### Count Clark is Dead

On Sunday night at 11:00 o'clock Count, the Shetland pony of Master Harbert Clark, lay down and died, as all good horses do sooner or later. Count was a splendid little pony, a favorite pet of the entire community, and to his owner, was as near perfect as a horse can be. Harbert was presented with this horse by the American Home Weekly, a newspaper published at St. Paul, Minn., for securing a certain number of subscribers. The paper is dead also, but its demise caused no grief or regret among the paid-in-advance subscribers at this town, all of whom, however, extend to Harbert their sincere sympathy in his sorrow for the loss of his pony. All join in wishing that Harbert may soon have another pony.

A. G. Simonson was here from Oslo Tuesday, and subscribed for the Headlight while in town.

Made to measure suits, strictly Taylor-tailored. Order today without delay if you want your suit for Easter day. Exclusive rights to sell Taylor made clothes in Hansford are vested in,

### WILL TRY TO FIND OIL OR GAS

#### Land Owners Want to Know What is Beneath the Surface

For the purpose of ascertaining whether oil or gas can be found in paying quantities in Hansford county, a number of land owners, whose holdings lie principally along the Palo Duro valley, met at the court house in Hansford last Friday and organized "The Hansford Oil Association." This association has for its purpose the securing of the oil and mineral lease on a large acreage in Hansford and adjoining counties, and after this is secured, to make a deal with a deep well outfit to put down a well to a depth of 4,500 feet, unless oil or gas is found in paying quantities before that depth is reached. The organizers of this association are all big land owners and will not be compelled to go outside their own number to secure an immense acreage. The board of directors, or business managers, are: Howard Wilson, James H. Cator and A. F. Barkley. These men are not acting under an impulse of a sudden desire to become immensely rich—they are doing very well raising cattle—but are following what they believe to be the best and most practical plan to learn whether Hansford county, or any part thereof, can be developed into an oil or gas field. They have been told by geologists that every indication of oil and gas is to be found in their pastures and they are arranging matters so that the putting down of the test well will not hurt anyone, and if anything of value is found, all will share in the benefits to accrue. It is a good plan and the Headlight is glad that it has been put on foot. Developments will be watched with great interest.

### New Roof on an Old House

Joe Close went to Plemons on Thursday of this week to assist with the work of putting a new roof on a residence belonging to Billy Christian, sheriff of Hutchinson county. This residence has an interesting history. In the early 80's the well known Billy Dixon was a scout, guide and interpreter in the employ of the Federal government, and maintained a sort of headquarters on Adobe Walls creek in what is now Hutchinson county. By some hook or crook the government failed to send his salary for so long he lost all hope of ever collecting it, but it finally came, and Billy was so well pleased he had this little residence built and gave it to Mrs. Dixon as a present. Several years later Mr. Dixon sold the land on which the house was located to Price, Patton & Hyde, but the residence remained the property of Mrs. Dixon. In the early 90's Hutchinson county was organized and Plemons was designated as the county seat. Mr. Dixon was elected sheriff of the county so he and Mrs. Dixon went to Plemons to reside, taking the residence of the latter along with them.

### Do We Need Better Roads?

The office of Public Roads of the United States Department of Agriculture, gives the following instances as occurring at Crosby, Texas. The same thing is happening in Hansford county every day: "At Crosby, Texas, a shell road was built for one mile out of town. A farmer four miles out came to town with a team of two mules and loaded on his wagon at the railroad station two tons of wire fencing. At the end of the improved shell road, on his return, the farmer was compelled to throw off 3,000 pounds of wire. He then hitched two additional mules to haul 1,000 pounds on the remaining three miles of unimproved road. This man then had to make three more trips for the remaining 3,000 pounds of wire, and it required his time for the four miles from 10 o'clock one morning until 11 o'clock the next morning to finish the hauling. If the improved road had extended four miles to the farm, the original team of two mules could have hauled the two tons of wire in two and one-half hours."

### School Trustees Election Saturday

The election of school trustees for the Hansford school will take place tomorrow, Saturday, April 5. This is a matter that should be given much attention. Our school is our principal asset. Every man, woman and child is vitally interested, then why treat the business of electing trustees with indifference? We have heard the names of E. J. Thayer, Dr. G. P. Gibner and J. C. Hancock mentioned as a probable ticket. They would, in the opinion of the Headlight, make an admirable board of trustees. Don't forget to vote tomorrow; if for no other reason, to show that you are, or claim to be, an American citizen.

