"When The One Great Scorer Comes To Write Against Your Name He Writes Not If You Won Or Lost But How You Played The Game"

FRIDAY, APRIL 18, 1947

FROM THE EDITOR'S WINDOW

BY MRS. J. S. YEAGER

Half the domestic trouble that have led to an increase in divorces this year can be blamed on the war and half on alcohol, according to Judge McNamee of Nevada.

"Four out of five complainants are women," said Judge McNamee, "but the social stigma of a man divorcing a woman has disappeared."

Troubles arising from the loneliness of war and the excessive drinking of one of the partners, lead the entire field of reasons for the increase in broken homes, he added.

It is said that weary, rain soaked refugees by the hundreds have left their homes as Michigan's overflowing rivers and streams reached an all time high the past week.

Southern Michigan had thousands of its rich acreage flooded by swirling waters of eleven of its major rivers.

The Missouri river has also been on a rampage for several days, having reached a stage of 15 feet in some places.

Paracutin, Mexico's four-year old volcano which appeared overnight in a farmer's corn field, has begun to erupt during the past week.

It is now said to be coughing up huge rocks and sprinkling tons of black pumice and cinders over the country side.

The streets and parks of the nearest town, Uruapan, four miles away had a thick covering of black pumice.

It is said the small country of Ecuador in South America turns out a large supply of various products. Among them are rubber, cinchona bark, vegetable ivory, nuts, kapok, tannin, dyes, vanilla beans, resins, gums, palm oil, bamboo, and the toquilla straw used in Panama hats.

A report from Coleman, Texas is to this effect: "W. T. Jones, Jr. of Simpson Turkey Hatchery, is proud of his latest long distance sale which he believes is a record for Texas. He has just shipped two crates of turkey eggs by air express to Portugal."

This is the first shipment that the hatchery has made to Europe and Mr. Jones believes it is the largest shipment of turkey eggs ever to be made by air from Texas.

E. F. Butler, former owner and editor of the Clyde Enterprise for 29 years, will head the City Commission for the next two years, having been the people's choice for mayor of this city in Tuesday's election when a total of 203 votes were cast.

King Paul, who succeeded to the Greek throne April 1 after the sudden passing of his elder brother, King George II, is the third son of former King Constantine and sixth member of the Danish-German Glucksburg dynasty to rule Greece since its liberation from Turkish sovereignty in 1832. His wife, Frederika Louise, is of German royalty. They have an only son, six year old Constantine, now Crown Prince, and two young daughters.

Edward J. Flanagan, the founder and director of the famous Boys Town in the state of Nebraska, will leave shortly for Japan where he will serve as an expert consultant to the Japanese government on a child welfare program, now being developed.

Best wishes from all concerned in the United States will follow "Father Flanagan" in his new work in Japan and hope for his safe return to his beloved Boys Town as soon as his work in Japan has been completed.

The big hearted stranger approached the ragged one who was sitting on the curb, crying bitterly. When the stranger asked what the trouble was, the ragged one sobbed out that his father was a failure.

"Oh no, cheer up, soothe the stranger. "Maybe your father isn't a failure." "Yes, he is a failure," insisted the fellow. "For twenty years he tried hard to make a gentleman out of me and here I am still a bum."

REPUBLICANS PASS ANTI PORTAL PAY BILL TO PRESIDENT

The Republican house and senate moved to ban portal to portal pay except where previously agreed upon or approved by long time custom but final validity of their action depended on President Truman and the Supreme Court.

The president could veto the bill on the grounds it was a slap at labor and portal to portal differences should be worked out between management and labor or on the bases of recent court decisions. The Supreme Court could throw the bill out as unconstitutional.

As the measure reached the house and senate conferees for final shaping, it provided a ban of all contracts from federal administrative rulings; a ban on court consideration of portal cases; a prohibition against unions filing portal suits; on behalf of members and employer relief from liability for violating laws not clearly interpreted.

