

President Receives Highway Report

President Eisenhower in Washington receives from retired Gen. Lucius D. Clay recommendations for a 101-billion-dollar federal-state highway program. The President and Clay hold a map of a "strategic network" of interstate highways. Clay is chairman of a Presidential Advisory Committee which drew up a proposed program. (AP Wire-photo).

Benson Faces Decision On Wool Promotion Fee Plan

WASHINGTON (AP)—Secretary of Agriculture Benson faces an early decision on whether the government should take steps to collect fees from farmers to promote the sheep industry's products.

If he decides it should, at least two-thirds of the producers voting in a referendum would have to okay the idea before the collections could be authorized.

The 1954 Farm Act gave the secretary authority to make agreements with private organizations to do such promotion work with funds the Agriculture Department would deduct from subsidy pay-

ments to producers under a new wool program.

Under this program, the department will support producer prices of wool and mohair by means of direct incentive payments rather than by the former method of making loans to producers on wool withheld from the market.

The payment method was a major feature of a controversial farm plan advanced in 1949 by former Secretary of Agriculture Charles Brannan, but rejected by Congress. Brannan would have used it as a method for supporting prices for perishable farm products. The last Congress authorized it only for wool, as the Eisenhower administration asked.

Benson was being urged by some farmer leaders to go slow on use of the wool promotion provision of the new farm law.

They said these leaders caution that such a program, if used for wool, might lead to new legislation authorizing the government to collect fees from farmers to promote the sales of countless other farm products.

Under the wool provisions, funds which the department would deduct from the production payments would be turned over to private marketing cooperatives, trade associations or other groups under terms of agreements between them and the secretary.

A somewhat similar deduction program has been proposed for the Dairy Industry by the National Milk Producers Federation.

C119 Crash And Forced Landing Leave Pilot And Co-Pilot Dead

SEWART AIR FORCE BASE, Tenn. (AP)—Engine blazes in two C119 Flying Boxcars marred a paratrooper airlift to Alaska yesterday with a flaming crash here and a forced landing in Montana.

A total of 88 paratroopers and three airmen parachuted to safety from the two planes, but the pilot and co-pilot of the plane which crashed here were listed as dead.

The Public Information Office identified the two as Capt. John Raspet, Jr., 30, of 17 Franklin St., Mt. Clemens, Mich., the pilot, and Lt. Ross W. Richards, 30, of 3428 Glen St., Jacksonville, Fla. Their bodies were removed from the burned wreckage.

Thirty-five airborne infantrymen and three crewmen jumped when an engine burst into flames shortly after the twin-engine craft took off here.

Only hours earlier, 33 paratroopers used their chutes when an engine caught fire on their plane near Miles City, Mont. Pilot-Capt. T.G. Johnson of Sewart AFB then guided the plane to the Miles City airport without incident.

The two Boxcars were part of a flight of 80 ferrying 3,000 airborne troops from Ft. Campbell,

Ky., to Alaska for Operation Snowbird, a winter exercise. Paratroopers involved in both jumps were members of the 503rd Airborne Infantry Regiment.

The crash scene here was about three miles from the base. Witnesses said the plane spun nose first into the earth, then burst into "a great mushroom of fire and smoke."

Second Lt. James Reynolds, Melbourne, Fla., platoon leader of the paratroopers aboard, said his men thought it was a drill when the crew chief ordered them to prepare to jump.

Reynolds said the men followed briefing instructions exactly and 30 seconds later the passenger compartment was empty.

"I don't know what happened to the pilot, but he did a good job. He gave us all the time we needed . . ."

The troopers bailed out at 8,000 feet and came down in near-freezing weather over an area more than three miles across. Most landed on the base. One man, Pfc. Richard L. Dalton, Benton Harbor, Mich., was hospitalized overnight with minor injuries.

The troopers in Montana flustered over a three-mile area, also, landing on both sides of the Yellowstone River. They jumped from a height of about 600 feet.

The big Boxcars have been taking off at 30-minute intervals from here since 6 a.m. Monday with the last flights clearing early today.

U. S., Red Envoys Have Sharp Words

HONG KONG (AP)—Soviet and U.S. delegates to an Asian economic conference exchanged sharp words today over the United Nations embargo on shipments of strategic goods to Communist China.

The clash occurred during the closing session of the meeting sponsored by the Economic Commission for Asia and the Far East (ECAFE), when Russia's V. B. Spandaryan complained the commission's report did not reflect certain fundamental questions.

Among these, he said, were "closer contact with the Chinese People's Republic" and the obstacles "created by the United States to expansion of trade with China."

Murder Trial Delayed

OKLAHOMA CITY (AP)—A delay of their murder trial was won yesterday by two teen-age babysitters accused of abusing an 18-month-old baby because he could not walk last year. Kenneth Bewer, 16, and half-brother Bennie McGrew, 17, were to have faced a jury today.

Midwestern Truck Drivers Win Wage, Mileage Increases

CHICAGO (AP)—Trucking companies and their drivers in 12 Midwestern states have agreed to wage and mileage rate increases during the next three years.

An agreement was reached yesterday covering \$4,000 long-distance truck drivers in the AFL Teamsters Union and 4,000 truck-operating companies.

The contract will go into effect Feb. 1. It calls for an hourly wage boost then of 10 cents to \$2.07, followed by another 8 cents an hour hike a year later and an added hourly increase of 8 cents on Feb. 1, 1957.

On the same dates mileage rates will increase 1/4 cent a mile each year. The present rate is 7.125 cents.

A minimum of \$75 a week is a part of the agreement, which also provides for a four-week vacation after 20 years instead of the present maximum of three weeks after 12 years.

Plans Fiscal Probe

WASHINGTON (AP)—Rep. Patman (D-Tex.) declared today government fiscal policies will get a close look in connection with what he termed the "accelerated inflation of stock prices."

Mendes-France Coaxes Italians

ROME (AP)—French Premier Pierre Mendes-France kept up his whirlwind round of calls and conferences with Italian officials today in his campaign to win support for the West European arms pool he has proposed.

Both French and Italian participants in the talks said they were "keenly satisfied" with their progress, but French sources cautioned that "no major decisions can be expected right now."

Responsible sources said Premier Mario Scelba and his Cabinet approve in principle Mendes-France's proposal to form an international agency within the projected seven-nation Western European Union to control the countries' production and distribution of arms.

But a highly placed source said no "off-the-cuff acceptance of such a complicated question as this" could be given now, nor was such expected.

