

From The Editors Window BY MRS. J. S. YEAGER

A statistician gave up his Saturday afternoon golf to take care of the children. When his wife returned from her shopping, he handed her the following report. Dried tears, 9 times, tied shoes 13 times, purchased toy balloons, 3 per child. Average life of balloon 13 seconds. Cautioned children not to cross the street, 21 times. Child ren crossed the street, 21 times. Number of Saturdays 1 will do this again, 0.

A special three-cent postage stamp commemorating the one-hundredth anniversary of the birth of Joel Chandler Harris, creator of Uncle Remus, has been announced by Postmaster General Jesse M. Donaldson.

The new stamp will be placed on sale for the first time Dec. 9, 1948.

The battleship Texas, which has done service through two wars, will be preserved as a war memorial.

Unwilling that the great gray ship should be scrapped as other retired battleships have been, Texans have come to her rescue and raised money to defray costs of putting her into a permanent booth at San Jacinto battle ground located near Houston.

The teacher asked Johnny, "Is the world round?"

"No'm," was the short reply. "It isn't," exclaimed the teacher. "Well, then Johnny, is it flat?"

"No'm," was Johnny's reply. "Well," said the teacher with a smile, "if the world isn't round, and it isn't flat, then tell me, what is it?"

Johnny looked confident as he replied, "Daddy says it is crooked."

"Don't drive so fast, Henry," said his wife. That policeman on the motorcycle behind us won't be able to pass."

A radio tower to be built near Des Moines, Iowa, will be the tallest man-made structure in the world, the Westinghouse Electric Corporation has announced.

Present plans call for a 1520 foot tower, and it was pointed out that this is taller than the Empire State Building which is at present the world's tallest building.

It has recently been announced that Navarro County Negro school students soon will have gymnasium facilities available for them. They have none at present.

Surplus buildings at near-by Camp Maxey have been purchased and are being removed for this purpose.

The new buildings will be erected at Kerens this summer it was stated.

Louisiana has 19,000 acres planted to strawberries this year. This acreage surpasses the total of all other states in early Spring strawberry sections including Florida, Alabama, Texas and Southern California, according to the report. Louisiana expects to fill around 1,140,000 crates with the delicious berries this year the report stated.

It was reported that Emperor Haile Selassie has sent ten tons of barley to Bavaria to be brewed and returned to Ethiopia as beer. The joint export-import agency, which handled the deal, said Haile Selassie will get 1000 crates of beer.

The beer may possibly be used in Ethiopia for medicinal purposes.

Mr. and Mrs. J. B. Fubank spent several days the past week visiting in the home of their son-in-law and daughter, Mr. and Mrs. Chub Lowe, at Albany.

Mrs. Ralph Mitchell and sons of Houston spent the week end in the home of her parents, Mr. and Mrs. J. E. Pruet.

Mrs. Earline Clark and daughter, Doris, spent the week end in the home of their parents, Mr. and Mrs. J. E. Pruet. Mrs. Clark is teaching in the New Braunfels school.

W. J. Abernathy was in town Saturday morning and in discussing the weather he stated that he thought the fruit was practically all killed.

Prospects Dim For Farm To Market Cottonwood Road

Despite the fact that Callahan county is at present enjoying an unusually large amount of highway building, present prospects for the farm-to-market road from Cross Plains to Putnam, via Cottonwood, are very dim, the News learned this week in conversation with a well-informed official.

The fund from which it was hoped sufficient money could be allocated to build from Cross Plains to Cottonwood has been exhausted and no more money appears immediately available. Too, it is pointed out, farm-to-market construction in the West part of the county will be completed before the Cross Plains-Cottonwood project is launched. Unless greater support is evidenced for the Cross Plains to Putnam project there is even no assurance that it will remain in a priority position for future planning.

Highway officials point out that Callahan county is receiving far more than its proportionate share of expenditures for highway construction and since the smallest unit of consideration is by counties little possibility is held out for the long-sought all weather route connecting Cross Plains, Cottonwood and Putnam.

Work now going forward in the county includes the new route of U. S. highway 80 from Baird Westward to Clyde, where cuts are being excavated and fills installed.

preparatory to the pouring of asphalt.

East of Baird workers are beginning to make preparations for excavating a gap in the high hill on the East side of Mexia Creek through which the new U. S. 80 will pass.

South of U. S. 80, where the Eula farm-to-market highway leads off, catclie is being wetted and rolled in preparation for seal coating sometime in spring.

Work has already started on the Abilene-Clyde stretch of U. S. 80, with clearing of trees, grading and installation of culverts and drainage structures.

