It Was Shutout Time At Dusty Diamond As Fleweller Service Stations' Team Beat Treasury

Fleweller's Service Station baseball team moved out of the lower bracket Friday afternoon to plaster a 8 to 0 defeat on the pace setting Bankers.

Joe C. Ernest topped the shutout of the league leaders, receiving excellent support from the other eight. Crouch, although receiving extremely poor support, was slashed hard by the Fleweller crew. He gave up ten hits during the contest. Seven errors were made behind him. The blunders were responsible for the enlarged tally. On the other hand, W. Lawrence whiffed nine men, compared with Ernest's two.

Magnolia And Moody Tied For Lead

In a rather listless and drab affair Magnolia defeated Moody Thursday afternoon to go into a deadlock for leadership in the Oil Belt League. The score was 5-5.

Score by innings: Magnolia 611 053 0-8 9 3; Moody 001 202 0-5 6 4

Box score: AB R H PO A E; Magnolia 4 1 1 1 0 0; Moody 4 1 0 3 2 0

Simmons Has American Lead

CHICAGO, May 23 (AP)—The brand of pitching served up in the American League the past week lowered most of the leaders' averages, but Al Simmons, the Athletics' batting star, found it entirely to his liking and had a mark of 428 twenty-seven points better than a week ago, unofficial figures, which include Wednesday's games, revealed today.

The 1930 batting champion of the junior circuit went to bat 32 times in seven games, and hit safely 16 times for a .500 clip, and included four doubles, a triple and a home run in his gathering, along with batting in 10 runs.

THE WATER BUCKET

Those that failed to attend the baseball game Friday afternoon (and there were plenty who did) missed seeing one game in which there was no adverse barking at the umpire. Ivis R. Harris, the manager and generalissimo of the C. P. Wacker store of this city, was the arbiter for the day, and if the opinion of this department is worth an iota or an atom, he was the best ever to walk through the portals of Old Dusty. Harris, before he migrated to West Texas in general and Big Spring in particular, used to be stationed down in the swamplands. While there he was umpire in the Texas-Louisiana League, and served for a time in the Cotton States loop. He called a perfect game Friday, and no fuss saw it. That is none but Robert L. Baber, the left hander, who kept trying to kid himself into believing that it really wasn't time for him to go home and turn the ice cream freezer for his household.

It might be said that Friday's game was rather an interesting affair, in spite of the top heavy tally. The Bankers, it is true, were crippled in that several of the regulars were A.V.O.L. Neither Williamson nor Payne appeared at the plot and Fetty had to catch. He did his best, but he got upon Crouch's nerves. Yes, W. Lawrence Crouch has nerves. He couldn't catch the boy like Williamson or Payne can. Nesbitt was out of the lineup, as was Harris and Samuel Sait. But despite these matters the game was interesting from the standpoint of one never knowing what was going to happen next. Fleweller's regular second baseman, Paul, also was absent, and Lefty Robbie Putter had to fill the bill. He did it rather admirably.

While speaking of the City League, it might be said that it is tottering around on its final limbs. Things—take it from this department—are in a bad way. A baseball league of any kind is a business, first; a pleasure after that. When more goes out than comes in, then the voluntary bankrupt exit is the safest, and best. Such is the case. Things got so bad that a brilliant mind figured out that the reason the fans wouldn't turn out to the games was because the grandstand was dirty. So a hurried call was sent out for a professional grandstand sweeper. He swept same and a sandstorm came up and blew it all back, with a bit more added. Some wanted to lower the price, but at the present one male can bring his wife, his mother-in-law, his sister and her children, and someone else's wife for twenty-five cents. What a bargain! and look at the fun you have.

This afternoon the Mexican Tigers and the Bankers will meet at 4 o'clock. It will be possible for one to obtain a seat at 2.30 o'clock, and see the athletic encounter. The left field fence will be thrown open to the fence riders at any time from 9 o'clock in the morning until Tuesday.

Life Magazine has launched a campaign against the new golf ball. The campaign will be intense. Annual Tournament of Big Spring Tennis Club To Be Held June 7-9

The opening dates for the annual Big Spring Tennis club tournament, restricted to local players and a few invited racketeers, have been set as June 7, 8, and 9. In the past awards will be given in both senior and junior divisions. Matches can be played to suit the convenience of the players, the only requirement being that the finals be reached by Sunday, June 9th.