Pope Receives French Premier At Vatican

VATICAN CITY (AP)—Pope Pius XII received French Premier Pierre Mendes-France today in the first audience granted by the 78-year-old head of the Roman Catholic Church since his grave collapse last month.

The pontiff's reception of the French Premier, who is making a three-day state visit to Italy, was viewed as a heartening sign that the Pope is continuing to gain strength.

Call To Newspaper Brings Quick Action

IONIA Mich. (AP)—Robert Van Dyke, 45, called the Grand Rapids Herald and invited the newspaper to send a reporter and photographer to "cover a good murder." He said he was going to kill Howard Clagg, a hardware store owner, for dunning him about an overdue \$75 bill.

The newspaper called sheriff's officers. Deputies said Van Dyke was waving a loaded shotgun at Clagg when they arrived.

Officers arrested Van Dyke and held him for investigation of attempted murder.

Texas Job Gains Called 'Amazing'

DALLAS (AP)—The growth of Texas employment and wages in the last 15 years was called "phenomenal" today by the acting commissioner of the Bureau of Labor Statistics of the U.S. Department of Labor.

Mrs. Arnyess Wickens, here to address four organizations, said these factors contributed to the sharp rise in employment and wage levels:

The heavy influx of industries beginning with World War II and continuing right up to the present time.

The industries were generally those that paid higher wages—aircraft, automobile assembly, chemical and other lines as distinguished from textile and many soft goods lines.

"The proportion of (Texas) business that is commerce and finance is striking," she said.

Nonagricultural employment and income fell in 1954 on a national scale while the over-all figures rose in Texas last year.

The average dollar income for the individual in Texas is about 13 per cent below the national average, principally because the long established industries maintain a wage structure that is still low, generally, she said.

The column of air over a foot-square space at sea level weighs more than a ton.

A used car is only as good as the man who sells it

Know the dealer before you buy a used car!

When you go used car hunting, go dealer hunting first. Find the man who may gain most from treating you right.

We Ford Dealers are here today, here tomorrow. We handle used cars mainly as a service to our customers who trade them in for new Fords. We don't depend upon our used car profits to stay in business. And because we've got to make room for the steady stream of trade-ins we're getting, we are pricing cars at rock-bottom.

Another thing, we want to make sure you're satisfied with your used car. We have a good name to uphold and we want you as a permanent customer . . . for more used cars . . . Ford Dealer Service . . . and a new Ford someday.

You're bound to find the right car for you among our wide selection of all makes. And every car we label A-1 is A-1. You can take our expert mechanics' word for that. Try us soon for a used car you can rely on.

You can trust our Ford Dealer used cars and trucks

Young Convicted Killer Dies In Electric Chair Without 'Guests'

HUNTSVILLE, Tex. (AP)—A young convicted killer who had invited to his execution the detectives who caught him, the man who prosecuted him and the jurors who tried him died early today in the electric chair.

None of those he had invited were there. He did not even bother to read a statement he had written questioning the death sentence.

Father Kills 3 Children, Self

LANCASTER (AP)—A retired Negro railroad laborer beat three of his young children to death as they slept and then killed himself with a shotgun blast under the chin yesterday.

The dead were Arthur Fields, 72, Arthur Jr., 10, Jessie Mae, 9, and Preston, 11.

The children were badly beaten about the head. The father's body was found on the floor of the 2-room frame house.

Fields and his wife, Effie, 42, had been separated since June. She had moved to a house about a block away with one of her children by a former marriage. Four other grown children of the family were not living with either parent.

Mrs. Fields said her husband had been sick and despondent for some time and that his only income was railroad retirement pay and an old age pension.

"He told me the other day that he was sick and was going to die," she said. "He said he didn't have anything to leave behind for the children and that I couldn't have them."

Justice W. E. Richburg ruled murder and suicide.

AEC Security Plan Discussions Slated

WASHINGTON (AP)—The heads of the eight Atomic Energy Commission laboratories will meet here next week to review the commission's personnel security program.

Chairman Lewis L. Strauss said yesterday the scientists will meet with an "open mind" but won't necessarily recommend any changes.

"My personal feeling is that it is okay as it is now," Strauss told a National Press Club luncheon.

The meeting, starting Monday, will last two or three days.

Good Will Tour Set

WASHINGTON (AP)—The State Department says Vice President Nixon's good will tour of the Caribbean area starting early next month will include Costa Rica, Cuba, Dominican Republic, El Salvador, Guatemala, Haiti, Honduras, Mexico, Nicaragua, Panama, Puerto Rico and the Virgin Islands.

his mother waited. He surveyed the chamber, a half smile on his face, and remarked:

"I don't see the district attorney or any of the prosecutors here."

Then he was strapped in the death chair. The first electric charge struck him at 12:04 a.m. and he was pronounced dead two minutes later.

As he stepped to the chair, he handed newsmen Don Reid, of Huntsville, a "prepared statement" which he had said earlier he planned to read before his execution.

"Capital punishment . . . has become the great issue here where I have lived among the dead," the note said. It said if the death sentence was to be feared by criminals and the public and was to be a "deterrent to crime" that the public and prosecutors "should be here."

The note questioned the wisdom of the death sentence and said it "made martyrs of these men and placed at the feet of psychopaths an adventure to be desired."

Brown's plea for clemency was turned down by the parole board yesterday.

Newsman Reid, who has reported hundreds of executions, said Brown, after receiving the news, did not follow the death row tradition of remorse and the brave front but asked that Dist. Atty. Henry Wade and his staff of Dallas, the arresting detectives and the jurors come to the execution.

"This is their party, you know," he said. "I hope they will enjoy it."

Brown was convicted of shooting

McCarthy Learns Of Phoned Threat

WASHINGTON (AP)—Sen. McCarthy (R-Wis) returned from an undisclosed mission yesterday and learned his next-door neighbor had reported a telephone warning that the senator would be "blown up."

A police guard was stationed near the McCarthy home, one of a row of houses joined together.

The neighbor, Mrs. George W. Ennis, told newsmen a "man with a foreign-sounding voice" called and told her, "We want you to vacate the premises. We're going to blow up Sen. Joe McCarthy."

McCarthy said he believed "some crackpot" made the call.

The senator said he left Washington Sunday in connection with the work of the Senate Investigations subcommittee but the trip proved a "blank run." He did not say where he had gone or why.

Evidence Enough; Divorce Granted

PATERSON, N.J. (AP)—In his Superior Court Divorce suit, Albert A. Crisafulli, 33, alleged his wife Rose, 30, during their marriage bombarded him with cups, plates, knives, forks, spoons, a bowl of macaroni, a 20-pound magazine tray, a bottle of milk, ceramic ornaments and a baby bottle.