Seventeen Southern Democrats voted for the bill. Bird of Virginia, Connally of Texas, Eastland of Mississippi, Ellender of Louisiana, Fulbright of Arkansas, George of Georgia, Hoey of North Carolina, Holland of Florida, Baybank of South Carolina, McClellan of Arkansas, McKeller of Tennessee, O'Daniel of Texas, Overton of Louisiana, Robertson of Virginia, Russell of Georgia, Stewart of Tennessee and Unstead of North Carolina. The two Southern Republicans, Cooper of Kentucky and Moor of Oklahoma, voted for the bill.

APRIL NAMED CANCER CONTROL MONTH OVER NATION BY PRESIDENT

By proclamation of President Harry S. Truman, the month of April is Cancer Control Month throughout the nation. Dr. Geo. W. Cox, State Health Officer, is asking each citizen to consider the danger signals and secure medical aid at the first appearance of any suspicious symptom. There are many causes of cancer; the most common form of which is chronic or prolonged irritation.

One of the questions often asked is whether or not cancer is hereditary in human beings. Tendencies to form cancer may possibly be inherited; however, since the method of inheriting such tendencies is obscure, the presence of cancer in one or both parents should be merely a cause of greater alertness in looking for and recognizing suspicious symptoms on the part of family members. There is no need of a fatalistic attitude. The fact concerning heredity do not justify them.

At the first warning signs recognized, consult your physician. The early symptoms are any sore that does not heal, particularly about the tongue, mouth, or lips; a painless lump or thickening, especially in the breast, lip, or tongue; irregular bleeding or discharge from any natural body opening; progressive change in the size or color of a wart, mole, or birthmark; persistent indigestion; persistent hoarseness or difficulty in swallowing; and any change in normal bowel habits. See your doctor about any of these signals.

Early recognition of cancer symptoms will lead to early diagnosis and treatment, and in many cases the victim can be entirely cured and live out a normal life span.

PIONEER MINISTER DIES

REV. R. D. CARTER

Early Day Pastor Of Local Church Succumbs Sunday

Rev. R. D. Carter, 88, pioneer West Texas Baptist minister, who organized no less than five churches in the Cross Plains area and who formerly served as pastor here, died in an Abilene hospital Sunday at noon. Mr. Carter was born in Jefferson county, Tenn., Nov. 23, 1856. He was married to Mary Louisa Helm in 1874. Ordained as a minister of the Missionary Baptist church by the White Oak Grove Baptist church of Tennessee in 1882, he attended Carson Newman college, a Baptist school. Carter moved to Anson in 1924.

The Rev. Carter worked with several congregations and served as missionary of the Callahan county association six years and of the El Paso association for two and one half years. The loss of his voice caused him to retire from the ministry after 27 years of service.

Survivors include six sons, D. P. Brownfield, H. A. and A. F., both of Dallas, J. D., Austin, J. B., Houston, and T. H. Carter of Fort Worth; one daughter, Mrs. L. P. Hendee of Anson, 18 grandchildren and 16 great-grandchildren.

SHORTAGE OF FOOD CHANGES OPINIONS

As we pursue the exchanges after an absence of a few years we can't resist making a few comparisons. Most of the papers have improved in size, but alas! too many, are still using Sears Roebuck editorials. Probably the only exceptions is our old friend Mike Bogge, who continues to call a spade a spade. But even old Mike has fallen off the New Deal wagon. As we gather from his writings Mike stayed with the New Dealers until OPA arrived and he just couldn't swallow all the red tape, Athens Review.

The Kemp Texas News, now about me being a New Dealer we plead guilty to voting for Roosevelt because we had a belly full of Hoover prosperity and any fool wanted a change, for we were all starving, but we were never too strong for the socialistic philosophy of Mr. Roosevelt and we want you to know we didn't fall off the New Deal wagon; we deliberately took a running start and jumped off. And what is more of the democrats get control of the party we vote the ticket, but we have enough of this New Deal waste "gimmie" philosophy.

No System Founded On Inequity And Injustice Can Survive Long

University Opera Will Be Presented By Hardin-Simons

Giuseppe Bamboschek, director of the New York Metropolitan Opera, will conduct the opera Martha, which will be given by students and members of the faculty of Hardin-Simmons university May 1 and 2, it has been announced by Miss Ethel Rader, head of the voice and ensemble department.

