Mrs. Roberts Hotel Buyer

Local Woman Trades Securities, Cash For Angelo Hostelry

SAN ANGELO—Frank Roberts, San Angelo's oldest hotel man in point of the number of years in business, has traded his four-story 65-room hotel at Twobig avenue and Irving street to Mrs. Dora Roberts of Big Spring for securities.

Part of the securities then were traded back by Mr. Roberts for a one-year lease on the hotel, dating from April 15.

The hotel was built by Mr. Roberts and opened by him in 1927 after he had engaged alternately in the theater and automobile business following long connection with the London hotels, where the Naylor hotel now is located. Occupying all but the north 100x75 feet of the property, which fronts south 75 feet on Twobig and extends back 100 feet, the hotel was valued at \$100,000 in the deal.

Mrs. Roberts assumed a debt of \$40,000 on the hotel, paid \$15,000 cash and transferred to Mr. Roberts securities, including stock in the Western Reserve Life Insurance Co. of San Angelo, the Midwest Royalties Corporation of Oklahoma City, the Dry Gold Corporation of Houston and the Rio Grande Valley Gas Co. of San Antonio. The securities have been handled by Compton & Co. of San Angelo. Mr. Roberts last fall traded property here for a ranch in Bosque county, which he is now visiting. He and Mrs. Dora Roberts are not related.

Mrs. R. E. Birmingham and two children, Wanna and Wayne, have gone to Athens, Tex., to visit her mother.

Lindley Talks To Kiwanians

San Jacinto Day Program Features Weekly Meeting

Rev. D. R. Lindley, in a San Jacinto Kiwanis club said "I wonder whether the hero of San Jacinto who 95 years ago today sacrificed everything for liberty would be proud of us as we shift responsibilities and fall back in the face of opposition or misfortune."

Mr. Lindley's talk was the feature of a program in charges of Webster H. Smitham.

President George Gentry named Rev. J. Richard Spang, Walt Smith and John Wolfson on a committee to set with representatives of the Rotary club to arrange a joint ladies' night banquet for the near future.

The club will be host next Thursday evening to people of the Lomax community.

Disagreements between producers and representatives of the railroad commission over method of enforcing proration in the Henshaw and the Phillips-Coffee areas of the Howard-Glasscock county field Friday had reached a stage that caused some observers to predict they might lead either to court action or to issuance of a new order by the commission.

Orders given through W. R. Bowden, deputy oil and gas supervisor, by R. D. Parker, chief of the oil and gas division of the commission, are being opposed strenuously by the American Maracaibo company, through Ben LeFever, general superintendent, with offices here.

American Maracaibo's 40-acre Settle-C lease is just west of the boundary set up in the last formal order of the railroad commission as the "Henshaw" area—that is, it is just inside the Phillips-Coffee area. Maracaibo has three producing wells on this 40-acre tract.

The commission, it is reported, wishes to enforce a unit rule for this lease, as is done in the Henshaw area. This would cut Maracaibo's daily allowable production by approximately 1,000 barrels in all. Cardinal company also would be hit strongly by the proposed change.

Schermerhorn Oil company, is protesting present policies governing marginal and water allowance. It holds that some wells are being allowed to flow more than their actual production of oil.

It is pointed out that the last formal order of the railroad commission governing proration in this field was issued in June, 1930 ostensibly to be in effect six months. It is the plea of representatives of several companies that the amount of water being produced by many wells has increased greatly since any proration test was made on them and that many wells are producing much more fluid than they actually could make in all alone, thus allowing the wells to produce their maximum actual potential in oil while other wells have been placed under water allowance regulations that prevent them from producing a just share of oil, compared with the portion of the actual potential allowed other wells.

Nominations of the Humble and the Cosden pipe line divisions have been reduced sufficiently to cut the daily outlet of the field from 26,000 to approximately 24,000 barrels. The commission's last order allows 26,000 barrels daily.

It was reported Friday in unofficial circles that the matter was being taken directly to Chief Supervisor Parker at Austin.

23 For, 1 Against Bonus

Straw Poll Continues Trough Tuesday Of Next Week

For cash payment of the soldier's bonus—23. Against cash payment of the soldier's bonus—1.

That opinion of ex-service men and others in Howard county is almost unanimously in favor of immediate payment of the two billion dollars due on ex-service men's adjusted compensation certificates, appeared plain as ballots cast in The Herald's straw vote on the question came in Friday morning.

The straw poll will continue through next Tuesday. Use the ballot on this page, mailing it to The Herald.

Of those casting ballots Friday morning eight were ex-service men, seven were not.

One veteran made this notation on his ballot: "I am in favor of it. I need the money and 90 per cent of mine would be spent in Big Spring and Howard county."