He also charged she pushed him down the stairs, lunged at him with a vegetable knife, attempted to stab him with a butcher knife, threatened him with a dagger, and often slapped and punched him.

Judge William Haggarty granted a divorce on grounds of extreme cruelty.

Mrs. Vanderbilt Says Policeman's Loan Bought Meal

NEW YORK (AP)—Mrs. Patricia Wallace Vanderbilt says the dinner she and her daughter ate on Thanksgiving Day in 1953 came from \$5 given them by a kindly New York City policeman.

Testifying yesterday in her suit for separation from Cornelius Vanderbilt Jr., she said she had exhausted her money and had applied for city relief in August of that year.

"I was without funds . . . I had sold my fur coat and pawned my wedding and engagement rings for \$450," she stated.

She said she and her daughter by a previous marriage had been

eating at a restaurant where she had left her watch to cover the cost of their food. She continued:

"They were closed on Thanksgiving Day, 1953, so we went to a police station and a policeman gave my daughter and me \$5 for food for that day."

Before her marriage to Vanderbilt went on the rocks, she testified, they spent \$100,000 a year on living expenses.

Mrs. Vanderbilt, her husband's fifth wife, is suing on grounds of cruelty, abandonment and nonsupport and asks \$1,500 a week alimony. Vanderbilt, who married her in 1948, says he got a Mexican divorce in 1953 and she is no longer his wife.

Temples of Saturn which were medical schools are known to have existed at least 4,000 years B.C.

French Premier's Opponent Named As Assembly Chief

PARIS (AP)—Pierre Schneller, a member of the opposition to Premier Pierre Mendes-France, is the new president of the French National Assembly. Though his election last night was considered a slap at the Premier, Communist voting tactics put him into office.

Schneller defeated the incumbent Assembly president, Socialist Andre le Troquer, on the third ballot because the Communists withheld from Le Troquer the support they had given him a year ago. Instead, the Reds voted throughout for their party's elder statesman, 85-year-old Marcel Cachin.

Big Spring (Texas) Herald, Wed., Jan. 12, 1955

232, Le Troquer 188 and Cachin 86. Schneller, 49-year-old former minister from the Champagne region, is a member of the Popular Republican Movement (MRP), which has opposed the Premier since he refused to fight last summer for ratification of the European Defense Community.

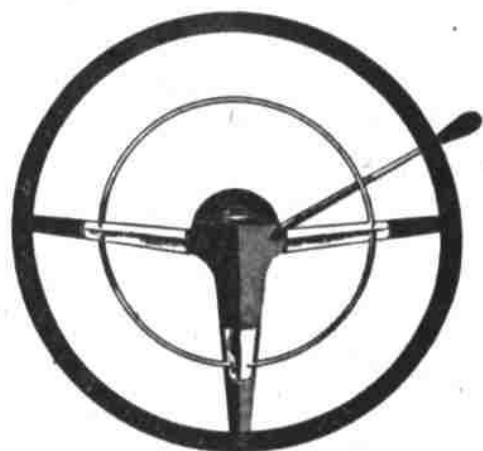

His election, however, is not likely to affect the Premier's legislative program. The Assembly president is a neutral officer who does not even take part in voting.

Santa Fe Union Shop Suit Heads For High Court

AMARILLO (U)—A test of a railroad union shop agreement involving Texas' "Right to Work" law was headed today toward the state Supreme Court.

An application for a writ of error was filed with the 7th Court of Civil Appeals yesterday in the case covering a union shop agreement between the Santa Fe Railroad and 16 non-operating unions.

The court last Nov. 15 dissolved an injunction forbidding such an agreement. The writ was requested in behalf of 14 Santa Fe employees so the case can be appealed.

A lower court ruling granting the permanent injunction in February was reversed by the appeals court whose associate Justice Herbert Martin wrote:

"To enjoin collective bargaining under the theory that it threatens irreparable injury to one or more of the parties concerned is to wholly destroy the right of collective bargaining."

The original decision by Judge E. C. Nelson said the Texas "Right to Work" law took precedence over the Federal Railway Labor Act. That act authorizes carriers to enter into union shop agreements.

The original suit was brought by non-union Santa Fe employees against the non-operating unions and the Santa Fe. The railroad filed a cross complaint siding with the non-union employees.

Canadians Search For Nine Eskimos

OTTAWA (U)—Mounted police and the Royal Canadian Air Force are searching for nine Eskimos adrift on an ice floe in Hudson Bay since Jan. 4. A police spokesman said last night the prospect of finding them "doesn't look so good."

The Eskimos were marooned when a chunk of ice on which they apparently were hunting seals broke away from the northeast shore of the Bay. Their dog teams, kayaks and ice boats were found on the shore.

Mountie Supt. H.A. Larsen said here the Eskimos likely could survive on seal or walrus meat if they had matches to ignite the blubber which is their customary fuel. Otherwise, he explained, they would be threatened by exposure to the subzero temperature.

Dallas Banks Merge

DALLAS (U)—Merger of the Oak Lawn National Bank and the Industrial National Bank was completed yesterday.

UNCLE RAY'S CORNER

Observers agree that crows are smart birds, but we hardly can call them pretty!

Despite their plain appearance, crows have some of the most beautiful cousins in the bird world. Their cousins are known as birds of paradise, and are found on New Guinea and nearby islands.

The brilliant colors of these birds have helped to make them famous. They are of moderate size (some being as large as crows, others the size of robins) but their plumes and feathers give them the appearance of being rather large.

The males like to display their brilliant colors before the females, which are of sober hue. The females are likely to escape notice while on the nest because of their dull plumage.

One kind of bird of paradise is known for its "dance." After finding a perch on a high limb, the male waits for a female to take a place nearby. Then he hops up and down on the limb. He follows each hop with a bow before the bird which he hopes to obtain as a mate.

We never see birds of paradise in wild places, but they are on display in spots of North America and Europe.

Recently, in Manchester, England, a keeper at the zoo found a splendid bird of paradise missing. A search soon showed that the bird was perching in a tree a short distance away from the birdhouse.

The director used a ladder during his effort to catch the bird of paradise in the tree.

A ladder was placed against a limb, and the director of the zoo climbed up and almost captured the bird. Just in time, it escaped and flew to the roof of a building. There the director was able to catch it by crawling quietly from behind. This bird is valued at \$550. It has violet, gold, green and brown feathers, along with pink legs and a blue beak. Tomorrow: Puffers.

