

Nothing Can Be Sold At Any Price Unless The People Know It Is For Sale

VOLUME 13

PUTNAM, CALLAHAN COUNTY, TEXAS

Thursday, January 19, 1950

NUMBER 52

From The Editor's Window

BY MRS. J. S. YEAGER

In a recent poll as to the best way to obtain world peace, conducted here in the Lone Star State, one out of every three persons questioned answered that through prayer and the observance of the teachings of Jesus Christ is the only way.

People in every walk of life, educated and uneducated, professional and nonprofessional, rich and poor, men and women, were interviewed.

A small percent thought that to strengthen the United Nations would bring peace, but after it was all figured out, the ones using the Christian prescription were in the majority, which, we might add, makes us very glad to be numbered among the citizens of the great state of Texas.

It is reported that the number of horses and mules in the U. S. has decreased from 21,431,000 in 1915 to about 10,000,000 in 1950. In about the same period tractors have increased from 1,000 to 3,000,000.

The Christian Science Monitor reported that the superliner S.S. United States, now being built, will not only be the largest ship constructed in this country but will have one of the most elaborate air-conditioning systems on any vessel afloat. The ship will be capable of accommodating about 2,000 passengers. A crew of around 1,000 will be necessary to man the huge vessel.

From Blue Blaze of Lone Star Gas System: "Imagination was given to man to compensate him for what he is not. And a sense of humor was provided to console him for what he is."

Mother: "And what did Mama's little man learn at school today?"

Little Boy: "I learned two fellers not to call me Mama's little boy."

A salesman rapped on the screen door at a house where, just inside and plainly visible, a young lad was painfully practicing his piano lesson.

"Sonny," he inquired, "is your mother home?"

The boy gave a murderous look at the man, then answered, "What do you think, Mister?"

What is thought to be the largest mesquite tree in Texas is growing in Coryell County, eight miles east of Gatesville on Highway No. 36. It is said to measure 10 ft. 9 1/2 in. in circumference at 4 1/2 feet above the ground. It measures 60 ft. high.

There are said to be 28 American schools in Japan financed by the U. S. Government. They are for the use of American children and also to serve as models for Japanese schools which will be suitable for the needs and interests of the Japanese people of the future.

Rosin is made from the distillation of turpentine.

Taylor Announces For Commissioner

TO THE VOTERS OF
PRECINCT THREE

R. B. Taylor's name will appear in the announcement column as a candidate for Commissioner of Precinct Three.

Mr. Taylor (Slim, to his many friends) came to this precinct from Mississippi in August, 1922 and has made his home near the Zion Hill School since that date. He has been successful in farming and stock raising. He is a high school graduate of the schools of Mississippi. He made this statement in regard to his campaign:

"I have not been solicited by any one to make this race and do not intend to conduct a campaign that would put any one under any pressure to vote for me. Therefore, if elected, I will not be under any obligation to any one or any group. I have had all the ups and downs of the average citizen. I have lived on a public road since coming to this precinct and know what it means to be unable to get to my neighbor's house and to town and to miss my mail on the route. I have studied roads and have been observing the work done on my road and all the roads in the community and if I did not think I could improve on what has been done, I would think it useless to ask your vote and support. I have always practiced rigid economy in my personal affairs and the public affairs that I have been called on to handle. If I am elected, I propose to give you the same amount of time that is required of the employees of the precinct. I will be on the job in the court house and on the road to see that everything is done at the lowest possible cost. I plan to see every one before the election in order that we may personally talk over affairs of the precinct."

R. B. (Slim) Taylor

First National Bank Of Baird Elects Officers

The First National Bank of Baird held a meeting there on Tuesday afternoon and elected directors for the ensuing year. The following directors were named: Tom Windom of Oplin, Ace Hickman, Frank Windom, Fred Cutbirth, Rod Kelton, Bob Norrell and Howard Farmer.

Directors met, organized, and elected officers: Tom Windom president, Ace Hickman, vice president, Fred Cutbirth, vice president, Frank Windom, vice president, Bob Norrell, cashier, Howard Farmer and Lee Loper assistants.

Bank employees are Mrs. Viva Peek, Miss Sarah Parks, Mrs. Lucy Curtis, Fred Goble, Mrs. May Lewis, Miss Burma Warren, James Eubank and Charley Young.

The cashier, Mr. Norrell, said he wants to keep the bank ahead of everything and ahead of other businesses in Baird, that the community may be proud of its bank.

PEOPLE WHO HAVE BEEN AIDING COMMUNIST ARE PRIMARY RESPONSIBLE FOR THE COMMUNIST

Louder and louder was the multitude of voices throughout the nation in proclaiming anti-communist sentiments. And among the louder and more vigorous are those of the proponents and leaders of the "Truman" administration. And it is to those brassy-voiced lusters after power that we direct just one remark. What's the difference, chums?

What's the difference between the communist state and the sort of farce you're trying so desperately to elevate from the gutters and make the law of the land?

We don't attempt to argue political theories with you. But let us get down to the bone of practical politics. For all practical purposes, communism could be defined as a situation where one man or group of men impose their wills on the rest of the people. Now do you pretend that the same power will not exist in the government of a "Truman state" where a group of men will dominate the entire nation through the all powerful control given them by nationaliza-

tion? Let us not kid ourselves; yes.

Judas was given 30 pieces of silver to betray Christ. You would GIVE 30 pieces of silver, or shall we call it simply "welfare handouts," in betrayal of democracy and individual liberties.

Several examples come to mind to describe the actions of you and your cohorts such as the one in which a wise man was warned "beware, because when it comes it will be in guise of a friend." A friend of democracy, aren't you, chum? or so you say.

And there is the one about the skunk who walked into the midst of some other animals, sniffed the air and exclaimed, "My gosh, something sure does

smell terrible in here." Had a bit to say about the stench of communism, haven't you, chum?