County Judge Lester Farmer expects to go to Dallas in a few days to confer with Texas & Pacific railroad officials about razing the wall of a large brick store building in Putnam in the path of the new U. S. 80 route. Several months ago the county exchanged road property on the South side of the railroad in Putnam for an equal parcel of land paralleling the railroad on the North of the new highway. Delay is being occasioned in removal of the building.

Farmer says with this single exception all right-of-way has been made ready to the Eastland County boundary for U. S. 80.

Some finishing touches now are being made to the route between Baird and Clyde and traffic has been urged to stay off till further notice.

New Ellenburger Oil Pool Believed Found 6 Miles South Putnam

Indications of a new Ellenburger oil field in Callahan county, between Cross Plains and Putnam, were evident yesterday after a heavy flow of oil and gas was drilled in casing set at the top of the formation by the Star Oil Company in their number two Taylor-Ramsey test, 330 feet from the North and East lines of section 319, block five SP survey.

Casing was set at 3,927 feet and total depth is 4,953. Top of the formation was not tested due to loss of circulation in that zone. After plug was drilled, operators permitted well to clean itself by flow, and then shut-in to await storage and official gauge.

The well is some six miles South of Putnam and 15 North of Cross Plains.

CLUB MEET IN HOME OF MRS. MCKENZIE FIRST OF WEEK

An all-day meeting of the Dudley Home Demonstration Club was held in the home of Mrs. John McKenzie first of the week.

Miss Evelyn Wieland, County H. D. Agent, was there and gave a demonstration on budding pear and peach trees, and Mrs. H. E. Balderage, Jr., and Mrs. C. H. Betcher gave a demonstration on leathercraft.

Mrs. Finley Coughron spoke on "marketing", Mrs. Balderage discussed "legislation" and Mrs. C. H. Betcher spoke on "education". "Recreation" was discussed by Mrs. L. L. Atchley and Mrs. Lawson Armour discussed "4-H Club Work".

Visitors at the meeting were Mrs. Jim Barr and Mrs. C. L. Lackey of Cross Plains. Mrs. F. M. Summerour is a new member of the Dudley Club.

Cullen Robinson Will Again Furnish Stock For Rodeo Show Here

Cross Plains Rodeo Association closed a deal yesterday with Cullen Robinson, of Weatherford, to furnish stock for a three day rodeo show to be held there July 8, 9, 10.

The Cross Plains show will be an R. C. A. affair, all rules and purses complying with the Rodeo Cowboys of America regulations, however, it is pointed out that local contestants will be permitted to compete although they do not hold membership in the national organization.

Robinson, who was in Cross Plains to close the contract, told ranchers and stockmen who comprise the non-profit Rodeo Association, that he has the best string of bucking stock this year he has ever owned, and spectators for last year's rodeos who saw his animals unseat two cowboys for everyone who made a successful ride, opine the Cross Plains show will afford more than the usual amount of spills and thrills.

Events to be offered in this year's rodeo will include: bareback bronc riding, saddle bronc riding, calf roping, bull riding, bull-dogging, a local cutting horse contest and sponsors participation.

MENU FOR HOMECOMING April 10th

- Chicken and Dressing Tomato and Lettuce Salad Pickles Green Beans Pie

Everyone is urged to bring a large quantity of these foods.

Jim Raymond Clark and daughter, Johnna, were in Fort Worth a day or so this week shopping and visiting with relatives and friends. Miss Johnna is to sail for Japan April 1.

County Agent Encourages Local Farmers To Enter Hens In Contest

By A. R. Grote, Jr.

If you are a poultryman who has been wondering just what kind of an egg production your flock has, here is your chance to find out. Texas A&M College has announced a ten month egg laying contest beginning October 1 this year and running until July 31, 1949.

This state wide Farm and Home Egg Laying Contest is being announced at this time so Texas poultrymen will have a chance to purchase their baby chicks now, and have them in production when the contest gets under way next

October. The rules and regulations of the contest as well as application blanks for entering and monthly report blanks may be secured at the office of the County Agent or Home Demonstration Agent. These monthly report cards are filled out at the end of each month and sent to the County Agent's office. Since the contest is based on a record of the number of eggs per hen, and not on the number of eggs per flock, any hens that die or are culled from the flock during any one month will not interfere with the progress of the contest.

The five big objectives of the contest are to get higher egg production in Texas poultry flocks, to demonstrate the value of record keeping in the poultry business, to put poultry production on a sound basis, to demonstrate the advantages of good feeding, breeding, and management and to market eggs on a quality basis when it is possible to do so. If these objectives are reached, then the contest will have been a complete success.

