

### From The Editor's Window

BY MRS. J. S. YEAGER

In reading through the magazine West Texas Today, we note the deaths of thirteen prominent West Texans during the month of January.

In this number we find a pioneer minister, at least two bankers, two or three merchants, a lawyer, oil operator, newspaperman, rancher, Internal Revenue agent, salesman, and a civil engineer—all useful men in their chosen fields of endeavor, and we feel that West Texas is much poorer by the passing of these enterprising men off the stage of action at this time.

Men of sound business judgment and religion are hard to find and the world is loser as these good men, taken from different walks of life, are called away by One who knows best and according to His purpose.

Those of us left behind can only bow our heads in humble submission and say, "Thy will be done."

March 2 is Texas Independence Day. The Declaration of Independence, as a document, was written by George C. Childress, a delegate from Red River.

There were fifty-eight signers of this document. Among them was a Canadian, a Spaniard, an Englishman, a Scotchman and an Irishman, but most of the signers were from our own southern states—eleven from the Carolinas and two were native Texans.

This Declaration of Independence was patterned after that of the United States and is therefore a wonderful document well worthy of our careful study and consideration.

According to The Furrow, "A bill was introduced in Congress in 1891 to appropriate six million dollars to establish rural mail delivery in the United States, but failed of passage. Between '93 and '96 a total of \$40,000 was appropriated, and in '96 this money was used to establish the first experimental R. F. D. from Charleston, Uvilla, and Halltown, West Virginia. Five carriers were paid \$200 a year each."

A wealthy man, intent on matrimony, told his friend one day that he was 60 years old, and he asked his friend, "Would it be better if I told a young lady whom I'd like to marry, that I am only fifty?" "I'll be perfectly frank with you," his friend replied. "Your chances would be better if you would tell her you are seventy-five."

Harry: That's just the way it happened. I woke up one morning and found myself famous.

Jerry: It was different with me. I found myself famous and then I woke up!

J. L. Lancaster, president of the Texas & Pacific Railway, has announced that his company is preparing to place orders for new, lightweight, streamlined passenger trains for operation as soon after the war as materials and equipment can be obtained. Present schedules will be considerably shortened by the new service.

Cabbage and carrots will probably taste better to all of us now that the price is going higher.

Not so with onions, which are not keeping pace in price hikes, according to a report, although unfavorable weather conditions in Texas may result in a nine per cent slump in acreage.

The spinach crop seems to

### CANNING SUGAR REGISTRATION TO BEGIN MCH. 5

Putnam housewives should watch for registration on sugar for canning purposes, which will be between March 5th and 31st. The forms for canning sugar are going to be complicated, with amount of each allowance worked out by a formula.

The eight months period has been set up for registration for the canning sugar and applicants can register anytime from March 5th to October 31st.

Four new gasoline ration coupons will become valid March 1st, according to announcement. B-7 and C-7 stamps will be good for five gallons of gasoline each. E-3 stamps will be good for one gallon for household use and B-3 stamps will be good for five gallons for non-highway use.

The OPA has announced there will be no stamps invalidated on that date but after the first of the month applications will be filled with the new issues.

### Public Debt Limit Will be Raised to \$300,000,000,000

Congressional leaders are planning to introduce a bill in Congress raising the debt limit to three hundred billion dollars. This will be a raise of \$40,000,000,000 from the \$260,000,000 that was set about a year ago. The debt now stands at \$234,000,000,000. A month before Pearl Harbor it was \$55,000,000,000.

Representative Tabor of New York, ranking Republican on the appropriation committee said a conservative estimate would be that it would take 30 to 40 years to pay the debt, once federal spending ceases to exceed income. He told a reporter "we will get back to normal when the people wake up." All kinds of schemes, including the plan to lend \$60,000,000,000 to foreign countries to help promote jobs in this country. It is doubtful if the debt stops under four hundred billion dollars before this war closes which will equal \$2900 plus per capita.