Taylor And Delhi Oil Firms Merge; Murchison Chairman

DALLAS (U)—The multi-million dollar merger of the Taylor Oil and Gas Co. of Taylor and the Delhi Oil Corp. of Dallas was completed yesterday. The new firm is the Delhi-Taylor Oil Co.

The chairman is Clint Murchison, wealthy Dallas financier. Arrangements have been completed for a \$1 million dollar loan to refund obligations and provide working capital, the firm said.

Phil Bee, vice president of the new firm, said stockholders approved the merger. James Sewell of Austin is president. Headquarters are in Dallas.

The New York Life Insurance and Mutual Life of New York each advanced \$15,000,000. The rest of the \$1 million loan came from the Republic National Bank of Dallas, the Society for Savings of Cleveland, the Chase National Bank of New York and Chemical Corn Exchange of New York.

Taylor has crude oil reserves estimated at more than 29 million barrels and gas at 1,037 trillion cubic feet. It holds 36,649 acres of leases in Texas and 203 Texas oil wells and 38 gas wells.

Delhi has proved crude and condensate reserves of 18,200,000 barrels and more than 1.2 trillion cubic feet of gas. It has nearly 100,000 acres of proved oil and gas, 224 oil wells and 71 gas wells in Texas, Louisiana, Kansas, New Mexico, Wyoming and Oklahoma.

California Duties Set

CAMP PENDLETON, Calif. (U)—The 1st Marine Division will return here when it is withdrawn from Korea within the next few months, Maj. Gen. John T. Selden, camp commander, announced.

Jury Considers Case

LOS ANGELES (U)—A jury resumed deliberations today in the marijuana possession case against George Hormel II, jazz pianist and heir to a meat-packing fortune.

Income Estimates Due Next Monday

Monday is the final day for businessmen to change their estimates of income, states Ben Hawkins, senior administrative officer in the IRS office here.

Hawkins said Saturday is actually the deadline date but that the date is extended to the next working day when it falls on Saturday or Sunday.

Businessmen and wage earners who must file an estimate are governed by the ruling, he said. However, it does not apply to farmers, only to those who must file an estimate or a return in place of an estimate.

About four times as many men as women die of lung cancer.

INCOME TAX FACTS

Don't Forget Deductions

(This is the sixth in a series of articles on income tax changes. The articles are based on information provided by the American Institute of Accountants and the Texas Society of Certified Public Accountants.)

What difference does it make whether you take a federal income tax deduction before or after determining your adjusted gross income? Plenty.

Certain deductions can be taken before you arrive at your adjusted gross income, from which you can still deduct 10 per cent as a standard deduction instead of itemizing any other deductions.

For example, a business man can deduct his reasonable and necessary expenses for travel that keeps him away from his home city overnight before arriving at his adjusted gross income. So can an employee when traveling for his employer. This was true under the old law and remains in effect.

The employee was at a disadvantage, however, when deducting other expenses in connection with his work. These could not be treated the same way—unless they were reimbursed by his employer (in which case, the reimbursement would be counted as income). Otherwise, he could only deduct such expenses among his itemized deductions. If he used the 10 per cent standard deduction he would lose them entirely.

The new law allows the employee to deduct before determining adjusted gross income all his transportation expenses in connection with his employer's business. These include fares, automobile expenses, and (if in connection with overnight travel) meals and lodging.

Employer's expenses other than these can only be deducted if the standard deduction or tax table is not used. The expense of commuting between home and place of work is not deductible at all.

An "outside salesman" (one who usually works away from his employer's place of business) can deduct all his business expenses before arriving at adjusted gross income, just as if he were in business for himself.

To deduct automobile expenses in connection with business travel you should first add up the total cost of maintaining your car, including depreciation, gasoline, oil repairs, garage rent, etc. Divide this total by the number of miles you drove in 1954 to find the average cost per mile, then multiply this by the number of miles you drove your car for business travel only. This will give you the amount you should deduct for business use of your car.

Even if you don't use your car for business, there are still some deductions you can take if you don't use the standard deduction or tax table. For example: state and local sales taxes on purchases of car, auto registration fee, state

gasoline tax, and losses from an accident not due to your "willful negligence" and not covered by insurance.

If you purchased a home during 1954 you probably agreed with the previous owner on a schedule of adjustments for taxes, insurance, water rates, and similar items. Under the old law you were not allowed to deduct any of the property tax if it was a lien on the seller at the time of sale.

The new law says: you and the previous owner can deduct this tax in proportion to the number of days of the property tax year that each of you held the property—whether or not you agreed to apportion the tax. You are considered to have paid your share of the tax when you bought the home. This applies to any other real estate you may have purchased.

Other deductions for a home owner include: the interest portion of your mortgage payments, real estate tax paid directly or through the bank, interest on FHA home improvement loans and other loans, and damage caused by fire or other casualty.

If you sold your home at a profit in 1954 read the tax instructions carefully to see how you can avoid tax by building or purchasing a home costing no less than the net proceeds of the sale of your former home.

Be sure to read the official instructions. You can also get help from the Internal Revenue Service, which urges you to consult only qualified advisers.

Next article: Medical Expenses and Other Deductions.

How To BE SURE

You Get Your Money's Worth

Facts About Circulation

You, as a successful businessman, expect to get your full money's worth on any transaction. You want to BE SURE you get your money's worth.

- What about your advertising dollar? You want your money's worth there, too.

You advertise because you wish to communicate with people about your merchandise or service. When you buy newspaper advertising what you really are paying for is an opportunity to talk to the people who buy and read that newspaper.

In order to know what you are getting for your money, therefore, you should have certain facts about the paper's circulation.

Think of this circulation as an audience to which you are talking about your business and remember that you are investing your money for getting the most returns from the audience. The success of your talk, the goodwill that it generates, depends upon several things, but it depends to a great extent upon the size and makeup of your audience.

Guarantee By ABC

Well, you can be GUARANTEED of the audience provided by The Herald through its circulation.

One of the great forward steps The Herald has just taken is the enrollment in the AUDIT BUREAU OF CIRCULATIONS (ABC). This is a national, cooperative association of 3,450 publishers, advertisers and advertising agencies. These buyers and sellers of advertising for many years have worked together in setting up and maintaining standards for measuring the circulation of newspapers and periodicals.

The ABC has a large staff of skilled circulation auditors. At regular intervals these men visit every ABC member (including The Herald) to make an audit of the circulation records just as a bank examiner inspects the books and assets of your bank.

