THOMPSON, grateful for the steady confidence already reposed in her, respectfully informs those parents who wish their daughters taught ornamental branches at the same school where they study the solid and more important branches of education, that she has now the services of a lady who has taught school for several years, and who teaches various branches of ornamental work very handsomely, particularly a great variety of needle-work, bead and rice-work, the drawing and coloring of maps, &c. Those young ladies whose friends desire it, may learn either one or all of the following branches, in a separate department, that is, music, drawing, and the French language. Great pains will be taken to promote the moral and intellectual improvement of the scholars, as well as their social deportment. The number will be limited to fifty, though the rooms are airy and spacious enough for many more. There are at this time only thirty-five pupils for two teachers. DEBATE IN THE HOUSE OF REPRESENTATIVES.

REMARKS OF Mr. R. M. JOHNSON, On the bill authorizing the President of the United States to accept the services of volunteers.

THURSDAY, APRIL 21.

Mr. JOHNSON, rose, and said: It is not my intention t detain the committee except for a very brief explanation o the object of the bill; for the measure which it proposes requires despatch. The letter of the Secretary of War which I will here request the Clerk to read, shows the ne-cessity of immediate action.

WAR DEPARTMENT, APRIL 18, 1836. Str.: In answer to your inquiry, I have the honor to stat that various reports which have reached the Department lea to the belief that the Indians upon the Western frontier are in state of considerable uneasiness, and that disturbances with the are anticipated. It is my impression the safety of that fronti-requires that a road should be opened, and a cordon of posts e tablished along it, in conformity with the plan recomm my report to the Chairman of the Military Committ Senate, and communicated in my letter to you of the 19th Feb ruary; and I would further recommend that the necessary lav should be passed as soon as convenient, in order that no unnecess sary delay may take place in the arrangements of the Depart-ment.

ment. I have further to state, in conformity with your suggestion that, in the event of any difficulties among the Indians, I conside the measure proposed by the Military Committee, of allowing volunteer corps to be taken into service for a term not exceeding volunteer corps to be taken into service for a term nor the public twelve months, to be discharged as much sooner as the public interest will permit, very important, and one which, if adopted, cannot fail to be more efficient and economical than the present method of restricting the services of the militia to three months. Very respectfully, your most obedient servant, LEW, CASS.

Hon, R. M. JOHNSON,

Hon. R. M. JOHNSON, Chairman Com. Hill. Affairs, H. R. The bill now before the committee authorizes the Presi-dent to accept the services of volunteers for a term not ex-ceeding one year, but to be discharged at an earlier period if the public service will permit. The existing law authorizes the President to call out the militia for a term not exceeding three months, for the object specified in the Constitution, namely, to repel invasion, suppress insurrec-tion, or to enforce the laws of the country. The bill be-fore the committee provides that, in lieu of a requisition upon the militia indiscriminately, without consulting the will or convenience of those who may be called upon, he may accept of such as shall volunteer their service; and that instead of being required to discharge them for new subsidies, he may continue them in service for a year, i the public safety should require that length of service. It does not authorize him to accept their service for any other object than that specified in the existing law and in the Constitution ; nor does it change the principle of the exist-ing law in any other respect whatever. The advantages both to the public service and to the

civil community of volunteers over militia draughts are cer tainly very great and obvious. The militia laws contemcitizens. The farmer may be compelled to leave his field at a moment in which the loss of one month would prove r at a moment m which the loss of one month would prove a sacrifice of the whole year's produce. It may be when he has prepared his land for seed, but before he has sowed or planted it; or it may be when his crop is ripening, and the whole may perish for want of gathering. The mechanic may be called from his work at a time when its neglect would ruin his whole business. Both may be called away when their families are in the most critical situation, and when the sacrifice would be greater than could be remuner-ated by any pecuniary consideration. But volunteers will proffer their services when no such sacrifices are required proffer their services when no such sacrifices are required ey will be persons without dependent families, or whose affairs are in a state that will permit their absence anary are in a state that will permit their absence without great inconvenience. The greater proportion of them will be young men, who are animated by the ardor of youth, impelled by the thirst of glory, nrged by the fire of patriot-ism, and willing to learn the duties of the eamp and the field, while indulging the novelties so grateful to yonthful minds minds

As it regards the public service, all experience shows that the man makes the best soldier who makes the field his choice. The universal character of Americans is that his choice. of bravery; but the same person, with all the love of coun-try which is common to Americans, (and no country on earth ever presented such charms, or ever commanded such patriotism,) would be much more effective in war, when circumstances marked the field of glory as his choice, than when the state of his affairs at home, or the distresses of his dependent family, forced upon his mind a painful re-luctance to do what, under other circumstances, would be a matter of choice.

