## L. C. Hightower Shot by His Wife.

Last Sunday night about eight o'clock L. C. Hightower living near town was shot by his wife at the home of Sloan Hightower, his brother. A pistol was used and the man was shot just as he burst in a door and while he was in a stooping posture, the ball entering just below the right nipple and coming out above the outer point of the right hip. The wound is serious but not necessarily fatal. The physician attending him reports at the hour of going to press that the chances are in favor of his recovery unless some complication supervenes.

The cause of the shooting lay in a family trouble between Hightower and his wife on the preceding Friday night, when she took her two youngest children and went to the home of Sloan Hightower. Hightower was in town Sunday drinking rather heavily, and about 8 o'clock he went to the home of his brother and demanded to see his wife, and upon her refusal to see him, he burst in the door of the room where she was, when she shot him as above described. Mrs. Hightower was not arrested.

## A Good Report.

The annual meeting of the Sweetwater Baptist Association meets today in Abilene and will continue in session till next Sunday. The following members will represent the Baptist church of this city: Rev. Holmes Nichols, Dr. W. C. Neal, Earnest Keathly, Robt. M. Webb, H. F. Wheeler and Mike Ratliff, while the Ladies Aid society will be represented by Mesdames Hooper and Webb.

Pastor Holmes Nichols has been here three years as pastor, his call to the same being indefinite and the statistical report from the church to the association at Abilene is the best of the three annual reports of his pastorate. Not many churches will surpass the splendid record of the Baptist church of this city, as evinced in the following, which report was enthusiastically adopted last Wednesday night during a business session of the church:

Home church expenses, including pastor's salary, \$2,233.90; to missions, including State, Home, Associational and Foreign, \$572.55; to Ministerial Education, \$135; to Buckner Orphans' Home, \$279.64, making the total contribution of this church, which has only 198 members, for the Association Year just past, \$3,221.09.

The net gain to the church this year was eighteen members and the contributions to different missions and schools were never as large in the history of the church.

In speaking last night to this report, Bro. Nichols said that he was well pleased with this year's work, that the Ladies Aid society and the little mission band had contributed largely to the contributions reported above, while there had been several accessions by baptism from the Sabbath School. In speaking of the recent revival in the church, he said that he had received six members by baptism since the close of the meeting and that he believed that fruit would be reaped yet in the days to come from the united efforts of the Christian people of Colorado in this special effort in religious work. Brother Nichols also spoke of the fraternal feeling existing between the different denominations of our city, stating that they aided greatly in the recent meeting, and that he and his people were under lasting obligations to the different choirs of the city and to Miss Grace Homan, who so faithfully presided at the piano during the meeting for their services. He also stated that he begins the new associational year hopeful and happy.

## Card of Thanks.

We wish to thank our friends and neighbors for their kindness and untiring assistance during the last illness of our mother and grandmother. Especially the ladies of the Mission Societies for the tenderness and love shown during her illness and for the beautiful flowers.

Mr. & Mrs. M. A. Churchill,  
 Mrs. Vera C. Smothers.

G. W. Mosher, the piano man, is a hustler. He has by his energy and thorough-going ways built up a fine business in his piano business. He has a dozen different lines but his chief line is done in pianos. He has bought the W. T. Smith store and a tip-top piano wagon and now sings his syren song in upper C.

## COLORADO'S LARGEST STORE.

### The Colorado Mercantile Company Enlarges Their Business.

Considering the length of time they have been in business, no firm in the same line has built up such a trade as Colorado Mercantile Company or more firmly established itself in the confidence of the buying public. By uniform square dealing and the extension of every courtesy consistent with sound and safe business methods this company rapidly forged to the front rank in business circles. With a stock already large and complete, a decided coup was made in taking over the entire stock of implements, buggies, surries, hacks and harness of A. S. Henry, which places them almost beyond competition in these several lines. Having the agency already of such standard wagons as the Studebaker and Laudinghaus, they are now further fortified with the famous Peter Schuttler wagon, than which no better is made.

The line of Studebaker, Haney and Fuller buggies, surries and hacks carried by this house offers the widest range for selection. Fastidious indeed must one be who can not have his fancy pleased among so many handsome vehicles. In harness they have the largest and best display ever seen in Colorado. Single, double, high and low price, but all good.

