## EDITORIAL

That Americans are inclined to be too complacent about the defense strength of our country is an accepted fact. Pearl Harbor was an outstanding example of our carelessness in that regard.

We are a peaceful nation, want nothing in the way of territorial aggrandizement and therefore feel that there is no reason why any other nation should attack us.

We read with mild interest, but no sense of personal concern, of the "iron curtains," the oppression of small nations at the hands of European dictators, the activities of fifth columns, and shrug it off

"Oh well, it can't happen here." Well let's see whether it can or

Igor Gouzenko, the former Soviet cipher clerk in the Russian embassy in Ottawa, Canada, whose disclosures of Soviet espionage in an effort to obtain the secret of the atom bomb rocked the world, states the case clearly and succinctly in an article which he wrote for the March issue of Cosmopolitan maga-

# YOUR MONEY GOES F. I FASTER in Today's Food Market

% INCREASES of Retail Prices over Base Period 1935-1939 SHADED AREAS INDICATE % INCREASE SINCE MILK +695% JANUARY 1947 Meats +130!% ир 265%

Figures released October 1 by the U. S. Bureau of Labor Statistics show graphically why it is increasingly difficult for the housewife to stretch her food dollars so she can give her family three meals a day that are nutritionally sound. The National Dairy Council points out that milk prices have been relatively steady over the nation, and have increased 37.0 per cent LESS than the average for all foods since 1939 and 23.2 per cent LESS than the average since the first of this year. Hence milk, in addition to being nature's most nearly perfect food, actually leads the food field as the housewife's most economical buy.

Value? Only a parent can tell you. Cost? Uncle San allows a \$500 income tax exemption to cover a year's board and keepa parent has ideas on that too!

4 small things of great value

Value? What else gives you so much for so little as electricity? It lights, heats, cools, cleans and entertains; saves you time, work, money. Cost? A few cents a day!

Value? Ask any doctor the value of radium-or a patient whose life it has saved. Cost? A single ounce would cost you around \$700,000—if you could buy that much all at once!

Value? You can measure a diamond's value only in a woman's eyes. Its cost? About \$900 for a goodquality, one-carat stone . . . and it takes more than 140 carats to make one ounce!