Miss Dorothy Jean Shults Of Rising Star Married To Dr. R. D. Brown On March 23

Miss Dorothy Jean Shults, daughter of Mr. and Mrs. A. T. Shults, Sr., of Rising Star, was married to Dr. R. D. Brown of San Antonio, son of Mr. and Mrs. George Brown of Putnam, on Saturday, March 23 in a double ring ceremony read by Rev. Thomas P. Cobb. The wedding was held in the First Baptist church in Rising Star.

Mrs. Fred Siskman played a program of pre-nuptial music and accompanied Mrs. W. C. Howard, vocalist, who sang. The altar was lighted with white tapers and the couple stood before a background of greenery and yellow gladiolas while the marriage vows were exchanged.

The bride was given in marriage by her father. She wore an aqua crepe dress with navy accessories and a corsage of pink carnations and carried a white Bible showered with stephanotis.

For something old, borrowed and blue the bride wore a gold neck chain with blue stones which belonged to her maternal grandmother; and a penny in her shoe which had been worn by her sister.

Mr. Brown was reared near Putnam and is a graduate of the Putnam high school.

Miss Bobbie Knipp And Samuel Irby Smith Exchange Vows At Baird Sunday, March 28

A quiet wedding took place at the Presbyterian church in Baird Easter Sunday when Miss Bobbie Knipp, niece of Mr. and Mrs. H. S. Strickland, of Waxahachie was married to Mr. Samuel Irby Smith, Jr., son of Mrs. S. I. Smith of Baird. They were married in a high noon ceremony.

Rev. S. P. Collins read the ceremony in the Presbyterian church where the altar was decorated with Easter lilies, white stock and greenery.

The bride, given in marriage by her cousin, Leotis Strickland, wore a pastel blue crepe dress. Her white straw hat was trimmed with pastel pink carnations. She carried a white Bible, which belonged to the bridegroom's sister, Mrs. Parker Coppinger.

Mrs. Coppinger was matron of

honor and Annie Knipp, sister of the bride, maid of honor. Mrs. Coppinger wore a yellow faille suit, and Miss Knipp wore crepe. Both wore white carnation corsages.

Harvey D. King of Dallas acted as best man. Mrs. N. M. George played the wedding music and also gave accompaniment for Kenneth George who sang "Till the End of Time."

The bridegroom's mother was host for a wedding luncheon.

The bride is a graduate of the Texas Orphans Home of Corsicana. The bridegroom is a graduate of the Baird high school and a veteran of four years service in the Marine Corps. Both Mr. and Mrs. Smith are employees of the Southwestern Bell Telephone Co. at Corsicana.

T&P Promotes A. C. Siler, Jr. To Post Of Executive General Agent, Effective April 1

Dallas, Tex., March 15--An executive department promotion on the Texas & Pacific Railway will advance A. C. Siler, Jr., to the post of Executive General Agent April 1. In announcing Siler's increased responsibilities, L. C. Porter, assistant to the president, said they would call for retirement of Siler's headquarters in Dallas.

Siler has been working as the railroad's executive representative in Texas since shortly after returning from military service in Dec., 1945. And in his new promotion, he succeeds S. L. Wright, who is taking over as T&P Assistant to the President with headquarters in New Orleans.

When Siler first started to work for the T&P, he was 15 years old,

and his job was messenger in the auditor's office, Dallas. In 1928 and 1929, he was a signal helper and timekeeper in the T&P engineering department. In 1930 he went to work in the freight accounting department, later serving as rate clerk. Then in 1939 Siler shifted to the traffic department, with the majority of his experience in that division gained in T&P operations in Texarkana. From 1940 to 1942, he was commercial agent for Seatrail Lines, Inc., returning to the T&P after army.

He is a 42-Degree Mason and a Shriner. Siler, his wife and two children, live at 2845 Fonder Drive, Dallas. His father, A. C. Sr., still is an active T&P employe in Dallas.

Sunray Gets Gas In Top Of Caddo Lime

Top of the Caddo Lime was acidized Monday by the Sunray Oil Company in their number one Aspin, eight miles North of Cross Plains. The formation yielded gas estimated by the consulting geologist as being in excess of one million feet.

Acid was applied through perforations between 3,945 and 3,055 feet. Some water was immediately recovered, however, it was lessening noticeably Tuesday.

M. E. Fry, rancher of Cisco, was in Putnam Saturday afternoon. He said the cattle could not do much good until it rained as there is no winter grass and feed so high people are not feeding much.

F. W. Alexander Dies In Dallas Hospital

F. W. Alexander, about 67 years of age, and owner of the Diamond Ranch north of Albany, died Tuesday in a Dallas hospital after an illness of about one month.

Mr. Alexander was owner of a fine herd of registered Hereford cattle.

Survivors include a daughter, two sons, and granddaughter. Mr. Alexander was a brother of the late State Chief Justice James P. Alexander.

Funeral services were held in Albany Thursday afternoon.