Or perhaps you prefer the one about the thief who, when observed fleeing from the scene of the crime, began yelling, "Stop, thief!" louder than any of the other onlookers in an effort to escape detection. Seems like we have been haring you yell pretty loud about the danger of communism, haven't we, chum? Well, you just keep on yelling, chum; and we'll keep on yelling, too. Yelling with all the power of our pen that the skunk belongs the stink. And one of these days voters' noses, will show them where the skunk lies hidden in the disguise of a friend of democracy. —Deer Creek Pilot, Rolling Fork, Miss.

And there is the one about the skunk who walked into the midst of some other animals, sniffed the air and exclaimed, "My gosh, something sure does

smell terrible in here." Had a bit to say about the stench of communism, haven't you, chum?

Clyde Farmers Not To Plant Soybeans

Several people around Clyde have been working with the county agent investigating the possibilities of growing soybeans in his area. Of course they are looking for a cash crop to plant on some acres of land that was lost due to acreage controls. Results of this investigation so far indicate that soybeans are not recommended for this area. N. A. Miller, agronomist from Texas A&M. College, says the results of soybeans are so erratic that they can not be recommended for seed production. He also says that yields have been uncertain and mostly disappointing. It seems that this climate is not right for setting a seed crop, but there are other crops, such as grain sorghum, that might prove more profitable.

A. C. Ashley Dies In Baird Jan. 5

Funeral services for A. C. Ashley of Baird were held at the Wylie Funeral Home in Baird at 3 p. m. Saturday, Jan. 7. Minister Leslie Pickerson of the Church of Christ officiated.

Mr. Ashley died at 8:15 a. m. Jan. 5 in a veterans' hospital in Dallas, where he had been since Dec. 26, 1949.

Born Feb. 18, 1895, in Hill County, he had lived most of his life in Callahan County, residing at Oplin and Cross Plains before moving to Baird about 10 years ago. He was married to Mary Berniece Rutherford of Callahan County Jan. 23, 1934.

He was a veteran of World War I and a member of the Church of Christ. Counted a good friend and citizen, he will be missed by many people of the county.

He is survived by his wife, a daughter, Winnie Pearl, four sons, Wilbur, Bob, Charles, Arthur Olin, and Glenn, all of Baird; three brothers, Tom of Cross Plains, Moley of Alabama, and I. B. of O'Brien; two sisters, Mrs. Pearl Lee of Putnam and Mrs. Lillie Volious of Seagraves.

Burial was at Ross Cemetery at Baird.

Water District Elect Officers

Only 35 votes were cast in the election at Baird of two directors for the Callahan County Water Control and Improvement District No. 1. Roy Glibreath and Lee Loper were returned to the board to serve for a two year term.

In a meeting of the directors of the water board Monday, Gilbert Hines was appointed to fill the unexpired term of N. A. Waldrop, who resigned to accept employment elsewhere.

The County Agent Advises Farmers

Due to the cut in number of acres of cotton that has been grown, many people are planning to fertilize their cotton on the next crop. For best results, cotton fertilizer is usually applied at the time of planting or just before planting. Mixed fertilizer should not touch the seed. It is best placed in ground two or three inches on one side of both sides of the seed two or three inches below the seed with a fertilizer distributor on the planter.

Rupert Jackson Visits Putnam

Rupert Jackson of Baird, County chairman of the polio committee in the national polio drive, was in Putnam one day last week working in the interest of the drive in Callahan County. He stated the quota had been raised of \$4,000. This figure was based on 35 cents per person in the county.

The local fund was exhausted when some \$1300 was spent on polio victims in the county during the past year. This amount does not include all of \$400 which was received from the national foundation after the local fund ran out. Mr. Jackson appeals to everyone to help in all ways to make the drive successful.

Half the money raised for polio fund remains in the county and the other half goes to the National Foundation.

IMPORTANCE OF JUNIOR COLLEGE EXPLAINED IN LIONS ADDRESS

The growing importance of the Cisco Junior College as an educational center for this region and as an asset to the community provided the theme of a talk Wednesday by A. R. Collier, coordinator of veterans training, at the weekly luncheon meeting of the Lions Club.

Mr. Collier, who spoke as guest of Lion W. H. LaRoque, told the club that the veterans school anticipates enrollment in excess of 550 students with the beginning of the second semester late this month.

The school now has 447 students—a drop of some 70 since the beginning of the current school year. The drop was attributed by Mr. Collier to a general tightening of regulations by the Veterans Administration.

He told Lions that Cisco Junior College now ranks as one of the top schools operating in cooperation with the Veterans Administration in the southwest region. He added that the local school's rating now is good enough that inspectors seldom visit here, except to check on the progress of disabled veterans.

The night school here commenced in 1946 with 19 students and has shown marked growth with each semester, he said.

Mr. Collier pointed out that the "real good to the community will come in the years ahead—as the education pays dividends." He reminded Lions more than \$50,000 per month is paid veterans in subsistence checks by the VA, in addition to large payments for tuition and fees.

Eastland School Man Goes To Cross Plains

James Alexander, assistant football coach and history teacher in the Eastland High School, has resigned to become principal of the Cross Plains High School, it was announced by W. G. Womack, Eastland superintendent.

Alexander will take over his new duties at mid-term. He came to the Eastland school system this year from Cross Plains where he was coach and instructor.

He will fill the vacancy caused by the resignation of Jack Stou who became a rural mail carrier at May on January 16. Alexander is a graduate of Abilene Christian College and a native of Pioneer.

WARMER WEATHER

The weatherman predicted warmer weather and possible rain showers for Tuesday night and early Wednesday with the mercury scheduled to rise to near 60 degrees Tuesday afternoon.

Colder weather was expected late Wednesday or Thursday as a new front was headed in this direction. Severe cold was not

M. W. Huntington Asks Your Support For County Judge

In announcing my candidacy for the office of County Judge of Callahan County, I have but one thought to express to the people of this area: that is, I am a young man looking for a job and have a sincere desire to serve you.

Some of the people of this area know of my past and the qualifications I possess for this office, however to those of you who do not know me so intimately, I offer the following brief autobiographical sketch.

