

Nothing Can Be Sold At Any Price Unless The People Know It Is For Sale

VOLUME 13

PUTNAM, CALLAHAN COUNTY, TEXAS

THURSDAY AUGUST 26, 1949

NUMBER 33

From The Editor's Window

BY MRS. J. S. YEAGER

According to an Exchange, the number of Government employees — Federal, State and local — reached a three-year high of 6,219,000 in April, the Census Bureau reports. The public payrolls also leaped to an all-time peak of \$1,375,000,000 that month.

In New York on August 9 the city suffered its hottest day on record. The mercury was said to have reached 97.6 degrees and the humid weather was the cause of much suffering among the city's crowded millions. Many of the business establishments closed early because of the heat.

From the Blue Blaze comes this bit of helpful advice: — "A pastry brush is a handy kitchen accessory. For example when making a gelatin dish, brush the mold with salad oil so that when set, the gelatin slips out easily."

People everywhere should be very careful about where they toss matches and cigarette stubs, especially when in or near timbered areas. The national forests of this country turned in a record sum of \$31,023,500 to the Federal Treasurer for the year which ended June 30. Since that time our forests have suffered untold losses by fire in several states.

Mistress: — "So your married life was very unhappy? What was the trouble? December wedding to May?"

Eliza (the maid): — "Land's sake no ma'm! It was Labor Day weding to the Day of Rest, ma'm!

An English squire proved himself a poor theologian but a good business man, when he met his tenant one Sunday morning. "Where have you been?" he asked.

"I have been to church, sir." "What was the sermon about?" "It was something about Joseph going down to Egypt to buy corn." Asked the squire: — "Did the parson say what corn is worth down there?"

It is said that Charles A. Lindbergh visited a refugee camp recently near Hof, Germany. He arrived without advance notice and talked with several members of the camp, then drove away. Later it was learned that Lindbergh is making a private survey of European reconstruction.

According to reports almost 2,000,000 Illinois citizens live in rural areas or small towns which have no dentists. This fact became known recently when a survey was made by the University of Illinois.

C. T. Davis who has been operating the Farmers Gin here for the past several years will have charge of the Baird Gin this season. He went to work Monday getting it ready to gin.

Cattle Loaded For Havana Air Trip

Pietertje, a pure-bred Holstein cow, product of the Neale Farms near Waco, was loaded into a C-46 air-fighter Saturday morning August 13, on a non-stop flight to Havana, Cuba.

Pietertje is an expectant mother and was consigned to the large new Burrus Feed Mills in Havana, Cuba, construction of which was recently announced by the well known Fort Worth feed milling concern.

The shipment of Pietertje to Havana by air is a part of the Burrus Feed Mills' livestock and feeding program for our Cuban neighbors.

Dr. K. R. Hamorszky, Waco veterinarian who accompanied Pietertje to Havana, cabled on arrival later Saturday that Pietertje stood the unusual trip nicely and that the expected calf would be born in Cuba.

Plans For County Fair Being Made

Plans for a Callahan County Fair were started at a meeting of interested people in the County agents office last week. Tentative plans were set to have the fair on September 24. This is the last Saturday in September. Jerry Loper, commander of the American Legion in Baird, said that the hall would be available that day and would be glad for the people of Callahan County to use it for a fair.

Plans were made for the setting up of general agricultural or educational booths by the various clubs, communities, schools, and organizations of the county. Awards will be made for the booths judged to be the most outstanding.

There will also be classes for 4-H club and FFA boys, farmers and livestock men to show their crops and livestock. These boys and men will compete against each other for prizes and ribbons. Types of livestock to be shown are beef cattle, dairy cattle, pigs, sheep, and poultry. Crops to be shown are small grains, hegar, milo maize; Corn, cotton, sweet potatoes, vetch, watermelons, apples, and any others that there may be a demand for. Combed honey and strained honey will also be shown.

Wholesale Prices Lower Last Week

New York, August 20. The Associated Press index of 35 important wholesale commodity price this week eased to 153.14 from 153.85. It was the first decline in the week-end since early July.

A year ago the index was 187.30, the base year of 1926 equals 100 per cent. The food component was at a high for the year, grains and cotton at new lows.

Industrial and textile advanced livestock declined and non-ferrous metals held unchanged.

Labor, Industry and The Public Must Work Together In Order To Keep Industrial Wheels In Motion

Phillips Well Is Running Casing

B. F. Phillips No. 2 R. D. Williams prospective Marble Falls discovery well five miles northwest of Putnam in Callahan county was running pipe to complete the test.

Total depth was 4109 feet. A drill stem was of the Marble Falls at 3.710-17 feet recovered 40 feet of oil and 15 feet of oil cut mud lime one and one half hours. Gas appeared at the surface in 45 minutes.

Location is 330 feet from the north and west lines of section 139 University Lands Survey.

A. G. Hill Maggie Hardy No. 2 Elenburger wildcat seven miles north of Baird, 2.930 feet from the east and 3484 from the south line of section 24. ft. survey was drilling below 3.800 ft.

Complete Poultry Shows Will Be New

In a completely new approach to poultry shows, the 1949 State Fair of Texas October 8-23 will skip the strutting blue ribbon rooster and the bosomy prize hen in favor of flocks of "working", fowl exhibited under the typical farm and backyard conditions, Ben E. Cabell, chairman of the State Fair Poultry committee, has announced.

The revolutionary All Industry show will emphasize breeds which predominate in Texas. White Leghorns, New Hampshires, Rhodeisland reds, Barred rocks, White rocks, and Wynadottes will be displayed by the Texas Record of Performance Chicken Breeders Association.

In daily drawings, the association will give away 100 R.O.P. turkey poult's daily in similar drawings.

Many firms allied poultry industry will present constructive exhibits of interest to poultry raisers and consumers alike.

Mrs. Evelyn Scott Resigns as Agent

Mrs. Evelyn Scott Home Demonstrative agent in Callahan county has tendered her resignation to the county commissioner court, effective August 31st. Mrs. Scott will teach home economics at the Eula School this coming school year.

