THE ROPES PLAINSMAN

VOLUME XXIII—NO. 15

ROPEVILLE, HOCKLEY COUNTY, TEXAS

5c A COPY

THURSDAY, AUG. 15, 1957

Ropes Schools to Open September 2

O. V. Fuller, superintendent of Ropes schools, announced this week that the Ropes Public Schools will start on Monday morning September 2nd. A detailed report of the program will be carried by the Plainsman next week.

Since last report of the schools Mrs. Dodd has resigned to move to Anton where she will teach, and Mrs. Todd, the teacher, has resigned to move to Lubbock where she has been employed as a teacher.

Esten Blackman, the high school basketball coach, is moving to Ropes this week.

RETURN FROM ROCKY MOUNTAINS

Mr. and Mrs. Everett Wallace returned Tuesday night from Rocky Mountain Park in cool Colorado where they spent their vacation.

Everett said they traveled the highest road in the United States, at one point being better than 12,000 feet. They were above the tree line, and at points they stopped and had snowball fights.

RETURN FROM VACATION IN CALIFORNIA

Rev. and Mrs. Dan Jones and her mother, Mrs. Shook, returned this past week from China Lake, California, where they spent several days on vacation, and visiting in the home of their daughter, Mr. and Mrs. Lawrence Oliver and son.

They report a very pleasant time seeing the sights along the route and in California.

PORTABLE WELDING AT YOUR CALL

Doug McCoy, of Meadow, was in Ropes Wednesday and ordered cards and an advertisement in the Plainsman that he has a portable welder which he is willing to take any place to do welding.

Doug is a long time citizen of both Ropes and Meadow communities. If you need a portable welder, look up his ad in today's Plainsman.

VISITING CHILDREN

Mr. and Mrs. G. H. Edwards, of Blue Ridge, are here this week visiting in the home of their children, Mr. and Mrs. Ulys Gregg, and Mr. and Mrs. Bill Edwards.

Mr. and Mrs. Edwards were at one time residents of Ropes, but some two or three years ago moved back to their home in Blue Ridge.

IN APPRECIATION

Mr. and Mrs. Julius Blair Jones, of Rt. 1, Ropesville, are the proud parents of a baby boy born on August 5th in Lubbock hospital. The little one weighed 8 pounds, 4 3/4 ounces.

METHODIST CHURCH NEWS

Most of the news concerning the work of the Methodist Church this week features Children's and Youth Work. Last Friday brought to a close the Day Camping program for Juniors. This week will feature the Intermediate Camp program for the Brownfield District at Ceta Canyon.

The day camping program is new in this section of the country, but has been used in some sections of the Church for some time. In this type of camp, the workers and children go to a suitable spot and camp for the day. They return to their homes at night, which has its advantages. It keeps children under the supervision of their parents at night, while giving them the instruction, recreation, and inspiration of a camping program for about eight hours in the day. It has some disadvantages also. The principle disadvantages deals with the adult workers. In a camping situation such as Ceta Canyon, the adult workers are relieved of home responsibilities and can consecrate all their efforts to the carrying on of the camp program. However, for a new experience, this was a very successful camp.

The Intermediate Camp began Monday afternoon and will close Friday noon at Ceta Canyon. This is a very lovely campsite located about 12 or 14 miles just a fraction north but mostly east of Happy, Texas. Ceta Canyon is a tributary of the Palo Duro system. The study for this camp is "Living Together as Christians", and will feature studies while on the trail of "Quest" type of study. Rev. Wallace Kirby will be co-director with Rev. Frank Story as this camp is for the Big Spring and the Brownfield Districts.

Mrs. Rucker and Mrs. Hayslip will work in this camp as cabin counselors, and several intermediates are in attendance.

The Women's Society of Christian Service will meet Monday, August 19th, at the Church. The program will be centered around the study of Christian Social Relations.

ANNOUNCE COMING MARRIAGE

Mr. and Mrs. Bob Whitlock this week announced the approaching wedding of their daughter, Jacquelyn to Morris Goad of New Home. The wedding will take place in the Ropesville Church of Christ on September 1st, with the pastor officiating.