Their hardware and implement lines are not surpassed in west Texas. Every need of the builder and farmer can be supplied. They invite the public to drop in and examine their stock and get their prices, whether intending to buy or not.

The grocery department of this house has been its special pride. Everything you ever thought of and a great many you never thought of, they have to eat. The wherewithal for the inner man's refreshing is here in tempting abundance. Their staple and fancy lines cover the entire range of edible commodities and palate of the epicure and digestion of the gastronomiac must be jaded beyond hope, which cannot be stimulated by the plenitude of good thing to be found here.

The solid proportions to which the business of the Colorado Mercantile Company has been built do not depend alone upon policy and methods. These could be carried out by any ordinarily intelligent and careful business man. There has been another force, the personal element, that has contributed largely to its growth and success. The executive force, from the genial general manager, W. W. Grossdown are men of much personal popularity and efficiency. Andrew Cooksey, Alvin Clark, Ed Gouddy and D. C. McRea are all well known to the buying public and each enjoys the confidence of a host of friends. Hence, the popularity of the Colorado Mercantile Company is easily accounted for. The Record takes pleasure in publicly commending this excellent establishment to the most favorable consideration of all.

Those who figured that drouths would never come again in west Texas are sorely disappointed. Don't get discouraged, most of the state is almost as dry as this part. The drouth has hit the land and town lot boomers in west Texas hard and the lesson will be of value. Lands and town property were going skyward in price without sufficient cause. A drouth will knock the enthusiasm out of a tenderfoot quicker than anything else but they are needed occasionally out here or land would go to a thousand dollars an acre. With never failing seasons the people of west Texas would get so all-fired uppity that they would be insufferable. We have got the best country on earth, drouth or no drouth. Callahan county has suffered less perhaps than counties west of us because lands and town lots, with one exception, have not been boomed up beyond their real value. It don't pay to boom things too much.—Bird Star.

## Easy to Mix This.

What will appear very interesting to many people here is the article taken from a New York daily paper, giving a simple prescription, as formulated by a noted authority, who claims that he has found a positive remedy to cure almost any case of backache, kidney or bladder derangement in the following simple prescription, if taken before the stage of Bright's disease:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

A well known druggist here at home when asked regarding this prescription stated that the ingredients are all harmless and can be obtained at a small cost from any good prescription pharmacy, or the mixture would be put up if asked to do so. He further stated that while this prescription is often prescribed in rheumatic afflictions with splendid results, he could see no reason why it would not be a splendid remedy for kidney and urinary trouble and backache, as it has a peculiar action upon the kidney structure, cleansing these most important organs and helping them to sift and filter from the blood the foul acids and waste matter which cause sickness and suffering. Those of our readers who suffer can make no mistake in giving it a trial.

H. S. Strain left Wednesday for Colorado City. Mrs. Strain and little daughter accompanied him to Dallas.—Lancaster Herald.

Mr. Strain arrived in Colorado last Saturday, coming here to accept a position with the Colorado Drug Co. For years Mr. Strain conducted a very prosperous drug business at Lancaster, selling out only because the condition of his health prompted him to seek a different climate. He is a thoroughly competent and experienced druggist, a courteous and reliable business man, who will be a valuable acquisition to the already efficient working force of Colorado's leading pharmacy. Socially and in church work, Mr. Strain will prove an equally desirable addition to the citizenship of our town. The Colorado Drug company takes pleasure in commending Mr. Strain to the public in general and to its friends and customers in particular, as in every way worthy of their highest confidence. The Record extends to Mr. Strain a cordial welcome on behalf of its constituency.

**THE COMMERCIAL CLUB MEETS**

**CIVIC IMPROVEMENT DISCUSSED AND ACTION TAKEN. CLUB NOTES.**

The Colorado Commercial Club met in special session last Friday night with a good attendance and important questions were discussed. The prime object of the meeting was to take some steps looking to the erection of a more commodious depot and platform as well as secure more trackage in the yards.

After considerable discussion had brought out the situation as it really exists, a strong resolution with preamble was unanimously adopted asking the Texas Railroad Commission at Austin to come to our relief and compel the Texas & Pacific Railway to make the needed improvements, whereupon, Ed W. Smith attorney for the road, addressed the meeting. He had wired the general attorney of the road at Dallas whose office adjoins that of general freight manager, L. S. Thorne, advising them of the meeting and asking for instructions and information. They wired back the same old story; admitting that Colorado needed the improvements and promised to make them soon as possible. Mr. Smith talked at some length along these lines favoring the road, believing they would build here just as soon as they could get to it. The Club however, decided in view of the indefinite promises with which every prayer for better facilities is met, to send President Henry to Austin fortified with the facts and go before the Commission to urge that immediate steps be taken to afford us relief.