Eligibility rules are simple. Anyone living in Big Spring or that receives an invitation is eligible. There is no limit to senior competition in either color or sex, but only players under 19 years of age, the national eligibility standard, can enter junior competition. It is not possible that the tournament will be graced by a single defending champion. Rayborn Brown, senior singles titlist, is now living in Gladewater, and Curtis Bishop, junior champion, has announced that he will not enter the younger division though he is eligible for a fourth title.

Some twenty odd racketeers are expected to vie for the various championships. Bishop finalist last year, is the logical favorite, but by no means considered as the probable winner. Seeded players will probably be drawn from Wayne Matthews, Walter Beall, and H. B. Dunnagan, Tommy Hutto, high school captain last year, is expected to make a great bid for both the senior and junior championships as is Joe Davis, another high school product.

Other local players who are expected to enter are Berry Duff, Ben Anthony, Ben West, Harold Harvey, Harry Jordan, Milburn Barnett, Joe Allan Davidson, Dwight Heblson, Pat Beall and Winista Manuel. An entrance fee of \$1 will cover play in both singles and doubles in either division. Players are asked to register early through either H. B. Dunnagan or the sports department of the Herald.

Fleweller And Tigers Meet Today

The afternoon's program at the city baseball park will consist of a ball between the Mexican Tigers and the Bankers, the two leading candidates for City League laurels.

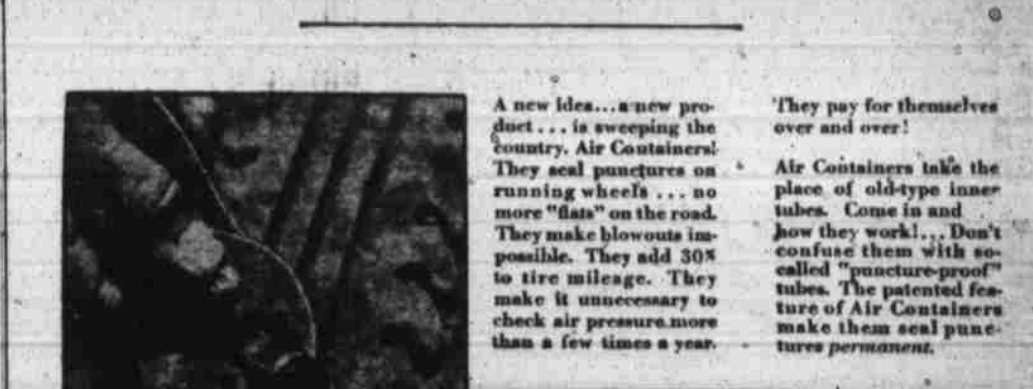

The Bankers, crippled by the absence of several players, were plugged Friday afternoon by Fleweller's baseball club. The Tigers are easily recognized as one of the hardest clubs in the loop to conquer. The game will start at 4 o'clock. The schedule for the week calls for Fleweller and Coahoma to play Tuesday, Fleweller and Tigers, Wednesday, and Bankers and Coahoma, today.

Will Rogers Indulges In Outburst Of Adjectives to Relate Wonders He Discovered In Carlsbad Cavern

By WILL ROGERS

Well all I know is just what I see and say, Brothers. I have seen something right here lately. Couple of weeks ago I was prowling around, My Wife and I, trying to scare up something new to see. We have hummed around over quite a mess of these United States and fragments of Europe, so just any little thing would make much of a dent on us. But we sure did run into something that knocked us back on our reserve supply of astonishment.

If you was looking for unusual and new things to see you would naturally look up, or ahead would you? You wouldn't be walking along with your head down expecting to see anything astonishing down around your hoofs would you? No you would be looking for Al Smith's Skyscraper, the tallest building in the World, the one he built so he could look down on the Republicans. Its big enough to hold all the Democrats and give each a different room so they can meet and disagree.

