## Good Management Will Help Hold Milk Production

Plenty of water—in the cow—is one of the most important ways to maintain milk production during winter months, dairy authorities agree. Since milk consists of about 85 per cent water, cows should always have clean, fresh water available, a fact often overlooked during winter months.

With both feed and labor limited, dairymen this winter will need to exercise greater skill than ever before to meet the nation's milk requirements; and better management can do much to increase production and effect shortages of feedstuffs. Concentrating feed and labor upon efficient producing cows is a first step in sound management, with prompt elimination of inefficient cows from herds. Some authorities have estimated that total production would not suffer but increase, if as many as

15 per cent of the low-producing cows in Cotton Belt herds were culled and available feed used for the remaining animals.

Providing more green feed, especially during winter, is another major recommendation. Well-planned pastures not only provide vitamins, minerals and roughages; they also can reduce concentrate requirements by one-half to two-thirds. Oats and other small grains make winter grazing and the first grain for harvest next spring. Dairymen should follow extension service planting recommendations for their locality and produce maximum grazing this fall and winter. In addition to pasture, or when in the dry lot, every dairy cow should have all of the dry roughage she will eat. Silage is ideal for cows where only dry grass or roughage is available.

With ample green pasture, or legume hay, cows can be fed a 12 per cent protein mixture. Cows receiving medium protein roughage need a mixture containing 15 per cent protein; and with low protein roughage an 18 to 20 per cent mixture is required.

Proper shelter, better care, adequate mineral supplies and other sound practices are essential to maintain production and use available feed efficiently.

No railways and few roads skirt the Dalmatian coast.

**LEAN FALSE TEETH**  
Kleenite needs messy, harmful brushing. Just put your plate or bridge work in a glass of water, add a little Kleenite. Presto! Blackest stains, tartaric, food film disappear. Your teeth sparkle like new.

Get Kleenite today from Collins Bros. Drugs or any good drug store.

**KLEENITE needs no brush**

## A Good Time For Cattle Culling

By O. P. GRIFFIN  
County Agent

We would like to again call attention to the danger of trying to carry too many cattle through the winter. This drought is rather widespread, and there is apt to be lots of half fat and poor cattle on the market all through the winter. That is, there is not apt to be much demand for stocker cattle until grass grows again.

If you run out of pasture and roughage, and have to sell early next spring, the chances are that it would be much better to feed them now with the idea of getting them in shape for the butcher market. Then too it is a good time to do some culling. Pick out the best cows and fatten the others.

## Small Grain Would Help On Feeding

They say that one extreme follows another. Although it is still too dry to germinate barley, we should not forget the advantages of a winter and early spring barley pasture. It may stay too dry to plant barley, but if it should rain within the next month, early spring pasturage could be grown. A small grain pasture will go a long way toward solving the problems of the cattle raiser. It would also save a great deal on the expense of meal and cake which are scarce as well as supplementing the short roughage crop.

Class 1 railroads put 15,744 new freight cars into service in the first eight months of 1943.

**JAPANESE BASTION**—Closeup map of Rabaul, important Japanese base on New Britain, upon which are converging Allied drives from the Solomon Islands to the southeast and New Guinea to the southwest.

## Vessel To Be Named For Naval Hero

ORANGE, Oct. 21 (AP)—Navy day will be observed here at the yards of the Consolidated Steel Shipbuilding Corporation with the launching of the destroyer escort

vessel USS Weeden, named for the late Ensign Alfred Weeden, USN, of San Francisco, the Navy announced today. Weeden was killed during the Jap attack on Pearl Harbor. Every coast town of Norway is on a fjord.

## Sgt. Darrell Flint In Post Hospital

T/Sgt. Darrell Flint, son of Mr. and Mrs. C. A. Flint, is receiving medical treatment at the Big Spring Bombardier School hospital for injuries received last Friday evening in a car accident in Sweetwater.

Sgt. Flint's car collided with a car driven by the Rev. Mr. Patterson, pastor of the Baptist church in Sweetwater, who is receiving treatment for a fractured skull and broken shoulder in the Sweetwater hospital.