I have lived in Cross Plains since six years of age. My life has been that of a normal Callahan county boy attending Cross Plains schools, from which I was graduated in 1940. Three months after graduation I entered the United States Marine Corps and served four years in the Pacific theatre. I was at Pago Pago Samoa, in the South Seas, when war was declared. As a member of the Marine intelligence Corps I was awarded a field commission during the battle of Iwo Jima, in February, 1945. I was honorably discharged from the service in February 1946. I am not so presumptuous as to believe that the above is a pre-requisite for the office of County Judge, however, I do feel that you, the voters of Callahan County, are entitled to some account of my stewardship during the recent war.

I again entered school in 1947 at Hardin-Simmons University, Abilene, where pre-law work was completed last summer. I am now a student at Baylor University School of Law in Waco, from which I am currently taking a 90 day recess for reasons of health.

Believing myself to be adequately prepared for the position of County Judge, and promising that if the people of this county will elect me to that place I shall do all within my power to serve them as they deserve to be served.

It will be my aim to meet and talk with every person of the county between now and election time, but such a task will be great or I plan to re-enter law school in March. Should I fail to see you personally, I wish you to ask one of my many friends who have already given me the "pat on the back" and handshake of encouragement, as to my abilities and my desire to serve you.

With that in mind I sincerely hope I shall receive your serious consideration for the office of County Judge at the forthcoming Democratic primaries.

Sincerely yours,
 M. W. (Dickie) HUNTINGTON

expected, however.

Regional Office Of VA To Move

All divisions of the Veterans Dallas Regional Office, except Medical and Dental will move from Love Field to the newly constructed building at 912 South Ervay Street, Dallas, on the week end of January 20-22. Scott B. Harrington, Manager, has announced. The newly-located Regional Office will be open for business on the morning of January 23.

Complete medical and dental service will continue to be given eligible veterans at Love Field until necessary professional equipment can be installed in the downtown building. At that time Harrington said, medical and dental service will be provided at the 5-story fireproof building which VA has leased.

VA has been occupying 33 semi-permanent buildings at Love Field, war-time home of the Fifth Ferrying Group, since August 1, 1946. Although it will be necessary for VA to move approximately a half million miscellaneous veterans records, together with 1000 filing cabinets and other nec-

cessary office equipment to the 108,000 square feet it will occupy in the new building, every endeavor will be made to effect the movement without interference to operations, Harrington said.

Civil Service To Hold Job Exams

The Civil Service Commission has announced an examination for the position of Chemist at entrance salaries ranging from \$4600 to \$6400 per annum. Employment will be with various Federal agencies in the state of Texas.

The Commission also announced an examination for Economist for filling positions paying \$3,825 to \$6,400 a year in various Federal agencies in Washington, D. C., and vicinity.

Further information and application forms may be obtained from the Commission's local secretary, Sam King located at the Cisco Post Office.

Editors See No Harm In Selling Gas Out Of State

"Curbing Texas Gas Exports is Unsound Proposal," reads the headline of a feature article appearing in WORLD OIL magazine for January, 1950.

The two editors who collaborated on this timely discussion draw on a mass of official data prepared by the U. S. Bureau of Mines.

Texas is not running out of natural gas. The state had 95.7 trillion cubic feet of reserves at the end of 1948, or 55 per cent of the U. S. total. Net production of Texas gas was 2.7 trillion cubic feet in 1948. Yet the same year 5.7 trillion cubic feet of gas were added to the State's reserves. A similar gain in gas reserves for the nation as a whole has been experienced every year for years.

WORLD OIL'S editors cite the fact that while Texas has 55 per cent of the U. S. reserves it has been providing only about 45 per cent of U. S. net production of natural gas.

Figures are cited to dispel the false notions that most of Texas natural gas is exported. For 1947 net exports of Texas natural gas

were approximately 488 billion cubic feet. This was only 19.6 per cent of Texas' net production. The other four fifths of Texas' net production of gas was consumed in the state.

Of the entire interstate movement of natural gas in 1947 Texas accounted for less than 40 per cent.

What the improving market for Texas gas means in dollars and cents to land-owners, royalty owners, and producers is shown by WORLD OIL. It cites figures of the State Comptroller to show the average price of natural gas in Texas at the well in 1945 was 3.209 cents per thousand feet; 5.330 cents in 1948; and estimates the figure of 6.5 cents for 1949.

Tree Seedlings Are Available To Texas Farmers

Tree seedlings for reforestation and wind break purposes are available to Texas landowners Don Young, head of the Texas Forest Service management department of the A&M College System, advised today.

The latest inventory of tree

HARD HIT--The worst earthquake Japan has experienced since the Tokyo disaster of 1923 has now destroyed 874 houses. More than 5000 other houses were partially damaged by the wave of three quakes. Hardest hit was the town of Imaichi where 80 per cent of the dwellings suffered damage, and stone houses like the one shown here were demolished.

seedlings in the Texas Forest Service tree nursery shows that 4,500,000 tree seedlings have not been sold.

The deadline for ordering seedlings is Jan. 31. The planting season extends into March. Orders submitted in January may specify a February or March delivery date.

The unsold seedlings include Chinese tallow, Russian mulberry, green ash, Arizona cypress, and loblolly pine. These species are well adapted for shelterbelt and wind break purposes in the Panhandle and West Texas. Bois d'arc, red cedar, and catalpa are also available. The latter species produce excellent fence posts, the heartwood being resistant to decay. Approximately 17,000,000 seedlings were grown by the Texas Forest Service at the Indian Mound nursery this past year.

Seedlings are sold to landowners at cost, \$3 for pine and \$5 for the other species. Trees grown by the Texas Forest Service can not be sold for ornamental purposes. The seedlings will be shipped F.O.B. Rusk. Land reforested qualifies for Production and Marketing Administration payments provided application has been approved in advance.

Individuals desiring planting information should write the Texas Forest Service, College Station.

Texas Composer To Be Honored

David W. Guion, internationally known composer-pianist whose song "Home on the Range" is a national favorite, will be signally honored throughout his native state of Texas by a special Guion Week, January 29--February 4, which has been announced by Mrs. Blant Burford, president of the Texas Federation of Music Clubs, and Dr. Clyde Jay Garrett, Dean of Fine Arts of Howard Payne College. Garrett is state chairman of the Guion celebration.

