

From The Editor's Window

Joe T. Steadham, a former Putnam boy but now of Ft. Worth has withdrawn from the race for the United States senate. Joe at present is state representative of the Brotherhood of Railroad Trainmen. His withdrawal leaves only five candidates in the field for a seat in the senate.

President Manuel Quezon, of the Philippine Islands, accompanied by his wife and four children, has arrived in the United States for a conference with President Roosevelt. He said he had traveled on the sea, under the sea, and in the air to reach this country.

When asked for a statement for publication he said, "Since the war I have had only one policy, and that is to keep my mouth shut—except to say that the Philippines will stand by the United States until the bitter end."

Graham McNamee, whose voice has been familiar to thousands of radio listeners all over the land for many years, died at a hospital in New York a few days ago. He had been suffering from a throat infection for several months. He was 53 years old. His second wife, the former Ann Lee Simms, Broadway actress, survives.

Mr. McNamee was born in Washington, D.C., where his lawyer father, was advisor to members of President Grover Cleveland's cabinet. Graham McNamee was a singer of note and was said to have taken his music very seriously. He sang in many churches over the country and was a member of the choir in his church in his home town.

Red Cross workers in Big Spring, according to a report, have received a message of thanks for a shipment of overalls. The message was from a member of the Women's Volunteer Service for Civilian Defense and reads in part:—"It is comforting to know that we have so many friends in America."

"Why are you home so late, dear?" "Well, I just missed the street car at one corner. Then I went around the corner to catch the bus, but I missed that, too. So I ran all the way home behind the street car, and saved the nickel fare." "Why didn't you just run behind the bus and save a dime?"

Senior:—"Why don't you run a long?" Freshman:—"I can't. I dropped a dime." Senior:—"Well, why don't you pick it up?" Freshman:—"I can't. You are standing on it."

Judge:—"You say your wife attacked you with a death-dealing weapon?" "Yes, your honor, it was a fly-swatter."

According to reports a shortage of whole milk looms in the Southwestern states caused by an effort to provide soldiers in camp with whole milk and other dairy products and mixed dishes.

An urgent need, says the same reports, for more milk consumption in the homes of both rural and town people also, now exists.

Five Confederate veterans and thirty-five widows of veterans were dropped from the state Confederate pension roll during April, most of them because of death, stated State Treasurer Jesse James a few days ago. He said there are now ninety-six veterans left on the rolls and 2,583 widows of veterans. They drew pensions in April which totaled \$92,855.

Mrs. Gus Brandon returned from New Mexico Monday where she had been visiting with her brother, who has been ill for some time. She reports him getting along fine at present.

Earl Johnson Pre-Sides At Luncheon At Baird Friday

Callahan County began its USO drive at a banquet and rally at Baird Friday at noon with a good attendance from all parts of Callahan County, some fifty to seventy five were in attendance.

After the banquet a general discussion was launched by the Rev. Royce Gilliland of Baird with a patriotic speech on the flag of the United States and loyalty to our country, and a prediction that the United Nations would win the war. He was followed by Jake Sandifer of Breckenridge, who is well known over the state and especially throughout West Texas.

The main address of the afternoon was by Paul Harrup, director of the second street USO club in Abilene. Mr. Harrup talked along the lines that you can not win the war by machines alone. He said, we have solemnly promised to give our men a mounting tide of guns, tanks, planes and ships, and we shall keep that promise more, that we shall preserve for them wherever they may be, and without regard to roll call or color, the moral and spiritual values of democratic ideals and freedoms for which they are now fighting. Because the USO is unselfishly dedicated to that high purpose is a vital part of the job of winning this war, the USO should be supported by everybody, cheerfully, generously, and now.

Mr. Harrup, gave a brief history of how and why the USO got started and what it's done since then to back up the men in their will to win. He also gave history of his work in the Abilene field among the boys there, and giving statistics citing the things that had been accomplished in a general way and giving numerous cases where personal service had been given to soldier boys, that were despondent and ready to go over the hill, if they had not been aided by the USO. He emphasized that recreation was just as essential to the winning of the war as guns and tanks.

This was one of the most enthusiastic meetings the writer has attended in many months and everyone being ready to do what ever was necessary to make the drive a success, and Callahan County will likely go over the top before this get into print.

Those attending the banquet from Putnam, were J. S. Yeager, Mrs. John Cook, Mrs. R. L. Clinton, Mrs. Wylie Clinton, and Mrs. L. L. Williams. From Union Mrs. J. A. Yarbrough, chairman of the Union community.

After considerable discussion and a number plans being submitted, Friday, May the 22nd was set as clean-up day, and the president was authorized to appoint a committee to raise sufficient funds to finish the clean-up after Friday's work. The question of the title of the property came in for discussion and it was thought best that the title should be placed in the hands of the city and Bernice Andrews was appointed as a committee of one to run the records and find the exact status of the situation. The land has been donated to the cemetery association, as it is understood, but there is no way of knowing who the association is as for as the records are concerned and a deed from the association would be worthless since no one would have authority to make a deed unless it was signed by all members of the association, and a record of the same showing its organization with a list of all the names belong. There has been a number of lots sold that the title will have to be cleared up after, the city gets title of the property. No one is at fault, but just a question of neglecting to attend to the business by all concerned.

It was decided to hold another meeting on Tuesday night June the 9th.

Rev. and Mrs. F. A. Hollis and Mrs. Lee Collins of Abilene were in Putnam Saturday afternoon visiting Mrs. Milton Crosby and other friends.

1943 METHODIST DISTRICT CONFERENCE WILL GO TO BAIRD, NEXT YEAR

The Methodist district conference closed their annual session at Cisco, May the 14th. The 1943 conference closed their annual session at Cisco, May the 14th. The 1943 conference will convene in Baird.

