

23 U. S. Men In Baik Group

By SAM SUMMERLIN
PANMUNJOM (U)—The Communists today surrendered to neutral nations custody 259 war prisoners—23 Americans, 1 Briton and 335 South Koreans—whom the Reds say asked to remain behind the Iron Curtain.

The Americans rode in open Russian-built trucks loudly singing the Communist "Internationale."
"Arise, ye prisoners of starvation, arise ye starvelings of want," chanted the tanned, healthy looking men.

The South Korean prisoners screamed "American imperialists, get out!" at U. S. newsmen who watched the transfer of prisoners to custody of Indian troops in the demilitarized zone near here.

Communist Correspondent Wilfred Burchett told Allied newsmen the names of the Americans and the Briton, but U. S. Army censors would not pass the list. The censors said names would be cleared only if prisoners change their minds and decide to go home.

The Americans looked happy and contented. The Communists, quoted them as saying they love their country and some day will return—when the American people have achieved "freedom."

"We hope to play our part in achieving this and we know the American people will receive us back on that day with open arms," said a statement the Reds said was drafted and signed by the Americans while at nearby Kaesong.

The Briton, identified as a Marine who had served seven years of a 12-year enlistment, was quoted:

"I am determined to play my small part in fighting for the better sort of world I believe in . . ."

Allied "explainers" are to begin talking to American, British and South Korean prisoners at the camp a mile above Panmunjom Saturday, telling them they have the right to be repatriated if they wish.

At the same time, Communist representatives will visit 22,600 North Korean and Chinese prisoners who refuse repatriation at another Indian camp five miles southwest of Panmunjom, trying to make them change their minds.

The Allies Thursday boosted the number of missing United Nations soldiers for whom they demand an accounting from the Reds by 17 to 3,421.

The Allies conceded at a meeting of the armistice commission secretariat, that some POWs on the original list submitted Sept. 9 had been repatriated.

The U. N. Command deleted 27 names from the original list of 944 Americans, then added 41 more American names. They also added the names of two British soldiers and one Canadian.

Two weeks after the Allies submitted the first list of 3,404 names the Reds answered that most had never been prisoners. The Communists said some died in captivity, while others either had been repatriated, had escaped, or had been released at the front during the war.

The highest ranking American turned over to Indian custody is a sergeant. There were three Negroes.

The Americans laughed and smiled as they were turned over to Indian troops. They talked in loud voices and appeared to enjoy the attention they were getting from onlookers.

Most shook hands and thanked the Chinese and North Korean Communists who helped them from the trucks.

"Good luck, Comrade Lee. We will see you in Peiping," one American told a Chinese.

They were dressed in drab blue Chinese uniforms and wore white pins with the Picasso peace dove symbol on their jackets. None spoke to American newsmen and

most avoided even looking at the watching correspondents.

The Americans were the last to be delivered to the camp. South Korean prisoners already inside the stockade cheered them. Five of the South Koreans were women. One was pregnant and a

ANSWER FOUND TO WHY DOG RATTLED ALONE

LONDON (U)—Bruce the collie dog rattled when he walked. When he ran, he rattled louder. A surgeon found the answer in Bruce's stomach—five large stones together weighing nearly a pound. He took them out.

Top Level Meet On Defense Held

By ELTON C. FAY
WASHINGTON (U)—Scientific predictions that the hydrogen bomb may soon explode into practical reality—a prospect that set off soul-searching in the Pentagon—steeped in significance today an unusual meeting of the National Security Council.

The new Joint Chiefs of Staff, who comprise America's high military command, already are overdue with recommendations on the size and shape of the armed forces for the year starting next July 1.

This entirely "new look," it was learned today, was ordered by the White House and Defense Department primarily because nuclear experts warned that the H-bomb is well on its way to becoming frightfully real.

President Eisenhower summoned an unusually large number of his government aides and advisers to today's meeting of the top level National Security Council.

Normally fewer than a dozen persons—Cabinet members and advisers from the armed forces and other agencies—attend the weekly meeting. But today 28 names were listed in addition to that of the

Rock Island Seeks To Buy Lone Star Railroad Property

WASHINGTON (U)—The Chicago, Rock Island and Pacific Railroad Co. today asked permission to acquire the properties of the Wichita Falls and Southern Railroad by buying up all of its outstanding securities.

The application was filed with the Interstate Commerce Commission to which the Wichita Falls and Southern applied last May for permission to abandon its 168 miles of track between Wichita Falls and Dublin, Tex.

The company said it had been unable to meet interest on its bonded indebtedness and lacked the funds to rehabilitate the property.

Rock Island told the ICC that if permitted to acquire the line, it proposes to continue in operation the 106-mile segment extending from Wichita Falls to Breckenridge, Tex., for a three-year trial period.

Rock Island said it will offer \$375,000 for the Wichita Falls and Southern's 11,220 shares of \$100 par value capital stock, its \$725,000 in bonds and an outstanding note for \$265,000.

72 Per Cent Of Hoover Commission Proposals In Effect

WASHINGTON (U)—About 72 per cent of the recommendations made by the Hoover Commission on government reorganization have been put into effect in the nearly four years since the commission filed its report.

The Citizens Committee for the Hoover Report, which announced the figure today, said that when these recommendations are fully applied, they will result in annual savings of as much as four billion dollars.

The committee, formed to campaign for adoption of the Hoover commission recommendations, has been inactive for some time. Chairman Sidney A. Mitchell said in a statement it will resume active operations with the idea of spurring public interest in the work of a second Hoover commission.

Congress this year authorized the second reorganization study, and former President Hoover will head it, as he did the earlier one.

Kuykendall Trustees Announce Tech Grants

LUBBOCK (U)—Trustees of the Kuykendall Foundation here have announced establishment of \$10,000 in freshman scholarships at Texas Tech this fall.

Trustees said yesterday that ten scholarships of \$200 each fall would be awarded to "worthy entering freshmen" selected by a faculty committee.

Applicants for the awards must live in a 15-county area of the South Plains. At least one of the scholarships, trustees said, will go to a Lubbock High School graduate each year.

U.S. Offers To Return Red Jet In Statement

WASHINGTON (U)—The United States today offered to return to its "rightful owner" the MIG 15 jet plane flown into American lines by a North Korean pilot.

White House Tea Significant With Justice Vacancy

WASHINGTON (U)—The Supreme Court vacancy lent more than the usual social significance to an annual tea at the White House late today.

The guests: 11 senior Circuit Court judges, Atty. Gen. Brownell and presiding Justice Hugo L. Black of the Supreme Court.

At least two of those invited have been mentioned in speculation over a successor to the late Chief Justice Fred M. Vinson.

They are Orin L. Phillips of Denver, chief judge of the 10th Federal Circuit Court of Appeals, and John J. Parker of Charlotte, N.C., chief judge of the Fourth Circuit.

The judges are here for their annual conference on conditions in their circuits.

DPS Investigators File Three Suits

Sullivan To Spark UF Drive 'Kick-Off'

A go-gettin' son-of-a-gun who has a fine flair for public relations—that's Sam Sullivan of Laredo.

Sam will be the fellow here Friday night, to address the employe solicitation group of the United Fund, when that crowd of volunteers gathers for a "kick-off" session in the UF drive.

The session will be at the Settles Hotel at 7:30. Heads of business firms, special United Fund representatives from the firms, and Labor union leaders have been urged to attend. Details of the solicitation will be presented by Dan Krause, head of the division of the UF campaign.

Sullivan will be the inspirational speaker. He's got the pep, say the people who know him. It was just a month ago that he was speaking before the American Public Relations Association in Pennsylvania.

Sullivan is a successful merchant of Laredo, owner of four shoe stores which he established and built up in just about 15 years.

He was born in Tennessee and lived for a number of years in Oklahoma, where he worked as a printer's devil. Then he landed in Laredo and set out to make a name for himself in business. He wrote his own advertising, and it got such attention that he started writing a column for the Laredo Times, "Sullivan's Slant." The homespun philosophy and good-humored advice that appears there has been widely reprinted in national magazines.

Sullivan is a staunch civic worker in his city, has set the pace in Laredo in behalf of his United Fund and other welfare activities. He is equipped to bring a message about welfare giving to business men and workers, because he approaches it from the very same angle as they do.

DPS Investigators File Three Suits

Three suits were filed in Justice Court this morning against Howard County residents who are charged with registering their automobiles in other counties.

Complaints were filed with Justice of the Peace Cecil Nabors by State Highway Department agents J. B. Johnson and N. K. Warner.

The two agents stated that other cases will be filed in Howard County, although they would not estimate the number. Johnson and Warner are the men who recently filed 44 similar cases in Midland.

They pointed out that the law specifically states that automobiles if they are operated on public highways, will be registered in the county which the owner resides at time of registration.

"Our operations are not limited to Howard County," Johnson stated. "We have a 72-county area to cover, and every county in the state will be affected."

Warner stated that suits will be filed against individuals living here who have purchased licenses from some other county; and that those living in other counties who have purchased license plates here will also be charged.

Both men emphasized that reports have not been made by any Big Spring or Howard County officials concerning the out-of-county registrations. "We get all our information from records which are filed in Austin," Johnson stated.

The two men stated that they will be working in and around Howard County indefinitely.

"We have the names, addresses, car models, year of make, motor number and license number of people who live here and registered their cars elsewhere," Johnson said.

"All we have to do now is to find those individuals operating their vehicles on the streets or highway."

They pointed out that even if a car is improperly licensed, suits can not be filed unless the car is being operated on Texas highways or city streets.

The agents pointed out that the law requiring registration in the county of residence is not a new one. And they said the law has always been enforced, although not in this particular area.

Maximum fine for the offense is \$200, and minimum fine is \$1. And individuals must pay a 20 cent penalty on purchase of new license plates.

They pointed out that if individuals who have purchased out-of-county plates re-register their cars here, they cannot be prosecuted. Such re-registration will cost the 20 per cent penalty anyway, they said.

Mrs. Viola Robinson, tax-assessor collector, stated today that the law requires her to charge the

price of license plus the penalty. "It's out of my hands," she said. The two highway department agents stated that people who lived elsewhere and moved here after registration have nothing to worry about—if the place of registration was their "permanent" residence at the time.

Attorney George Thomas this morning announced that in all probability an injunction suit will be filed against the State of Texas by Midland County concerning the charges which have been filed there by the two highway department agents.

Thomas said his firm may be retained to handle the suit. The Big Spring attorney pointed out, however, that two cases in higher courts have held out-of-county registration illegal. The first case, he said, was Opp vs. State in which the court held that an automobile was not actually registered unless it was registered in the county of owner's residence.

A recent case before higher courts, Texas Highway Department vs. Kimble, held that the operator of an improperly registered vehicle (one registered out-of-county) is subject to criminal prosecution, he said.

Thomas said if an injunction suit is filed by Midland County, it will be to restrain the Highway Department from filing the suits on the grounds that it has already collected the money which has been paid for the first registration—regardless of the county in which registration was made.

Both men emphasized that reports have not been made by any Big Spring or Howard County officials concerning the out-of-county registrations. "We get all our information from records which are filed in Austin," Johnson stated.

The two men stated that they will be working in and around Howard County indefinitely.

"We have the names, addresses, car models, year of make, motor number and license number of people who live here and registered their cars elsewhere," Johnson said.

"All we have to do now is to find those individuals operating their vehicles on the streets or highway."

Rock Island Seeks To Buy Lone Star Railroad Property

WASHINGTON (U)—The Chicago, Rock Island and Pacific Railroad Co. today asked permission to acquire the properties of the Wichita Falls and Southern Railroad by buying up all of its outstanding securities.

The application was filed with the Interstate Commerce Commission to which the Wichita Falls and Southern applied last May for permission to abandon its 168 miles of track between Wichita Falls and Dublin, Tex.

The company said it had been unable to meet interest on its bonded indebtedness and lacked the funds to rehabilitate the property.

Rock Island told the ICC that if permitted to acquire the line, it proposes to continue in operation the 106-mile segment extending from Wichita Falls to Breckenridge, Tex., for a three-year trial period.

Rock Island said it will offer \$375,000 for the Wichita Falls and Southern's 11,220 shares of \$100 par value capital stock, its \$725,000 in bonds and an outstanding note for \$265,000.

9-Year-Old Girl In 'Fair' Condition

DALLAS (U)—A 9-year-old Denton girl was in "fair" condition today at Baylor Hospital here after an operation to remove a 4-foot square piece of metal stuck in her skull.

The victim, Joyce Grooms, was sped here yesterday from Denton with the metal still in her head. Doctors said she never lost consciousness.

The child's mother, Mrs. J. B. Grooms, said the fourth grader was walking home from school when some young boys sailed the flat metal yardline marker from a football field into the air. The spinning object hit her in the head.

C-City People Rush To Assist Neighbor

By TOM JAY GOSS II
COLORADO CITY — Colorado Citizens rolled up their sleeves this week and prepared to go to the rescue of one of their neighbors, a disabled contractor and carpenter who has received a notice that his house will be sold on Oct. 6.

Tommie Graves, 52-year-old Colorado citizen, who lives at 308 East 10th Street, was returning home from Big Spring on Jan. 12, after obtaining work on a construction project, and was involved in a head-on collision with a Wichita Falls man at Coshoma.

Graves had nine breaks in his right leg, his left foot was torn almost completely off, both bones in his left arm were broken and he received cuts over his eye and on his head. Graves was rushed to the Root Memorial Hospital, where his condition was considered serious for several days. Eventually mending, he was taken home and began the slow job of recovery. After several months it was found that his arm required extensive surgery and surgeons moved tendons in his left hand and arm in order to provide him with a workable hand. Now, he has been told that his ankle will require surgery before he will be able to walk and stand on it.

Since Jan. 12, Graves has had no employment, with friends and family helping out on grocery bills. He has been unable to make his house payments and owes more than \$600 in back payments. Recently he received a letter from the loan company stating that his home would be sold on Oct. 6.

The Kiwanis Club, a leader in rehabilitation work in Colorado

City, began investigating his situation and called a meeting of the various Colorado City civic clubs to discuss it.

Elliott Dixon, a Kiwanian, offered to hold a benefit movie for Graves if the Colorado City clubs would sponsor ticket sales. Dixon said that Rowley United offered the movie and the use of the building and that the Colorado Amusement Company employees would show the movie—free.

Dixon's offer was accepted and the show date was set for October 5.

Notice Of Sale

Tommie Graves, disabled Colorado City contractor, reads official notice that his home will be sold Oct. 6. Meanwhile, his neighbors rushed to lend a helping hand to tide their fellow townsman over during his misfortune.

Japan Expects Strong Typhoon Tomorrow

TOKYO (U)—A powerful tropical typhoon is expected to hit Japan about noon tomorrow, Japanese government weathermen forecast today.

Even if the storm veered to sea without directly hitting Japan, it would bring torrential rainfall.

Student Held In Slaying

Roy Roger Schinagle, 18, Ohio Wesleyan sophomore, held in the slaying of Cynthia Pfeil, 19, of White Plains, N. Y., is led into the sheriff's office in Upper Sandusky, O., by Wyandot County Sheriff Dean McAllister (left). (AP Wirephoto).

Law Officers Say Love Letters To Help Prove Schinagle Guilty

UPPER SANDUSKY, Ohio (U)—Law officers have found love letters they say will help prove 19-year-old Roy Schinagle cold-bloodedly murdered his coed sweetheart. Sheriff Dean McAllister carried his investigations from Wyandot County to a room in Cleveland where he said he found two letters to Cynthia Pfeil, 19-year-old White Plains, N.Y., girl whose body was found mutilated beyond recognition last Thursday night.

McAllister said he would use one of them at Schinagle's trial in an attempt to prove he planned the murder.

He wouldn't say what was in the letters. But the Cleveland Plain Dealer quoted a policeman as saying Schinagle wrote Cynthia Pfeil her to Delaware, where the Mayfield Heights (Ohio) youth was preparing for the fall term at Ohio Wesleyan University.

The Plain Dealer's source said Schinagle told the girl to meet him secretly and not to tell anyone she was pregnant.

Meanwhile, Prosecutor Harold Roth was planning to file first-degree murder charges against the blue-eyed, sandy-haired youth who police say signed a nine-page confession.

The confession reportedly tells how the boy strangled his bride-to-be in a shack on the football field at Ohio Wesleyan, beat her with a pipe and tore 17 gashes in her face before dumping her in a patch of woods near here.

McAllister, the handsome 25-year-old sheriff of this north-central Ohio county, and Schinagle led law officers along the 50-mile death trail from Delaware to Upper Sandusky.

Beneath a bridge in Delaware, officers donned knee boots to fish for the instrument they said Schinagle used to club and stab his sweetheart. They found an iron bar four feet long. It was looped at one end and flat in the other—like those used by old-time street-motormen to switch tracks.

Police did not say whether they believed it to be the murder weapon.

Later, they took the boy to the funeral home where Cynthia's body lay.

They told him to look at the dark-haired, once-pretty girl whose

District Judge Orders Waterworks To Be Reopened

HOUSTON (U)—District Judge Phil Woodruff yesterday granted a mandatory injunction which ordered L. W. McLean, who closed down his private water works in the Coady community, to restore service in the East Harris County area.

The injunction was asked by residents of the community, who have had to haul water since McLean closed down his water system Sept. 9 a few minutes after residents were announced in a special election in which residents voted 78-17 to create a water district.

The order issued yesterday is to be effective until there is a final determination of the suit but in no case later than next March 31.

Judge Woodruff said McLean had a right to discontinue service but not as abruptly as he did and without reasonable notice to his 150 customers.

McLean testified Tuesday that the waterworks was losing money but Woodruff said there was no evidence of an operating loss.

McLean testified Tuesday that the waterworks was losing money but Woodruff said there was no evidence of an operating loss.

Dallas County Auto Tax To Be Ignored

DALLAS (U)—Dallas County tax assessor-collector Ben Gentle says he will not enforce the personal property tax on automobiles this year.

Gentle said he was not going to collect the tax because some other counties made no effort to collect it.

The decision will save the average Dallas motorist about \$6. Last year's personal property tax collections in Dallas totaled \$256,913 while another \$159,209 went uncollected.

The Panama Canal is sometimes considered to mark the division between North and South America.

McCarthy Seeks Contempt Citing Of Witness

NEW YORK (U)—Sen. Joseph R. McCarthy (R-Wis.) says he will ask the Senate to cite author Corliss Lamont on at least "two dozen" contempt counts for refusing to answer questions before the Senate permanent investigations subcommittee.

McCarthy said he called Lamont for a one-day closed hearing yesterday because two of the author's books are in State Department libraries overseas.

In a statement issued after the hearing, Lamont challenged the legality of McCarthy's committee and declared:

"I am a loyal American and I am not now and never have been a member of the Communist party."

McCarthy agreed that Lamont testified to that effect. But the senator said Lamont refused to answer his questions on the same subject or to invoke the Fifth Amendment, which allows an individual to refuse to answer certain questions on the grounds of self-incrimination.

In his statement Lamont, son of the late financier Thomas W. Lamont, charged that McCarthy's inquiry violated the free speech and free press guarantee of the First Amendment and added:

"Under the rules of the Senate and the status organizing the appointment of this standing committee, this committee has no authority to examine into the personal and private affairs of private citizens."

"Any action with regard to my books by officials of the government was done without my prior knowledge or consultation with me."

McCarthy said Lamont will be called to a public hearing of his subcommittee scheduled for next Monday in Washington.

Shot To Death

STEPHENVILLE (U)—Weston W. Lee, 45, was shot to death yesterday at his home nine miles southwest of here. Officers quoted Lee's son, Vance, as saying a gun discharged accidentally while he was cleaning it and a bullet struck his father.

Singer Robeson Is Red Prize Winner

NEW YORK (U)—Singer Paul Robeson was presented with a Stalin peace prize last night.

Robeson's was the only American name on a list of seven winners of the peace prizes, announced last December in Moscow on the late Soviet Premier's 73rd birthday.

At ceremonies in Harlem, Robeson received a bound citation and a gold medal from Howard Fast, author.

Robeson told newsmen arrangements had been made for him to get a \$25,000 prize which is supposed to accompany the medal.

The Negro baritone's application for a passport to go to the award ceremonies in Moscow was turned down by the State Department.

Scholl Rites Set

HOUSTON (U)—Services for Louis A. Scholl Jr., 64, retired Texas Company geologist and geophysicist who died Tuesday night, will be held here Friday afternoon.

Ownership Of Tiny Islands Disputed By England, France

By ALVIN J. STEINKOPF LONDON (U)—Millions of lobsters in the English Channel have a direct interest in a case now before the International Court of Justice at the Hague.

The question, about a thousand years old now, is whether some bleak little islands showing up as pin points on maps, belong to England or France.

The old dispute, rarely bitter but which has persisted as a little irritation for centuries, involves ownership of the Les Ecrehouise Islands, off the French coast northeast of the island of Jersey, and the Les Minquiers group, south of Jersey. Together they total about 95 square miles.

The lobsters, chief asset of the two tiny island groups, come in because the court's decision may determine whether they are the rightful prey of British or French fishermen. As far as the lobsters are concerned, it would seem best to hope for British rule. British fishermen toss back lobsters less than eight inches long. The French take them smaller.

Since only about 100 persons call either of the island groups home, it is hardly worth having a plebiscite. Actually, some of the more or less permanent inhabitants prefer the unsettled state of things. There always is uncertainty where taxes should be paid and many find it convenient to pay none at all.

But the fishing in adjacent waters, by Frenchmen who live on the mainland and British from the islands of Jersey and Guernsey, is of economic importance. Also looming as a distant possibility is the dream of marine engineers of harnessing the phenomenal tides in the disputed region. Rises of 30 to 40 feet are common. Some engineers believe that a system of barriers between the islands and the French mainland could trap the tides to produce power from the ebb flow.

The Les Minquiers, off the French port of St. Malo, appear French in character and French lawyers make a point that geology is on their side. The rocks on the islands and the mainland are the same.

But the British claim to the Les Ecrehouise group seems pretty firmly backed by huts and shelters erected there by Jersey islanders. They even pay some nominal taxes, now and then, to the Jersey and Guernsey island governments.

The first recorded owner of the disputed islands was Robert, son of William the Conqueror. The difficulty now is that it is pretty hard to establish the citizenship of Robert, who was a duke of Normandy when his father ruled England.

Through the years British and French governments have made agreements settling fishing rights, but never have come to a hard decision as to which owns the jumble of island rocks.

