FARMERS MUST FILE REQUESTS BY SEPT. 26

Texas farmers have until September 26 to file requests with their County Agricultural Stabilization and Conservation committees for maximum rates for their farms under the 1959 conservation reserve part of the soil bank program.

Then, after the maximum rates are determined, farmers have until October 17 to apply for conservation reserve contracts, Joe M. Favor, administrator of the soil bank program in the county ASC office, said.

Favor pointed out that there will be no acreage reserve program in 1959. He urged that farmers become familiar with the conservation reserve.

Fifteen meetings in Texas this week will train county ASC personnel to handle the 1959 program. As soon as these meetings are completed, the county offices will be ready to accept applications for establishing the maximum conservation reserve rates. These rates will average \$12 an acre in Texas.

Hugh Turner of Girard, Vernell Cooper and Mrs. Grady Jones, soil bank clerks, and Favor all attended the meeting in Childress on Thursday from Kent county.

SPECIAL NOTICE

There will be a regular 4-H meeting Monday night at 6 o'clock in the school cafeteria.

Bring material for record books, as they must be in Friday, August 29 for achievement awards. Please tell everyone about this.

DIVERSIFIED FARMER AWARD SET IN TERRY

BROWNFIELD — Eight nominations for the title of the "Most Diversified Farmer in Terry County for 1958" have been officially accepted by the Terry County Soil Conservation District.

The award winner will be announced during the district's annual field day-tour scheduled for September 18. A total of \$500 in cash and an engraved plaque will be presented to the winner.

The diversified farmer award will replace the program which has honored farmers who have produced the first bale of cotton in the county in the past, district officials said.

Anyone can nominate a

Terry County farmer for the award, officials emphasized. The Brownfield Chamber of Commerce will have charge of the project.

Chartered buses will take farmers, businessmen and others on the annual field day-tour. The buses will embark from the courthouse square here at 9 a.m. Thursday, September 18.

A barbecue lunch will be served at Coleman Park here that day. Wives are being urged to accompany their husbands on the tour this year.

Nominees for the diversified farmer award will be judged on a point system. A panel of seven judges from the Terry County SCD and the Brownfield Chamber of Commerce will select

the winner.

Leadership in the community, local, county and state farm activities will be valued at five points under the scoring system. Willingness to help other farmers in a program of diversification and conservation will also be rated at five points.

The long-time plan of diversification and conservation on the candidate's farm will be given a 70-point value. A 10-point value will be placed upon the economic operation of the farm enterprise.

Concluding the scoring system will be a 10-point value placed upon the general appearance of the farmstead, including neatness, lawn, trees, outbuildings, care of wildlife and others.

Nominees for the award include Joe Keesee, Herbert Hicks, Weldon Mason and B. R. Parrish, all of Meadow; Raymond Green, Rt. 4; Herman Wheatley, Rt. 3; Grady Davis, Rt. 5; and Sam Oliver, Seagraves.

RECEIVES 1st ENTRIES OF LIVESTOCK

The first entries were received this week in the livestock division of the Panhandle South Plains Fair to be held in Lubbock September 29 - October 4, officials reported recently.

R. L. and B. B. Northam, both of Meadow, and Melvin Smith, Ackerly, submitted entries in the senior swine division. The deadline for livestock entries is Monday, September 8th.

UNSOLVED PROBLEM

For centuries men wanted
perfect laws. For them,
change was sacrilege.

For example, the Romans
enjoyed the fiction that
their law merely interpreted
their first, changeless, Ten
Tables.

Today we know that no
lawgivers can foresee how
their laws may fail, and so
we provide for basic chang-
es in our Constitution, and
by two methods:

1. By a two-thirds vote of
each House, Congress may
send a proposed amendment
to the state legislatures for
ratification.

2. As yet unused, the se-
cond method would allow
Congress "on the application
of the legislatures of two-
thirds of the several states"
to call a convention for pro-
posing amendments.

Trying to follow the se-
cond method, the lawmakers
of 32 states—or two-thirds
of them—have approved re-
solution for a constitutional
amendment to limit income
taxes. You might think that
Congress would have to call
the convention to amend
the Constitution.

But meantime, eleven stat-
es have turned around and
rescinded their approval;

and governors of two other
states have vetoed the leg-
islative acts.

Query: Have two-thirds of
the legislatures applied to
"call a convention"? Are
all the state resolutions now
in force? And if so, how
does one make Congress call
the convention? No Found-
ing Father, it seems, had
foreseen such a problem.
Even the U. S. Supreme
Court in 1939 found such
questions "political" and not
"subject to judicial guid-
ance".

Shrinks Hemorrhoids Without Surgery

Science finds healing substance that

relieves pain—Shrinks Hemorrhoids
For the first time science has found
a new healing substance with the as-
tonishing ability to shrink hemor-
rhoids and to relieve pain—without
surgery. In case after case, while
gently relieving pain, actual reduc-
tion (shrinkage) took place. Most
amazing of all—results were so thor-
ough that sufferers made astonishing
statements like "Piles have ceased to
be a problem!" The secret is a new
healing substance (Bio-Dyne*)—dis-
covery of a world-famous research
institute. This substance is now avail-
able in suppository or ointment form
called Preparation H.* At all drug
counters—money back guarantee. *9