### ENNIS QUALLS SELLS FARM TO ELLISON PRUET

Real estate continues to change hands in the Putnam vicinity. Ennis Qualls sold his farm, about five miles north of Putnam last week to Ellison Pruet. The farm consisted of 160 acres and consideration was around \$50 per acre.

Mr. Qualls stated Sunday he would have to give possession by the 1st of August. He said his plans now were to go to Colorado as soon as he gave possession of the farm to Mr. Pruet.

### REGISTERED JERSEY HEIFERS USED TO INCREASE MILK HERD

Earl Milliorn, a farmer living in the Eula community, recently bought two registered Jersey heifers that will be used to improve and increase his registered breeding stock.

Within a week after buying the two cows, a Jersey heifer and bull calf was born. Joe Ross, Mr. Milliorn's oldest son, and a member of the Eula 4-H club, will probably want to show the two cows in Abilene next Fall.

Mr. Milliorn plans to make available to people in his community and the county, registered Jersey breeding stock in the future.

be on the decrease this year also.

J. S. YEAGER, Putnam, Texas

### 42nd. DISTRICT COURT CONVENED MON. MORNING

The 42nd district court convened in Baird Monday morning. This is the first term for Judge Black and Thomas E. Hayden in the Baird court. They were both on hand and appeared to be old hands at the business. However, there was only one thing done, that was to empanel the grand jury, which was done by selecting B. L. Russell as foreman and A. B. Hutchison of Putnam as secretary.

There will be no business coming before the court before Monday, March 5th, when the roll on the docket will be called and cases reset for hearing. The grand jury is not expected to have very much work. Two or three burglary cases to be investigated and other minor cases about over the county.

### Entries Being Made in West Texas Ssok Show

Entries are being made in the annual West Texas Boys Livestock Show to be held in Abilene, March 5-6, and indications point to many entries in the show from the 14-county district.

There had already been entered the first of the week a total of 45 capons, 42 calves, 27 pigs, and 68 lambs and more entries were expected this week, following completion of a number of county shows during the past few days. J. L. Moore, Abilene vocational agricultural teacher, will be superintendent and Elmo Cook, Taylor county agent, assistant.

The Taylor county show is to be held in connection with the 14-county district show, and entries in that event will be judged the opening day. A sale is to be held in connection with this year's event.

### Clyde Drug Store Robbed Saturday; No Arrests Made

The Clyde drug store owned by John Bailey, was robbed some time Saturday afternoon between 2 and 2:30 o'clock p. m. Police reported to have found \$247 in cash supposed to have been taken from the drug store in Clyde. Bailey told police four persons unknown to him came into the store and while the employees were occupied elsewhere, took the cash drawer from the safe which had been left open.

The group of four, two men and two women, were seen leaving Clyde in a blue Pontiac sedan, license number unknown, going west. The only description was the car had damaged fenders.

One of the women was described as being tall, with red hair, believed to have been died, and the other woman being described as being low, heavy set, and wearing a brown slack suit. It is said no description of the men were given.

### INCOME TAXES MAY BE MADE ON FORM 1040

In regard to income tax reports must be made out prior to March 15th. The law only required farmers and ranchers to make reports before January 15. Most wage earners with income less than \$5000 will use their withholding receipt as 1944 income tax returns because it is easy to make out.

If your income was \$5000 or more, or if you claim deductions amounting to more than 10% of your income, you must use the long form return on Form 1040. "Deductions are allowed for certain kinds of taxes, interest, contributions, losses from fire, storm and theft and extraordinary medical expenses."

While comparatively few under \$5000 wage earners with unusually large deductions can save tax money by using the long Form 1040, a vast majority will pay less if they use the withholding receipt on the short form 1040. That is because the two simplified forms automatically provide deductions amounting to about 10% of income.

On the long form you may itemize and claim all allowable deductions. So if they amount to more than 10% of your total income, probably you can reduce your tax by using the long form. If they are less than 10% of your income, you probably can save money by using the withholding receipt or short form 1040.