Mr. Alexander was well known throughout this district.

Income Tax Reduction Is Unfavored By Few Demos.

Disease Spread Can Be Greatly Lessened By Practicing Care

"Carelessness and ignorance represent two of the most powerful factors in spreading communicable disease from man to man. No more emphatic of this fact exists than the continued ravages of tuberculosis. In spite of the knowledge of its causes and spread, and of curative methods, tuberculosis is still a very serious problem not only in Texas, but throughout the United States," states Dr. Geo. W. Cox, State Health Officer.

"It is true that tuberculosis is no longer first on the list of killing diseases as it was formerly," Dr. Cox said, "but despite having been reduced to fifth place in Texas, it still is responsible for more deaths between the ages of fifteen and forty-five than any other disease. And this fact exists even though the majority of tuberculosis patients could have their condition arrested if it were recognized early and proper treatment applied."

"Treatment of the early recognized case is essential. It is of equal importance, from a public health viewpoint, that the spread of this devastating infection be prevented. A more intelligent appreciation of this fact would result in the saving of thousands of lives.

"When a diagnosis of active tuberculosis has been made, examination of all of the other members of the immediate family should follow as a matter of course. Tuberculosis runs in families, not because of any special susceptibility to the disease, but because it is communicable, being usually transmitted through close and prolonged contact with the active case."

To reduce the number of deaths caused by tuberculosis, Dr. Cox suggests periodic examination of all adults, a check-up by physicians of the known active cases and contacts, regular examinations of high school children, isolation or hospitalization of the active tuberculosis case, and a more intelligent application of hygienic living principles.

The fairness and necessity of federal tax reduction are not considerations of quite a few Democrats who oppose the Republican plan for lowering income taxes. They are interested only in the vote getting possibilities of legislation, particularly, tax reduction legislation.

It will be remembered that last summer the Republicans in Congress voted an income tax cut which President Truman vetoed twice, being the first president in our history to attempt to usurp the traditional responsibility of Congress to levy taxes. His vetoes admittedly politically flavored. They were sustained by narrow margins as the vote conscious Democrats in Congress rallied to prevent Congress from overriding the vetoes.

Now, in 1948 which is a presidential election year, the Democrats know that a tax reduction is imperative, that they do not dare oppose one, such opposition would be political suicide. So they cook up a ridiculous proposal to reduce income taxes without reducing expenses. They do this to woo votes and with the avowed intention of fighting the more sensible and much fairer Republican income tax reduction bill.

Credit and votes will go to the party sponsoring the popular tax cut. From where we sit, the Democrats are for cutting taxes to gain votes, and for that purpose only, they do not want to cut expenditures, though. The Republicans insist that taxes be cut and that federal expenditures be reduced correspondingly. Reduction of federal expenditures means cutting federal pay roll, especially in the executive departments independent agencies which are staffed to the gills with Democratic party henchmen.

See how the wind blows. With a lot of Democratic Congressmen it blows towards votes, not toward what is best for the nation. -Gregor Sikes -Democratic Independent.

Burleson Favors Re-Foresting Funds

Congressman Omar Burleson of this district was one of the Congressional leaders who strongly supported forestry activities in a recent hearing before the subcommittee on Agricultural Appropriations.

In his statement, the Congressman stressed the importance of our forest resources and urged that adequate funds be provided for a national program of forestry emphasizing those items of importance to this district.

The steering committee was headed by Robert L. F. Sikes of Florida, with Congressman Glen Davis of Wisconsin, as co-chairman, Congressman Tom Pickett of Texas acting as secretary. Over 125 presented testimony to the committee in behalf of forestry.

Among the general items presented to the appropriation committee were the continuing of the full authorized account for cooperative forest fire protection, the increasing of the assistance available to small woodland owners through point state and federal farm forestry projects, and the strengthening of the experimental forest research work center program. These and other items were given localized application in the congressman's presentation to the committee.

WORST DUST STORM IN 10 YEARS SWEEPS THIS LOCALITY ON TUESDAY

Propelled by a 60 mile per hour wind, the worst dust storm in 10 years roared across the Putnam area Tuesday. Visibility was so poor that many vehicles were forced to stop completely at intervals, it was reported by motorists stopping in local service stations.

Wind began to subside shortly after dusk and by mid-night the disturbance had completely quieted. Housewives and storekeepers were busy Wednesday morning removing silt, reminiscent of the early thirties, when soil eroding in the Panhandle occasioned the worst dust storm in history.

Mr. and Mrs. Douglas Fry were in from the ranch near Dothan Saturday afternoon.