She has served home makers in this county as demonstrator agent for more than two years. During the time she has been here she has carried on a program that has helped many homes. Demonstration clubs over the county have been more active than in a number of years, and have more active members than it has ever had at one time.

Tom Wylie Dies At Baird Home

Funeral services were held for Tom Wylie a retired rancher in the Baird Methodist church Saturday at 3:30 p. m. Rev. Berry officiating assisted by Rev. J. R. Mayes, former pastor of the Baird Baptist church, Rev. David Binkley, pastor of the Baird church.

Mr. Wylie died at his home at 7:45 a. m. Friday. He had been in failing health since 1936 and his condition had been critical for about a month.

Born January 23, 1885 in Erath county, he was married to the former Mary Owens, June 6, 1907. He ranched in the Hart community until retiring and moving to Baird.

Surviving him are his widow; two sons, Gatson of Ozona and R. J. of Baird, two daughters, Mrs. Violet McGowen, of San Diego, California, and Mrs. Cloves Womack, of Ozona, four brothers, Dan, and J. H. of Merit, and Andrew of Colorado City. Carl of Houston, three sisters, Mrs. W. L. Clinton, of Moran, Mrs. J. L. Brannan of Grand Parlet and Mrs. Katie Lee Wylie of Greenville and two grandchildren.

Burial was in Ross Cemetery under the direction of the Wylie Funeral Home of Baird.

NLRB HOLDS Against Unions

WASHINGTON, August 20—The National Labor Relations Board made its first ruling Saturday under the Taft-Hartley Act, which holds that a union, as well as an employer, is liable for back pay in certain cases of discriminations against employees.

The Boards order made it clear that only the total amount of wages actually lost may be collected. If either the union or the employer were unable to pay the board held that the entire amount is to be collected from the party which is able to pay.

In its decision, the board, ordered a New York truck operator and a local of the AFL teamsters Union "Jointly and Severally" to reimburse an employee for the loss of wages he suffered when he was laid off, because he was behind in his union dues.

This is a case where men were laid off for non payment of union dues and the board ordered the union to pay the men illegally laid off, or back wages for the time lost while on strike. In other words, the board held in favor of the Taft-Hartley labor act that the law applies to both union and employee alike. What's wrong with this decision?

An official of one of the leading retail organizations recently said in a speech, production alone does not create prosperity. Not until the customer says I'll take that dress, or washing machine or that automobile, do we have the beginning of prosperity. That is where mass distribution begins, mass production coupled with mass distribution creates prosperity.

What this amounts to is that the magnificent production of our factory would not count for anything unless there were a highly organized, highly efficient machine for getting it up to the hands of the ultimate consumer. We have that machine, and it is made up of several hundred thousand units. Some of them are individual owned stores, some of them are part of a chain system owned by persons. Some are large and some are small, but generally speaking, they have certain things in common, the ability and the desire to serve the consumer well, to operate under conditions of intense competition for trade to keep the goods moving.

The importance of retailing to the economy as a whole could hardly be exaggerated. It is, first of all, one of the biggest employers of labor. It pays huge sums in taxes. It is an insatiable consumer of supplies and services of many kinds. It helps keep newspapers, builders, a good shopping center, with radio stations and magazines going with it's advertising. It is one of the best community builders, a good shopping center.

Mass production and mass distribution are the inseparable forces that make the maintenance of our living standard possible.

J. W. Brandon Gets Degree From Sul Ross State College

John W. Brandon, son of Mr. and Mrs. J. A. Brandon of Putnam, Texas, was among students to receive his B. S. Degree from Ross State College.

Mr. Brandon was an active member in the college; being Vice president of Clip and Brand Club; Member of Sul Ross Rodeo Association; Member of Science Club, and Herdsman for Sul Ross College, 1948-49.

He has completed some graduate work in Range Animal Husbandry. In September he will begin a study of "The Grazing Habits of Cattle," in which he will compare the grazing habits of Herefords, Angus and Braham-crosses. He will use this study or the knowledge gained from these observations for his Thesis paper in fulfillment of the requirements for the degree Master of Arts in "Range Animal Husbandry." His minor study will be "Range Management."

Young Brandon is married and the father of an 18 months daughter, Melody Jane.

SURVEY SHOWS LARGE AMOUNTS OF TOOTH DECAY AMONG TEXAS YOUTH

AUSTIN, Aug. 18. — Tooth decay or dental caries is a destructive, progressive disease of the teeth. A large part of a tooth may be destroyed by decay with little evidence of decay on the surface, says Dr. George W. Cox, state health officer. Surveys of large groups of pre-school children reveal that 50% of them have decayed teeth at three years of age, 75% at four years of age, and 90% at five years of age. Six out of ten children, age four and five, have as many as seven or more cavities.

Decay begins most frequently in the small pits and fissures on the chewing surfaces and at the points of contact between the teeth. Pits and fissures with structural flaws should be filled at once to prevent decay.

Dr. Cox said, "Dental examination and care should begin with the three year old child, and periodic examinations and necessary care should follow, thereafter, as often as the dentist advises. The first or baby teeth should be kept in a healthy condition until it is time for

Winter Wheat Belt Fights Smut

Across the winter wheat belt of Kansas, Nebraska, Oklahoma, Colorado and Texas Panhandle, hundreds of seed cleaning and treating machines are at work preparing seed for the 1949 planting.

Stationary units in elevators and seed houses, and portable units like the one above, are processing seed through cleaners to take out weeds and broken kernels and through treaters which mix "Ceresam" seed disinfectant on the seed to destroy the spores of stinking smut and other disease organisms.

Cliff Manny, left, County Agent of Pawnee County, Kansas, checks the operation on the farm of Enoch Thompson, a state champion wheat grower. Through better stands and higher yields, seed treatment usually returns the farmer ten times or more the cost of treating—in addition to controlling stinking smut, according to plant pathologists and agronomists.

CADET OBSERVERS—West Point cadets observe a combat team's parachute jump during a week of operational training with the 82nd Airborne Division, at Ft. Bragg, N.C. Their instructor, Sgt. 1st Class Paul Huff, left, is one of three Medal of Honor holders in the outfit. (NME Photo from Acme.)

them to be lost.

