Lt. Robert Clinton Completes Course At Foster Field

Victoria, Texas, Army Air Field, June 28.—R. L. Clinton Jr., son of Mr. and Mrs. R. L. Clinton, Putnam, Texas. Bobby as he is known here, graduated from the Putnam high school, and attended John Tarleton at Stephenville before entering the air service.

Still more fighter pilots from the Lone Star State soon will be on their way to join other Texans in the battle skies of the world.

In a brief but impressive ceremony at Foster Field, near Victoria, on June 27, Aviation Cadets swapped their title of "Mister" for "Sir" and pinned on silver pilot's wings and bars of a second lieutenant or flight officer.

One of the largest classes ever to be graduated from this fighter pilot school, its members represented 39 states of the Union.

Ranking third in a state-by-state tabulation of Class 44-F graduates, Texas was topped only by Pennsylvania and California, but overall figures of the 29 classes that have passed through here show Texas on top. The Lone Star State has accounted for 14 per cent of all Foster graduates—twice as many as any other state.

Foster Field is one of the advanced single-engine pilot training schools of the AAF Central Flying Training Command.

Included in Foster's Class 44-F are the following Texas: from Putnam R. L. Clinton Jr.

TO THE VOTERS OF COMMISSIONER PRECINCT NO. 3, CALLAHAN COUNTY, TEXAS:

I want to be elected commissioner of precinct No. 3, and am taking this means of asking you to vote for me when you go to the polls on July 22nd. I had hoped to be able to see all the voters personally but have been unable to secure help at the garage and felt like it would be an injustice to my customers not to be at their service during the busy grain season.

I believe I am qualified for this office, and have the capacity to learn to be a good commissioner. I will not go into details as to my education, business experience, army record in World War I, etc., for I do not think it necessary. You know my life and record here in the county as owner and manager of Cook's Garage, Putnam, Texas, for the past eighteen years. I have at all times stood ready to help in all worth-while undertakings in our community and county, and have been happy to accommodate the people in every way I could.

If I am elected the office will belong to the people, and you will be able to find me at all times to discuss any problems that may come up. I promise to give the job eight hours of my time per day.

Mr. and Mrs. A. S. Reese are here from Freeport this week. They went from here to Freeport several weeks ago. Mr. Reese stated to a representative of the News he did not know whether he would return to Freeport, or not.

A Card Car Users Not Likely to Get New Tires Before 45

Rationing Administrator Charles E. Phillips of the Office of Price Administration said Tuesday that new tires for "A" card motorists probably will not be available before 1945, "rather in the fall of 1944" as it appeared a few weeks ago.

In an interview, Phillips explained that a huge backlog of applications has piled up since May 1, when all "B" card drivers were made eligible for new tires. He stated, demand was far greater than anticipated. Consequently, it will take more than we thought to supply "B" card motorists, and it looks as though there will be no tires for "A" drivers until early 1945.

There is a total of about one million, six hundred thousand tires being built each month now and it is estimated the production will reach 2,000,000 tires per month before Jan. 1, and it is estimated when the production reaches that figure there will be plenty of tires.

Personal Mention

The writer met his old friend, Jack Newman of Abilene in Baird Monday morning. He said he did not stay in Abilene but very little, but was out on his ranch about nine miles north of Putnam most of the time. He said everything was moving along nicely at the ranch and he had his grain all harvested and his wheat made about 20 bushels per acre.

A. D. Warren of the Hurst community, was in town from that community Saturday and reported it getting pretty dry, but stated the feed crop was looking well yet, and if he could get rain in a short time, he would still make a good crop.

Cpl. and Mrs. Jack Ledbetter were shopping in Cisco Saturday. Corporal Ledbetter who has been stationed at Boca Raton Field, Florida, is visiting relatives here and in Scranton before going to Lincoln, Nebraska, where he has been transferred. — Cisco Daily.

Mrs. Ethel Dixon and Mrs. E. H. Gilmore were visiting friends in Mineral Wells Monday.

W. A. Peterson of Cross Plains, candidate for sheriff of Callahan county, was in Putnam Friday campaigning in the interest of his campaign for sheriff.

Water is getting scarce again in Putnam, the city is having to move from one of L. J. Cook's lake back to the railroad lake again Monday morning. It is reported there was about enough water to last about three months if it did not rain again.