At the Tuesday's session the program opened, with reports from committees on youth work in the church, education, missions and evangelism. Round table discussions followed the reports.

At the Cisco meeting three young preachers were recommended to the annual North Texas conference for trial. They were the Rev. J. B. Stewart, now supply pastor at the Trent Methodist church and the Rev. Marvin Minafee and the Rev. Howard Martin, both senior students at McMurry college at Abilene.

Dr. J. O. Hames, pastor of St. Paul church, Abilene, delivered the conference address Wednesday morning at the 11 o'clock services.

W. N. Byrd Receives Letter, Victory Bond Sales Short

U. N. Byrd, chairman of the Putnam Victory Bond Sales Committee, handed the News a letter from M. H. Perkins, County Chairman in which he states: "The May quota for Callahan County for sale of Defense bonds has been set at \$14,800.96 and we are falling a little low at the present time, I am wondering if you do not think that it would be well for you to call in your local committee and get the news to them, as I believe this will be one of the hardest months to meet our quota."

We do not know who are members of the local committee, but this is the office that the county is falling behind on the quota, for Callahan County, Mr. Perkins, does not state the amount, but states we are falling behind. This is very important and should have attention by the committee.

UNION DEMONSTRATION CLUB MEETS WITH MRS. N. L. BAILEY MAY 27TH

Union Home Demonstration club met with Mrs. J. A. Yarbrough Wednesday, May 13th, 1942.

Miss Ellen Steffens being present for the purpose of checking all pressure cookers which was checked and made ready for use in the summer canning. Other subjects demonstrated were chair covering, landscaping, yard making and preserving with dextrose or Karo syrup.

Next meeting will be May 27, in the home of Mrs. N. L. Bailey. Those present: Mesdames, Otis Tatom, Olen Elliott, Claris Clinton, Burette Ramsay, D. A. Abernathy, J. E. Johnson, H. G. White, E. R. Wood, Carl Gunn, Frank Thames, Elnis Qualls, Melvin Payne, and N. L. Bailey. Two visitors Mrs. Panell and Miss Wanda Wood.

A nice dinner was served from the covered dishes brought by all members, and served by the hostess Mrs. J. A. Yarbrough.

Allow Each Person 5 Lbs. Extra Sugar For Canning Needs

Because the strawberry preserving and canning season is at a critical stage, Region Director Max L. McCullough of the Office of Price Administration in Dallas Tuesday advised housewives to avail themselves of their sugar allowance for canning and preserving.

"Any person who has been issued a War Ration Book may apply the printed form or by letter to the local ration board for a canning sugar allowance," Mr. McCullough said. "Specific forms for this purpose will be provided later, but in the meantime, a letter of application will do."

He explained that such an application letter should give clearly the name and address of the applicant, list the number of persons in the applicant's family and the number of War Ration Books they hold and the purpose for which the extra supply of sugar is needed.

Each person is allowed five pounds of sugar yearly for preserving and canning.

Mrs. S. M. Eubank was a visitor in Abilene Tuesday.

18,618,000 HOMEMAKERS USE GAS RANGES, CARE OF STOVES AIDS U.S. VICTORY EFFORTS

Pointing to government appeal for "good care of the things we have" to strengthen our country's war conservation program, Albertine Berry, Home economics director of Lone Star Gas System, suggests ways to bring added life to cooking appliances and offset the order which "froze" such equipment.

"With rationing of household appliances set up for the duration, Miss Berry said, "the correct use and care of your gas equipment in the kitchen is a patriotic measure. Such care is now vital if your equipment is to last through an expected long duration and produce the cooking service it was built to bring. Efficient cooking equipment will make your fuel and food dollars stretch."

"A gas range is still more economical and efficient when it is correctly adjusted, kept clean and properly used. After use each day it is advisable to wipe off the enamel of the range top with a soft dry cloth while the range is still warm, but not hot. If further cleaning is necessary, wait until range is cool.

MRS. WADDELL WILL PRESENT STUDENTS IN RECITAL MAY 22

Mrs. E. C. Waddell will present her students in a recital Friday night, May 22nd at 8:45 p.m., at the High School auditorium. The following will be heard: Donald Reed, Helen Cloe Cribbs, Betty and Nade Wagley, Betty Williams, Fredalyn Cook, Mary Ann Sherwin, Patsy Parrish, Anne Frances Olin-ton, Clinton Waddell, Wanda Merle and Naida Lovry, Ellen Williams, David Park and Bobbie Clinton. The public is cordially invited to attend.

Baccalaureate Sermon Preached By Dr. Daughy Sunday

The closing exercises of the Putnam High School, 1941-42 term began Sunday morning, May 17th, Dr. Jewel Daughy of Brownwood preached the Baccalaureate sermon to the graduating class which was one of the largest in the history of the school. Dr. Daughy made an excellent address which was well received by all present. His subject was "What Time Is It", and what are you going to do. He said there was no limit on what a young man or a young lady could accomplish, they could make their own limit as no one had any more as each of them had 365 days in the year and 24 hours per day and one had any more time to accomplish things. He said that President Roosevelt, and even Hitler only had 24 hours per day but they made use of the time and opportunity that was offered them. In closing his address he said he hoped the younger people would do better than we have done since this country had failed to make a living for the passed ten years. After Dr. Daughy's address the exercises were closed until Monday night.

The graduating exercises closed Monday night with W. R. Smith vice-president of the Abilene Christian College, delivering the graduating address and R. E. Webb, presenting the class with diplomas as follows: F. L. Armstrong, Theron Byrd, Jamie Jean Damon, Earl Gunn, Billy Frank Kennedy, Estelle Lunsford, Clyde Maynard, Billy Mack Park, John Allen Pruet, Stella Mae Ramsay, Lee Rutherford, Darrell White, Doyle White, Betty Jean Wood and La Juan Gunn.

