Odell School Opened Monday

School Patrons, Principal and Contractor Talks, Interest Manifested By Students

At nine o'clock Monday morning school children accompanied by their parents were seen to wend their way towards the new school building which was completed on Friday of last week; hurrying to the new brick structure, the school children seemed happy and in the highest of spirits, as the idea of knowing they would take up their studies in a building that would afford so much more conveniences than the one they were accustomed to, brightened their faces and made them jubilant that morning.

It was expressed by several

there that morning, that the attendance was the best they had ever seen at a school opening, which was made up of school children, patrons, the faculty, visitors and one of the contractors, who was there to commend the school board for their fair dealings and courteous manner in which he had been treated while the building was under construction, this he done in a style of his way, besides an emphatical instruction to the children on the necessity of taking advantage of all school opportunities while they had a chance.

As was announced in last week's issue of the Reporter, that appropriate exercises would take place at the opening of school; Prof. J. R. Huie, Principal of the school, called the house to order promptly at 9:30 a. m., and the audience rising

sang that old familiar song, "Stand Up For Jesus," hardly had the sound of this old time religious melody died away when C. G. Thompson in prayer, caught up its sentiment, and prayed that the new school with its work might always be said to have stood up for Jesus. Mr. Thompson then in his usual style of deliverance, spoke to the visitors and school children for some time, on the moral necessity of educational advantages, and in a picturesque style referred to our fore-fathers as laying the foundation for instructions along all educational lines, for they knew without this one movement the moral and civil liberty of the people would be endangered should ignorance prevail; hence great progress had been made since then along educational lines, in talking to the boys

On The Warpath For Business

With goods going at bargain prices never before offered in Odell, I leave it to your better judgment as to whether or not I assert the truth when I say, that the whole secret that lies in buying is to obtain the highest quality of merchandise at the lowest prices.

Quick Sales and Small Profit

Is a slogan to which I adhere, and if you will take advantage of the many bargains I am offering, you will then be traveling the economical road to wealth. I do not expect to feel a sence of satisfaction until I have convinced the buying public that nowhere in Wilbarger county or for a radius of miles around are the prices I am making on both my Dry Goods and Groceries duplicated, then with all merchandise going out of my place of business guaranteed, at prices nowhere equaled, is it not to your interest to turn your patronage this way?

This is a Business Proposition Up to You Now and you should give it business consideration before trading elsewhere.

Remember, I have commenced handling fresh meat for your convenience, and I assure you when you buy this meat, you have bought the best meat obtainable, every piece is stamped U. S. Inspected. This with thousands of other things that goes to make up a complete line of general merchandise can always be found at my store.

Groceries

I have received a car of salt, see me if you need any, I can save you money.

of ours, and the greater portion of them, we understand, are coming here to trade, aside from the general news of the country the paper will bring them each week, they will get the local market report and the advertised bargains the merchants publish each week.

In a recent visit of William J. Bryan's to Wichita, Kansas, the usual reception he once enjoyed, was not given him; but he was treated merely as a commonplace politician; so the great commoner has lived to see the day, when those who were once so warped with Bryanite ideas, now see the folly of his ways, and treat him as an every day individual.

One of the latest bull dozing stunts pulled off by Colonel Roosevelt, is that of showing a favorable attitude toward the development of the Mississippi river, in making a future prognostication in regard to his presidential possibility, the Colonel assures the people, that if elected President he would do all in his power to make the "fathers of waters" a great commerce; that he would favor the removal of the Panama machinery to the Mississippi, as soon as work was completed on the Isthmus; and would be in favor of spending as many millions as it takes to make the great river a commercial highway. The sounding of this statement is making a favorable impression

on the south, especially in Tennessee is its effects noted and the Bull Mooser's cunningly scheme, derived for the purpose of winning the confidence of the south, and inlisting them as follows, has brought a statement from some that there is a chance for him to carry some of the southern states.

The completion of Odell's new school building bespeaks for the school patrons and trustees of this district a commendable spirit of enterprise, and shows what good can really be accomplished for a town when its citizens once realize its needs, and are willing to put forth extra efforts to bring about anything that will be an advantage to a place; as it has been said, and we think no more true an utterance was ever spoken than this: "No good ever comes to a person, (which might appropriately apply to a town,) without some effort on their's or someone's part," and here commendation is due Odell's school trustees, as those who have watched and been interested in their work, since the school bonds were first issued and sold; on up until the building was completed, know that it has cost the school board no little time and responsibility in discharging their duty as school trustees, and all they have done in bringing about the erection of this school structure, should meet the approval of the town and school patrons, and we are glad to note we have heard no complaint against them so far in what they have done for the town and school district; but both them and the contractors are being praised for their work; but as generally the case, one of the hardest task ever set man to do, is to please everybody where the public is interested, for nearly in all instances there is someone whom the world terms "kickers" ready to find fault with your work.

To The Voters of The Forty-Sixth Judicial District

Fellow Citizens: I am a candidate for Judge of the 46th Judicial District. For the benefit of those who do not know me, I will trespass on your time and patience by giving some account of myself; that you may the better judge whether or not I am suitable material for that position.

I am a graduate of the law department of the University of Mississippi and practiced law in Taylor County, Texas, several years before coming to Wilbarger County; two years as County Attorney of said Taylor County. I qualified as County Judge of Wilbarger County, Nov. 16, 1900, and have served as such since that time.