### Nancy Phillips Former Reporter Writes a Friend

From the Abilene Reporter-News: Now comes a note from Nancy Phillips, another former Reporter-News staffer, whose witticism is pretty well remembered around the office. She writes, "My friend, that was a nice bit of bull propaganda you put out. All the bulls we have down here are in the Legislature."

Nancy, now a staff member of the American Statesman at Austin, says that Brooks Peden, local writer on leave to Uncle Sam's Air Corps, writes that he is getting along fine in India, and that Girthie Jones, another Reporter-News staffer and captain in the quartermaster's corps, is making it OK in the South Pacific.

### MISS NALDA LOWRY A MEMBER OF BETA MU KAPPA, ABILENE

Another Putnam girl honored. Twenty-five students of Hardin-Simmons university have been initiated as new members of Beta Mu Kappa, better music fraternity on the Hardin-Simmons campus.

Among those being initiated was Miss Nalda Lowry, daughter of Mr. and Mrs. U. L. Lowry of Putnam. Miss Lowry is a freshman in the university and she is also a member of the university chorus.

### Schools Receive \$3 on Per Capita On Apportionment

The public schools of Texas received a school apportionment remittance last week aggregating \$4,464,561, or \$3 for each of the 1,438,137 enumerated scholastics, it was announced by the State school Superintendent L. A. Woods.

With this payment a total of \$14 per scholastic has been paid to date on the \$25.00 apportionment for the school year 1944-45. The schools also received some \$6,000,000 or \$4 per pupil supplemental payment out of the preceding year's surplus, to make a grand total of \$29 for each child this scholastic year.

On a basis of \$29 per capita the Callahan county schools will receive approximately \$85,000 from State funds to supplement the local tax fund for maintaining schools.

### MRS. E. H. GILMORE ENTERTAINS FRIENDS AT EVENING DINNER

Mr. and Mrs. E. H. Gilmore entertained at their home on Saturday 17th, with a tamale supper. Those enjoying the afternoon were the host and hostess, Mr. and Mrs. C. K. Odom, Mr. and Mrs. Raymond Demere, Mr. E. L. Gilmore, Mr. and Mrs. Don Gilmore, Miss Maxine Crockett, Betty Gilmore and David Gilmore.

### TREATED COTTON-SEED PRODUCES A HIGHER YIELD

College Station—Treating cottonseed chemically before planting the 1945 crop is good insurance for increased yields and income for growers and greater production of cotton and cottonseed products needed in the war, says E. A. Miller, agronomist, Extension Service, Texas A. & M. College, in a statement released by the War Cotton Production Committee of Texas.

Miller said Texas Agricultural Experiment Station tests show cotton yields were increased by seed treatment by averages ranging from 4 per cent at the Lubbock Station up to an average of 25 per cent at College Station. Increases varied from year to year, depending on soil conditions.

In recent tests at the Temple Station several chemicals gave good results, Miller said. Increased yields as high as 204 pounds of seed cotton per acre were obtained with an expense of only about 10 cents per acre for the chemical.

Cottonseed for planting may be treated with a commercial treating machine, or in a tight container such as an oil drum, with a tight-fitting lid, arranged so the container can be revolved on an axis. Directions on the container of the chemical should be followed closely.

See your county agent for more information on treating cottonseed.

## Putnam Independent School Made Larger by County Board

### BENTON J. PRUET FROM PUTNAM LANDED OVERSEAS

15th AAF IN ITALY—Cpl. Benton J. Pruet, 19, son of Mr. and Mrs. H. A. Pruet, Putnam, Texas, has arrived overseas. He is assigned as a B-24 Liberator gunner with a heavy bombardment group which has flown 400 combat missions.

This group, commanded by Colonel Theodore Q. Graff, Ada, Ohio, is based in southern Italy. It has been awarded three Distinguished Unit Citations; the most recent citation was awarded for the successful attack against the oil refineries at Bratislava, Czechoslovakia in June, 1944.

Cpl. Pruet enlisted in the army in December 1943 and, after completing gunnery training, received his wings at Tyndall Field, Fla., in September 1944.