MRS. C. L. RUSHIN TAKEN TO COUNTY HOSPITAL MONDAY

Mrs. C. L. Rushin had a light stroke of paralysis Sunday morning. Dr. Cockrell of Baird was called for treatments and Monday morning she was taken to the County Hospital, where she is improving some, but in a serious condition from high blood pressure.

MRS. B. BENNETT HOSTESS TO H. D. CLUB ON FRIDAY

Miss Ellen Steffens, County Home Demonstration Agent, will meet with the Cottonwood Home Demonstration Club Friday afternoon, May 22, at two o'clock, in the home of Mrs. Bryan Bennett.

PICNIC DATES ARE SET JULY 16 AND 17

Fire Chief V. C. Walker announced Tuesday afternoon that Cross Plains annual Picnic would be a two day affair this year and that the dates had been set for July 16 and 17. A full list of committeemen will be released for publication within the near future.

"As yet", Mr. Walker stated, "no carnival has been booked for the picnic, however, this detail will likely be arranged within the next few days."

The Cross Plains Picnic is the oldest celebration of its kind in Texas, having been held annually—without interruption—since 1882.

Mrs. Wade Andrews of Arlington spent the week end visiting with her parents, Mr. and Mrs. W. P. Stephens.

Grosvener & Ross Have Showing Of Oil At 3232 Feet

Grosvener & Ross have reached the Caddo lime and have a nice showing of oil and gas. This is the first Callahan County deep test prospect of the year. The Don Dansby No. 1 on the Ramsay, which indicated producing possibilities from saturated Caddo lime encountered at a depth of 3232.33 feet, total depth of the well. The formation was also showing considerable gas.

The operators topped the Caddo at 3216 feet and set 5 inch casing at 3225 feet.

Acreage around the well is held by Butler and Horn, Grosvener and Clark and Cowden. The location is in section 2277 T.E.&L. Co., survey, three and one-half miles northeast of Putnam.

It is reported that there has been some offers to lease at \$1.00 per acre but no reports of any transactions being closed.

Louis Cook Happens To Painful Accident Friday Afternoon

Louis Cook happened to quite a painful accident Friday afternoon. He was working in his garden over near his residence and was reaching up cutting some willow switches that he was using in shading some of his garden stuff when his hand slipped from the limb he was cutting and striking him on the thumb of the left hand on top, splitting his thumb open from the first joint to the second about two inches in length, not only splitting the flesh but the bone was split in one or two places. He was out there by himself and got in the car and came to town, where it was created, but it will be some time before he will be able to use that hand.

Putnam USO Raises \$41.15 On Quota In Few Hours Saturday

The local USO committee met at the News office Friday morning at 9 o'clock with a one hundred percent present. After some discussion it was decided to devote the town in three sections. Mrs. R. L. Clinton and Mrs. G. P. Gaskins were given the northeast part of town and they returned at eleven o'clock with collection of \$14.00. Mrs. L. L. Williams and Mrs. L. B. Williams took the south side of town and returned with a collection of \$33.80, while Mrs. Wylie Clinton and Mrs. John Cook worked the northwest part and came in later with \$12.75, which made a total of \$41.15. These committees should be commended by all, since they did some excellent work in a very short time. Putnam, Union, Hart and Zion Hill had a quota of \$75 but have no report from either Union, Hart or Zion Hill.

B. B. SMOOT BURIED AT SCRANTON LAST THURSDAY AFTERNOON

Funeral services for B. B. Smoot, 75, who died at the home of his son, C. B. Smoot, 12 miles North of Cross Plains, were held at Scranton Thursday afternoon of last week with the Rev. Mr. Daniels, Baptist pastor officiating. Interment was made in the family plot of the Scranton cemetery.

HOW TO MAKE YOUR SWEETS TASTE SWEETER

If a woman wants to make her sugar ration go a little farther, she should try these hints from the psychology laboratory:

Serve pudding at room temperature or mildly chilled rather than ice cold or frozen. The same amount of sweetening tastes sweeter at the higher temperature. It takes less sugar to sweeten a hot drink than a cold drink.

For those who like their coffee with sugar in it, serve the coffee before the dessert. It takes less sugar to make it taste sweet than if served immediately after a sweet dish.

At breakfast, grapefruit juice before your cereal will cut down on the sugar needed to sweeten it. Marmalade or jam on the other hand, will have the opposite effect.

Mr. and Mrs. Mabry Tatom are the parents a seven pound boy born Monday morning at the Graham Hospital in Cisco. Mother and baby both doing nicely.

Wade Andrews Killed In Airplane Accident Friday

Wade Andrews a former citizen of Putnam, age 27, was killed in an airplane accident with six others, near Eureka, California, Friday. He was listed as one of seven who occupied the plane, who perished when a twin engine army bomber, on patrol duty off the northern California coast, crashed into the southwestern tip of Humbolt Bay, and sank with out leaving trace of those aboard the ship.

Andrews was reared an orphan and first attracted attention as a football player at the Methodist Orphan's home in Waco, friends recalled. He attended Putnam High School in the spring of 1932, and Cisco high school the following year.

He was married to Emma Gene Stephens of Putnam in 1934. He joined the army air corps about one and one-half years ago and was stationed in Arizona shortly after joining the service.

Mrs. Andrews just left Putnam a short time ago to attend an air-craft school at Arlington.

Survivors are: his wife and one daughter, Anna Beth, who is staying with her grand-parents, Mr. and Mrs. W. P. Stephens and attend school here.

