Boys Join New BSA Units

SPAG Awarded Planning Grant

AUSTIN — South Plains Association of Governments, Lubbock, was one of 26 regional and metropolitan area planning councils awarded criminal justice planning grants for fiscal year 1973 by Governor Preston Smith today. Amount was \$29,200.

The awards, totaling \$793,718, will come from the Criminal Justice Council, which oversees statewide law enforcement planning and administers funds from the U.S. Department of Justice for crime control projects in Texas.

The South Plains grant will be used in implementing action projects outlined in previous plans and in updating the comprehensive five-year criminal justice plan for the 15 counties of the South Plains State Planning Region.

Early in 1972 SPAG realigned the multi-year criminal justice program for the region to keep pace with other developments and updated priorities for the regional criminal justice plan.

Programs receiving emphasis include law enforcement training and communications, and other dealing with courts, juvenile delinquency and probation.

SPAG furnishes professional criminal justice planning services to each local governmental unit in the region's 15 counties and serves as a regional clearinghouse.

These counties are Bailey, Cochran, Crosby, Dickens, Floyd, Garza, Hale, Hockley, King, Lamb, Lubbock, Lynn, Motley, Terry and Yoakum.

The region's cash contribution to the criminal justice planning effort will be \$3,244.

Immunization Clinic Set

The monthly Immunization Clinic will be held in the Health Unit Office, Courthouse Annex, Wednesday, June 28, from 1:00 to 4:00 p.m.

The immunizations offered will be polio, measles, diphtheria, whooping cough, and tetanus.

Records are not available on clinic day.

To Hold VBS

It was announced this week that the Ropesville Church of Christ will hold its annual vacation Bible school from 9 to 11 a.m. daily June 19 through 23. All children in the community are invited to attend.

Sixteen new units have been registered in the South Plains Council, Boy Scouts of America, during the last 5 months, according to Lloyd Davis, chairman of the council organization and extension committee.

The Boy Scouts of America makes its program available in partnership with existing groups that have compatible goals, including religious, education, civic, fraternal, business, labor, and governmental bodies, Davis said.

New units are Pack 120, Evans Multi-Service Center, Slaton, Texas; Post 330, Group of Citizens, Floydada, Texas;

Troop 488, McWhorter School Community Parents, Lubbock, Texas; Troop 525, Mae Murfee Elementary School PTA, Lubbock, Texas; Troop 515, First Methodist Church, Shallowater, Texas; T-520, Church of Jesus Christ of Latter Day Saints, Third Ward, Lubbock, Texas; Troop 512, Western Parents Group, Lubbock, Texas; Pack 638, Rotary Club of Littlefield, Littlefield, Texas; Post 681, Radio Station KLVN of Levelland, Levelland, Texas; Troop 674, St. Paul's Lutheran Church, Levelland, Texas; Post 804, First National Bank, Lubbock, Texas; Post 808, Lubbock County Soil Conservation Dis-

trict, Lubbock, Texas; Post 461, Class No. 8 Broadway Church of Christ, Lubbock, Texas; Post 427, Our Lady of Grace Catholic Church, Lubbock, Texas; Ship 106, Group of Citizens, Lubbock, Texas.

Davis explained that the BSA offers to boys an effective program designed to build desirable qualities of character, to train in the responsibilities of participating citizenship, and to develop in them personal fitness.

Scouting with its fun and adventure offers advancement skills, involvement in decision making, and Scouting

ideals that are a personal challenge," he said.

"Scouting helps in the development of citizens who have a high degree of self-reliance and who have personal and stable values firmly based on religious concepts," Davis said. "Scouts learn how to have the desire and the skills to help others, and they have an opportunity to understand the principles of the American social, economic, and governmental systems. They take pride in their American heritage, have a keen respect for the basic rights of all people, and are prepared to participate in and give leadership to American society."

Postmaster Flora Martin Retires

On June 30, 1972, Miss Flora M. Martin will retire from the United States Postal Service after 34 years and 5 months of service.

She began her Postal career February 7, 1938 as a clerk, and served in that position until December 29, 1965 when she was appointed acting postmaster, upon the retirement

of the former Postmaster Hattie M. Sims. Miss Martin received her Commission as Postmaster May 26, 1966. The last of May, this year, the Ropesville post office was

awarded a Certificate of Achievement. This was given by the Southern Region and signed by the Regional Postmaster General Carl C. Ul-saker for significant accomplishments in the Environment Improvement Program.

Miss Martin said it has been a pleasure serving the people of the Ropesville and surrounding communities, and she has appreciated the fine co-operation give her. She also stated she has enjoyed her work through the years with such wonderful fellow workers and the association with all the nice people.