Plans outlined by the state committee for Guion Week include the presentation of Guion compositions in churches throughout the state on Sunday, Jan. 29,

Guion music recitals on the campuses of Texas colleges and conservatories, the presentation of Guion orchestral work by the Dallas Symphony and other or-

chestras and many other similar events. Music stores will display Guion compositions in their show windows throughout the week.

He has been the shining light in ACC's conquest of the Texas Conference title for the past two years. Following graduation, he plans to play professional basketball.

WTUCo. Adds E. L. Gains To Staff Of Local Office

The addition of E. L. Gains to the local office of the West Texas Utilities Company was announced today by E. L. Jackson, assistant district manager.

Gains, who has been local manager of the WTUCo Rising Star office since 1936, will work on special assignments under the assistant district manager. Gains, a native of Baird, has been em-

ployed by the WTUCo for more than 22 years. Before going to Rising Star he was local manager at Putnam and prior to that worked in the ice department at Baird.

A member of the Methodist Church and Masonic Lodge, he was active worker in the Rising Star Chamber of Commerce and received a citation from the U. S. Army Air Force for his work as Chief Air Raid Warden in Rising Star during World War II. Mrs. Gains and their son, Sherwood, who was a member of Rising Star regional champion football team, will join him in Cisco.

Gas Refrigerator Models Will Be Shown On Jan. 20

First public showing of the new 1950 Servel gas refrigerator models — featuring drastic price reductions and advances in styling, convenience, and performance—will be held Friday, Jan. 20, on sales floors of gas refrigerator dealers and the Lone Star Gas Co. in this territory, according to gas company representatives.

The new Servel discards the long accepted practice of fitting the food into the space, the representatives point out. This refrigerator is designed to make the space fit the food—with only a minimum of changes that can be made quickly without rearranging the entire interior and playing checkers with the food items.

The new gas refrigerators were designed by Walter Dorwin Teague, nationally prominent industrial designer. Mr. Teague and his staff gave particular attention to the new long life design of the refrigerator, both inside and out. First the exterior follows classic lines that will be attractive through the years as

it is today. The second feature is a quick-change interior to manage any food storage requirement.

The gas refrigerator provides

silent operation in the freezing compartment and it gives homemakers a chance to take the problem out of food storage and minimize the loss of shelf area.

Never-ending preparations protect your gas service

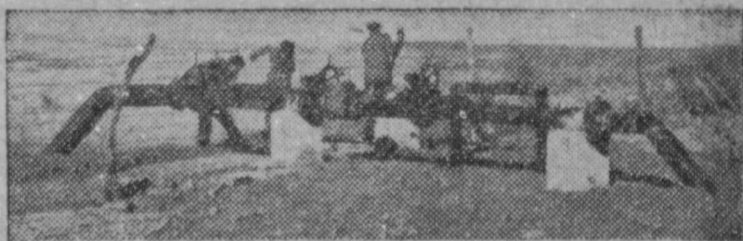

THESE pictures record the reasons you face winter without fear. They show a few of the never-ending preparations necessary for you to enjoy dependable gas service. So vital are these preparations that neither time, money, nor manpower is spared for them.

ROUND-THE-CLOCK drilling operations on this well were in their eighth week when this picture was taken. Months of painstaking work preceded the drilling. It has taken years of exploratory activity to obtain 1,140 wells (in over 100 gas-producing fields) that now supply you natural gas.

ON FLOOR OF RIG at right, Lone Star geologist saves "core" of well being drilled. "Core" reveals information vital to proper completion and operation of well.

BEHIND GAS SERVICE there is something to build, paint, or repair every day, oftentimes in remote places. Above, a crew completes a control valve installation, part of a new compressor station. In the last three years, Lone Star has invested over \$100 per customer to assure dependable service. Yet, you enjoy conveniences and comforts of natural gas service for a year around average of less than 15c a day.

You're Considered Company When You Shop At ODOM'S Grocery

We've told you before there's nothing we like better than seeing our friends some in.

Sort of gives us a little "lift" it seems. Whether you've been in hundreds of times, or coming in for the first time.

It's mighty pleasing to us. AND WE'RE READY to fill your wants in staple and fancy groceries. Standard Brands.