Course if you had never been around America much and started out to see the sights of it, due to past advertising you would perhaps head for Niagara Falls if you could dig up a new wife to take along, or the Grand Canyon, or the Yellowstone Park, or the great Virginia Natural Bridge. Now all of these are everything they are cracked up to be, and no one should miss em. But we got a new wonder in our Country. Its sprung up in the last few years, and the most astonishing thing about it, its not a thing but a hole in the ground. Now off hand that dont seem much to get excited about does it? Well I didnt know there was so much underground. We think the ground is just practically filled with dirt. But here is a place where there is a hole in the dirt, the dirt is pushed back and there is the most wonderful sights in this vacuum you ever saw.

Its down in the South eastern part of New Mexico, at Carlsbad, a mighty pretty little town, a regular Oasis on what is sometimes almost a Desert. Its on the Pecos River. I was through the place years ago when they used to call it Eddy, and it was a good Town even named Eddy, but its got some water there that will cure you of a

lot of minor ailments. Course you not to go to Claremore, Oklahoma. That's the place I'll not will keep you right out of the Obituary column. But this old time Kiddy will help you a lot. Well it dont look like a place that if a fellow was searching for another wonder to add to the World, he would head for. There is not much to give you any indication that you are prowling around, over some of the most fantastic formations that were ever opened up to the gaze of man. Its just a rocky old hillside, not even too much grass. But its in a Cow Country, and many years ago the old Timers used to know it was there as the Bats would fly out of there by the thousands. Well any where a Bat comes forging out of a particular fair minded person is going to go prowling in the hole to see what made the Bat come out. But finally on many come out they knew there must be a prettys big hole in order to hold all of em its got a pretty big sized entrance and always did have them say, so and really discovering it wasnt any great effort on anyones part that happened to be riding in that end of the State.

It wasnt the finding of the hole that was the going inside and seeing why it was there, was the main thing. A Cowpuncher named White with more curiosity than any one I ever come in contact with, (for they are generally mighty leary of any hole in the ground) is supposed to really have been the one to go in there and discover that while there was Bats off in one end, in other parts there was the most unbelievable formations of water turned to stone. You really prowl around in there by well formed trails for over five miles. There is rooms in there with a ceiling of 400 feet. One tremendous room is almost a mile long. With all these marvelous formations of Stalactites, and Stalagmites, Thems big words, but I know what they mean now. One is like an icicle formed from the top by the water dripping, (thats the Tite one) and the Mite one is formed by the water falling on it and building it from the ground up. They hang like Church steeples upside down. They form Totem poles and Elephant ears, (exactly the shape and thinness of an actual Elephant ear).

DIFFERENT rooms have different formations. Oh I aint got room to tell you in here what its like. I would have to be writing a book to do it properly. The government has taken it over, and formed it like our other National Parks. Its mighty well handled, and you are splendidly conducted through it by a fine bunch of trained Park Rangers. Tom Baker is the General Superintendent, comes from Arkansas and knew my Wife years ago. She didnt see half of it for gossiping about some old "Nesters" back home. You walk down now, but they are putting in Elevators. And I made the first trip down in a Basket, (as they got the hole cut through the day I was there). They bored from the top, and also from the bottom. Its seven hundred feet down, and they met in the middle, and the Engineers calculation was off a quarter of an inch. A Mr. Atwell, he was practically broken hearted to think he had failed so dismally. He is a fine Engineer and if this quarter of an inch dont ruin him some day might be President.

A Ranger named Carol Miller does a lot of the exploring, and he was itching to break away from us and go see if he couldnt find a part of the cave that would be worthwhile. You have lunch down there in a little ante-room five hours just leisurely time to see it. Every move of a few feet is an entirely different picture. So dont you miss this. You will all be coming to California to get in the Movies, so come by there. Good roads, and if it dont drag some adjectives out of you, why send me the Bill.

THE NEW OLDSMOBILE IS FASTER · · SMOOTHER MORE BEAUTIFUL AND LOWER IN PRICE

There are several good reasons why the new Oldsmobile will appeal to you as a soundly designed, sturdily built, and thoroughly capable car.

First, it is unusually fast—in both getaway and top speed. It goes swiftly out front in traffic... holds a lead on the road... and is always smooth and quiet.