"X-rays aid the dentist in finding hidden cavities, especially those between the teeth. Many of these beginning cavities are located in areas where they cannot be found in any other way. X-ray pictures are also useful in finding other conditions that require immediate attention such as abscesses, impacted teeth, broken roots, bone destruction due to pyorrhea, extra teeth and other information that is important in treatment of the case.

"With periodic dental examination and adequate dental care for each child, beginning at three years of age, the great majority of the children will reach adulthood with good dental health."

Mrs. Notgrass Is Called by Death; Funeral Friday

Funeral services for Mrs. Roxie Notgrass, 64, the widow of M. L. Notgrass, will be held at 4 p. m. Friday in the Pentecostal Church. Mrs. Notgrass died at 9 a. m. Thursday after an illness of three weeks. She died at her home at 109 Johnson Street. Mrs. Fronie Blackwell, Pentecostal minister, will conduct the services.

Mrs. Notgrass was born Roxie Johnson in Nimrod on July 20, 1885. She was married to M. L. Notgrass in the Pisgah school on March 8, 1903. Mr. and Mrs. Notgrass moved to Cisco in 1916. He died on February 2, 1947, and was buried in the Nimrod cemetery.

She is survived by one son, Marion Notgrass of Kermit, and seven daughters, Mrs. Shobel Houston, Mrs. Guy Ward, Mrs. Vivian Johnson, and Mrs. Boone Boggs of Cisco; Mrs. Paul Price, Mrs. Doyle Killion and Mrs. Garland Hurst of Kermit. Two brothers and three sisters also survive. They are John Johnson of Ranger and Floyd Johnson of Gladewater, Mrs. Carl Greer, Cisco, Mrs. Beulah Hall, Nimrod and Mrs. Joe Brown of Scranton.

Also surviving are 22 grandchildren and five great grandchildren. She will be buried beside her husband in the Nimrod cemetery. Thomas Funeral Home is in charge of the arrangements.

National Guard Gets Equipment

The arrival of one of three armored cars to be issued for use by Cisco National Guardsmen, was revealed here Wednesday by Sgt. Frank Schlepfer, administrative assistant.

The armored car, better known as a half track, was issued to the Cisco unit for patrol duties in case a state or national disturbance. Equipped with long range radio apparatus, the vehicle is manned by a crew of five.

In addition, the Cisco unit, Schlepfer said, is expecting the arrival of two self propelled and two more armored cars before the end of this month. At that time, the guardsmen will be maintaining 13 vehicles at the armory.

Miss Pyle Returns From Utah Seeting

Miss Doris Joe Pyle, Cisco High School English teacher, returned here Wednesday from Salt Lake City, Utah, where she attended the Southwest regional convention of the Delta Kappa Gamma.

A representative of the Cisco organization, Miss Pyle's trip included sight seeing excursions to the copper mines at Bingham, and to the great Salt Lake and a tour of the Salt Lake City which ended with an organ program in the Mormon Tabernacle.

On her return to Cisco, Miss Pyle visited Denver, Colorado.

Miss Pyle, who is an active club worker here, is a president of the Beta Upsilon chapter of Delta Kappa Gamma.

Proposed Ranger Eastland Dam To Cost \$500,000

An expenditure of approximately \$500,000 will be necessary for the erection of the proposed joint Eastland-Ranger dam on the junction of the Colony Creek and Leon River, S. E. Freese, Fort Worth engineer, has advised Eastland Chamber of Commerce officials.

Freese, of the Freese and Nichols engineering firm, said results of a preliminary survey conducted at the site recently, indicated the project "is very feasible — both from financial and water supply standpoints."

The proposed dam, to supply water needs of Eastland, Ranger and other Eastland County communities, would impound 600,000 acre feet of water and would back almost up to the Texas Electric Power Plant, Freese said.

Cost of the preliminary survey was under-written by the Brazos River Reclamation and the Conservation Board.

H. J. Tanner, secretary of the Eastland Chamber of Commerce, said this week he was highly encouraged by the estimated cost for the proposed dam as it had been felt if the cost was around a million dollars, it would be too big a project for Eastland and Ranger to undertake.

Freese, who now is on a tour through West Texas, said he would return to Eastland Friday to discuss in detail the survey results.

Gus Brandon is driving around a new Chevrolet pick up the past few days.

WHAT IN THE WORLD?—William Raaf, keeper of the St. Louis, Mo., Zoo's small reptile house, takes a dim view of the zoo's new arrival, a Solenodon. The tiny animal, resembling a cross between an anteater and a rat, comes from Haiti.

123 ATTEND 18th ANNUAL REUNION OF GASTON FAMILY AT LAKE CISCO PARK

More than 123 persons attended the 18th annual Gaston family reunion held at Lake Cisco last weekend.

These present were Mr. and Mrs. Conley Miles and children,

Judy and Roddy, Mr. and Mrs. S. L. Hester and daughter, Jo Nelle, Mr. and Mrs. Chuck Gaston and children, Charles, Randy and Roddy, Mr. and Mrs. Cecil Murray and son, Jerry, Jake and Jackie Gaston, Mr. and Mrs. R. L. Gaston, Mr. and Mrs. E. T. King, Tootie and Jean King, Mr. and Mrs. Paul Gaston, all of Abilene.

Mr. and Mrs. E. R. Goen and children, Deron, Jenny and Ernestine, Winters; Mr. and Mrs. Chris Jones and children, Otis Peggy, Nell, Bettye, Janey and Gene, Stamford; Mr. and Mrs. Willie King and children, Lloyd, Helen and Richard, and grandson, Dickie King, Mr. and Mrs. Horace King and son, Jerry, of Clyde.

Mr. and Mrs. Davis Jones and children, Davene, Dianne, Eddie and Ronald, Mr. and Mrs. M. L. Jones and Billie Jones, Rule; Mrs. J. T. King, Merkel; Mr. and Mrs. J. T. Lilljedahl and daughter, Saradel, Morton; Mr. and Mrs. Carl Lilljedahl and children, Ray, Don, Edith and Kay, Jonesboro.