### JUST WHO ARE THE PUBLIC?

#### Somehow They Seem Never to be Present When the Term is Employed—Possible Explanation.

We hear much about the public. It is seldom praised; often it is berated. The public will stand for anything, we are told. The public likes to be duped, said P. T. Barnum years ago in explanation of his success as a showman. The public be damned, said a corporation head a generation ago. Society never advances, declared the philosopher Emerson. The public is a huge beast, some one else has said. Almost anybody who talks about the public or matters pertaining to the public will reiterate such opinions today, observes the Kansas City Star. And no offense is taken; no indignation meetings are held and no resolutions drawn up in condemnation of such insulting language. Apparently nobody feels insulted.

Who, then, is the public? Nobody can tell us; always the thing eludes our search.

But is not the public anybody but you and me, or anybody except the persons talking about it? Therefore, the public can never be found, though one should inquire all his days. Always the thing is further on, like the rainbow's end.

So there is little use relying on the public to do anything, to take the initiative, to start something, to rise up in rebellion against wrong oppression, outrage, injustice.

There has been much talk about rebellions, revolutions, when public indignation has reached the boiling point; but there never was and likely never will be a public uprising of any kind without a leader, without some individual working alone or in co-operation with a very few other individuals to organize "public sentiment," to give it form and substance, "a local habitation and a name."

Therefore all the abuse that has ever been heaped upon the public might be gathered into one mass and once more hurled at the thing's head and nothing would ever be heard of it and nobody hurt.

What recourse can be had, then, when the people suffer, when a community, a city, is oppressed by bad government, selfish and soulless corporations or what not? None at all by damning the public.

It all comes back to you and me who started the discussion. You are a vital part of the public; I am. You owe it to yourself and the cause of justice, as do I, to wait not a moment in doing something, in going straight to a neighbor and with him to somebody else, and on and on until an army is raised and the outrage put down. Let us realize our own individual responsibility to an abstract public. The public will do its duty when you and I act.

### First Across Canada.

The first white man to cross this continent by a route north of Mexico, was Sir Alexander Mackenzie, a Scotsman who rose high in the service of the old Northwest company which was amalgamated with the Hudson's Bay company in 1821. Mackenzie was in the far West when he planned his trip across country to the Pacific coast. In the autumn of 1792 he led his party far up the Peace river where they built a post and wintered. On May 9, 1793, the party set out, passing up the Peace river, through the Rocky mountains, across to the Fraser river which was followed down stream for some distance, and then across country through an unexplored region, until the party came out on the Pacific coast. Mixing a quantity of vermilion with melted grease, Mackenzie wrote on the inland side of a high rock rising from the shore these words to mark his visit: "Alexander Mackenzie from Canada by land, the twenty-second of July, one thousand seven hundred and ninety-three. Lat. 52 degrees, 20 minutes, 43 seconds north." Mackenzie then retraced his course and returned to the East.

John N. Stump, president of the Ochiltree Telephone Co., was looking after the interests of the company in Hansford Thursday.

Mrs. Geo. M. Whitson came in from the ranch 9 miles southeast of town Thursday morning, to do some shopping and to look after business matters. She says the wheat and barley on the Whitson ranch is looking fine now.

John Dreesseu, representing the C-Tex Production Company of Fort Worth, will be in Hansford two weeks. Anyone wishing to know more about this old, reliable oil company may see Mr. Dreesseu in Hansford. The O-Tex is one of the really big, safe companies operating in Texas and is offering sure returns on investments. Their acreage is all located in proven fields.

### In Society's Mad Whirl

John Dillow takes a hair tonic twice a week now, but steadfastly refuses to divulge the name of the fair one. The general opinion is that she is a country girl.

A number of the bloods made an unsuccessful attempt to compel "Sid" to refund a part of the money they had paid for massages, hair tonics and neck shaves when it became generally known that no teacher's institute would be held this year.

C. D. Works is very anxious for the mail to arrive each day, and it is thought that he is corresponding with a young lady.

Henry Waldrop is not writing as many letters as formerly and is figuring on buying a suit of new clothes.

Halls Richardson sports a pair of brand new shop made boots, the tops of which are profusely illustrated. Shop made boots do not squeak as loud as the store bought kind.

Doug. Powers is thinking of having his racing car repainted and thoroughly renovated before the picnic season arrives.

P. C. Crissler says he will be mighty glad when the good old summertime arrives, so everybody can take a bath.

Floyd Hays has recently become a good roads enthusiast. He says that even on our best roads it is extremely dangerous to hold the wheel with one hand.

The Boot and Spur club is now

holding out door meetings, the sunny side of Lon Hays' store building being the favorite round-up ground. All night sessions are held at Sid's barber shop.

The Shoe and Sock Club held an interesting open air meeting on the vacant lot south of the postoffice last Saturday afternoon. In the absence of President Phil Weaver, the round table discussions were led by Vice President Tom McMurry. It has not been decided by the club just when the peace treaty would be signed and delivered.