Sgt. Flint, who is stationed at Avenger Field as a technical inspector, was transferred to the Big Spring post hospital but sustained no broken bones and is expected to be released within a few days.

The loganberry, regarded as a hybrid of the wild blackberry, first appeared in a private yard in Santa Cruz, Calif.

**MARINE HONORED**  
WASHINGTON, Oct. 21 (AP)—Marine Gunner George Garner, 24-year-old son of Hugh F. Garner, Houston, Tex., has been awarded the Navy and Marine Corps medal for bravery in repairing marine fighter aircraft while under enemy fire on Guadalcanal.

**PRU-LAX helps restore the glow of health**  
Constipation has a natural tendency to weaken our outlook on life. Loss of appetite—overstuffed feeling—biliousness—all tend to detract from our cheerfulness and our physical appearance. The use of PRU-LAX—the tasty laxative—for a limited time, will aid remarkably in relieving such distresses, to the extent caused by constipation. PRU-LAX will flush out impacted impurities and help restore you to a feeling of well-being. Get PRU-LAX today—at your druggist's. (Caution: Take this or any laxative only as directed.) (adv.)

# Plane Shot Down Texan Bails Out At 20,000 Ft.

SHIP ATLANTIS AT GOETE-BORG, Sweden, Oct. 21 (AP)—Tech. Sgt. John H. Gardner, 23, radio man of Yoakum, Tex., was among 13 wounded Americans who boarded this vessel yesterday

for the voyage home in the war's first exchange of disabled military war prisoners between the Allies and Germany.

Gardner was forced to bail out at more than 20,000 feet when his plane was shot down in the May 17 raid on Lorient.

From a cot on the hospital ship, he told this story of his adventures after enemy fighters and anti-aircraft had crippled his ship:

"My parachute pulled me up with a jerk, injuring a lung. Later I developed a touch of tuberculosis. I landed six miles off the shore in the Bay of Biscay and was picked up by a French fisherman after 25 minutes.

"I can't swim, but by 'Mae West' kept me afloat. A German patrol boat later took me aboard and I rode around the bay until

11 p. m. that night before being landed with eight or 10 other Americans.

"We were taken to Frankfurt for interrogation. It wasn't until Aug. 1 that the tuberculosis was noticed and I was transferred to a hospital near Munich."

Gardner, a leather goods salesman before joining the U. S. air force last January, has a sister, Mrs. R. E. Batt, at Houston, Tex., and a brother, Clyde, in the coast guard.

He said an American physician, Maj. Fred Beaumont of Council Bluffs, Iowa, who was captured in Tunis, treated him for tuberculosis.

"As a result of good care," he said, "the illness hasn't too good a start. With the American Red Cross packages I got along all right. The worst thing was that a letter from home didn't have a chance to reach me, because I was a prisoner long enough."

### REFORMED PRISONER

JEFFERSON CITY, Mo.—Sheriff Harry Mackey officially released a prisoner recently—and it cost him \$131, he reported glumly. For that amount, kept in the sheriff's desk at the jail for another prisoner, also vanished. The sheriff made up the loss with a personal check.

**LIBERATOR'S NEW 'FACE'**—A new electric gun turret in the nose gives the Liberator B-24 bomber this changed appearance—and a total of 13 guns.

### EDITOR IMPROVING

ROCHESTER, Minn., Oct. 21 (AP)—The condition of William Allen White, nationally known Emporia, Kas., editor, who underwent an abdominal operation yesterday, is "improving," his son, W. L. White, said today. The operation was performed at Colonial hospital by Mayo Clinic surgeons.

## War Prisoners May Be Put On Essential Jobs

WASHINGTON, Oct. 21 (AP)—With more than 140,000 prisoners of war now held in permanent camps in this country, Secretary of War Stimson announced today steps were being taken to divert this manpower where it is needed to perform essential labor.

Approximately one-fourth of the prisoners are used by the army for maintenance labor at military posts, and about 10 per cent are employed on work primarily for the benefit of the prisoners themselves—maintenance of their own compounds, cooking, tailoring and duties as hospital attendants and canteen clerks within the compounds.