a matter of choice. The difference between a tour of three months, and a year's service, of the same persons, is so decidedly in fave of the latter, both in efficiency and economy, that it mus forcibly strike the mind of every person, upon a moment's reflection. Persons in public service but three months will scarcely have learned the use of arms, the exercises of the field, and the discipline of the army, before their term will expire. Experience is as necessary to the efficiency of an army as to any other employment; and it is a fact as well established as any other principle in military annals, tha troops disciplined and experienced are, in action, nearly equal to double their numbers of untutored noviciates, esally when to knowledge and experience is added the of volition. Our Western frontier, on the extreme confines of Missouri and Arkansas, is at this moment threat-ened with Indian hostilities. While we are here deliberat-ing, the tomahawk is preparing and the scalping-knife sharpening; and before the appearance of a sufficient force to subdue, by terror, the martial spirit of the savages, there is danger of the reaction of the Black Hawk and the Florida scenes in those western regions. I am unwilling to cause anthour's delay; but if ordinary militia draughts are made, which cannot exceed three months, at least half that time must be occupied in going and returning, so that for three months' pay the country will not have more that six weeks' field and camp service. By the time they reach the scene of action, new levies must be made to relieve them, so that at least double the number of men must l in motion, and in pay, to keep the same number of men must be and these of new troops, instead of those who are accustom-ed to the service. The expense of outfits, whether incur-red by the Public or by individuals, is so much actual expense to the country, and this must be renewed as often as new levies are made; so that, in point of economy, there is a difference of more than one-half in favor of volunteers for a year, as well as double the efficacy in their service. a year, as well as double the efficacy in their service. The saving of life is also a desideratum worthy of notice. The loss by sickness and mortality brought on by the change of life, from the enjoyment of home to the privations and hardships incident to the camp, is believed to be great-er than by the strife of battle; and this loss is principally among those who are commencing the service. After an experience of three months, men become habituated to the soldier's life, and generally enjoy as good health as in pri-vate life. We have a sufficient number of patriotic citi-zens in the morning and vigor of life, who are willing to indulge the patriotic ardor which they have derived from their revolutionary fathers, by the performance of this sertheir revolutionary fathers, by the performance of this service; and surely no army is so virtuous and patriotic, no force so efficient as volunteer citizens, after they have learned the duties of service. They never assume a mer-cenary character. They retain all the moral sentiments of citizens, expecting to return to civil life, and in their re-turn they bring with them into civil life all the honorable and liberal sentiments of American soldiers. The bill does not propose, as some gentlemen seem to suppose, giving to the President extraordinary power. The Constitution gives him the power as comparately him Constitution gives him the power, as commander-in-chief to call into service the militia for the same purposes con templated in the bill. The existing law recognises thi power, but it limits the service of the same persons to three months, when he may supersede them by others. The present bill provides that, instead of changing them, he may continue the same persons by their own consent, and that instead of draughts, he may receive such as volunteer their service. It is, in this respect, not only more numerical and efficient for the country, but more consonant to the freing of freemen, To sustain a republican Government, som sacrifice of liberty must be made for its defence. It is a common duty to protect the country in the points specified in the Constitution; and for this the free American must relinquish the liberty of remaining at home when his country's service calls him to the field; but it is wise to make that sacrifice as light as possible. This object will be accomplished by the passage of the bill before us, as it provides for the acceptance of volunteers in lieu of those who might otherwise be required to serve. As friends of liberty, then, we should unhesitatingly pass the bill. The cloud which is gathering in our Western horizon warns us to make immediate proparties for the appreciations of the to make immediate preparation for the approaching storm Our unprotected citizens expect it, and the obligation rests Our unprotected citizens expect it, and the obligation rests on us. Nothing but a sense of the strongest obligation could have induced me to occupy the time for making this explanation of the object of the bill. The necessity of its immediate passage forbids further delay, and I earnestly desire the final action of the committee upon it before the present morning shall pass away. One day's procrastina-tion may be productive of fatal disasters; and for the con-sequences we must bear the responsibility. EMARKE OF MR. GRANGER, (OF NEW YORK,) On the same subject.

TUESDAY, APRIL 26, 1836. Mr. GRANGER said .--Mr. Speaker: I rise to give my assent to the general propositions of this bill, and particu-larly to say a few words in favor of the amendment pro-posed by the gentleman from Missouri, (Mr. ASHLEY.) I

emember, sir, that when the question of removing the In ians from their native abodes and the sepulchres of thei athers was first raised, one argument in its favor, and one which commended itself to me with more force than any which commended itself to me with more force than any other, was the fact that they would be removed from the vices which civilization threw around them; that they would be taken to a country where broad hunting grounds would be secured to them; that they would follow it— and that, finding employment congenial to their habits, they would have all their simple works curvelied and would access to be have all their simple wants supplied, and would cease to be the victims of the white man's cupidity. I remember, sir, that those who viewed this subject more calmly, and, as it would seem, more wisely, then propho-

sied that that *would* happen which has happened. We have been told, to-day, that instead of availing themselves of the advantage promised to be secured to them, instead of being quict, happy people, indulging themselves in all the simple engagements of savage life, they are people, herding together, and pent up in closes quads on the frontier, as the together, and pent up in close squads on the frontier, as the gentleman from Illinois (Mr. REYNOLDS) has told us, often suffering from hunger, enjoying but few of the necessaries, and none of the luxuries of life. Under these circum-stances, sir, and departing as they have done from the pri-mitive habits of their ancestors, to which I had hoped they would have returned, it becomes necessary to take mea-sures to guard the frontier settlement against their depre-dations. No gentleman has greater confidence than I have in the armed freemen of the United States, when called into action. The history of the West shows us that there is no community on which we can rely with more security

Into action. The history of the west shows us that there is no community on which we can rely with more security than on the people of that section. But, sir, he has been but a careless observer of the Indian character who does not know that the force proposed by the gentleman from Missouri is the force of all others that an Indian dreads, and that is effective in Indian warfare. What do you see in Florida ? All the commanding generals of your arm there assembled; the patriotic volunteers flowing in from all your Southern and Southwestern States; and still your find that an army of militia, aided by regularly organized infantry, is almost powerless in this peculiar warfare. Ho who reads the accounts of the day will learn that, as you armies have moved in full martial array from one post another, the point which the army abandons is immediate another, the point which the army abandons is immediately seized upon by the very savages whom you would attempt to force from their ambush. Why, sir, in these cases it requires an army to fight an Indian; because he regards not the "pride, pomp, and circumstance" of war. His war-fare is the warfare of subtlety; he feels no disgrace in tell-ing you that he will not meet you on the battle-field, be-cause he has been early tanght, both by sages and warriors, that treachery is honorable. How, then, are you to con-trol him? How are you to address yourselves to his fears ? Only by presenting to him that kind of martial array which can be moved with celerity, and which will present a force at every corner. That is only to be found in armed men who are moved with a rapidity equal to that with which the Indian pushes on his trail, or traverses the prairie. Gentlemen familiar with this species of warfare have told you that, if yon rely on your infantry, the Indian will augh at you, scout you, and that before you have moved ten at you, scout you, and that before you have moved ter miles from the post you abandon, he will possess himself o that very encampment. I have no objection to the genera provisions of this bill; for I believe that authority, if it doe not now, should at all times exist in the President of the not now, should at all times exist in the resident of the United States, to call out troops when wanting for such an emergency. I shall therefore vote for every part of the bill, but more particularly for the proposition of the gentleman from Missouri. One word, sir, before I sit down, as to what has fallen from the chairman of the Committee of Wayn and Moore (Mr. CAMPET ENC.) It seems to me Ways and Means, (Mr. CAMBRELENG.) It seems to me that there is a great desire to create a war panic somewhere We are now to raise an army to guard ourselves agains Santa Ana.