Credit for this finer performance goes directly to several new Oldsmobile features. Chief among these is new downward-draft carburetion... the source of greater power, increased smoothness, and higher efficiency. Important, too, is a new carburetor-silencer, which contributes to quieter operation at all driving speeds.

This finer performance is the more pleasing because of the remarkable ease of control that goes with it. Oldsmobile's new Syncro-Mesh transmission—a feature heretofore found only in higher priced cars—eliminates gear clashing. And a new Quiet Second Gear, added to Oldsmobile's Syncro-Mesh transmission, assures smooth, swift acceleration which rivals high gear performance in quietness.

You will find as you drive the new Oldsmobile, that its finer performance and ease of control bring new pleasure to motoring. But you will find pleasure, too, in the new grace and beauty which have been added to its distinctive appearance. Refinements in design give special emphasis to Oldsmobile's long, low, fleet-looking lines. And smart new tailoring and appointments add to the attractiveness of its new Fisher body interiors.

Such, in brief, is the new Oldsmobile for 1931... a fine car made still finer... faster, smoother, more beautiful... and lower in price!

Teachers Scatter All Over The State at the Close of School to Rest and to Study

Many Plan to Go Out of Texas; Most Big Spring Residents Will Spend their Summer in the Cool and Breezy West Texas

With the close of the school year, which ended officially Friday, the annual exodus of the teachers has commenced. Many of them are planning to attend summer school sessions in various parts of Texas. A few are planning to go out of the state, cool Colorado claiming the most of those. Most of the teachers whose homes are in Big Spring find it pleasant enough to consider remaining here all summer. North Ward has the largest percentage of teachers going off to study—more than 50 per cent.

Of the high school faculty, commencing with the superintendent of schools, W. C. Blankenship, it was learned that he hopes to put in the last six weeks of the summer in S. M. U. in Dallas, if he can make it. The principal, George Gentry, and Mrs. Gentry have already left for Austin; they intend to study at the University of Texas.

Future Citizens

Miss Verda Ruth Grafton plans to go to Boulder to the summer session of the University of Colorado. So will Miss May McKillop. The following will remain in Big Spring: Mrs. H. A. Stegner, Frank Roper, Miss Ethel Vandagriff, Miss Clara Pool, Mrs. W. O. Low and Bill Stevens, who will divide his time between baseball in this city and in Lubbock.

There is no Health Like That Following A Long Illness

The greatest nation the world has ever seen has, for the past few years, been undergoing an economic adjustment. It has at times seemed rather discouraging... it has worked hardships on many... but now the tide is turning... the way may be hard, but it is ever upward.

We have attempted, in our small way, to help this part of that Nation... we have lowered our prices on quality merchandise... we have given the same service... and we are continuing to do so.

Let us all work harmoniously toward that same goal of good health, and our road to... erily for all will be considerably shortened.

JOAN CRAWFORD STARS IN PICTURE AT RITZ

Role In Play Made to Order For Actress

'Dance Fools, Dance,' Also Presents Lester Vail, Cliff Edwards

"Dance Fools, Dance" which will open today at the Ritz Theatre for a three-day engagement, is Metro-Goldwyn-Mayer's latest talking picture starring Joan Crawford.

The story, with a Chicago locale, principally concerns the underworld and newspaper life of the metropolis. It is an original by Aurora Rouverol with screen continuity by Richard Schweizer.

Harry Beaumont, who brought Miss Crawford to stardom in "Our Dancing Daughters," and recently added to this triumph with "Our Blushing Brides," again directed.

Lester Vail, a newcomer to the screen who recently made his debut in "Beau Ideal," is Miss Crawford's leading man in her new picture, and the supporting cast includes such film favorites as Cliff Edwards, William Bakewell, William Holden, Clark Gable, Earl Foxe, Purnell B. Pratt, Hale Hammon, Naida A. Moorhead, Joan Marsh and Russell Hopton.

Perhaps outstanding in the spectacular episodes is a nocturnal lingerie swimming party staged during the opening scenes. In this, scores of dancing damsels strip to unmentionables and dive overboard with their boy friends.