Soil Conservation Men Say State Needs General Rains

FORT WORTH (U)—The drought is beginning to pinch Texas hard again after temporary relief from late-summer rains.

"What is needed now is a series of general, slow, soil-soaking rains," says the Soil Conservation Service.

Moisture reserves are rapidly disappearing and rain is urgently needed in the northwest and south, says the U. S. Department of Agriculture.

Louis P. Merrill of Fort Worth, the regional SCS director, reported yesterday on information turned in by 25 Texas area conservationists.

Only 11 reported enough soil moisture in their areas for normal farm and ranch operations, said Merrill. The driest SCS areas are those in West Texas.

Four of the 11 with sufficient moisture now say rain must fall soon if normal farming and ranching is to continue.

In West and Southwest Texas, said the SCS report, 83 counties and parts of 30 do not have enough moisture for normal farm and ranch operations.

Merrill said wind erosion—sometimes an euphemism for dust storms—is expected on some Southwest Texas sandy range land. The grass cover has been deteriorated by the prolonged drought.

He said, however, that a record 5 1/2 million acres of cover crops will provide some protection. About 3 1/2 million acres in Texas have either no cover or poor cover.

The USDA, in its weekly report from Austin, said rain is urgently needed in northwest Texas for July-sown feed crops, early-seeded wheat and pastures, and that much of South Texas also needs surface moisture despite torrential rains in August.

Only in East Texas and along the coast are moisture supplies adequate to maintain growing crops and pastures, said the USDA.

Top 4-H Alumni Are Honored Today

COLLEGE STATION (U)—Four Texans who in their younger years did outstanding 4-H Club work were announced today as state winners in the National 4-H Alumni Recognition Program.

They are Mrs. Elmo Ellis, Rt. 1, Plainview; Mrs. O. H. Allen, Argyle; W. E. (Tommy) Thomson, Houston, and Anson Oden, Rt. 3, Brownwood. Each will receive a burnished copper plaque mounted on walnut from the donor of the program, the Mathieson Chemical Corp. of Baltimore, Md.

Gunman Stared Down By Serene Jeweler

VAN NUYS, Calif. (U)—"Go ahead and shoot," jeweler Harry Sosin calmly told a gunman who had ordered him to the rear of his store on the threat of shooting him in the face yesterday.

The intruder looked perplexed for a moment, then ran out to a waiting auto and fled.

 (B) Comfortable control for young figures. Embroidered nylon taffeta front, leno elastic side sections. Downstretch back. Choice of Girdle or Panty. S-M-L. **2.98**

RICHLY-TRIMMED SLIPS
 (D) Exquisitely detailed for lasting beauty. Lavish bejeweled lace, shirring and ribbon effects on cloud-soft nylon tricot. White, pink. 32-40. **3.98**

Pay-As-You-See TV To Start Test Run Early In November

By GENE HANDSAKER
HOLLYWOOD — Pay-as-you-see television starts operating early in November. Enough potential wonders are claimed for it to guarantee that sponsors, movie producers, pollsters—and perhaps just plain viewers—will be watching eagerly.

The debut of coinbox TV will be in Palm Springs, Southern California winter playground of the wealthy. If you're a consumer you dial Channel 6; the picture is scrambled and jumpy. An announcer tells you what the attraction is. To buy, you drop enough coins into a plastic box atop your set to total the designated price. Then the picture becomes clear and steady.

First-run movies will be the initial attraction on the new system. The first may be "Forever" (Big Spring (Texas) Herald, Thurs., Sept. 24, 1953) 3

THE SPRINGBOARD

News From Webb Air Force Base
 By A-2C FERD BORSCH

SNYDER
 Sunday will be a special day for the Texas town of Snyder and its citizens.

For on Sunday Snyder's new airport at Winston Field will have its first commercial air lines flight landing. The new airport was constructed through community effort.

In order to give due recognition to the community for its outstanding contribution to the development of aviation in this area and to observe the 50th anniversary of powered flight, Webb Air Force Base is going "all out" to participate in Snyder's "open house" program at the new airport.

Webb's part will include static displays of T33 jet, B25, C47, C45 and T28 aircraft.

Colonel Fred M. Dean, base commander, will speak along with General Robert Smith, president of Pioneer Air Lines, and Snyder civic officials.

Pioneer has the commercial contract at the Snyder field.

"Open house is from 1 to 6 p.m. with the main ceremony starting at 4:30."

SURVEY
 A complete base-wide survey of every physical structure at Webb was completed by installations personnel this week.

RADIO
 Cub Scouts from Den 4 of Webb's own pack are guests of the "Dottie Tyler Show" this week over radio station KBST. This particular program will honor Kids Day to be observed Saturday when several hundred youngsters tour the West Texas base.

Other "Dottie Tyler" guests this week include Lt. Col. Forrest E. Mears, M&S Group Commander, and Shine Phillips, prominent Big Spring resident.

EDUCATION
 Seventy-two Webb officers and airmen joined the September-back-to-school ranks last week. These students are currently taking a total of 94 courses at Howard County Junior College under "Operation Bootstrap."

Industrial Education has proved to be the most popular course with Webb students with 19 signing up. Two old stand by classes—English and math—drew 12 each.

SPORTS
 Pilot Training suffered its first setback of the post-trophy Squadron Southland League season last week to slump from first to third place. Air Base Headquarters assumed the role of upsetter in stopping PT, 9-7. Meanwhile both Field Maintenance and Motor Vehicle triumphed in solo outings to take

Tavern Operator Killed, Resisting Theft Of \$100
CHICAGO — Peter Grillo, 48, a West Side tavern owner, was shot and killed today when he resisted three gunmen who fled after taking \$100 from the cash register.

Grillo, who grappled with one of the robbers and hurled a bar stool and bottles at his companions, died of a bullet wound in the chest as he was being taken to a hospital. Witnesses told police that before firing two shots at Grillo, one of the gunmen took him. "You're a fool for fighting back—do you want to get killed?" Immediately after the warning, he fired two shots and Grillo fell wounded to the floor fatally wounded. A bartender and waitress were the only other persons in the tavern.

Girl Stowaway Has Charge Dismissed
LOS ANGELES — The federal government has dismissed a charge of illegally wearing a Navy uniform against 18-year-old Joan Garrison, who boarded the Navy by stowing away aboard the heavy cruiser Los Angeles last summer.

"The charge was dismissed because it did not seem in the interest of justice to prosecute," U.S. Atty. Laughlin Waters told reporters yesterday. Miss Garrison was smuggled aboard the cruiser last July 14 by a sailor identified only as "Worm." Although she was hidden away, it wasn't long until 500 sailors had seen her. She was "officially discovered" after about 12 hours. She was formally charged and released on her own recognizance.

Bands of wild burros, descendants of those brought into the area by prospectors roam through Death Valley in California and Nevada.

over joint ownership of first place with 7-1 records. PT now has six wins in seven games.

Section I and Section II No. 1 rolled to 4-0 shutout conquests to share an early lead as the Wednesday Bowling League opened its 1953-54 schedule at West Texas Bowling Center last week.

Field Maintenance defeated M&S Headquarters last week to snare the base-wide squadron volleyball tournament championship.

Pilot Training linksters racked up a 132 to win the monthly squadron golf tourney. Roy Blum carded a 41 over the nine-hole route to pace the links combo.

Kazan Doubts TV Will Raise Movie Quality

By HERB ALTSCHULL
WASHINGTON — Ella Kazan, award-winning Broadway play and Hollywood director, said today there's a chance that television may raise motion picture standards—but I rather doubt it.

"Too much censorship," he said. "Too many people telling you what to do."

On the other hand, Kazan continued in an interview: "Television is certain to make movies more spectacular, more technologically perfect. And that is good. No art ever was hurt by technical improvements."

Hollywood people may brush off TV, Kazan said, but: "Deep in their hearts, they're scared to death. 'Did you know that Jack Warner (the Hollywood producer) won't even allow a TV set to show up on the screen in his pictures?' Kazan is in Washington to direct the pre-Broadway performances of "Tea and Sympathy," a new play by Robert Anderson. Kazan, a first-rate actor, is best remembered for his direction of the stage and screen versions of "A Streetcar Named Desire."

He says he doesn't go much for TV dramatic fare, but: "I like the fights and ball games. 'I think they're wonderful.' Kazan said the film industry's counterattack with such things as three-dimensional movies, giant screens and new sound devices is all to the good, and: "I think there's a chance the quality of movies will be raised, more or less as a defense mechanism. I certainly hope so."

He said there was little possibility of TV working any major changes on the legitimate stage because: "The theater is concerned with artistic achievements. And this, I believe, will always be so. 'The theater is the greatest podium for freedom in the world today. That is why it is superior, artistically, to what you see on television and in the movies."

Pastor's Topics Are Getting Personal
PARADISE, Calif. — The topic of Dr. John Dunstan's sermon Sunday will be: Some Men in Paradise Who Should Be in Hell. It will be a third in a series of sermons in the Craig Congregational Church in this Sierra Nevada foothill town.

Female," a \$1,250,000 film starring Ginger Rogers and William Holden. The picture was made by Paramount, which has a half interest in International Telemeter Corp., manufacturer of coinbox TV.

The same film will be shown the same evening in a Palm Springs theater. Either way the viewing price will be the same, perhaps \$1.10 or \$1.25. But home, telemeter's backers point out, a whole roomful of people can see the show for one admission price.

"Telemeter," says its executive vice president, Carl Leserman, "will offer something better than a sponsor can afford. If it is used in volume, we feel we can give movie producers 75 to 90 per cent of the return. That's why producers are so interested in it."

He said all major Hollywood producers but one have indicated a readiness to provide first-run films for telemeter.

As other coin-in-the-slot attractions he envisions professional and college football, boxing matches and Los Angeles Philharmonic broadcasts.

Prices? "I can see a championship heavyweight fight or the Kentucky Derby at \$2," Leserman said. "And kiddie shows for 15 or 20 cents."

For producers, Leserman sees some heady figures: There are 25 million TV sets in the country. Suppose 10 million paid 50 cents each for a one-night showing of a 2-million-dollar movie. More than enough to pay for it in one night. The plastic box can collect any price from a nickel to \$2. If you haven't exact change and overpay, it automatically credits you toward the next show. A collector comes around every month or two and removes a locked drawer from the coin box. The drawer contains the coins you deposited—and a magnetic tape recording showing what programs you saw and how much money, therefore, should be there.

Telemeter could operate from any TV transmitter, and its backers hope the Federal Communications Commission will be sufficiently impressed by the Palm Springs closed-circuit operation to approve a metropolitan-area try-out.

Man, 81, Plunges 75 Feet And Lives

PHILADELPHIA — An 81-year-old man who told police he was down to his last \$100 plunged 75 feet off the Strawberry Mansion Bridge into the Schuylkill River yesterday and lived to tell the tale.

The man, identified by police as Abraham Ginsberg, was fished from the water by the crew of a police launch, revived on the river bank and then held on a disorderly conduct charge.

Siamese Twins After Separation

Louisiana's Siamese twins, daughters of Mayor and Mrs. Ashton Mouton, of Lafayette, La., are shown with their nurses for the first time since they were separated by surgery at the Alton Ochsner Foundation Hospital, New Orleans, on Sept. 17. Mrs. Inez Hubert, left, holds Catherine Anne, while Carolyn Anne rests in the arms of Mrs. Edna Dentz. (AP Wirephoto).

IN U.N. TALKS

British Welcome Red Policy Change

By STANLEY JOHNSON
UNITED NATIONS, N. Y. (AP)—Britain today welcomed apparent moderation of Russian policy since Stalin's death and called on the Soviet Union to agree to step-by-step negotiation of East-West quarrels.

Agreement on individual issues such as Germany and Korea, minister of State Selwyn Lloyd told the U.N. General Assembly, would "maintain some momentum behind the improvement."

Negotiations with the Soviet Union on one issue at a time has been the policy favored by the United States, Lloyd today paid tribute to Secretary of State Acheson and Foster Dulles for his "temperate and statesmanlike" exposition of those views in a speech here last week.

Prime Minister Churchill called last May for a top level conference of leading world powers, presumably including Soviet Premier Georgi Malenkov, to ease world tension. The United States opposed this, and today's British statement appeared to put the two Western Allies side by side in the policy to be followed in dealing with Moscow.

Netherlands Foreign Minister J. M.A.H. Luns also called on Russia to negotiate directly on Korea, Germany and Austria and said such parleys could achieve more important results than the current debates in the Assembly.

Lloyd said "we believe it to be a mistake to assume that nothing can be settled with Soviet Russia unless and until everything is settled. A settlement of two or three of our difficulties would be an important gain to every peace loving country," he added.

"One matter on which we are very ready to try to make progress is Germany."

To this end, he urged the Kremlin to accept the invitation extended by the United States, Britain and France for a foreign ministers' conference on Germany in Switzerland, Oct. 15. He insisted, however, that the conference deal primarily with setting up free elections in Germany—a new which the Soviet Union has previously rejected.

Lloyd previously had told the Assembly in procedural discussions that Britain was against reopening debate now on the Communist Chinese demands for an expanded "round-table" peace conference with four Asian countries and Russia included as neutrals.

Russia's Andrei Vishinsky fought hard early in the week to get the Assembly to reconsider the stand it took in August that the conference should be a two-sided parley with only belligerents representing the U.N. He failed but is expected to try again to force a debate on the Chinese demands.

Lloyd told the Assembly in a prelude to today's statement of British policy that the Red Chi-

Wildcat Ventures Are Staked In Martin And Dawson Counties

Wildcat ventures were logged today in Martin and Dawson counties, and two locations were spotted in the Howard-Glassecock field.

W. B. Black No. 1 M. F. Forrest is a wildcat location in the extreme southwestern corner of Martin County, and Sinclair No. 1 F. M. Weaver is a Dawson wildcat about three miles southwest of Mungerville.

Both Howard-Glassecock locations are on the Sun Oil Company lease. They are No. 29 and 30 Hart-Phillips.

Borden
Gulf No. 1 Cannon, C SW NW, 39-33-Sn, T&P survey, is being prepared for a completion attempt in the Spraberry. Operator has spotted plug and cemented. Perforations are being made from 7,330

and 7,450 feet. The last swab report in the Silario-Devonian shows 137 barrels of salt water in 15 hours. This test was between 10,274 and 10,355 feet.

Ryan and Burke of Midland No. 1 C. C. Cannon, 660 from north and east lines, southeast quarter, 22-33-Sn, T&P survey, reached 7,462 feet in lime and chert.

Dawson
Seaboard No. 2 Peterson, 2,006.9 from north and 1,500 from west lines, 40-33-Sn, T&P survey, got down to 6,805 feet in sand.

Glassecock
Sun No. 29 Hart-Phillips, 1,850 from south and 660 from west lines, section 14, block 33, T&P survey, is a new Howard-Glassecock location about 14 miles south of Big Spring. It will be drilled by rotary

Martin
W. B. Black No. 1 M. F. Forrest, 660 from south and east lines, section 32, block 49, top 1-north, T&P survey, is a new wildcat location set for depth of 6,500 feet to test the San Andres. It is in the extreme southwest corner of Martin County.

Howard
Texas Pacific Coal and Oil No. 1 Helen Virgil Little, 660 from west and 1,716 from north lines, 11-32-2n, T&P survey, reached 985 feet in redbeds.

Oceanic, Green and McSpadden No. 2 J. F. Winans, 600 from north and 1,990 from east lines, south half of section 25, block 33, top 3-north, T&P survey, is reported drilling at 5,947 feet in lime and shale.

Oceanic, Green and McSpadden No. 2 Lou Winans, 660 from north and 1,890 from east lines, 25-33-3n, T&P survey, hit 7,655 feet in shale.

Phillips No. 1-A Reef, 663 from south and 650 from east lines, northwest quarter, 25-33-3n, T&P survey, dug to 6,775 feet in lime and shale.

Gulf Coast
Sun No. 29 Hart-Phillips, 1,850 from south and 660 from west lines, section 14, block 33, T&P survey, is a new Howard-Glassecock location about 14 miles south of Big Spring. It will be drilled by rotary

AEC Signs Worried People Without Any Cause For Alarm
AUSTIN (AP)—There really wasn't any cause for alarm. No bombs. The sign in a patch of cactus just off a hill country road near here read: "Warning! Atomic Energy Commission experiments in progress. Please do not disturb."

Warned residents were thinking about bombs and radiation. But two University of Texas professors cleared it up.

Dr. Wilson Stone and Dr. Frank Blair said they were working on experiments involving fruit flies exposed to atomic radiation. Nothing secret about it.

The fruit flies are released in the cactus patch because for some reason or another they thrive on cactus.

Last Big Group Of War Prisoners Back
SAN FRANCISCO (AP)—The last large group of repatriated American prisoners of war returned yesterday aboard the transport Gen. R. L. Howe, ending the freedom run from Korea in which nine ships brought 3,071 ex-POWs to their homeland.

Approximately 450 other freed prisoners came home by air. Among the 250 returnees aboard the Howe were a dozen or more Air Force officers accused by the Communists of conducting "germ warfare" in Korea.

Well Strikes Oil Near Boulder, Colo.
BOULDER, Colo. (AP)—Haystack Dome Oil Co.'s Axelton No. 1 well eight miles north of here has struck oil.

Company officials said an oil-bearing sand was struck Tuesday. It is the first well drilled in the Boulder area since 1947.

Damage Is Surveyed
NICOSIA, Cyprus (AP)—A provisional survey disclosed today 1,300 houses were destroyed and 3,500 seriously damaged by the earthquake that rocked the Paphos district of Cyprus two weeks ago. At least 40 persons were killed and over 100 injured.

MEN IN SERVICE

CHARLES GRIZZARD

Charles W. Grizzard, who formerly worked at Webb Air Force Base here, is now taking basic training in the 9th Infantry Division at Fort Dix, N. J.

Grizzard resided at 610 Main Street. He is originally from Carrollton, Ga., and attended high school at Bowdon, Ga.

PFC. JIMMY COLE

Mr. and Mrs. Leon Cole of Big Spring have received word that their son, Pfc. Jimmy Cole, was to leave for Fort Bragg, N. C., today with the 868th Field Artillery Battalion for West Germany via Puerto Rico.

The 868th has been trained in the use of the 280-millimeter atomic gun and is the first such unit to be sent out of the continental United States.

The gun is capable of firing a charge equivalent to 20,000 tons of TNT and can fire a shell 20 miles. Jimmy, who was born and raised in Big Spring, entered the service in August, 1952, at Fort Bliss, Texas, and was assigned to Fort Bragg, N. C., for training in firing atomic weapons on Jan. 1, 1953.

He talked to his parents via telephone last night.

Hardy Nudist Campers Still In The Swim

HILLSDALE, Ill. (AP)—To the habitues of Woodland Acres there are only two seasons each year—summer and hot summer.

Right now, with breezy chill nights and occasional balmy days, the followers are sharply divided on which one it is.

It's not a casual decision, because Woodland Acres is a nudist camp with no stoves.

Many of the usual summer activities enjoyed at the northwestern Illinois camp have tapered off. But at least 20 hardy members still enjoy relaxing on the sandy beach around the eight-foot deep swimming hole—when the sun is out.

Harold Zimmerman, who operates the camp with Mrs. Zimmerman, says they'll "all be off to the closets for clothes" come Oct. 31. He's closing the club for the season on that date.

He hopes to open again by May or June. "Too early?" "When the flowers and trees begin to bear, so do we begin to bare," he countered.

HOSPITAL NOTES

BIG SPRING HOSPITAL
Admissions — George W. Neill, 1503 E. 3rd; Mary Kay Hammon, 1108 State; Mrs. John Butler, Forsan; Mrs. Mary Lou Dyer, 1703 Ayford; Teretha Scott, 509 Hillside.

Dismissals — Mrs. Ruby Weaver, Comanche; Mrs. Phyllis Gilliland, 609 N. Scurry; Susie Harrington, 810 NW 3rd; Maxine Anderson, 811 Lancaster; Caroline Galbraith, Coahoma.

Deadline Extended In Laughlin Case
AUSTIN (AP)—Deadline for filing of District Judge D. B. Wood's report on testimony in the ouster proceedings against Dist. Judge C. Woodrow Laughlin of Alice has been extended to Dec. 1 by the State Supreme Court.

Wood, master in chancery for the high court, asked the extension because of the volume of testimony which he must study. The 17 days of hearing filled an estimated 3,000 pages.

Eleven South Texas lawyers filed eight charges on which they seek Laughlin's removal from office.

Attorneys for both sides have until Nov. 2 to submit written briefs and suggest findings of fact to Wood.

The supreme court will study Wood's report and hand down decision. No ruling is considered likely until after the Christmas holidays.

Webb Trainer Plane In Forced Landing
A T-28 propeller type trainer plane from Webb Air Force Base made a forced landing in an open field 15 miles north of Lamesa at 8:45 a.m. today.

Neither the pilot, 2nd Lt. Ernest H. Meyer, nor his passenger, student aviation cadet David K. Rae, were injured. Damage to the plane was slight.

Webb officials said the plane's engine apparently failed.

Mr. Meyer himself notified the base of the crash by telephone.

Hurricane Hunter Plane To Take Look At Suspicious Area

MIAMI, Fla. (AP)—A hurricane hunter plane planned to go out today to look over a "suspicious" area in the Caribbean Sea off Jamaica.

"This is not a tropical storm as yet," said chief storm forecaster Grady Norton, "but it may grow into one. We are keeping a close watch on it."

The suspicious area developed southeast of Kingston, Jamaica, yesterday and moved westward toward Grand Cayman Island, which is about 250 miles south southeast of Havana.

Another suspicious area in the Gulf of Mexico was moving west northwest and was more than 200 miles south of New Orleans. Ships in the area reported winds up to 35 miles per hour and heavy rains.

Both the Caribbean and Gulf disturbances were described as "easterly waves" — broad bands of squally weather moving from east to west. All five tropical storms so far this season have grown out of easterly waves.

Grandson's Refusal To Be Repatriated Blamed On Demos

OKLAHOMA CITY (AP)—A grand-son of one of 23 Americans the Communists say refused repatriation today blamed the Democratic administration for "getting my grandson into this mess."

Mrs. Herbert E. Slaughter, Oklahoma City, said her grandson Pfc. Samuel D. Hawkins, 20, was an "innocent victim of the Communist propaganda and didn't even know what the word meant."

She said Hawkins was only two months past 17 when he was captured by the Communists.