WOMEN 38-52 YEARS OLD-DO YOU SUFFER THESE FUNNY FEELINGS?

due to this functional "middle-age" cause? If you're in your "40's" and this functional "middle-age" period peculiar to women is causing you to suffer from hot flashes, nervous irritability and weak, tired, high-strung feelings—then do try Lydia E. Pinkham's VEGETABLE COMPOUND

THE LOW DOWN FROM HICKORY GROVE

Today I will maybe step on some toes, but my heart is in the right place, and no offense is meant. But anybody taking my remarks to heart, maybe after all it will be good for him. There is nothing up my sleeve—I am just trying to stir up the natives. I am not running for any kind of job, like "uplift director" or "playground supervisor" or any other nice or easy or soft but not very necessary kind of payroll attachment. Stop beatin' around the bush, says Henry. Okay, I says, the lecture then, will be on "Suckers, and why not to be same."

Some of our biggest suckers are among our best people. Take folks who thought they would have everything they would need, and for evermore, or life, if they could have just "4 freedoms"—their toes are maybe being stepped on. But who is happy—and free from fretfulness. Henry, I says, name me a couple—or even one, I says. He couldn't.

And now comes flood control—but hidden in its skirts is a power-house full of nice Government jobs. To run an electric generator, you gotta have high pressure from a dam chock full of water, but if the dam is full and turning out the kilowatts, and you have a nice rain up-stream, nothing is going to stop the excess water. Plain, everyday horse-sense—no PhD needed to figure it.

Being a sucker with your vote makes a nice paying job—but for the other guy.

Yours with the low down, Jo Serra

Mr. and Mrs. John Allen Pruet of Cisco accompanied by Mrs. Pinnel of Cisco, mother of Mrs. Pruet, visited relatives in Cisco over the week end.

Miss Mary Alice Brown of Denton spent the week end visiting in the home of her parents, Mr. and Mrs. George Brown.

H. D. Agent Column

"Mother Makes Me . . ."

Not long ago, specialists at New York State College of Agriculture made a survey of the homemaking likes and dislikes of 4-H Club girls . . . and since 4-H clubbers are pretty representative of all young people, their sentiments are probably the same as those of Mary, Ruth and Jane in every home.

Of all the chores to be done around the house, the girls said they enjoyed ironing most—and dishwashing least. Their complaints against dishwashing ranged all the way from "It's so messy" to "It chaps my hands." It was the one household chore that at least one half of the girls said "I have to do it, because Mother makes me".

Mrs. Florence Low, associate extension specialist in home management for Texas A&M College, says the children in every home should have definite jobs around the house—it teaches them responsibility and gives them an added feeling of security, even though it may be a job they don't particularly like. It helps if the job can be made more interesting—and that's possible, even with dishwashing. It's a question of a little ingenuity. "Use your head to save your hands and heels" is the way Mrs. Low puts it.

When you're washing dishes, she says, try to figure out some time- and labor-saving steps. For instance, use a wheel table or tray to carry soiled dishes from the table to the kitchen—and you'll save many steps. Wash from right to left—that is, stack your dishes on the right side of the sink or dishpan, and drain them on the left. Follow a routine in washing—glasses first, then silver, then china, and last, the pots and pans. Scald the dishes with boiling water and drain—they'll dry in just a few minutes and be ready to put away. If they are stored in cupboards and drawers to the left of the sink, you'll save yourself just that many steps.

You'll be surprised at the time you'll save—and if you're one of those that likes to iron—you'll still have plenty of time to get it done.

Last Minute Jobs
"If you've not made all the changes which you plan in your landscape, there's still time to get it done before the growing season starts", Evelyn Wieland points out.

If shrubs around the house are crowded, some of them can be moved to a border or used for screening out-buildings, she says. Or go to the nurseries and select the plants which will fit into the home landscape, as they can be successfully transplanted now.

Other jobs which can be done to the home landscape now are listed by Miss Wieland. Flower beds for late spring or summer plantings can be prepared as barnyard fertilizer will have about six weeks to decay before planting seeds. Order rose bushes from reliable sources and set them out in soil where only grass has grown for the past five years. That will insure healthy plants and many blooms.

Evergreens which have grown too large and are crowding other plants can be pruned. Do not prune early blooming shrubs, such as spirea, flowering peach and forsythia until they finish blooming, she warns. Shrubs which have not begun to bud can be sprayed with oil emulsion to control scale. If the spray emulsion has been frozen or if the oil has separated, it's a good idea to get fresh material and follow directions exactly so the plants won't be injured.

As a final job, Miss Wieland says, remove and burn all diseased plants, diseased and dead limbs and take out unhealthy plants. The general appearance of the landscape will be improved.