Mr. CAMBRELENG explained. He had said no such thing; he had said that we must raise an army to prevent an Indian war. He had expressed no opinion about Santa

Ana. Mr. GRANGER. I will endeavor to bring myself mor closely to the gentleman's words. They were, sir, that it cannot be disguised that there is danger that Santa Ana, in driving the Texians before him, might follow them to within our frontier. Mr. CAMBRELENG said he expressly disclaimed having

used any such language. Mr. GRANGER. Did I understand the gentleman to dis

claim having stated the possibility of an approach by Santa Ana upon the frontier of our country ? Mr. CAMBRELENG said he had stated that he was of opi-

nion that the force of the Mexicans was so strong that they would drive the Texians before them on to our frontier, which would excite the hostility of the savages on the vhole frontier, and bring upon us an Indian war, against

which it was necessary to protect ourselves. Mr. GRANGER. Then, sir, leaving the correctness of our respective versions to be decided by the House, I have only to regret that, commanding the distinguished position he does, the gentleman should have found it necessary to have said one word of Santa Ana, even in connexion with our Western Indians. Should the crimson flag of that chieftain ever be brought so near this frontier that its blood-stained folds could be seen to wave, the whole of the vast valleys of the Mississippi, of the Ohio, and of the entire West, would be poured forth to the defence of our country. And, sir, the ntleman from New York, my honorable c s well as myself, that when the hunters of Kentucky and he riflemen of Tennessee are in the field, the enemy had better look out.

After some further debate, Mr. WHITE, of Florida, moved to amend the amendment, by inserting the words OFFICIAL PAPERS

Presented in the House of Representatives on Saturday last, by the Chairman of the Committee of Ways and Means.

The state of affairs in Texas calls for immediate measures on the part of the Government. It is the duty of the United States to remain entirely neutral, and to cause their neutrality to be respected. HEAD QUARTERS WESTERN DEPARTMENT, Balon Rouge, March 29, 1826. Shi i have received, not until yesterday, an official copy of your letter of the 2dd January last, by which I have the satis-faction to be informed that the President of the United States has been pleased to direct my immediate attention to the West-ern frontier of the State of Louisiana, in order to preserve, if necessary, by force, the neutrality of the United States. The obelience to this order, I have availed myself of the very first S. B. conveyance that offered after the receipt of the order to proceed to Baton Rouge, to enable me to ascertain to what extent the arsenal there will furnish ordnance and ordnance stores for the prompt and efficient discharge of the duties as-signed to me—duties which derive great importance from the recent accounts of the sanguinary manner in which the Mexican forces seem disposed to carry on the war against our Texian neibors. (See the accompanying newspaper.) Upon this point I take leave to suggest whether it may or may to become necessary, in *our own defence*, to speak to the con-tending belligerents in a language not to be misunderstood—a language requiring force and military supplies that shall be suf-inging belligerents in a language not to be misunderstood—a language operations of each of the contending parties who may forget to respect the laws of war and our neutral rights, until Mexico and the United States shall, by an adjustment of exist-ing difficulties, put an end to scenes of barbarism which cannot but endanger the peace and other vital interests of all the parties oncerned—scenes of barbarism disgraceful to all who enact or tolarde them.

Should I err in this view of the subject, in which, however, I am convinced the laws of war and of nations will bear me out. I shall be gratified to receive the views of the President, to which I shall scrupulously adhere. But if it be otherwise, if my own views are approved, I shall, in that event, have occasion for some mounted volunteers, with other forces sufficient to make my numerical strength equal to the estimated strength of the contending parties, which is now estimated at eight thousand to the velve thousand men, (S₀000 to 12₀000 men.) With a view to this possible emergency, I have already desired the fine Le-gionary Brigade, commanded by General Planche, of the city of New Orleans, to calculate on the possibility of my having oc-casion to invite the Legion to join me. To this suggestion the officers of the Legion, with the gallant General at their head, cordially responded that they would, whenever it might be deemed necessary, promptly repair to the frontier, delighted with the opportunity of carrying into effect the wishes of the President under whose immediate command mery of thescoffic. h the opportunity of carrying into effect the wishes of the President, under whose immediate command many of these off rs had distinguished themselves in the defence of their ci State in the memorable triumphs of December, 1814, January, 1815. Mr. Forsyth stated to Mr. Gorostiza, that, in censequ the contest in Texas, the movements of some citizens of the United States on the Red river, and apprehended hostile inten-tions of the Indians in Mexico against the United States, and oi the Indians within the United States against Mexico, orders would be given to General Gaines to take such a position with the troops of the United States as would enable him to preserve the territory of the United States and of Mexico from Indian outge, and the territory of the United States from any violatio Mexicans, Texians, or Indians, during the disturbances un fortunately existing in that quarter, and that the troops of the United States would be ordered to protect the commissioners and surveyors of the two Governments, whenever they should mee to execute the instructions to be prepared under the treaty of limits between the United States and the United Mexican States hould the troops, in the performance of their duty youd the point Mexico might suppose was within of the United States, the occupation of the position was not to be aken as an indication of any hostile feeling, or of a desire to es-ablish a possession or claim not justified by the treaty of limits. HEAD QUARTERS, WESTERN DEPARTMENT, Natchitoches, Louisiana, April 8, 1836. SIR: I arrived at this place on the 4th instant, since which time I have received information from various sources, which leaves no doubt in my mind that a considerable portion of seve-ral tribes of the Indians residing within our territorial limits have gone over to the Texas side of the boundary line between the Luind Scales and Maxie