The hotel question recurred in the course of the order of business. The special committee reported that they had nothing of a favorable nature to say of the hotel situation as it still existed in Colorado and asked for further instruction; whereupon they were instructed to advertise in the Dallas News for a man to come and build a new hotel, and if the proper person is secured, the town will give him a bonus.

The Club is taking a strong hold on the interests of the town and much good will surely result to every individual citizen of Colorado. The members are waking up to the importance of its efforts and taking a more active interest in the meetings. Earnest Keathley reports many new members and the monthly collections now amount to nearly \$100.

Five hundred of the Mitchell county folders have been sent to the Jamestown Exposition for distribution. Farmers and all other classes of citizens are sending out these folders all over the country. The first edition of ten thousand will soon be exhausted. If you want to realize how earnestly the Club is working for the betterment of conditions, attend the meetings.

The following letter to Secretary Thomas, explains itself: Roscoe, Sept. 23, '07.

Dear Sir: The writer with Mr. A. M. Daniel of Abilene and C. L. Noll (chairman) of Hamlin, are a committee appointed by the Central West Texas Association of Commercial Club to collect and display at the Dallas Fair the best specimens of the various products of the soil, in the Central West Texas territory. We have secured (free of charge) a place in the exhibit building for the products. Would like for you to take immediate steps along this line and get together the best specimens of whatever you think will best advertise our country at the Dallas Fair.

The Roscoe commercial club is offering a year's subscription to the Roscoe Times for the best specimens of the various kinds of produce raised in Nolan county. Let us hear from you soon

as possible as we have lost much valuable time already.

Respectfully,  
W. W. WOOD.

**REDUCED RATE TO COLORADO MEETING SECURED.**

A letter to O. P. Thomas, secretary of the Association from general passenger agent E. P. Turner, Sept. 25th, says: "Referring to your letter of Sept. 23, I take pleasure in advising that we will put on a rate of one and one-third fare for the round trip to Colorado, Texas, for Commercial Club meeting, October 16th, provided we can procure permission of the railroad Com.; tickets to be sold October 15th and 16th with return limit of October 17th.

Please advise us if this is satisfactory that we may make application to the commission for the necessary authority.

The work of the Commercial club in advertising the country is bearing fruit. Already many inquiries have come to persons who have sent folders to friends in other sections. ANOTHER MILESTONE.

Lord, how the whirligig of time goes round! Two years old and the clothes of its ancestors are a snug fit. It seems but yesterday since the Record with the nipple of Hope as its only material support knocked at the door of Colorado patronage and sought a shelter to ply its craft. But other fondlings had aforesaid been cast up by the journalistic sea, and Colorado was an inhospitable port and "there was no room at the inn." But the youngster made room for itself. It has grown apace and waxed strong; shown itself competent and deserving.

For the appreciation of the public, evinced more in patronage than fulsome words, the Record is profoundly grateful and begins its third year with arger plans for public service.

Some of the biggest grafting is done in the western counties where large ranch owners are trying to hold four to eight sections of land with Mexicans and negroes as purchasers. Some of them will be overtaken, for the way of the transgressor is hard. Terrell is now after them. —Comanche Chief.

THIS CONTRACT WITNESSETH: B. N. Garrett, agent for Life, Accident, Health, Fire, Tornado, Windstorm, Live Stock and Travelers' Insurance, has received of \_\_\_\_\_ in payment of Premium for Insurance Policy \_\_\_\_\_ Receipt of which is hereby acknowledge. It is a part of this contract, and a basis upon which this contract for Insurance is made, that the aforementioned B. N. Garrett is to spend an amount equal to the sum herein received for, toward erecting new buildings in Colorado. (Signed) B. N. Garrett, Agent, Colorado.