When his report is made, then you have VERIFIED CIRCULATION DATA—the facts that can show you that you are getting your money's worth in advertising.

ABC reports give FACTS ONLY. There are no "estimates, calculations, conclusions, inferences, or guesswork on potentials." The facts are the REAL NET PAID CIRCULATION of the paper, and where these papers are sold

and under what circumstances.

So, the Herald's ABC figures (and you are welcome to a report at any time) give you CERTIFIED CIRCULATION.

Is It Really "Cheap"?

This is worth money to you, because you know EXACTLY WHAT AUDIENCE YOU ARE BUYING.

Oh, yes, you can buy some "cheaper" advertising. But before you purchase something that seems "cheap", isn't it good business to be sure about the audience that you are reaching with such advertising?

"Cheap" advertising can be mighty expensive, when it brings little or no returns. You invest an advertising dollar to bring in returns on it. The worth of your advertising is the amount of RETURN.

You, as a successful businessman, are going to be surveying your advertising budget for 1955. There are a lot of demands for your advertising dollar, sure. So you want to find that medium that gives you that top RETURN.

You don't have to guess about a listening or a looking audience at any given second of the day or night, when you use Herald advertising. You do not have to wonder whether an advertising message is lost in entertainment interest. You do not have to pay a big price for a "show" name.

An Audience Every Day

You KNOW that people accept The Herald into their homes, because the ABC circulation report shows you they are ACCEPTING IT BY PAYING FOR IT. You know the home town daily paper is there, to be read at leisure, when your message can be read, digested, understood and ACTED UPON. There is no 30-second flash about your Herald ad. You know that The Herald is going to your audience EVERY DAY, not at rare intervals. The success story in advertising—for thousands of businesses, as well as YOUR business—is that the home town daily paper is the BASIC MEDIUM, the one with the TOP APPEAL.

This appeal is now matched for you with CERTIFIED CIRCULATION, the ABC auditor's stamp which is just as unimpeachable as the sterling stamp on silver.

*When You Know Exactly What You Are Buying, Only Then

Quick Okay Of Federal Pay Hike Looms; Postal Rate Fight Likely

By JOE HALL. WASHINGTON (AP)—Congress seemed to be in a mood today not only to give a prompt pay raise to 1 1/2 million federal employees, but also to boost substantially its own salaries.

But a companion administration proposal to increase postage rates was met with marked reserve and some outright opposition. President Eisenhower sent to the Capitol yesterday special messages urging 5 per cent pay hikes totaling about 330 million dollars annually for one million civil service workers and 500,000 postal employees. He also called for increases in rates charged for first, second and third class mail to help offset the added postal pay costs.

Leaders in both the Senate and House said they would vote an early federal pay raise. The only question appeared to be whether the lawmakers would court a veto by passing a much bigger raise than the President asked, and by refusing to boost postal rates as he requested. Eisenhower vetoed a 5 per cent pay raise bill last year on grounds there was no offsetting revenue gain provided for postal operations.

At the same time, a strong movement gathered force for a pay hike for the lawmakers themselves. Eisenhower gave this a big plug in his State of the Union message last week without naming a specific figure. Congressional leaders apparently felt the time was ripe to raise House and Senate pay because any diverse political effects would be evenly distributed, with Republicans in the White House and Democrats controlling Congress.

Sen. Kilgore (D-W.Va.), prospective chairman of the Senate Judiciary Committee, announced he would introduce Friday a bill to carry out last year's recommendations of the Commission on Judicial and Congressional Salaries. This body proposed a \$12,500 increase for senators and representatives, to \$27,500 a year. It urged similar raises for federal judges.

Some lawmakers said privately that enactment of a \$10,000 raise was more likely than the one to be proposed in the Kilgore bill. A measure calling for this figure was introduced in the House last week by Rep. Celler (D-N.Y.), soon to be chairman of the House Judiciary Committee, and by Rep. Walter (D-Pa.). The congressional pay question was discussed yesterday at a closed conference of all Republican senators.

The President's message on federal employ pay raises won quick praise from senior members of the House Post Office and Civil Service Committee. But a move was stout in the Senate to vote a much larger increase. Sen. Olla D. Johnston (D-SC), prospective chairman of the Senate Post Office and Civil Service Committee, has joined 20 other senators in introducing a bill calling for average 10 per cent hikes. However, Sen. Carlson (R-Kan.), senior Republican on the Post Office Committee, said in an interview he would introduce a bill to carry out the President's recommendations.

Carlson said his reading of the Eisenhower message did not indicate to him that the President was insisting postal rate increases be tied in with the pay hike this time. Johnston said the Senate would not take action on proposed postal rate increases pending developments in the House. There, Speaker Rayburn (D-Tex.) has come out strongly against any increases in letter mail charges, which would provide the bulk of the new revenue.

Sen. Olla D. Johnston (D-SC), prospective chairman of the Senate Post Office and Civil Service Committee, has joined 20 other senators in introducing a bill calling for average 10 per cent hikes. However, Sen. Carlson (R-Kan.), senior Republican on the Post Office Committee, said in an interview he would introduce a bill to carry out the President's recommendations.

TO AID HUNT FOR KILLERS

Panama Extends State Of Siege 10 More Days

PANAMA, (AP)—The National Assembly last night extended for 10 more days the state of siege declared following the assassination Jan. 2 of President Jose Antonio Remon.

As it had in originally voting the modified form of martial law, the Assembly said its purpose was to facilitate the so far fruitless investigation into the machine-gunning of Remon. The original decree would have expired tomorrow.

The state of siege, under which most constitutional guarantees are suspended, has had little effect on everyday life in the capital. Mainly it has enabled investigators to arrest persons for questioning without warrants, and those arrested are unable to obtain freedom by habeas corpus proceedings. Minister of Government Catalino Arrocha told the Assembly the search for the late President's slayers had produced no concrete results so far. Following the killing, about 70 persons were arrested in the capital but many of these have since been released.

Among those still being held were ex-President Arnulfo Arias, long a political foe of Remon, and Martin Lipstein, a New Yorker who landed in Panama from Venezuela the day of the assassination. Lipstein's release has been expected since yesterday, when a U.S. Embassy spokesman said witnesses had corroborated the 34-year-old man's story that he was nowhere near the race track where Remon was killed.

There was no indication of why Lipstein was still being held. President Eisenhower gave Burke his support. Rogers' victory gives the Democrats 232 members in the House to 203 for the Republicans.