When to this fact are added the reports daily received at this place, that the army of Mexico, commanded by the President, (St. Ana) in person, is rapidly approaching in this direction through the centre of Texas; that his plan is to put to death all he finds in arms, and all who do not yield to his dictation; that as soon as lae comes to the section of country occupied by the Indians in. question on the waters of the Trinidad, or Trinity river, they will unite with him in his war of extermination; and that no boundary line, save such as they find properly guarded with an officient force, will be sufficient to arrest the sanguinary career of these savages, I cannot but deem it my duty to pre

This force, though not equal in numbers to that which it may be my duty to meet in battle, will enable me at least to secure the confidence of the frontier settlements, and keep them a home to plant their crops; and moreover enable me to inflic summary punishment on such of the enemy by whom they are now menaced, as may teach them to respect us, and in future to pay more regard than they seem now disposed to pay to our rights and treaties. I shall in the course of a few days address to each one of the

commanders of the armies in Texas a note calling their atten-tion to their duties, and apprizing them of the course which I shall pursue towards them, in obedience to the orders of the President of the United States, should they approach our boun-dary, or suffer the Indians near them to commence hostilities. HEAD QUARTERS, WESTERN DEPARTMENT, Natchitoches, La., April 8, 1836. I have learned from several of our citizens entitled to credit, that one Manuel Flores, a Mexican Spaniard, but for some years past a citizen of "Spanish town," in this State, near the Sabine ridge, has been lately commissioned by persons professing to eet by the authority of the Mexican Government, for the pur-pose of onticing the Ludiane in the Western provines and our side l Flores, accompanied by a stranger, has lately passed up the lley of the Red river, and has already produced excitement

From the cannot be restrained, yet the right of the United States to remon-trate against its service rests upon other grounds. From the abits and dispositions of the Indians, it is well known that the sower of employing them cannot restrain them within the legi-inate rules of warfare. If they approach the frontiers, they will pay no regard to a mere imaginary line, but will carry on heir depredations and massacres wherever inhabitants can be bund and where there is no force to consec them. It is alter-

GENTLEMEN; It strikes me that a law of Congress for aking gold and silver only payable in certain cases would lo more violence to the spirit of the Constitution—certainy to State sovereignty—than any law for a national bank All legislation, fundamental as well as subordinate, should All legislation, fundamental as well as subordinate, should be founded on the principles of human nature; should re-spect the pursuits and propensities of mon; should conform to the tendency of the age. If it do violence to these, it will be likely either to fail or become oppressive. It is true, by the Constitution, Congress has the exclusive right of coin-ing money; but the fact is, that each State, through its banks and individuals, does coin money; and the practice has long stood unopposed. "Communis error facit jus." Each State of course finds its interest in these things, or they would not be done: and what all the States together Lacid State of course index its interest in these timings, of they would not be done; and what all the States together agree in doing seems to be *vox populi* in a high degree. Are we, in obedience to supposed constitutional faith, to commence a crusade against the whole country? To sweep with the besom of destruction this heterodoxical pasweep what the beson of destruction this interfactor for the con-stitution, in opposition to the spirit of the age? And is it certain that the public good would be promoted by the an-nihilation of paper money? The Constitution should receive a sound interpretation. It was made for the People not the People for it. Its great end is the general welfare. It is revolting to its dignity to sanction visionary schemes. It is an abuse of its powers to use it against the People and their favorite institutions, which it was designed to protect. Good and evil are every where mixed. It is so with banks. Let us weed our garden, not destroy it. Yours, &c.

New York, MAY 4. SUPERIOR COURT.-BEFORE CHIEF JUSTICE JONES.

SUPERIOR COURT.—BEFORE CHEF JUSTICE JONES. Samuel Jarvis zs. Matthew Sayre. This was a special action on the case, to recover dama-ges of the defendant for incumbering the street in front of his premises. The defendant keeps a marble yard in De-larcy street, and, at the time of the injury complained of, a large block of marble laid nearly in the middle of the street, in front of his yard. The plaintiff drove along the street in a cone horse waron at about 8 o'clock in the evening and in front of his yard. The plaintiff drove along the street in a one horse wagon, at about 8 o'clock in the evening, and it being very dark, the horse ran against the marble, broke the wagon, throwing the plaintiff out, and injuring him severely. The horse continued running, and was eventu-ally stopped in Chatham Square; and it was proved that the horse prior to the accident was worth 150 to \$200, but that he was rendered of no value by the injury he had sus-tained. The value of the horse and the bill for repairing the wagon constituted the claim for damages. The defen-dant proved that he had been absent from home on the af-ternoon and evening of the accident, and that he was not aware of the marble being there; that it had been brought there by a strange carman, and left lying in the street. there by a strange carman, and left lying in the street. The court charged the jury that the defendant was liable in the present case for whatever damages the plaintiff had sus-tained. That it did not matter whether the incumbrance ledge. It had been done by his agents, and that was enough. Every man in front of whose house stands a enough. Every man in front of whose house stands a nuisance is *prima facie* a wrong-doer, and liable. If the incumbrance be placed there by a stranger, he has his rem-edy against him. But he cannot screen himself under such an allegation. The acts of his agents are his own acts, and for their negligence or earelessness he is liable. The jury found a verdict for plaintiff of \$190 damages, with costs.—*Courier and Enquirer*.