Mr. and Mrs. G. Huckabee and son, Gerry, Mr. and Mrs. Rubes A. Goerdel and children, Maudella and Donna, T. B. Gaston, Mr. and Mrs. Luther O. Gaston, Mr. and Mrs. Donald Tosh, Mr. and Mrs. R. O. Gaston and daughter, Belva, A. H. Cox and daughter, all of Gatesville; Mr. and Mrs. Edd Gaston and daughter of Olesby, Mr. and Mrs. S. G. King and children, Jimmie and Shelba of Wichita Falls; Mrs. Mamie Hedgecock, Chickasha, Okla.

Mr. and Mrs. W. C. Carter and children, Bo, Pat and Tona, T. O. Cantrell and children, Buince and Linda, Mr. and Mrs. W. A. Cantrell, Clarence and Ina King, Fort Worth; Mr. and Mrs. Robon Balch and children, Tolon, James and Regina, Waco; Mr. and Mrs. Leroy McCutchen and children, A. L., Ila Ruth, Mayne, and Gene, Mrs. Ernest and Juanita, and Mr. and Mrs. F. B. Jones and children, Gayle Gaston and daughters, Mona Mae and Doug.

Harvest Your Cotton

this TIME— and MONEY— SAVING way

JOHN DEERE No. 15 Two-Row Cotton Harvester

You'll make short work of harvesting cotton . . . slash expenses to a fraction of hand-pulling costs when you own a John Deere No. 15 Two-Row Cotton Harvester.

The John Deere does an excellent job of harvesting any cotton that is suitable for mechanical snapping. Stripping two 40-inch rows at a time after defoliation, the John Deere does a once-over job, saving more cotton than the average hand-puller. Harvested at the same time, cotton pulled with the No. 15 grades as high as that picked by hand.

Be sure to stop in soon and let us tell you more about this time- and money-saving two-row cotton harvester.

Jim Yarbough of the Union community was in Putnam Monday afternoon and reported the cotton crop as doing fine. He stated he never saw it look better at this time of year. No insects are bothering it yet.

Cattle still selling pretty high. N. D. Williams sold 104 head of cattle the past week for 22 cents per pound, to Cooper and others of Eastland and his brother sold 26 head for about twenty one to the same people.

J. R. Gunn attended a reunion of the Gunn family in Austin the past week end returning to Putnam Tuesday morning.

O. A. Fleming of Houston is here this week visiting with his sisters Mrs. John Kellner and Mrs. John Cook. He will be here several days.

La Verne Rutherford assistant postmaster here has returned from California where she spent her vacation visiting with relatives out there.

Mrs. LaJuan Pitznic of Pomona, California has been visiting with her mother and husband for the past few days.

Mrs. Emily Grant of Trenton New Jersey and Mrs. Rose Hatley of California are visiting in the Mision hotel, with their

sister Mrs. Mary Guyton. Mrs. Hatley is the mother of Lewis Doucet who attended school here under the supervision of R. F. Webb, former Superintendent of Putnam Schools and W. C. Hodges the present superintendent. Lewis is now in the United States Navy as CPL Chief Pharmacist stationed at Brooklyn, N. Y. Mr. and Mrs. Bobby Williams are the parents of another girl born the past week.

Cecil Rutherford, son of Mr. and Mrs. Earl Rutherford re-enlisted in the army again last week.

Mr. and Mrs. Bill Brandon visited in the home of Mr. Brandon's parents Mr. and Mrs. Gus Brandon the past week.

John Hinds from St. Marry's West Virginia was visiting his uncle and aunt Mr. and Mrs. E. E. Sunderman last week.

C. A. Dittmore Jr. is here from China visiting with his father C. A. Dittmore Co. He has been in China for the past three years.

Mrs. Jack Miller was taken to the Callahan County Hospital for treatment Saturday morning.

Mr. and Mrs. Neal Moore were visiting in San Antonio the past week end on their vacation.

R. F. Webb former superintendent of the Putnam High School and now with the Ranger Junior College was in Putnam Saturday afternoon looking after business interest.

Mr. and Mrs. E. P. Whitaker of Weatherford were visiting in the home of Mr. and Mrs. John D. Isenhower and other relatives and friends over the past week end.

Mr. and Mrs. Sam Maynard have returned from a short visit in California.

Mrs. C. L. Brandon has recovered from a major operation and is back on the job in the Odom Grocery.

We regret that the name of our good friend Mrs. E. B. Anthony of Canyon was accidentally left out last week in our item about the visit of the Anthony family in the home of Mr. and Mrs. J. S. Yeager.

FINAL RITES FOR BETTY BEARMAN ARE HELD AT METHODIST CHURCH

Betty Bearman, 15 year old daughter of Mr. and Mrs. R. A. Bearman, 1113 West 7th Street, was laid to rest shortly after 5 p. m. Monday in Oakwood Cemetery — a short distance from Chesley Field where she had spent three years cheering her beloved Lobos as a member of the Cisco High School band.

Betty died at 5 p. m. Saturday following an accident on a gravel road three miles south of Cisco. The car in which she and Richard Moore, son of Mr. and Mrs. James Moore of Humbletown, were riding, overturned after striking loose gravel. She walked from the wreckage and while talking with a Mrs. Rich, she collapsed and died of internal injuries and shock before an ambulance arrived. The ambulance was summoned by young Moore, who ran two miles to the nearest phone.

Funeral services were held at 5 p. m. from the First Methodist Church. Rev. C. A. Warden, minister of the Wesley Methodist Church, was in charge of services.

Thomes Funeral Home was in charge of the arrangements.

She was born Margaret Elizabeth Bearman on January 13, 1935, in Cisco, and all of her school life had been spent in the local schools. She would have been a junior during the coming year. She was a member of the Lobo Band and was a popular member of the teenage group of the city.

She is survived by her parents, one sister, Jo Ann; and the maternal and paternal grandmothers, Mrs. Alice T. Bearman of Austin and Mrs. L. W. Foreman of Lebanon, Tenn.

Pallbearers were selected from parents of Lobo Band members and family friends. They were Charles Sandler, Fred Baumgardner, J. M. Flournoy, Bobby Dean, L. H. McCrea, Charles Burke, Simon Coplin and Tom Stark.