He wears the Distinguished Unit Badge and the European-African-Middle-East Theater ribbon.

### Mrs. Jack Cabiness Passes Away Tuesday Evening, Feb. 20th

Mrs. Jack Cabiness, a sister to Mrs. Fred Cook of Putnam, and daughter of the late Mr. and Mrs. R. A. St. John, died in the Graham hospital at 11:20 Tuesday evening after an illness extending over a period of more than a year.

Mrs. Cabiness was born in Cisco March 10, 1901, graduated from Cisco high school and later taught in the public schools. She was a member of the Baptist church, joining at the age of 13, and married to Jack Cabiness on August 27, 1927. She and her husband lived at Hobbs, New Mexico for a number of years, moving back to Midland, Texas about two years ago.

Funeral was held at the First Baptist church in Cisco, Wednesday afternoon at 4 o'clock p. m. with the Rev. O. L. Salvage, the pastor, officiating. Burial was in Oakwood cemetery after the funeral.

Survivors, all present at the last rites, were the husband, three brothers and two sisters, Roscoe St. John, Ralph St. John, Abilene, Will St. John, Dallas, and Mrs. Walter Hayden, Dallas and Mrs. Fred Cook, Putnam.

Pallbearers were George Fee, Nick Miller, George Adkins, K. N. Greer, George Boyd and Alex Speers. W. Frank Walker directed the hymnal service at the church. Thomas Funeral Home were undertakers in charge.

### 91.4 PER CENT OF TAXES PAID BY FEBRUARY 24

Mrs. T. W. Briscoe, assessor and collector for Callahan county, reports this year the best since she has been in office from the point of taxpayers coming in and paying taxes early. She says up to Saturday, February 24, that 91.4% of all taxes had been paid as compared with 88.4% to the same date last year. This is a high rate of collections. There are two reasons for this, by paying early, the taxpayer received a small discount and another reason is that everyone has more money than usual. A few years ago everybody paid with a check but most people just count out the cash to you wherever you meet them today.

George Kelley was in Putnam looking after business interests Tuesday afternoon.

The following school districts were added to the Putnam Independent School District by action of the Callahan County School Board Friday, February 16: Zion Hill, Colony, Erath, and Hart. This addition will insure the school children living in this consolidated school, a fully affiliated and accredited school for all time to come.

A better transportation system can be worked out since these units have been added. The State will pay \$3.00 per month for both elementary and high school pupils for the next session in this unit, whereas the State has not offered any transportation in school districts not attending a school within our own county. Hart and Colony will gain by this action of the board approximately \$120 per month each for 9 months. The consolidated unit will gain \$3,600 for the 1945-1946 session by transportation money alone.

Since we will be permitted to add more teachers, the State will grant us more State aid.

If we had this unit in operation at present, the State would pay us \$4.00 per month per pupil for the next four months. This action was made possible at the same time the teachers salaries were raised by the bill recently passed. These are some of the reasons the State Department of Education and the county school boards are readjusting the school districts throughout the state. In due time even the tax rate can be lowered and this alone is no small item.

A broader field of credits may be offered our children under this new consolidation. Vocational agriculture, shop work for our boys and public school music will aid the school interest for both our boys and girls. It increased number of our enrollment will insure us one of the best lunch rooms in this part of the county. The Putnam school board and our patrons are behind this movement.

This consolidation was made possible by the State Department of Education; data was received from the department pointing out the steps to be taken in this consolidation. Other districts have been consolidated by this plan and validated by our State laws. This added territory and the other adjacent districts we hope to annex, will make this unit one of the best consolidated districts in the county.

R. LEE SNIDER Supt. Putnam Schools.

### Draft Law Would Draft Men and Force Then to Join Union

Without going into the merits or demerits of the labor draft, the shock-fact is that under the proposed law, after a man has been drafted he will be forced to join a labor union before he could work in a war industry. As the Portland Oregonian very pointedly points out, the measure "should be called the fight or join the union bill, though of course there will be the alternative of going to jail."