"The United States should never have been fighting in Korea," Mrs. Slaughter told the Associated Press. "He was sent over by the big rats who made little rats out of those boys."

Mrs. Slaughter said she was referring to former President Harry S. Truman and former Secretary of State Dean Acheson.

Labor Case Under Study By NLRB

FORT WORTH (AP)—A request of the AFL operating engineers union to represent employes of two Big Spring laundries is being studied by the National Labor Relations Board.

A preliminary hearing was held here earlier this week in which the union and the employes—Ideal Laundry and Dry Cleaners and City Laundry and Dry Cleaners—stated their positions.

Both parties now have until Oct. 13 to file briefs as part of their position to the NLRB in Washington.

Shortly after Oct. 13 the NLRB in Washington is expected to issue a decision—probably either order an election or dismiss the case.

Rites Conducted For Palmer Infant

Funeral services for the infant son of Mr. and Mrs. P. R. Palmer, who died in a local hospital Wednesday after having only 13 hours, were conducted at the Nativity Chapel at 10 a.m. today.

Rev. Clyde Nichols officiated. Burial took place in the Trinity Memorial Cemetery.

The deceased was named P. R. Palmer Jr.

Survivors, in addition to his parents, include three sisters, Phyllis, Waineta and Elizabeth Palmer, all of Big Spring; Mrs. L. J. Alderson of Chester, Nebraska, the maternal grandmother; and Mr. and Mrs. Clarence E. Palmer of Diller, Nebraska, the paternal grandparents.

American Casualties Reported In Manuever

LONDON (AP)—First American casualties were reported today in the giant NATO sea exercise "Mariner" taking place in the North Atlantic.

A communique said one U.S. Navy man was missing and two others were injured after a jet fighter crashed and burned Tuesday on the deck of the American carrier Bennington, part of the attacking fleet.

The plane was coming in for a landing. The pilot jumped over the side of the carrier and was picked up by helicopter.

Akihito In Japan

CHICAGO (AP)—A visit to Chicago's Art Institute and the big Chicago Union Stockyards were among places to be visited today by Crown Prince Akihito of Japan in his one-day stopover in Chicago.

Wildcat Ventures Are Staked In Martin And Dawson Counties

Wildcat ventures were logged today in Martin and Dawson counties, and two locations were spotted in the Howard-Glassecock field.

W. B. Black No. 1 M. F. Forrest is a wildcat location in the extreme southwestern corner of Martin County, and Sinclair No. 1 F. M. Weaver is a Dawson wildcat about three miles southwest of Mungerville.

Both Howard-Glassecock locations are on the Sun Oil Company lease. They are No. 29 and 30 Hart-Phillips.

Seaboard No. 2 Peterson, 2,006.9 from north and 1,500 from west lines, 40-33-Sn, T&P survey, got down to 6,805 feet in sand.

Glassecock
Sun No. 29 Hart-Phillips, 1,850 from south and 660 from west lines, section 14, block 33, T&P survey, is a new Howard-Glassecock location about 14 miles south of Big Spring. It will be drilled by rotary

Martin
W. B. Black No. 1 M. F. Forrest, 660 from south and east lines, section 32, block 49, top 1-north, T&P survey, is a new wildcat location set for depth of 6,500 feet to test the San Andres. It is in the extreme southwest corner of Martin County.

Howard
Texas Pacific Coal and Oil No. 1 Helen Virgil Little, 660 from west and 1,716 from north lines, 11-32-2n, T&P survey, reached 985 feet in redbeds.

Oceanic, Green and McSpadden No. 2 J. F. Winans, 600 from north and 1,990 from east lines, south half of section 25, block 33, top 3-north, T&P survey, is reported drilling at 5,947 feet in lime and shale.

Oceanic, Green and McSpadden No. 2 Lou Winans, 660 from north and 1,890 from east lines, 25-33-3n, T&P survey, hit 7,655 feet in shale.

Phillips No. 1-A Reef, 663 from south and 650 from east lines, northwest quarter, 25-33-3n, T&P survey, dug to 6,775 feet in lime and shale.

Gulf Coast
Sun No. 29 Hart-Phillips, 1,850 from south and 660 from west lines, section 14, block 33, T&P survey, is a new Howard-Glassecock location about 14 miles south of Big Spring. It will be drilled by rotary

AEC Signs Worried People Without Any Cause For Alarm
AUSTIN (AP)—There really wasn't any cause for alarm. No bombs. The sign in a patch of cactus just off a hill country road near here read: "Warning! Atomic Energy Commission experiments in progress. Please do not disturb."

Warned residents were thinking about bombs and radiation. But two University of Texas professors cleared it up.

Dr. Wilson Stone and Dr. Frank Blair said they were working on experiments involving fruit flies exposed to atomic radiation. Nothing secret about it.

The fruit flies are released in the cactus patch because for some reason or another they thrive on cactus.

Last Big Group Of War Prisoners Back
SAN FRANCISCO (AP)—The last large group of repatriated American prisoners of war returned yesterday aboard the transport Gen. R. L. Howe, ending the freedom run from Korea in which nine ships brought 3,071 ex-POWs to their homeland.

Approximately 450 other freed prisoners came home by air. Among the 250 returnees aboard the Howe were a dozen or more Air Force officers accused by the Communists of conducting "germ warfare" in Korea.

Well Strikes Oil Near Boulder, Colo.
BOULDER, Colo. (AP)—Haystack Dome Oil Co.'s Axelton No. 1 well eight miles north of here has struck oil.

Company officials said an oil-bearing sand was struck Tuesday. It is the first well drilled in the Boulder area since 1947.

Damage Is Surveyed
NICOSIA, Cyprus (AP)—A provisional survey disclosed today 1,300 houses were destroyed and 3,500 seriously damaged by the earthquake that rocked the Paphos district of Cyprus two weeks ago. At least 40 persons were killed and over 100 injured.

HOSPITAL NOTES
BIG SPRING HOSPITAL
Admissions — George W. Neill, 1503 E. 3rd; Mary Kay Hammon, 1108 State; Mrs. John Butler, Forsan; Mrs. Mary Lou Dyer, 1703 Ayford; Teretha Scott, 509 Hillside.

Dismissals — Mrs. Ruby Weaver, Comanche; Mrs. Phyllis Gilliland, 609 N. Scurry; Susie Harrington, 810 NW 3rd; Maxine Anderson, 811 Lancaster; Caroline Galbraith, Coahoma.

Deadline Extended In Laughlin Case
AUSTIN (AP)—Deadline for filing of District Judge D. B. Wood's report on testimony in the ouster proceedings against Dist. Judge C. Woodrow Laughlin of Alice has been extended to Dec. 1 by the State Supreme Court.

Wood, master in chancery for the high court, asked the extension because of the volume of testimony which he must study. The 17 days of hearing filled an estimated 3,000 pages.

Eleven South Texas lawyers filed eight charges on which they seek Laughlin's removal from office.

Attorneys for both sides have until Nov. 2 to submit written briefs and suggest findings of fact to Wood.

The supreme court will study Wood's report and hand down decision. No ruling is considered likely until after the Christmas holidays.

Webb Trainer Plane In Forced Landing
A T-28 propeller type trainer plane from Webb Air Force Base made a forced landing in an open field 15 miles north of Lamesa at 8:45 a.m. today.

Neither the pilot, 2nd Lt. Ernest H. Meyer, nor his passenger, student aviation cadet David K. Rae, were injured. Damage to the plane was slight.

Webb officials said the plane's engine apparently failed.

Mr. Meyer himself notified the base of the crash by telephone.

Grandson's Refusal To Be Repatriated Blamed On Demos
OKLAHOMA CITY (AP)—A grand-son of one of 23 Americans the Communists say refused repatriation today blamed the Democratic administration for "getting my grandson into this mess."

Mrs. Herbert E. Slaughter, Oklahoma City, said her grandson Pfc. Samuel D. Hawkins, 20, was an "innocent victim of the Communist propaganda and didn't even know what the word meant."

She said Hawkins was only two months past 17 when he was captured by the Communists.

"The United States should never have been fighting in Korea," Mrs. Slaughter told the Associated Press. "He was sent over by the big rats who made little rats out of those boys."

Mrs. Slaughter said she was referring to former President Harry S. Truman and former Secretary of State Dean Acheson.

Labor Case Under Study By NLRB
FORT WORTH (AP)—A request of the AFL operating engineers union to represent employes of two Big Spring laundries is being studied by the National Labor Relations Board.

A preliminary hearing was held here earlier this week in which the union and the employes—Ideal Laundry and Dry Cleaners and City Laundry and Dry Cleaners—stated their positions.

Both parties now have until Oct. 13 to file briefs as part of their position to the NLRB in Washington.

Shortly after Oct. 13 the NLRB in Washington is expected to issue a decision—probably either order an election or dismiss the case.

Rites Conducted For Palmer Infant
Funeral services for the infant son of Mr. and Mrs. P. R. Palmer, who died in a local hospital Wednesday after having only 13 hours, were conducted at the Nativity Chapel at 10 a.m. today.

Rev. Clyde Nichols officiated. Burial took place in the Trinity Memorial Cemetery.

The deceased was named P. R. Palmer Jr.

Survivors, in addition to his parents, include three sisters, Phyllis, Waineta and Elizabeth Palmer, all of Big Spring; Mrs. L. J. Alderson of Chester, Nebraska, the maternal grandmother; and Mr. and Mrs. Clarence E. Palmer of Diller, Nebraska, the paternal grandparents.

American Casualties Reported In Manuever
LONDON (AP)—First American casualties were reported today in the giant NATO sea exercise "Mariner" taking place in the North Atlantic.

A communique said one U.S. Navy man was missing and two others were injured after a jet fighter crashed and burned Tuesday on the deck of the American carrier Bennington, part of the attacking fleet.

The plane was coming in for a landing. The pilot jumped over the side of the carrier and was picked up by helicopter.

Akihito In Japan
CHICAGO (AP)—A visit to Chicago's Art Institute and the big Chicago Union Stockyards were among places to be visited today by Crown Prince Akihito of Japan in his one-day stopover in Chicago.

MARKETS
WALL STREET
NEW YORK (AP)—The stock market was narrowly mixed today as the opening. Price changes were small either way, and trading was brisk with quite a few moderate sized blocks.

Bludger, at the top of the most active list, fell the past two days with net gains opened a block of 1,000 shares off 1/4 to 2 1/2.

Advancing stocks included American Wagon, U. S. Rubber, Du Pont, Sears Roebuck and Bonding.

Losing were American Can, Anacostia Copper, Chrysler, General Electric, International Paper, and Standard Oil (Ind.).

COTTON
NEW YORK (AP)—Non-cotton prices were 5 to 10 cents a ton higher than the previous close, Oct. 23, Dec. 21, 22 and March 23.

LEAVERTOCK
FORT WORTH (AP)—Cattle 2,400; calves 600; generally steady. Good and choice steers and yearlings 15.00-22.00; common and medium 9.00-15.00; outer grade yearlings 7.00-9.00; cows 5.00-12.00; good and choice cullifers 11.00-13.00; some good and medium 8.00-11.00; stock 6.00-8.00; slaughter cows 10.00-15.00; steerlings and steers 10.00-15.00; culler cows 5.00-10.00.

Hogs 300; butcher hogs mostly steady. Some steady to 10 lower. Choice 10-15-50; good 10-12-50; medium 10-12-50; some good 10-12-50; some 21-00-22-00.

Sheep 1,300; mostly steady. Choice slaughter lambs 15.00; some good slaughter lambs 13.00; cull and utility slaughter lambs 8.00-14.00; full and utility slaughter ewes 3.00-6.00; breeding ewes 3.00-1.00; choice leader lambs 12.00.

Colorado City Man Suffers Head Injury
COLORADO CITY — Jimmy Bryan, 21, who was admitted to Root Memorial Hospital Tuesday night for treatment of a compound skull fracture, still was unconscious Wednesday night.

Police said the wound resulted from a street altercation, but did not know what had produced the wound on Bryan's head. One man was charged with affray, according to Police Chief Sam Hulme, who said the matter still was under investigation.

Condition Of Mishap Victim Is 'Grave'
COLORADO CITY — Condition of Archie Hill, 56, who was struck by a car on Sept. 11, was reported as "grave" today.

Rita Hayworth, Dick Haymes Wed Today

By JAMES BACON
LAS VEGAS, Nev. (AP)—While nearby crapsshooters tried to make sevens and elevens, Rita Hayworth and Dick Haymes today gambled once more with matrimony.

The 34-year-old actress and her crooner, 35, will recite vows each has said three times before, in a simple ceremony in the Gold Room of the Sands Hotel.

District Judge Frank MacNamee will officiate at the five-minute ceremony. Jack Ziegler, general manager of the Sands, will be the only attendant. Photographers and reporters will outnumber the invited guests three to one.

The unpretentious affair will be quite a contrast to the screen star's lavish French wedding to Prince Aly Khan in 1948. Miss Hayworth will not even have a new wedding gown. She said she would wear a blue linen street dress which she has worn before. Her head will be covered by a toast-colored hat of tulle and velvet. She will wear gloves to match the hat.

Only guests invited are business and legal associates of the couple. The only relatives on hand will be the bride's two daughters, general manager of the Sands, will be the only attendant. Photographers and reporters will outnumber the invited guests three to one.

Final barrier to the wedding was cleared yesterday when Haymes copped a seven-minute divorce decree from Nora Eddington Flynn Haymes. Less than an hour later, he brought Rita back to the courthouse, where both nervously filled out the marriage license forms.

Both Haymes and Rita claimed permanent residence in Nevada, but said they will soon move near Greenwich, Conn., where they are

looking for a house. "All my work is in the East," the crooner explained.

Miss Hayworth said she plans to commute between the East Coast and Hollywood for picture making.

Should the government win its deportation case against the Argentine-born crooner, what country will he and Rita then live in? "I'm not going to be deported," he answered. "We both intend to live in the U.S.A."

The crooner said he will move into Miss Hayworth's suite at the Sands right after the wedding. A reporter asked him if he had ever tasted any of Rita's cooking. "Who marries Rita Hayworth for cooking?" the singer asked.

Eight Indicted In Lubbock Marijuana Ring Investigation

DALLAS (AP)—A Lubbock investigation which federal agents said smashed the biggest marijuana ring in West Texas history has resulted in indictments against eight persons.

Named in the true bills were Faustino (Frank) Garcia, 38; his wife, Consuelo (Connie) Garcia, 29; Foster Rowland, 29; Mitchell Emmitt Powell, 29; Gilbert Watson, 38; Sterling Patterson, still at large; Clifton Lawrence Hereford, 36, and Gilbert Ramirez Chavez, 30.

After a series of marijuana transactions with members of the group, agents said they seized 1,040 ounces of marijuana in Lubbock on July 8.

The indictments were returned here yesterday by a federal grand jury.

Italian Strike Near General

ROME (AP)—Labor threw a short, sharp almost-general strike at Italian industry today in the biggest walkout since the touch-and-go days of 1948.

All three of Italy's major unions, Communist and non-Communist, called out workers for up to 24 hours in a massive protest for higher pay.

Police in Rome, Milan and Turin reported "all calm." In sharp contrast to the nationwide strikes of 1948 when Communists staged bitter and often violent demonstrations.

The current walkout was scheduled to end at midnight tonight but the Communists vowed more walkouts would follow. Agricultural workers throughout the nation already have been called to strike Oct. 5.

The unions said the Italian Confederation of Industry refused to discuss their wage claims.

An industry spokesman said the demands would cost industry more than 800 million dollars and that the owners wanted a "gradual, reasonable evolution" toward a higher wage.

Labor leaders claimed that from six to eight million men stayed off their jobs today.

Mortar Shell Blast Injures Five GIs

EL PASO (AP)—A mortar shell exploded prematurely yesterday during a joint Army-Air Force training demonstration. Five soldiers were hurt, one seriously.

The accident happened at a New Mexico target area 21 miles north of Ft. Bliss, home of the nation's anti-aircraft school.

Sgt. Marvin Schilling, 31, Fredericksburg, Tex., was hospitalized with serious wounds from shell fragments. Least seriously injured were Lt. James W. Dean, 24, Houston; Pvt. Franklin R. Adams, 21, Columbus, Miss.; Pvt. Clifford Bennett, 20, Mayetta, Kans., and Cpl. Don Chachere, Opelousas, La.

About 8,000 persons including 2,500 civilians participated in the joint exercise. Major units came from Kentucky, Oklahoma, California and Ft. Bliss. The demonstration included ground to air firing, a parachute drop, jet fighter bomber demonstration and a mock battle.

Texans Have Bright Blue Skies Today

By The Associated Press
Bright blue weather blessed sometimes hot and sultry Texas again Thursday.

Temperatures ranged from brisk to balmy for the most part and were not expected to change before the weekend, the Weather Bureau's forecasts indicated.

Wednesday temperatures ranged from a maximum of 79 at Tyler to 100 at Presidio. The only rain—a light sprinkle—fell at Amarillo late in the day.

Oil Imports Weaken U.S. Firms Is Claim

FORT WORTH (AP)—Imports of oil are weakening "the strength and vitality of the domestic industry," the Independent Petroleum Association of America import policy committee claims.

In a formal statement at the conclusion of a one-day meeting yesterday, the committee asserted imports are replacing rather than supplementing domestic production.

New Mexico Doesn't Like Stopped Checks

AUSTIN, Tex. (AP)—Texas motorists caught breaking New Mexico's traffic laws may find the going rough in the future.

Justice of the Peace Robert L. Ayers of Albuquerque notified the Texas state police that one Texan recently paid his fine with a check—then stopped payment on the check.

Ayers said in effect that the practice is frowned upon in New Mexico.

Dallas Lumber Firm Destroyed In Fire

DALLAS (AP)—A late afternoon fire that sent three firemen to the hospital destroyed the Groves Lumber Co., here yesterday afternoon with the loss estimated at \$150,000.

Firemen J. D. Simpson, 35, C. C. Livingston, 30, and J. F. Woodall, 26, were treated for minor injuries.

Multiple Honors

District, area and state honors have come to the Big Spring High School Future Homemakers of America chapter. Comparing notes, from left to right, are Peggy Hogan, district treasurer; Doris Hahn, state corresponding secretary, and Janice Nalley, area historian. This is the first time in the local chapter's history that an officer in each FHA sub-division has been a Big Spring High School member. Mrs. Nancy Annen, sponsor, accompanied Miss Hahn to an executive council meeting in Austin, where plans were made for the state meeting to be in Fort Worth in April.

German Boy Writes He Wants To Visit Texas

A 12-year-old German boy, who likes "best to play ball, even football, if my father does not watch me," is looking forward to visiting Texas someday. He is Rudolf Grinninger, one of two children the Webb Air Force Base Officers' Wives Club has "adopted" through the Foster Parents' Plan for War Children. The Wives Club is sending \$30 a month to the organization to buy clothing, food and other necessities for Rudolf and his nine-year-old sister, Anna. One member of the club is writing to the children each month. Mrs. Jack Douglas, the first to write, has already received a reply from Rudolf, written in German. Rudolf and Anna, their parents and four brothers are former Czechoslovakians. In August 1946 they were expelled from their native country, along with all other "ethnic Germans," who were forced to move to Germany for resettlement. Since then Anna has been in the hospital for several months at two different times for treatment of tuberculosis which she contracted during the war. The children's father cannot bend his back as a result of back injuries and the family receives a total income of only \$51.06 a month for eight people. Here are excerpts from Rudolf's letter to Mrs. Douglas, as translated from the club: "I got your nice letter and I thank you very kindly for all the news. You have written so interestingly about beautiful Texas. I looked up the map at once. Really it must be very beautiful there and when I'll be older I'll come over and see you if I can afford it and if it will be allowed. "May I ask you if you have a house of your own there? With how many rooms? Have you a garden and how big is it? Are there fruit trees too? Certainly you have a big car. If you come to see us in your car or even in an airplane, we will be very kind to you, dear foster parent. "Referring to toys, I like to play ball, even football, if my father does not watch me. I like best to eat meat, sausages, chocolate and apples."

Mrs. Cole To Participate In Program

Mrs. Maud Cole, state district deputy supervisor, will have a part in the program of the Rebekah and IOOF Association in Odessa Oct. 17. Several members of the John A. Kee Rebekah Lodge 153 made plans to attend when the lodge met Tuesday at the IOOF Hall. Mrs. Martha Brady reported on the secretaries meeting held in Monahan Saturday. The past noble grands put on a special team drill, directed by Mrs. Hazel Lamar, team captain. A school of instruction was planned for Oct. 5. Mrs. Grace Martin, district deputy president, will conduct it. Mrs. Alma Pye presided and Mrs. Daisy Lacourse served refreshments. Forty attended. Mrs. Cecil Klahr, of Santa Rita, has been spending his vacation here with his father, F. J. Klahr and Jeanette. Returning from a vacation in Colorado and other cities in Texas were the V. L. Bennetts. Mrs. George Overton and Mrs. Pearl Scudday left this week for a stay in Christoval. Mr. and Mrs. Ott King have left for a visit with relatives in El Paso. Mr. and Mrs. B. R. Wilson have as their guests their grandchildren, Raymond and Ann Hughes, of Sundown. Mary Ruth Howard, of Midland, and Mrs. Charles Ray Howard, of Big Spring, spent the week-end here with Mr. and Mrs. P. E. Howard. Mr. and Mrs. Alvin Long, Alice and Frances were in Carlsbad, N. M., recently visiting Mr. and Mrs. Jake Patterson. Mr. and Mrs. E. T. Branham, of Ballinger, made a short visit to Mrs. C. V. Wash's home recently. Mr. and Mrs. Hoyt Andrews are announcing the birth of a son, Sept. 19. He has been named Dana Max. His weight was seven pounds and 14 ounces. His grandparents are Mrs. Frank Andrews, of Colorado City, and Mr. and Mrs. H. B. Driver, of Oklahoma City, Okla. Weekend guests of the W. J. White family were Mr. and Mrs. J. R. White, of LaSalle, Ronald Anderson from Orange, and Mr. and Mrs. Jim Knight, of Strawberry Field.

Mrs. Ray Weir Is Honored At Shower

Mrs. Ray Weir was feted recently at a pink and blue shower at which Mrs. J. W. Majors, 412 Westover Road, was hostess. Contest prizes won by Mrs. James H. Jennings and Mrs. Edward Ferebee were presented to the honoree. A hand crocheted cloth covered the dining table and appointments were of crystal and silver. The centerpiece was a bowl of yellow daisies and marigolds. Refreshments were served to 12 guests. Mrs. Granvil Miller and Mrs. Ferebee assisted the hostess.