Although records are not available for the entire period of Miss Martin's tenure with the Post Office, receipts at the local office have climbed from \$10,252.79 in 1965 when she became Postmaster to a record \$11,203.12 for the last full year 1971. In 1963, she participated in the move from the older, smaller quarters across the street from the present location to the present 1200 sq. ft., air conditioned, central heated building now occupied.

Miss Martin has attended several workshops and administrative meetings as far away as Nacogdoches, Texas in an effort to keep abreast of current practices and give the best possible service to the people of the Ropesville community. Wet hink she has done a very commendable job. We want to wish Miss Martin the best of everything in her future plans and a very happy retirement.

Miss Martin has been notified by her Sectional Center Manager Elmer J. Reed, Jr. that Mrs. Wanda J. Pierce, career clerk of Ropesville, will be sworn in as Officer IN Charge as her successor. Mrs. Pierce is experienced and well qualified to fill the Position.

Two Criminal Justice Action Grants Approved

Two criminal justice action grants to the area served by the South Plains Association of Governments, Lubbock, were among those approved today by Governor Preston

Smith. Total was \$36,687. The money will come from the Criminal Justice Council, which oversees statewide law enforcement planning and administers funds from the U.S.

Department of Justice for crime control projects in Texas.

Lubbock County will receive \$18,488 as second-year funding for its adult probation project, subject to a cash match of \$20,994. The probation project serves Lubbock and Crosby counties with a staff of six officers. The two counties have 805 probationers.

The new grant will enable employment of a job training coordinator and an additional probation officer.

South Plains Association of Governments' application for \$18,199 as continued funding of the regional law enforcement teletype network also was approved.

A previous award enabled law enforcement agencies in in the South Plains region to update transmission equipment from manual to automatic. The new grant will assist 17 subscribers to the system to continue service pending further refinement. Cash match of \$11,735 and in-kind contribution of \$4,482 will be provided.

Counties of the region are Bailey, Cochran, Crosby, Dickens, Floyd, Garza, Hale, Hockley, King, Lamb, Lubbock, Lynn, Motley, Terry and Yoakum.

The two South Plains applications were among 43 for action grants totaling \$1,718,464 considered by the CJC Executive Committee June 9.

8 Accidents Investigated

The Texas Highway Patrol investigated eight accidents on rural highways in Hockley

County during the month of May, according to Sergeant H. E. Pirtle, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed and four persons injured.

The rural traffic accident summary for this county during the first five months of 1972 shows a total of 55 accidents resulting in one person killed, and 37 persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for May, 1972 shows a total of 517 accidents resulting in 25 persons killed and 329 persons injured as compared to May, 1971 with 543 accidents resulting in 23 persons killed and 354 persons injured.

The 25 traffic deaths for the month of May, 1972 occurred in the following counties: Wise, four; Knox and Parker, three each; Gray, two; Briscoe, Carson, Childress, Clay, Dickens, Garza, Hansford, Haskell, Lubbock, Lynn, Ochiltree, Palo Pinto, and Potter, one each.

Watts To Head Junior High

Doyle Watts was named principal of Ropes Junior High at the regular meeting of the Ropes Independent School System board of directors meeting June 12. He will be filling the vacancy created by Fred Satterwhite, who was recently selected to serve as superintendent of the schools.

Other personnel employed were Mrs. Jill Perry, kindergarten; Miss Sandra Richardson, junior high math; and Mrs. Billie Evans and Mrs. John Ream, cafeteria cooks.

Mr. and Mrs. M. H. Wade of Austin visited this past weekend with their daughter, Mr. and Mrs. Phillip Kimberlin.

They brought Inez' niece, Lavern Odum of San Antonio, to spend some time with the Kimberlins this summer.

Children's Art Workshop To Be Conducted In June

South Plains College will sponsor an Art Workshop for children from June 19 through June 30. Classes will meet from 9:00 to 12 noon daily, Monday through Friday for two weeks in Room 15 of the Fine Arts Building.

Children in the third through seventh grades will be eligible to participate. The youngsters will be given an opportunity to work in more than one type of art media. Mr. Burl Cole, art instructor at South Plains College, will be the instructor for the course.

Registration fee will be \$15.00 and there will be some additional costs for materials. The cost of materials will vary according to the type of media the person wishes to work with. A minimum of fifteen students will be required for the class.

Registration can be completed at any time during the hours of 8:30 a.m. to 4:30 p.m. at the Central Office in the Technical Arts Building at the college.

For further information, interested persons may contact the Office of Continuing Education at South Plains College, Phone 894-4921.