Is the Federal government to become the official recruiting headquarters for the labor unions? It will be a terrible blow to personal liberty in the United States when Congress passes a law drafting a person and then penalizes the person by forcing him to join some private organization and paying dues before he is permitted to go to work in a defense plant that he is being drafted to work in against his wishes in compliance with a government order.

## Farmer's Friend

By GEORGE S. BENSON  
 President of Harding College  
 Searcy, Arkansas

## Looking Ahead

TWO Southerners sat near me in a crowded day-coach recently and carried on a heated and revealing conversation. Both men were farmers, but their similarity ended there. They were not at all alike. One seemed to be about 70 years old. He spoke with a soft "Deep South" inflection. He had attended college, was well dressed and had lived in several big cities.

The other man was nearer 30, spoke with the accent of the delta country and was obviously a dirt-farmer with limited schooling. The conversation was about rice. The older man insisted that rice was not grown in Arkansas. "It would be so foolish," he said scornfully, "so long as Asiatic labor is cheap there will be no money in raising rice in this country."

Priced WORKERS in the Arkansas rice fields are relatively well paid, as farm wages go. They earn more than cotton choppers and pickers; draw wages more like a California orange grove worker. Just the same, Arkansas rice is priced right. Our grocers could ship it to Japan in normal times and sell it there at a profit in competition to Chinese rice, Coolie raised.

It sounded quite familiar when the cultured gentleman-farmer explained, "The biggest part of the cost of anything is labor." The statement was made often a quarter of a century ago, and used to be almost true. But America's volume production by

machinery has disputed the idea with success for years; longer than the younger man could remember. Rice in Arkansas, a new industry, is tooled up well.

Better THAT is exactly why wages our rice workers are well paid. They produce a lot of rice per man. With modern tools, an American can produce 50 times as much rice as a China boy with a heavy hoe. Allowing liberally for machinery expense, he can earn 30 times as much as the Chinese, and does. But the rice costs less per bushel and can profitably sell for less. That's America.

Shorter hours and higher wages for people who work, lower prices and better merchandise for people who buy, universally are popular ideas. The same people want all four, because working people buy the biggest part of everything that's sold. Strange, but all four of these benefits come from the same source (investment) which is not a popular idea.

Good equipment costs something; investment. With good equipment, workers increase production per man and get their pay raised, also increase production per day — or per acre. It shows the investor a profit. Good equipment also increases the available supply and thus lowers prices. What America needs, not to mention China, is to encourage investment.

FOR SALE — Good well equipped shoe shop for sale. Good location with a nice business. Reasons for selling. Call at the News office, Putnam,

If you cannot come to see us we will be happy to send you our price list. Star Hatchery, Baird, Texas.

## Ranchers Looking To Texas for Good Feeder Steers

Bryan, Texas — Ranchers of the Southeastern states are looking to Texas as a source of good feeder steers and as a source of foundation bulls and females for starting registered herds, B. J. Baskin, Texas farm products agent for Tennessee Coal, Iron & Railroad Company, reported here today.

Numerous sales have resulted from contacts between Texas and Southeastern breeders, made through T. C. I.'s farm products agents, according to Baskin.

Explaining the unique service rendered Texas farmers and ranchers by the farm products division of this southern U. S. Steel Corporation subsidiary, Baskin said: "Ranchers and farmers of the South are heavy users of steel. T. C. I., the South's largest producer of steel, today is developing a program in Texas aimed at aiding these citizens in their own production and marketing efforts."

"For many years, T. C. I.'s farm products agents have sought to make the South's crops and livestock more marketable through better quality. And for many years, the farm products agents have been locating markets for those better crops and livestock."

Baskin said ranchers may, if they desire, list with him the breeding stock they have for sale, adding that his organization is always ready to assist buyer and seller in contacting one another.

Baskin, a former county agent, was born on a farm near Cameron, Texas, and graduated from Texas A. & M. College. His headquarters are at Bryan.