RETURN FROM VACATION IN COOL COLORADO BRIDAL SHOWER

We are requested to announce that a bridal shower will be held for Mr. and Mrs. Phil Nobles in the home of Mr. and Mrs. Haskell Grant Friday, August 16, at 3 o'clock in the afternoon. The public is invited to attend.

Boy, It's a Pleasure to Eat in Walt's New Cafe Opened Monday

IN APPRECIATION

At this time we wish to express our deepest appreciation to those who assisted in the publication of the Plainsman last week while we were away — we didn't worry one whit about it because we knew we had left the paper in good hands. First we want to thank Mrs. Tyree Martin who acted as editor in our absence. She did a splendid job, and the Fourth Estate has lost a valuable member when she took other work rather than newspaper work. Second, we want to thank Rev. Frank Story for his editorial, "A Dream Comes True". It added to the interest of the paper. Third, we want to thank our twin daughters, Mrs. C. Whitfield and Mrs. Shanklin of Lubbock, who appeared to us unattractive. However, even while on the return trip from a vacation in California—that is where the trip terminated. As a matter of fact, the trip was one long ride, with visits to spots of historical interest. To give an idea of what we viewed and didn't view, we think it best to take the trip by states.

WE TRAVEL

This past Sunday afternoon we arrived in Ropes on the return trip from a vacation in California—that is where the trip terminated. As a matter of fact, the trip was one long ride, with visits to spots of historical interest. To give an idea of what we viewed and didn't view, we think it best to take the trip by states.

New Mexico As a starter we loaded into the car of our son-in-law and family, Mr. and Mrs. James Thomas and children at Lubbock on Friday night August 3, 1957, and drove to Texico, N. M., where we all spent the night with our son, Mr. and Mrs. Donald Morris and children. Early the next morning we took off for Fort Sumner and the burial place of Billy the Kid, born William Boney, Here we learned that the old fort, which once stood near the site of the grave had vanished, as well as other historical landmarks. Near the grave there is a museum filled with many relics of the days of Billy the Kid. There are actual photographs of the enemies and friends of the Kid, and in a prominent place is a photo of Sheriff Pat Garrett the nemesis of the Kid. Al-though the Kid whirled Garrett was shaking as if he had a sudden attack of the one tender hide of East Texas. This house no longer stands, but there is a picture of the floor plan. The Kid is laid to rest in a predominantly Catholic cemetery, with a grave of his two pals on one side. While Catholic crosses and Spanish names appear around him, his tombstone is a large one without the cross, bearing the inscription, "William Boney, The Kid". The Kid was a tough hombre, and pictures of his likeness, turned to Page 2

Walt's Cafe, which has been closed for thirty or forty days until a new building could be erected and new fixtures installed, reopened for business Monday.

The occasion was celebrated by the serving of coffee and donuts free to all who entered the new building. The new cafe is not only spacious, but modern and up-to-date in every manner. It has a seating capacity of some fifty-four people in the main dining area, and in the back a special room has been prepared for colored folks.

The color combination is eye-catching, with the tables, chairs and booths of a beautiful shade of pink and ivory, offset with black accents, and some gold color.

During the past week, between Ropes and the west coast, we have entered several modern cafes, but on no occasion have we found one that is superior to Walt's Cafe in Ropes.

We would venture to say that in no place on the Kid South Plains is there a more modern eating place to be found. Its arrangement shows careful thought to the comfort of the customer, and we might add that he could establish a habit before the dawn of his twenty-first birthday he had knocked off which all of us can point to with pride.

M. W. MARTIN SHOOTS FOOT

M. W. Martin is here this week from Post looking after business and visiting with his sons, Mickey and Ray Martin.

Mr. Martin is on crutches and explained that while he was out rabbit hunting a .22 rifle he was carrying went off accidentally and shot a hole in his foot. The rabbit got away.

We are glad to report that the injured foot is healing nicely, and he thinks that within another week he will be able to walk on it.

THANKS

We wish to take this means of thanking the many who visited our cafe on opening day. It was a pleasure to serve you, and it is our hope and desire that you will visit us often.