COMMUNITY GAS COMPANY PASSES 10 CENT REDUCTION TO USERS

The News has just received the following notice from the Lone Star Gas System: A flat reduction of 10 cents per thousand feet in local natural gas service rates for residential and commercial customers, effective with meter readings, May 15th, is announced by Community Natural Gas Co., This decrease was made possible when Lone Star Gas Company, the pipe line company, voluntarily agreed with the Federal Power Commission to reduce its rates by that amount. The over all savings throughout Lone Star Gas System will be approximately \$2,000,000 a year.

Announcing the reduction, Chester L. May, president of the Community Natural Gas Company, said a flat 10 cent decrease of present rate forms would stand for the present while the company is conferring with the Texas Railroad Commission on a new schedule most advantageous to consumers, particularly during the winter months.

Explaining the reasons for the large reductions, officials of the Lone Star Gas System stressed their desire to put all energies into the war effort and to dispense with extended litigations.

During its 33 years development, Lone Star Gas System has poured large amounts of capital in the company in order to insure dependable gas service, "said D. A. Hulsy, Lone Star president. The area served by the system expansion, resulting in an increase in volume of gas normally used. Because of long preparation, we are prepared to meet the requirements of these larger demands and now with the System built up, we are pleased that under present circumstances we are able to give our customers a substantial reduction and at the same time dispose of all rate controversies. It is our earnest hope that, as we all adjust ourselves to the war effort, sufficient new peace time uses for gas service can be developed, for the future to justify this low rate indefinitely.

VACATION BIBLE SCHOOL

Vacation Bible School will start Monday, May 25th, at the Methodist church. The school will be from 9:00 to 11:00 o'clock. All the children are invited to attend.

MR AND MRS. PRUET ATTEND FUNERAL OF D. G. CLARK TEMPLE

Mr. and Mrs. J. E. Pruet received a message Saturday morning from Temple stating a son-in-law, D. G. Clark, had passed away. Mr. and Mrs. Pruet, John Allen and Miss Willie Grace left immediately for Temple to attend the funeral. Mr. Clark was the husband the former Miss Edna Pruet. They returned Monday.

Mrs. Willie Culwell of San Antonio spent the week end visiting with Mrs. W. M. Crosby, returning home Monday. She is a sister to W. M. Crosby who died Sunday afternoon and arrived to late for the funeral.

B. L. Boydston was in Putnam Tuesday afternoon for several hours looking after business interest here.

Mind Your Manners

Test your knowledge of correct
social usage by answering the fol-
lowing questions, then checking
against the authoritative answers
below:

- 1. Should a husband lift his hat
when he takes leave of his wife on
the street?
2. Should a husband refer to his
wife as "the missus," "the wife," or
"my woman"?
3. Should a husband and wife
disagree in front of other people?
4. If a husband and wife are argu-
ing, should a third person take sides
with either?
5. Should a husband show his
wife the same courtesies he shows
other women?
What would you do if—
You send a wedding gift to the
daughter of friends of you and your
husband—
(a) Enclose a card on which both
your name and your husband's name
are engraved—or write both your
name on a card?
(b) Enclose your card and do not
add your husband's name?
Answers:
1. Yes.
2. No!
3. Not unless they can do so with-
out sounding quarrelsome.
4. No.
5. Yes, and more.
Better "What Would You Do"
solution—(a).

PATENTS APPLIED FOR

Patents have recently been grant-
ed for: A device which rings a bell
or turns on a light, warning motor-
ists when tires are over- or under-
inflated. A pair of skis, mounted on
a track (similar to the track on a
crawler tractor), which can be used
successfully when there is no ice or
snow on the ground. A device and
method which can be used by fisher-
men for keeping fish fresh until
they reach shore; liquid carbon dio-
xide, injected into the fishes' stom-
achs by means of a special nozzle
expands within the fish and chang-
es to a preservative dry ice.

Poultry in Texas is a \$80,000,00
industry and still is growing. Eggs
alone accounted for \$48,250,000 in
1941; turkeys for \$10,000,000 and
the remainder from hatchery stock
and sale of poultry meat, ducks,
geese and breeding stock.

Pierce Shackelford who is sta-
tioned at Midland in training camp
is visiting with his parents, Mr.
and Mrs. Pierce Shackelford, Sr.,
He will be here about 15 days be-
fore returning.

FOR SALE OR TRADE
One Maytag Washing
Machine for Sale or trade. On-
ly slightly used.
Loper's Laundry
Baird, Texas

FOR SALE
Sudan seed, cane seed, one

FARM & RANCH LOANS
4 PER CENT INTEREST
To refinance Short Term High
Interest Rate Indebtedness and to
Assist in Financing Purchase of a
Farm or Ranch through the—
Farmer's Cooperative Farm Loan
System from the Federal Land
Bank at Houston

Considered upon application to
the Citizen's National Farm Loan
Association.
Foreclosed farms and other real
estate for sale; small down pay-
ments and easy terms on balance
with cheap rate of interest.
See M. H. PERKINS, Secy-Treas.
Clyde, Texas, for full particulars.
Supplemental Second Lien Land
Bank Commissioner Loans—5 per
cent interest.