The story, despite lavish touches, is an intensely dramatic one, the plot motivated by murder on a wholesale scale. It is a daring theme from the society angle and a still more daring one from the viewpoint of exposing crime and racketeering. There is a wealth of newspaper atmosphere, realistically supplied.

Miss Crawford plays the part of a society girl, reduced to poverty, who turns to newspaper work for a livelihood. In her hunt for the gangster killers of another reporter, she discovers her own brother to have been involved in the brutal crime. The climax comes when she decides to give her brother up.

The settings are splendidly done and add vastly to the realism that

'Tarnished Lady' On Ritz Bill

Lester Vail and Joan Crawford are seen here in "Dance Fools, Dance," coming to the Ritz today, Monday and Tuesday.

strikes so predominant a note. The costumes by Gilbert Adrian strike new heights in splendor, Miss Crawford having fourteen different changes in the picture.

'Phantom Of The Desert' Saturday Western At Queen

Plenty of action and marvelous photography are features of the new Syndicate Pictures' talking western, "Phantom of the Desert," featuring Jack Perrin and his horse, "Starlight," which will be the feature attraction Friday and Saturday at the Queen.

Yon no doubt remember Jack Perrin in "Beyond the Glorious" and "Overland Bound." His clean-cut and winning personality is the chief nucleus around which his pictures move—that of a young westerner who loves the majestic mountains and rugged existence of his native west more than all the luxuries the east can offer.

Perrin wins added laurels by his portrayal of the role of Jack Saunders in "Phantom of the Desert," produced and directed by Harry Webb for Syndicate release, and we think you will like this picture more than any previous Perrin picture. You will also marvel at the intelligence of his horse, "Starlight," which does some mighty clever work in this picture.

Air Comedy On Week's Slate

Osa Munson Makes Debut In 'Going Wild'; Here Friday

The greatest comedy cast of the year was assembled for "Going Wild," the First National and Vitaphone production which comes to the Ritz Theatre on Friday and Saturday.

One comedian is usually enough in a picture, but First National has been generous and provided half a dozen.

Joe E. Brown, who has become the foremost comedian in pictures since the advent of the talkies, leads the list as the star of the production, and is credited with having given a funnier performance than he did in the comedy riot, "Top Speed."

Frank McHugh, who caused plenty of laughs in "Bright Lights," "The Boss of the Legion," "Dawn Patrol," "The Whirl from Chicago," and "Top Speed," plays a highly entertaining part as an inebriate (ten dollar word for a drunk) in "Going Wild."

Laura Lee, who made her debut in "Top Speed," also plays the feminine comedy lead in "Going Wild."

A newcomer, from the New York musical comedy stage, is Osa Munson, who is not only beautiful but has one of the best singing voices in pictures. She is well trained as a comedienne because Eddie Buzzell is her husband.

Walter Pidgeon, whose performance have all been praised, wisely, plays the role of Brown's rival aviator in this picture, while Lawrence Gray, Gloria Swanson's leading man in a number of pictures, plays opposite Miss Munson. Johnny Arthur is also in it, as are Fred Kelsey, Sam Cantor, Mae Holly, and many others of comedy note. William A. Seiter, who was responsible for many of Collier Moore's greatest successes, directed the picture.

Ronald Colman's Latest Picture At Queen Monday

The Queen Theatre will present on Monday and Tuesday Ronald Colman's latest talking picture, said to be in a vein new to the star, which bears the title "The Devil To Pay." It is an original screen story and dialogue by the famous English dramatist, Frederick Lonsdale, well known on the side of the Atlantic for his numerous stage successes, "Aren't We All?", "Spring Cleaning," "The Last of Mrs. Cheyne," and others. Though several of the Lonsdale pieces have been adapted for the screen, "The Devil To Pay" is his first attempt at writing directly for screen production.

The picture, described as a sophisticated comedy drama in the modern manner, has to do with the life and loves of Willie Legrand, played by Ronald Colman, wayward son of a wealthy and unsympathetic British peer who, in an effort to make something of his adventurous son, gives him a start in South Africa. The story opens with Willie despatched with his exile and longing for the lights of London, auctioning his belongings to obtain money enough for a passage home. Never having experienced real love, he decides that he will marry a wealthy girl and settle down, independent of his father. Arriving in London with twenty pounds in his pocket, he spends it all in buying a dog, and in taking an actress, an acquaintance of former years, to dinner.