Curtis Lowe has recently purchased two large, silk handkerchiefs of many colors, which he intends to wear round his neck at the ball games, out door meetings of the Boot and Spur club and the Sunday School picnics during the coming summer.

Marcellus Head recently invested in two pairs of load socks and intends to wear hip britches rolled up at the bottom during the coming summer season.

## Fordson Tractor

In developing the FORDSON Tractor the aim has been to produce a small tractor which will be low in first cost, reliable, and above all—efficient.

Being small, light and economical the FORDSON tractor is adapted for use on small farms as well as on the largest. It will pull all farm implements and do the work generally done by horses on the farm. In addition, by its belt pulley the tractor will drive farm machinery such as a thresher, ensilage cutter, etc., making the FORDSON a truly universal tractor.

Experience has pointed to the small, light tractor as being the one machine which will fill all varying conditions satisfactorily.

## IN THE VICINITY OF VLADIVOSTOK

Showing an American Y. M. C. A. man distributing bars of chocolate to Czechoslovak soldiers in Siberia. The Y. M. C. A. gave chocolate, cigarettes, etc., to the men on the extreme front lines and sold them elsewhere. Writing paper, pens, ink, moving pictures, concerts, etc., were always free to the men. Because of the very heavy expense incident to shipping all kinds of supplies overseas and then hauling them to the front, the Y. M. C. A., ordered by the war department to charge cost plus transportation, was in some cases forced to charge the soldiers more than the same goods would have cost them in the United States, with the result that the organization has been severely criticized. In view of this criticism, the army officials finally came to the Y. M. C. A.'s rescue, with the result that the boys overseas are now buying canteen supplies in many cases much cheaper than they can be bought in the United States.

## "GOODIES" FOR ITALY'S FIGHTERS

The above picture was taken in Italy and shows a Y. M. C. A. camion loaded with good things for the soldiers. The driver has just taken his seat and is receiving final instructions before starting out on his tour of distribution. The transportation problem was one of the greatest with which the "Y" had to deal. At one time, for instance, the organization sent a shipment of an even hundred autotrucks to France, but on their arrival eighty-five of them were commandeered by the army. Men, food and munitions were more important to Uncle Sam than than cigarettes, chocolate and chewing gum, and as a result many a "doughboy" was deprived of his "makins." Those were the days when most anybody, especially if that somebody happened to be a "Y. M. C. A." at the front, would admit that Sherman was absolutely right.

## "MOVING DAY" ON ITALIAN FRONT

The photo above, one of the latest from the Italian front, shows a number of Y. M. C. A. workers and soldiers taking the makings of a "Y" hut to an isolated army post so that it can be put up. It gives an illuminating idea of some of the difficulties incident to war work.

## KEEP FIT FOR HOME SLOGAN OVERSEAS

Pershing Issues Order Designating  
Y. M. C. A. to Supervise  
Athletics.

Paris.—General Pershing's position regarding the Y. M. C. A.'s management of athletic activities in the American expeditionary forces is set forth in the following army order:

"The Y. M. C. A., with the approval of the commander in chief, has organized a department of athletics and is prepared to give every assistance in the development of general athletics and the arrangement and management of competitions between military units.

"It has a large number of specially trained physical directors in mass play and other athletic activities now in its ranks in France. One of these will be attached to the staff of each division and separate unit, and will be designated in orders as the divisional (or unit) athletic director, and under supervision of the division athletic officer will be charged with the responsibility for the arrangement, management, and general conduct of

athletic activities throughout the unit."

In another section of the order, provision is made for mass athletics and competitions for every possible man, an all-point company athletic championship and official A. E. F. championships in a wide variety of sports.

"Keep Fit for Home" is now the slogan. If the period of demobilization is not to be, as Doctor Mott has put it, "a period of demoralization" for many men, attractive, constructive physical activities must immediately be substituted. To a certain degree a continuation of military drill will meet the situation, but the games and play, informal and competitive, will be found the best agency to meet the call for physical well-being.

There will be physical expression of some sort, particularly during the leisure time of the soldier. Shall it be destructive, disorderly and dull—or constructive, orderly and interesting?

The army has decided for the latter. It has adopted a program maintaining a wise balance between the amount of drill necessary to maintain military efficiency and discipline and the amount of play necessary to keep men physically stimulated, and so the responsibility for the play side of this program for the 2,000,000 men in France is placed upon Y. M. C. A. athletic directors, experts in their profession.