A MESSAGE FROM THE SECRETARY
OF THE TREASURY

THE SECRETARY OF THE TREASURY
WASHINGTON
May 3, 1942
TO THE PEOPLE OF TEXAS:
This week a new campaign for the sale of War Bonds and Savings
Stamps is under way throughout the Nation. It is the War Bond Quota
Campaign.
It is urgently necessary that you double the rate at which you
are now buying War Bonds and Savings. This will mean the sale direct
to individual Americans of War Bonds and Savings to the amount of not
less than one billion dollars every month.
One-billion dollars a month is the National quota. It is equal
to one-tenth the combined incomes of all Americans.
This money is needed to buy the tools of war for your fighting
forces. It will not pay for all of them. Our war expenditures now
are at the rate of about FIVE BILLION a month, and they are growing
daily. But a billion dollars a month direct from the people will
make all-out production possible. Without it we cannot do our best;
without it we cannot put forth our full effort.
It is desperately needed for another reason. We can't fight a
war and at the same time live and spend as usual. There are not enough
goods to go around—the things we use every day. If we go on spending
at the 1941 scale, we'll be robbing the fighting men to add to our
own comfort or pleasure. We'll be driving up the cost of living for
all of us. We'll be imposing dire hardships on our neighbors.
What is asked of you is ten per cent of your savings—a little
for Liberty. It is not a tax; it is not even a contribution; it is a
loan at interest, for your use and protection later.
Your Government asks you to cut down your expenditures, TO SAVE—
your boys on the firing line and in the training camps, through your
Government, ask you to save so that they may have what they need to
win this war for you—America asks you to save; to SAVE TO BUY TO BUY
to buy War Bonds and Savings up to not less than ten per cent of your
income.
Is Liberty worth it? Is Democracy worth it? Is America worth it?
I think I know your answer.
Sincerely,
Amagenthau Jr.

The above letter was sent to this newspaper by Secretary Morgenthau
in Washington. We publish it in the interest of the War Bond
Quota Campaign and earnestly recommend that all our readers do
their share in the tremendous job ahead of financing the War effort.

Home Making Hints

Late Tips on Canning
Fill containers full:—Shortage
of strategic materials makes it im-
portant to avoid waste of space in
good containers. A vacant half-
inch in the top of thousands and
thousands of cans and jars may
mean a shortage of containers for
storing the nation's food surpluses
this year. There won't be a can
or jar to spare.

Where there is too much space
between the top of the product and
the top of the container, the food
will lose color, flavor, and vitamins.
The texture will be impaired, too.
How it's done: Here is the way
to get full containers:

Prepare fruits and vegetables for
canning as in Texas Extension Ser-
vice B-85, "Canning Fruits and Veg-
etables."

Pack containers full with uncook-
ed food, (except leafy vegetables,
which should be pre-cooked accord-
ing to directions given in the bul-
letin.)

Pour hot syrup over the fruit.
Add salt and pour boiling water
over vegetables.

Fill the containers to running over
with the syrup or brine. Place
lids on glass jars, loosely. Do not
put lids containing paper gaskets
on cans prior to exhausting them.

Now about exhausting: Exhaust-
ing means heating foods to drive
air out of the product and the con-
tainer before the can or jar is seal-
ed. Here are the steps in exhaust-
ing fruits and vegetables.

Place the containers (filled) on
a rack in the water bath. The
boiling water should be at least two
inches below the tops of the con-
tainers. Cover the water bath to
hold in the steam. Begin counting
exhausting time when the space a-
bove the cans is filled with steam
and causes the lid to "bump".

Fruit: Exhaust fruit until the
temperature at the center of the
container is 165 degrees F. or ab-
out 10 minutes for berries and 20
minutes for harder fruit such as
peaches. Extremely hard fruit
will need an extra five minutes
exhausting time.

Vegetables: Exhaust vegetables
until the temperature at the center
of the container is 185 degrees F.,
or about 20 minutes for tender
young beans, varying to 30 minutes
for hard vegetables such as beets.

Take one container from the hot
water bath. Remove the lid if one
was used, and press down the food
to be sure there is no wasted space.
Repeat the process for other con-
tainers, then use the food from one
to fill all of the others. Again pres-
sed down the food. When the can
or jar is filled within one-fourth
inch of the top and well covered
with liquid, remove the air by jar-
ring the container against the table
top or by puncturing air bubbles
with a small knife blade. Seal it
tight and return immediately to the
water bath or hot pressure cooker.
Continue the process until all con-
tainers are sealed and returned.
Other directions and time tables for
processing in the pressure cooker
and water bath are given in the
bulletin.

If the temperature on the pres-
sure gauge is kept steady on the de-
sired pressure you can expect the
cans or jars to be full.
Eat The Lettuce!
Twenty-five years ago lettuce was
a minor crop. Today it is a crop
of major proportions—raking in

some years second only to potatoes
and sweet potatoes among the veg-
etables grown commercially.

In fact, lettuce has become such
a familiar item to many persons
that they hesitate to eat the lettuce
leaf under a salad. Apparently to
them it has become as much of a
table fixture as the china and the
silverware.

But both etiquette and nutrition
authorities advise "eat the lettuce".
It's never wrong to eat good food
placed before you on the table. And
lettuce certainly is good food.

First of all, it belongs to the fam-
ily of green, leafy vegetables. Nutri-
tionists think so highly of the
leafy greens that they recommend
one serving of them a day, more if
possible.

Green lettuce is a good source of
carotene, which the body can
change into Vitamin A. It contains
some vitamin B-1, riboflavin, and
vitamin C. And it is a good source
of iron and calcium. In general,
the thinner and greener the leaf,
the better a source of iron and car-
otene is the lettuce. Bleached let-
tuce contributes most of these same
food values, but it rates consider-
ably lower than does green lettuce
as a source of the vitamins and
minerals mentioned.

Plenty of Lettuce Now
Normally, every year around this
crop of commercially grown lettuce
is larger than at any other time of
the year. This year, the spring crop
probably will add up to half again
as much as in average years, ac-
cording to the crop reporters. Throu-
gh lettuce is grown commercially
in only a few States, the abundant
supply of lettuce is spread over the
whole Nation, thanks to modern
transportation, and storage facilities.