I have finally disposed of 337 civil cases. Of these; two have been reversed on appeal, and three new trials have been granted. I have finally disposed of 1016 criminal cases. Of these; four have been reversed on appeal, two of them however, because the law was unconstitutional. Of these State cases, however, about half were dismissed and about half the balance were pleas of guilty. Some of the civil cases were also dismissed and there were some judgments by default. In all, I have actually tried about 500 cases,

Pains All Over!

"You are welcome," says Mrs. Nora Guffey, of Broken Arrow, Okla., "to use my letter in any way you want to, if it will induce some suffering woman to try Cardui. I had pains all over, and suffered with an abscess. Three physicians failed to relieve me. Since taking Cardui, I am in better health than ever before, and that means much to me, because I suffered many years with womanly troubles, of different kinds. What other treatments I tried, helped me for a few days only."

TAKE CARDUI The Woman's Tonic

Don't wait, until you are taken down sick, before taking care of yourself. The small aches and pains, and other symptoms of womanly weakness and disease, always mean worse to follow, unless given quick treatment.

You would always keep Cardui handy, if you knew what quick and permanent relief it gives, where weakness and disease of the womanly system makes life seem hard to bear. Cardui has helped over a million women. Try it.

civil and criminal, and have been reversed six times. Of the cases tried by me, civil and criminal, about sixty were appealed.

The moral of the above story is: I am competent. The same principles of law, pleading and practice obtain in the district as in the county court. I have had exactly the experience best calculated to fit me to perform the duties of a district judge. I need the office and you need me in the office. It's a good thing for both of us. Let us get together and make my election as near unanimous as possible.

It may be that none of the names of the candidates for District Judge will be on the ticket. If my name isn't there, please take the time and trouble to write it; J. A. Nabers; in the appropriate place; that is to say under the sentence, "For Judge of the 46th Judicial District," and on whichever ticket you vote. Fully realizing, that there is no honor in the mere holding of any office; but that it is as a man may acquit himself in measuring up to the responsibilities of the duties he undertakes, I promise

you, if elected, the best effort I am capable of, to justify your confidence in me and so I close by commending myself to your most favorable consideration.

Decker for District Judge

Quanah, Texas, Sept. 4, '12. To the voters of the 46th Judicial District:

I beg to announce my candidacy for the office of District Judge, at the coming November election. If the Democratic Executive Committee of the District shall make a nomination, then my announcement is subject to their action.

I have recently been appointed to this office by the Governor to fill the unexpired term of Judge Huff, whose resignation takes effect on October first. Prior to that date I desire to make a canvass of the District. After that time I will be holding the Courts of the District, and this will necessarily prevent me making the canvass I desire.

To those who do not know me, I desire to say that I was born in Texas, have lived in Hardeman County more than twenty-two years where I have practiced law. I was County Attorney of Hardeman County two years; District Attorney of this District two years; Member House of Representatives four years, and State Senator from this District four years. I have always endeavored to discharge with fidelity any trust bestowed upon me to the best of my ability and promise this if you elect me District Judge. As to my qualifications for this important office I refer you to any lawyer of the District, and especially to the people of Hardeman county where I am best known as a citizen and lawyer.

I most earnestly ask that my friends over the District interest themselves in my candidacy, to them I must look for aid, since the time is too short for a personal canvass.

Yours truly,
D. E. DECKER.

Steals Diamond Stick Pin

A cotton picker by the name of Arthur Reynolds from Fisher county was arrested by Constable Gobbell out on the Cuningham farm a few from Odell Monday evening, for stealing a diamond stick pin from Luke Miller at the Orient Hotel Sunday morning, Miller had dressed and gone out of his room leaving his necktie and stick pin on a chair near the door when Reynolds who had a room across the hall on going down stairs is believed to have stepped in the room and taken the diamond from the tie, a search warrant was sworn out for him on Monday evening and the pin was found on his clothes.

and girls, he compared them to bright stars, admonishing them to study and prepare themselves for life's walks, for there was always a place open in the world for the right one, and for them to adhere to that maxim, "where there's a will there's a way," and mentioning other things which were of great interest to both visitors and scholars before he closed.

H. G. Chandler, one of the members of the school board, addressed the crowd for a few minutes comparing the school facilities of these days with those when he was a boy, when all the country afforded then was an old log school house with slabs for the students to sit on.

His talk to the audience was followed up by one from Prof. J. M. Reynolds, who in an interesting lecture directed principally along the moral training of a child, he emphasized the fact that where a child received the best of moral training at home, it seldom ever give the teacher any trouble in school, and outlined other important duties parents owed their children while under their parental care.

M. A. Smith, another member of the school board made an interesting talk, requesting the patrons to co-operate with the teachers in their work, and insisted that they visit the school more often and get acquainted with the teachers, and said it was the desire of each member

of the school board that the school obtain the best results, and that he, as a member of the school board was well pleased with the contractors work on the building; after which Prof. J. R. Huie entertained his visitors with an interesting talk on the benefits to be derived from an education, he quoted William Jennings Bryan as saying, "That the educated man was the coming man of the future, and the educated woman was the woman of the future," and in his interesting talk brought out many points which would be well to bear in mind.

Christain Revival Closed

The Christian revival that was in session the past week at the Jackson Springs school house, conducted by Rev.
