## HERE'S HOW TO HANDLE YOUR MODERN Gas RANGE

ARE YOU TAKING EXTRA CARE of your Gas Range, to make it feed your family till we win this war? If it's a modern automatic, it can serve with a flourish for years and years (war or no war), if it has good care.

In canning on the top burners, han-Don't burn out the oven enamel with dling pressure cooker, water bath, or prolonged high heat. (Only a few open kettle, do not set anything hot oven dishes call for high heat; and or wet directly on the enamel spaces. roast meat tastes much better with a Use cork mats, or asbestos mats.

the range has cooled).

If anything drips on the range, wipe: it off immediately with a DRY cloth.

(The damp cloth comes later when

Your low-cost natural gas is very rich:

definitely LOW heat).

In canning jars of food in the oven, don't prop heavy loads on the open door; it might warp the door.

### 3.

1.,

In oven canning, use jar-pan to protect the oven floor in case of accidental boil-overs.