We have gone to the expense of rebuilding and refurnishing our cafe because we felt that the folks of the Ropes community were entitled to such a place as we now have.

It will be our endeavor to give you the best food and service that is possible, and each time you visit us it will make us very happy.

Mr. and Mrs. Walt Fraley WANTED — Lady to stay with my mother at night. Please contact Mrs. Clyde Loveless if interested.

From Page 1

It is a strange thing that a murderer, and you can call him no less, can attract more attention than a president of the United States. It seems that the more famous a man is the longer his memory lives. There are perhaps thousands who can give you a detailed history of the Kid, who do not know of President McKinley or the presidents who served before and after him. The grave and museum are set in a valley, hemmed by hills. This valley is

tile, watered by the Pecos River. The gentleman who operates the museum and many other items you would never expect to see. forty acres leased and that he never made under a bale and a half to the acre, while on rich pasture land he is running cattle. But, in speaking of museums, the more interesting display is found on the east edge of Fort Sumner. It is advertised as Billy the Kid's Museum". On the outside before entering the building. The grave and museum are antiquated vehicles of every kind, as well as a Model T Ford, an

such towns as Yeso, Putna and Vaughn, and in these regions we saw sheep by the hundreds. Now the population had become preeminently Mexican. There was a lack of courtesy, and in one place where we stopped in a public park to eat we were given to understand we were not welcome. The park was there for use by the public, but that public must be of Spanish descent.

We also made the discovery that once we were out of Texas, there was seldom a roadside park. There were places beside the road at intervals for miles where trash cans had been placed, but no tables and no shade.

We stopped in Albuquerque for a short visit with our sister-in-law, Mrs. Nyles Morris, and enjoyed coffee with our nephew, Nyles Jr., and our beautiful and talented niece, Tonya. Also saw Mrs. Nyles Morris, Jr., and their son, Phil. Mrs. Nyles Morris, Sr. and Nyles Jr. are former citizens of Ropesville.

and the food well cooked him." Then we passed into Arizona — 11:30 a.m.

It was out here that we noticed signs announcing a Thunderbird trading post, and when we arrived they tried to sell us a thunderbird — can you imagine that.

At 10:14 a.m., on August 5, 1957, we crossed the Continental Divide. It is at this point that the rainfall divides: to the east flowing into the Atlantic Ocean, and to the west into the Pacific. Passing over the high point we dropped into a beautiful valley, fenced on all sides by towering mountains. In fact, the country is all mountains and valleys.

Then we came to Gallup, N. M. Two huge totem poles beside the highway announced that we were entering Gallup, the Indian Capitol of the World. Here we saw plenty of Indians just wandering aimlessly around. Beside the road sat an Indian woman with a blanket folded under her, a little farther on was one walking down the street with a blanket flowing from her shoulders.

On the other side of Gallup we stopped at a museum where we saw what was left of a cliff dweller.

We asked about the Indians, and the proprietor of the museum told us: "Folks worry about the Indians more than the Indians worry about themselves. They live from day to day with no thought of tomorrow. They are unappreciative. The saying that is always your friend is false. An Indian is your friend as long as he can use you or you have something to give him."

One of the most amusing things we found at this museum were a couple of tombstones, with epigraphs reading:

Here lies Pepper Tate,
Hanged by mistake.
He was rite,
We was wrong,
And now he's gone.

And the second:
Here lies
Salty O'Day
1861 - 1881
Hoss Thief
A Rope Necktie
An old oak tree,
And Salty wasn't what
He used to be.

As we swung away from Fort Sumner we came into the mountains with the terrain climbing away from us. It is a cattle and sheep country, covered with a sparse growth of grass and

RETURNED FROM HOSPITAL
Mrs. Bruce McGahey returned her infant daughter Brenda Faye, home from a Lubbock hospital a few days ago. The baby was kept there until she became stronger.

CARD OF THANKS
We wish to thank each and everyone for all the kindness shown us during the illness and death of our dear Mother, for all the kind words spoken, visits to the hospital, floral offering and nice cards. They helped us to bear our great loss. May God bless this community.