WASHINGTON, APRIL 25, 1836.

Stn: Your letter of the 29th ultimo was received at the De-partment a few days since, but I have been prevented by indis-tosition from giving it an earlier answer. I enclose for your information a copy of the memorandum o m official conference* between the Secretary of State and the

der, as a part of your instructions, the declaration made by the Secretary of State, and govern yourself accordingly. It is not the wish of the President to take advantage of present circumstances, and thereby obtain possession of any portion of the Mexican territory. Still, however, the neutral duties as well as the neutral rights of the United States will justify the Government in taking all necessary measures to prevent a vio-lation of their territory. Recent events induce the belief that the Mexican forces, as well as the inhabitants of Texas, must be in a high state of excitement. In that portion of the coun-try, there are many Indian tribes whose habitual predisposition ingage in war is well known, as is, also, their reckless disc d of any of the claims of humanity. And from informatio ich has reached the Government, there is too much reason t eve that efforts have been made to induce these Indians believe that efforts have been made to induce these Indians to oin the Mexican troops. It may, therefore, well be, as you an-icipate, that these various contending parties may approach our rontiers, and that the lives and property of our citizens may be placed in jeopardy. Should this be the case, the President ap-proves the suggestion you make, and you are authorized to take uch position, on either side of the imaginary boundary line, as may be best for your defensive operations. You will, however, under no circumstances, advance farther than old Fort Nacog-loches, which is within the limits of the United States, as claim-d by this Government. But you will please to observe, that do by this Government. But you will please to observe, that his permission will not be exercised, unless you should find such un advanced position necessary, to afford due security to the rontier, in consequence of the unsettled state of things beyond

you. You will please to explain, fully, your views and instructions to any armed parties who may be marching towards you; and should they continue to threaten your position, or to manifest a design of crossing into the United States, you are authorized to

attack and repel them. I have this day, by direction of the President, requested the Governors of Louisiana and Mississippi to call into service any militia force you may find necessary for the protection of the frontiers. This force must be called out for a term of not less than six months from the day they reach their rendezvous, to be discharged at any time by the United States. I need hardly say that the duty committed to you is one of great importance, as well as of great delicacy; and I do not doubt it will be so executed as to preserve, on the one hand, the pro-per safety of the frontier, while, on the other hand, as little cause of offence as possible will be given to any foreign authority. I have to request that you would keep me regularly advised of user precedings.

among the Cado Indians; and I have very recently learned, from several intelligent persons in Texas, and others who have lately been there, that many of our Indians have lately gone over to the Texas side of the line.

These facts and circumstances present to me the important relation whether I am to sit still and suffer these movements to be so far matured as to place the white settlements on both sides of the line wholly within the power of these savages, or whether I ought not instantly to prepare the means for protect-ing the frontier settlements, and, if necessary, compelling the Indians to return to their own homes and hunting grounds? I cannot but decide in favor of the last alternative which the question presents; for nothing can be more evident than that an Indian war, commencing on either side of the line, will as sure-ly extend to both sides, as that a lighted quickmatch thrust into

ARMY. Mr. WEBSTER, from the Committee on Finance, re ported the act making appropriations for the Army for the year 1836, with two amendments. On motion of Mr. WEBSTER, the bill was then taken

up for consideration, and the amendments were read. Mr. WEBSTER explained that the bill, as it came from the House, contained a provision for moving the troops from Fort Gibson to some other point on the banks of the Arkansas. The Committee on Finance had thought it better, with a view to consult the health of the Army that the point should be left to the discretion of the Pres dent, who might consider the high lands a more healthful location than the immediate banks of the river. This,

therefore, was the object of the amendment. The other amendment was to insert an appropriation of 300 for completing the medal voted to Gen. Ripley. By an accident, this appropriation, which had been added by the committee to another appropriation bill, had been omit-ted in the engrossment of that bill, and it was therefore in-South Seas troduced into this bill.

The amendments were then agreed to ; the bill was re ported without further amendments, and the amendments were ordered to be engrossed, and the bill to be read a third

time. The bill was subsequently read a third time and passed. A message from the House of Representatives was re-ceived, stating that the House had concurred in all the amendments of the Senate to the bill making appropriations for the civil and diplomatic service of the United States

with the exception of the sixth amendment. [This amendment consists of an appropriation for the Judicial Department of the district of East Florida.] Mr. WEBSTER said he thought the non-concurrence

of the House in this amendment was probably the result of want of information. He did not wish to delay the passage of this bill, and it might be that the clause stricken out by the House could be introduced into another bill. He would leave it to any Senator to suggest what might be the pro-

per course. Mr. WRIGHT stated that, since the message was received from the House, he had received a communication from the chairman of the Committee of Ways and Means, by whom it was stated that the committee were of the opinion that they had voted from insufficient information. I was, however, thought best that the appropriation should be introduced into another bill, in preference to delaying this bill

Mr. WEBSTER, assenting to this course, moved that the Senate recede from their amendment; which motion was agreed to.

TUESDAY, MAY 10, 1836.

The Texian subject has assumed an aspec entirely new, so far as the Government of the United States is concerned, since the Debate in the House of Representatives on Saturday last in connection with the Documents which were read on that day, and which we have copied into the preceding columns from the Globe of yesterday.

From these documents, &c. it will be seen that the Executive has undertaken to claim, as being within the limits of the United States, territory over which the Mexican Government has heretofore exercised jurisdiction, including "old Fort Nacogdoches;" and has authorized Gen. GAINES, under such interpretation of the rights of the United States, to cross the Sabine and oc cupy that post. Of this determination on the part of the Executive, communicated to Gen. GAINES by a letter from the War Department dated the 28th ult., the Secretary of State (Mr FORSYTH) apprized Mr. GOROSTIZA, the Mexican Minister, in a conversation on the 20th of April, assuring him that the measure was "not to be taken as an indication of any hostile feeling, or of a desire to establish a possession or claim not justified by the treaty of limits."