Mary Ruth Howard, of Midland, and Mrs. Charles Ray Howard, of Big Spring, spent the week-end here with Mr. and Mrs. P. E. Howard.

Mr. and Mrs. Alvin Long, Alice and Frances were in Carlsbad, N. M., recently visiting Mr. and Mrs. Jake Patterson.

Mr. and Mrs. E. T. Branham, of Ballinger, made a short visit to Mrs. C. V. Wash's home recently.

Mr. and Mrs. Hoyt Andrews are announcing the birth of a son, Sept. 19. He has been named Dana Max. His weight was seven pounds and 14 ounces. His grandparents are Mrs. Frank Andrews, of Colorado City, and Mr. and Mrs. H. B. Driver, of Oklahoma City, Okla.

Weekend guests of the W. J. White family were Mr. and Mrs. J. R. White, of LaSalle, Ronald Anderson from Orange, and Mr. and Mrs. Jim Knight, of Strawberry Field.

Mrs. Lee O. Rogers Elected President

Mrs. Lee O. Rogers was elected president of the Big Spring Band Boosters Club Tuesday night. The club has been organized to support the local school bands. Other officers will be Clyde McMahon, first vice president; Mrs. James Bradley, second vice president; E. W. Richardson, third vice president; Mrs. Jack Pierson, secretary; Mrs. Earl Evans, treasurer. Trustees will be L. K. Miller, W. B. Morton and Roy Worley. Meetings will be the first Tuesday of each month. The public is invited to attend the meetings. Members are not required to have children participating in a school band.

Mrs. Prager Is Elected

Mrs. Etta Prager was elected first counselor for the BPODoes at a meeting in the Elks Club Wednesday. She will succeed Mrs. Mayfair Hogue, who has moved to Arizona. Mrs. Lou Karn was initiated Mrs. Opal Brown was inner guard pro-tem and Mrs. Maxine Ryan, outer guard pro-tem. The group voted to have a bake sale at the Elks Club Friday evening. A party was planned for Does and their guests for Sept. 28 at 8 p.m. in the home of Mrs. Joe Clark, 206 Dixie. Ellen Rutherford's name was drawn for the attendance prize. Fourteen attended.

ESA To Meet Tonight

Epsilon Sigma Alpha will meet in Room 2 of the Settles Hotel at 8 p.m. tonight to discuss rush activities.

Mr. and Mrs. J. O. Stephens, formerly of Forsan, are moving to Arlington the first of next month. Stephens has been employed by the Felmont Oil Co. in Forsan for 12 years.

Pucketts Entertain Classes; Junior Alexander Has Party

LUTHER (SpI)—Bethel Baptist Young People and Intermediate classes were honored with a party in the home of Mr. and Mrs. Bonnie Puckett. Those attending were LaFaye Stanley, Marcus Stanley, Connie and Bill Crow, Edwin and Earl Rawlings, Edman McMurray, Leroy Morton, Edman Murphy, Ben Lockhart, Carl SeM. Betty Hagan, Nolan Simpson, Loyd Underwood and Bill Hogan. Janice Williamson honored Junior Alexander on his birthday with a wicker roast. Those attending were Earl and Edwin Rawlings, Edman McMurray, Jimmy Torrence, Junior Alexander, Ben Lockhart, Bobby Stallcup, Carol Self, Evelyn Hanson, Mr. and Mrs. E. R. Williamson and Henry, Mr. and Mrs. N. L. Stallcup, Robert and Jean, Mr. and Mrs. H. J. Alexander and Gerah. Mr. and Mrs. Jim Torrence and Dorothy.

Samba Sue Club met in the home of Mrs. Velma Lloyd with Mrs.

Betty Lloyd as hostess. The next meeting will be Wednesday in the home of Mrs. Van Owens.

Gay Hill teachers, pupils and parents enjoyed the circus in Big Spring last week.

Mr. and Mrs. R. O. Lloyd, Mrs. N. H. Stanley and Lyn Dale, Connie Crow, LaFaye Stanley, Jean and Ellen Morton had a wicker roast and barbecue in the home of Mr. and Mrs. Leslie Lloyd.

Mr. and Mrs. R. G. Lloyd, LaFaye Stanley and Jean Morton took Ellen Morton to Midland following her visit with Mr. and Mrs. L. W. Morton, her parents.

Mrs. Rubye Simpson, Mr. and Mrs. Edward Simpson and Harold Simpson are in Dallas.

Mr. and Mrs. G. C. Murphy of Winters visited Mr. and Mrs. G. W. Murphy.

Mrs. Delta Morrison of Denison has been visiting her daughter, Mrs. Van Owens.

Harts Are At Home After Wedding

Mr. and Mrs. Clifford Arvin Hart are at home at 294 Benton following their wedding Saturday evening in the home of the bride's sister, Mrs. J. W. McWilliams, 311 Andree. The bride is the former Betty Lou Mitchell, daughter of Mr. and Mrs. Homer Mitchell, of Andrews. The bridegroom's parents are Mr. and Mrs. Arvin Hart, Oil Mill Road. The Rev. Carlos McLeod, pastor of the Northside Baptist Church, read the double ring wedding ceremony. The bride wore a green silk dress and her corsage was of white carnations. Attending her was Mrs. Truell Lewis, who wore a lavender dress and a yellow carnation corsage. Truell Lewis was best man. Out-of-town guests at the reception immediately following the ceremony were the bride's mother and Mr. and Mrs. Algine Clem, of Vealmoor, the bride's aunt and uncle. The bride and bridegroom attended Big Spring High School. He is now employed by Brookshier's Laundry.

Ruth Coley Elected Scout President

Ruth Coley was elected president of Girl Scout Troop Five of East Ward School yesterday at a meeting in the home of Mrs. Ted McLaurin. Other officers elected were Lanelle McLaurin, vice president; Betty Jones, secretary; Shirley Landrum, treasurer; Aria Jean Morris, social chairman; Lavelle Gossett, song leader, and Jessie Mae Paddock, reporter. The girls played a get-acquainted game and sang "Girl Scouts Together." Refreshments were served to the 19 scouts attending the meeting. The meeting was closed with the singing of "Taps." The troop will meet again Sept. 29 at 3:30 p.m. in the Girl Scout Little House.

Big Spring Herald Box 229, Madison Square Station New York 10, N. Y. Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5 cents per pattern.

the coffee you'd drink if you owned all the coffee in the world

Duncan's Maryland Club Coffee

because no other coffee gives you the same superbly-rich flavor, cup after cup, pound after pound... and no other coffee gives you the same important savings in extra cups per pound... because no other coffee enjoys the same masterful blending of choice coffees renowned for their unique flavor-richness. This priceless heritage belongs to MARYLAND CLUB, and to MARYLAND CLUB alone. Long the choice of discriminating restaurateurs, MARYLAND CLUB has now become the choice of budget-wise homemakers as well. Wherever good coffee is appreciated, in the restaurant or in the home, the fame of MARYLAND CLUB is ever growing.

She Has Inexpensive Complexion Routine

By LYDIA LANE

HOLLYWOOD — Even though they have not made a "Blondie" picture for a number of years, Penny Singleton is still known as "Blondie" to her many fans. And her friends will be glad to know that a deal has just been signed to release all of Penny's early pictures on television this fall. The new TV deal, plus the fact that Penny is now doing night club work, will again make her an important star.

When I caught Penny in her new song and dance act at a club here in Hollywood recently, I found she still had her same wonderfully youthful charm and spark. "Don't forget singing is my first love," she told me when I went to visit her in her dressing room. "As Dorothy McNulty I was in musical comedy. But I'm glad they changed my name because people were always crossing the L."

Though Penny is not a natural blond, she has blue eyes and a very fair skin. When I complimented her on her coloring and sparkling complexion she said with a twinkle in her voice: "You'll be shocked when I tell you that my complexion routine costs me less than a quarter a month."

"Are you a soap and water girl?" I asked.

"No, I'm not," Penny exclaimed. "because I have dry skin."

"Then what is the twenty five cents a month secret?" I questioned.

"I hit the routine I use quite by accident," Penny confided.

"The girl who bleaches her hair also took care of Marlene Dietrich. This was some years ago, but when I remarked about what a wonderful skin Miss Dietrich had, my hairdresser told me that she gave all the credit to goose oil."

"Yes, goose oil," Penny reiterated. "It's sold in the drug stores for less than fifty cents a bottle, and a bottle of it lasts almost two months."

"When do you use it?" I wanted

to know.

"At night before I go to bed," she said. "All I do is rub a little bit of it on my face and neck."

"Doesn't it smell peculiar?"

"Well, I wouldn't say it was the most delightful scent in the world, but it's not bad. A shower in the morning takes away all traces of the odor."

"How does your husband feel about your using it?" I wanted to know.

"Oh, he uses it too, when his skin gets dry. And we both agree there

is nothing like it keep away the fine lines time brings to face and neck."

I had to agree that Penny didn't have a wrinkle in her face. Since her skin looks like that of a young girl's, I am passing on this beauty secret to all of you with a dry skin an interest in the beauty secrets of the stars.

Barbecue Planned

FORSAN (Spl) — The Forsan Service Club is sponsoring a barbecue tonight at 8 p.m. at the Country Club. Admission is \$1 per person and the proceeds will be used for upkeep and maintenance of the Forsan fire truck. The public is invited.

MORE BEAUTY AT HOME

Penny's beauty routine might be just the thing you've been looking for. You'll find other good beauty routines in leaflet M-25, "Home Beauty Treatments and How to Make Them." You'll learn how to make egg face packs, liquid cleanser, skin tone, and many other items. Get your copy by sending 5 cents AND a self-addressed, stamped envelope to Lydia Lane, Hollywood Beauty, in care of The Big Spring Herald.

Ingredients: 2 cups milk, 1/4 teaspoon salt, 1/4 cup quick-cooking rice cereal, 8-inch unbaked pastry shell, 2 tablespoons soft butter or margarine, 2 eggs (separated), 1/2 cup sugar, 1/4 cup finely chopped blanched almonds, 1/2 cup seedless raisins, 1 teaspoon grated lemon rind.

Method: Heat milk and salt in top of double boiler over boiling water. Sprinkle in rice cereal and cook, stirring constantly, until slightly thickened. Cover and continue cooking for 10 minutes. Cool slightly. Meanwhile prepare pastry shell. Blend together butter, egg yolks, and 1/4 cup of the sugar. Add almonds, raisins and

lemon rind. Combine with the slightly cooled cooked rice cereal. Beat egg whites until stiff, gradually beating in remaining 1/4 cup of sugar. Fold beaten whites into rice mixture. Pour into unbaked shell. Bake in moderately hot (375F) oven until lightly browned, about 45 minutes. Cool at room temperature until warm and serve. Makes 6 servings. Makes a hearty dessert to go with the light supper below.

Fish Chowder
Buttered Toast
Vegetable Salad
Almond Souffle Pie
Beverage

Clip this for future use. It may conveniently be pasted on a recipe file card.

REPORT TO PARENTS

Teen-Age Girls Working In Hospitals Ease Shortages

By DR. MARTHA M. ELIOT
Chief Children's Bureau

They look like any group of boy-by-soxers as they leave their high school classes.

But within a few moments after they enter the Washington County Public Hospital at Akron, Colorado, these teen-agers don pastel uniforms and become a working part of the hospital team.

Some of them go on duty as nurses' aides—take temperatures, help patients. Some who are interested in home economics or dietetics may help prepare food and patient trays in the diet kitchen. Girls who like office work man the switchboard, type or file. Some help patients with their craft work.

Ever since 1950, a group of girls they call themselves JUGs (Just Us Girls)—has been volunteering for work at the county hospital.

They have been a useful supplement to the hospital's trained staff. In addition, six girls who graduated from high school in a single year became so interested in hospital work that they have enrolled in nursing courses. Service clubs

and other organizations interested in nursing are making scholarships available to girls after their first year in nursing.

The JUGs plan could not have succeeded without active community support. This was forthcoming not only from the Hospital Auxiliary and from the hospital itself, but also from the high school.

Before a JUG goes on duty at the Washington County Hospital, she has ten hours of class instruction. After 100 hours of volunteer service, she may wear an award pin. After passing certain special tests, she may wear a cap which matches her uniform. When she reaches this stage, she may even be paid for her work, although most JUGs donate their services.

This very practical way of easing the shortage of hospital staff members by making use of voluntary workers certainly could be followed in many other communities. Since there apparently is to be a shortage of nurses for some time to come, it seems clear that high school girls with an interest in this field should have the chance to put

Mrs. Ray Crumley Is Honored At Tea

FORSAN (Spl)—Mrs. Ray Crumley was honored Monday with a pink and blue tea in the home of Mrs. R. D. Garrett.

Co-hostesses were Mrs. R. A. Fulen, Mrs. E. O. Bassinger, Mrs. John Butler, Mrs. J. A. McMillan and Mrs. W. J. White.

Guests were registered in a white satin handmade book trimmed in white lace and pink ribbons. Mrs. Crumley was presented with a corsage carrying out the pink and blue motif. The corsage was made by Mrs. J. M. Craig. The refreshments also featured the pink and blue theme.

The guests were Mrs. S. C. Crumley, Sr., Mrs. Willie Hiffe, Mrs. Ed Ledford, Mrs. C. D. Walker, Mrs. Earl Beeson, Mrs. L. A. Pitcock, Mrs. Billy Pitcock, Mrs. Jeff Pike, Mrs. L. T. Shoultz, Mrs. C. V. Wash, Mrs. O. N. Green, Mrs. R. A. Chambers, Mrs. John Kubecka, Mrs. T. R. Camp, Mrs. W. B. Dunn, Mrs. J. M. Stagner, Mrs. Betty Anderson, Mrs. P. P. Howard, Mrs. L. W. Moore, Mrs. C. D. Fowler, Mrs. J. M. Craig, Mrs. A. O. Jones, Mrs. Jesse Overton, Mrs. George Overton, Mrs. Roy Klahr, Mrs. Delmer Klahr, Mrs. Bryant Averett, Mrs. G. L. Monroney, Mrs. Joe B. Hoard Sr. and Mrs. Willie Hoard.

Guests from Big Spring were Mrs. J. E. Blackburn and Mrs. John Blackburn. Other out-of-town guests were Mrs. J. L. Mayes, of Acherly, Mrs. C. E. Mulloy, of Loveland, and Mrs. Lawrence Booth, of Doole.

B. D. White, of Big Spring, a former Forsan resident, is a patient in Cowper Clinic having undergone an emergency appendectomy recently. He is reported to be improving.

Stanley Hayhurst, who was discharged from service Aug. 31, has been visiting his parents, Mr. and Mrs. L. M. Hayhurst. He had been stationed at Ft. Hood since his return from Germany, where he served a year. He is now employed by the Western Electric Co. in San Antonio. He was employed in Fort Worth before he entered the Army three years ago.

Native Of New Zealand Gives Talk

Paul Mansfield, who is in pilot training at Webb Air Force Base, spoke on his native country, New Zealand, at the meeting of Beta Omicron chapter, Beta Sigma Phi, Tuesday.

The club met in the home of Mrs. Sue Broughton. Mrs. Betty Newsom announced that motion pictures on Girls Town will be shown at the Beta Sigma Phi city council meeting.

Mrs. Lazzelle Thomas showed a doll the group will make clothes for and sell at Christmas time. Mrs. Sue Broughton was elected to represent the chapter in the Valentine Girl contest for "The Torch," sorority magazine.

A leave of absence was granted Mrs. Marianna Jones and Mrs. Evelyn Anderson was appointed to the program committee. Meetings will be at 7:30 p.m. instead of at 8 p.m. in the future, it was decided. Mrs. Newsom won a prize.

that interest to work, usefully, before they must make a choice of their vocation.

The fact that the JUGs plan actually has drawn young girls into the nursing field seems to me one of the most rewarding dividends of the program.

Carpenters Auxiliary

Ladies Auxiliary of the Carpenters and Joiners of America, Big Spring local, will meet Friday evening at 7:30 p. m. in Carpenters Hall. All members and prospective members are urged to attend the called meeting.

Dagwood's Wife Has A Secret

Penny Singleton, who will win back old fans and make many new ones when her "Blondie" pictures are seen on television this fall, tells Lydia Lane about a beauty secret for keeping a youthful complexion.

Rebekah Lodge To Have Initiation

Mrs. Thelma Stuteville will be initiated Tuesday by the Big Spring Rebekah Lodge 284. Plans were made at a lodge meeting last Tuesday at the IOOF Hall. Mrs. Lucille Petty presided.

The degree team was especially asked to attend the initiation. Mr. and Mrs. W. B. Abernathy were visitors at the meeting. Twenty attended.

The group honored Mrs. Judy Kehrer at a birthday party following the meeting.

Council To Honor Mrs. Hertenberger

The P-TA City Council will have a snack party Friday from 9:45 a.m. to 11:45 a.m. in the home of Mrs. Alton Underwood, 801 E. 16th.

The party will honor Mrs. Lou Hertenberger, a state recreational chairman, who will direct a Family Fun Night Friday at the Junior High School gymnasium.

Mrs. Underwood urges all officers and chairmen and any other interested people to attend the party.

Leftover syrup from canned fruits makes a good basting liquid for ham.

Men of vast ability do not need a false front. Really great men are always approachable and humble. "He that is greatest among you let him be as the younger." — Luke 22:26.

One City Gets Its Tax Money By Going After The Tardy Ones

A most amazing record has been reported for the City of Dallas. It had by Tuesday, collected more than 99 per cent of its municipal taxes. The city manager there said he guessed it might be a record for any city in the nation, and we are inclined to agree with him.

collections. Budgets these days have been set pretty "tight", and some planned expenditures have to be lopped off if the income isn't up to anticipations. This brings up the fact that the city of Big Spring is in the short rows itself, budget-wise. In keeping the fiscal program to the minimum, some badly needed municipal services and projects had to be eliminated. If taxes are not collected, more trimming may be necessary.

Beria Mystery Gets Treatment Like The Hot Potato That It Is

The great Beria mystery which garnered so many sensational weekend headlines seemed to be petering out this week, but because everybody from the start seemed inclined to speak of it only with the greatest caution it may be weeks before the matter is disposed of one way or another.

the Senator himself wasn't talking, but by Tuesday he was quoting "people who claim to have been in contact" with the putative fugitive in a European hideout as saying: "The man is a Russian who looks like Beria, who says 'I am Beria' and gives details of an alleged escape from Russia and is willing to talk." McCarthy added: "I am not claiming it is, but it will be that the mystery man is Beria."

These Days — George Sokolsky

Man Who Saved Movie Industry Is Crowded Out Of The Picture

When the Brown-Bloff scandals wracked the motion picture industry and the Sorrelle strike came close to making it dependent upon the whim of Communist unionism, Roy Brewer was sent to Los Angeles from Washington to attempt to rescue the International Alliance of Theatrical Stage Employees and Moving Picture Machine Operators of the United States and Canada. His essential task was to establish a good name for the discredited and racketeer-ridden union.

attending their previous errors for a clear road to usefulness. Whereas in radio and television, the Communists not only are still free to find employment while decent Americans are kept from working because they are controversial, in the motion picture industry, the cleansing operation has, in the main, been successful because it was just and based upon principle. It has recognized that while error is possible, contrition must be possible.

Roy Brewer, since 1943, has succeeded in establishing not only a competent manager and respected labor union, but he has come to be regarded as one of the most statesmanlike personalities in Hollywood.

So, now he is out of trade unionism and has gone into business. The loss is America's. Few such sound leaders appear in American trade unionism. When they leave the union, racketeers and subversives usually take over.

Drive-In Church

SALEM, Ohio — The folks in this northeast Ohio area have come up with a drive-in church. During the summer, crowds have flocked to the Salem Drive-In Theater for their Sunday worship. This sponsoring Salem and Vicinity Ministerial Association reports that "business" is better than ever.

Lumber Standards

SAN FRANCISCO — The Douglas fir industry of Oregon, Washington and California spends more than 3 million dollars annually to guarantee that its graded lumber measures up to rigid requirements. Supervisors at key cities spot check to see that shipments are "on grade."

The World Today — James Marlow

Humphrey Says Sales Tax Only One Of 40 Proposals Being Considered

WASHINGTON — Secretary of the Treasury Humphrey has said a sales tax is only one of about 40 proposals being considered by the administration in its approach to an overhaul of taxes. When asked what the 40 proposals might be, a Treasury Department spokesman said Humphrey didn't mean literally 40 but used the figure as he might say "umpteen."

The number "40" may have been in Humphrey's mind because his staffmen and staffmen of Congress' Joint Committee on Internal Revenue Taxation have been working on 40 proposed changes in the present tax law. Those changes would attempt to bring the law up to date, eliminate obsolete sections, and give taxpayers, perhaps millions of them, a tax break. For example, people with dependents.

Members of Congress would go for an increase in individual or corporate income taxes. That would leave the administration only two other main fields in which to look for added revenue. A general sales tax or new excise taxes. For example, Congress could vote an excise tax on services or goods not now so taxed, like hotel rooms, laundry services, or furniture.

Notebook — Hal Boyle

Machinery Seems To Be Afraid Of Women Also

NEW YORK — It is not only men who are secretly or openly afraid of women. Machinery is too. Few things show the difference between the sexes more than their attitude toward machinery. A boy loves his bicycle almost as if it were a horse. A man feels the same way about his motor car. He pats it on its shiny faithful side and in his heart he hears its answering neigh.

Men feel a real kinship and loyalty to many machines. They think of a machine as another living thing with a personality of its own. Since a man does think of a favorite machine as having a life of its own, he respects the quirks in its nature.

Women are always bragging about how they can fix machines by jiggling them. They don't really fix them. When a woman goes over and jiggles a balky machine, it knows she is threatening. "You start working right now, you silly clump of metal, or out of this warm house you go right into a junkpile."

This Day In Texas

By CURTIS BISHOP

Ousted by the Senate sitting as a High Court of Impeachment, "Farmer Jim" Ferguson prepared to leave the office of governor on this day in 1917.

Weeks Says Nation's Economy Doing Fine

NEW YORK — Secretary of Commerce Weeks says the nation's economic climate is good but the federal government would not hesitate to step in to prevent a depression.