Mix Lemon Juice
AT HOME TO RELIEVE RHEUMATIC PAINS
Money back—if this recipe fails

Many of the thousands of folks who have been taking lemon juice for rheumatic pain—have found that by adding two table-spoonfuls of Allenru to one table-spoonful of lemon juice in a glass of water, they get faster relief for the aches and pains caused by the gouty phases of rheumatism, neuritis and lumbago. Allenru is a 20 year old prescription made just to relieve such symptoms. Costs little at druggists.

H-S U. Rodeo Set For April 23, 24

A release from Hardin-Simmons University states that dates for the second annual Hardin-Simmons U. Intercollegiate Rodeo have been changed to April 23 and 24. Al Milch and Jesse Meyers, co-managers, announced following a committee meeting this week. Original dates were April 30 and May 1.

Program for the two day affair will include the grand entry, bare-back riding, saddle bronc riding, steer riding, calf roping, and wild cow roping for the cowboys and goat tying and cow milking for girl students. Also included will be a special performance of trick riding and roping.

Stock for the rodeo will be furnished by Bob Estes, Baird rancher and well known cowboy of the professional rodeo circuits.

Estes, who provides stock for the Madison Square Garden and Boston Garden rodeos, will also act as arena director.

"Are you PALE? WEAK? from loss of BLOOD-IRON?"

Here's One Of The Best Home Ways To Build Up Red Blood!

You girls who suffer from simple anemia or who lose so much during monthly periods that you are pale, feel tired, weak, "dragged out"—this may be due to low blood-iron—

So start today—try Lydia E. Pinkham's TABLETS—one of the greatest blood-iron tonics you can buy to help build up red blood to give more strength and energy—in such cases.

Pinkham's Tablets help build up the red quality of the blood (very important) by reinforcing the haemoglobin of red blood cells.

Just try Pinkham's Tablets for 30 days—then see if you, too, don't remarkably benefit. All druggists.

Cross Plains Raises \$525. For Red Cross

Cross Plains portion of the county's quota in the current Red Cross campaign was sent in Monday morning by V. C. Walker, local chairman. This community exceeded its quota of \$400 by \$65.82, the check from here being \$525.82.

"As usual Cross Plains was the first community to surpass its goal and you can say for the committee in charge of solicitation that the response of the people in general is deeply appreciated", Walker declared.

When tillage begins, other arts follow. The farmers, therefore, are the founders of civilization. — Daniel Webster

Thomas Jefferson is often called the father of the Democrat Party.

Veterans' News

An explanation of recent increases in subsistence allowance for World War II veterans taking full-time courses in schools, colleges and universities under the GI Bill is being mailed to veterans in Texas, Louisiana and Mississippi with their March checks, the Veterans Administration reports.

The enclosure states that only veterans taking full-time courses of education in schools will be entitled to the increased allowances. The new payments, effective after April 1, will be at the monthly rate of \$75 for a veteran without dependents, \$105 for a veteran with one dependent, and \$120 for a veteran with more than one dependent.

The message explains that eligible veterans who are entitled to \$75 or \$105 under the new rates will not have to apply for the increased allowances. Existing applications will supply all the information needed to pay the new benefits. These veterans, therefore, need not write VA, since their increases will be paid automatically.

The note also includes instructions to veteran-trainees who are entitled to \$120 because they have more than one dependent. It directs them to submit the information about their additional dependents needed before payments at the new rate can be made.

Student-veterans planning transfers to other schools are advised by the Veterans Administration to give at least 30 days notice of their plans, if they wish to avoid possible delay in payment of subsistence.

To enroll at a new school, the veteran will need a supplemental certificate of eligibility from the VA regional office. This requires both a notice to the VA and a statement from the present school showing satisfactory progress in studies.

Mrs. Earl Jobe was shopping and visiting relatives in Baird Wednesday afternoon.

Mr. and Mrs. S. W. Jobe had as their guests Easter, Dr. and Mrs. C. A. Davis of Hobbs, N. M., Mrs. Eva Lee of Baird, and they all drove over to Eastland and visited Mr. and Mrs. Howard Matthews on the farm about three miles out.

LOVELY TEXAN TELLS COTTON'S FASHION STORY

Blond and beautiful Matilda Nail of Ft. Worth, Texas, the cotton industry's 1948 Maid of Cotton, has begun a 35,000-mile cotton goodwill tour which will carry her to more than 40 key cities in three countries. She's pictured here in three of the 1948 cotton creations which are included in her glamorous all-cotton wardrobe. On the left, Matilda wears a romantic evening gown done in cotton chambray and organdy by Dorris Varnum. In the center, she poses in a sophisticated cotton suit with the new slim skirt done by Herbert Sondheim. And on the right the Maid of Cotton shows a modern version of the Gibson girl blouse and skirt in white cotton, batiste and black poplin from Alice Stuart. The Maid of Cotton tour is sponsored by the National Cotton Council, Memphis Cotton Carnival, and the Cotton changes of New York, Memphis, and New Orleans.