Fellowship Is Sponsored By Wildlife Group

A two-year motion picture fellowship in the amount of \$1,200 a year will be sponsored by the National Wildlife Federation at the University of Massachu-

setts, announced Federation officials.

The National Wildlife Federation recognizes that 16 mm. colored motion picture films are among the best means of gaining the support and understanding of sportsmen in this country for sounder wildlife research and management practices. The National Wildlife Federation is sponsoring an educational fellowship for research into the techniques and methods of making motion films specifically for this purpose.

The work will be initiated at the Massachusetts Cooperative Wildlife Research Unit at Amherst, Massachusetts, and will carry a stipend on a two-year fellowship basis of \$1,200 a year in addition to all required equipment and expense for such traveling as may be necessary.

This study will fulfill, in part, the requirement of a graduate student seeking an M. S. in Wildlife Management. In addition to research, twenty hours of course work must be completed. More specifically, the research will consist of screening existing colored films now available and making up a film on one phase of wildlife management in a given area or a group of states. Such a film would be in conformity to a prepared scenario and script and would ultimately be produced as a colored sound film on one aspect of Wildlife Management. Such a production will become the property of the National Wildlife Federation.

Local Ranchers Purchase Famous Aberdeen Angus

Sutton Crofts and Jack Baker, local ranchers, returned Friday from a trip to Kansas City and Belton, Mo., where they attended the dispersion sale of the famous herd of Aberdeen Angus cattle which formerly belonged to the musician Paul Whitman, and had been purchased by Roy Johnson of Silvertop Farms, Belton.

Crofts and Baker were fortunate enough to purchase a registered cow and calf of the Bandolier breeding, a family which is rich in the blood of international grand champions. They are very much enthused over the purchase, believing that the bloodlines they secured in these animals will be of much benefit in the improvement of their herds, as well of those of others, in the future.

It is believed that they have the only two animals in the state of this well known herd.

CARDS AND LETTERS KEEP CANCER STRICKEN LAD IN BETTER SPIRITS

There is one couple in Rising Star who is convinced the world is still filled with sympathetic people who are interested and concerned over the well-being of their fellow man.

Mr. and Mrs. Drexel Underwood of Buckeye, N. M., parents of young Clar Linden Underwood who is doomed to die from cancer, are convinced that the world, in all its troubles, still has a great number of citizens who are interested in the lives of others.

Two weeks ago the 29-year-old mother made a dramatic appeal for "get-well-cards" and letters for her nine year old boy, now slowly dying in a Rising Star hospital from the dreaded sarcoma cancer. And since then,

the blue-eyed, curly haired lad has been receiving hundreds of letters and cards with the arrival of each mail call at the hospital.

To date, almost 2800 cards and letters have been sent and the daily mails have brought him gifts, including cash contributions.

Then the other day, Clar read a card from a woman in France, way across the ocean, who had heard of his plight. On the front of the card was a picture of the British Isles. The message read: "Hello Clar: Way over here I read that you like pretty pictures. I visited this catle on the British Isles when I was in England last month. I shall send

you some pictures of Paris, too." "Hazel Hunnicutt."

The card was postmarkel from Paris, and was sent via air mail. Last week's mail brought news to young Clar that he had been commissioned as a deputy sheriff in two states.

Sherriff Hammett Vance of Wichita County, commissioned Clar has a reserve deputy sheriff on his force and sent his official credentials.

The other commission was received from Sherriff Horace B. Owen of Lea County, New Mexico, whose headquarters are in Lovington. Buckeye, Clar's home incidentally, is located in Lea County.

A card accompanying the commission stated that Sheriff Owen was anxious for young Clar to recover from his illness and hurry home to help him preserve law and order in Lea County.

Veterans To Apply For Refunds On Life Insurance

Some 16 million servicemen and veterans of World War II, present and former holders of National Service Life Insurance policies, will apply for their share of the \$2,800,000,000 NSLI special dividend beginning on August 29.

The Administrator of Veterans Affairs, Carl R. Gray, Jr., announced that on that date, 70 million application blanks will be ready at every Veterans Administration Office, post office, and at various service organizations throughout the nation.

In making samples of the application cards available to the press and radio, Mr. Gray warned that the cards may not be reproduced for distribution, since they will become a part of the permanent records of the VA and are printed on a special paper and sized to fit computing machines. Any forms other than those distributed by the VA will not be processed.

The veterans administrator said that all the veterans must do is to obtain the application, fill out the card completely and mail it to the Veterans Administration. The form is self-addressed.

In the event a veteran does not know his policy number, application can be identified by military serial number, rank and exact name used during term of service.

THROWING THE BULL—Little Patty Dahlstrom, of Houston, attended a rodeo near Brackettville, Tex., and betrayed every second of her anxiety. While the others took things more calmly, Patty was just plain fascinated with the goings-on.

Payments will start in January, 1950, therefore it is desirable that applicants furnish the VA with a permanent mailing address. If your address changes, notify your postmaster of your forwarding address. Do not send the VA any change of addresses for insurance after you have mailed your application. Any change of address made to the VA in connection with application will also cause delay in payment of dividend to you.

The VA Office, 105 N. E. 1st Street, Mineral Wells, will have the application forms August 29 and will assist veterans in completing them. Be sure to bring your insurance C number or numbers, if known. If you do not have your insurance number, bring your discharge with you.

bring your insurance number, bring your discharge with you.

Gun and Rifle Club Starts Trap House

Construction of the Eastland County Rifle and Gun Club trap house, to be located two miles northwest of Cisco, got underway this week, it was reported by Zan Burroughs, president.

The trap house, which is being constructed by the club to encourage membership, is being built by Ira D. Strawn of Cisco. Last week, the club met at the Cisco Chamber of Commerce building and voted to allot funds for the structure.

UNIQUE PROGRAM HONORS GRAHAM FOR 28 YEARS PERFECT ATTENDANCE

Dr. E. L. Graham, charter member of the local Rotary Club was honored for 28 years of perfect record for perfect attendance during his 26 years as a Rotarian to the club and the community at the regular noon meeting at the Hotel Victor dining room Thursday. The program was in charge of J. S. Procter. He was assisted by Benny Butler.