Singer Seeks Divorce. LOS ANGELES (AP)—Alleging cruelty, singer Polly Bergen, 24, has filed suit for divorce against actor Jerome Courtland, 27.

Dallas Building Begins. DALLAS (AP)—Ground was broken today for the downtown auditorium Dallas has been talking about for 28 years.

Industrial Meet Set For Jan. 27

ABILENE — The annual West Texas Industrial Development Conference, which last year attracted more than 250 community leaders from 61 West Texas towns, will be held in Abilene on Jan. 27.

The program, to begin at 9:30 a.m. in Abilene's Wooten Hotel Ballroom includes: James W. Aston in a discussion of "Community Planning." Aston is vice president of the Republic National Bank in Dallas and a former city engineer of the City of Dallas. "Not Made in Texas for Texans," a discussion of opportunities to make in Texas items which are now imported into the state, by L. S. Paine, research economist of the Texas Engineering Experiment Station at College Station. "Locating Industrial Prospects for Your Community," by Earl C. Allmand, industrial manager of the Amarillo Chamber of Commerce. "Selling Your Community to the Industrial Prospect," by Oscar Monrad, vice president of the First National Bank and Trust Company of Oklahoma City and former industrial engineer for the Oklahoma City Chamber of Commerce.

Houston City Council Studies Tavern Gloom

HOUSTON (AP)—The City Council took up today the question of just how dark it should be inside a tavern. The council takes up an ordinance that would require all taverns be more brightly lighted. Engineers say the candlepower required to light an office adequately is 40. Grand jurors have maintained that potential witnesses often claim that a tavern's gloom kept them from seeing who committed a crime.

Back In United States

LOS ANGELES (AP)—Actress Jane Russell, appearing tired, arrived last night after four months in Europe, where she made a movie.

L. C. Gibbs has purchased Wortham & Gibbs Chevron and is now operating it under the name of GIBBS CHEVRON SERVICE 311 E. 3rd Dial 4-8774

Navy Pilot Killed In Jet Trainer Collision

KINGSVILLE (AP)—A Navy pilot was killed in the aerial collision of two jet training planes from the Naval Auxiliary Air Station yesterday. He was Lt. Peter Bascom, 24, of Washington. Two men in the other plane who escaped injury are Lt. L. E. Morrison, 25, of Derry, N.H., and Lt. Stanley Hamilton, 19, of England. The crash was the second fatal Navy accident in this area in two days. Marine Lt. Steven Hegyl, 26, of Roebing, N.J., was killed Monday.

Policemen Quell Riot By Lepers

PORT OF SPAIN, Trinidad (AP)—Police have quelled a riot by 300 inmates of the Chacona leper colony, but the patients are on a sitdown strike protesting the removal of the doctor who gave them a Christmas holiday in Trinidad.

The police took over the 151-acre island, 13 miles west of here, yesterday after the inmates seized control in an effort to prevent the removal of Dr. Michael Corcos, superintendent of the settlement. Corcos was returned to the mainland last night by a police launch and Dr. Young Lao was put in charge. Trinidad officials said Corcos is on "compulsory leave" pending an answer from the British government to their request that he be fired. The Trinidad government wants Corcos ousted because he let the patients come to the mainland during Christmas despite a protest from the governor of the British colony. The colony's inmates issued an ultimatum, "Dr. Corcos or nobody," and took over. The Sisters of Mercy, from Baltimore, Md., who care for the patients, appealed for police help.

Rock Island Given Okay To Buy Part Of WF&S Route

WASHINGTON (AP)—The Rock Island Railroad has been authorized to buy a 28.8-mile segment of the old Wichita Falls Southern Railroad in Young and Stephens counties in Texas. The ICC authorization was contingent on continued operation of the trackage. The commission gave the WF&S permission last June to abandon its entire operation over about 165 miles from Naples Junction to Dublin. The section involved in yesterday's ruling extends from a connection with Rock Island's tracks at Graham to South Hamilton. The purchase price agreed upon, the ICC said, was \$233,336.

Girl Saves Brothers From Fire

Wilma Jane White, 7, center, a first grade student, saved the lives of her two brothers, Tommy Ray, 4, left, and Donnie Eugene, 5, right, when fire swept the duplex apartment in Dallas, Tex. The children were sleeping alone in the home at the time. The mother had left before dawn to drive the father to work. Heat from the fire popped a light bulb, awakening the girl. She awoke Donnie but the two had to drag Tommy who was hard to wake up. They reached the outside minutes before flames engulfed the interior of the home. (AP Wirephoto).

GOP State Leaders Offer Nixon Defense

WASHINGTON (AP)—The Republican high command again defended Vice President Nixon against Democratic criticism today, issuing a statement in his praise signed by four GOP Midwestern state chairmen. "We believe we speak for the vast majority of Americans who resent below-the-belt attacks cur- rently," the statement said. "People in general are getting pretty sick of these pitiful cries of 'smear' which lack any trace of proof."

The statement, distributed by the GOP National Committee, bore the names of these four state party chairmen: Ray C. Bliss, Ohio; Alvin C. Cast, Indiana; Morton H. Hollingsworth, Illinois; and Don C. Pierson, Iowa.

All four were among the guests at a stag dinner given by President Eisenhower at the White House Monday night. Many Democrats have criticized the vice president, the most active GOP campaigner in the weeks before the November elections, on the ground that he sought to indict Democrats generally for a softness toward communism. Nixon has declined to comment on this criticism.

Eisenhower praised Nixon's efforts during the campaign, and GOP National Chairman Leonard W. Hall said in a statement Monday night there was a "highly organized campaign to besmirch" the vice president. In what looked like a campaign by the GOP to counter the criticism, the four state chairmen said they wanted to thank Nixon publicly for his service to the party and the American people in the campaign.

"Needless to say, the vice president went before the American people in the 1954 campaign with facts about the destructive effects of left-wing influence in government—facts which were distilled in a year and a half of cleaning up after a party which ran its reckless course for nearly a generation," the state chairmen's statement said. "The Democrats engaged in these attacks would better serve their country if they gave more time and attention to supporting President Eisenhower's legislative program and less to assaulting the character of the vice president."

Besides Big Spring, contestants will come from Dallas, Houston, Wichita Falls, Brownwood, Abilene, Lubbock, Alice, Denton Junior High, Denton High, Birdville, Sonora, Waco, and Sherman. Out-of-state contestants are to be from Byrd, Louisiana, and four Oklahoma schools, Cushing, Seminole, Ardmore, and Miami. First and second place trophies will go to the winners of 11 events. A sweepstakes trophy will be given to the high school earning the most points in all divisions.