Uncle Ray's Corner

Fashions Changed In Babylonia

If we could go back 4,000 years, and visit a city of Babylonia, we should find that all, or almost all, of the houses had walls made of bricks. The country was short of trees, and little wood was employed in building. Most of the homes were of one story, and contained only a single room or two rooms. Certain wealthy persons, however, had houses of two stories. A stairway led to the second floor, which contained bedrooms. Often a hut, or several huts, existed near the mansion, providing space for servants to sleep.

Japanese Opinion

TOKYO — A Mainichi Shimbun editorial says a strong pro-American feeling still prevails among the Japanese people. The newspaper, one of Japan's largest, published in four cities with a reported combined circulation of six million. A recent editorial declared: "We do not think x x x the greater part of the Japanese people have anti-American sentiments. Rather, we say that there still exists a strong pro-American feeling."

Uncle Ray's Corner

Fashions Changed In Babylonia

A quaint old picture shows two women of the country picking figs. King Nebuchadnezzar II is believed to have built the famous Hanging Gardens of Babylon. The story goes that he wanted to please his wife, who had come from a mountain land. A man-made hill was produced, and there were terraces along the side for five "hanging gardens." The hill seems to have been a small one, rising only about 75 feet above the surface of nearby land.

Junior Finds Himself Being Crowded Off The Comic Pages

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald—Editor's Note.

Junior has a right to complain that his parents and other adults are being unfair to him. For the adult audience has taken over the funny page. Some comic strips always did make their main appeal to adults. Others have changed their type of story so as to appeal to adults, and others have taken a back seat to newer comics. Take some of the most popular of comic strips today, "Pogo" and "Li'l Abner," for instance. These comic strips do carry some appeal to the children; both are published in comic books. But they have enough appeal to adults that Time and Life will devote pages to special articles on their creators.

all comic strips. They got the lead position in the Sunday funny sections. Now hardly one paper in a hundred carries them. Flash Gordon was another of the old-time top comics. Some others that never ranked quite so high but still were very popular were "King of the Royal Mounted," "Dan Dunn," "Mandrake the Magician," and "Red Ryder." Some of these comics still run in a number of newspapers; others are forgotten. Now I suspect these comics still have their appeal for the kiddies. At least they're the type of stories that you can hear on some of the later afternoon radio serials beamed at the kiddies by the makers of breakfast foods.

Washington Calling — Marquis Childs

Spontaneous Traffic Across Iron Curtain Breeds Suspicion

WASHINGTON — Anything can happen in the times in which we live. No headline is too fantastic to gain at least momentary acceptance. The "escape" of Lavrenti Beria is a case in point. Top Intelligence authorities in Washington are extremely skeptical about the reports that Beria eluded his enemies in Soviet Russia and is now somewhere in this hemisphere. The latest report puts him in Mexico prepared to offer through a contact man his vast store of secrets in return for asylum in the United States.

and material available for the defense of Western Europe. Another and more serious aspect of the secrecy barrier is the fact that military planning in the North Atlantic Treaty Organization cannot be based on realistic knowledge of the kind and the number of atomic weapons available. A large empty space must be left on the tables of organization which means that European commanders cannot be sure whether too much or too little emphasis is being placed on ground forces and other conventional defenses.

Uncle Ray's Corner

Fashions Changed In Babylonia

If we could go back 4,000 years, and visit a city of Babylonia, we should find that all, or almost all, of the houses had walls made of bricks. The country was short of trees, and little wood was employed in building. Most of the homes were of one story, and contained only a single room or two rooms. Certain wealthy persons, however, had houses of two stories. A stairway led to the second floor, which contained bedrooms. Often a hut, or several huts, existed near the mansion, providing space for servants to sleep.

Japanese Opinion

TOKYO — A Mainichi Shimbun editorial says a strong pro-American feeling still prevails among the Japanese people. The newspaper, one of Japan's largest, published in four cities with a reported combined circulation of six million. A recent editorial declared: "We do not think x x x the greater part of the Japanese people have anti-American sentiments. Rather, we say that there still exists a strong pro-American feeling."

Former Grid Tackle Calls Plays For Republicans In House Drive

By CHARLES BARRETT
WASHINGTON, Sept. 24 (AP)—A husky former football tackle is quarterbacking one of the toughest political offensives on record—and hoping it doesn't turn into a desperate goal line stand.

Rep. Richard M. Simpson of Huntington, Pa., quiet, plain, relatively little-known, is one of the busiest men in town. He often has to get up at 5 a. m. to get in an hour's play with his pretty 2-year-old daughter.

His conferences often start at breakfast and wind up well after dinner, and a 12-hour day is commonplace.

Why? Because the GOP has a fight on its hands to retain control of Congress in next year's elections. His job is to hold the slender margin in a campaign which already is warming up, months earlier than usual.

An old line, old guard Republican, Simpson was less than enthusiastic about Dwight Eisenhower until the general won the GOP nomination. Simpson still finds some presidential conflicts with his own political views.

Yet he has a key role in working with Eisenhower for the party as a whole. So long as its two camps stick together the GOP has a formidable coalition. If they should split, both President and party clearly would be in trouble. Many politicians agree the House

is the most vulnerable spot in the GOP armor. The theory is that some GOP House members rode into office last year on the wave of Eisenhower's sweep. Further, the party in power historically loses ground in off-year elections. A shift of only five seats from Republicans to Democrats would put the GOP in the minority again in the 435-member House.

Many Democrats feel that if they can slice into power in the House next year, they would greatly boost their chances to take the whole cake in 1956—complete con-

trol of Congress and the White House.

That's where Simpson comes in. He was little known nationally when he was picked by his Republican colleagues to head the GOP congressional campaign committee and direct the nationwide drive to elect Republicans to the House.

But he was known on Capitol Hill as a congressman's congressman—a man who stayed in the background, made few speeches and even then indulged in little oratory. He played a key role, however, in the compromises and shaped legislative history.

Besides heading the campaign committee, Simpson is vice chairman of the Republican conference of all House members, secretary of the GOP Policy Committee in the House (sort of an executive committee), third ranking Republican on the Ways and Means Committee and secretary of the Republican Committee on Committees—the group that has the key task of assigning Republican members to House committees.

At 53, the graying, 6 foot 2, 200-pounder, a tackle on Pop Warner's famed Pitt teams in the early Twenties, plays a symbolic role in a Republican party obviously beset by differences.

Simpson says the answer is compromise, with give and take on both sides. As he puts it, "When you run into a stone wall don't butt your head against it; try to go around it."

How about the job ahead? Sure, Simpson agrees privately, the campaign will be tough. He concedes he may lose some seats now held by Republicans. But he notes, with obvious relief, that 22 Democrats were elected last year with a margin of 52 per cent or less of the major party votes cast. Only 13 Republicans had such close calls. Those slim Democratic areas are where he hopes to make hay for the GOP.

Right Out Of This World

Rodney Sheppard, 18, son of Mr. and Mrs. W. J. Sheppard, 1417 Wood, prepares to take a "trip aloft" to 40,000 feet in the high altitude chamber at Webb Air Force Base. Helping him get his ponderous "Man from Mars" equipment adjusted is Kendra McGibbon, 15, daughter of Mr. and Mrs. K. H. McGibbon, 108 Cedar Road. Capt. Truman Parker, head of Webb's Physiological Training Unit, instructs the youngsters in the complicated procedures. The youngsters, both sophomores at Big Spring High School, got a preview of the Saturday National Kids' Day at Webb Wednesday. (Official Air Force Photo).

Webb Expects 1,500 Youngsters For National Kids' Day Feature

The official proclaiming of Saturday as Kids' Day in Big Spring by Mayor G. W. Dabney will cap preparations for celebration here of the national affair, co-sponsored by the United States Air Force and the International Kiwanis Club. The day, celebrated throughout the United States, Canada and the Hawaiian Islands is two-fold in purpose. It is dedicated to the recognition and entertainment of school children and to raise funds for the Kiwanis' program of aiding underprivileged children.

Entertainment planned here for the youngsters include free movies, half-time festivities at the Saturday night football game between Big Spring and Odessa Junior High Schools and an afternoon tour of Webb Air Force Base.

A peanut sale in downtown Big Spring will be held by the local Kiwanians in their fund raising program. The Kiwanians will be aided in the street sales by members of the Big Spring High School "Key Club" and Boy Scouts of local Troop number 3.

Over \$300,000 was raised nationally during last year's peanut sale and a higher goal has been set for Saturday. This year will be the

first Kids' Day fund raising event to be conducted by the Big Spring Kiwanis Club.

Money made here will remain here for use in Big Spring. Kiwanis spokesmen said.

Funds derived from the sale will be used to offset the day's expenses and to help provide for Kiwanis-sponsored Howard County Junior College scholarships for worthy Big Spring students.

Webb Air Force Base will open its gates Saturday afternoon to an expected 1,500 students of the Big Spring and Lamesa areas. A complete tour of the base installations and flight line will follow a welcoming address by Colonel Fred M. Deap, WAFB commander.

Kids visiting the base will be given a close-up view of complete and stripped down T33 jet trainers, B25 bombers, C45 and C47 cargo planes and T28 prop-driven trainers. Air Force equipment will be shown in a static display on the flight line.

An actual fire-fighting demonstration by WAFB crash crews will be held at the end of the flight line.

A fly-over of T33 jets will climax the tour at 5 p. m.

Two Big Spring school children, a boy and girl, will be named as honorary base commanders of Webb

Memorial Planned To Rice ROTC Dead

HOUSTON (AP)—A permanent memorial is being planned here for the 10 Rice Institute Naval ROTC cadets killed July 17 in a plane crash near Milton, Fla.

Asst. to the president, Dr. W. H. Masetron said yesterday it had not been decided whether the memorial would be a statue, building or other structure.

The students were among 44 killed when a C119 transport crashed and burned soon after a takeoff.

He's Agin It

OKLAHOMA CITY (AP)—An Oklahoma state senator today suggested martial law as a final desperate way of breaking the nation's ban on statewide telecasting of the Oklahoma-Notre Dame football game in Norman Saturday.

Seoul Rattles Its Sword With Talk Of Unity Drive

SEOUL (AP)—Prime Minister Paik Toon declared today South Korea "will expel the Chinese and Russian Communists from our territory" if the Korean political conference fails to achieve unification by peaceful means within 90 days after it starts.

Paik said his government will cooperate with the Allies to achieve unification of North and South Korea by peaceful means for only a limited period—150 days from the signing of the armistice July 27.

Paik said in an interview that the Communists already have violated the truce terms by bringing into North Korea MIG jet fighter planes from Russia after the truce. The Allied Command was believed to be considering a protest.

"They are violating the truce terms by every means," Paik added. "Did you expect the Communists to live up to the armistice agreement?"

Capt. Clark Speaks At Lions Luncheon

Capt. A. C. Clark, who heads aviation cadet selection team No. 207, was speaker at the Lions Club's weekly luncheon meeting Wednesday in the Settles.

He described the work of the selection team, and explained opportunities the Air Force offers high school graduates and college students.

Frank Epner and Darrell Flynt were guests at the luncheon.

Oct. 15 Is Deadline For Getting Braceros
MEXICO CITY (AP)—Oct. 15 is the deadline for contracting Mexican braceros to work in the United States, the head of the Migrant Labor Bureau said yesterday.

Joe T. Rocha, director of the bureau, said that 113,324 have been granted contracts. The quota has been set at 150,000. He said that the remaining 36,676 should be signed up shortly. No contracts will be granted after Oct. 15, he said.

Family Of 15 Given Catholic Rural Life Conference Award

KANSAS CITY (AP)—A Missouri family of 15 was named the National Catholic Rural Life Family of the Year last night.

The annual award made at the National Catholic Rural Life Conference went to the Joe Griesemer family. Thirteen members of the family live on a 160-acre dairy farm near Billings in southwest Missouri. Two daughters have married and moved away.

The Most Rev. Edwin V. O'Hara, bishop of the Kansas City diocese, said they were chosen because they have coupled solid farming practices with solid religious practices.

NOW YOU CAN TAKE OFF UGLY FAT FOR JUST \$1.69

Barocentrate is the original grapefruit juice recipe for taking off ugly fat. It's simple. Just ask your druggist for four ounces of liquid Barocentrate. Mix with grapefruit juice as directed on label. Then take according to directions. If the very first bottle doesn't show you the simple, easy way to reduce, return the empty bottle for your money back.

Over five million bottles sold in Texas in nine years. Nothing harmful and no starvation diet. You won't know a hungry moment taking Barocentrate.

Mrs. Perry R. Parrish, 6219 Lovett, Dallas, Texas, wrote us as follows: "I lost 27 pounds on my first two bottles of Barocentrate. I weighed 152 pounds. I now weigh 125. It also makes me feel better and keeps my weight at 125."

Only One Case In Corporation Court

When Judge Mack Rodgers reached the Corporation Court this morning he found the lightest docket in a long, long time—one charge of drunkenness and one of vagrancy.

Then when he started to call the docket he found it was even lighter than it had appeared.

Police Capt. Aaron, it was revealed, had already released the vagrant without waiting for the court.

A fine was imposed on the drunkenness charge.

Four More Enter Mexican Road Race

MEXICO CITY (AP)—Four more drivers have entered the fourth annual Pan-American Road Race to be staged Nov. 18-23.

They include three former contestants—Phil Hill of Santa Monica, Calif., Royal Russell of Lubbock, Tex., and Tom Dridale of El Paso, Tex. A newcomer is Domingo Marimon, well-known Argentine racer.

Approximately 40 entries have been received for the race. The deadline for entries is Oct. 15.

Mishap Reported

Police reported a traffic mishap at 3:03 p. m. yesterday at 3rd and Benton.

The motorists were listed as Howard Campbell, 1001 Gregg, and Billy J. McPherson of Dallas. No tickets were issued.

TRY THIS V8 POWER

THE GREATEST BUICK IN 50 GREAT YEARS

WORLD'S ONLY CAR WITH ALL THESE FEATURES:

- V8 Vertical-Valve Fireball Engine
- Dynamic Flow Motor
- Twin-Turbine Dynaflo
- Power Steering
- Power Brakes
- Beloved Million Dollar Ride
- Completely New Suspension Styling
- Tilt-Away Slide-Away Front Seats (Deluxe models)
- Custom-Club Interiors
- Powerwash One-Piece Windows Front and Rear
- Double-Rail Front Bumper
- Aluminum Discs

UP a long steep hill—from a standing start—that's where you ought to sample this Buick's silent might.

Or on an ultramodern turnpike, where you can cruise at legal limit in a practically effortless loaf.

But try it you should—just to know the exuberant experience this V8 power can bring to you.

For this is automotive power that springs from a V8 engine of unique design—the brilliant new V8 Fireball engine that nestles under the hood of every 1953 Buick SUPER and ROADMASTER.

It is the world's first and only V8 engine with vertical valves, and a muffler of zero power loss.

It is the only standard-production American car engine to reach 8.5 to 1 compression. It is the first Fireball V8—with a host of advanced engineering features—and with the highest horsepowers, Series for Series, ever provided in a Buick SUPER or ROADMASTER.

You ought to try this spectacular new Buick engine.

You ought to try it for instant response, for almost effortless power delivery, for silken quiet.

And, very definitely, you ought to try it teamed with Twin-Turbine Dynaflo* for new, solid getaway and truly infinite smoothness. Getaway that's instantly responsive—and really easy on fuel.

Come visit us soon and we'll introduce you to a wonderful new motoring experience.

Chemical Plant Burns

Smoke pours from the Lucidol Chemical Plant at Tonnawanda, N. Y., which was rocked by a series of explosions. Ten persons were killed and about 27 others injured. The blasts were felt over a wide area. (AP Wirephoto).

Blast Probe Is Ordered

TONAWANDA, N. Y. (AP)—The district attorney ordered an investigation opened today into a series of explosions that killed at least 10 workmen, injured 27 persons and blew a peroxide plant into rubble.

Fearing the death toll from yesterday's blasts might run as high as 12, searchers today probed the ruins of the one-story brick building for more bodies. Ten were recovered yesterday, but it was reported that 12 men were in the building.

A fire chief said the explosions, thought to have been in chemical storage tanks at the Lucidol division plant of the Novadel-Agene Corp., caused damage that would run into millions of dollars.

Dr. Francis Visser, Hooft, president of the firm, said "Apparently in some unexplained manner a batch of material ignited and the explosion followed." But the company said the precise cause was not determined.

87-Year-Old Woman Dies, Asking Help

TECUMSEH, Neb. (AP)—Mrs. Caroline Borrenpohl, 87-year-old semi-invalid, burned to death in a farmhouse yesterday after futilely shouting into her party line telephone: "The house is afire."

Neighbors who heard the call were unable to tell where it was coming from.

Sen. Wiley Opposes National Sales Tax

GREEN BAY, Wis. (AP)—Sen. Wiley (R-Wis.) said today the United States must increase its defense spending, but he said a national sales tax is the wrong way to raise the revenue needed.

Such a tax, he predicted would be "thunderingly rejected" by Congress. And he said the Eisenhower administration would propose and push through a sales tax only "if it wanted to dig its own political grave."

Many Republicans in Congress have been talking hopefully of cutting military expenditures further. But Wiley, chairman of the Senate Foreign Relations Committee, declared in a speech prepared for a luncheon meeting of the Green Bay Rotary Club:

"Defense expenditures are going to have to increase because we simply are not adequately prepared on a continental basis.

"We are all, of course, hoping that we will get increased efficiency in our armed forces and in other government departments, so we can make necessary savings.

"As we know, the Eisenhower administration is leaving no stone unturned in order to try to save every possible dollar which it reasonably can.

"But it cannot accomplish budget miracles. So, inevitably, we are having to search for new sources of revenue. . . It was only

natural that people should at least consider a national sales tax."

Secretary of the Treasury Humphrey has said a federal sales tax is one of many proposals being considered, but that no final decisions have been made on what to recommend to Congress. Tax law changes scheduled to take effect automatically next year will cost the Treasury about eight billion dollars a year.

Sen. Wiley said a sales levy "is the worst, unfair type of tax" because it falls most heavily on low income families.

He offered no specific tax suggestions of his own.

Wiley did not expand on why he felt that defense spending would have to be upped. He renewed, however, his call for the administration to give the American people "the minimum facts about the menace to our survival."

"Operation Candor is the prelude to Operation Survival," he said. "A people groping in the dark cannot come to sound decisions."

City Managers Elect

LOS ANGELES (AP)—Walter Seholm of Austin, Tex., was one of five vice presidents elected at the close yesterday of the International City Managers Association's annual convention.

Brisk Bidding At Nance Hereford Ranch Dispersal

AMARILLO (AP)—Brisk bidding by cattlemen from 41 states and Canada brought \$157,535 for 175 lots of cattle as the dispersal sale of the Nance Hereford Ranch near Canyon opened yesterday.

Approximately 2,000 stockmen are attending the sale, the largest of its kind ever held in the Texas Panhandle. The sale will continue through Saturday or until all 1,200 head are sold.

Top animal in yesterday's auction was NHR Zato Heir, a two-year-old bull, that was sold to E. L. Cord of the Circle L. Ranch, Dyer, Nev., for \$13,500.

Second high animal was another bull, H. C. R. Super Larry 27th, sold to Fair Oaks Hereford Farm of Boerne for \$11,500.

Ted Jhaber of the Ted Haber Hereford Ranch at Earth paid the top for females—\$5,000 for Haley Gertrudis III and her heifer calf.

Deaths Of Couple Held Murder, Suicide

BROWNFIELD (AP)—The shooting deaths of Mr. and Mrs. M. Leonard Jones of Carlsbad, N. M. near here yesterday have been ruled murder and suicide.

The inquest verdict was returned by County Judge Herbert Chesahr. The couple was found in the car about two miles south of Brownfield. Mrs. Jones, 43, had been shot twice in the head and Jones, 47, once in the temple. A .38 calibre pistol was found beside Jones' body.

Simon Bolivar, Latin American hero, was born in Caracas, in what is now Venezuela.

Varied Career Gives Authority To Dr. Walter Judd's Talks

A man with deep background in the field of medical science, as well as in world affairs, is Dr. Walter H. Judd, who will speak in Big Spring Saturday night.

Dr. Judd's appearance at the High School Auditorium at 8 o'clock is under auspices of the Knife & Fork Club. Members are foregoing their usual dinner session and are inviting a number of special guests, in order that a broad cross section of the city may hear the noted speaker. A capacity house is indicated.

Now a member of Congress (he was elected ten years ago), Dr. Judd has practiced as a physician and surgeon.

He is the son of the late Dr. H. H. Judd, associated for years with the Mayo Clinic and recognized as one of the nation's most eminent surgeons. The younger Judd himself studied medicine, and after getting preliminary degrees at the University of Nebraska, was a fellow in surgery, at the Mayo Foundation at the University of Minnesota. He taught zoology at the University of Omaha for two years and then interned at the University Hospital in Omaha.

The cause of medical mission work appealed to him and he became a medical missionary under the China Foreign Mission Board. He served at numerous points in China from 1925 to 1938, and it was during this long and intimate relationship with the Chinese nation and its people that he developed the background to make him one of the country's leading authorities on Far Eastern affairs.

He returned to this country in 1938 and spent two years lecturing throughout the country on U. S. foreign policy. He was a major advocate of boycotting Japanese goods and of placing an embargo

on shipment of American war materials to Japan.

He went into the practice of medicine and surgery in Minneapolis in 1941, and then entered the political lists two years later. There has been some speculation that Dr. Judd will be a candidate next year for the Senate from Minnesota, but he has not confirmed any plans for such a candidacy.

Dr. Judd had military service in World War I, entering service as a private and being discharged as a second lieutenant in the field artillery. He is a Phi Beta Kappa, and holds membership in major medical associations and many other civic and fraternal organizations. He is an active lay leader in religious causes, has spoken for religious groups many times.

Neighbors who heard the call were unable to tell where it was coming from.

Neighbor Shaves Hair Off Of Woman's Cat

OKLAHOMA CITY (AP)—"He's positively bald," a woman told Detective Lt. Walt Turner yesterday. "I want something done about it."

She explained she was talking about her Persian tomcat. She wanted that her neighbor had shaved the cat and "He can't go out without any hair on."

The neighbor admitted the deed, complaining he couldn't get any sleep because of the cat's wailing. Turner says he's checking to see if there is a statute against shaving a wailing tomcat.

Boxing stats table for Marciano vs LaStarza. Columns: Stat, Marciano, LaStarza. Rows: AGE, HEIGHT, WEIGHT, REACH, NECK, CHEST NORMAL, CHEST EXPANDED, WAIST, BICEPS, FOREARM, FIST, WRIST, THIGH, ANKLE, CALF.