Mr. Railsback and children, and Mrs. Sidney Price and brothers.

ATTEND FUNERAL
Mr. and Mrs. Sid Price and Jehue, and Mrs. Edward Jordan attended the funeral of Mr. E. A. Leveritt in Lubbock Monday. Mr. Leveritt was an uncle of Mrs. Price.

VISITS SISTER IN ROPESVILLE
Mr. and Mrs. Woodrow Jones had as their visitors this week her sister, Mr. and Mrs. Paul Parrish of Little Rock, Ark., and her brother, Joe Huchmott, of Lubbock.

bring honors to club members as well. They are the national 4-H Safety and Citizenship programs arranged by the National Committee on Boys and Girls Club Work.

Popular with 4-H's, participation in the programs enables them to help themselves, their parents and neighbors. Furthermore, they have a good chance to earn well deserved rewards for doing an outstanding job. Records are judged by the State Extension Service which conducts the programs.

In safety there are county, state and national awards. To each of the eight national winners will go a \$400 scholarship to be used at any accredited college or university. The 1957 state winner will be a delegate to the five-day national 4-H Club Congress in Chicago with all expenses paid. General Motors is donor of

these and other awards in the safety program.

Among the many phases of the activity are those which pertain to some of the more hazardous aspects of rural life such as farm machinery, animals, automobiles, swimming, and firearms. Under the direction of local 4-H leaders, members also conduct campaigns to correct unsafe conditions in the community.

This year marks the 10th anniversary of the citizenship program, and all awards will again be given in honor of Thos. E. Wilson Chicago, pioneer sustainer of 4-H work. National awards are \$400 college scholarships for the highest ranking boy and girl, and the best in the state will each receive a laudatory certificate of honor.

ranch can cost a rural family more money than a fall in prices on the agricultural commodities markets, according to the Texas Safety Association.

The Association points out that falls are the leading source of all injuries to farmers and ranchers in Texas.

However, injuries from all mishaps are expensive. In fact, a recent study shows that the average medical costs of such injuries runs \$105 per accident. Piled on top of this, in many cases, the necessity of hiring extra labor or suffer a serious loss of production, besides pain and discomfort. Common sense and good housekeeping can substantially reduce hazards, according to the Texas Safety Association.

Around the yards and corrals, pick up loose wires boards and scrap metal. Don't allow nails or hangers to protrude unnecessarily. Keep hand tools in safe racks. In the home, keep stairways clear of objects and well lighted. Have a step-ladder or kitchen stool handy for reaching high places. And, don't carry a "lazy man's load" that will block your walking view.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 5, 1957.

HOUSE JOINT RESOLUTION NO. 3 proposing an amendment to the Constitution of Texas adding a section to be known as Section 49-c of Article III, providing for the issuance and sale of bonds of the State of Texas to create the Texas Water Development Fund to provide financial assistance to certain political subdivisions or bodies politic and corporate of the State of Texas in the conservation and development of the water resources of the State; providing for the payment of such bonds; creating an agency to administer said Fund and to perform other duties prescribed by law; limiting the period during which financial assistance may be granted; and providing for the calling of an election and the publication and issuance of the proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of Texas be amended by adding a new section thereto to be known as Section 49-c, as follows: "Section 49-c. There is hereby created as an agency of the State of Texas the Texas Water Development Board to exercise such powers as necessary under this provision together with such other duties and restrictions as may be prescribed by law. The qualifications, compensation, and number of members of said Board shall be determined by law. They shall be appointed by the Governor with the advice and consent of the Senate in the manner and for such terms as may be prescribed by law. "The Texas Water Development Board shall have the authority to provide for, issue and sell general obligation bonds of the State of Texas in an amount not to exceed One Hundred Million Dollars (\$100,000,000). The Legislature of Texas, upon two-thirds (2/3) vote of the elected Members of each House, may authorize the Board to issue additional bonds in an amount not exceeding One Hundred Million Dollars (\$100,000,000). The bonds authorized herein shall be called 'Texas Water Development Bonds,' shall be executed in such form, denominations and upon such terms as may be prescribed by law, provided, however, that the bonds shall not bear more than four per cent (4%) interest per annum; they may be issued in such installments as the Board finds feasible and practical in accomplishing the purpose set forth herein. "All moneys received from the sale of State bonds shall be deposited in a fund hereby created in the State Treasury to be known as the Texas Water Development Fund to be administered (without further appropriation) by the Texas Water Development Board in such manner as prescribed by law. "Such fund shall be used only for the purpose of aiding or making funds