It is believed to be the first university opera given in Texas which will have an outside director. Members of the Hardin-Simmons university chorus, orchestra, and art department are assisting in the production.

The gracious melodiousness of Martha has made it one of the most popular since its first presentation in 1847. It is the story of the peasant and nobility life during the reign of Queen Anne.

Although the solo parts of the opera will be played by the members of the faculty, the singing of the student chorus, directed by Kenneth Ballinger, is some of the most important music in the opera.

Early preparation is being made under the direction of Miss Rader. Mr. Bamboschek will arrive at Hardin-Simmons in late April for the final rehearsals and practice.

GOVERNOR JESTER SIGNS LABOR LAWS

Governor Jester signed the "right to work" bill that had been passed by the Texas Legislature Tuesday afternoon.

The governor announced his intentions in a statewide broadcast in which he discussed the current telephone strike and reviewed labor legislation now pending before the legislature. There are other bills pending and he stated in his broadcast he would consider the bills when they were presented to him for his signature. The law signed makes it unlawful for persons to be denied employment on account of non membership in organization or other organizations.

He said, "I believe in the right to work and should not be limited by reason of membership or non-membership in any church, society, lodge or other organization, because I believe that the freedom of choice will rebound to the growth in destiny, prestige and usefulness of organized labor itself, and because I believe this philosophy will help to bring about the development of mature statesmanship in labor relations on the part of the employer and employees alike. Labor relations statesmanship which will guarantee for Texas an area of industrial peace and cooperation."

EASY WAY TO RUN RATS OFF THE PLACE

An Englishman, Phillips Jordan, says he's no Pied Piper of Hamelin but insists he knows how to rid the place of rats.

Jordan was a former British war correspondent, now connected with the press embassy in Washington and recently visited Texas. He states he has a 25 acre farm in England. It was over run with rats. His caretaker caught one of the larger rodents. He then singed his hair thoroughly, not enough to arouse the ire of the society for the prevention of cruelty to animals, but enough to smell as if the rat had been in a fire. He then turned it loose.

Jordan says rats have a terrific fear of fire. So when the singed rat headed for home, the others smelling him, fled and in 24 hours his entire farm was rid of rats.

This would be an easy way of getting rid of rats and expensive. Might be worth trying out.

BASEBALL TEAM FORMED IN SCRANTON COMMUNITY

Bill Pope will serve as manager for a baseball team being formed at Scranton. The squad, boasting a strong line-up, will represent the community in games during the summer months. Teams interested in meeting the Scranton nine are invited to contact Pope.

From the Calumet Record: "No system founded on injustice and inequity can succeed. Such as the case of Union Labor since the Clayton Act exempted it from the provisions of the Sherman Anti-trust Law.

"By virtue of a strong organization and various methods the unions obtained exemption from the Sherman Law by the Clayton Act. Since then by various feats of legislative Union Labor has acquired a status in America that ignores contracts, that demands pay raises not for value received but by duress and intimidation.

Everybody realizes that the situation is very serious, but instead of doing the obvious thing, which is to put labor back on a footing equal with other trusts and combinations in restraint of trade, the inclination seems to be to create more boards and commissions and legal hurdles to arbitrate and compromise. But that is not the way to do it. The system founded on injustice and inequity simply becomes more involved and more complicated.

What we need and expect of Congress is a fair field for both industry and labor and no favors. We must return to the Sherman Act, unamended and unchanged. The public needs to be protected against all trusts and combinations in restraint of the Clayton Act and all other laws contrary to the Sherman Act should be immediately repealed. Union labor will then be on an equal basis with every other combination. It will still be able to carry on collective bargaining, but not by force or duress, or by conspiracy to starve the country or to freeze it to death. Union labor can bargain with its employers just as any contractor can bargain with any corporation.

By this time industry has learned that it must pay fair wages for a fair days work. A worker does not earn his stipend by the number of hours that he works or by his time between portals, but by what he produces. The best worker is entitled to the best pay. The present system reduces the whole mess to the dull level of mediocrity or even lower. That method is not scientific, it is not fair, it is not honest."

Editor: No one would want to prohibit collective bargaining but if the bargainers can not agree, it is no fault of the great mass of people and they should not be penalized with a crippling strike. but Labor and Industry should be forced into the courts for adjustment.