SET FOR 8:30

Marciano, LaStarza Square Off Tonight

By MURRAY ROSE
NEW YORK (AP) — Heavyweight Champion Rocky Marciano tests his vaunted wallop and risks his one-year-old crown tonight against Roland LaStarza, a supremely confident challenger, in a 15-round title fight at the Polo Grounds.

The handsome, 26-year-old New Yorker firmly believes he beat Marciano (Rocky won a split decision) in their first meeting 3 1/2 years ago and he is sure he is going to make it official in the ball park with some 32,000 fans looking on.

Despite the challenger's optimism there were only a few of the fight experts who believe the ex-collegian will be able to escape the numbing blows of the aggressive, powerful 29-year-old champion.

The odds are 4-1 that the undefeated Brockton blaster would win; 12-5 that LaStarza would be knocked out; 9-5 that Roland wouldn't finish 12 rounds and even money he wouldn't complete eight rounds. It was 8-1 that LaStarza wouldn't stop the durable Marciano.

There was only light wagering reported on the actual outcome itself. Most of the betting was concentrated on how many rounds the scrap would go.

Starting time for the outdoor bout is 8:30 p.m., CST. There will be no television or broadcast into the homes from the park. A telecast will be beamed over a closed circuit to 45 theaters in 34 cities and towns from coast to coast.

With the weatherman forecasting fair and warmer weather, President Jim Norris of the International Boxing Club, stuck to his prediction that the fight would gross about \$400,000. The IBC will collect a minimum of \$100,000 from the theater-cast, making a possible total of \$500,000 the gladiators will share in.

More conservative guessers figured the fight would gross no more than \$350,000. If the melon reaches \$500,000, Rocky, in for 42 1/2 per cent, will

receive about \$170,000. LaStarza, who gets 17 1/2 per cent, will collect about \$70,000. Roland's previous highest purse was the \$13,000 he earned when he dropped the controversial ten rounder to Rocky in Madison Square Garden, March 24, 1950—the turning point in the careers of both fighters. "I'm going to win, said the

broadchested challenger. "I beat him before and I know I can beat him and I can outsmart him. He can be hit by a jab, a hook, a right and practically any kind of a punch. I may stop him or even knock him out. Probably stop him because he cuts easily and his eyes close up."

Big Spring Horses At Albuquerque

Big Spring owned horses will return to action when the New Mexico State Fair Program gets underway at Albuquerque Saturday. Trainer Johnny Ray Dillard has moved on to Albuquerque following a successful campaign at the other New Mexico tracks with Equichall, Jolly Kay and Miss Cobra.

Truett Taylor has arrived with the Doyle Vaughn colt, Cobra Hella. Equichall is owned by J. T. Dillard while Mr. and Mrs. Bud Tucker are owners of Jolly Kay and Miss Cobra.

The Albuquerque State Fair, an eight day annual event, features daily racing among its many attractions. Entered for action on the Saturday's opening card is Equichall in the Inaugural Handicap and Jolly Kay in a filly and mare allowance.

Both horses ran a credible third

in their last start at the Raton track two weeks ago.

Drawings for a place and post position are to be held there today and if drawn out, both will in all probability be re-entered for the Sunday program.

The two-year olds, Miss Cobra and Cobra Hella, will not see action before mid-week. Cobra Hella who has been inactive since winning at Denver has shown remarkable recovery from a pulled stiff-lem and will possibly be able to appear in a two-year-old event.

The Albuquerque meet closes out the season's racing for the New Mexico tracks, with many owners going into winter quarters from there.

Many of the Texas owners will however, ship to Del Rio, for two weekends of racing there beginning October 9.

Pampa's Offense Poses Big Problem For Steer Line

Pampa, a team that may go 'all the way' in the AAAA football race this season, plays host Friday night to an AAA team—Big Spring

—that was picked to, by some observers.

The Harvesters, coached by capable Tom Tubbs, rolled over El Paso Austin with astonishing ease last week, 39-6. Big Spring, meanwhile, was losing in an upset to San Angelo 27-26.

The Steers take a dress rehearsal this afternoon in final preparation for the game. They depart via Greyhound Bus at 6:45 a. m. Friday, going by way of Amarillo. In Pampa, they will stay at the Schneller Hotel.

Only four regulars of last year's Pampa team returned this year but three of those are backs.

The Harvesters are supposed to have the best backfield among schoolboy teams in Texas.

Ed Dudley, the Harvesters' breakaway runner, is perhaps the best all-around back in the state.

Last year's regulars with the team, in addition to Dudley, are J. N. Wright, who does the passing; back John Darby and guard Alton Flynn.

Harold Lewis rounds out the Pampa secondary and Harold played about as much as any other member of the secondary in 1952.

The game could be a high scoring contest, since Big Spring showed a splendid offense against Angelo last week.

Boys like Brick Johnson, J. C. Armistead, Billy Martin, Buddy Cosby and Frank Long will give the Pampa forwards a major test.

A number of local fans are due to follow the team to Pampa, although tickets for the game aren't being sold here.

The recommended route to Pampa is north on Highway 87 to Lubbock and Amarillo and Highway 60 to Pampa.

CLOVIS OUT FRONT
CLOVIS, N.M. (AP)—Red Dial, giving up seven hits, steered the Clovis Pioneers to an 8-2 victory over the Albuquerque Dukes last night and 3-3 lead in the WT-NM League final playoff.

Dallas Hammers Nashville Vols In Opener, 7-1

DALLAS (AP)—Dallas' hammering Eagles had the Nashville Vols one down today in the fight for the baseball championship of Dixie.

The Eagles clattered out 10 hits while big Howie Anderson held the Vols to four last night in the opening game of the Dixie Series as 8,762 fans paid \$17,155.49 to watch it.

The second game tonight will see Nashville depending on Pete Modica, a righthander with a season record of 9-5 and who won three games in the Southern Association playoffs, while Dallas will use its ace, righthander Wayne McLeland, who notched a 16-4 record for the season and won four games against no losses in the Texas League playoffs.

Tomorrow the clubs travel to Nashville to resume the series Saturday night.

Anderson was in deep trouble in three innings as he throttled the bats of the Vols but he fought his way out. For instance, in the seventh inning with the bases full, one run in and two out, he struck out Jack Harshman, Nashville's great pitcher who is quite a hitter. Harshman was doing pinch-hit service.

Starting with the second inning, Anderson retired 15 straight batters and he also cut down the Vols in order in the ninth.

Dallas battered three Vol pitchers as Willie Brown socked a 361-foot home run to greet relief hurler Jim Singleton in the seventh. Dick Libby had started for Nashville but was pounded for seven hits and five runs in 5 1-3 innings. Tony West relieved him and worked the remainder of the sixth inning.

Women Organize Gym Class At Local Y

A women's gym class, made up of wives of Webb Air Base personnel, was organized at the Y Wednesday morning.

A dozen women attended and at least 17 will attend future sessions, which will be conducted at 9:30 a. m. every Wednesday.

Mrs. Kenneth Clapham is president of the group. LaNeil S. Thomas will serve as director, having been employed by the Y for that purpose.

THE WILLIAMS STORY, PART 4

Ready Teddy Has Great Reflexes, Top Eyesight

By JOE REICHLER
BOSTON (AP)—What makes Ted Williams so great a hitter even at the advanced baseball age of 35 when most ball players are either nearing or have reached the end of the trail?

To begin with, the tall Boston Red Sox slugger's reflexes are as quick as ever. He still is the perfectionist, refusing to swing if the pitch is a fraction of an inch outside the strike zone. His judgment is remarkable. Ted believes every pitch in the strike zone is a potential home run. He doesn't believe in mere singles and doubles—those are only for the ordinary batters.

Ted's hearing may have been impaired from flying those zooming jets in Korea but his eyesight remains perfect. While training during World War II, Navy doctors said his eyes would occur only six times in 100,000 persons. Examined again in Korea, his eyes were found to be still 20-15, which is better than normal vision.

An incident referring to his remarkable vision told to the writer may be worth re-telling. The first time Williams took batting practice after his return from Korea, he yelled out to Joe Cronin, Red Sox general manager, that home plate was not level with the pitcher's mound.

"Get those surveyors of yours to fix home plate," Ted roared. "It's cockeyed."

Cronin told Williams he was crazy since hundreds of ball players had taken their place at the plate and nobody had complained. To satisfy Williams, however, he called in the groundkeepers who, after careful measuring, found that home plate was off its direction about a half inch.

Here is another example of Williams' keen eyesight. While playing golf with his friend and business manager, Fred Corcoran, he was walking along the fairways of

Charles River Country Club and he espied a person heading in their direction.

"Here comes that Gerry Hern of the Post, probably looking for a story," Williams observed.

Corcoran turned in the direction where Williams was looking and saw a figure, not clearly visible, some 350 yards away, coming towards them.

"I see somebody coming," Corcoran remarked, "but I'll be darned if I can distinguish him. Why, he's about 300 to 350 yards away."

Hern later corroborated the story.

"He's remarkable," marveled Hern, the able Boston Post columnist. "Williams today is 20 per cent better hitter than he was before he went away. He is sore in every part of his body, his hands have blisters under blisters, yet he is hitting the ball harder than he ever did before.

The reason for his improvement? He is now getting more use of his forearms and wrists. He used to depend mostly upon his body. Now because of his aches and pains, he has to combine the two. That's why he is getting such tremendous power. He has powerful arms and wrists. Ever notice the way he squeezes the bat as he waits for the pitch. Like he's trying to grind it to bits."

Williams laughed off his aches and pains but admitted he was tired.

"Yes, I'm tired," he said, "but not physically. Just mentally. I'm tired of this hustle and bustle, going to this affair and that affair, seeing this person and that person. I'd like to get away and hide

Mexicans Counting On Third Victory

MEXICO CITY, (AP)—Mexican football fans were expecting a third victory Saturday for National Polytechnic Institute's grid aggregation.

The Mexico City team plays Henderson Junior College of Athens, Tex.

In two earlier encounters with U.S. teams this season, Poly has been the victor.

Phil Ace Won't Win 30 But He's Had Fine Season

By BEN PHILEGAR
Associated Press Sports Editor

Robin Roberts is going to fall considerably short of some of the glowing predictions made for him early in the season but the Philadelphia strong boy has still had quite a year.

"Contrary to some of the optimistic experts, Roberts didn't 1. Win 30 games. 2. Pitch 400 innings. 3. Start every third day without a break.

But with one more starting assignment to come before the season ends on Sunday, the Phillies' right-hander is sure to 1. Win possibly 24 games, as many or more than anybody else in either league.

2. Pitch more innings than any National League since Grover Cleveland Alexander in 1920, and more than anybody except Alexander in the league since 1907.

3. Start more games than any other pitcher in the league this year.

Roberts won his 23rd game last night, edging the New York Giants, 2-1, on six hits. It was his 40th start and his 33rd complete contest. For the 14th time this season he didn't walk a man.

Despite a bleak month starting in early August, Roberts' control record has been phenomenal. He leads the league in strikeouts with 190 and has walked only 61 men, an average of less than one every five innings. Christy Mathewson pitched 13 games in 1908 without giving up a walk, but the best the great Walter Johnson could do in one season was 19 walks in games in 1913.

Roberts probably will start Sunday against the champion Brooklyn Dodgers. So far he's worked 240 innings, 10 more than last year. With another two innings there'll be nobody between him and Alexander on the workhorse list. Alexander pitched 389 innings in 1916, 388 in 1917 and 303 in 1920.

Another pretty fair pitcher turned in one of his usual excellent performances last night as Warren Spahn of the Milwaukee Braves beat the St. Louis Cardinals, 3-1, for his 22nd victory. Spahn has lost only seven games. Roberts has been beaten 15 times.

The combination of Roberts and Spahn moved the Phillies and Cards into an exact tie for third place in the National League. Each club has three games to play.

In other action yesterday, the pennant-winning New York Yankees defeated Philadelphia, 3-1, and Cleveland clinched second place in the American League with an 8-3 verdict over Chicago.

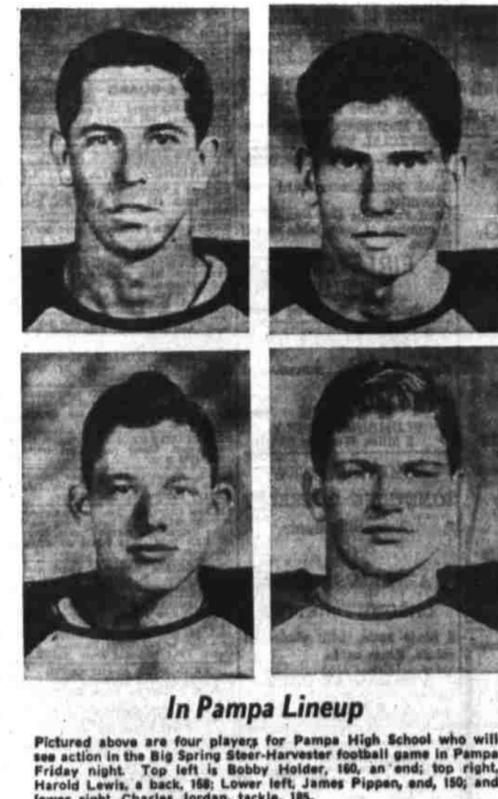

Cincinnati nursed its hopes for a fifth place finish with a 4-3 decision over the Chicago Cubs. The Redlegs, assured of at least sixth place, were finished there last three seasons, trail the fifth place Giants by a game and a half.

Ed Lopat took a seven inning World Series workout against the Athletics and everybody on the Yankees was satisfied he's really ready. He gave up a run, eight hits, walked no one and struck out four.

Undefeated List Shrinks in Texas

By HAROLD V. RATLIFF

By The Associated Press

The Texas schoolboy football campaign rolls into its third week with only 178 of the 478 teams in the four top classes boasting undefeated, untied records.

The casualty list is due to be heavy this weekend and chances are that fewer than 150 will have perfect records when the smoke clears away.

All along the line unbeaten, untied eleven meet each other while many with unblemished marks clash with teams that can tumble them without batting an eye.

The headline game matches undefeated, untied teams from different classes—Waco at Temple Friday night. Waco is an acknowledged power of Class AAAA and Temple is a highly rated team in AAA, seeking a third trip to the state finals.

Amarillo meets Pechal (Fort Worth), Miller (Corpus Christi) clashes with North Side (Fort Worth), Adamson (Dallas) plays Lamar of Houston and Brackenridge (San Antonio) jousts unbeaten but one-tied Fort Arthur in other stand-out games in Class AAAA.

Erskine May Pull Iron-Man Feat

By JOE REICHLER

BROOKLYN (AP)—Carl Erskine, smallest and lightest of Brooklyn's pitchers, will attempt an Iron-Man stunt in the World Series between the Dodgers and New York Yankees starting next Wednesday.

The 5-10, 160-pound right-hander, only 20-game winner among the Dodgers, is slated to pitch the first, fourth and seventh games.

Brooklyn Manager Charlie Dressen disclosed today that is contingent of course, on the series going the limit of seven games.

Dressen's overall pitching plans are pretty well set except for the third and fifth games. Preacher Roe, the 35-year-old southpaw, is a certainty to pitch the second game. The canny veteran has a perfect 2-0 record against the Yankees in World Series competition.

Price Will Stick To Old System

By The Associated Press

While some other Southwest Conference grid squads looked for additional reserve strength, Coach Ed Price of Texas said Thursday he would stick to a team substitution plan.

Price had been hearing complaints about his substitutions after Texas' 20-7 loss last week to Louisiana State. But as he got his squad ready for Saturday's Villanova game in Austin Price said, "We are banking on having three teams ready to go."

Rice, 30-16 victor over Florida, had four players sidelined as the squad tapered off training this week but trainer Eddie Wolcicki, glad the Owls would be idle Saturday, said he thought all hands would be ready for the Oct. 3 tussle with Cornell at Ithaca, N.Y.

Baylor coaches strove to develop second and third-stringers to give the Bears a greater supply of reserves against Miami, Oct. 2. The Bears open the Southwest Conference race against Arkansas Oct. 10.

Baylor, 25-0 upset winner last week over California, is idle Saturday.

At College Station, Coach Ray George of Texas A&M sought ends to replace injured wingman Don Robbins and Eric Miller. The Aggies, pepped up by their 7-4 triumph over Kentucky, meet the University of Houston Saturday in College Station.

Irish Will Plane To Site Of Game

NORMAN, Okla. (AP)—Ever since they got together on the idea that top-ranked football teams should play one another, Notre Dame and Oklahoma have been almost like twins in national ratings.

Whether they stay that way after Saturday's big game and through the life of their new home-and-home series may depend upon the success of talent juggling in this year of the big switch from platoon to individual football.

Notre Dame will fly in from South Bend, Ind., Friday afternoon, but Coach Leahy decided to keep his lads overnight at Guthrie, Okla., to avoid the crowds. Coach Bud Wilkinson is taking his boys to Oklahoma City for the night.

One-Platoon Ball Not New To Teams

CANYON (AP)—One-platoon football is nothing new to a couple of teams that clash here Saturday night—the McMurry Indians and the West Texas State Buffaloes.

Wilford Moore, head man at McMurry, has never coached anything but one-platoon teams in his seven years and three Texas Conference championships with the Indians.

It's the same way with Frank Kimbrough's Buffaloes. In Kimbrough's opinion, the limited-substitution rule will greatly benefit West Texas State. Year in and year out the regular Buff offensive men have also been their best defensive players, Kimbrough stated.

Ben Hogan To Make Golf Equipment

FORT WORTH (AP)—Ben Hogan, the golf great, has obtained the site of the factory where he will manufacture a new top-line golf club but he says it will be four to six months before production can begin.

The American and British Open champion said his factory would be located in the Santa Fe industrial district on a site which includes an air-conditioned office building and a warehouse.

"It's really bigger than we need right now," he said, "but it looked so good we wanted it."

FCC Says Grant

WASHINGTON (AP)—The Communications Commission yesterday temporarily stayed its grant of Sept. 2 to Memorial Broadcasting Co. for a new standard station at Commerce, Tex., on 1459 Kilometer, 250 watts, unlimited time. The announcement said a protest by Station KENTY of Denton, Tex., will be made the subject of a hearing on a date to be set.

Class A League May Be Formed

DALLAS (AP)—Reorganization of the Big State League with prospects of it advancing from Class B to Class A is due to be perfected at a meeting here Sunday morning.

At least two new members are expected. George Schepps, owner of the Corpus Christi club in the Gulf Coast League, said he would apply for membership and it accepted would propose that the league go to Class A. Galveston and Port Arthur, also of the Gulf Coast League, are due to also seek membership.

This apparently means the death of the Gulf Coast League since Lake Charles, another member, is entering the Evangeline League next year.

The Big State League now has Longview, Tyler, Wichita Falls, Paris, Austin, Temple, Bryan and Texarkana, but Longview's franchise shifts back to Waco next year while Paris is expected to enter the newly-organized East Texas League along with possibly Tyler and Texarkana.

Brownsville, Laredo and Harlingen, now in the Gulf Coast League, are expected to form a Class C league in the Rio Grande Valley.

DALLAS (AP)—Reorganization of the Big State League with prospects of it advancing from Class B to Class A is due to be perfected at a meeting here Sunday morning.

At least two new members are expected. George Schepps, owner of the Corpus Christi club in the Gulf Coast League, said he would apply for membership and it accepted would propose that the league go to Class A. Galveston and Port Arthur, also of the Gulf Coast League, are due to also seek membership.

This apparently means the death of the Gulf Coast League since Lake Charles, another member, is entering the Evangeline League next year.

The Big State League now has Longview, Tyler, Wichita Falls, Paris, Austin, Temple, Bryan and Texarkana, but Longview's franchise shifts back to Waco next year while Paris is expected to enter the newly-organized East Texas League along with possibly Tyler and Texarkana.

Brownsville, Laredo and Harlingen, now in the Gulf Coast League, are expected to form a Class C league in the Rio Grande Valley.

Weary, but happy, Maj. Gen. and Mrs. William F. Dean are all smiles as they prepare to enter their home in Berkeley, Calif., after the general's arrival from the Orient, three years in a Communist prison camp behind him. It was the first time the general had ever seen the house as Mrs. Dean purchased it while he was a prisoner of war. The Medal of Honor winner was given a hero's welcome as he landed at nearby Travis Air Base. (AP Wirephoto).

Bar Seeks To Halt Non-Lawyer Legal Practice

By The Associated Press

The second of a series of 21 State Bar of Texas-sponsored institutes designed to stamp out unauthorized law practice was set Thursday in Greenville to be followed by a third Friday in Texas.

First of the series, attended by 100 attorneys, was held Wednesday in Wichita Falls.

"More law is being practiced in the smaller communities in Texas by non-lawyers than by licensed attorneys," Robert A. Kilpatrick of Cleburne, chairman of the State Bar's Unauthorized Practice Committee, said.

Kilpatrick listed the chief "of-

fenders" as notaries, real estate brokers, banks, insurance firms and abstractors.

"Many of these people are drawing up wills, deeds, and contracts even though the law specifically prohibits this," Kilpatrick told the Wichita Falls meeting.

"The public is being hurt by this practice. Most of the documents are improperly drawn and often lead to expensive and unnecessary legal action."

"We are going to take steps to stop this," Kilpatrick said and added that the bar association plans to hire an "outstanding attorney" to aid in filing proper legal actions.

State Bar Vice President R. V. Nichols of Fort Worth said former Chief Justice Earl P. Hall of Fort Worth was the top candidate for the post mentioned by Kilpatrick. He said he expected that Hall would be formally chosen for the task next month.

Johnson Continues Central Texas Tour

By CLAYTON HICKERSON Associated Press Staff Writer

U.S. Senator Lyndon Johnson, continuing what he terms "a report to the people," hopped, skipped and jumped through the Brazos Valley and West Central Texas Thursday.

The fast-moving Senate Democratic leader, working far into the night, swept through the Central Texas district of Rep. Olin Teague Tuesday and Wednesday, winding up his two-day work at an "open house" in Marlin late Wednesday night. "I like to look 'em in the eye," Johnson said.

Thursday, he planned a speech on the campus of Baylor University in Waco at 10 a. m. to be followed by a luncheon address in Temple and brief appearances during the day at Belton, Killeen, Copergas Cove and Gatesville.

