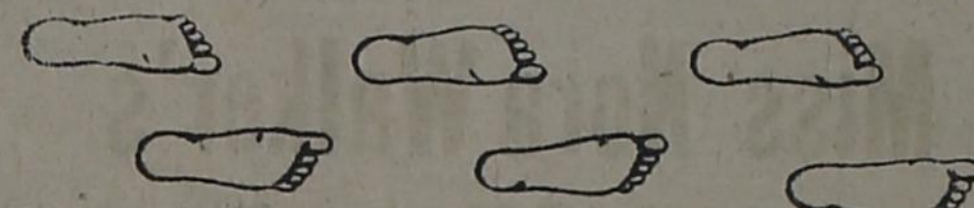

Exploref for Department of Agriculture Reports Seed from Infested Territory Planted Near Eagle Pass, Texas

Washington, D. C., Aug. 20.—That the pink bollworm is becoming widely distributed in Mexico, and through shipments of infested seed, is likely to appear much nearer the Texas border this year, is the report brought back from Mexico by a representative of the Federal Bureau of Entomology, who recently explored the territory in northern Mexico now infested by the bollworm.

Near Eagle Pass, Texas, on the Mexican side, the representative found a field of 60 acres of cotton planted with seed obtained in the Laguna region of Mexico. The region now is widely infested with the insect, and it is considered likely that the pest will become established much nearer the Texas border as the result of plantings of infested seed. Such seed has been planted at Morales near the town of Allende, about 50 miles from Eagle Pass and even nearer the United States, at a point opposite Del Rio. Agents of the United States Department of Agriculture are keeping a close watch of the territory along the Mexican side and will endeavor to stamp out any outbreaks which may occur this season.

The wide distribution of the pest in the Laguna region was shown by samples of seed obtained by the entomologists. Of 40 samples collected throughout this region, 30 were infested. In some parts of the Laguna section the new pest has not attracted much attention, the specialist reports, perhaps because its seriousness is not yet appreciated. In other localities, notably the southeastern part of the Laguna, it has reached such numbers as to interfere seriously with the cultivation of cotton. The rapid spread of the pink bollworm in Mexico probably is due to the wide demand for seed of the Egyptian variety in which the pest was carried to this country. The pink bollworm was first introduced in Mexico in 1911 through the importation of 125 sacks of Egyptian seed, which were planted in the vicinity of Monterey. The plantings from this seed yielded and a demand arose for the seed. Much of it was sent to the planters in the Laguna district.

CALOMEL WHEN BILIOUS? NO! STOP! MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tone" is Harmless To Clean Your Sluggish Liver and Bowels.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out" if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tone. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make this beauty lotion cheaply for our face, neck, arms and hands.

At the cost of a small jar of ordinary cream one can prepare a full quart pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces apricot white. Care should be taken to strain the juice through a fine cloth so lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of apricot white at any drug store and to lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

SUFFERED 20 YEARS AND WAS TOLD SHE COULD NOT GET WELL

RAILROAD MAN'S WIFE WAS IN MISERABLE HEALTH—GAINS 15 POUNDS ON TANLAC AND FEELS FINE.

"Two months ago when I was told I could never get well I almost sank in despair, but when I took Tanlac a while and found my troubles were all gone I felt like shouting for joy", said Mrs. J. Ramsey, wife of a well known fireman for the M. K. & T. while in Wagner's Drug store a few days ago.

"For more than twenty years", continued Mrs. Ramsey, "my kidneys and bladder were out of order and no one knows the suffering and worry I had to endure. I would turn red and have some kinds of spells that I just can't describe and I was afraid to come down town alone. My bladder was very weak and painful—bothered me all the time, and the hurting in my back was something awful. About two months ago, I was told I could get no relief from anything, in fact, I was given up as a hopeless case and no one could imagine how discouraged and despondent I felt. My right hip and side pained me, so I could hardly stand it and my hand on that side would swell twice its regular size. Six years ago, I underwent an operation, my nerves have been all shattered, and I haven't been able to get a good night's sleep since that time. My skin was yellow and all wrinkled up and my eyes would smart and burn.

"Surely no poor woman ever suffered much more than I did and nobody could be more grateful for anything than I am for what Tanlac has done for me. A very dear friend gave me my first bottle of Tanlac and it has acted more like a miracle than medicine with me and brought me the first real relief I have had in twenty long years. I have only taken two bottles so far and have actually gained fifteen pounds in weight, but the best of it all is, I feel like a new woman. My complexion has cleared up, the wrinkles have all about disappeared, and anybody who knows the dreadful condition I was in can see the wonderful change Tanlac has made in me. My kidneys and bladder don't bother me like they did, my pain and misery is all gone. I sleep like a child every night and can go anywhere, please now alone. I was almost distracted with suffering before I took Tanlac, but I now feel better than I have in many years and I hardly know how to express the joy I really feel over my wonderful relief. I gladly recommend Tanlac to all suffering women because I honestly believe from what it has done for me that it is the best medicine that has ever been made."