PUTNAM AREA RECEIVES INCH RAIN MONDAY

The rain which fell Sunday and Monday will be of great benefit to the growing crops in this vicinity. Quite a number of farmers were beginning to report grain in need of moisture. The inch rain fell slowly and thoroughly soaked into the ground. With very little more rain the country should harvest another good grain crop.

This rain will put a good season in the ground for planted feed and with good weather will be sufficient to plant cotton. However, there will not be any great amount planted. A number of farmers have already planted a lot of feed.

NEARLY HALF INCH RAIN FALLS OVER THIS AREA

Rainfall which blanketed the Cross Plains area Sunday night and Monday measured slightly less than a half inch, according to S. F. Bond, local observer for the U. S. Weather Bureau.

Although the moisture was inadequate it was regarded as a boon to all crops and long dry pastures. Actual measurement here was .41.

PROCLAMATION BY THE Governor of the State of Texas

TO WHOM THESE PRESENTS SHALL COME:

WHEREAS, the non-profit, community-service idea of hospitalization originated in the State of Texas in 1929, and now enables one quarter of a million Texas citizens in all walks of life to avail themselves of prepaid care in modern, well-equipped hospitals; and

WHEREAS, this idea has spread to the far corners of our Nation under the sponsorship of the Blue Cross Commission of the American Hospital Association, making it possible for millions of Americans to secure the benefits of non-profit Blue Cross Service Plans; and,

WHEREAS, the eighty-eight Blue Cross Plans have enrolled more than 25,000,000 persons in forty-six states, five Canadian provinces, the District of Columbia and Puerto Rico;

NOW THEREFORE, I, Beauford Jester, Governor of Texas, in recognition of the humanitarian achievements of Group Hospital Service, Incorporated, the Blue Cross Plan of this State, and its part in the National Blue Cross Movement, proclaim April 11, 1947 as

BLUE CROSS DAY

attesting to the humanitarian value of this national health service, its contributions to the people of Texas, and the far-sightedness of Blue Cross sponsors in making it possible for our citizens to secure this health protection through group memberships. I urge all our citizens who are not covered for hospital care through a voluntary plan to give serious consideration to the matter, for I truly believe that such protection is not only a great service to the individual and his family, but to our society as well.

IN TESTIMONY WHEREOF I have hereunto signed my name officially and caused the Seal of State to be affixed hereto at Austin, this the 14th day of April, A. D., 1947.

BIBLE QUESTIONS ANSWERED BY THE VOICE OF PROPHECY

Question—Is it true that the Bible prophesied that mothers would use their own children for food in the famine at the siege of Jerusalem?

Answer—Yes. Read Deuteronomy 28:52-57.

Q.—How can I get faith?
A.—One way to increase faith is by reading and obeying the Word of God. "So then faith cometh by hearing, and hearing by the word of God." Romans 10:17.

Q.—Someone told me that the Bible says that soon we will not have summer any more. How about it?

A.—The Bible says in Genesis 8:22: "While the earth remaineth, seedtime and harvest, and cold and heat, and summer and winter, and day and night shall not cease."

Q.—Since we can't escape the things that are coming on the world, why worry?

A.—We shouldn't worry. Jesus said: "Let not your heart be troubled; ye believe in God, believe also in Me." John 14:1. But we ought to watch and pray. "Watch ye therefore, and pray always, that ye may be accounted worthy to escape all these things that shall come to pass, and to stand before the Son of man." Luke 21:36.

Q.—Doesn't the Bible say that the day of the Lord is coming like a thief? Then what good are the signs of the times?

A.—It is coming as a thief, not to God's people, but to those who are not awake and are not walking in the light. Here is the message in 1 Thessalonians 5:1-7: "But of the times and the seasons, brethren, ye have no need that I write unto you. For yourselves know perfectly that the day of the Lord so cometh as a thief in the night. For when they shall say, Peace and safety; then sudden destruction cometh upon them, as travail upon a woman with child; and they shall not escape. But ye, brethren, are not in darkness, that that day should overtake you as a thief. Ye are all the children of light, and the children of the day: we are not of the night, nor of darkness. Therefore let us not sleep, as do others; but let us watch and be sober. For they that sleep sleep in the night; and they that be drunken are drunken in the night."