R. A. Park, Mrs. D. D. Jones and Mrs. W. H. Brown attended the Church of Christ meeting in Putnam Sunday night, from Pueblo community and possibly others that the writer failed to see.

Mr. and Mrs. Neil Moore of Cisco were visiting and attending the Church of Christ meeting in Putnam Sunday and Sunday night.

Miss Velma Eubank who has been employed at Abilene for some time at Camp Berkeley, has been transferred to Dallas.

The Church of Christ just closed a successful meeting Sunday with Rev. Bell of the Abilene Christian College doing the preaching. Rev. Bell is the Bible teacher at the college.

Mrs. Bettie (Wood) White of Abilene spent the week-end visiting with her parents, Mr. and Mrs. Emmett Wood of the Union community.

Captain Chris Sunderman visited home folks recently and spent several days with his parents, Mr. and Mrs. E. E. Sunderman.

NOTICE

We want to thank our many customers and friends for the business you have given us during the 13 years we have been in Cisco.

We came here June 1, 1931.

Hundreds of you became our customers at that time and have been ever since and we have added new customers from month to month. You, our customers, have made it possible for us to have the largest parts and shop labor that we have ever had.

No job too large or too small to have our special personal attention.

Thanks a Million.

Miss Johnsie Hughes Married March 28 To Pvt. W. C. Allen Jr.

Mr. and Mrs. J. H. Hughes of Baird are announcing the marriage of their daughter, Johnsie Mae Hughes, to Private W. C. Allen Jr., of Scott Field, Belleville, Illinois, and Snyder. The single ring ceremony was read March 28, at the home of the officiating minister, Rev. Roy Shahan, pastor of the First Baptist Church in Snyder.

The bride is a graduate of Baird high school, was graduated from Abilene Christian College. Since her graduation she has taught school in the Baird public schools and for the past two years has been teaching in the Andrews high school. Her school was out in May. She is now with her husband in Belleville, Illinois. Private Allen, son of W. C. Allen of Lubbock was employed with the geophysical department of the Magnolia Petroleum Company at Lubbock before going into service. He is now taking gunner and radio training at the University near Scott Field. He is stationed with the Air Corps and has been for several years, having made his home in Snyder.

Putnam's Cotton Crop to be Less Than 1943 Crop

From reports coming in this year's cotton crop will be considerably less than the 1943 crop. Various reasons are given, in the first place the cotton farmer has found out he can make more money growing other crops such as maize and other feed crops since the price of feeds are so much higher than they ordinarily are and the feed is easy cultivated and during these dry years has produced exceedingly well. And further the past few years there has been a ready market for feed of any kind. But it has only been a few years since a farmer could bring a load of hay to town and possibly stand on the street all day and not sell. But not so with cotton, there has always been a ready market for cotton when it was offered and many farmers raised cotton on account of the ready market. Another reason for a short crop this year the grasshopper is doing quite a little damage to small cotton and farmers are not doing much poisoning, only a few putting out poison while the majority are not.

Sgt. John Allen Pruet In Air Training Service Command Stations

Sgt. John Allen Pruet, son of Mr. and Mrs. Ellison Pruet of Putnam, is now overseas and has participated in a course designed to bridge the gap between training in the states and soldiering in an active theatre of war. At one of the Air Service Command Stations known as control depots, Sgt. John Allen Pruet was carefully processed by classification experts who make certain that he was fitted for the job assigned to him.

Security training, personal hygiene, a talk by a Special Service Officer informing him of facilities for healthful recreation and a lecture by the chaplain are all in turn a part of the soldier's preparation for duties overseas. The next station will be one from which America's fighting planes take off to smash the Nazi war machine.

PERSONALS

Pvt. John Ila Clark was home the past week visiting among relatives and friends in Cisco and Putnam. She will be here about ten days before returning to Greenville.

Mr. and Mrs. Excel McMillan and baby of Jal, New Mexico, were guests of Mr. and Mrs. Ben Brazel and other friends here this week.

Judge and Mrs. J. R. Burnett of Cisco were guests in the home of Mrs. Burnett's sister, Mrs. J. S. Yeager and family Tuesday.

Mr. and Mrs. W. W. Everett of this place and Mrs. Neal Moore and daughter, Caryon of Cisco visited relatives in Cross Plains Wednesday.