## B. N. GARRETT, "of course"

and when asked the conditions of the cotton crop in that section said: "The conditions of cotton compare favorably with the rest of the Abilene country, though that is a side issue with the Hawley country. We have a peanut country and the experiments of this year have demonstrated that it is the most profitable crop to be raised on our soil. The new crop is paying the growers from \$50 to \$100 per acre and it is grown with less labor than the cotton. Mr. Hunter recently sold off his 20 acres 1000 bushels for \$865 and the hay brought him about \$15 per acre, thus it will be seen that he made over \$50 per acre. One man can cultivate and take care of 125 to 150 acres in peanuts. The interest in peanut growing has caused land in that section to increase in value and the people of Hawley and vicinity are feeling good. We had a good rain, better than that which fell at Abilene." —Abilene Reporter.

BEG PARDON, BUT--  
If Japan can send those exaggerated fly tracts of her written language through the air by wireless to the main land, as proposed, without creating a cyclone, then the wireless system is a success. —Jones County Talk.  
As "sometimes even good Homer nods," so the wisest can at times be a trifle off the tact. Neither the Japanese nor Chinese language, in fact no language without an alphabet, can be transmitted by telegraph. For telegraphic purposes, ten thousand of the most commonly used Japanese words are numbered from 1 to 10,000; the numbers corresponding to the words of the message are transmitted by the Morse or Phillips code, and translated back into Japanese language at the receiving office. Oh, not at all; don't mention it.  
We received this week a visit from the Hamlin Bulletin, as lusty and sprightly a youngster as belongs to the tribe of West Texas dailies. Call again.  
The Texas cotton crop will be a million bales short of last year's record, but they are saying that at 15 cents it will be a million million miles long. —Atlanta Constitution.

It is doubtful whether the next generation will have any respect for age at all. Speak to or ask a question of the the next score of boys between the ages of 10 and 20 and note how many of them know even how the word "Sir" sounds. The expressions "if you please" and "thank you" are to most of them dead language. They seem to know nothing whatever of the polite amenities of life, and little of filial respect. While our latter day civilization has given us much it has been sadly at the expense of many of the elements that go to make gentleman and gentlewomen. The acquiring that uniform, habit of respectful and kindly civility that differentiates between the cultured and the coarse. Politeness is a more valuable asset than brains alone. Many men of ability have failed, when less able competitors with good breeding have succeeded. If you do not teach your boy or girl politeness at home, you can not expect either to practice it abroad.

### 8856 Acres in Dawson Co.

50 Tracts of 177 acres each--\$300 cash, 8 annual payments of \$139 each, at 8 per cent interest.

# A FARM

## On Easy Terms!

In Dawson County, Texas  
Which is one of the Best Counties on the Lower Plains.

We have decided to subdivide our Two Leagues of Land (8856 Acres) into 50 Farms of 177 Acres Each, and sell the same on the following easy terms: Price \$8.00 Per Acre, \$300 cash, balance in eight equal annual payments, with interest at 8 per cent.

This land lies in the southwest part of Dawson county, about 40 miles from both Stanton and Midland and about 16 miles southwest from Lamesa, the County Site. This land is all susceptible of cultivation, there being but little to do except to go to work with the plow. It is of the Red Sandy Cat Claw kind, the ideal Vegetable, Cotton and Fruit land. Water is found at about 100 feet.

Cotton has been successfully raised in this County for several years. There are no boll weevils found here. There are gins in the County, also at Midland and Stanton.

This year has fully developed the fact that the Red Sandy Land can be counted on to produce even in a dry year.

The owners of this land agree to build a School House at the center of the tract and donate \$150.00 for the first and second years toward supporting a school. By this means a school is guaranteed.

This soil is equal in fertility to land that in Mitchell County, improved, has sold at from \$25.00 to \$30.00 per acre.

We have made these liberal terms in order to enable people with small means to secure for themselves a home. Land in this county that is no better has recently sold at \$8.00 to \$10.00 per acre without the special school advantages we offer.

Those desiring to see this land will be fully instructed as to our plan of showing it on application, to

**LOCALS**

Mrs. Carie Hardin, after a visit here of several weeks to her aunt, Mrs. F. B. Whipkey, left on Tuesday for her home at Granger, Texas. She likes the Colorado country very much and may arrange to move out here.

One of the best chances offered for a home in the west is to be found in the half page advertisement of C. S. Knott and C. Earnest. Look at the plate and read their offer. 177 acre tract for only \$139 a year and eight years to pay it in. See their offer about maintaining a school, and if interested see Judge Earnest or Mr. Knott.