Doc Clements was transacting business in Dallas Monday.

Billy Jobe of Baird attended to business here Saturday.

Have you ever been to Hot Springs, Arkansas?

It's not far from us Texans—325 miles from Fort Worth—less than from Wichita Falls to San Antonio for instance, and Texas folks think nothing of a drive like that.

Your columnist visited Hot Springs recently—and it was a most enjoyable experience. All activities seem to center on the main street because the city is in two sections which are connected only by that one thoroughfare, so closely do the mountains press at the midway point.

And such a main street! On one side is bathhouse row, places of stone in a setting of trees and velvety lawns, and in the distance the vast structure which is the Arlington Hotel; on the other side of the street, shops with displays of laces, jewelry and curios. People from every state in the Union saunter in a leisurely manner along the sidewalk. Incidentally, Texas ranks second for out-of-state visitors, Illinois being first.

There are sight-seeing buses drawn up at the curb, and there is a shooting gallery on that main street—the targets are against the side of a mountain. One spot was blasted out of solid rock to make room for a filling station and nearby is a bus stop which is only a few paces from a ledge of rock under which one can take refuge from rain.

Over yonder is an ancient two-seated carriage, the kind the governor used to ride in when there was a parade when you were a boy; and the old driver is wearing a high top hat. Honey-mooners go for a ride in the quaint vehicle, and of course have their picture taken. From somewhere there comes the sound of music—and you look through a fringe of trees and see, in a park bandstand, an Army band.

Hot Springs has facilities for

31,000 visitors, declares Miss Alta Smith, of the Chamber of Commerce, who for years has ably publicized the city's many attractions. But the races were in progress and finding accommodations for the wife, her mother and myself was a problem—which Miss Smith solved by appealing to a former Texan, Vance Bryan, who used to run a big trucking business out of Kilgore and now is owner of the Jack Tar Court Hotel, favorite stopping place for famous athletes, big business men and movie stars—the most luxurious quarters I've ever seen.

To sum up the swirl of impressions of the three days: Hot Springs seems a gigantic fair, colorful fiesta, a perpetual holiday where everyone is having a great time.

Americans Demand Freedom To Work

Right to Choose Job Sacred as Right of Speech, Worship.

Passage of bans on the closed shop by twelve state legislatures has brought into bright focus the fact that the average American still loves his independence as much as his forefathers did when they declared it in 1776, and then fought a war to defend it.

Back of the legislative action was a tide of public sentiment so strong, and so forcefully expressed, that all the lobbying of the political professionals of closed shop unions could not prevent it. Here in each case, on a state scale, was the same type and intensity of sentiment which last November swept into office Congressmen pledged to restore and protect traditional liberties.

Congressional hearings of the past few weeks have served to put into the public record a mass of information regarding the effect of closed shop practices upon the independence and freedom of U. S. workmen. While inequities such as the calling of strikes without the consent of employees had been much publicized during the coal strike, a large percentage of the public had not realized that dictators of national labor unions had

established their own systems of government, making their own laws, levying taxes or tribute without representation, extending or denying to individual craftsmen the right to work, and punishing without trial any employe who incurred their displeasure.

Other congressional testimony re-emphasized the fact that under closed shop practices a farm youth or other non-industrial worker may be prohibited from holding a factory job, or even a beginner's job in certain skilled trades, unless strangers controlling union contracts give their consent. Such consent may be withheld entirely as a means of assuring more work for present union members, or it may be withheld until the new workman has paid whatever fees the union decides upon, and agrees to regular deduction of union dues and assessments from his pay check. Fees, as in the case of one glass workers union, were shown to run as high as \$1500 as the price of obtaining the right to work as a glazier.

With one-fourth of the states already pledged to guarantee that any citizen may work at any job which is available and which he is qualified to hold, the next move is expected to come from Washington, where action either permitting or banning the closed shop is certain to be taken in the early future. Which it shall be is not up to Congress alone, but is dependent upon the sentiment of the general public.