Amy McCarty Gives Program

Amy McCarty, Hemphill-Wells fashion consultant, presented a program in Levelland for the 4-H girls. She showed current fashions, stating the smock is being used in both dress-up clothes and for the casual look. She showed all types of hand bags and said hats were trying to make a come-back.

Those attending from Ropes were Mrs. J. T. Allen and Cindy, Ramona Hamby, Beverly Strickland, Yvonne Sepeda, Mrs. Roy Dopson, Mrs. John Ream and Monica.

After the program the group toured a Levelland fabric store discussing patterns and materials suitable for the pat-

terns.

Actual sewing classes are starting immediately, so if you are 9 to 18 and want to sew, please contact one of the above mentioned people for time and place.

The "Sew It With Cotton" contest will be October 5. There have been some changes in the rules. For example, imported cotton can be used and a new category—Men's Wear—13 and over, has been added. If you plan to enter this contest, get your entry blank from Mrs. John Ream so you will be familiar with the rules before you buy your material.

Winners At Arena Park

Winners at the Arena Park Friday night were:

John Bain—1st in First Heat Race.

Mickey Smith—2nd in Consolation.

Jack W. Keeling of Route 1, Ropes, qualified for the dean's honor list for the 1972 spring semester, according to Dean Anson R. Bertrand. His major is in Crops.

A Big Difference!

Early, bow-shaped harps with four strings weighed less than a pound, while today's 46-string concert harps weigh 80 pounds.

Monica Ream, daughter of Mr. and Mrs. John Ream, attended the circus in Lubbock and spent Wednesday night with Mr. and Mrs. Tommy Powe of Shallowater.

Petty Officer, 1st Class and Mrs. Gordon Haugen (Mary Jones) of Escondido, Calif., are visiting in the home of her daughter, Mr. and Mrs. Albert Kahlich of Smyer. They also visited with Mr. and Mrs. Winston Jones and other friends and relatives in the area.

TIME HONORED

The Montgomery Ward catalog of 1877 told it like it was: "We discontinue the quotations of cheap watches as too much is expected for the money." On the other hand, gold-plated watches were given a 20-year guarantee!

A Weekly Report Of Agri-Business News

Farmcast

Compiled From Sources
Of The Texas Department of Agriculture
John C. White, Commissioner

Crop prospects said Fair . . . Wheat Production Up 30 Per Cent . . . Rural Development Commission Sets Meeting . . . Watermelon crop estimated at 630 Million Pounds . . . 1971-72 Texas Citrus Crop Down 8 Per Cent . . .

Crop prospects for most of the state are now rated as fair by the Texas Crop and Livestock Reporting Service. The coastal bend areas and south Texas sections as well as a portion of the Panhandle have good prospects.

Pasture condition over the state is rated at 77 per cent of normal, compared with 52 per cent last year.

TEXAS WHEAT production is now estimated at 40,700,000 bushels. This is 30 per cent above the 1971 production of 31,416,000 bushels. Yield now is expected to average 22 bushels per acre, up one bushel from last year's average.

Wheat harvest is now more than 25 per cent complete; in the major wheat producing area of the northern high plains, main harvest is now underway.

Cotton is making good progress in most sections of the state, but heavy fleahopper and boll weevil infestation is reported from the Blacklands to the Lower Rio Grande Valley. Grain sorghum is heading out as far north as the Blacklands. Early stands of soybeans are making good progress on the High Plains.

A MEETING will be held June 27 in Austin on the newly created Rural Development Commission of Texas. A staff has been appointed and offices are located in the Texas Department of Agriculture.

The commission is composed of 25 members plus about 80 "resource people" to assist in rural development.

Primary thrust of the commission will be in these areas: economic development, rural natural resources, human resources, general government, transportation, health, housing and education.

Roy Davis of Lubbock is commission chairman. Ray Prewitt, formerly with Texas A&M University, is director. Jim McAlister is assistant director.

WATERMELON forecast for the state is now set at 630,000,000 pounds. This is 21 per cent above the 1971 crop. Harvesting will be underway soon in Central Texas and in East Texas in early July.

THE 1971-72 citrus crop is estimated at 15 million boxes. This is eight per cent below the 16.3 million boxes produced during the 1970-71 season. Grapefruit production at 9.2 million boxes is nine per cent below the 10.1 million boxes of the previous season.

Early and midseason oranges totaled 3.8 million boxes, five per cent below 1970-71 while Valencia oranges at two million boxes were down 9 per cent.

Harvest of the 1971-72 grapefruit and Valencia orange crop in the Lower Rio Grande Valley is complete.