What the Mexican Minister said, if he said any thing, in reply to this communication from the Secretary of State, has not been communicated to Congress. The Executive has left Congress in doubt on the subject, unless it may be inferred, from nothing being said of it, that the Minister had not a word to say in reply to what Mr. FORSYTH communicated to him. Such may have been the case. But we doubt it. Be that as it may, however, we should be wanting in our duty to our readers, if we did not warn them, in time, of the imminent danger of our being involved by this measure in a war which cannot be frontier, however fortunate we may be in its prosecution or victorious in its termination. We carnestly hope that the danger may pass away that the Mexican Government will be satisfied with the assurances of the Secretary of State that the military occupation of the Mexican territory is from an amicable motive, and will continue no longer than until the line is run and the true limits marked-notwithstanding the demonstrable proposition that no line that can be run, according to the terms of our Treaty with Mexico. can include the said old Fort Nacogdoches We hope that the Government of Mexico wil avoid coming into a collision with the United States, which, however it be brought about, would be at least as disastrous to Mexico on her maritime border as it would be to the United States on our Western frontier, and would be justly a subject of reproach, in the community

of nations, to both countries. We have assumed it, above, as demonstrable that no line that can be run under the Treaty can include the old post of Nacogdoches, which tion on our part.

But, first, let us state, without reference to our Treaties with Spain and Mexico, the material points in this question of boundary :

1. The sources of the Sabine, properly se called, rise near the South side of Red river and head over all the sources of the river

following the course of the southern bank of [the Arkansas to its source, in latitude 42 north ; and thence, by that parallel of latitude, to the South sea. The whole being as laid down in Melish's map of the United States, published at

1818." The same treaty further stipulates, in refer- from Savannah. We have conversed with both ence to the boundary thus recognised, as follows : The two high contracting parties agree to cede and renounce all their rights, claims, and pre tensions to the territories described by the said 'line; that is to say: the United States hereby baign had been brought to a close. The regucede to his Catholic Majesty, and renounce forever, all their rights, claims, and pretensions to the territories lying west and south of the above described line," &c.

As between the United States and Spain, nothing can be plainer or clearer than this definition of boundary.

But, still later, after the recognition of the independence of Mexico, that is to say, on the 12th of February, 1828, we made a Treaty with Mexico (the ratifications of which were exchanged as late as April 5, 1832,) in which was a new recognition of boundary, word for word, in the very terms (Melish's map and all) of the article of the Treaty of 1819 with Spain.

Again: only on the 20th of the last month (the very day of the conference between the Secretary of State and the Mexican Minister) were exchanged the ratifications of a supplementary treaty, the sole object of which was to recognise and carry into effect the stipulations of the treaty of 1828 concerning the boundary line between the two countries.

Whatever doubt existed as to the boundary line was ended by the Treaty of 1819 with Spain, not contradicted, but solemnly renewed and corroborated by subsequent Treaties with Mexico. But, to prevent the possibility of the language of those treaties being subjected to different interpretations, Melish's map of January, 1818, was made a part of each of these Treaties; and the line marked on that map, thus recognised, must be the true line, whatever any one may otherwise than disastrous to the whole Western now think ought to have been the recognised line. According to that map, the post of Nacogdoches is, by measurement, forty-eight miles west of the western boundary of the United States, south of its intersection of the latitude of 32 degrees, and is of course so many miles within the Mexican territory.

> This is a plain statement of the case, as we understand it.

We do not pretend to deny, the reader will readily perceive, that it would be a very convenient thing to have the boundary line of the United States extended as far west as it is claimed-(though such an extension would not embrace the principal settlements made in that country by emigrants from the United States)-but it is an acquisition which can be made in one only of two ways; that is, with the consent of MEX-Ico, or by conquest. To the former mode of obtaining it we have no objection : to the latter we have all the repugnance of those who have a due regard either to the faith of treaties or the law of nations.

Nor do we deny that, in the event of any Gen. GAINES has been instructed to occupy. hostile inroad into the territory of the United We will now state the grounds of this assump- States, the invaders, whether Indians, Mexicans, or Texians, may be pursued into Texas. THE FLORIDA CAMPAIGN TERMINATED.

FROM THE CHARLESTON PATRIOT. Latest from Florida.-Termination of the Indian campaign .- Lieut. VAN BUREN, Aid to Gen. SCOTT, and Capt. FINLEY, Aid to Gen. EUSTIS, Philadelphia, improved to the first of January, arrived here this forenoon from Picolata, via Savannah, in the steam packet William Seabrook, these gentlemen, who have politely imparted to us all the information they possessed.

> Lieut. VAN BUREN states that, owing to the commencement of the warm weather, the camar forces had gone into summer quarters at St. Augustine. There were supposed to be about 1200 on the sick list at Tampa Bay and S0 at Volusia.

Capt. FINLEY has communicated to us the following intelligence :

"The left wing of the army of Florida arrived nt Tampa Bay on the 5th of April, left there on the 17th, and marched to Volusia, by Pilaklikaha. The active operations of the campaign have ceased, from the sickly season having commencd. The South Carolina volunteers left Volusia on Friday, 29th, to march to St. Augustine, where Col. Brisbane's regiment would be disharged, and sent by transports to this city. Col. Goodwyn's mounted men would be disharged at Jacksonville. The regulars, it is beieved, will be kept in Florida, to garrison posts which may be important in the commencement of the next campaign. The Indians were no where in any force, and are supposed to be scattered all over the territory."

NEWS FROM NEW ORLEANS.