No present would be more appreciated by wife or sweetheart than the Ladies Home Journal. See Mrs. A. L. Whipkey.

O. M. Mitchell went out to the Looney farm Sunday and made a thorough investigation of the conditions of the crop. His estimate of the crop is that it will make from one-fourth to one-third bale per acre for the entire 800 acres. Owing to the fact, he said that the cotton will be picked out this fall for just about one-half the price that obtained last fall, and on a basis of 11 cents, the farmer will realize about \$15 more per bale for his cotton this year than he did last, and as he estimates the volume of the crop as only 25 per cent short of last year, it will put the county as much to the good as did the crop of last year.

Piano boxes at \$2 each while they last, at Mosher's Music Store.

DeWitt's Kidney and Bladder Pills relieve backache, weak kidneys and inflammation of the bladder; sold by W. L. Doss.

Three pre-requisites to successful courting—reflection in the head, affection in the heart and confection in the pocket. You furnish the first two and the Colorado Drug Co. will do the rest. It's Heyler's or Allegretti's, of course.

**That Hotel We Haven't Got.**

Like the ghost of Banquo, the hotel question will not down. Not a day passes but the need of a first class hostelry is not made more apparent. Not a stranger stops in the town but he inquires with surprise why we haven't hotels that comport with the business importance of the town.

There is no one public utility that so favorably and widely advertises a town as first class hotels—first class as to building and service. Poor hotel accommodations drive trade away from a town. As a rule, people who travel have money, and the commercial element of the traveling public usually patronize the best hotels even where the rates are double those of inferior ones.

It is current talk among the drummers, that size and importance considered, Colorado has the poorest hotel facilities of any town between Fort Worth and El Paso. Money spent in advertising the town is well expended, but a few traveling men can say and do more against the town than all the advertising we can do, will counteract. We believe it would pay the Commercial Club to straightway get down to business on this question and either buy or lease the St. James hotel; renovate and refurnish it and give a service that would attract and not repel customers.

Another rain fell yesterday all over the Colorado country, so far as heard from. It was a gracious and magnificent down-pour of several hours duration. One of the greatest nuisances that can afflict a town is the omnivorous, predatory town cow. The habit of prowling around grocery platforms and farmers' wagons, snatching a livelihood between flying rocks and sticks, once formed in a cow, is harder to cure than "stump sucking" in a horse. The only way to break either is to break the brute's neck. Colorado has a few twenty-dollar cows that easily do as much damage in a month as they would bring on foot at the butcher's block. Some of them can climb into a wagon with as much agility as a dog and destroy all they can not consume. They watch the side doors and platforms of the grocery stores as a hawk watches a quail and if one is left open or the other unguarded, "old Pide" gets busy. She is a nuisance, and her abatement would be a material favor to the citizens of the town and farmers as well.

The West Texas Fair to Have Republican Day. Club to be Organized.

The republicans of this district are fixing to organize a live aggressive republican club during the West Texas Fair to be held here Oct. 22 to 26.

A preliminary meeting was held in Abilene Tuesday and a committee consisting of the following gentlemen was appointed to confer with the Fair Directors with reference to arranging a day for their speakers: Messrs J. V. McManus of Baird, J. B. Baker of Haskell, P. A. Hazzard of Colorado, Frank Sterrett of Albany, Geo. A. Sparenburg of Big Springs, Noel J. Albright of Audra and John H. Morrow, who is a grand son of the noted Sam Houston, and is a lawyer.

A call meeting of the Fair directors was held and Saturday, Oct. 26, from 10 a. m. to 1:30 p. m. was set aside for the Republican orators on that occasion.

It is expected that Col. Cecil A. Lyon and Hon. W. H. Atwell will address the people at that time and in addition to these gentlemen, quite a number of equally prominent republicans from different sections of the state will be present.

At 3 o'clock p. m. the republicans will meet in the Elk's club room for organization and it is expected that every county in the good west Texas will have a central representation in this meeting. —Taylor Co. News.

His oldest child was subject to severe attacks of croup, but this remedy never failed to effect a speedy cure. He has recommended it to friends and neighbors and all who have used it say that it is unequalled for croup and whooping cough. For sale by W. L. Doss.