Chief Machinist E. P. Whitaker of the Navy Seabees, left for the West Coast Friday morning after having a 30-day furlough visiting with Mrs. Whitaker and other friends and relatives and probably will go back to Southwest Pacific Islands.

W. A. Buchanan was transacting business in Baird Monday morning. He was planning on leaving for Waco Monday afternoon.

Miss Vonnie Foller of Baird spent the week-end visiting with her friend, Miss Laverne Rutherford, assistant postmaster in the Putnam office.

Frank T. Sunderman Appointed Officer And Receives Wings

Altus, (Okla.) Army Air Field, June 27.—Frank T. Sunderman, 20, son of Mr. and Mrs. Everett E. Sunderman, Putnam, Frank was reared in and around Putnam and is a graduate of the Putnam high school, was appointed a flight officer and received the silver pilot's wings of the Army Air Forces today at the Altus (Okla.) Army Air Field.

From this advanced 2-engine pilot training school of the AAF Central Flying Training Command, with headquarters at Randolph Field, Texas, he will go on to further advanced training at a multi-engine bomber or fighter school, or to the Central Instructors' School at Randolph Field.

After completing his advanced course he will be ready to carry the air attack over enemy territory, or return as an instructor to an advanced school.

Personal Mention

Mr. and Mrs. Fred Heyser were in town Sunday and in talking with Mr. Heyser he thinks the feed situation will get pretty serious this winter unless it rains shortly. In discussing the war he said he thought - probably we could win the European war this year, but thought likely it would take two or three years to win over the Japs.

Mr. and Mrs. Roy Lee Williams of California are here visiting with Mr. and Mrs. S. M. Eubanks, Mrs. Williams's father and mother, and will go from here to Cisco where they will visit with Williams parents and other friends and relatives.

R. F. Webb and J. B. Eubank attended the livestock show and rodeo at Stamford from Putnam last week. This has been an annual affair for several years and usually a number go from here, but the shortage of gas and tires accounts for so few attending.

Mark Burnam was in town from the Union community Saturday afternoon and reported it getting dry and unless it rained soon, the feed crop would be light. He said cotton was still growing and looking good. His wheat threshed out about 20 bushels per acre.

Mr. and Mrs. Bob Williams were visiting in the home of Mr. and Mrs. W. A. Buchanan over the week-end from Abilene. Mrs. Williams is a daughter of Mr. and Mrs. Buchanan.

J. H. Dixon left Saturday for Geneva, Ohio after visiting with his sister, Mrs. E. H. Gilmore for the past several days. This is the second time they had met in 20 years.

Mrs. Gus Brandon left Friday for Carlsbad, New Mexico where she will spend several weeks visiting with her daughter and husband, Mr. and Mrs. Neil Norred.

Mrs. J. S. Yeager spent the week-end visiting with her daughter and husband, Mr. and Mrs. Carl Wallace of Tyler, returning to Putnam Sunday night.

**Sam Russell Makes
 Statement to Voters**

TO THE MEN AND WOMEN
 VOTERS OF SHACKELFORD
 COUNTY:

I have just returned home after
 staying on the job in Congress un-
 til the recess came. I firmly be-
 lieve that it was my patriotic duty
 to remain at my post to help in any

manner possible to take care of the
 many war-torn responsibilities our
 country is now faced with.

By reason of the short time,
 shortage of gasoline and tires I
 will be unable to see the voters as
 I would like to and would do under
 ordinary circumstances. There-
 fore, I am coming to you thru this
 medium and extend greetings to
 every man and woman, as well as
 ever ychild.

If you believe my experience and
 my ability justifies my re-election
 I will greatly appreciate your sup-
 port. These are trying times and
 it is highly important that we keep
 men in Congress who have the
 courage and willingness to do ev-
 erything possible to help our coun-
 try through the dark days ahead.
 If you send me back to Washington
 as your Congressman you can rest
 assured that I will continue to do
 my best to protect every sacred
 right of this country.

I have worked in the interest of
 the agricultural industry; and ev-
 ery Act in behalf of our war effort
 has received my support and co-
 operation. My heart is set on, and
 my services are dedicated to win-
 ning the war, winning the peace
 and maintaining our democratic
 way of life and if possible, preserv-
 ing our financial structure.

