Another provision of the new law gives additional increases to veterans training as employees on other persons farms. Only wages for the standard work week, exclusive of overtime pay, are considered earned income in computing subsistence under the raised ceilings. Previously, veterans included pay for all regularly scheduled overtime work in reporting their earned incomes.

Veterans taking institutional onfarm training under the GI Bill and Public Law 16 may be paid subsistence increases for that time they devote to institutional school training. The increases are based on the percentage of a full-time course of institutional training that their school work represents. No increases will be allowed for veterans whose institutional school work is not the equivalent of at least one-fourth of a full-time course

The first adjustments will prob ably be in the August 1 checks, retroactive to April 1.

HIS IS AN ANAGRAM. The four scrambled words tell a well-known truth these days of scrambled budgets.

You may have to do a little figuring to discover that it says: "ELECTRICITY IS A BAR-GAIN"-but it doesn't take much figuring to realize what a great bargain your electric service really is!

Your pocketbook tells you that living costs have sky-rocketedthat nearly everything costs more nowadays. But not your electric service! The average family served by the West Texas Utilities Company still gets twice as much electric service for its money as it did 20 years ago!

Check your budget and ask yourself what other item does so much to make life easy and comfortable -at such little cost!