Another 'veteran' wrote: "You'll have to delete the Reconstruction Finance corporation from the scheme of things to put it over."

Dr. Chambers was born in Bedford County, Va., April 24, 1870 and would have been 62 years old if he had lived until Sunday. He was educated at Richmond College and at the Southern Baptist Theological Seminary at Louisville, Ky.

He went to Canton, China, in 1894 to take charge of the Church Publication Society, financed by the Southern Baptist Board. He has had charge of that work ever since, moving the offices to a new building in Shanghai last year when he and Mrs. Chambers left.

Russian Chorus Carries Big Spring People Off Feet

One occasionally is best with an opportunity to hear truly great singing, but not often. It is, therefore, a pity that every person in Big Spring could not have heard the Royal Russian Chorus in concert at the high school Thursday afternoon and evening, under local auspices of the South Ward Local Teachers' association and the Big Spring Glee Club.

Princess Slaviansky, daughter of the man who organized the chorus 73 years ago, with her own daughter, lead the company of seven women and five men.

It is great to listen to one great singer; to hear a dozen of such outstanding ability is an experience that cannot be described.

From The Heart You knew from the first note of the first song that here was something rare and worthwhile. You knew that each performer possessed a great voice, that each had been given unusually fine training.

But, before the program ended, and after you contemplated the fate that has befallen so many Russians of Royal blood, what with the rigors through which Bolshevism and Communism have carried that nation—you knew that these people sang with their hearts, too.

As Princess Slaviansky said after the evening performance, "without our chorus those real Russian folk songs soon would be dead and forgotten."

Of special interest was the singing of Ivan Buzestoff—whose voice is unmatched by any other person on earth. This basso profundo has been with the chorus 46 years. As a lad he roomed with Challaan while the two studied under Princess Stavitsky's father.

Appreciative Folk songs, several English numbers, and native dances were presented.

The audience more than made up in appreciativeness for its comparatively small size.

Comment following the concert centered more upon the singing of the younger Princess Slaviansky, and the baritone and basso profundo performers than the others, but the tenors, and the entire chorus sang every note, every word as nearly perfect as any chorus the country has ever heard can sing.

It is the ardent hope of your reporter that this chorus may return to Big Spring someday and that thousands, rather than mere hundreds, will hear it.

WASHINGTON (AP)—Speaker Garner said he favors passage of the Goldsborough bill, directing the treasury department and the Federal Reserve bank to decrease and stabilize purchasing power of the dollar.

Rep. Garner said that "it is a big question but the people undoubtedly want it done." He said the measure grants no additional powers to the Federal Reserve bank but merely directs use of what power it always has.

Capone Files Petition With Highest Court

WASHINGTON (AP)—Al Capone filed a petition asking the United States Supreme court to review action of the seventh circuit Court of Appeals, which affirmed his 11-year sentence for income tax evasion. He still is in the county jail at Chicago, getting no credit on his sentence for time served there.

The petition terms as to fail to inform the defendant of the nature and cause of certain accusations. It also claimed that certain counts omitted to specify failure to pay taxes, thus begging outside of the statute he was accused of violation. The petition ended with the assertion that "forced and doubtful constructions of the statutes to entrap the defendants were against the central principals of government."

Worthless Fortunes THE miser is a phenomenon as old as civilization; and from the very beginning he has been a great puzzle.

There died in the middle west the other day an aged recluse who lived in a tiny apartment on a main side street. To all appearances, he was just one notch above actual destitution. But when his effects were examined, after his death, it was found that he owned cash and securities worth upwards of \$500,000.

Case of this kind are continually coming to light of course, and there is nothing especially unusual in this one. But it does make one wonder, anew—Why? The money did the man no earthly good. It is now being divided among 39 cousins, and it is doubtful if he saved it on their account. It did him no good whatever. What can be the motive that makes a man treat his money that way?

Don't Call It Advertising

From Better Business Bulletin, March 15, 1932

Solicitors are constantly trying to sell "advertising" space in fake directories, programs for alleged benefits, pages in all types of books and tickets to alleged benefits.

Most of these are merely devices through which promoters mulct business men. The amount of money yearly wasted in this dubious publicity, if invested in legitimate advertising would result in an appreciable increase in sales and goodwill.

If you must dissipate your funds through these needless channels—do so with your eyes open and knowing you will get no return. But in the name of good business, don't call it advertising.

DIES OF INJURIES BRADY (UP)

Ollie Crawford, 23, died of injuries received Tuesday when his horse fell with him. He suffered a concussion of the brain and never regained consciousness.

He was buried here Thursday.

EVERY WOMAN faces this question

"How do I look to other people?" If you have a lovely skin, attractive eyes, and plenty of enthusiasm, you need not worry.