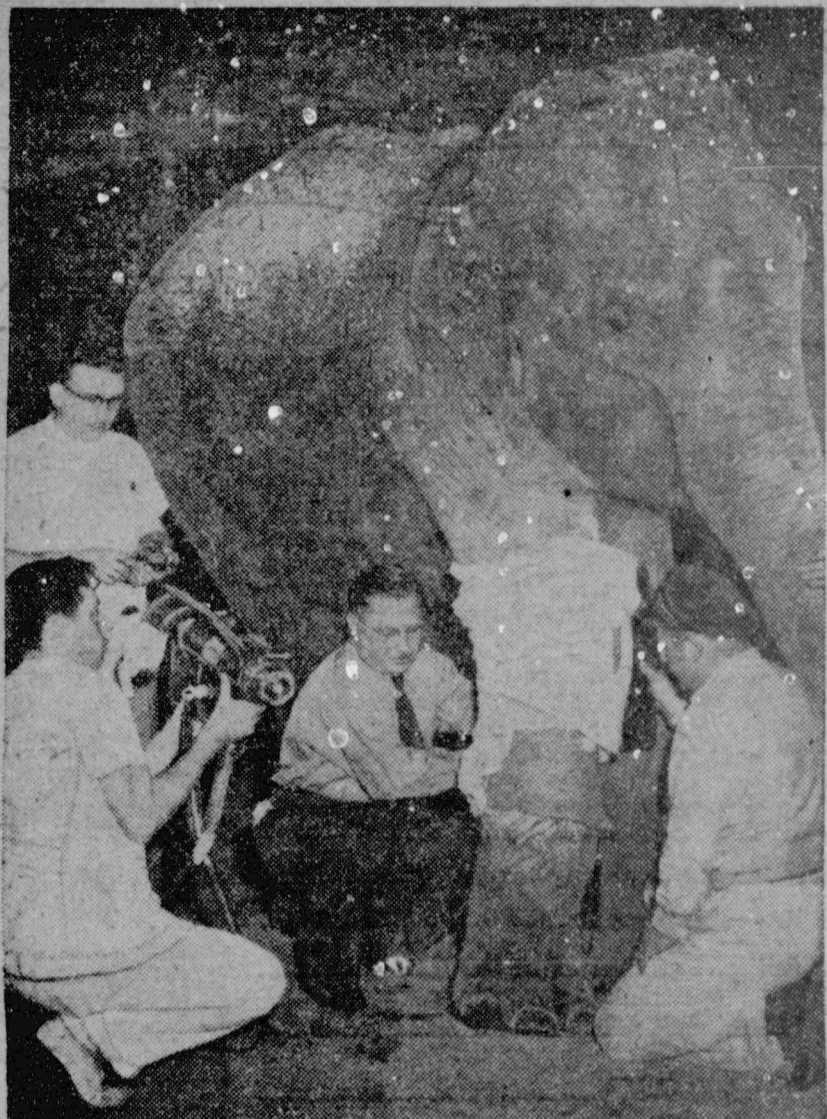

WE BUY EGGS

FIXING HER UP—Coca, a three-ton elephant at the Atlanta, Ga., Zoo, stands in her room with a gunny-sack poultice around her right foreleg. After she had limped for several days and the leg showed no visible injury, zoo-keeper Johnny Dilbeck, right, and veterinarian Dr. Charles Rife decided to x-ray it for her.

Guinn Elected To Bank Directorate At Annual Meeting

W. P. Guinn, superintendent of the Central Texas Division of Humble Pipe Line Company, was elected to the board of directors of the First National Bank in Cisco at the annual stockholders meeting here Tuesday afternoon.

Mr. Guinn is president of the Cisco Chamber of Commerce.

Other directors re-elected were J. H. Reynolds, J. A. Reagan, James McCracken, J. D. Lauderdale, F. E. Clark and Charles A. Spears.

Spears was re-elected president and Lauderdale was renamed cashier. McCracken was elected vice president.

"The bank has enjoyed a steady growth during the past four years and we anticipate continued growth in the years to come," Mr. Spears said.

"We genuinely appreciate the patronage of the residents of this area and hope to continue to merit this confidence. We expect to introduce new ideas and services in the new year in an effort to increase our usefulness to the community."

Garrett Receives WTUC Promotion

The announcement of the promotion and transfer of Jay Garrett, 408 W. 7th St., to Quanah as district sales manager for the West Texas Utilities Co. was made here today by E. L. Jackson, assistant district manager.

"Garrett, who has been a salesman in the Cisco district since 1942, was one of the top three salesmen in the entire company during both 1948 and 1949," Jackson pointed out.

Garrett has been active in civic affairs of the community, assisting with many Chamber of Commerce undertakings, and has frequently acted as master of ceremonies at banquets and other meetings.

Since joining the Cisco Lions Club in 1943, Garrett has served on the board of directors for three years, one term as tail twister, one year as song leader, and as president and vice president.

He is a member of the First Christian Church, where he is choir director and a former Sunday School superintendent.

An enthusiastic sports fan, he served as announcer for most of the local football games during the past seasons.

Mrs. Garrett, who is vice president of the city Parent-Teachers Association, and a past president of the Child Study Club, their two children, Budge, 8, and Judy, 3, will accompany Mr. Garrett to Quanah.

Army Will Give Therapy Instruction

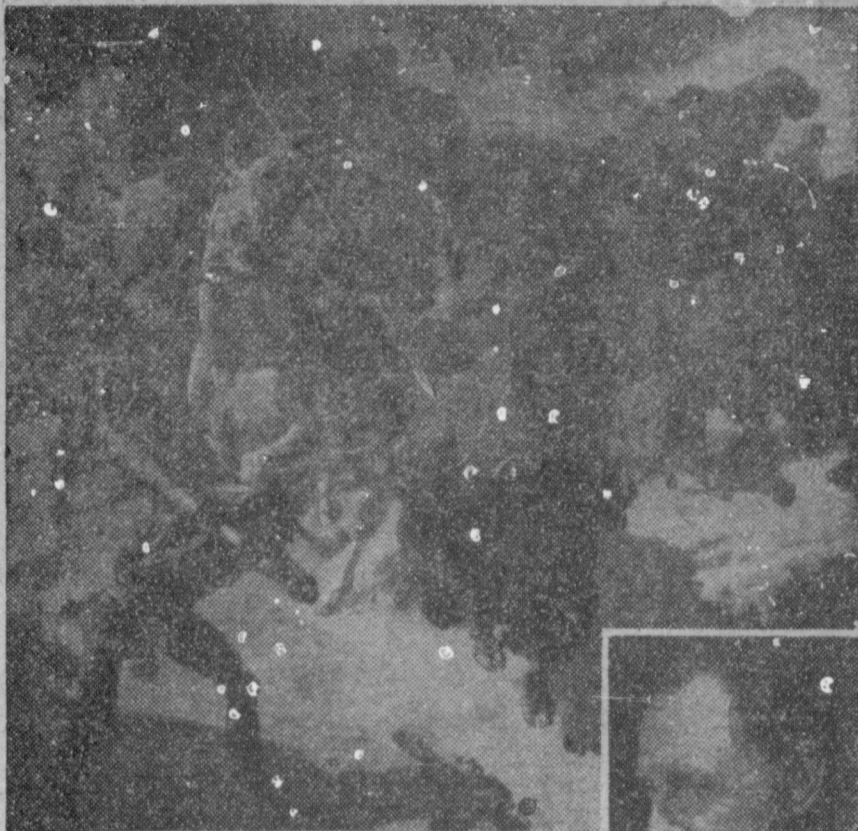

FORT SAM HOUSTON, Texas—Brooks General Hospital, Fort Sam Houston, Texas, has been selected as one of the eight military hospitals in the United States to train civilian occupational therapy students, Col. David E. Liston, Fourth Army surgeon announced today.

The course has been established to provide additional personnel, who will be students in the occupational therapist field; and to provide a number of occupational therapists, who will be eligible upon completion of their clinical training in Army installations for appointment in the Womens Medical Specialist Corps Reserve.