It is difficult to know how much or how little believe of the news which currently reaches s from the Southwestern border. The two folowing paragraphs refer to the same vessels, and o the same action. The reader will see how ittle they agree :

FROM THE NEW ORLEANS TRUE AMERICAN, APRIL 25. NAVAL ENGAGEMENNT.-The Texian armed schooner nvincible, Capt. Brown, fell in with the Mexican schooier Montezuma, at anchor off the Brassos Santiago. An ction immediately took place, with a running fight of sevral hours, which terminated in the sinking of the Monte-zuma before she reached the shore to which she was runing. When last seen, her yards were under water. She was preparing to convey to Galveston Bay about 2,000 men; the expedition is now destroyed. The Invincible was omewhat cut in her sails and rigging, but had not a man wounded. The fate of the Montezuma's crew is not known.

FROM THE BULLETIN, AFTERNOON, SAME DAY.

Since penning the above, at a late hour, we have re-eived through the Mexican Consul some additional infor-nation, which we presume may be relied on. There will doubtless be many contradictory statements growing out of the distribution of the d te distracted state of affairs in Texas, and individuals diferently interested will give partial and exaggerated ac counts. For instance, we are now informed that Colonel Fannin and his men arealive; that they surrendered themelves prisoners of war, and were honorably treated as such serves prisoners of war, and were homorably treated as such. They are now, it is said, in Victoria, prisoners of war. We also have the following, through a letter received through the house of Messrs. Lizardi, of this city. That the schooner Bravo, [Montezuma] in endeavoring to warp over the bar at Metamoras, lost her rudder, and afterwards suffered in an action with the Texian schooner Invincible. That at the time the Bravo was lying at anchor on the bar, and the action resulted without loss. The Bravo succeed-ed in returning to part without damage, and has since saild in company with the schooner commanded by Captain Phompson, late master of the Correo, convoying a vessel aden with provisions for Santa Ana's army. We publish aden with provisions for Santa Ana's army. We publish hese accounts as we received them from supposed credita-ble sources, and time will only disclose which of them most bear the stamp of truth.

POSTSCRIPT.

After our paper was ready for press, last evenng, we were happy to learn that a letter had ust been received in this city from an officer of the Army of the highest rank, at New Orleans, tating that there was not the least danger of ny hostilities on the Texian frontier, either from Indians or from the Mexican troops, and that the Governor of Louisiana concurred fully in that opinion, founded on the most recent information from the frontier. We infer from this that General GAINES has been misinformed and

There was some discussion in reference to this bill, in the course of which the bill was amended so as to authorize the number of volunteers to be raised at 10,000 men, and to confine themselves to repelling Indian invasions. On motion of Mr. PRESTON, the authority given to

the President in these words: "and shall appoint the ne-cessary officers," was amended by adding "above therank of Captain, which appointments shall be submitted to the Senate for its advice and approval, at its next session." Mr. SWIFT moved to recommit the bill.

Mr. NICHOLAS moved to add to the motion an instruction to report the bill with a provision to raise the army to the same peace establishment as that in which it was placed at the termination of the war in 1815.

The question being taken on the motion of Mr. NICHO Las, to add instructions, the motion was negatived. The bill was then recommitted. The Senate proceeded to the third reading of the bill for the relief of Daniel Steenrod; when, On motion of Mr. SHEPLEY, the Senate adjourned.

HOUSE OF REPRESENTATIVES. By unanimous consent, Mr. EVERETT offered the fol-lowing resolution; which lies over one day:

Resolved, That the President of the United States he requested to communicate to this House, if, in his opinion, it shall not be incompatible with the public interest, the in-structions which have been transmitted from time to time since the 1st day of January, 1835, to the Representative o the United States at the Government of Mexico, relative the onlice States at the Government of Mexico, relative to the boundaries between the two nations, and relative to the setting on foot military expeditions by citizens of the United States against the Mexican Province of Texas, and relative to the military occupation or contemplated oc-cupation, under the authority of the President, of any post or place within the said province of Texas; and all corres-enderscend accupations which have accedent Weak pondence and communications which have passed, at Washington or at Mexico, between the two Governments, res pecting the same; and all information in possession of the Executive respecting the same. And, also, that the President be requested to communicate to this House all orders and instructions issued to the military or other officers o the United States, or of the States, relative to the defenc of the Western frontier, and all correspondence between

them and the Government respecting the same. The unfinished business of last Monday, being the pre amble and resolutions of the Legislature of Kentucky in favor of the distribution of the proceeds of the sales of the public lands among the several States, was taken up. The question being on the motion of Mr. WILLIAMS, of Kentucky, to commit the same to the Committee of Ways and Means, with instructions to report a bill in conformity with the resolutions, and Mr. WILLIAMS being entitled to the floor,

somewhat in coming to a conclusion on the subje He regretted that gentlemen who opposed this proposed expedition had not made themselves acquainted with the merits and necessities of such an expedition; and he wen

at length into a statement to show that no correct informa tion was in the possession of mariners or merchants con cerning the innumerable islands of the South Seas. orts made by vessels who arrived in the country, of island and of places where other vessels were left, often were in rrect, and could never be relied upon. Indeed, so de fective was our knowledge, and so dangerous the navigution of the South Pacific ocean, from want of information hat it was impossible for merchant ships going there fo ny other pursuit than that of whaling to obtain insurance and those who ventured thither for the fisheries or othe mmercial objects were obliged to sustain the whole risl would be derived from a scientific hydrographic research into the Southern ocean. There were great treasures in the islands of this region, and it was only necessary to have them explored to enable our seamen to take advan tage of the benefits of their trade; and the visit of a na onal ship would cause our nation, and the mariners o

our merchant ships, to be respected by many of the natives, who are now suspicious or hostile. He said a great amount of produce and manufactures

was annually shipped to those seas. The produce of th West was used in great quantities to fit out the whale and other ships; and there was hardly a cotton factory in th country which had not sent out their cotton goods, which were now bought and used for clothing by the savage in habitants of those islands, who return for them valuabl furs and other productions. He alluded to the trade in San dal wood, shell, and other articles, which are carried from the Sandwich, Society, and Fejee Islands to China, and there exchanged for articles which contribute to swell the mount of the revenue of the country, and to increase the omforts of our people. The gentleman from South Car-lina, who speke of the valuable productions of his own ate, a few days since, might learn, if he would consult the statistical papers, that another State, not accustomed to boast of her wealth or her achievements, annually reaped a arger amount of wealth from the ocean by her fisheries and ner commerce than was produced by the State of South