Writers May Win Prize On Contest

AUSTIN, Tex. March 20. — The Texas State Historical Association has announced a special prize of \$50 in the Junior Historian Writing Contest for 1948 for the best paper based on a personal reminiscence. The winning paper will also be eligible for the \$100 prize in the state-wide writing contest. This special contest is intended to make Texans conscious of the wealth of historical material available through interviews with "old-timers" in their communities. Contest entries may deal with any phase of personal experience. Some suggestions of subjects are: Pioneer days, Indian fights, cattle driving, early politics, war experiences or biographical sketch of any outstanding pioneer of a Texas community.

April 1, 1948, is announced as the closing date of the contest. All interested are invited to write for further information to the Junior Historian, Box 2131, University Station, Austin 12, Texas.

Soil Conservation District News

Farmers of the Central Colorado Soil Conservation District are still constructing terraces and planting grasses, although slightly hindered by the weather conditions.

Mark Adair of the East Caddo Peak Soil Conservation Group, has completed the construction of 3.1 miles of terraces on his farm. These terraces outlet onto pasture land or into a natural waterway.

W. H. Bryant, of the Cockerbur Soil Conservation Group has constructed 1.7 miles of terraces on his farm.

H. H. Hanke of the Dimer Branch Soil Conservation group, planted three and one half acres of Weeping Lovegrass and four acres of Yellow Bluestem grass the past week. Mr. Hanke seeded all point rows of his cultivated land that were inconvenient to cultivate and other small acres to permanent grasses, therefore making his field easier to cultivate.

BANK ACCOUNTING

A bank is essentially a huge accounting machine, transferring the ownership of money and credit and keeping a record of such transfers. Nearly every person in a bank engages in record making of one kind or another.

The usefulness of accounting does not cease with the completion of a transaction; a record must be available in permanent form. Dependable bank records may be the only means of settling disputes that arise long after transactions have, to all appearances, been completed and forgotten. Thus a prudent person will cause all of his business transactions to flow through a bank.

Fish Food For The Farm Pond

It is not too late to start fertilizing the farm pond this year. But it is a good idea to get it done before the hot months of July and August.

Fish live on the tiny plants and animals in the pond commonly referred to as "the bloom" or plankton. The production of plankton is the first step in the production of food for the fish, since an abundant supply of plankton means more pounds of fish per acre. Fertilized ponds will grow more plankton than the unfertilized ponds, and consequently more fish.

A good fertilizer to use in the farm pond or lake is a mixture of 500 pounds of cottonseed meal and 200 pounds of 20 per cent acid phosphate—a total of 700 pounds of fertilizer per acre of pond area. Scatter 300 pounds of this broadcast around the edge of the pond in the Spring; then at 30 day intervals apply the rest of the fertilizer 100 pounds at a time. This means that the fertilizer program for each year covers a three month period, and should be carried out so that the last application does not run into July and August. It is better to have the first application—the 300 pounds—around the first of Spring, then by the end of May the fertilizing program is complete, giving the plankton a good, long growing season.

Other high grade fertilizers may be used at the rate of 400 to 500 pounds per acre of pond at monthly intervals. If the farm pond owner carries out a fertilizer pro-

gram each year, he will have plenty of fish food in the pond. New ponds properly fertilized and properly stocked should be ready for fishing in 12 to 18 months.

That's when the fun begins!

Mrs. A. J. Hurst returned from Beaumont Saturday after spending the winter with her daughter, Mrs. Alma Buchanan, and children. Mrs. Buchanan returned with her for the week end.

Franklin Pierce Shackelford left the first of the week to visit the John Deere factories at Moline, Illinois, Dubuque and Waterloo, where they will see John Deere machinery demonstrated. Several went from West Texas. They are to be gone a week or ten days.

Slight Show Found In Test On McClure

Light shows of gas cut mud were reported over the week end in a deep oil test being drilled on the W. T. McClure ranch, 8 miles South of Putnam, by the Star Oil Company. Two drill-stem tests were taken in the Caddo lime, and each indicated some possibility. The well is located 330 feet from the North and East lines of the Northwest 40 acres of E. Shipman survey.

Mr. and Mrs. M. B. Spraws of Fort Worth spent the week end visiting in the home of Mr. and Mrs. W. S. Jobe and other relatives in Putnam and Scranton.

Continental POST HOLE DIGGERS

LEAD THE FIELD

They are easy to attach on any farm tractor with rear-end power take-off. Digs holes in hard dry soil. It's easy to set the depth gauge and control all operations from the driver's seat. Interchangeable auger sizes . . . Timken bearings.