So many women, though, risk their beauty by neglect of constipation. It often causes loss of pep, sallow skins, dull eyes, pimples.

Yet constipation can be overcome by eating Kellogg's ALL-BRAN. This cereal provides "bulk" to exercise the intestines, and Vitamin B which tones the intestinal tract. ALL-BRAN also supplies iron for the blood.

The "bulk" in ALL-BRAN is much like that of lettuce. Special cooking processes make it finer, more palatable. It is not habit-forming.

Surely this is safer than abusing the system with pills and drugs—so often habit-forming.

Two tablespoonfuls daily will correct most types of constipation. If your intestinal trouble is not relieved this way, see your doctor.

At all grocers. In the red-and-green package. Made by Kellogg in Battle Creek.

Boyd Opposes Added Taxes On Oil Output

42 Per Cent Passenger Cars Owned In Rural Districts He Says

DALLAS (UP)—Additional taxes on the oil industry proposed in the revenue bill now in congress will destroy the capital structure and prevent the restoration of prosperity to the oil industry, D. R. Boyd, Jr., vice president of the American Petroleum Institute, told directors of the Mid-Continent Oil and Gas Association here.

"We are already carrying a staggering burden of taxation," he said, "and any additional tax will not be a levy on our income. It will be aimed at our capital structure. It is not only unfair to us,

but it will place a heavy and improper burden on our customers.

"Approximately 42 per cent of the passenger cars in this country are located on farms or in little towns of less than 1,000 people. Any additional increase in taxes on gasoline or lubricating oil or any other tax on the oil industry will ultimately have to be carried by these people. And they call it 'soaking the rich.'

"The aggregate tax on a barrel of crude oil is 85c when it reaches the public. In 1931 the average crude price was 67c a barrel. Before the oil got to the public someone had to absorb the difference. That's a tax of 18 per cent.

"At the present time we are paying approximately 100 per cent sales tax on gasoline. The secretary of the treasury proposes a three fourth cent federal tax on gasoline. That will mean an additional tax of approximately 25 per cent. He has recommended a 4c a gallon tax on lubricating oil, or a tax of approximately 50 per cent of their refinery value.

In the interior of British Columbia moose and deer are plentiful.

YOU'LL NEVER KNOW WHAT A WEALTH OF FLAVOR COFFEE HAS, UNTIL YOU TASTE HILLS BROS

Hills Bros' patented Controlled Roasting process develops the natural goodness of the coffee-berry

"A little at a time"—instead of in bulk—makes perfect roasting possible

As the accuracy of the hour-glass depends upon an even, continuous flow... a little at a time... so the uniform flavor of Hills Bros. Coffee is produced by Controlled Roasting—the patented process that roasts evenly, continuously... "a little at a time."

One of Nature's greatest achievements is the flavor in the coffee-berries! The flavor, however, must be fully developed by roasting the berries. But if they are underdone or overdone, the flavor of course is harmed.

Hills Bros' patented Controlled Roasting process differs from ordinary methods. It prevents under-roasting and over-roasting!

Ordinarily, coffee is roasted in bulk. But Hills Bros. roast a little at a time... as the coffee flows evenly, continuously through the roasters. It is a precise process! Every berry receives the roast required to develop the delightful goodness that Nature makes possible!

Hills Bros. Coffee can't go stale. The vacuum process of packing coffee is the only method that fully preserves coffee freshness—the air is removed from the can and kept out. It was originated by Hills Bros. over thirty years ago. There is no magic about a vacuum can—it will not make poor coffee good, but it will keep good coffee fresh.

Order Hills Bros. Coffee today by name, and look for the Arab trade-mark on the can.

Reduction Of Taxes Upper Most In Public Mind He Declares

DALLAS (UP)—James E. (Farmer Jim) Ferguson, former governor, painted a dreary picture of present conditions and predicted a triumph for his wife in her race for governor on a tax reduction platform.

"I don't believe the government can last three years under existing conditions," said Ferguson. "Reduction of taxes is uppermost in the minds of the people."

Any business man who has been able to accumulate as much as \$10,000 worth of property believes taxes threaten the very existence of the government. The government can't give a job to everybody. The loss of a job is an individual misfortune while high taxes are a misfortune for all.

Ferguson criticized Governor Ross Sterling's use of martial law in the oil fields. The former governor said his wife will defeat Sterling by 200,000 votes.

"The question of market demand must be placed in the law," said Ferguson. "The public paid too high a price for regulation. The price of gasoline went up as the oil was curtailed. When gasoline prices get too high the government must permit the wells to be opened."

Ferguson said Roosevelt and Smith are "like two snakes with inverted ends trying to swallow each other" and that Speaker John J. Coughlin has an excellent chance of winning the Democratic nomination. Barry Miller, former lieutenant governor, was in the crowd which greeted the former governor.