Johnson told the Associated Press Wednesday night he was "merely continuing a practice I have followed since I have been in the Senate" of seeing every constituent possible. Wednesday he shook hands, chatted and let loose with brief oratory at Mexia, Teague, Fairfield, Buffalo, Hearne, Franklin, Calvert, and Bremond in addition to the Marlin stop.

Wednesday night he rested in a Waco hotel and told a reporter he had been trying to practice what he heard a dairyman say were good rules to follow: 1. Do right, 2. Make yourself available, and 3. Tell about your product.

"A Senator has two constituencies," Johnson said, "his people back home, and his colleagues in the Senate. He must serve both. I've been trying to report to the people back home what Congress has been doing, especially what the Senate has been doing."

"I want them to know Lyndon Johnson so that when I ask them for their vote, they won't be apt to say they elect me and never hear from me again. I want them to ask me questions about their problems, and naturally I want to do everything a Senator can to help. I have just had seven months in Washington and have five months in Texas to try to see thousands and thousands of friends

and constituents."

And it seemed the Senator might be seeing a great portion of them. At Corsicana Tuesday night, he had met with Reps. Teague and Lloyd M. Bentsen Jr. of McAllen, Judge W. S. Barron and U.S. Marshall Clifton Carter of Bryan, and veteran Democratic leader Drew Gillen of Blooming Grove.

In Hearne Wednesday, he was surrounded by State Senator Bill Moore, Dr. M. T. Harrington, chancellor of Texas A&M College; John D. Harper, Aluminum Corporation of America, Rockdale; Mayor W. P. Hogan, Rockdale, and Baron and Carter again.

He was to meet similar groups in his swing through the heart of Texas Thursday. Johnson said he was going to try to spend two or three days in each of the state's congressional districts. "I just finished over in Tiger's (Rep. Teague)," he said, "and now I'm in Bob's (Rep. W. R. Poage of Waco)."

Wednesday had been proclaimed Lyndon Johnson Day in Robertson County by mayors of the various towns and he was honored at a noon-time barbecue.

In his talks, the Senator tells his audience that the international situation is tense, that he favors a balanced budget but that you can't fend off enemy A-bomb attacks with roses of pretty figures. He says we have domestic problems but that "they can all be solved in the spirit of serving America rather than serving partisan interest."

Republican National Committeeman Jack Porter of Houston said recently his party would oppose Johnson for re-election in 1954. But Johnson says the Democratic Party minority in the Senate has more often supported the Eisenhower administration than it has opposed it.

"We are not going to be obstructionist," he said. "We will vote for America rather than petty partisan interests."

Often called a "young man in a hurry" by political friends and foes, Johnson was living up to the name as he dashed through a large section of Bob Poage's congressional district Thursday.

Time Saving Gadget

Lt. Col. William S. Smallwood, personnel officer at Webb AFB, watches as Audrie Wood, civilian employe, demonstrates the "hook-over step" which he designed. The step is attached to the tire and enables the mechanic to work on the larger vehicles with a greater ease. (Official USAF Photo).

Webb Civilian Employee Uses 'Noggin' To Save His Back

If you build a better mousetrap, the world will beat a path to your door, according to the old saying. At Webb AFB, Civilian Employee maintenance specialist, has built a better mousetrap—except that his mousetrap was designed to catch those fleeting man-hours lost by inefficient planning instead of elusive little rodents. Wood, who used his noggin to save his back, was tired of standing on the ground next to the fender of a truck or car, then bending over almost double to work under the hood of the vehicle. Not only did he get kinks in his back, but he could just barely reach and see what he was working on. Slowly but surely, an idea took shape in Wood's brain. The result was a hook-over step that is attached over the top of the front tire on a vehicle. Then, fastened to the hook-over rods, in a single step several inches off the ground. The mechanic stands on the step

In order to reach under the hood of the car without straining. Now he not only can reach his work, and easily see what he is doing, but he no longer must climb all over the vehicle in order to get his work done. Further, he has made the step adjustable so that regardless of the length of his legs, any mechanic can use the device. At Webb alone, manpower management planners estimate that man-hour savings will amount to 330 hours a year, and up to 15 additional vehicles can be repaired by the same number of mechanics in a month's time. Six other AF bases already have adopted Wood's invention, and he has received a \$35 dollar award from Webb and another fifty dollars from the Flying Training Air Force. The path to Inventor Wood's door is becoming well-worn already, and perhaps other military units and commercial firms may see fit to adopt his time-saving device. Wood lives in Big Spring at 1107 Mulberry Avenue with his wife and nine-year-old daughter. He has been a mechanic for 23 years and has 12 years service with the government, the last year of which has been at Webb AFB.

Rescue Viewed By TV Audience

CHICAGO (U)—Television viewers today saw the dramatic rescue of a distraught woman who climbed to a ledge of a skyscraper and threatened to jump to her death. For more than an hour police, firemen, a priest and office workers appealed to her from a fire escape to reconsider and return inside. As abruptly as she climbed out on the 20th floor ledge of Tribune tower she was hauled back to safety. Shortly after the suicide threat became known WBBM-TV began putting the real-life drama on the air for viewers in the Chicago range. It also fed it into the Columbia Broadcasting System network for all affiliates able to clear away scheduled programs and air the rescue. The rescue was accomplished when the woman, Millcent Armin, 36, of Chicago, reached back into the building to pat her pet boxer dog. Someone grabbed her arm and pulled her inside.

Local Man Receives Safe Driving Award

Everett Freeman of Big Spring has been awarded a silver emblem given by Humble Oil & Refining Company's Sales Department for five or more years of safe driving. The emblem, made to be worn on cap or clothing, is trimmed with a green safety cross and a suitable inscription. It was presented to Freeman by Freeland Austin, local manager. Freeman, an experienced truck driver, served during and after World War II as an Army staff sergeant in charge of maintenance in his headquarters motor pool. He came to work for Humble in 1947 in Waco. Since 1949 he has been a transport operator at the Big Spring Terminal.

Two Killed In Utah Air Base Jet Crash

DENISON (U)—Capt. George P. Kelly, 32, of Houston and 2nd Lt. Joseph B. King Jr., 22, were killed Monday night when their jet training plane crashed at Hill Air Force Base, Utah. King was a student pilot and Kelly his instructor. The plane was on a flight out of Perrin Air Force Base, en route to Madford, Ore.

Back To Farm Movement Gets Going In Russia

Editor's Note: For several years William L. Ryan has been writing about Russia. Now he is in the Soviet Union as a correspondent of the Associated Press. His dispatches from there, of course, will be subject to the usual censorship.

MOSCOW (U)—A back to the farm movement is underway for many thousands of Communists as a result of the Soviet government's determined drive to raise agricultural production swiftly.

Articles in Pravda and other Soviet organs report the movement of Communists, technicians and specialists. Many of them left the farms years ago for the lure of city life. Now, the papers say, they are eager to return to the countryside and help in the drive.

The call for the movement to the fields was sounded in the report on the Soviet farm situation last week by N. S. Khrushchev, first secretary of the Soviet Communist party.

He recalled that in 1933, at the end of the first collectivization drive, "17,000 party officials were sent to the help of the collective farms for work in political organization." Many thousands of others were sent for the tremendous job of agricultural reorganization.

Now Khrushchev suggests that the party issue a call for 50,000 Communists from among the "best people from the towns" to strengthen the farm front. He made plain that it is the Communist party's primary responsibility to raise agricultural levels to the point where it will be possible to carry out the government's promises of a fully adequate consumer supply within three years.

Khrushchev said the Soviet Union now has a sufficient base of industry and collective farms to begin carrying out such promises. The Communist party, he added, must supply the necessary management.

The task will be to transfer a big army of specialists from the party apparatus to actual production. Khrushchev has indicated the program must be underway by February, at least, so that by spring thousands of capable organizers will participate in the "active struggle" for the high harvests and upsurge of animal production the government hopes to see next year. The focusing of attention on agriculture—and thus on consumer goods—for the next several years is regarded by foreign observers as one of a long series of logical moves on both the domestic and foreign scene by Premier Georgi Malenkov's government. The farmers should benefit from the program by an increase in personal income, but it was made clear to them they must earn such benefits by improving their methods and output.

National Contest To Follow Up Kids Day

National Kids Day will get a super-boost this year with a national elimination contest sponsored by Kiwanis International and the United States Air Force.

After Kids Day is over Saturday, the local honorary base commanders, a boy and a girl who have been selected by Big Spring Kiwanians and Webb AFB officers, will be entitled to enter an Air Training Command-wide essay contest on the subject "Responsibilities of Citizenship in the Air Age."

The new contest rules state that the honorary base commanders' essays must be 500 words or less and must be submitted to the local Air Force Base two weeks after Kids Day.

The entries will be sent to Air Training Command Headquarters at Scott Air Force Base, Ill., where they will be judged by a joint committee of Kiwanians and ATRC officers. The boy and girl winners of the ATRC-wide contest will be announced immediately after November 1. The winners will represent the Air Training Command at an honorary Base Commanders' conference in Washington on Nov. 23 and 24, during Thanksgiving school holidays.

Age limits for the contest have been set at 16 years maximum and 10 years minimum. The entries will be judged primarily upon moral

qualities, broad citizenship orientation, air age orientation, and literary quality.

Air Training Command winners, who will be chosen from the 43 ATRC bases, will be flown to Washington in military aircraft for the two-day stay. While in Washington, they will stay at Bolling Air Force Base on the Potomac River. During the two days, the honorary commanders will meet with General Nathan Twining, Air Force Chief of Staff, and top officials of the United States government.

Since a boy and a girl will be selected from each Air Force Command, the boys will be known as honorary Air Force commanders, and the girls as honorary Women's Air Force (WAF) commanders.

After their two days in Washington, the boys and girls will be flown to their homes on November 25.

If time permits, the boy and girl selected from Air Training Command will receive a special tour of the command headquarters near St. Louis and will meet with Lt. Gen. Robert W. Harper, ATRC commander while enroute to Washington.

Col. Fred M. Dean, Webb commander, said that he wants to encourage the honorary Webb com-

manders to do their utmost in writing their essays.

"If you should win the command-wide contest," Col. Dean said, "you will not only bring great credit to yourselves, your parents, Big Spring, and Webb Air Force Base, but you will gain the experience of a lifetime. Win or lose, you will have learned much in good citizenship and in thinking out in your own minds the future that airpower must assume in national defense and commerce."

Benson Man Says Good Farmers Will Do Okay

COLLEGE STATION (U)—Efficient farmers doing a good job need have no fear of the future, Undersecretary of Agriculture True D. Morse says.

Morse told a group of student farmers and agriculture department leaders at Texas A&M College Tuesday that the price decline on farm products has been checked.

Do FALSE TEETH

Rock, Slide or Slip?

PASTERETH, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No gummy, goopy, pasty taste or feeling. PASTERETH is also like (non-acid). Does not sour. Checks "bad odor" (denture breath). Get PASTERETH at any drug store—(Adv.)

Uncle's Deathbed Story Was Correct

LOS ANGELES (U)—Eleven years ago, when Constance Mertens' uncle was on his deathbed, he told her there was money buried in the chickenyard.

Tuesday, a bulldozer grading the site for an automobile sales yard, turned up three glass jars containing \$1,900 in silver and currency.

Miss Mertens was watching when the money was uncovered. She said she and relatives had dug "all over that chickenyard without finding the money."

She gave each of the eight workmen one of the silver dollars as a memento.

KIDNEYS MUST REMOVE EXCESS WASTE

Heading backache, loss of pep and energy, headache and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday conditions, such as stress and strain, cause this important function to slow down, many folk suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many Doan's give happy relief from these discomforts—help the 15 million of kidney tubes and filters flush out waste. Get Doan's Pills today!

H-Bomb Is Now Like A Hole Card In Poker Game

By ALTON L. BLAKESLEE
NEW YORK, Sept. 19 (AP)—The H-bomb now is something like a hole card in the poker game of international armaments.

No one admits having this hidden ace—have a practical H-bomb ready to use in a war. But his opponents can't be sure. Is it there? Is he bluffing? Will he draw it the next time around? If he doesn't, will he go on bluffing?

Both the United States and Russia have admitted only making tests involving or contributing to hydrogen-type explosions. This means they've shown that H-bomb reactions are technically feasible. That kind of controlled test is a long step from practical, deliverable H-bombs having 10 to 100 to 1,000 times the force of A-bombs. The peculiar nature of H-bombs raises difficult problems, different from those met with A-bombs.

Each side would like to know where the other stands on these problems—know when the other could actually play its H-card. Meanwhile, Russia's claim, borne out by the U. S. Atomic Energy Commission, of detonating a "type of hydrogen bomb" has powerfully affected our thinking on numerous subjects.

Some senators and other officials call for strengthening our civilian defense. Some say we should work harder toward more potent and new weapons; another that our stockpile of atomic weapons is big enough now, and we should economize on the atomic program. Arguments over cutbacks in the Air Force are revived. There are renewed urgings to relax secrecy about atomic weapons so citizens can have more facts on which to base U. S. policy, and new demands for tighter secrecy to keep the Russians from learning things we know.

There is a belief we are two years ahead of Russia in H-bomb knowledge and abilities. Some people take comfort from that; others ask what good it is to be able to wipe out an enemy 20 times over if he can wipe us out once? There is fear that maybe the Russians already know how to make a better H-bomb than we do.

Despite official secrecy, many scientific facts about H-bombs are known, and many expert guesses and speculations have been published. These offer some guide to a person in his thinking about H-bombs.

The basic essentials are easy to understand. One fact is that the A-bomb is a trigger or match for an H-bomb. The terrific heat and pressure gen-

erated by an A-bomb are needed to start the hydrogen chain reaction. The A-bomb creates energy by splitting heavy atoms of uranium-235 or plutonium. The heavy atom splits into pieces which together weigh less than the original heavy atom. The lost weight or mass is turned into energy, creating the heat, heat and radioactivity.

The hydrogen reaction works by fusing together the cores of two hydrogen atoms into one helium atom. The helium atom weighs less than the two hydrogen atoms. The lost mass again is released as energy.

This principle was known to scientists, including Russians, in the 1920s. But until the A-bomb came along, there was no trigger powerful enough to create the hydrogen reaction. Ordinary hydrogen, like that in toy balloons, won't work in an H-bomb. It takes too long for its atoms to fuse together. Special kinds of hydrogen offered the chance of starting a reaction in the millionth of a second before an A-bomb flies all apart.

There is deuterium, or double-weight hydrogen, which can be recovered from water. There is tritium, triple-weight hydrogen, which exists in only tiny amounts in nature, but which can be made artificially.

Chemists tell of seven methods of making tritium. One is to bombard lithium in atomic reactors with neutrons from U-235 or plutonium. The big question was whether any combinations of deuterium and—or tritium could be set off before the A-bomb match blew out in a split second.

The answer is yes. While the AEC never said so specifically, its announcement about the Eniwetok big blast a year ago is widely interpreted as meaning that some degree of hydrogen reaction was made to work, for a bigger bang on top of the A-bang. The Russians clearly claim to have achieved a hydrogen reaction. Eniwetok, one educated guess is that the H-blast was the equivalent of exploding four million tons of TNT. The original A-bombs dropped on Japan were equivalent to 20,000 tons of TNT. There is also speculation that A-bombs equivalent to 200,000 tons of TNT now have been developed.

Whether the hydrogen device or bomb has reached a stage of being deliverable was left unanswered. There is a difference between a test of a reaction and a device which can be put upon an enemy target.

One problem is that hydrogen is a gas and the H-bomb fuel can't be a gas taking up a huge volume. It could be liquid hydrogen, which means keeping it at a temperature of more than 400 degrees below zero, Fahrenheit. That calls for a bomb equipped with ultra-cold refrigeration or some similar arrangement, and solution of other technical problems.

One guess is that a truly huge H-bomb would occupy an entire bomber, guided by remote control to its target. In theory an H-bomb could be 1,000 times as powerful as the A-bombs dropped on Japan. Such a bomb would blast damage over a 700-square-mile area, ranging from heavy destruction in the inner circle of 100 to 150 square miles to lesser degrees of damage in the rest of the area, with only slight damage in the outermost sections.

In the inner circle of 100 to 150 square miles, there would be virtually complete destruction of buildings except for those heavily reinforced, with damage in varying degrees inside the reinforced buildings according to how close they were to the blast. All this assumes that the bomb would be detonated high in the air. A smaller H-bomb of, say, 50 times the power of the A-bombs dropped on Japan, could cause blast damage over 100 square miles, fire and flash burns over 150 square miles, and spray radioactive rays over an area of seven square miles, physicist calculate.

Statements are made that the H-bomb would be more valuable to the Russians than to the United States; that our cities are bigger and more concentrated, hence offer better H-bomb targets. You hear that we could create more damage by using a number of A-bombs against smaller Soviet cities and targets. But a reply is that one H-bomb, if big enough, could wreck Russian manufacturing facilities scattered over an area of 100 square miles or more, or parking fields of tanks, planes and other war equipment.

Militarily, atomic weapons could affect strategy. Instead of hitting the enemy at weak points, attacks might be launched at strong points, using A-bombs or H-bombs to kill or disable concentrations of troops. Other experts raise questions about a new kind of atomic economy affecting decisions to make A-bombs or H-bombs. The important "dollar" in this atomic economy is the neutron, the atomic particle which can transmute or change chemical elements into new or different kinds of elements.

LETTER TO EDITOR

Everybody's Assistance Urged For United Fund

To the Editor: Certainly the slogan, "United we stand—divided we fall", which has been proven to be true many times in years past, still is true with us today.

In the near future each of us as citizens of our community are going to be called upon in a financial way to help promote the betterment of our youth and to aid the sick and unfortunate among us.

The drive is to be the United Fund drive, which is new to our city. This organization, known as the United Fund, is strictly a non-profit organization, is to carry a charter from the state of Texas and will operate as it has been operated in some 30 or more Texas cities, where it has been successful.

This organization serves the purpose of all the separate drives we have had in our city each year in the past. The following organizations will be supported by the United Fund: YMCA, Boy Scouts, Girl Scouts, Red Cross, Cancer Society, Salvation Army, Milk & Ice

Stork Gets Mate
DENVER (AP)—"Doc" Stork, the only one of his long-stemmed species at Denver's City Park zoo, is going to get a mate.

Fittingly enough, she will be paid for by the owner of a maternity clothing shop, Stanley A. Levy. A female stork will be imported from Europe next spring as "Doc's" spouse.

ment of our youth and to aid the sick and unfortunate among us.

Fund, West Side Youth Center and the Servicemen's Center. Each of these organizations has a designated amount set up in the budget. Each person has the privilege to designate if he wishes his contribution to go to any one or more of these organizations other than the whole group. If such requests are made, the money will be handled according to the donor's wishes.

I realize that conditions due to the drought and other things, are not as good with us as they have been in years past but I feel if we all have a small part we can accomplish our goal. Surely each of us should be willing to give at least one or two hours wages each month to these worthy causes. I urge each person when contacted by the workers of this drive to be courteous to them, for they are

Only One Way To Polecat Hollow

POLECAT HOLLOW, Md. (AP)—There's only one way into Polecat Hollow, even for the story. That's across a small wooden bridge. County Road Supt. Eugene Geary said his crew had to rebuild the bridge after a physician complained he couldn't drive across it to attend an expectant mother. Geary investigated, agreed the span was unsafe and ordered repairs. The expectant mother is a member of one of two families living in Polecat Hollow.

Big Spring (Texas) Herald, Thurs., Sept. 24, 1953

Just people like you and me, only they are giving their time and effort to our community. Let's all do our best by each of us helping in a small way—the burden then will not be great for anyone.

New Exciting Chowder Whets Autumn Appetites

If you think a bowl of soup is nothing to get wildly excited about, we beg you to try this recipe. We admit we're in love with this dish and are yearning to tell you about its charms and virtues.

Its flavor is divine. There's something about this particular combination of mushrooms, seafood, vegetables, and thin rich cream sauce that's wonderfully satisfying. Enjoy it right now, then tuck the recipe in your file for wintry days when you want a hot soup to warm and comfort you.

It's a pantry-shelf dream. Unexpected company coming? Keep the canned mushrooms and clams in a covered bowl in a kitchen shelf. It's foolproof. Even the newest bride can't go wrong with this recipe. Only one caution: Don't get so busy with other chores that you let the heat under it get too high. The unctuous cream sauce base needs to be treated with respect or it may curdle. So do the clams in it, or they'll toughen. In our recipe directions we take care of this by telling you to heat the soup gently. We use that phrase advisedly. When we say gently, we mean it.

You can feature it on a menu. Serve it for lunch or supper with crisp hot rolls, a salad and a hearty dessert. You can prepare it ahead. This soup benefits from being left overnight in the refrigerator. Notice how recipes sometimes say "Place in refrigerator several hours to allow flavors to develop." Well, that's not just a phrase food writers dreamed up because they were in-

fatigued with the sound of their own words. The flavors in some combinations of food really do blend best on standing—and this soup belongs to that clan.

GLAM AND MUSHROOM CHOWDER

- Ingredients:
- 1/4 cup butter or margarine
 - 1 tablespoon minced onion
 - 1/2 cup coarsely grated raw turnip (loosely packed)
 - 1/2 cup coarsely grated raw carrot (loosely packed)
 - 1/4 cup minced celery
 - 1 7 or 7 1/2 ounce can minced clams
 - 1 3-ounce can chopped broiled mushrooms
 - 1 teaspoon salt
 - 1/2 teaspoon pepper
 - 2 cups very hot milk
 - 1 1/2 tablespoons cornstarch
 - 3 tablespoons cold water
 - 1/2 cup heavy cream
 - Minced parsley

Method:
Melt butter in sauce pan. Add onion, turnip, carrot and celery. Cook over low heat about 5 minutes, stirring a few times. Add clams and mushrooms (including liquid from both cans), salt and pepper. Heat gently but thoroughly; do not boil. Gradually stir in the very hot milk. Stir cornstarch and water together until smooth; add to soup and stir constantly until slightly thickened; bring just to boil; add cream and heat but don't boil. Serve with a sprinkle of minced parsley. Makes about 5 cups — 4 servings. Store overnight if desired—but no longer.

Quick And Easy Fudge Local D. A.'s Favorite

A fast, never-fail fudge that Big Spring District Attorney, Elton Gilliland, is very fond of is the favorite quick and easy recipe of Mrs. Gilliland, 1519 Tucson. A good friend gave her the recipe several years ago.