## South's Cotton Crop Billion Dollar Industry

Corpus Christi, Feb. 27. — Cotton's problems are disguised opportunities and we should be encouraged and confident in viewing the present situation of the crop which is a billion dollar farm enterprise and supports a ten billion dollar industrial superstructure, President Gibb Gilchrist of the A. & M. College of Texas today told businessmen and farmers at a meeting of the Corpus Christi Lions Club.

Gilchrist said problems to solve in behalf of cotton are an economic tonic and build strength in our cotton structure put as physical exercise builds muscle in our bodies.

"As Texans, you and I cannot escape the influence that the future of cotton is going to have on our lives," he said. "Isn't it smart—essential—for each of us to do our part in helping to make that future more secure? Don't we owe it to ourselves, as well as to our farmers and our State, to make our best 'pay crops'—cotton—more productive and profitable?"

Gilchrist outlined agricultural and engineering developments that are aiding the efficient production and utilization of cotton and cottonseed and pointed out that technical or engineering research has provided markets for products of the cotton plant more diverse than any other agricultural commodity on earth.

The speakers committee of the War Cotton Production Committee, statewide organization to aid efficient cotton production, arranged the program for the meeting here.

## Strongest Human Instinct is the One to Meddle

This has been clipped from one of our exchanges, but it comes so near being correct, we are passing it on to our readers: "One of the strongest human instincts is the instinct to meddle. If we see someone unravelling a knot in a piece of string, we say, 'Here, let me do that.'"

It is hard for parents not to meddle in things that children can do better for themselves. It is hard for business executives to let employees do

things their own way. It is hard for governments not to take over the private affairs of citizens.

It isn't so much a desire to help as a craving to meddle which is behind the yen of politicians to get more control over lives and businesses of American citizens.

But children and employees and citizens of a nation never amount to a darn unless they are given responsibilities and a free reign to exercise initiative. Encourage them, then don't meddle."

## POSTWAR PLANS TO COOL & HEAT WITH 1 MACHINE

According to an announcement by G. K. Marshall, air conditioning engineer for the

General Electric Company, it will be possible to use the same apparatus for heating homes that are used to cool them and he thinks it will be done in a very short time.

Discussing new business adventures that may furnish new post war jobs and new products as a result of industrial research, Mr. Marshall pointed out that refrigeration equipment produces its effect by extracting heat from air and permitting the cold air to lower temperature of an enclosed cabinet. The heating unit would pipe the heat through the house after it was extracted from the air for refrigeration.

Emphasizing the greatly increased output from such a unit, he said that at 52 degrees Fahrenheit, it will provide four times as much heat

as was available in the electricity consumed in the operation. Under certain conditions it will deliver 116 per cent of the heat in the fuel burned to supply energy, compared with about 34 per cent for the best steam generating plants.

As time goes on, even more efficient equipment of this nature may be developed," declared Mr. Marshall. "It is not possible to imagine that such installations may be required just from the point of view of conservation of our natural fuel resources."

**NOTICE, CAR OWNERS**  
 Please remember to present your Certificate of Title for car registration. Those with Out-of-State Titles should register early because application for Texas Title will be necessary. License tag must be on car by April.

### Personal Mention

Mrs. Roy Jennings and son, Tommy, of Safford, Ariz. and Mrs. H. J. Nichols of Tucson, Ariz., spent last week here visiting their mother, Mrs. John Pritchard.

Mr. and Mrs. C. A. Churchill of Midland spent the week-end with Mr. and Mrs. Will Brewster. Mrs. Churchill came to spend Sunday, February 25, with her mother on her 75th birthday.

Mrs. Virgie Wright and little son, Dennis, of Oklahoma City, spent the past week here visiting her uncle, Lee Dennis, who has been quite ill, although somewhat improved at this time.

Jerry Lynn Rountree spent the past three weeks in Smithville as the guest of Mr. and Mrs. Mike La Bella.

Mr. and Mrs. Charles B. Chaney

and family of El Paso visited relatives and friends in Moran last week.

Rev. G. C. Alexander of Abilene visited here last week in the home of his son, W. C. Alexander and family.