Most the lettuce grown commer-
cially the year round and most of
that on the market now is the crisp
Leaf type. This lettuce is the kind
that grows in a compact head and
has crisp leaves. Lettuce of this
type is also sometimes called ice-
berg, though the plant scientist say
that really is not accurate.

Some of the lettuce on the mark-
et supplied by the Eastern lettuce

MOLASSES AND SORGHUM
GOOD SUGAR SUBSTITUTE

Molasses and sorghum supply en-
ergy plus iron, calcium and phos-
phorus. Sugar gives only energy.

Molasses and sorghum have their
own characteristic flavor. They may
be used in preparing many delicious
foods. Frequently favorite recipes
can be used substituting molasses
or sorghum for all or part of the
sugar. The following points may
prove helpful in making substitu-
tions: (1) It takes about 1 1/2 cups
to equal 1 cup of sugar in sweet-
ness. (2) Each cup contains ap-
proximately 1/4 cup water so the
liquid in a recipe should be re-
duced in proportion. (3) Molasses
and sorghum that are leavened, about 1/4
teaspoon soda should be used per
cup of molasses. (b) Molasses and
sorghum burn easily, so the temper-
ature for baking should be lower
than the temperature for baking
mixtures made with sugar. (5)
Molasses and sorghum vary in mois-
ture and acidity; therefore sug-
gestions given for substitution are
given as "approximate."

That Callahan County Home De-
monstration club women are using
their knowledge of food preparation
to make their recipes fit the sug-
ar ration is shown by the following
recipe for Molasses Custard given
by Mrs. R. G. Edwards, of the Ent-
erprise Home Demonstration Club.

- Molasses Custard
3 eggs.
1 1/2 cups molasses
1 1/2 cups thick cream
3/4 cup raisins
Spices.
Beat eggs well then add cream
and molasses, spices and raisins.
Pour in unbaked pie crust and bake
as egg custard.
This amount makes two custards.
Butter and milk may be used in-
stead of the cream.

fields is of the Butterhead type.
There are numerous varieties of
Butterhead type lettuce but the
most common is Big Boston. Typic-
al of this kind of lettuce, Big Bos-
ton has leaves that are glossy and
smooth and not so crisp as the "Ice-
berg" varieties of lettuce. The
leaves do not grow in such a com-
pact head as the crisp head lettuce
and the leaves are often rimmed
with a reddish brown.
Still another type of lettuce on
some market now in Romania. This
lettuce has an upright growth with
a long head and leaves. It is a lit-
tle more strongly flavored than the
other kinds of lettuce. It is avail-
able only in places where people
have shown a preference for it in
past years.

NEW! "BACTERIOSTATIC"
FEMININE
HYGIENE
now finding great favor
among women...

Many doctors recommend regular use
of douches as a precautionary mea-
sure for women who want to be clean,
dainty—for women troubled by of-
fending odor or discharge.
Some products may be harmful to
delicate tissues. But not Lydia E.
Pinkham's Sanative Wash! Pinkham's
Sanative Wash is gaining great favor
among women because it's NOT a
harmful germicide. Instead—it's a
mighty effective "bacteriostatic" (the
modern trend). It not only discour-
ages bacterial growth and infection
but thoroughly cleanses and deodor-
izes. Very soothing—relieves minor
irritations and discharge and has a
tonic effect on delicate membranes.
Inexpensive! Get your bottle of Lydia
Pinkham's Sanative Wash today. All
druggists.

AGE BRINGS BIGGER EARS AND BROADER FEATURES

The ears get larger, the nose gets longer and broader, and the mouth gets wider as one grows older.

When one meets an old friend after a lapse of years, there is often a vague unfamiliarity about his features which cannot easily be explained.

Among the white "Old Americans," says Dr. Hrdlicka, "both the nasal breadth and length increases during adult life, but the increase in breadth exceeds somewhat that in length."

The effects of age on the mouth, Dr. Hrdlicka pointed out, are even more marked than those of the nose.

Miss Dorothy Roberson who is employed in a beauty shop at Big Spring spent a few days this week visiting her parents Mr. and Mrs. Hermon Roberson.

SCRAP METAL MUST GO INTO WAR WORK USES IMMEDIATELY

An intensive campaign to collect metal in this area and throughout the entire state to get it to steel mills where it is urgently needed now in the manufacture of steel for the nation's war effort is being launched by the Texas Roadside Development Program.

All persons living in unincorporated towns and in rural areas are urged to collect their scrap metal from their properties and deposit it on the right-of-way lines along state highways.

Mrs. Jud Collier of Mumford, State chairman of the Roadside Development Program, has arranged with her district and section chairmen, and co-workers in every community, to speed the collection drive.

All District Engineers of the Highway Department have been instructed by State Highway Engineer D. C. Greer to have the personnel in the field throughout the state cooperate with the members of the Roadside Development Program organization in order to make the undertaking effective as quickly as possible.

Thomas L. Mullican, representative of the War Production Board in Texas, states that there is a large amount of scrap metals uncollected in this state.

LETTER

Hon. Tom Connally, United States Senate, Washington, D. C. My Dear Senator:

I was indeed pleased to receive your letter of the 14th, together with your speech from the records, showing your stand on the labor question.

This is a war of production more than of fighting. Since the cost of killing an enemy has advanced from \$50.00 per man in the seventeenth century to \$125,000.00 in the present war it is far more important to obtain super production and delivery to the war zones, than it is great numbers of fighting men.

I realize it is hard to get real production started, after having ten years of law-making and regulation, with the basic idea that; competition is a crime, industriousness a sin, and that frugality makes poverty, as the ground principal upon which the laws are made.