available upon such terms and conditions as the Legislature may prescribe, to the various political subdivisions or bodies politic and corporate of the State of Texas including river authorities, conservation and reclamation districts and districts created or organized or authorized to be created or organized under Article XVI, Section 69 or Article III, Section 62, of this Constitution, interstate compact commissions to which the State of Texas is a party and municipal corporations, in the conservation and development of the water resources of this State, including the control, storing and preservation of its storm and flood waters and the waters of its rivers and streams, for all useful and lawful purposes by the acquisition, improvement, extension, or construction of dams, reservoirs and other water storage projects, including any system necessary for the transportation of water from storage to points of treatment and/or distribution, including facilities for transporting water therefrom to wholesale purchasers, or for any one or more of such purposes or methods.

"Any or all financial assistance as provided herein shall be repaid with interest upon such terms, conditions and manner of repayment as may be provided by law. "While any of the bonds authorized by this provision or while any of the bonds that may be authorized by the Legislature under this provision, or any interest on any of such bonds, is outstanding and unpaid, there is hereby appropriated out of the first moneys coming into the Treasury in each fiscal year, not otherwise appropriated by this Constitution, an amount which is sufficient to pay the principal and interest on such bonds that mature or become due during such fiscal year, less the amount in the sinking fund at the close of the prior fiscal year.

"The Legislature may provide for the investment of moneys available in the Texas Water Development Fund in the interest and sinking funds established for the payment of bonds issued by the Texas Water Development Board. Income from such investment shall be used for the purposes prescribed by the Legislature. The Legislature may also make appropriations from the General Revenue Fund for paying administrative expenses of the Board.

"From the moneys received by the Texas Water Development Board as repayment of principal for financial assistance or as interest thereon, there shall be deposited in the interest and sinking fund for the bonds authorized by this Section sufficient moneys to pay the interest and principal to become due during the ensuing year and sufficient to establish and maintain a reserve in said fund equal to the average annual principal and interest requirements on all outstanding bonds issued under this Section. If any year prior to December 31, 1952, moneys are received in excess of the foregoing requirements then such excess shall be deposited to the Texas Water De-

velopment Fund, and may be used for administrative expenses of the Board and for the same purposes and upon the same terms and conditions prescribed for the proceeds derived from the sale of such State bonds. No grant of financial assistance shall be made under the provisions of this Section after December 31, 1952, and all moneys thereafter received as repayment of principal for financial assistance or as interest thereon shall be deposited in the interest and sinking fund for the State bonds, except that such amount as may be required to meet the administrative expenses of the Board may be annually set aside; and provided, that after all State bonds have been fully paid with interest, or after there are on deposit in the interest and sinking fund sufficient moneys to pay all future maturities of principal and interest, additional moneys so received shall be deposited to the General Revenue Fund.

"All bonds issued hereunder shall after approval by the Attorney General, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute general obligation of the State of Texas under the Constitution of Texas. "Should the Legislature enact enabling laws in anticipation of the adoption of this amendment, such acts shall not be void by reason of their anticipatory nature."

Sec. 2. The foregoing amendment to the Constitution shall be submitted to a vote of the qualified electors of this State at an election to be held on the 5th day of November, 1957, same being the 1st Tuesday after the 1st Monday in said November, 1957, at which election each ballot shall have printed thereon, the following words:

"FOR the amendment to the Constitution of Texas adding a new section to be known as Section 49-c of Article III, authorizing the issuance and sale of Two Hundred Million Dollars (\$200,000,000) in bonds by the State of Texas to create the Texas Water Development Fund to provide financial assistance to certain political subdivisions or bodies politic and corporate of the State of Texas in the conservation and development of the water resources of the State."