Most growers report fruit set for the 1972-73 crop is good to excellent.

THE HIGHEST cotton acreage since 1965 was planted on the High Plains in 1971. The 177,300 acres planted but not harvested represented an abandonment of slightly more than seven per cent, which is near normal but above the 4.5 per cent abandoned in 1970.

Production was from 2,322,000 harvested acres for an average yield of only 264.4 pounds per acre; average per-acre production on the Plains for a 13-year period since 1958 is 453.6 pounds.

from HISTORY'S SCRAPBOOK DATES AND EVENTS FROM YESTERYEARS

On June 23, 1938, the Civil Aeronautics Authority was created in the United States.

The Soviet blockade of Berlin began on June 24, 1948. Alabama, Florida, Georgia, Louisiana, North Carolina and South Carolina were readmitted to the Union, June 25, 1868.

The United States began the "Berlin Airlift", June 26, 1948. June 27, 1893, was the day a large economic depression began in the United States.

Archduke Francis Ferdinand and his wife were assassinated on June 28, 1914. He was the heir to the throne of Austria-Hungary.

Governor Alfred E. Smith of New York was nominated for the Presidency, June 29, 1928.

Heavy exposure to mercury used in amalgam fillings in a dentist's office in a large South Texas city result in illness reflecting mercury poisoning.

A chemical firm in a large Gulf Coast city had been shut down due to excessive contaminants in the plant. Health officials working with management of the plant helped bring the plant into compliance, resulting in correction of several known health hazards and returning the plant to operation.

Health authorities were called upon to give assistance to railroad workers in reaching compliance with sanitary requirements on their switch engine operations. Chemical toilets and portable water supplies were introduced to the system.

The tuberculosis supervisor at a certain high school in Texas called upon health officials to investigate the ventilating system of the school as a possible transmission media for the disease in the public school.

An oil well logging operation in West Texas inadvertently broke a container of radioactive material used in determining where pockets of oil lie underground. When brought to the surface, the radioactive material unknowingly contaminated several people before the leak was discovered. Six persons were sent to a federal radiation laboratory in Las Vegas to determine extent of internal exposure, several articles of clothing were disposed of, and the company's equipment had to be decontaminated.

A Central Texas resident experienced local loss of hair and stomach disorders as a

result of exposure to thallium, an ingredient commonly used in rat poisons. Upon request of a local physician, health authorities conducted an extensive survey to determine the source of the contaminant.

What do all of these incidents have in common? They were accidents or potential hazards involving the health and well being to which workers were exposed. These incidents are only a small portion of exposures and concerns known as "occupational health." When known, advice and assistance is provided for the prevention and control of the hazardous conditions by health authorities from the Texas State Department of Health, Division of Occupational Health and Radiation Control. Assistance is given to representatives of labor and management alike through investigation, evaluation and advice for the correction of potentially hazardous health conditions.

The very nature of their work creates hazards for some workers. Texas is experiencing a growing concern for these conditions.

Basketball Clinic Scheduled At SPC

Following is a clipping from the Mineral Wells Index newspaper (Halford is a son-in-law of Mr. and Mrs. A. T. Watson):

M-Sgt. Charlie E. Halford Sr. arrived at Love Field, Dallas, at noon Wednesday for a 30-day leave after an eight-month tour of duty in Vietnam. While there he was in charge of the NCO and Officers Club in Bien Hoa. He was welcomed home by his wife Ella and children, Charlie Jr., Jimmy, Glen, Sherry and Anita. The Halfords live at 2002 SE 23 Ave.

South Plains College will hold a two-week Basketball clinic for boys on July 10 through 21. Any boy who will

be in the fourth, fifth, sixth, seventh or eighth grades at the beginning of school in the Fall of 1972 is eligible to

participate. Boys will be divided into groups according to their grade level in the public schools. Each boy will receive one hour's instruction each day for ten days. Fourth grade boys will meet from 8:30 to 9:30 a.m.; fifth grade from 9:30 to 10:30 a.m.; seventh and eighth grades from 11:30 a.m. to 12:30 p.m. All sessions will be held in the Women's Gym on the campus of South Plains College. Mr. C. W. Dukes will be the instructor and supervisor of the clinic. As each group will be limited to twelve boys, registration will be received on a "first come, first serve" basis. Registration can be completed at any time between now and July 10 at the Central Office of the Technical Arts Building. Total cost of the clinic is \$15.00. Boys will need to furnish their own tennis shoes and gym clothes. The clinic will emphasize the basic fundamentals of basket-

ball; included will be instruction in dribbling, passing, seeing, shooting, defense, offense and rebounding.