Denton High School will be the host school with events conducted by North Texas State College and Texas State College for Women. More than 26 schools are expected to be represented at the tournament from Texas, Louisiana, and Oklahoma.

Servicemen Must Vote In County Of Civilian Residence

The new rules concerning voting by military personnel are explained in an opinion from the state attorney general's department to Viol Robinson, Howard County tax assessor-collector. Passage of an amendment to the Texas Constitution last November removed the voting disqualification which had been held against Texas members of the armed forces. All Texans in the military service are now qualified to vote if they meet other requirements, according to the opinion received by Mr. Robinson.

However, a serviceman may vote only in the county in which he resided at the time he entered the service. His absence from the county during periods of military service does not disqualify him from voting, although the serviceman must either be present on election day or secure an absentee ballot during the regular absentee voting period. The absentee ballots may be secured by writing to the county clerk and presenting poll tax receipts in the usual manner. The poll tax should be paid in the "home county."

If a member of the armed forces "abandons" his place of residence in the county from which he entered the service, he then is disqualified from voting until he re-establishes residence in that county. He cannot establish residence and vote in some other county, according to the opinion. Abandonment of a place of residence is not defined in the opinion, but apparently it means that a serviceman must "abandon" all intentions of returning to his home county. Merely to move his family away from that county while he is in the armed forces does not disqualify a serviceman from voting in his home county, Mrs. Robinson said.

When you want to Go -You're gonna Go!

No ifs, ands or buts about it.

When you give the gun to a 1955 Buick with Dynaflo Drive,* you move.

In the instant you push down the pedal, you get the action you've called for—immediate getaway from a standing start, or immediate safety-surge out of a tight spot on the highway.

It's not magic, this thrilling and pulse-quickening response—though it feels like the closest thing to it.

It's a principle of the modern airplane, brought for the first time to an automotive transmission.

Twenty "variable pitch propellers" inside the Dynaflo unit itself can change their angle—like the

propeller of the airliner can change its pitch from take-off position to cruising position.

And what this brings to you—at the wheel of a '55 Buick—is the nearest thing to flight on wheels. Far better gas mileage in your normal driving and cruising. Spectacular response when you want it for quick getaway or emergency acceleration.

But all this, mind you, with the absolute smoothness that is constant in Dynaflo Drive.

Surely, a demonstration of Variable Pitch Dynaflo is a Buick must this year. We'll be happy to do the honors—and show you, in the doing, what a whale of a buy you make here. Drop in this week, won't you?

*Dynaflo Drive is standard on Roadmaster, optional at extra cost on other Series.

Rockefeller Gives \$20 Million To Aid Seminary Training

NEW YORK (AP)—In a casually worded two-sentence letter, John D. Rockefeller Jr. has given 20 million dollars' worth of securities to aid Protestant theological education in the United States.

The gift was made yesterday to the Sealant Fund, Inc., a philanthropic corporation Rockefeller established in 1938.

Rockefeller sent this note to the fund's trustees:

Gentlemen:
I am giving your corporation as of this date securities having a present market value of approximately \$20,000,000. The purpose of the gift is to strengthen and develop Protestant theological education in this country.

Very sincerely,
John D. Rockefeller Jr.

The money—probably the largest single grant ever made for religious training—presumably will be used to strengthen and expand the programs of theological schools.

Longview Votes Bonds

LONGVIEW (AP)—Bonds to finance a school expansion program to cost one and one-half million dollars were voted yesterday, 667 to 118.

IT HAPPENED

Milk Fizz, M'sieu?

CORVALLIS, Ore. (AP)—With all this recent talk that Frenchmen should drink more milk and less wine, you may be surprised at the figures reported by Oregon State College dairy experts.

They said yesterday the Frenchmen already consume more milk and milk products than Americans.

The per capita consumption was 705 pounds in France in 1953, compared with 682 pounds in the United States, the college reported.

In fact, 11 other countries led the United States in per capita use of milk. Ireland and New Zealand headed the list with 1,382 and 1,349 pounds respectively.

Boy's Effort Saves Dog; Friend Drowns

ANN ARBOR, Mich. (AP)—Jeff Yost, 15, heard a splash in Pleasant Lake last night. A dog began to yelp. Investigating, Jeff found that a cocker spaniel had fallen through the ice.

The boy called for help. Rescuers came and pulled the dog from the water.

Later, Jeff noticed that his skating buddy, James Burkhardt, 14, was missing. Sheriff's officers and firemen recovered James' body from the lake.

Girl, 16, Saves Younger Children

TEXAS CITY (AP)—Lauriel Pranknik, 16, was critically burned when she led four younger brothers and sisters to safety from a flaming house Monday night.

Those rescued unharmed were Buddy, 8; Linnis and Linda, 3 and twins; and Michael, 3. A neighbor, E. O. Hare, saved Charles, aged 15 months.

The parents were away when the house caught fire from an undetermined source.

Some of the winds generated by A-bombs move faster than sound.

forth on telephone lines, fall off, flutter feebly to the ground and remain there.

They fly into automobiles, and streets are strewn with their bodies.

Police can't account for the strange behavior, but Harry Varley, editor of the weekly newspaper The Islander, thinks the birds got hopped up on some kind of fallen fermented berry.

Plenty Of Nerve

TAIPEH, Formosa (AP)—A young Chinese arrested on the streets here at 3 a.m. yesterday convinced the inspector at a police station that he wasn't a thief but merely a playboy.

He was allowed to leave.

Police now are looking for him again — and the raincoat missing from the station.

Planning Ahead

DENVER (AP)—"How much tax is due on \$75,000 income?" the anonymous woman caller asked a government tax expert yesterday by telephone.

About \$41,180, not counting deductions, she was told.

"Well, what about \$150,000?" she asked.

The bill jumped to \$101,960, the expert's slide rule showed.

Asked why she inquired, the woman replied:

"I'm just deciding whether to buy one or two tickets on the Irish sweepstakes. Thanks for your help."