"AGAINST the amendment to the Constitution of Texas adding a new section to be known as Section 49-c of Article III, authorizing the issuance and sale of Two Hundred Million Dollars (\$200,000,000) in bonds by the State of Texas to create the Texas Water Development Fund to provide financial assistance to certain political subdivisions or bodies politic and corporate of the State of Texas in the conservation and development of the water resources of the State."

"We Hew to the Line—Let the Chips Fall Where They May".

IF I WERE BOSS
If I were boss I would like to say:
"You did a good job here today."
I'd look for a man, or a girl or boy
Whose heart would leap with a thrill of joy
At a word of praise, and I'd pass it out
Where the crowd could hear as I walked about.
If I were boss I would like to find

The fellow whose work is the proper kind;
And whenever to me a good thing came
I'd like to be told the teller's name,
And I'd go to him, and I'd pat his back,
And I'd say, "That was perfectly splendid, Jack!"
Now a bit of praise isn't much to give,
But it's dear to the hearts of all that live;
And there's never a man on

this good old earth
But is glad to be told when he's been of worth;
And a kindly word, when the work is fair,
Is welcome and wanted everywhere.

If I were boss I'm sure I would
Say a kindly word whenever I could
For a man who has given his best by day
Wants a little more than his weekly pay;
He likes to know with the setting sun,
That the boss is pleased with the work he's done.
—Employment Counselor

There was a man who was sure the business could not get along without him. He admitted his supreme ability. He was an able man, but around him were men just as able. He failed to get full value for his ability because he failed to recognize theirs. And so at last the business DID get along without him.
What he lacked was the PLUS value of Co-operation. No one knows it all about any business. No one knows so much that he cannot learn from others.

'Son, it's none of your business how I met your mother — but you'd better not learn to whistle!"

If a limb grows out of the side of a tree 6 feet from the ground, will the butt end of that limb get farther from the ground as the tree

grows taller or will it remain approximately 6 feet from the ground?
The butt end of the limb will remain approximately 6 feet from the ground. The only difference will be in the increase in birth of the limb, which will cause the lower side to be closer to the ground. If it were otherwise, when a wire fence is nailed to a tree, as the tree increases in height it would pull the fence up with it.

RETURN FROM BLUE RIDGE

Mr. and Mrs. Ulys Gregg and children returned this week from Blue Ridge where they spent their vacation. They visited relatives while there.

VISIT PARENTS IN SPUR

Mr. and Mrs. Tyree Martin and children were in Spur this past Sunday where they visited in the home of her parents.

They report that everything in that section is looking fine, with prospects of a big crop yield.

MARCYS RETURN FROM NEW MEXICO

Mr. and Mrs. John Marcy, who had been vacationing at Red River, New Mexico, returned home this week.

John said he didn't do any fancy fishing as the place where the fish were was up in the mountains, and you couldn't get to them by car, and if he had gone after them he would have been so tired he would not have been able to fish.

UNCORK 25 FEET OF STOMACH TUBES

"Sweetens Whole 'Insides', Relieves Constipation —both overnight!"

Says Mrs. Milton Kistler, Wescorville, Pa. Half-alive, headachy, when constipation sours stomach? Black-Draught* relieves constipation overnight. Helps sweeten sour stomach too. No harsh griping. Made from pure vegetable herbs. Brings thorough but gentle relief in morning. Life looks sunny again! Get Black-Draught today. *In Powder or Granulated form... and now in new, easy-to-take Tablets, too! **FOR CHILDREN** When constipation sours children's digestion, get Syrup of Black-Draught. They love its honey-sweet taste.

2 WATER TEMPERATURES from 1 tank

130° For bathroom and kitchen faucets.
180° For automatic washer and dishwasher.

Now available with **GAS WATER HEATERS**

The revolutionary duo-temp water heater gives you hot water automatically right for every need. It feeds water from two separate outlets into faucets and into appliances. Water for laundering holds temperatures required for whitest washes, but water from the tap never exceeds a temperature safe to touch. For details on this remarkable water heater check with us, a gas appliance dealer, or see a master plumber.