The Gillilands have a blonde 2 1/2-year-old daughter for whom Mrs. Gilliland has been stitching up a fetching fall dress. Sewing is Mrs. Gilliland's hobby and daughter, Chloe, has a pretty little wardrobe as a result of it. Chloe was not available for photographing. She was having a session with a popsicle vendor.

As for the fudge, Chloe likes it

too when she isn't busy mixing up her own mud pies.

NEVER FAIL FUDGE

- Ingredients:
- 4 1/2 cups sugar
 - 1 tall can evaporated milk
 - 2 sticks oleo
 - 1 pound pecans
 - 2 packages chocolate chips
 - 1 jar creamed marshmallow
 - 1 teaspoon vanilla

Method:
Cook the sugar, milk and oleo 7 1/2 minutes. After it boils pour in the pecans, chocolate chips, marshmallow and vanilla. Then stir well, let cool and drop on wax paper.

Can Of Salmon Eases Baked Fish Preparation Problem

Lots of cooks look unhappy at the thought of baked fish. Sure, they enjoy eating it; but think of the trouble of preparing it, to say nothing of the hazard of a fishy smelling kitchen. Rather than risk such dire results, they give up the idea of serving fish altogether, and thereby miss a flavor treat.

There is a way around this problem—a way to enjoy baked fish without worrying over tedious preparation and smelly rooms. The answer is so simple: start with canned salmon, where the preparation has been done for you. It's delicious in Baked Salmon Squares. Baking time is 30 minutes, which means about in 35 minutes or less you can have a delicious baked fish dinner without the slightest problem.

EVERY BIT EDIBLE

Because every bit of canned salmon is edible, you can count on four portions from a one-pound can. And that makes salmon a pretty inexpensive source of body-building protein and a pretty delicious ingredient to use in all sorts of main dish loaves and casseroles (to say nothing of salads and sandwiches).

Yes, canned salmon is a wonderful food for summer—just as it is all the rest of the year.

BAKED SALMON SQUARES

- 2 cups fresh bread crumbs
- 2 tablespoons chopped parsley
- 1/2 teaspoon salt
- 1/2 teaspoon pepper
- 1/2 cup milk
- 1 egg, well beaten
- 2 tablespoons melted butter or margarine
- 1 1-pound can salmon

Put bread crumbs, parsley, salt and pepper in mixing bowl. Add milk, egg and butter. Mash well with a fork until crumbs become a soft mass. Drain salmon, flake. Add to bread crumb mixture; mix

Instant Coffees Proving Popular With Housewives

Time was when the vast majority of American housewives looked down their collective noses at instant coffees. They said it wasn't as good and furthermore, no housewife worthy of the name would use such a lazy method of preparing her family's coffee.

Remember how Grandma used to feel about ground coffee? Grandma bought a mixture of mocha and java out of large gummy sacks at the general store. She ground the beans herself and proudly boasted that her coffee was the best and this already-ground stuff wasn't fit to drink. How many homes have the old coffee grinder in the kitchen today?

Since the end of World War II coffee companies have made tremendous advances in scientific preparation of instant coffees. Much research and painstaking care has gone into improving their methods and today they are turning out good tasting, flavorful coffees. The big well-established coffee roasters would not be pouring tremendous amounts of money into huge facilities for manufacturing instant coffees, such as the new Folger plant in Houston, if they didn't feel that their new products weren't answering a definite need of the American housewife.

The answer is in the sales. Today's generation of housewives are buying and using instant coffees in increasing numbers.

Corn Bread Dressing Adds New Flavor To Pork Roast

Roast pork is another of the many foods that take on added zest when combined with flavorful corn meal.

A delightful main dish for a Sunday or holiday dinner is Roast Pork with Corn Bread Dressing. Easy to prepare, the dressing can be made from either left-over corn bread or fresh corn bread dried slightly in the oven.

ROAST PORK WITH CORN BREAD DRESSING

- 1 Pork Roast (loin or rib)
- Season with 1 teaspoon salt, 1/2 teaspoon pepper per pound

DRESSING

- 1/2 cup chopped onion
- 1/2 cup bacon fat
- 4 cups crumbled corn bread
- 1 teaspoon salt
- 1/2 teaspoon poultry seasoning
- 1/2 teaspoon pepper

Ask butcher to loosen back bone to make carving roast easier. Place meat on trivet in open roasting pan, fat side up. Roast in a moderate oven, 350 degrees F., about 30 minutes per pound. While meat is roasting, prepare dressing, as follows: Brown onion in fat. Combine crumbled corn bread with remaining dry ingredients. Add fat and onion, and mix carefully. About 45 minutes before roast is done, pour excess fat from pan and transfer corn meal dressing to roasting pan, stuffing it under and around the meat. Continue baking until pork is done and dressing browned.

CORN BREAD RECIPE

- 1/2 cup sifted flour
- 3 teaspoons baking powder
- 1 teaspoon salt
- 1 1/2 cups corn meal
- 2 eggs, well beaten
- 1 cup sweet milk (room temperature)
- 2 tablespoons melted butter

If self-rising corn meal and flour are used, omit baking powder and salt. Sift together flour, baking powder and salt. Add corn meal and mix well. Combine beaten eggs, milk and butter, and add to dry ingredients all at once. Stir only

Macaroni Dessert Is Tasty And Simple

The idea of a macaroni dessert is probably new to you but many women in North Dakota enjoy creating recipes like the one below.

This recipe was among the prize winners in the recipe contest held as part of the Devil's Lake, N. D., Macaroni Festival.

The Festival is sponsored each year by the Devil's Lake Chamber of Commerce to stimulate interest in the production of durum wheat, the base ingredient of macaroni and spaghetti. Nearly 90 per cent of the durum wheat raised in America comes from North Dakota.

MACARONI REFRIGERATOR DESSERT

- Ingredients:
- 1 package lemon-flavored gelatin
 - 1 1/2 cups boiling water
 - 1 1/2 cups (3/4 lb.) marshmallows, dried.

- 1 8-oz. can (1 cup) crushed pineapple with the juice.
- 1 cup cream, whipped
- 1/2 cup sugar
- 1 cup uncooked Enriched Elbow Macaroni
- 10 graham crackers, crushed
- 3/4 cup nut meats, chopped

Method:
Dissolve gelatin in the boiling water. While hot, stir in marshmallows and pineapple. Let cool. Cook Enriched Macaroni as directed on package. Drain and cool. (Rinsing of Enriched Macaroni is not necessary.) When gelatin mixture is cool, stir in whipped cream, macaroni and sugar. Reserve 1/2 cup of cracker crumbs. Spread rest in bottom of 8 x 8 square cake pan. Pour in gelatin mixture. Sprinkle top with nut meats and remaining cracker crumbs. Set in refrigerator overnight. Cut in squares for serving. If desired, garnish with sweetened whipped cream and maraschino cherries.

A SNAP TO BAKE

What a snap! ... to bake ... to eat ... to lend ginger zest to school lunches! Crispier, "tanglier," yummiar, made with Mrs. Tucker's new and creamier all-vegetable, all-digestible, shortening. Bake it today — Mrs. Tucker's way!

Mrs. Tucker's GINGERSNAPS

CREAM TOGETHER UNTIL LIGHT AND FLUFFY	1/2 cup MRS. TUCKER'S SHORTENING
ADD AND BEAT WELL	1 cup sugar
SIFT TOGETHER AND MIX IN	1 egg
	1/4 cup molasses
	2 cups sifted all purpose flour
	1 teaspoon cinnamon
	1/2 teaspoon salt
	1 teaspoon cloves
	1 teaspoon ginger

Chill 1 hour. Roll into 1-inch balls, roll in granulated sugar. Place balls 2 inches apart on ungreased baking sheet. Bake in a moderately hot oven (375 degrees) 8 to 10 minutes or very lightly browned. Cool slightly, then remove from baking sheet. Makes 4 to 6 dozen cookies. (These have cracked tops and the sugar gives a slight gloss.)

Mrs. Tucker's THE CREAMIEST SPEED-MIX SHORTENING IN THE WORLD!

MISTER BREGER

"Gee, mister, sure is swell of you to give me this lift to town!"

THE GRUB LINE

With Franklin Reynolds

The election of a supervisor from Zone 5 of the Mitchell Soil Conservation District will be held at the Westbrook School Gym at 8 p.m., Oct. 5. It has been announced.

M. A. Webb of Westbrook is now the board member from that zone which covers that area of Mitchell County south of Morgan Creek to where the creek passes under Highway 80, thence south of Highway 80 to Colorado City, thence southwestward and including all land owners west of the Sterling City highway.

Eligible voters are those natural persons holding title to farm or ranch land in the above described area or zone, who have attained the age of 21 years, and who reside within a county where all or any part of which is included in the SCD of which the area or zone is a part.

Each SCD is divided into five zones with a supervisor elected from each. One supervisor is elected each year, so each supervisor, therefore, serves for five years. Supervisors point out that in the past some of these elections have been very poorly attended and then they emphasize the fact that the office of SCD supervisor is a very important one, especially in view of what is apparently an increase in the relationship of the farmers with the Federal Government.

A showing of conservation films will be made at the meeting which includes the election, other entertainment has been provided, and all land owners eligible to vote are being urged to attend and bring their families.

The election of a Zone 5 supervisor in the Martin-Howard SCD will be held at the Lomax School the evening of Oct. 6. Morris Patterson is the present supervisor from this zone.

Gus Chesney, Colorado City banker and livestock farmer, is having some treading work done on his farm.

Something like a mile and a half of new lines were built on his farm last spring with a disc treading plow and he is now building another mile of new lines with county maintainers. He has about two miles of old lines at the top of the slope in this field which are being repaired and rebuilt to district specifications so that the lower lines will have the proper slope protection.

In many cases purchased feeds will have to be relied upon rather than range forages for wintering sheep this year in Texas. For this reason, says Assistant Professor W. G. Kammlade Jr. of Texas A&M College's department of animal husbandry, it is very important that efficient management practices be used. Since wintering costs are high, only the most productive ewes and best ewe lambs should be kept and the use of top

quality sties will pay.

Hormone treatments should not be used to induce earlier breeding or more uniform lamb crops, says Kammlade. In many cases, adds the professor, the use of hormones has not only proved very expensive and ineffectual but also some of the substances have had detrimental effects on later breeding performance of treated ewes.

During the last six to eight weeks of the ewe's gestation period, 70 per cent of the fetal development of the lamb occurs. Because of this points out Kammlade, the nutritional demands of the ewe are greatly increased during this period. Concentrate feeding during the last four to six weeks of pregnancy will result in heavier lambs at birth, an increase in the number of lambs born alive, their livability, resistance to pregnancy disease and fewer downed lambs.

The addition of about a half pound of concentrates—corn or cottonseed meal—to the ration during this period will usually meet the demands when fair range forage is available. Oats can be used to advantage with corn or cottonseed meal to help supply bulk in areas where roughage is extremely short.

Few factors which affect the growth of a lamb after birth are more important than the milk production of the ewe, says Kammlade. Each additional pound of milk consumed by the lamb from birth to one month of age will increase the weaning weight by one-quarter pound. The nutritional demand of lactation is far greater than for gestation and many other productive functions, adds Kammlade, and feed intake of the ewe is the most important factor limiting her milk production.

The use of good feeds plus sound feeding practices for maintenance along with needed supplements during these critical period will result in the greatest returns. Maintenance rations alone, however, will not result in the efficiency required for economic production during drought periods, says Kammlade.

Some Farmers Think They Forced To Vote Controls

By OVID A. MARTIN
WASHINGTON 6—The big financial stakes involved in farmer referenda on government marketing controls give point to a question often raised: are the programs set up in such a way as to compel farmers to vote for controls whether they like them or not?

Many farmers and farm leaders have contended they are.

Growers will vote this fall on government marketing controls on next year's crops of cotton, peanuts and some types of tobacco. The outcome could mean a difference of more than a billion dollars in producer income from these products.

Wheat growers approved controls for that crop in a recent nationwide referendum. In doing so, they assured themselves of perhaps three-quarters of a billion dollars more from the crop than they might have received had they rejected controls.

Under farm law, the Agriculture

Department is required to support producers prices of controlled crops at 90 per cent of parity if growers vote rigid marketing quotas in periods when there are surpluses.

But the support rate must be cut to 50 per cent of parity if the controls are rejected. The quotas require approval by at least two-thirds of the growers voting in a referendum.

Parity is a standard for measuring farm prices, declared by law to be fair to farmers in relation to prices they pay for goods and services.

In the case of cotton, the support rate next year will average about 30 cents a pound if growers approve quotas, about 17 cents if they reject them.

In directing this difference in the support rates, Congress intended to make it tough if farmers rejected controls. It did this for two reasons: (1) to help gain farmer compliance with government programs aimed at preventing price-depressing surpluses from accumulating, and (2) to limit the government's investment

in unneeded farm products acquired under price controls.

It was emphasized by the lawmakers that price supports are not a right of the farmer, but a grant from the government. Hence, they said, it is the government's right and duty to set the conditions under which the grants are made.

The prevailing 90 per cent high level price supports have encouraged big production—production in excess of current market outlets. Evidence of this is found in the fact that the government has more than 3½ billion dollars invested in farm product surpluses under price aid programs.

The investment in wheat alone is in excess of a billion dollars.

Terrier Barks Way Into Prominence

WACO 6—"Boots" didn't know it was "National Dog Week" but the Boston bull terrier barked his way into prominence here early today.

He frustrated a \$3,800 theft of musical instruments and led to arrest on burglary charges of Fred Toone, 28, and Charles Edwin Wilson, 18.

"Boots" lives with Mr. and Mrs. William H. Warden on the second floor of the Texas Hotel, which Mrs. Warden manages. About 1:30 a.m. the dog growled. The Wardens looked out the window and in the light of the full harvest moon saw two men on the roof of the one-story Buze Music Co. building.

As they watched the men removed the skylight. One entered the music store and handed up articles to the other.

Mrs. Warden phoned police. The men jumped off the roof into the arms of the law, Wilson breaking his foot in the process.

Unknown Murderer Of Trotsky May Walk Out Of Jail Soon

Editor's Note: It's been 13 years since Leon Trotsky was charged with a murder. Who killed him? The slayer has been in jail ever since, but no one is sure of his name. Soon he's eligible for parole. Will he take it, and change death? Will he stay inside, a comfortable, pampered, arrogant prisoner? Here, in another in the series of famous crimes, is the story of political assassins—this a story to which the ending still must be written.

By LAURANCE F. STUNTZ
MEXICO CITY, Sept. 24 (AP)—The murderer of Leon Trotsky, who, ever he is, may walk out of jail

some day soon a free man. It has been 13 years since he killed Trotsky with an alpenstock. Today the slaying is as mysterious as it was then. So is the slayer. He is eligible for parole this year, but he may not ask it. He lives in relative luxury, with an income that may total \$350 a month. He can buy whatever he needs. His cell is an apartment. His girl friend visits him often. More important, there have been

many changes on the outside. Will he be welcomed into the web of political intrigue? Stalin—the man who expelled Trotsky and hounded him across two continents—is dead. Beria, who headed his dread secret police, is out of power. The slayer claims he bludgeoned Trotsky for personal reasons, but his statements never quieted the talk that this was a political killing. Trotsky's widow said recently he is sure to be murdered if he leaves prison, to keep him from talking—something he has shown no inclination to do in confinement.

If he asks for parole—as he can after Dec. 20—he probably will get it. Is the present Russian government interested in the man who settled Stalin's quarrel with Trotsky? How much help could his mother—once a close friend of Beria—give him now?

On the answers may hang another life. On the other hand, the mystery may never be solved. Kremlin files of the secret police might—or might not—throw some light on it, in the unlikely event of their being opened. Trotsky himself blamed Stalin and the secret police for the fatal attack, but there was never any concrete confirmation.

The killer swore he was not acting for the GPU.

He has been identified as five different men. He may be Frank Jackson of Canada, Jacques Mornard of Belgium, Salvador Torkoff of Russia or Jacques Vandendrecht of Iran. Many Spaniards here know him as Ramon del Rio Mercader of Catalonia, Spain.

Whenever he gets out, he will find a vastly changed world. When he killed Trotsky, Russia was ready to co-operate with anybody, even Hitler. She was generally respectful of public opinion in other countries.

Now he would find a Russia victorious in World War II and allied with Red China. She has swallowed Eastern Europe and is trying to digest Germany. She pays lip service to the United Nations, sometimes, but does not cooperate with the West.

If Mornard is Mercader, the fall of Beria should have interested him. Caridad Mercader, mother of Ramon and a Communist stalwart, was a protegee of Beria. At the time of the Trotsky killing, she was in Moscow, which may or may not be significant. Since the war she has left Russia and is now in Paris, living with a daughter married to a leading French Communist.

Trotsky was, with Lenin, the leading spirit in the Russian revolution. He improvised the armies which turned back the counter-revolutionary threat.

When Lenin died, and Stalin began to grab for power, Trotsky resisted and was expelled. From exile he spotlighted every crack in the Soviet armor, put his caustic pen to work blasting at Stalin's departures from Marx's classical communism.

He so irritated the Russian ruler that Stalin prevailed on the Norwegian government to ask him to leave that country. Mexico offered asylum.

In 1940, Mornard appeared on the scene. His appearance coincided with Trotsky's announcement that he was writing a biography of Stalin. It would not have been a friendly book.

Shortly after Mornard arrived, there was an armed attack on the Trotsky house. About 20 men, some in rented military uniforms, entered by a gate in the wall. They fired about 300 shots and set off a few bombs. Trotsky and his wife escaped death by hiding under a bed as machineguns raked the room.

Dozens of suspects were arrested but all except one were released for lack of evidence.

Mornard met Trotsky through a mutual friend and occasionally visited the villa.

The official police report on the investigation said that Mornard's car was used in the May attack on the Trotsky house.

On a rainy Aug. 20, 1940, Mornard went to Trotsky's barricaded house. Since he was known, the guards let him enter without question. Over his arm he carried a tan raincoat. Mornard found Trotsky feeding his pet rabbits in the courtyard. The two men talked briefly. Trotsky said wet grass was bad for rabbits. Then they went into the house so Trotsky could read the draft of an article written by Mornard.

After five minutes, the guards heard Trotsky cry out. They rushed in and found Trotsky, bleeding from a head wound, lying on the floor. Mornard stood over him. The alpenstock, a mountaineer's ice axe, was in his hand. One guard started to slug Mornard with the barrel of his pistol but Trotsky said:

"Don't kill him boys; tie him up and make him talk."

A guard asked: "It's the GPU which sent you, isn't it?"

"No, it's not the GPU," Mornard replied. "It's them . . ."

"Who? Come on quickly."

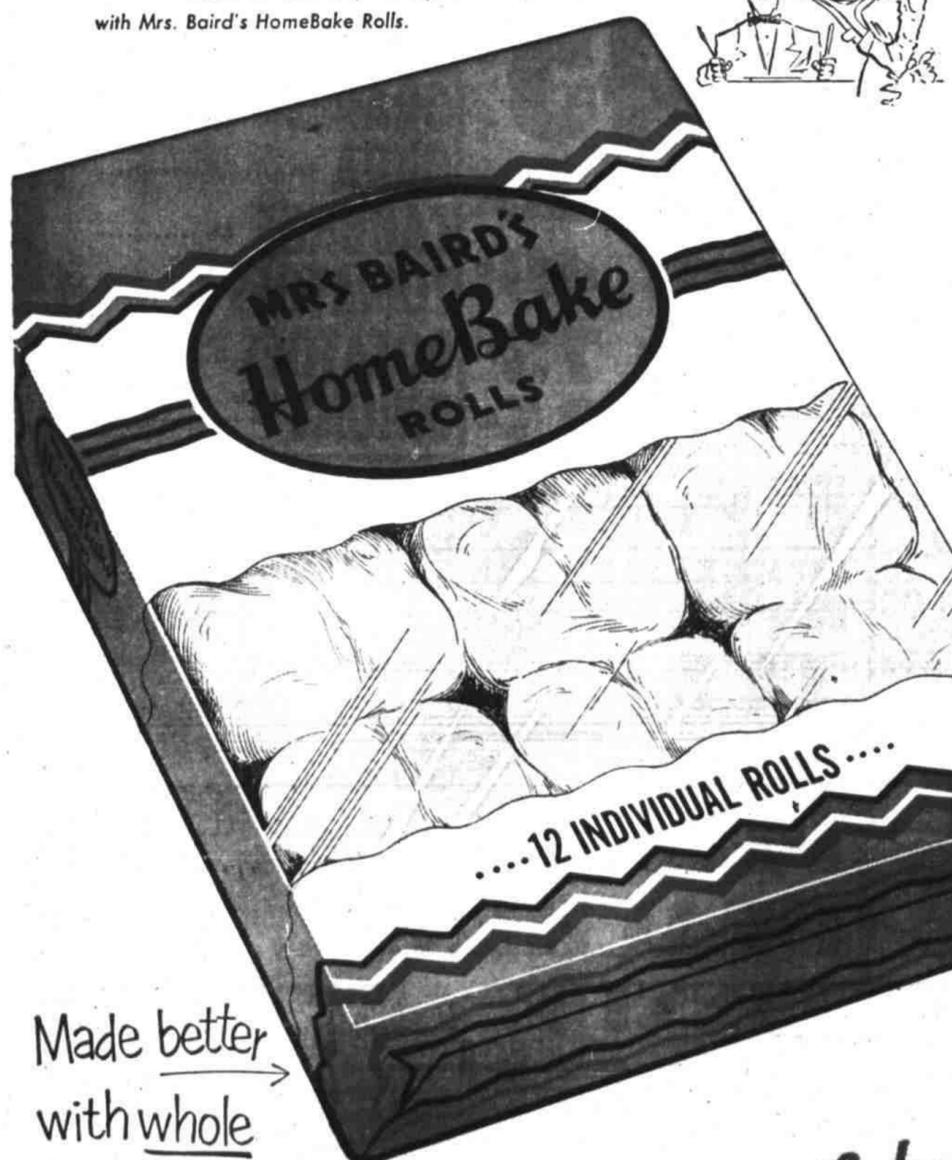

"It's a man. I don't know how he is, but he made me do it."

In Mornard's pocket police found a letter, dated that day, explaining his reasons for the kill. Mornard said he had been a faithful Trotskyite but became "profoundly disillusioned" with Trotsky after meeting him. He said the reason was that Trotsky proposed I should go to Russia to organize a series of attempts, the first one against Stalin.

Trotsky's body was cremated and the ashes buried in the courtyard of his suburban house.
