#### Keeps Secret Wage, Other Demands He Wants For Miners

By Lewis

WASHINGTON, March 12 (AP)-John L. Lewis launches his fight today to win a new contract for bituminous workers, but he kept secret until the last minute just what wage and other demands he has to serve on the

mine owners. On the outcome of the negotiations may depend whether the nation will have a soft coal strike on

ics hands April 1. The United Mine Workers' chieftain was ready to open discussions with the mine owners this morning, but first he cheduled an elever th-hour meeting with the 250 members of the UMW's policy committee for a last review of the

demands to be presented. An assortment of demands of the UM W's 31 district conventions had to be sifted down to be presented

on an industry-wide basis.

The operators were inclined to believe that with whatever else Army Must Stop Lewis would ask, he would demand a shorter work week, more pay to make up the loss in take-home war war earnings, the unionization of supervisory workers; and a "par-"ticipation" royalty on each ton of coal mined. Last year he asked Mine Workers \$57,500,000.

While only the bituminous industry is involved in negotiations cortract is timed to expire a month later. That industry usually follows the pattern of soft coal. Lewis has prepared for a strike of Mukden as the retiring Russians 400,000 bituminous coal miners April 1, if necessary.

The administration's new wageprice policy came in for consider- time prepared to dispatch truce able discussion by the Lewis forces teams to halt Chinese factional in formulating their demands-but few expected the mine leader to be deterred by the policy if it offers too many obstructions to what he seeks.

# BANKERS MAY SET Blanket Raise DEADLINE TO JOIN In Rents Too

SAVANNAH, March 12. (P)-Russia and other Bretton Woods signatories who have been dilatory about entering the World Bank and Fund may be granted only six months in which to join the global lending and currency stabilizing agencies.

Secretary of the Treasury Fred M. Vinson, chairman of the board of governors of the twin institutions, teld a reporter that the membership committee of the international monetary conference on Wilmington Island near here probably would set such a deadline.

After that time, even countries which signed the 1944 a-000,000 bank and \$3,800,000 fund, would have to seek admission as new applicants.

This would subject them to entry on terms and conditions imposed by the governing boards, in which the present "Big Five" — the US, Britain, China, France and India -dominate the voting. The late-comers also would be subject to a refixing of their quotes of gold and currency to be subscribed to the bank and fund.

Australia has hesitated to ratify until Russia does, officials in Canberra have stated. They fear that Russia's hidden gold reserves might upset the liberalized trading arrangements planned, unless the Soviet co-

operates. Russia sat among the eight onlooker nations.

Yugoslavia, although a member, has failed to turn up. Delegates wondered if she had decided not to participate at all, following the Russian line.

17. Develop methods for saving and use of bread ends, many of which are wasted at the present time,

18. Carry back all economies to employes' meals. Employes should cooperate to the same extent customers are asked to cooperate. 19. Boil or broil rather than fry fish so as to save fats.

20. Eliminate serving of extra dressing for salads already prepared with oil or dressing. Recommendations for the baking industry:

1. Reduce by at least 10 per cent the weight of bread and bakery a near-record crop of winter wheat ducts.

2. Wherever practicable bakers should feature smaller weight and 751,000,000 bushels indicated.

Bread should be sliced thinner to provide more slices per lost. 4.Partial loaves of bread should be offered for sale as a waste pre-

venting measure. 5. Save flour and fats and oils by avoiding spoilage and waste. Recommendations to food distributors and manufacturers:

1." Promote the use of alternate and more plentiful foods in the diet, such as-currently-potatoes, fish, eggs, poultry, citrus fruits, and seasonal vegetables.

2. Assist customers by providing recipes using the more plentiful foods. 3. Adopt measures for greater conservation and prevention of

waste in food distribution channels. 4. Encourage consumers to conserve and prevent waste of food and to re-use food fats and salvage waste fats. 5. In the manufacture of food items use alternate ingredients

wherever possible in lieu of ingredients in short supply.

Recommendations to consumers: 1. Prevent waste of bread. It is estimated that five percent o one slice out of every loaf baked every day goes into garbage. 2. Use less bread at each meal. Use potatoes for example as al ternates for bread. One small serving of potatoes replaces a slice of bread, nutritionally. Us; oats more often. A serving of oatmeal equals two slices of bread in food value. Use fruits and other desserts for

Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amasing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of liquid Barcentrate (formerly called Barcel Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonsful twice a day. That's all there is to it.

If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloat disappears—how much better you feel, Morg alive, youthful appearing and active.

Now is the time to plan your work and begin to work your plans. Spread fertilizer early, start seedlings indoors, figure out your fencing needs and see that your equipment is in good order. And remember, BIG SPRING HARDWARE is the place to get everything for the garden you have in mind.

# Let's Go In Training

Of course, it is a year before any formal moves may be initiated in the halls of the Texas legislature, but it is not too early to be stirring interest in the matter of redis-

We might as well be realistic about the matter: our chances of success are none too good. The legislature has flagrantly defied the constitution on this point since 1920, and there is no reason to believe that there will be a sudden reformation next term.

Essentially, we must be looking for ways to force the issue. The justice of the cause must be well understood over the state so that whatever tactics are necessary will find a ready public support or at least a public conception of the necessity of such a course of action.

This will not be so easy, for basically the problem gets back to the people now. The legislators in districts, which have no legal or normal right to existence, take the frank and unashamed position that to vote for redistricting would be voting themselves out of a job. It follows that there must be a pretty good support for this perverted conception from the people of those particular districts, else such an attitude could not be maintained for more than 25 years.

Nevertheless, it will be easier to lay the cards on the table with these minority sections which persist in clinging to a disproportionately favorable balance of representative power than it will be to shake the legislators, who are the immediate beneficiaries of such a system, from their positions.

We do not know what it will take, but if it requires the experiment of an injunction against the payment of legislators until they do pass a redistricting bill, something must be done to force the issue. All becomes fair in war and politics, and the time is at hand that those who cry for representative justice stop crying and go to fighting with every means at their disposal.

#### Another Reason, Too

Three Texas congressmen have announced they will not seek reelection. Varying reasons are given. One says he is weary of the way things are going in Washington and that he now feels utterly powerless to com-bat the rising tide. Another says that remaining in the office would entail undue financial sacrifice. A third says his health will not permit another term.

Particularly in the case of the first, it is most curious that the grapes should turn sour after all these years. The other reasons may be valid, but those who watch the passing scene suspect that the three brethren also put their ears to the ground and considered what they heard.

#### "BLAZE" FINALLY IS PUT OUT

CHICAGO, March 12 (AP) - The firemen named him Blaze and put him out.

A mongrel, Blaze wandered into Engine House 51 a week ago. Fairly successful at mending a few of his milder bad habits-like chewing up the fire hose - the firemen had hopes for him until yesterday.

An alarm roused the men from their second floor bunks. As the last man slid down the brass pole, Blaze plunged after him, breaking his fall on Fireman William Newton's head. Then the dog took up a stand in front of the thun-dering trucks, delaying their departure.

Blaze has been given to neighbor children. They promise to keep him away from Engine House 51.

51/2 MILLION CALLS A DAY New circuits to carry the load on Long Distance...

In 1938 there were a little less than 3 million long distance calls every day in the United States. In 1942 there were 4 million. Now, more than 51/2 million calls crowd the wires every 24 hours.

Some of these calls are delayed, but building and installation of new circuits

and equipment (held up by the war) is beginning now to catch up with the increased volume of calls.

Delayed calls will become fewer as this new equipment begins its job of bringing you better and faster long distance service.