Next morning he meets his fate—falling deeply in love—and with an actress, played by Loretta Young. Marrying for money, an marrying one he loves who has money, are viewed by Willie as irreconcilable. The dialogue is bright witty and sparkling in the true Lonsdale manner, and the part of Willie was especially written to fit the engaging Colman personality.

Tallulah Bankhead Smart-World Manner Personified In Feature At Ritz for Wednesday and Thursday

Tallulah Bankhead, herself, is the chief characteristic of its setting in luxury. It deals with luxurious people used to gorgeous clothes, the Bankhead manner, the smart-world manner, a manner which takes place in the haunts and homes of America's "400." But the richness is not overdone. "Tarnished Lady" is in constant grip with the realities. It is always real and convincing, as well as sharp and sparkling.

It is a real treat to hear Tallulah Bankhead's incisive wit in conjunction with Stewart's brittle dialog. If you thought "Laughter" did justice to that playwright's sparkling lines—you'll be surprised when you hear Miss Bankhead handle them. An added assurance of real and unique entertainment in "Tarnished Lady," was present in the name of the director, George Cukor. Cukor, you will remember, directed "Red-Headed Boy" for Broadway, one of the most highly-spiced of this season's photoplays. Well, "Tarnished Lady" has it beaten. You'll say so!

NO FIRE ALARMS
SNYDER, May 22, (AP)—For the second month this year, Snyder went through April without a single fire alarm. There were 26 alarms in February, the second time in five years.

Mrs. D. Phillip, who has been visiting her son, Shine, left yesterday to visit her daughter, Mrs. Ben Rowell, in El Paso.

Phil De C. Ball, owner of the St. Louis Browns, recently was appointed a member of the St. Louis wealth to direct poverty, and back aviation committee.

'Going Wild'

Above are presented Joe E. Brown, the laugh-maker with the big mouth, who will appear at the Ritz Friday and Saturday in "Going Wild." His co-star is Osa Munson, shown below, who is making her screen debut in this picture.

The Lady Refuses Bills For Queen, Is Actual Life Story

One of the most forceful human dramas on the screen today has been taken from life by Guy Bolton and Robert Milton. The character in it is said to be real.

During a visit to England some years ago they were sitting in a theater with a party of friends when their host called their attention to a beautiful woman occupying an upper box with a tilted gentleman.

During the entire evening the host referred to the lady in the box finally after the show, he invited Bolton and Milton to his club.

Bares His Story
After passing a pleasant half hour their host turned to them and said, "Surely you must think my actions this evening rather unusual."

Bolton remarked that he had noticed anything particularly unusual.

Their host insisted, however, that he was not quite himself and felt that an explanation was due.

He also remarked that he thought this an excellent time to tell a story that he had carried within himself for a number of years and since Bolton and Milton were Americans and wouldn't know any of the principals he felt safe in telling it to them.

They listened attentively for nearly two hours to one of the most amazing tales they had ever heard.

Writes For Screen
Bolton, recalling the motion picture value of the story, asked permission to write it as a screen story and after promising not to use the right names of the principals, was given permission.

The story, true to life, and really stranger than fiction, is coming to the Queen theater Wednesday and Thursday under the title of "The Lady Refuses."

Homer McNew is on a business trip in Dallas. He expects to return Sunday.

 On Friday afternoon Mrs. J. M. Lee, formerly Miss Elsie Duff and Dorothy Vandarriff, entertained with a high class affair at the Settles Hotel in honor of Carmen Compton, who is moving away. The honoree was given a handkerchief shower. High score went to Miss Wingo. Those present were Carmen Compton, Pauline Melton, Pauline Morrison, Jennie Dorine Rogers, Eula Moore, Rosemary Duff, Dorothy Driver, Gene Dubberly, Edythe Ford and Miss Wingo.
 On Friday evening the club members went to Moss Springs and camped out for the night, eating supper and breakfast out there. Those who went were Miss Kitty Wingo, Edythe Ford, Pauline Melton, Dorothy Vandarriff, Pauline Morrison, Gene Dubberly, Rosemary Duff, Elsie Duff, Eula Moore, Jennie Dorine Rogers.
 Last night Jennie Dorine Rogers and Pauline Morrison gave a treasure hunt for the members and their boy friends, honoring Carmen Compton.