Procter presented Mr. Butler who was spokesman for the program, which consisted of the showing of a picture consisted of a number of cartoons depicting the life of Dr. Graham from the time he was born until Thursday when he attained his 28th year in Rotary without missing a meeting.

The cartoons were flashed on a screen through a 35 millimeter projector. Mr. Procter handled the projection of the film. Butler began his talk by stating that the program committee had reverted to the days of the old silent picture shows to bring the entertainment.

The first picture showed a stork delivering baby Graham into the world and indicating that he came in with a rough landing. The next scene showed Graham as a young lad on the farm leaning against a mule that was hitched to a plow. This was followed by a scene showing Graham as a young man entering medical college. Follow-

ing his graduation from medical school the newly made Doctor was shown entering World War I in search of patients. That was followed by a scene of the Doctor coming to Cisco to enter the field of medicine.

Other scenes told of his courtship and marriage, his success as a physician and his entering the Cisco Rotary Club as a charter member in 1921. The final scene paid tribute to him for overcoming the hardships of his profession in maintaining his record for perfect attendance during his 26 years as a Rotarian.

The cartoons, for the program, were drawn by Raymond Thomas of Cisco. The pictures were photographed by Mr. Butler on 35 millimeter film and placed on slides for use in the projector.

Following the talk by Butler, and the showing of the picture, President Bob Elliott presented Dr. Graham with a diamond studded Rotary lapel emblem—a token of appreciation from the club.

OIL AT 160 FEET!

An oil sand, topped at 160 feet and bottomed at 176, is being produced by James L. Countney et al on the E. E. Knight lease, two and a half miles southwest of Burkett, according to reports here today. The strata was believed the shallowest ever produced in that locality.

Cisco Junior College Plant Undergoes Extensive Repairs For Fall Opening

When the doors open at Cisco Junior College on September 6 for the beginning of the fall term, students will be greeted by a marked change in the physical plant. The buildings have undergone a complete face lifting during the summer months and much has been done to make the place a pleasant place for the students.

The dormitory is being completely re-decorated and a new roof is to be installed. The reception room and the halls have received fresh paint and all the rooms and rest rooms have been redecorated. The hall floors are to be painted and repaired.

The dining room and recreation hall will be painted and the kitchen will be modernized. Mr. and Mrs. James Haynie will be placed in charge of the dining room and recreation building when the school opens.

The administration building is being worked over from the basement to the roof. Chemistry and Biology laboratories in the basement have received new walls of sheet rock which will be painted a light color. The steps will be repaired and repainted.

All class rooms and the library have been repainted from floor to ceiling and the lighting system has been improved. The hardwood floor in the hall will be sanded and varnished as soon as the summer session is over. Lockers have been repaired and the office has been redecorated.

The administration building will receive a new roof and side walls will be laid from this to the cafeteria and to the building

housing the English and Math departments. A walk will also be poured from the dormitory to the cafeteria.

The shop building will be worked over and new storage space and shelves provided. Part of the floor will be cemented and the section now occupied by the National Guard will be taken into the shop when the unit moves to new quarters being constructed on the old city airport.

Disabled Veterans To Hold Meeting In Weatherford

A zone Convention of the Disabled American Veterans Organization is to be held Sunday, August 28, 1949, at 1:30 p. m.

All Disabled American Veterans, their wives, and children were invited to attend.

The purpose of the meeting is to elect a zone commander and zone vice commander and such other officials as the convention assembled feels necessary to carrying forward the organization and service work of the Disabled Americans in Zone 2.

Weatherford Chapter 13, the host of the convention, advises that a chicken dinner with trimmings will be served at 2:00 p. m. sharp. The price for the dinner will be \$1.10 for adults, 55c for children under ten years of age. If unable to be there for dinner, Veterans were urged to come at 3:00 p. m. when the business meeting will be held. Games and entertainment will be provided for the children.

Mr. and Mrs. Charley Brown are in New Mexico looking after business interest. They have a ranch out there with several hundred cattle.

BUDDIES — When Meyer Englander of New York had to enter a hospital, because of pain in his sightless eyes, his 11-year-old seeing eye dog, Naples, went along. Hospital authorities waived the "No Dogs Allowed" rule to let Naples stay with master.

John James Haynie At Convention

John James Haynie, son of Mr. and Mrs. James Haynie, is in Boulder Colorado, where he is attending the National convention of Kappa Kappa Psi, a fraternity composed of the leading musicians of the country.

At 7 p. m. Monday, August 22, the group will broadcast over National Broadcasting Company hook-up. The broadcast will originate from Radio Station KOA, Denver.

Clerical Exams To Be Held By Civil Service

A new clerk examination was announced today by the United States Civil Service Commission for filling positions at \$2,284 and \$2,498 a year (grades CAF-2 and 3), in various Federal agencies in Washington D. C., and vicinity.