Senator do you believe to freeze an industry, account of strikes and the government take it over, will right a wrong? How would that help the men who are forced to join a union, and pay dues to a labor tyrant against their will to obtain work. They are having to do that very thing in government plants and on government work all over this nation.

Why not right a wrong, and restore, in some measure, the constitutional property rights of the American citizen by abolishing the closed shop? The closed shop is the weapon with which union labor is intimidating the people of this country, and browbeating our government until Washington is afraid to do what it knows is right.

Sincerely, CLEVE CALLAWAY

Alex Buchanan of Bradshaw was in Putnam visiting with his brother, R. I. and W. A. Buchanan and trading a little in cattle Monday.

Miss Louise Crosby who has been visiting her mother during the illness and death of her father, W. M. Crosby, returned to her work in Fort Worth Sunday.

I GIVE YOU TEXAS
by BOYCE HOUSE

If newspaper articles were written the same way that radio programs are given, how would they sound? The Trinity Standard—in effect—inquires and then proceeds to demonstrate by publishing an article entitled "The Radio."

The radio is the most wonderful invention of modern times. It was made possible by Lee De Forest, who now seldom listens to the radio and who says that he almost regrets having made it possible. But now for just a word from our sponsor:

(Do you get the Trinity Standard regularly? If you do not get the Trinity Standard rush down to the news stand and buy a copy of the Trinity Standard and then rush to the Trinity Standard office and subscribe to the Trinity Standard and you will receive the Trinity Standard once each week, and you will be able to keep informed and amaze your friends with your knowledge of local affairs. Now some more about the radio.)

The first messages carried electrically through the air were telegraphed, and the system then was known as wireless. Marconi was one of those who helped perfect this great invention. But before we tell you more about Marconi just a word from our sponsor.

(Make the count test. Take an ordinary newspaper and crumble it in your hands while you count five; one, two, three, four, five; then take the Trinity Standard and crumble it in your hands while you count five, and notice the difference. Now some more about the radio.)

The first wireless signals were sent across the ocean by Marconi in 1901. However, it was a long time from that date until there was a radio set in nearly every home. And here is a brief message for you, while we check the latest information regarding this wonderful invention.

(When you buy the Trinity Standard you buy the best. The paper, on which the Trinity Standard is printed is carefully selected, and in order to get the very best we pay 27 per cent more than the average market price. The ink, too, is selected with the greatest care, and is mixed with vitamins so that when you get the Trinity Standard you get not only vitamins A, B, and C, but the lower case vitamins, a, b, and c, as well. No other newspaper can make that claim. Now more about the radio.)

In the early twenties the first radio sets were marketed. At that time it was customary to sell parts, and in many instances amateurs built their own sets, using earphones, for the loud speakers had not been perfected at that time. In just a moment we will be back with more about the radio.

(Are your hands beautiful, or do they look like misshapen carrots? Does your husband thrill when he sees your hands or does he shudder? Your hands, too, may be beautiful and seductive. Every morning and night just wrap your hands in copies of the Trinity Standard, just as all the movie stars do, and then you too will have beautiful hands, and you will exude glamour like an automobile exudes gas fumes. And now some more about this interesting subject, the radio.)

Ladies and gentlemen, we interrupt our program to bring you a special bulletin. Hitler has just surrendered, the Berlin radio states. Mussolini has denounced the Axis and a peace party in Japan has driven out the militarists and is asking for peace. But now we have some important news from our sponsor.

(The Trinity Standard is only \$1.50 a year, slightly more when sent a distance. Save the wrappers from the Trinity Standard, and when you have accumulated 12 dozen, send them in to the Trinity Standard, and you will receive a lovely bridge pad free; enclose 10 cents for wrapping and mailing.)

And now to become serious, here's something from the Conroe Courier: Short words are always strong words; they explode like bullets. Do you know that the average word in the English Bible, including even the proper names, is composed of less than five letters? Leave out the proper names and the average word wouldn't even have four.

In the 23rd Psalm there are 110 words; 95 are words of one syllable. In the Sermon on the Mount, more than 80 per cent are words of one syllable. In the Ten Commandments, on which are based all the laws of the world, there are 319 words; 233 are words of one syllable; and only 86 of two or more syllables. In Lincoln's Address at Gettysburg, perhaps the greatest in the world, there are 286 words. Of these, 184

HOW YOU CAN KEEP UP WITH THE JONESES

Not so long ago a favorite American sport was "keeping up with the Joneses." The only rule required participants to drive as shiny an automobile, dress as snappy and in every way present as sharp an appearance as the neighbors. This was great for persons with things to sell, but a bit rough on a person's pocketbook.

Now is the time to revive the old game, but with quite different rules. This time you will be setting the pace, not attempting to catch up with the Joneses. Make them get up and hustle to catch you as you go all-out for Uncle Sam. Here are some little things which, if done well and regularly, will put you in the home army front rank.

1. Turn over to the proper authorities all scrap metal, rags, paper, rubber, glass and tin foil.
2. Send books, playing cards, cookies and candy to some man in the service.
3. Make it a smiling farewell for friends or relatives called to the colors.
4. Clean your attic of inflammables, select a refuge room and place minimum fire-fighting equipment conveniently.
5. Take extra good care of woolens and rubber goods, and household articles.
6. Don't hoard anything.
7. Put your family and yourself on a definite health program.
8. Carry packages home to save rubber and paper.
9. Buy as many war bonds and stamps as possible.
10. Participate in civilian defense activities and register as a blood donor.
11. Keep constant check on parts of your car and double up with neighbors in use of cars.
12. Keep your mouth shut so far as the spreading of rumors is concerned.
13. Make "Quiet, please," motto of your household. A war worker may be trying to sleep.
14. Put that extra push in your job. Enough such pushes will pulverize the enemy.
15. Shelve that sourpuss for the duration. Be cheerful.

