My books will close for the year and my accounts will be due. Please donot disappoint me by not meeting your account promptly at that time.

It has been with very strenous efforts that I have carried your accounts this year. The Wholesalers are now requiring cash for the goods wt sell you so to keep in business we must have cash or keep the goods. The Food Administration also urges that we sell for cash and curtail every expense thereby reducing the cost of living and save for the war that we must win above everything else eliminate as far as possible more than one delivery to each home daily, that will save time and expense. You will need credit more later on than you do now, so pay cash while there is cash. You expect CASH for what you sell.