Tanlac is sold in San Saba by the Corner Drug Store, in Locker by J. J. Coffey, in Richland Springs by J. I. Chapman and in Cherokee by the Cherokee Drug Co.—Adv't.

CLAIM 1917 COTTON WORTH 44 CENTS POUND

Committee of Farmers Would Make 30 Cents Minimum Price for Staple
Austin, Texas, Aug. 17.—Committee of Agriculture Fred W. Days today made public the report of the committee appointed by the State Farmers' institute at its meeting here in July to ascertain and fix the minimum price at which cotton should be sold in Texas. The committee, after giving in detail the cost of production and other factors entering into the production of this staple, fixed the minimum price at 30 cents per pound for middling cotton and \$60 per ton as the minimum price for cotton seed. The committee considers 44 cents per pound as the real value of the 1917 crop, less the amount of the seed, which, if they bring \$6 per ton, will amount to \$7.50 per acre, of 1 1-2 cents per pound on the lint, making the real value of the lint 42 1-2 cents per pound. The committee figures the cost of cotton production will be 10 cents per pound where a bale per acre is made, 20 cents where half a bale is made, 30 cents where one-third of a bale is produced and 40 cents where one-fourth of a bale is made per acre, "which is," says the committee, "from present prospects, as much as will be produced this season. There is nothing added here for profit, which should be at least 4 cents per pound, making the value of this crop 44 cents per pound."

Four operators were wounded in making the pictures "Fighting in France", to be shown at the Majestic Saturday.

Miss Nora Walker has opened her millinery store upstairs in the J. C. Campbell store.

GERMANS PRACTICE INHUMAN FORMS OF PUNISHMENT UPON WAR PRISONERS

Chicago, Ill., Aug. 20.—Albert Martin Depew is a fighting man, but he asserted today he balks at barley coffee, cabbage, water and black bread crusts, which represent the menu upon which he subsisted for several months while held in a German prison camp. Depew is at home in Chicago today after three years of active service in the war. He had just received his honorable discharge from the United States navy when the European war broke out. He immediately shipped for Brest, joined the French navy, served eight months in the Dardanelles campaign, was wounded, returned to New York and shipped again on the White Star liner Georgia, which was captured by the Moeve, the German commerce raider. "They sank the Georgia, picked up 120 of the crew, let 20 drown and kicked me into the sea," he declared. He was rescued and was aboard the steamer Yarrowdale when it was captured. He was then taken to a German prison camp and was put upon the rations to which he offers such vigorous objection. Through a series of camps he went, he says, each worse than the other, until, in rags and shodless, he was held at Brandenburg, which is known among prisoners as "hell hole." Depew relates stories of inhuman forms of punishment, which he says are practiced by the Germans upon their prisoners.

Misses Jewel Brazil, Virgie Gage and Mamie Wild, of Bend, are weekend guests of Mrs. Joe A. Williams at the Model Farm.

SOLDIER BOY

Oh! Soldier boy, Oh! Soldier man, In your suit so spick and span, With your cheeks of deepest tan, Tall and strait, and Oh so strong, Gathered in a mighty throng, To combat a nation's wrong; Sons of mothers, strong with love, Who with stern, strong devotion give, Their heart's blood that we may live; Pride and joy of a fond father's life, Given that earth shall be free from strife, And all men enjoy a fuller, freer life; Sweetheart of some maiden fair, Who with many a bitter, salty tear, Gives him she holds so dear, And the thought of your strong devotion, Stirs our heart with deep emotion, Fills our heart with high elation. To us you speak of love's devotion, Full, complete—without reservation, Bends our hearts in loving adoration. Though hardships o'ertake and try thy soul, Though grim death shall take his toll, From amongst thy ranks, so bold, Freedom's spirit shall guard thee round, And earth's vaulted dome, shall resound, With thy fame, immortal, deathless, grand, A nation's prayers, like incense sweet, Mount ever upward to the mercy seat, And He will surely guide thy feet. Oh soldier boy, Oh! Soldier man, With your heart so spick and span, God keep, and bring thee home again. —Newman Walker-'17.

TELEGRAPHY AT BROWNWOOD

The ranks of the Telegraph Department of the G. C. & S. F. Ry., have been so depleted by enlistments and the selective draft, that J. Matthews, Telegraph Manager of the G. C. & S. F. Ry., at Galveston, has decided to establish a school at Brownwood, Texas, for the purpose of instructing young men in telegraphy and station accounting with a view to fitting them for positions in station service on the Santa Fe. The school is to be under the Management of Mr. W. J. Dawson.

The work of installing furniture and telegraph appliances will be started Monday, August 20th, and the school opened September 1st.