No, those 15 items would hardly qualify anyone following them for a martyr's monument in the cemetery, a pretty medal, or even your name in the paper. If every family, beginning right now, would make these 15 points "must", however, the combined strength of such a home front army would prove a great force and inspiration for the men at the war front. —San Angelo Standard.

CONSERVATION

Here are a few facts that help explain the importance of the national waste-not campaign: One of our big bombers uses as much as 50 gallons of gasoline when it warms up for the take-off. The amount of rubber needed to outfit just one of our new battleships is enough to take care of tires for more than 3,000 cars. The working plans for a single battleship require 15 tons of blueprint paper alone.

The first popularly elected administration of the Republic of Texas was inaugurated when the first Congress of the Republic met

words are of one syllable; 53 of two syllables; and only 19 of three or more.

There is food for thought in these figures. What an improvement in our writers and speakers, if, like Lincoln, they would give study to the English of the Bible.

And help the USO, won't you? The campaign is now on in Texas to raise funds to supply recreation and comforts for our Army, Navy and Marine Corps. Let's all do our part!

COTTON GARMENTS EMPHASIZED DURING NAT'L COTTON WEEK

In Callahan County the Women's Home Demonstration Clubs planned exhibits of cotton garments to be placed in the show windows of stores in each town during the Cotton Week Celebrating. A review of cotton garments was given in the club meetings during this week.

Rural people of Texas are among the most enthusiastic to celebrate National Cotton Week, May 15-23, because they know the importance of cotton in the economic life of their state and nation, says Mildred Horton, vice director of the A. and M. College Extension Service and a member of the Texas National Cotton Week Committee.

Through the State's 217 county home demonstration and assistant agents, Texas farm families are being urged to emphasize "conservation" of cotton during the observance.

Care of clothing and household cotton is in line with the Victory Demonstrator's war-time pledge which thousands of farm families are making with the Extension Service, Miss Horton says. One part of the pledge is to "take good care of everything I use—food, clothes, furnishings, equipment, etc."

Mrs. Dora K. Barnes, extension clothing specialist, points out that most cotton materials give long life. During National Cotton Week she emphasized materials which require little pressing or ironing such as woven "crinkled" materials and woven sursucker, which will not shrink out of shape with laundering.

Cotton work clothing which is safe, comfortable, and attractive is being recommended to women and girls who are taking the place of men and boys on the farm or in war industries. Some of the crease-resistant fabrics excellent for work clothes are light-weight denims, seersucker and gabardine.

With paper and linen scarce, Mrs. Bernice Clayton, specialist in home improvement, says cottons are being used more widely in the home. She urges homemakers to use unbleached muslin for household purposes, since this will save bleaching and dyes.

In addition, homemakers will soon be asked to limit their bedding supply to four sheets and four pillow cases per bed, so it is important that their bed linens be given the best of care. One sheet contains enough material to make four pairs of shorts for a man in the army.

RECOOKED AUTOS?

Melting down old automobiles "as is" to drain off different metals is the object of experiment being conducted by the Universal Research Corporation of Buffalo. Technical difficulties range from the overpowering problem of separating brass and bronze and aluminum and alloy steel from the melted conglomerate to the comparatively minor, yet hitherto unsolved problem of keeping the tin in bearing metals from getting into steel and ruining it as scrap for subsequent steelmaking. The company will dump old autos, trucks, and other scrap metal from various sources into a big melting pot. The idea of its technicians is to apply heat and pressure, to skim off the refuse, and at certain stages of the "smelting process," to draw off the various metals in progressive degrees of kind and quality.

Student Studies Cow Habits

One example of the thoroughness of the campaign is a letter that accompanied a single door key to a salvage office: "The house belonging to this key has been bombed. Please accept for salvage."

SALT LAKE CITY, Utah. — A student with the patience of Job recently made a survey of a small herd of cattle. He learned that in every 24 hours a cow grazes about 8 hours, spends 12 hours lying down and loafs the remaining 4 hours; the cow's average grazing speed is from 50 to 70 bites a minute, with a top speed of 90 bites.

Mrs. Bill Austin of Abilene was in Putnam Tuesday afternoon for a short time. Mr. Austin is an operator in the Putnam shallow oil field and they lived here for a short time.

Mrs. Ida Rogers has returned from a two or three weeks visit in San Angelo, Big Spring and other places. She was visiting Mr. and Mrs. Vernon Kile at Big Spring and Mr. and Mrs. Pete Jackson at San Angelo. Mrs. Kile and Mrs. Jackson are granddaughters of Mrs. Rogers. She went from Big Spring to Artesia, New Mexico, visiting with Mr. and Mrs. W. G. Rogers, from Artesia to Cloudercroft and there to Redosa. Mr. and Mrs. Kile of Big Spring accompanied Mrs. Rogers on the trip. Mrs. Rogers stated a nice time and seeing lots of beautiful scenery and plenty of snow on the trip.

Great Britain is seeing to it that every last small article is put to use. Milk-bottle caps go back to the milkman; left-over food is collected—scraps of paper, rags, bones and metal end up in factories. Worn-out batteries, once useless, now yield brass for uniform buttons, copper for shells, zinc for camp utensils, graphite for machine grease.

Wrecked ships and cars give 1,000 tons of scrap a week. One rich source of salvage metal: bombed sites. Last year \$4,000,000 worth of metal came from them. The London transportation board is saving 480 tons of paper this year; they've reduced ticket thickness by .004 of an inch. Children are collecting wisps of sheep's wool that get snagged on hedges and fences and are turning them in.