THE AMERICAN WAY

Atwell News

By Mrs. Ben Riffe

Elder D. C. Foster of this place and Elder Coy Marcum of Cisco preached the morning service at the Primitive Baptist church. Dinner was spread at the noon hour and visiting and an Easter egg hunt was the entertainment in the afternoon.

Joe Bentley and children of Eula and Mr. and Mrs. Lantz Reid and J. A. Reid of Putnam accompanied Mr. and Mrs. Stewart Bentley to the above services Sunday.

Mmes. Sam Jones and Clint Brashear heard Mrs. E. P. Mead of Abilene speak in the Lee Bishop home in Cross Plains Friday afternoon.

Mr. and Mrs. Truett Holley of Cottonwood spent Sunday with Mr. and Mrs. J. D. Goble and attended church here Sunday night.

Mr. and Mrs. Henry Ester spent the week end with his daughter, Mrs. Aubrey Gibson, and family in Breckenridge.

Edgar Sessions of Dallas spent Saturday and Sunday with home folks.

Mr. and Mrs. R. W. Purvis and Deane and J. B. Riffe, Jr., of Albany visited in the Ben Riffe home Wednesday night and Thursday of last week.

Mr. and Mrs. Tipton Winkle and Royce visited Mr. and Mrs. Robert Brown Saturday night and Sunday.

Mrs. R. N. Brashear visited her daughter, Mrs. C. M. Matthews, of Putnam Wednesday of last week.

Mr. and Mrs. Louis Griffith and Avril of Fort Worth spent the week end in the S. A. Black home.

Mr. and Mrs. Buster Foster and children of Cross Plains spent Sunday with her parents, Mr. and Mrs. Sam Jones, also visited in the E. P. Foster home.

Rev. and Mrs. Maurice Treadwell and sons of Texico, New Mexico spent from Thursday until Sunday with her parents, the J. P. Purvis. They were on their way to Fort Worth where Mr. Treadwell expects to take an examination for mission work in foreign fields.

Doyce Purvis of Bayou also spent the week end in the Purvis home.

Mrs. Nathan Foster and boys spent Sunday with her parents, Mr. and Mrs. Edwin Erwin, at Sabanno.

Mr. and Mrs. W. M. Tatam of Putnam spent from Tuesday until Thursday with their sons, Roy and Alton.

Mr. and Mrs. Newman Jackson and family of Christoval spent the week end in the E. P. Foster home.

Mmes. Nathan Foster, Truman and their small sons and Mrs. Robert Brashear attended the Easter egg hunt, carried their children to the Cross Plains park Friday afternoon.

Mr. and Mrs. Clint Brashear heard Dr. J. Frank Norris of Fort Worth preach in Abilene Sunday afternoon.

Jim Hewes, Nathan Foster, Howard Pillans, accompanied by Mark Foster and Ray Foster of Slaton and others whose names we did not learn, left Sunday on a fishing trip to the Rio Grande River.

Billy Dean Havens of Baird spent last week in the Ebb Rouse home. He, together with Mrs. Havens, returned to Baird Saturday.

Billy George Morgan of Baird is attending school at Cross Plains and staying with his grandparents, Mr. and Mrs. Ben Pillans.

Patronize Local Merchants

ALL THEY ASKED WAS AN EVEN BREAK

BUILDING a new country was no easy job. But there were men and women willing to turn their backs on the comfortable way of life and their faces toward new frontiers. All they asked was an even break.

Free enterprise is another way of saying, "an even break." Free enterprise is the basic American principle of vision and personal initiative. Just give an American an even break—a chance to get ahead—and he'll go on from there.

In West Texas—where the "frontier" is a little more than one generation removed—the West Texas Utilities Company is recognized as a real pioneer. It opened up an "electric frontier" when in 1915 it constructed the first power transmission line in West Texas. This first transmission line, which helped pave the way for the economic growth of the area, was built by a farseeing group of business men who believed that a tax-paying, self-supporting company could best supply the enormous amounts of electric power that the development of this western empire depends on... at the lowest possible cost.

Today, that original transmission line has been expanded into a power system of 2,833 miles of high power transmission lines... more than any other company in the Southwest... serving 322,000 persons with dependable, low-cost electric service in a 45,000 square mile area.

The West Texas Utilities Company, in 1947, contributed more than \$1,800,000 to local, state and federal governments... paid more than \$2,800,000 in wages to employee citizens of West Texas.

There are still new frontiers in electric living to be opened... and businessmen can do the job better than bureaucrats. Believing in the soundness of the "free enterprise system," the Company will spend \$18,000,000 during the next four years enlarging plants and existing facilities, and building transmission lines in an all-out effort to "open" those new frontiers.

West Texas Utilities Company