Carolina upon her whole soil. Mr. Phillips then stated as a fact, that many American seamen, who had been wrecked or accidentally left, wer now living among those islands, held as prisoners by the network, who cannot find opportunities to get away, or who are denied the privilege of leaving the island if an oppor-tunity should occur. He thought it worth the expense of he expedition to rescue their fellow-citizens from bondag and to restore them to their homes and their friends. lso urged the advantage of scientific and practical re searches into unknown regions of the earth. Having for the last three years been intimately acquainted with Dr. John Beckwith, of this city, and enjoyed his professional services, I take pleasure in stating that his character as a Christian, gentleman, and experienced physician, entitles his testimony, in regard to the use of his anti-dyspeptic pills, to the ontire confidence of the public. My experience of the good effects of these Pills, for two years past, satisfies me of their eminent value, particularly in aiding in impaired digestion and warding off bilious attacks. Having been for a long time subject to the annual recurrence of such attacks, I was in the habit of resorting for security against them, and with very partial success, to a liberal use of calomel or blue pill. But since my acquaintance with the anti-dyspeptic Fill of Dr. Beckwith, which he prescribed in the first instance himself, I have not been under the necessity of using mercury in any form, besides being the necessity of using mercury in any form, besides being wholly exempt from bilious attacks. Several members of my family are experiencing the same beneficial effects. L. S. IVES.

Determined by testimonials of a character so decisive, from sources as respectable, or that has met with more general favor.**The ANTI-DYSPEPTIC PILLS have been most successfully employed in almost every variety of functional disorder of the stomach, bowels, liver, and spleen; such as heart-burn, acid eructations, nausea, head-ach, pain and distension of the stomach and bowels, incipient diarrhea, colic, jaundice, flattlence, habitual costiveness, loss of appetite, sick head-ach, & C. C. They are a safe and comfortable aperient for females during pregnancy and subsequent confinement, relieving sickness at the stomach, head-ach, heart-burn, and distension which follow, by taking the piles. Those who are drinking mineral waters, and particularly those from southern climates and ague and fever districts, will find them a valuable adjunct. Those who are exposed to the visuates of weather, on voyages or journeys, can take them at all times with perfect safety. In full doses they are highly effectious and safe anti-bilious medicine. They seldom or never produce sickness at the stomach or griping.

From Governor Iredell.

AUGUST 21st, 1834.

AUGUST 21st, 1834. Dr. Beckwith's anti-dyspeptic Pills have been used in my fa-mily, which is a large one, with the most beneficial effects. A number of my friends who have been afflicted with dyspepsia, and other disorders of the stomach, have spoken to me in terms of the relief they experienced from this remedy. out the evidence I have received from others, my intimate knowledge of the professional and private character of Dr. Beckwith, for the last twenty years, justifies me in declaring, that he would give no assurances of facts of his own experience, or of profes-sional deductions, of which he was not perfectly confident, and sional deductions, of which ne was not performed, on which the public might not safely rely. JAMES IREDELL.

From the Hon. George E. Badger.

From the Hon. George E. Badger. RALEDEH, Nov. 7, 1834. For several years past Dr. Beckwith's Anti-dyspeptic Pills have been used as a domestic medicine in my family. I have myself frequently used them for the relief of head-ach, acid and otherwise disordered stomach, resulting from impredence or excess in diet, and I have had many opportunities of learning from others their effects when used for like purposes. My ex-perience and observation justify me in saying that the relief af-forded by the Pills is generally speedy, and almost always cer-tain; that they may be taken at any time without danger or in-convenience, and that their operation is attended by no nausea or other disagreeable effects whatever; and though I have known many persons use them. I have known none who did not apor other disagreeable effects whatever; and though I have known many persons use them, I have known none who did not ap-prove them—none who sustained any injury, and none who fail-ed to derive benefit from their use. And, upon the whole, I do not hesitate to recommend them as an agreeable, safe, and effi-cacious remedy in dyspeptic affections, and *believe* them myself to be the best Anti-dyspeptic medicine ever offered to the pub-lic. HERMITAGE, NEAR SPARTA, EDGECOME COUNTY,

November 10, 1834. I was severely afflicted for several years with dyspepsia, jaun-dice, and general ill-health. I called in the aid of eminent phydice, and general ill-health. I called in the aid of eminent phy-sicians, and visited most of the mineral springs of celebrity in the United States, without any material benefit, until my case was thought to be hopeless. Being compelled in the winter of 1824 to spend some weeks in Raleigh, I consulted Dr. Beck-with, when he prescribed what is now known as "Beckwith's Anti-dyspeptic Pills," by the use of which I soon became much better. I continued to take them for some months, until my health was entirely restored, to which they mainly contributed. Another member of my family subsequently used them with like benefit and success. like benefit and success

like benefit and success. Having been many years well acquainted with Dr. Beckwith, Itake pleasure in mentioning him as a gentleman of great worth and intelligence, and of known and admitted science and skill in his profession, and in recommending his Anti-dyspeptic Pills as a most valuable medicine to those afflicted with the diseases I have mentioned. These Pills are prepared solely by Thomas L. Jump, general agent at Raleigh, N. C., and sold by appointment by the follow-ing persons, and in most of the towns in the United States. TODD & CO.