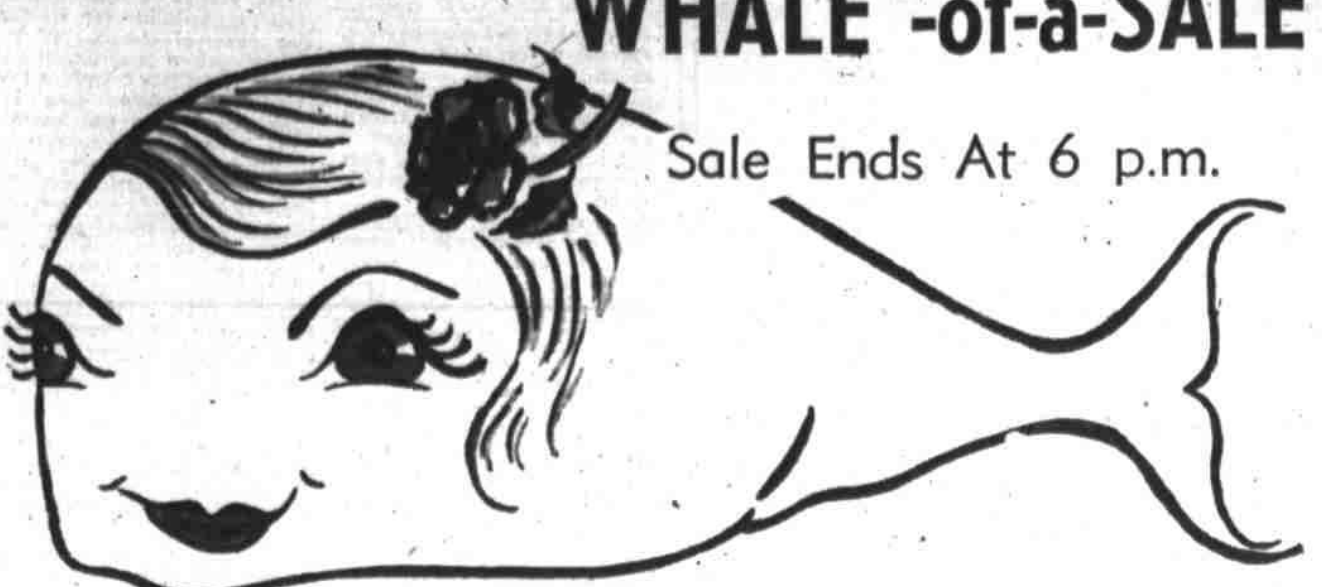

Chiang's Airplanes Raid Commie Island

TAIPEH, Formosa (AP)—Nationalist China's air force headquarters said its four-engine bombers had "excellent results" in a three-wave attack today on Communist-held Tumen and Tienao islands.

This was the third straight day's strike against Tienao, which is almost next door to the Nationalists' Tachens, which were attacked by 100 Red planes Monday.

The Nationalist Defense Ministry said 10 Communist fighters and light bombers buzzed the Tachens in four waves this morning but did not attack.

Col. Young Made Special Member Of Rotary Club

Col. Charles (Chuck) Young said he is convinced Big Spring does things "in a big way."

Col. Young, new commander of Webb Air Force Base, became an honorary member of the Big Spring Rotary Club at the organization's weekly luncheon yesterday.

He made the remark about doing things in a big way in response to the club's standing ovation.

"The day I arrived here we lost two jets and tore up a T28," Col. Young said. "The next day canopies were lost off two other jets. And Sunday this place looked like Alaska."

Col. Young was introduced by Maj. John Thomas. The new base commander arrived here a week earlier. He previously was stationed at Fort Bragg, N. C., and served as a member of the Joint Tactical Air Support Board. He logged 150 combat hours as a P38 pilot during World War II.

Dr. F. D. O'Brien, First Baptist minister, was the speaker for the luncheon meeting. Discussing "Things I've Lived Long Enough To Prove By Experience," he urged Rotarians to "look for real riches and pleasure in a direction other than money."

"There are just as many aching hearts under silk as under calico," he asserted. "True riches can't be deposited in a bank."

The minister said it has been proved to him through experience and observation that "it takes both the north wind and the south wind to make the garden grow."

Bill Crook, club president, appointed Dr. Frank Dillon, Adolph Swartz and R. W. Thompson to a committee to nominate club officers for the next year. The committee will report next Tuesday and officers will be elected subsequently to take office July 1.

Roy Cohn Blasts Handling Of Peress Case By Army

NEW YORK (AP)—Roy M. Cohn says the handling of the Peress case by the secretary of the Army and one of his top aides was "a betrayal of their obligation to the people of the United States."

Cohn also says Secretary Robert T. Stevens and Army Counsel John Adams were responsible for "a waste of taxpayers' money and a toying with congressional committees bordering on contempt."

Cohn, former counsel to Sen. Joseph R. McCarthy's Senate Investigations subcommittee, gave up that post at the end of a lengthy fight, sparked by the Peress case, between McCarthy and the Army last spring and summer.

Maj. Irving Peress, an Army dentist, had been called a "Fifth Amendment Communist" by McCarthy after declining to answer questions at a committee hearing last February. The next day Peress was given an honorable discharge from the Army and McCarthy immediately wanted to know who was responsible.

McCarthy also asked names of

Man Slays Himself

McALESTER, Okla. (AP)—A dependent trucker, believing he had killed his wife after firing two shots at her, killed himself yesterday after a family argument. The woman fainted when he shot at her, the bullets imbedding themselves harmlessly in a wall. County Attorney James White said Logan Harrington, 49, ran outside and put a bullet through his brain.

ARTHRTIS, RHEUMATISM, NEURITIS Sufferers Now Offered Amazing Relief From Agonizing Pains

Sensational new medical discovery called AR-PAN-EX works through blood stream where it can do the most good, fastest. Even most stubborn cases have gotten blessed relief from torturing misery. See us today about guaranteed AR-PAN-EX tablets.

Dallas Presbytery Of U. S. A. Church Votes For Merger

DALLAS (AP)—The Dallas Presbytery of the Presbyterian Church, U.S.A., in a unanimous vote approved union with the two other branches of presbyterianism yesterday.

The presbytery represents 85 U.S.A., or sometimes referred to as Northern Presbyterian, churches in the Dallas area.

ATLANTA (AP)—Twelve presbyteries of the Southern Presbyterian church have voted against uniting with two other Presbyterian denominations and one has voted for unification.

The Athens Presbytery in Georgia became yesterday the 12th to go on record against the proposed union by a 32-16 vote.

The single vote for unification was by the Texas Mexican Presbytery.

Most of the southern presbyteries will vote on the issue Jan. 18, 19 or 20.

Although many people regard spiders as insects, scientists put them in a different category.

Hog Prices Decline

KANSAS CITY (AP)—The price for live hogs has dropped to the lowest level since December, 1952, at several markets. The top price at Kansas City yesterday was \$17.50 a hundredweight, about \$11 below last April's six-year peak.