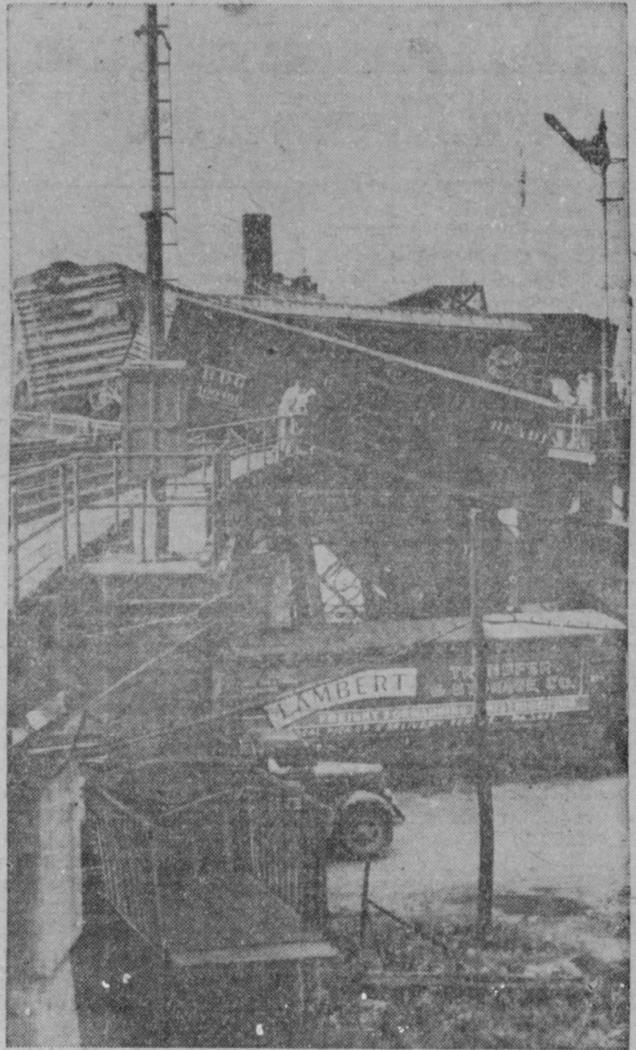

The Commission held a similar Clerk examination last March but not enough eligibles were secured as a result of that examination to fill, on a permanent basis, the Clerk jobs now occupied by war service and temporary employees, and to fill future vacancies that will occur through turnover.

Among the types of clerk positions to be filled from this examination are: Appointment, correspondence, docket, accounting, time leave, pay roll, statistical, coding, test rating, property and supply, mail, file, information, proofreading, editorial, indexing, purchasing, traffic, transportation rate, ect.

No previous training or experience in clerical work is required. To qualify, applicants will be required to pass a written test which will consist of questions designed to test their aptitude for learning and adjusting to the duties of the positions. A higher standard will be required for eligibility for grade CAF 3 than for grade CAF-2. Sample questions will accompany the examination announcement. The age limits, 18 to 62 years, are waived for persons entitled to veteran preference and, under certain conditions, for war service employees.

Further information and application forms may be obtained from Civil Service Commission's Local Secretary, Mr. Sam B. King located at Cisco Post Office, from Civil Service regional offices, or from the Commission's Washington office. Applications must be received in the U. S. Civil Service Commission, Washington 25, D. C., not later than September 6, 1949.

WANDERING FREIGHT CARS—After reaching one end of a bridge over the Ohio River, in Cincinnati, two freight cars leaped 20 feet from one trestle to another. The accident caused a third car to dangle by the couplings between the trestles, derailing eight more cars in the smash-up.

Drouth Conditions Relieved Over Most of Texas Farming Districts

Moisture was adequate in practically all areas of the State, as drouthy conditions were relieved over much of the Low Rolling Plains and other west Texas areas. Growing crops and grasses were showing the benefit of recent rains, although field work was held up to some extent. Preparation of land for small grains made good progress, espically in northwest areas.

A very limited harvest of corn was underway, and combining of rice was started. Peanuts were doing well, with a few exceptions as harvest was active in southern counties. The sweet potato crop was progressing favorable, and early harvest were showing good yields.

Cotton harvest went forward rapidly in southern counties and was underway in southcentral areas. Hot, dry weather over most of central Texas stimulated rapid development and insect control, but excessive rains along the coast and over some counties damaged open cotton and favored insect activity in

late plantings. Rainfall over Low Rolling Plains and adjacent northcentral counties favored development of bolls and continued fruiting of late cotton. Some increase in insect activity, especially bollworms, occurred in that area, but control measures were fairly effective. Cotton was heavily loaded and developed rapidly in northcentral counties and "first bales" were reported along the Red River. Fairly heavy insect infestation was reported in late cotton with control practices hampered by showery weather. Cotton made good growth and fruiting was heavy over the High Plains area.

Range and pasture feed was again greening in most southern High Plains, Low Rolling Plains, northcentral, Plateau and some counties where rains a week ago partially relieved dry conditions. Range feed was generally plentiful over the entire State, except in a few northcentral and the extreme southern counties where dry feed was getting short.

Walker Fuller To Graduate From Sam Houston College

HUNTSVILLE, August 16 — One Cisco student is a candidate for degrees to be awarded at Sam Houston State's summer commencement exercises to be held August 26.

The student is Walker Fuller, who will receive a bachelor of science degree.

The Sam Houston State's registrar's office reported that 430 persons have made applications

for degrees. Of the total, 275 have applied for bachelor of science degrees, 38 for bachelor of business administration, 24 for bachelor of arts, and 93 for master of arts.

Graduation exercises will be held at 7:30 p. m. August 26 in the college's open air Greek Lowman will be the principal speaker.

Bishop Frank A. Smith of Houston will deliver the baccalaureate sermon to be held at 7:30 p. m. August 21 in the Greek theater.

Trip To Be Publicized in Magazine And Over Television Hook-up

The breakfast trip of the Con-vair Air Activities Association planned for Sunday, August 23, is gaining nationwide publicity, according to a report to Mayor G. C. Rosenthal, who will welcome the group when it arrives at the local airport at 8 a. m. on that day.

Life Magazine has announced that a photographer representing their magazine would be attached to the group and would take pictures for a story in a future issue. Officers of the association informed Mr. Rosenthal that a WBAP-TV cameraman would be with the group to take pictures for a television broadcast.

It was also announced that approximately 200 persons would be in the group that will make the trip to Cisco and that 60 planes, including two DC-3's would land here. It was also expected that a B-36 would fly low over Cisco during the morning activities.

The group will begin landing at 8 a. m. and as soon as all are on the ground they will be taken to the Hotel Victor dining room for breakfast. They will be guests of local citizens. After breakfast they will be guests of local citizens. After breakfast they will return to the airport and to Lake Cisco where they will swim and participate in various games. Mayor Rosenthal asked for chess players, bridge players, domino and "42" players, tennis players, golfers, horseshoe pitchers, washer pitchers, checker players to be on hand to entertain the group.

Some members of the party will engage in an aerial show over the airport. Two gliders will be towed to Cisco, and will put on soaring demonstrations.

Church services will be held under the trees at the lake park and will be conducted by a minister who will accompany the group. It was expected that they would begin leaving for their homes in Fort Worth at 11 a. m.