 To the Sheriff or any Constable of Hansford County—Greeting:  
 You are hereby commanded to summon the unknown heirs of C. P. Oran and wife, Elizabeth Oran, deceased, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 31st judicial district, to appear at the next regular term of the district court of Hansford county, to be holden at the court house thereof, in Hansford, on the third Monday in April, a. d. 1919, the same being the 21st day of April, a. d. 1919, then and there to answer a petition filed in said court on the 18th day of March, a. d. 1919 in a suit numbered on the docket of said court No. 182, wherein L. W. Matthews is plaintiff and the unknown heirs of C. P. Oran and wife, Elizabeth Oran, deceased, are defendants, and said petition alleging that the plaintiff is a resident of Hutchinson county, Texas; that on or about January 1st, 1919, plaintiff was lawfully seized and possessed of a tract of land lying and being in the county of Hansford, and state of Texas, known and described as section 71, block 2, certificate No. 33 592, patented to Fred P. James on March 10th, 1875, by patent No. 613, Vol. 1, original grantee Galveston, Houston and Henderson Railway Co., containing 653 acres of land, holding the same in fee simple; that afterwards, to wit: On or about the 10th day of January, a. d. 1919, defendants unlawfully entered upon and disposed plaintiff of such premises and without from plaintiff the possession thereof, to his damage, \$8,320 00; that plaintiff and those under whom he is claiming title to said land have held peaceable, continuous and adverse possession under color or title from and under the state of Texas for more than three years next preceding the filing of this suit, paying all taxes thereon and using, occupying and enjoying the possession of said land during all of said time; plaintiff further pleading ten years limitation, claiming that those under whom he holds title have held actual, peaceable, continuous and adverse possession of the land herebefore described for more than ten years.  
 Defendants are one and all notified to produce the conveyances and instruments of writing under which they claim title for use in evidence in the trial in this cause, and that on failure to do so are notified that plaintiff will file among the papers of this cause not later than three days prior to trial certified copies of all such as are of record, and will use such copies in absence of original.  
 Herein fail not but have before said court, at its aforesaid regular term, this writ, with your return thereon, showing how you have executed the same.  
 Given under my hand and the seal of said court at office in Hansford, this 18th day of March, a. d. 1919.

**Make Money on Your Idle Machinery**  
 Here is the way one farmer made money on his idle machinery. He had \$1,000 worth of farm implements which he left out in the open all year. He figured his investment this way:  
 Interest on \$1,000 at 6 per cent ..... \$ 60.00  
 Wear and tear on machinery at 20 per cent ..... 200.00  
 Total debit ..... \$260.00  
**A Good Machinery Shed**  
 was brought to his attention and he built it for about \$300. It saved him, he figured, over one-half of the wear and tear on his machinery, because it protected his implements from the weather and from rusting. He then figured his investment this way:  
 Interest on \$1,300 at 6 per cent ..... \$ 78.00  
 Wear and tear on machinery at 5 per cent ..... 65.00  
 Wear and tear on shed at 10 per cent ..... 30.00  
 Total debit ..... \$173.00  
**His Machinery Shed Saved Him \$72.00 Every Year**  
 It paid him 24 per cent on his machinery shed investment, and he figured he was making money on his idle machinery.  
 Come in and tell us how much you have invested in implements. We'll figure out what you should spend to make money on your idle machinery.  
 We will also help you with your plans for a machinery shed. We have some lumber suited to that kind of building.

 A new and fascinating chapter in the story of separate skirts has been offered by the employment of wonderful new weaves in silk for making them. The knitted weaves, in plain and mixed colors, heavy and very brilliant satins, tricolettes, are all produced in beautiful patterns of one or two colors showing huge checks, crosses, plaids and mixtures. In the picture a blue and white, in a rough weave with brilliant luster, makes a skirt of utmost elegance.

 FOR SALE—THE EARTH  
 If your farm or your ranch is for sale, and your price and terms are right, I can sell it.  
 Write me a letter giving me a full description of your property, section and block number, kind of improvements, and if I don't sell it you are out nothing, as I do a strictly 5 per cent commission business, no sale no pay. The longer time and the least amount of cash you have to have as first payment, the easier it is to sell.  
 It's my business to get the buyers and I know how to get them, and if you don't get in on the deal it's your fault not mine.  
 Have just sold \$60,000 worth of Hansford County land in the last thirty days, but can't sell yours unless you list it with me.

## ELEGANCE IN SPRING SUITS

The youthful and chic suit shown here will interest those who are looking for novelty. Taking advantage of several privileges offered by spring styles, it has assembled straight lines, flaring sleeves, crisscross tucks and rows of buttons in a charming model made of beige-colored, smooth-faced cloth. Except for diagonal, slit pockets, set in at each side, the skirt is quite plain, bearing out the elegance which the designer had in mind and executed so well. The coat has slashed seams forming five panels, two at the front, one at each side and one at the back. Each front panel is decorated with a row of buttons, and the side panels have beautifully crown-bar tucks as a finish at the bottom.