Drug Store Owner Held as Robber of Fellow Tradesman

DALLAS (UP)—Three charges of robbery with firearms were filed here naming J. G. Graham, druggist who police say turned bandit and robbed his fellow tradesman.

The grey-haired, well dressed druggist was taken into custody after it was asserted he held up G. C. Seawell, night manager of the Marshall Pharmacy, taking \$30 and a quantity of cigarettes.

Seawell identified Graham, police said, as the man who robbed him. The two other charges accuse Graham of robbing the Stoneleigh Court Pharmacy of \$177.50 on March 11 and the Metzler Brothers Oak Lawn Pharmacy of \$225 on February 28.

Graham is the owner of a drug store in South Dallas and has been robbed by hi-jackers himself several times. The robbery last night occurred shortly before Seawell was closing the store. The radio men pursued the car forcing it into a ditch. They said Graham was armed and that in his car they found the cigarettes.

SPORTS ON PARADE

By CURTIS BISHOP

News of the day: Bill Terry of New York Giants equalled the major league record for constant home run hitting by slugging out his fifth circuit clout in three days to give the Gotham entry a 5 to 4 victory over the Philadelphia Phillies.

In the three days Terry has amassed eight hits, six of them for extra bases, scored seven runs and batted in thirteen. The Detroit Tigers are leading the American League with seven victories won and two lost, and sensational pitching is the reason for it. Cincinnati can place an outfield in the game that has a lifetime average of .339, and two of them are among the best fielders in the majors. Hafey in left, Douthitt in center, Hellman in right. Hafey led the National League in slugging last year, but Terry had the higher percentage, believe it or not! The New York first baseman was .026 points behind the St. Louis outfielder and had one more game to play while Hafey's season was ended. On his first trip up Terry singled and promptly withdrew from the game, clinching the batting championship. And then it rained in the fourth inning and the records did not enter into the percentage calculations. Heien Willis Moody is off on an invasion of European courts, and the California "eyeshead" girl will probably take all the championship she can get in 1931. Ellsworth Vines, Frank Shields, Wilbur Allison and Eugene McCauliff are in the semifinals of the Mason and Dixon tourney. Allison has won every tournament in the "big time" this year, and has beaten Vines no less than three times. Should the New York Yankee continue at this present gait they will amass a total of 400 home runs this season. The record is 171 and last year Ruth, Gehrig and Co. clouted out 155. In their best year the famous slugging team contributed 158—in 1927.

George W. Elliot, president of the Odessa Bowling Club, announces that a West Texas tournament will be held in his city May 30-31 in connection with the American Legion Rodeo. Entries from as far east as Abilene as far south as San Angelo, and as far west as El Paso made their entry. Elliot is, incidentally, something of an athletic godfather. He is the sponsor of at least three different forms of sports in Odessa, basketball, bowling and tennis.

Local pin crushers should be able to make a good showing in the tournament. R. R. Rambeau, Ward Hall, J. E. Payne, Gus Hepler and others sling mean balls down the runways.

HOW DO YOU LIKE THAT BIG CAKE OF KIRK'S, BOB? IT'S CERTAINLY MARVELOUS FOR SHAMPOO - AND SO ECONOMICAL! JUST LOOK AT IT LATHER, MARY. THAT TELLS THE STORY. AND HOW IT DOES SOFTEN AND GET THE DIRT! I NEVER USED A SOAP THAT CLEANS SO EASILY. Oceans of lather, quick! What an effort—trying to get clean with ordinary soap! Even after you wash your hands—even after you bathe or shampoo your hair—a dirty, soapy film remains. Ordinary soaps will not remove that dirty film—especially if the water is the least bit hard! That's why thousands of families are turning to Kirk's Coco Hardwater Castile. Try it today—for hands, for bath, for a wonderful shampoo. You'll be amazed at the difference. Handfuls of foamy lather, instantly. Hard-working lather that quickly softens and loosens that grimy film. Quick-rinsing lather that washes it away completely, leaving skin and hair as fresh and clean as a spring morning. You can't get really clean in this hard water without it. Body odor vanishes like magic. Made from 100% pure coconut oil, Kirk's Castile makes instant lather—even in water hard as the hardest... even in water cold as ice. And what a saving! Of the four leading toilet soaps Kirk's is half again larger, half again heavier. Yet the price is the same! There are many imitations; so be sure to ask for Kirk's by name. Largest Soap Makers in America. Quality at a Bargain 3 for 25c. Even the costliest imported toilet soap couldn't give you more pure lather than you get from a large-size cake of Kirk's Coco Castile. Mild and deep-lathering, it lathers instantly, in hard or soft water, because it's made from 100 Per Cent Pure Coconut Oil.