Miss Katherine Freeman, teacher in the Ballinger school, spent the week-end here with her parents, Mr. and Mrs. W. M. Freeman.

E. S. Burton of Texline is visiting his sister, Mrs. Lee Weir, and brothers, Grady, Alton and Jake Burton.

Misses Margie English and Mildred Montgomery, students at State university, are spending a few days between semesters, with home folks. Miss English had as her guest, Miss Jane Stephens of Sierra Blanca, who graduated at mid-term and is enroute home.

Misses English and Montgomery are returning to Austin March 1.

Make this year a better one by getting the right start from the very beginning.

For instance, start a bank account with us if you are not already a patron of this bank and then watch your savings grow!

And don't forget to invest every dollar possible in War Bonds.

### The Moran National Bank

Moran, Texas

Member Federal Deposit Insurance Corporation.

### More Honorable Than The Star and Garter

The American people are notorious "joiners." Social prestige and business prosperity are sometimes more easily attained by membership in fraternal and civic organizations.

The Red Cross roll call offers none of these advantages—it is an organization whose members have associated themselves together for the sole purpose of lightening human suffering.

Here are but three of the things you are supplying when you join this great organization:

1. Surgical dressings for the wounded.
2. Blood plasma, without which many men could not live.
3. Food, clothing, and recreation to those gaunt men behind barbed wire—our sons, and sons of our friends and neighbors.

Can you envisage any other order half so honorable—half so worthy? Dig deep, folks! In this lifetime, no greater opportunity for loving kindness, mercy, and benevolence will be offered you.

West Texas Utilities Company

Miss Carolyn Choate and Mrs. Ezzel Parsons of Baird attended the Baird-Throckmorton game here Friday night and were guests of the former's mother, Mrs. Emma Jean Oyler.

Mrs. Jay Terry returned home Saturday after a week's visit with relatives at Hondo and San Antonio.

Miss Virginia Gurney of Colorado City spent last week here visiting her grandmother, Mrs. M. J. Snider. Her father, Martin Gurney, came Friday and they returned home together.

Mr. and Mrs. Edgar Mashburn of Idalou visited in Moran last week. They have been drilling water wells in Idalou but sold out their drilling rig. They stated the ad they ran in the Leader for the oil field bit which they lost, got results and they had the bit returned.

R. L. Mashburn who spent two weeks as a patient in Hendrick hospital in Abilene, is able to be on the streets again.

With Our Men In U. S. Service

Mr. and Mrs. F. R. Midkiff, parents of Pfc. W. H. Midkiff, who is stationed with the ordnance department in Belgium, have received a letter from him, dated February 1, in which he stated he saw his old friend, Bill Morrison, son of Fred Morrison of Sedwick. The Midkiffs have another son overseas, Charlie who is in England.

Mrs. H. J. Locke has received a letter from S/Sgt. R. H. Baughman who is a postal clerk for his division in Northern France. He advised his APO number had been changed and is the same as Miss Elizabeth Cundiff's, who is a nurse in the General Hospital in Northern France. He expressed hopes he would get to meet her soon. She is a sister to Mrs. John Alexander of Moran. Hub says winter is not so bad there but he seldom sees the sun.

Sgt. and Mrs. M. N. McCarty of Camp Hood are spending his furlough here in the home of her father, Dan Hamilton.

Pvt. James Harold Smith has been in Moran for a visit with home folks and friends for a two weeks delay enroute from Burbank, Calif., where he finished a course at the Lockheed factory school on B-17 Flying Fortress. He is leaving this week for Tampa, Fla., for reassignment.

Mr. and Mrs. J. A. Hagar have received a letter from their son, Pvt. Floyd Hagar, who is in the General hospital in France. He advises that he is doing well enough, except that he still can hardly hear at all. He doesn't know what happened except that he just got to where he could not hear, but expressed hopes he would get fixed up alright. He also said that he and his pal, Floyd Knowles, got separated over there.