Students accepted for the course will receive training as civilian graduate students for not less than three months nor more than one year, according to Col. Liston.

The River Rhone in France is the swiftest in the world.

Americana, History and Horseflesh

Detail from "The Buffalo Drive," mural-size painting by W. R. Leigh. To provide the winter's food before the bison's migration, Indians drove whole herds over cliffs while the sun was hot enough to cure the meat.

W. R. Leigh

INDELIBLY inscribed on the minds of all interested in art, Americana or horseflesh are the names of Remington, Russell and Leigh. The latest welcome news coming to this public is a circuit of exhibits featuring a variety of paintings by W. R. Leigh that will tour the United States from coast to coast.

Besides the more or less permanent exhibitions on display at Grand Central Art Galleries, New York, Gump's Galleries in San Francisco and Frank Phillips' Woolaroc Museum in Oklahoma, an important show is to be given January 8 through 22 at The Maryland Institute, Baltimore, where Leigh, as a lad of 14 from Martinsburg, West Virginia, obtained his first instruction. Vital to American history are such canvases as "The Buffalo Drive," "The Buffalo Hunt," "Land of the Navahos" and "Open Season on Bighorn," included in this show. A later display is announced for February at the Washington County Museum of Fine Art at Hagerstown, Maryland, and a special exhibit of burros and

Western ponies at the Heard Museum in Phoenix, Arizona, during the tourist season.

Leigh's cloud studies and others made in Africa during his two trips there for the American Museum of Natural History are scheduled for a large number of museums and art galleries throughout the U. S. A.

Descended from the first settlers of Virginia and with the blood of Pocahontas also in his veins, the artist was stirred in his childhood by accounts of Custer's last stand; and a buffalo robe — his prized possession — inspired him even then with the overwhelming passion to depict these phases of American life in which Indian, buffalo and cowboy were then playing vital parts.

Study abroad, years of travel and life in the West have culminated in the success of Leigh's early dreams and ambitions with the result that The Maryland Institute, his alma mater, has invited him, as their most distinguished pupil, to exhibit his paintings in their Baltimore Gallery.

Income Tax Book Is Best Seller

"Your Federal Income Tax," the official guide for tax-payers published by the Bureau of Internal Revenue, has established itself near the top on national best-seller lists, according to information released today. Over 200,000 copies of this 138-page tax book, which is available from the Superintendent of Documents, Government Printing Office, at

25c a copy, were sold during the first 5 weeks since publication.

This new and improved edition of "Your Federal Income Tax" covers, in a series of short articles, questions which may come up concerning tax returns; it covers the latest laws, Bureau rulings, and court decisions. Chapters have been added which cover installment sales and the important appeals procedure. Also included are facsimiles of tax forms and detailed index.

Reduce Federal Costs, Economic Committee Asks

WASHINGTON, Jan. 11—The Research and Policy Committee of the Committee for Economic Development outlined today a Federal taxing and spending program for fiscal 1951 which would reduce expenditures \$6.7 billion below current levels, make possible a tax reduction of more than \$2 billion, and create a cash surplus of \$3 billion under conditions of high employment. The surplus would be applied to debt reduction.

"Because of its size—over \$40 billion—and its composition, the present tax burden is a serious impediment to economic growth and a source of important inequities," the Committee said.

"There is no ideal solution to the budget problem," the Committee said. "We can not have, at the same time, all the expenditures that might be desirable, all the tax reforms and reductions that might be desirable, and a sound budget policy" until

the growth of the economy's productivity can meet such demands."