Respectfully yours,
SAM M. RUSSELL

(Political Advertisement paid for by C. B. Pruet and other friends of L. R. Pearson)

The Farmer With Three Judges After Him Has His Say Again

In traveling over the country I find that lots of people believe that no one has a right to go to congress except some member of the legal profession. I think that one man has just as much right to be elected to any office as another. There is nothing that I know of that would prevent a farmer from being a Supreme Court Judge. This country claims to be a democracy, but in this case it certainly does not live up to it. If I can convince the people we need farmers and doctors and merchants and carpenters and other professions in Congress just as much as we need lawyers I will have rendered a service to my coun-

try. Seems to me results ought to count. There are probably a thousand farmers in this district that would make just as good a Congressman as either of the four that are now running. We have ranchmen that would get on the right side and stand there in spite of all. And the doctors, a successful doctor is qualified to the Senate or Representative. He has every qualification. In the first place he knows humanity, he can associate with his fellows. He must have common sense or he could never be a doctor. In fact the profession itself is the highest on earth.

But they tell us we do not know enough; we farmers, we doctors, we carpenters, we merchants. The other day a fellow asked me if I thought I could find my way to Washington. Well, this country would be a thousand times better off if some of the people we have

sent there had gotten lost in the Mississippi bottom, and still be lost. And I rather suspect people from here to France and to the South Pacific would say this is so. In writing the pieces for the papers I expect to try to write something that will make people think. I wonder how many people have read the judges platforms. Do you know what they stand for. Well, I haven't and don't.

Someone asked me what I think of labor. I contend that when a factory owner gets to making bigger profits, he needs to pay his hired help more in proportion. If you treat a man square and give him a square deal, you don't have to have so many bosses. A man who knows he is getting fair treatment gets his heart and soul in his work. When the man who sweats sees the factory owner living in a palace with some one to light his cigar and tie his shoes and the workmen live in a dirty shack, he has to pay high rent on. No wonder he complains. To abuse people and call them unpatriotic under these conditions makes things much worse. Men can never be patriotic on empty stomachs.

No more land will ever be made. We must save what we have. I am in favor of terracing the land and building tanks at government expense. Some one has said, why not build these terraces at the owners' expense. Simply because in a few years the owner of the farm will go west. But many thousands will come after him. Thousands of acres of our farming lands are now in the Gulf. We must save the rest.

There is another thing I want to assure you I would never on this earth do. I will never trade the boys of my district for a military camp, a landing field, or any other kind of war department. If I were told, we have a war pending and if you will vote right, you can have a camp in your district. Such things have been done and might be done in the future.

The best way to stay out of war is to not go into it. Ask Turkey, Ireland and Switzerland how they stayed out of the war. Turkey has been offered all kinds of bribes to get into the war. Both sides have given the Turks millions of dollars. They have been offered a seat at the peace table. But the Turks seem to prefer their sons at the dinner table rather than to have a seat at the peace table. There has never on this earth been a treaty that was not broken. The politicians promise the parents it will never happen again. They have been saying this from the time of the beginning. They say they are going to form a league to prevent war and

in the very next breath say we must be the best armed country on earth.

There is one thing if this country keeps up war every twenty-five years we will siphon everything we have into foreign countries and become a very poor country.

NOT ADVANCED—ONLY \$1.00 PER YEAR.

HAVE YOU A
TRUE PICTURE
OF YOUR ELECTRIC BILL?

MANY folks don't. They're as far from the real facts as this photo in an amusement park mirror!

Proof? In a nation-wide survey, 42% of the people sharply overestimated the amount of their last electric bill. 59% didn't realize that rates had been reduced in the last fifteen years—and 95% didn't realize how much!

Actually, the average American family gets about twice as much electricity today as it did

fifteen years ago for the same money.

"For the same money." That's the clue. You don't realize that rates are down, because your bill may be as much as it was fifteen years ago—perhaps even more. But you have more electric appliances now. You're using more electricity—and you get about twice as much for what you pay.

A CHANGE WON'T HURT

SURE AS SHOOTIN'

There's only one way to keep your house up to par. That way is to keep it well painted. If you neglect proper maintenance, sure as shootin' the weather will keep gnawing away until expensive extensive repairs will be required. Get Dutch Boy Pure White Lead Paint on the job promptly. There's nothing better than this all-white lead paint for keeping your house in tip-top shape.

Ask about the Special Primer for 1st Coat!

Please Note—This Paint is Pure. No change in formula—STILL PRE-WAR.