**A SURPRISE DOUBLE BIRTH-DAY DINNER**

Honoring Mr. and Mrs. A. W. Warren on their 75th milestone. With Sunday being Mr. Warren's birthday and March 1st Mrs. Warren's, with all their children present, a bountiful buffet luncheon was served at 1:30. The big tiered angel food cake, with all the pink candles, was placed in the center of the table and happy birthday was sung by the group to the honorees.

Mrs. Lillie Bailey called on her father to give thanks, he in turn referred the honor to one of his oldest daughters, Mrs. Dodd. That was very beautifully rendered. Then the candles were lit by the honorees, assisted by their six children, Mrs. Sadie Heslep, Mrs. Effie Dodd, Mrs. Rosa Ryan, Ervin Warren, Mrs. Lillie Bailey, and Oran Warren.

Those enjoying this happy occasion were Mrs. Sadie Heslep and little grandson, Alvin Ray of Rrumwright, Okla., Mrs. Effie Dodd of Dimmitt, Texas, Mrs. Rosa Ryan and son Joe, of Baird, Mr. and Mrs. Ervin Warren and children A. J., Dorothy, Gene, Margrett Ann and Laura Mae, and Mrs. L. G. Bowers of Moran. Mrs. Henry Bailey and children, Eugene, Warren, Evabeth, J. R., and Marjorie of Hart community, Mr. and Mrs. Oran Warren and children, Maricet, Wanda Mae and James Oran of Baird, Miss Genelle Loving, a friend of the family was there.

All reported a wonderful time, and the birthday cake was served throughout the afternoon. Those enjoying it were Jean and Dale Ellis, Miss Evangline Booth, Billy Allen and Miss Rowena Moore, who also was enjoying her birthday Sunday, all from Moran.

This writer wishes with all the rest, many more happy birthdays such as this, in years to come.

**Election Judges Appointed for Next Two Years**

Clyde People  
RECOMMEND TABOR AS POSTMASTER

The citizens of Clyde are recommending Clark Tabor, assistant postmaster for the past ten years, to succeed Raymond Clemer, who died recently after serving as postmaster for the past twelve years.

**Oliver F. Culwell Receives Presidential Unit on Performance**

The following news story regarding Oliver F. Culwell was handed the News by Mrs. M. M. Little: First Lieut. Oliver F. Culwell is a veteran glider pilot with a squadron of the 441st Troop Carrier Group, a unit in Major General Paul Williams' U. S. Troop Carrier Forces. He landed with shock troops in Normandy D-plus-one day, in the Rivera in August, and Holland in September when the first Allied Airborne Army made its battledebut with a thrust at the German flank in the Netherlands. He received a Presidential Unit Citation for outstanding performance of duty in action against the enemy following these missions.

The Oklahoman is the son of Oliver W. Culwell of 127.5 Knoblock St., Stillwater, Okla. and is a graduate of the Putnam high school. He entered service in October, 1939, and commenced training as a glider pilot in August 1943. In April 1940 he received his wings at Victoria, California, and after various training assignments in the United States, was sent to England early in 1944 to participate in pre-invasion maneuvers with his squadron.

**S. A. RIBBLE, CLYDE, EXPERIMENTING WITH REGISTERED GOATS**

Mr. S. A. Ribble, living approximately 3 miles south of Clyde, has 11 head of register-

ed milking goats of the best breeding possible. Some of his nannies have produced as high as 2 3/4 gallons of milk daily. Mr. Ribble plans to install equipment that will qualify him as a grade A milk producer. In addition the increase in breeding stock will be used to increase his herd and to make available to the public registered milking goats.

**Lt. James Ashlock Awarded Air Medal On His Achievements**

First Lt. James L. Ashlock, brother to Jack Ashlock of Baird and a former resident of Baird, has been awarded the Air Medal for meritorious achievement while participating in bomber combat operation over Germany and enemy occupied territory.

He is a member of the 91st Bombardment Group, veteran heavy bomber unit of more than two years service in the European theatre.

Thomas E. Morrison who has been in the service for about a year, was in Putnam this week mingling with old friends here. He has an honorable discharge and will not return to the service. He was in California most of the time while in the service.
