An optimistic smile enchants the faces of all the farmers since the recent rain.

Jupiter Pluvius, while some times negligent in her visits to old Wilbarger county, seems always to come in time to save the crops from utterly being from want of rain.

The Reporter gives the ginning season over at Odell at last, giving the total number of bales of cotton turned out by the two gins as 5272 bales. This is an increase of 1299 bales over the previous year. This certainly speaks well for the Odell country and the Independent.

The Reporter back home to relatives and friends, being keeping them posted about conditions of the country. Each week, it will be worth something to them to know, no serious misfortune has suddenly befallen you and your family, or else the newspaper would give an account of it. They are just as eager and appreciate news from your country, just as much so as you do.

from theirs. Your home newspaper sent to those interested in your welfare is a letter to them, sent fifty two times for one dollar.

Actually there is complaint among some of the citizens of the town about having to pay a sanitary bill every month, making their kick just at a time too, when conditions of this kind need be attended to. There is not a citizen in the town, not even one of those who values the trifling amount of a sanitary bill, above the health of themselves their people and the town, but will readily admit that such work as the town is had done here to fore, should be continued, especially as warm weather is prevalent and the pesky fly has come.

Not often, but occasionally in our solicitation for new subscribers, we learn of homes where no newspaper of any description are going, and nearly in all cases, the attributable cause

for the lack of reading material in these homes, is due to the fact that they fail to realize that newspapers are an advantage to them, and not so much of a luxury as many believe. Their home newspaper is the most often sought medium through which publicity is spread, and in its columns appear many announcements and advertisements that are of an advantage to them they know nothing about.

Farm Facts

By Peter Radford, President, Farmers' Union

Agriculture is as old Methusalem and is just now cutting its wisdom teeth.

In every field of human activity the demand for more competent men and women is growing every day. Especially so in agriculture.

Whatever change the tenant farmer makes, it is bound to be for the better: it could not be for the worse.

The soil is like a man's bank account. It can soon be exhausted by withdrawing and never depositing.

It is an established fact that legislation regulating the hours of a farmer's work has never been suggested. Neither has a vice-commission been appointed to see why farmers boys leave home.

Christian Revival At Red River

**Doans Pastor Engaged--Will
Probably Hold Meeting
at This Place**

Elder Whittaker of the Christian church and pastor of the church at Doans, is this week engaged in a series of meetings at the Red River school house six miles east of here. The week after Elder Whittaker's appointment at Doans, which is always the first Sunday in each month, the remainder of week is usually spent by him in a series of meetings in some of the near by communities, where ever church at Doans directs him to go. He himself was in Odell on Tuesday of this week, and informed a representative of the Reporter that his intentions were to hold a tent meeting at this place to begin sometime near the middle of next month, if no conflicting engagement occurred at that time. He will be in Odell on Monday after appointment at Doans next

month, and at that time it will be decided whether or not he will be with the people here in a protracted meeting. Rev. Whittaker is an able minister and much good has been the results of his preaching the gospel, and we hold that arrangements will be made that he can be with the people here in a revival.

Doans Annual Picnic Come And Gone

Threatening Rain Clouds Interfere--Large Crowd Despite The Weather

While last Saturday, May the third, the day for the date of the Doans annual picnic, dawned one of brightness, it ended in bringing a general rain over the country near the close of the day. No rain occurred to mar the pleasure of the people, until near four o'clock in the evening, but threatening rain clouds throughout the day, kept many from being in attendance, and drove a number home at an early hour in the evening. But despite the inclemency of the weather on that day, the notoriety of this old settlers annual event, brought together a large representation from all over the county, with lots of people from Oklahoma, all who enjoyed the hours recreation and partook of a bountiful spread dinner at the noon hour. The crowd on the picnic grounds this year were estimated by some who attended to be a larger attendance, than was there on the same day day year.

The prospects for landing this oil mill is encouraging, as the greatest difficulty Mr. Pace found while here was securing suitable ground for the building site.

The Reporter will probably have something more definite later on to give out in regard to this new enterprise the citizens of the town should encourage.

Mrs. G. W. Bucy left today for Fort Worth, where her daughter, Miss Lillie, who is attending school at that place, graduates tomorrow night. Miss Lillie has been awarded the medal for the best grade in music, and will deliver the valedictory address for her class. The clerk knowing that a pair of shoes of his brand, had not been sold to the ambra, "asked him," to let him examine them; and upon this request the young Mexican got busy; as guilty consciences needs no accusing, he lost but little time in discarding the low quarters and seeking the timber on the creek near town

Another Gin for Odell

As we go to press we learn that W. M. Scott and S. B. Starr are contemplating the erection of another gin for Odell, their order having already been placed for the machinery at Dallas, the proposed building location is a site just behind the Odell Lumber Company.

The former is already engaged in the gin business here and in forming partnership with Mr. Starr, an experienced ginman, the two will put in a \$10,000 plant. These gentlemen were fortunate in securing the option for the third gin at this place, for we have learned that the directors of the Vernon Cotton Oil Co., had Odell in view, and intended to put in the third gin here.