Government Has Extensive Murder Probe On Its Hands

CLAYTON, N. M., May 23 (AP)—Efforts of federal authorities to recover the body of Ray Sutton, slain prohibition officer, and to bring justice his slayers threaten to become one of the most extensive murder investigations ever conducted by the government.
 The quest for Sutton's slayers and the search for his body have been pursued relentlessly since he disappeared from Raton, N. M., August 28. The only trace that has been found since Sutton disappeared was his blood-stained car in an arroyo last October.
 A large part of the mountainous area in northern New Mexico was searched by ruses and officers soon after the prohibition officer was reported missing. Then the search widened. Arrests for the slaying were made in Trinidad, Colo., Oklahoma City and other cities of the southwest, but no one is now being held in connection with the death.
 The government has now started a more detailed search, while the man hunt continues. Numerous abandoned mine shafts, down any of which officers believe the slain man's body might have been thrown, will be searched, and lakes

in the vicinity of where the car was found will be drained.
 One of the lakes has been drained, and the second—Kochler lake, the largest of the group—was being drained when recent rains began filling the lake faster than it was being lowered. This lake covers 37 acres and was about 27-feet deep when the pumping began. It is a surplus lake for the Santa Fe.
 Officers are prepared to identify the body by dental work.

Shelby County Has Oil Tests

NACODDICHES, May 23 (AP)—Across the Attyzac river in Shelby county, many tests are in progress for oil. These tests are covering the county in a very general way, most of the work being developed from the idea that the big pool in Rusk county may extend into and across Shelby county.
 These oil tests, have a historic setting. All are on the famous ground once made red by the Regulator and Moderator organization way back in 1846.
 The original county seat was Shelbyville, and even the original name of Shelbyville was "Knox

villes." These names indicated of course that the early settlers were from Tennessee. Shelbyville was named in honor of General Isaac Shelby of Kentucky.
 It was in and around Shelbyville that the Moderators and Regulators fought out their feuds. In 1846 and previous to that time a certain lawless element caused a great deal of trouble in Shelby county.
 So troublesome did this element which consisted of thievery, arson and murder become that a band of well meaning citizens organized and called themselves "Regulators," their intentions being to drive out of the county the evil doers. The work proceeded very well for a while, but finally personal spite and revenge got into the organization and many tragedies were staged. To curb this state of affairs, another organization was formed and called "The Moderators" whose duty was to curb the spirit of the "Regulators."
 Then civil war developed rapidly. Murder and rapine threw the whole country into a state of discord. The "Free State of Tenaha" was organized and the Republic of Texas defied.
 President Sam Houston sent General Smith to the scene of the trouble with several hundred soldiers and followed on himself.
 He met the leaders of both factions in Shelbyville, and informed them the trouble would have to cease at once—peacefully if possible, by force if necessary. The

result was the men of both factions just quit. It is in this old town laid down their arms and Moderator country went home and the matter drop that oil excitement is now at its end. Nobody was ever tried. The height—in Shelby county.

The ELIZABETH ARDEN method—which keeps your skin healthy—will keep it lovely too

NO CREAM transforms the skin. But scientific care, which encourages swift circulation through the tissues and keeps the skin cells vividly healthy, will make your skin clear, soft and firm. This is the foundation of the Elizabeth Arden method. Cleansing the skin—with Elizabeth Arden's Venetian Cleansing Cream—removes impurities which clog the pores and cause blackheads. Brisk patting—with Arden's Skin Foam and Special Astringent—tones the skin and firms the contours. Nourishing—with Orange Skin Food or the delicate Valsa Cream—fills out the skin cells and so corrects lines and wrinkles. Follow this same method in the care of your skin at home.

Elizabeth Arden's Venetian Toilet Preparations are on sale at

111 East Second **CUNNINGHAM AND PHILIPS** Douglass Hotel Bldg. 217 Main St. Settles Hotel Bldg.