For further information, contact the Office of Continuing Education at South Plains College, Phone 894-4921.

Attention Brownies, Girl Scouts

We will go to Lubbock Tuesday, June 27, to a Lubbock Little Theater park production.

Meet at the Community Building at 6:30 p.m. We will return to the Community Building at 9:30 p.m. Bring 25c for refreshments.

The Rev. Claude Northcutt filled the pulpit at the Church of the Nazarene Sunday.

Home High Lights

By Jewel Robinson

"When unloading the grocery bag, do you make a mental note of how long the hamburger will safely keep or how many days before the bread will become stale?"

Rutgers University study has examined all major retail food categories and has made recommendations on the length of time products retain their quality and the types of date labeling that assure the consumer of good quality foods.

"From one shopping trip to the next, groceries are exposed to varying sanitary conditions and temperatures before being purchased." "Even the techniques used in processing and packaging food items can affect their preservation."

Potato chips become stale and rancid within a week in one type of wrapper yet will still be fresh four weeks later in another type.

"The Rutgers study recommends that ground beef packages show the date and time of wrapping." "The meat should be sold within 24 hours of wrapping and should bear labels that advise consumers to either cook or freeze the meat within 24 hours of purchase."

According to the report, bread and milk should be tagged with the date of display. This practice should help the retailer in stock rotation and the consumer in home use.

The study also suggests that

expiration dates (indicating the end of the product's freshness or usable life) and retail pull dates (showing the last day the store may sell the item) be omitted.

"Temperatures at which the food is stored, sanitary conditions under which it was prepared and shipped plus other factors are more important in determining shelf life than age alone." ++ For example, age alone." "For example, milk processed under borderline sanitary conditions may be 'fresher' but not up to the quality of older milk prepared under higher standards."

Ice cream, to retain top quality, should be kept at a temperature of minus ten degrees and never above zero, the study indicated. Disease-bearing organisms don't grow at temperatures below 32 degrees but deteriorations will occur in loss of texture and crystal development in just a few days when ice cream is stored at too-high storage temperatures.

"While the findings of this study haven't been formally endorsed by the USDA," the department has published the information as part of its examination of possible standards for readable code dating of perishable foods in the future. No doubt, readable code dating of perishable foods is on the way."

Texas First State To Be Awarded Alcoholism Grant

Texas is the first state in the nation to be awarded Federal formula grant funds for prevention, treatment, education, and rehabilitation programs to deal with alcohol abuse and alcoholism.

Senator John Tower announced that the grant, in the amount of \$1,631,247, was made possible under Title III of the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment, and Rehabilitation Act of 1970 (Public Law 91-616), which he cosponsored.

Dr. Morris E. Chafetz, director of the new National Institute on Alcohol Abuse and Alcoholism, a component of the N. I. M. H., Health Services and Mental Health Administration of the U. S. Dept. of H. E. W., called the funds "A first step in developing programs to reduce what I consider the Nation's most treatable untreated illness."

The Texas Commission on Alcoholism, designated by the Governor as the single state agency responsible for alcoholism programs in accordance with the Federal law,

developed and submitted the first State Plan for the Prevention, Treatment, and Control of Alcohol Abuse and Alcoholism.

K. E. Beahan, executive director of the Texas Commission on Alcoholism, stated that the formula grant funds for Texas will be used for innovative approaches to categories of services including administration, community and regional assistance, occupational alcoholism programs, education and public information, research and evaluation, and training for personnel involved in alcohol prevention, treatment, and rehabilitation.

The Texas Commission on Alcoholism estimates that Alcoholism estimates that there are 425,000 alcoholic persons in Texas, equivalent to 3.8 percent of the State's population.

The \$1,631,247 grant to Texas covers F. Y. 1972. A total of \$30,000,000 was appropriated for the nation under the Comprehensive Act for formula grants to the states.

Mr. and Mrs. Pat Kimberlin have returned from a six-month stay in Michigan. They visited Thursday with Mrs. Ada Kimberlin. They now live in Andrews.

Notice--

You are invited to attend a retirement party honoring Mr. and Mrs. O. V. Fuller and Mr. and Mrs. Terry Redford Monday, June 26, from 8 to 10 p.m. in the high school cafeteria.

Anyone desiring to help is to contact Mrs. H. Joeertz before June 19.

Clyde Loveless, who went surgery last week at Lubbock hospital, is now recovering at the home of his daughter, Mr. and Mrs. Eld Thomas.

and Mrs. Jack Cavanaugh and Vaughn of Bossier La., are visiting this week at the home of her grandmother, Mrs. Troy Morris, and her relatives.