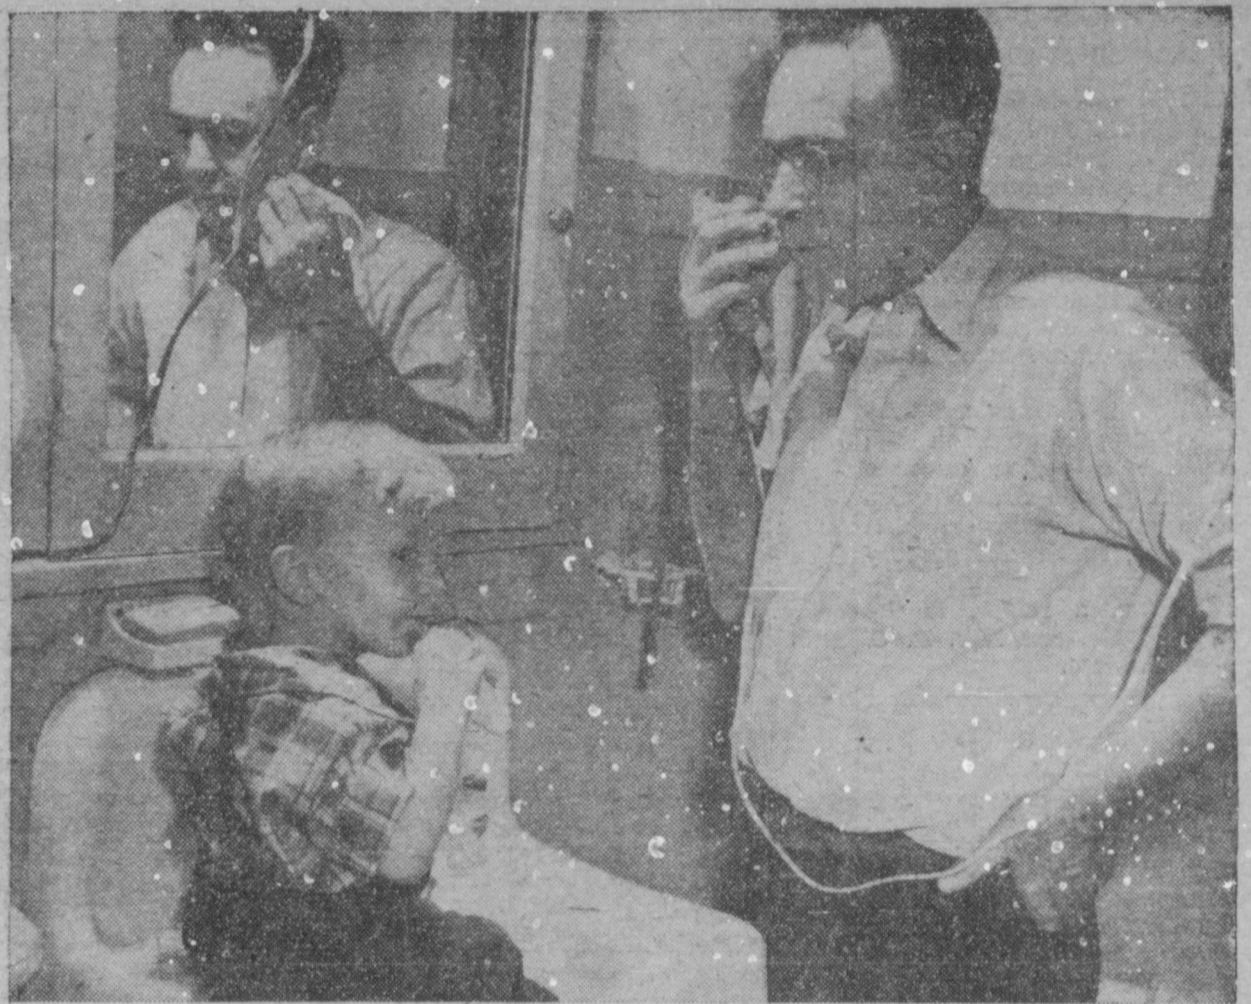

The Committee believes that the best solution for the fiscal year which begins July 1, 1950, "the one most consistent with the demands upon the Federal budget, with the requirements of sound finance, and with the conditions of economic growth, would be:

"(a) Provide for a moderate budget surplus to be realized under conditions that make a surplus possible and desirable, namely, conditions of high employment.

"(b) Reduce or postpone expenditures that are not essential to the national security or general welfare, and operate all programs more economically and efficiently.

"(c) Revise the tax system in ways that will yield the most benefit to the whole economy from the small net revenue reduction that seems possible with the achievable expenditure reductions."

Sailing due east out of Boston Harbor one would land first in Spain.

RESULT OF CHRISTMAS—Because Santa Claus left a toy electric razor for Donnie Jo, 22 months, and a real one for his grandfather, Joseph F. Robertson, in Chicago, Ill., it has caused a daily struggle. Each now tries to see who can get into the bathroom first in the morning.

ISRAEL'S FREEDOM TORCH HERE—Arthur Lourie, right, Consul General of Israel, presents the Freedom Torch to Henry Morgenthau, Jr., General Chairman of the United Jewish Appeal, in New York. Sent by Prime Minister David Ben Gurion, Israel's torch was flown to the U.S. after lighting beacons throughout the Jewish State to signal the attainment by Israel of its millionth citizen. It will travel this country during the campaign of UJA.

Medical Officers Needed By Army

AUSTIN, Tex. Jan. 11. — An immediate need for Organized Reserve Corps Medical officers of any grade except Generals to participate as umpires in "Operation Portrex" has been announced by Colonel Oscar B. Abbott, Chief of the Texas Military District.

"Operation Portrex" is a joint war game of the Army, Navy, Air Force and Marine Corps during February and March. Participants can be expected to be released from duty to return to their homes between March 20 and 30.

Latest developments in undersea warfare will undergo tests at the very outset of the war games. An "invasion" by troops aboard transports, with convoy of warships, must expect submarine as well as air attacks as it heads out from Norfolk, Virginia.

Originally umpires will be based at Camp Lee, Virginia but will make their maneuver camp on the Island of Vieques, six miles off Puerto Rico.

Colonel Abbott stated in his appeal to ORC Medical Corps

Civil Service To Fill Positions

The Executive Secretary, Board of U. S. Civil Service Examiners, Southwestern Power Administration, Tulsa, Oklahoma, will accept until the needs of the service have been met applications for the following positions for employment with the Southwestern Power Administration at various points throughout the Southwestern Power area.

Truck Driver — \$1.45 an hour, Groundman (Maintenance) — \$1.40 an hour, Lineman (Maintenance) — \$1.66 an hour, Line Foreman (Maintenance) — \$1.90 an hour, Laborer (Maintenance) — \$0.93 an hour, Labor Foreman (Maintenance) — \$1.48 an hour.

Overtime for required duty in excess of 40-hours a week is allowed. Interested persons should immediately get in touch with

officers that no restrictions on the military occupation specialty have been extended to January 23rd, but it is requested that all interested applicants expedite their applications through the nearest Organized Reserve Corps Instructor's office.

the Civil Service Secretary at the Post Office in this city for application blanks and further information. War service appointees occupying positions for which the above examinations are appropriate who desire but do not have a classified Civil Service status, should apply for these examinations.

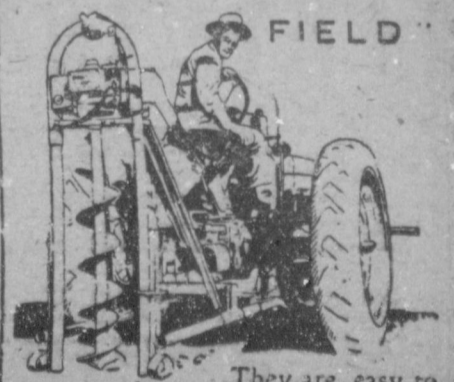

Judges Named For 1950 Houston Show

Judges have been named for three divisions of the 1950 Houston Fat Stock Show and Livestock Exposition's greater horse show, featuring quarter horses, cutting horses and Palominos, it was announced today.

Jack Turney, Sonora, and Ed Keller, Dundee, Texas, will judge the quarter horses and cutting horses, and B. Barney Brooks, San Angelo, will serve as judge of the Palomino show.

Miss Phillis Ames Taking H. Economics

COMMERCE, Jan. 17 — Phyllis Ames of Putnam is getting some practical experience in housekeeping at East Texas State College.

A home economics major, she is living in the Home Management house, which is one of the requirements of the home economics department.