Arrangements for the landings have been made and were planned according to requests by the association and CAA officials who will be with the aerocade. Special radio and Radar equipment has been installed by the local Naval Reserve Electronic Warfare Organization unit. It will be used only in case of storms or other weather conditions judged to be dangerous to flying in the area.

An ambulance and fire equipment will be at the airport for use in case of accident. Every precaution is being taken to assure a safe landing for all the planes.

Mayor Rosenthal asked local business men to cooperate in entertaining and welcoming the group. Cars will be needed to carry visitors from the airport to town and then to the lake.

Mrs. L. B. Moore returned from Merkel Monday from where she had been visiting her daughter and husband Mr. and Mrs. Buford Allen and attending a protracted meeting.

County School Board Meeting On August 15th

At a meeting of the County School Board and Superintendent B. C. Chrisman and the school superintendents met in the office of B. C. Chrisman Monday afternoon and Mrs. J. L. Ault was elected health nurse for all the county schools under the new education law.

Mrs. Ault is a registered nurse completing her training at Hendricks-Memorial Hospital, in Abilene, in 1937. She has had experience in hospital, on private duty, and as a health nurse in public schools. She will go on duty September 1. Under the new law, the state furnished salaries for one nurse for each 40 teacherunits, and instructional supervisor, a librarian and a visiting teacher allowed the county. All of these will be placed as soon as they are available.

The county board of trustees are Norrell Long, chairman of the county board at large, Jesse Tarrant, Precinct 1, Clint McIntire, precinct 2, Fred Cook precinct 3, and V. C. Walker precinct 4.

Spike Jones Is Booked For Run At State Fair

The Spike Jones Musical Depreciation Revue of 1950 has been booked for the State Fair of Texas, Oct. 8-23, after breaking box office records in 90 per cent of the huge civic auditoriums and theaters in which it has appeared this year, Julius Schepps, chairman of the Fair attractions committee, has announced.

The assault of Spike and his city slickers on Fair Park Auditorium in Dallas will be one of the most popular entertainment features ever presented by the exposition, Fair officials believe.

The show starts out with 44 people on the stage, each trying to be nuttier than the other, and bit by bit new instruments appear on which the Slickers and Spike create Bedlamic music (you should pardon the expression.)

There are pistols, gongs, washboards, tin cans of all sizes and battered water buckets. There is a "pianothrity" for student musicians not expert to play the pianoforte, and the "jukelele" which plays Hawaii music when Spike drops a nickle into it. (Ideal for musicians with broken hands.)

RELEASED ON BOND

A Cisco man was released from the Eastland County jail Sunday afternoon after posting a \$1,000 bond on charges of assault to murder. The complaint was filed in the office of Justice of the Peace W. E. Brown Friday. The man allegedly threatened a Cisco resident.

Noah's Ark, was built of gopher wood.

C. S. Surles Dies Suddenly Today While Returning From Fishing Trip

Word was received in Cisco at 11 a. m. today of the sudden death of C. S. Surles, local Real Estate and Insurance agent, who died after suffering a heart attack while returning to Cisco from a fishing trip to Possum Kingdom Lake.

Mr. Surles, accompanied by Joe Coats of Cisco, left the lake early today for home and as they neared Santo he was suddenly stricken. He was dead before aid could be reached. Thomas Funeral Home was called to transport the body to Cisco.

Mr. Surles, 62, was born near Putnam and had lived in the local area all his life. He moved to Cisco in 1922 and entered the Insurance and Real Estate business approximately six years ago.

He recently recovered from a serious illness and had been at work only a few days.

Funeral arrangements were incomplete, awaiting arrival of relatives. It was believed services would be held sometime Thursday.

Survivors include his wife, two sons and two daughters. The sons are Wendel Surles of Dallas and Major Donald Surles of Topeka, Kansas. The daughters are Mrs. Adrian Allen and Mrs. Doris Cunningham.

New Hope Seen For water In This Region

ABILENE, Aug. 23. — Thirsty West Texas today has a new hope for water in a program that may make the entire area a network of pipelines, supplying water from a half dozen multi-city dams on the major watersheds.

This prospect is seen in a let-

ter from President John D. Mitchell of the West Texas Chamber of Commerce to Manager D. A. Bandeden, in which he pledges the organization's support of multi-city surveys.

"From our study of and activities on development of our municipal water supply, it appears that the solution is beyond the capacity of the individual cities and that the total solution of the problem must come from complete river basin development and the building of large dams serving several cities," Mitchell wrote.

"The fact is that dam sites are not available for each of our cities and that there are only a few dam sites with ample watersheds and potable water on each of our main streams.

"These few main basin dams must be promptly developed if West Texas is to save the water originating in our territory and meet the critical water shortages now existing in all of our cities."

Immediately Bandeden set in motion a study of the formation of a West Texas water association with its main purpose of "extracting the optimum values of water originating in and available to West Texas in the common interest of the area."

This association would cooperate with existing authorities and might even assist in the formation of others, according to plan.

It was Bandeden who recently propounded a new formula for federal aid in dam building, which would make it possible for the Corps of Army Engineers and Bureau of Reclamation to build dams for municipal water as well as flood control.

East Cisco Church Cancels Midweek Prayer Services

The East Cisco Baptist Church will not hold the regular mid-week services Wednesday night, it was announced today. The services were cancelled to allow members to attend revival meetings in other Churches in Cisco.

Paul Stephens, minister, left Sunday for Borger where he will conduct a revival meeting which will last for one week.

The revival which began at the East Cisco Church on Sept. 7 ended Sunday night. Mr. Stephens was the preacher during the first week of the services and Russell Dennis, former minister of the church, was in charge of the last week of the meeting. Mr. Dennis is minister of the Melwood Ave. Church in Brownwood.

The services ended Sunday night with baptismal services. There were 24 additions to the church during the two weeks meeting.

Mr. and Mrs. Fred Heyser and Mr. and Mrs. Red Coffey were fishing on the San Saba river the past week. Mr. Heyser stated they did not catch any large fish, but had plenty to eat.