**The Average Rainfall.**

The Big Springs Herald says: The rainfall Thursday was 1.20 inches which makes the rainfall so far this year a little over 9 in., which is about the same as in 1903. About 20 1/2 inches has been the average from 1803 to 1907.

The Enterprise says: One of the best rains that has visited us this year, fell here yesterday afternoon and last night, and will be of great benefit to late feed crops and grass. The rain covered a large scope of country east and west and extended for quite a distance north.

Is not Mitchell county a wonder? The Record is its prophet.

**Congressman Smith Speaks.**

Congressman W. R. Smith spoke at the court house in Snyder last night. Scurry county has always lined up on the Smith side, maybe because we have so many Smiths here, and partly because "Honest Bob" has always been a prime favorite with Scurryites. His speech last evening was well received by a very complimentary audience and was devoted to a discussion of his record in congress and the political issues of the day. His remarks were frequently applauded. —Snyder Coming West.

**All The Amendments Possibly Lost.**

Austin, Tex. Sept. 25. —All the constitutional amendments voted on last summer are said to have been lost, though the secretary of state has not as yet given out the official returns. It was generally believed that the amendment providing for a Confederate woman's had passed, but it also, is now understood to be among the defeated.

**Dud Thompson is Dead.**

After three weeks of heroic struggle, in which his vigorous manhood, strong constitution and Spartan fortitude were pitted against that most insidious and relentless foe, typhoid fever, the noble and courageous spirit of N. D. Thompson, weary of the unequal conflict, kissed down the tired eyelids and winged its flight to the vast realms of eternity.

His death occurred last Tuesday morning at the residence of J. E. Pond in this city, where he was removed on growing worse, from his home in the country that he might be more convenient to medical treatment. The fever had been broken and he was thought last week to be convalescent, but complications arose with fatal termination.

He is survived by a wife and four children, to whom the Record on behalf of the entire community—all of whom are their friends—extends heartfelt sympathy and condolence.

Interment occurred Wednesday morning at the Odd Fellows cemetery, conducted under the ritual of the Masonic lodge.

Said list shall be made in triplicate and shall be presented to the Commissioners Court for examination and corrections of any errors that may appear, and when so examined and corrected by the Commissioners Court, such list in triplicate shall be approved by said court, and one copy thereof shall be filed with the county clerk and one copy retained and preserved by the collector and one copy forwarded to the Comptroller, with his annual settlement reports.—Extract from Section 10, Chapter 103, Acts 25th Legislature, 1897.

Letter to W. H. Badgett.  
(Colorado, Texas.)  
Dear sir: You may like to know what you pay for the paint in a gallon of "paint," assuming the pure paint part of all "paints" to be all alike; which it isn't; and worth \$1.75 a gallon.  
Of a paint adulterated 10 per cent, the pure paint part brings \$1.94 a gallon. 15 per cent brings \$2.06 a gallon.

25	2.33	..
33%	2.62	..
50	3.50	..
75	7.00	..

The average adulteration of paint in this country is about one-third; so you see the average price the American people are paying for paint is about \$2.62 a gallon.

It is a game of wits. Adulterators are always too sharp for the bulk of consumers. People won't pay \$1.75 a gallon for paint. So they pay \$2.62 a gallon for paint and something that looks like paint mixed with it. They pay the painter, besides, from \$2 to \$4 for painting those useless gallons.  
Why do they do it? They don't know Devote.

Yours truly,  
F. W. DEVOE & CO.

Last week in publishing the notice of the death of J. A. Kolb we were misinformed and republish it correctly this week at the request of the family:  
DIED—Sunday morning at his residence near the new school building, J. A. Kolb of consumption, in the 52nd year of his age. He came here last fall from near Herbert in the southern part of this county. Rev. Dodson conducted the funeral services and the remains were interred in the I. O. O. F. cemetery. He leaves a wife and two children, a grand son and a 12 year old daughter. Mr. Kolb was a quiet unassuming man and a good citizen. His son Laney Kolb now has a position with Morgan & Snowden and is esteemed by all who know him.

Lest We forget—baby is restless, can't sleep at night, won't eat, cries spasmodically. A bottle of White's Cream Vermifuge never fails to cure. Every mother should give her baby White's Cream Vermifuge; so many times when the baby is pale and fretful, the mother does not know what to do. A bottle of this medicine would bring color to his cheeks and laughter to his eyes. Give it a trial. Sold by W. L. Doss.