Girls live in the modern two-story building located on the campus for a period of nine weeks. During this time, they do all their own housework, plan their menus, make out grocery plans, and do the buying.

Miss Ames, a senior, is the daughter of Mr. and Mrs. R. C. Ames of Putnam.

They Want You To Sing 'Wildlife'

WASHINGTON, D. C. Jan. 13—The National Wildlife Federation today struck a new note for observance of National Wildlife Restoration Week, which it will sponsor for the 13th successive year, March 19—25, 1950.

The Federation will ask Americans not only to think and talk about the nation's water, soil, plant, fish, and game resources but also to sing about them. Its idea is to help make America conservation conscious through the singing and enjoyment of songs pertaining to nature and the outdoors.

KIDS' PARADISE—Gathering around this candy vendor on the Piazza Navona, in Rome, Italy, are Roman children who flocked to the Square before Epiphany. Toys were also displayed to make the Square a children's paradise for a few weeks.

County Home Demonstration Council Elects Officers At Monthly Meeting

The Eastland County Home Demonstration Council held its regular monthly meeting Wednesday in the County Court Room and elected officers for the coming year.

Mrs. M. W. Greiger was re-elected chairman of the group and Mrs. Cyrus Justice was named vice-president. Mrs. Bill Tucker was named secretary and Mrs. B. B. Freeman treasurer. Mrs. John Love was elected parliamentarian.

Eight clubs were represented at the meeting with a total of 28 members present. The Pioneer Club led the group with nine members attending.

The Word Club reported that they had sent four boxes of clothing, valued at \$107.95 to their adopted family in Greece and the Cheaney club reported that they had given \$10 to the March of Dimes campaign and \$15 to other good causes during the month of December.

Mrs. Grieger appointed the following committees:

Year Book, Mrs. John Nix, Mrs. James Yancey and Mrs. Roy Cowan; finance, Mrs. Ernie Todd, Mrs. John Love, and Mrs. Cyrus Justice; expansion exhibits, Mrs. J. F. Moseley, Mrs. A. H. Gage and Mrs. Velma Brown; market-

ing, Mrs. D. Ball, Mrs. W. Harbin and Mrs. Bob Koonce; Education, Mrs. D. W. Rodgers, Mrs. Cora Sparks, Mrs. Charles Har-

ris, Mrs. C. E. Hathcock, Mrs. Nell Fleming, Mrs. M. P. Farnsworth and Mrs. Clara Burkhead. T. H. D. A., Mrs. Dewey Webb.

A meeting is held by the county group once a month and by the individual clubs two times a month.

HADACOL IS HELPFUL TO FOLKS OF ALL AGE GROUPS

Countless thousands have proved that HADACOL is beneficial to folks of all ages. That is the reason so many purchase the large economy size bottle so all the family can benefit from nature's vitamins and minerals in HADACOL.

For instance, Miss Ethel Guidry, 822 Montgomery St., Port Neches, Texas, only 17 years old, was "feeling nervous, had little appetite, her face was pale and drawn and she suffered from gas on the stomach."

Her system lacked the B Vitamins and Minerals which HADACOL contains and this may cause digestive disturbances such as heart burns, indigestion, and often times Miss Guidry says she could not eat the kind and type of food she wanted without feeling terrible afterwards.

Miss Guidry, who recently graduated from high school, is already working in a bank. She said that after taking several bottles of HADACOL, she is now "feeling wonderful," and has "lots of pep and energy."

Most folks take HADACOL because it has worked such wonders for relatives or friends. Miss Guidry took HADACOL because her mother had taken 12 bottles with excellent results.

In nearby Port Arthur, Texas, Mrs. W. M. Thompson took HADACOL because it had done her husband so much good. He, in turn, had taken HADACOL because an elderly neighbor told him of "feeling so much better after taking several bottles of HADACOL."

Mrs. Thompson's normal weight is 135 pounds but she was down to 110 pounds before taking HADACOL, and after taking a few bottles of HADACOL she regained her normal weight.

"I was both plagued with stomach trouble, gastric disturbances, I had lost my appetite and was bloated," said Mrs. Thompson.

She had tried several preparations before taking her husband's advice on HADACOL and now she enthusiastically recommends HADACOL to her friends.

She, too, like Miss Guidry Mrs. Thompson and the others, was suffering from the lack of the B Vitamins and Minerals in her system which HADACOL contains.

A lack of only a small amount of the B Vitamins and certain Minerals will cause digestive disturbances. . . . Your food will not agree with you. . . . You will have an upset stomach. . . . You will suffer from heart burn, gas pains, and your food will sour on your stomach, and you will not be able to eat the things you like for fear of being in misery afterwards. Many people also suffer from constipation. And while these symptoms may be the results of other causes, they are surely and certainly the symptoms and signs of the lack of the B Vitamins and Minerals which HADACOL contains. And if you suffer from such a disorder, there is no known cure except the administration of the Vitamins and Minerals which your system lacks.

HADACOL contains not only one, but five of the B Vitamins. HADACOL contains not only one, but four of the necessary Minerals. It comes to you in liquid form, easily assimilated in the blood stream so that it can go to work right away.

It is easy to understand, therefore, why countless thousands have already been benefitted by this amazing tonic, HADACOL.

So, it matters not where you live . . . it matters not where you live . . . or if you have tried all the medicines under the sun, give this wonderful preparation a trial. Don't go on suffering! Don't continue to lead a miserable life. Many persons who have suffered and waited for 10 to 20 years or even longer, are now able to live happy, comfortable lives again because HADACOL supplied the Vitamins and Minerals which their systems needed. Be fair to yourself. Give HADACOL a trial. —Adv.

Miss Guidry

PAY TAXES NOW

AND AVOID PENALTY

Payments made before February First will not be subject to additional fees for interest and penalties, and to accommodate property owners this office has mailed statements of 1949 taxes.

Don't forget that if you wish to vote during 1950 your poll tax must be paid before February First. 1950 is election year. You will not want to be disfranchised for the need of a poll tax receipt, so attend to this detail at once. Poll taxes may be paid at the Citizens State Bank in Cross Plains as well as at the office of —