How many of the others have been employed as contract labor, Stimson did not disclose, but his press conference statement reported some of the types of work they have performed—reconstruction of automotive equipment from old machines and parts, labor in brick plants, land clearing projects, canning plants, dry cleaning plants, construction of reservoirs for city water supply and water power, and harvesting fruit, tomatoes, potatoes, peanuts, cotton, sugar beets and corn in such widely separated states as Georgia, Colorado, Texas and New York.

Stimson said that the ratio of Germans to Italians was about three to one. Only a few of the prisoners in this country have escaped, he said—"an infinitesimal percentage"—and all were recaptured within a few hours.

Water rates second only to air in importance to the human body.

**YOUR HAIR** looks better groomed with **Meroline Hair Tonic**. Keeps unruly hair in place. Gives lustre. Big bottle, **ALWAYS** only 25c. Sold everywhere.

The harbor of Bodo, Norwegian coast town, though 50 miles north of the Arctic circle, is always free.

## From where I sit...

by Joe Marsh

Dan Miles allows he's swimming right in style these days. Dan's always made a point of finishing up whatever food was put before him. "Don't make sense to waste food just to be stylish," he says.

Now out comes an etiquette authority who says it's wartime fashion to take only what you're going to eat—and finish it up clean—because "Food Fights for Freedom."

As Doc Mitchell says, "Most folks eat too much anyway. Man and boy, I've watched this town

for years, and 75% of us dig our own graves with our teeth." From where I sit, this new style in eating may lead to moderation, and moderation has never hurt anybody.

In fact, you find moderation and tolerance go hand in hand... whether it's what you eat or what you think... Or whether one man prefers a moderate glass of beer when you yourself would rather have a soda.

Joe Marsh

Walk in them, play in them or wear them with sportclothes... choose a rugged brown leather moccasin oxford or a smart one eyelet drawstring oxford (also in brown). Sizes 12½-3. Rationed.

## Bernie's Body Lies In State

LOS ANGELES, Oct. 21 (AP)—Friends in the film colony and in radio, former vaudeville associates and a legion of fans will pay final respects tonight to Ben Bernie, "the old maestro" whose baton has marked its last measures.

The bandleader's body will lie in state from 8 to 11 p. m. in a mortuary chapel, then will be sent tomorrow to Flushing, L.I., for interment.

Jovial, cigar-chewing Bernie, who kidded himself as heavily as he did sponsors of the broadcasts that brought him fame, died yesterday at his apartment in nearby Beverly Hills after a typical trouper's fight against eight months of illness. He was 52.

One of the decade's top entertainers, Bernie came from New York's East Side, fount of many another amusement world headliner. His career, stemming from poverty, encompassed jobs as toy violin salesman, vaudeville actor and, after 1923, orchestra leader.

## Further Testimony In Labor Litigation

AUSTIN, Oct. 21 (AP)—Officials of the American Federation of Labor prepared today to testify further in organized labor's attack on the union registration law in 98th district court here.

While the state supreme court considers pro and con arguments on the freedom of speech issue as raised in a contempt case of R. J. Thomas, vice-president of the Congress of Industrial Organizations, the district court heard testimony bearing on many phases of the law in an attack brought jointly by CIO and AFL.

## Travelling Couple Want Missions

HARTFORD, Conn. — Though each has done more than one person's share of globe trotting, Mr. and Mrs. Maurice Culver are looking forward to a missionary assignment in Africa when they finish their studies at the Hartford Seminary Foundation.

Still in their early twenties, Mrs. Culver, daughter of missionary parents, and her husband, whose father was in the consular service, had visited a total of 49 countries before they were married in 1941.

**QUARANTINE DOGS**  
WASHINGTON, Oct. 21 (AP)—A quarantine of all dogs in the Washington area was sought today by health authorities after disclosure that the dog which bit two women was infected with rabies.

### Texas Asked For More Oil

AUSTIN, Oct. 21 (AP) — Texas oil fields have been called on by the railroad commission to produce 2,021,471 barrels of all petroleum liquids daily in November, 22,471 barrels more than the 1,999,000 barrels certified by the Petroleum Administration for War.

In a statewide proration order yesterday the commission fixed allowable production of crude for next month at 2,075,676 barrels daily, but estimated under-production would reduce this by 8.20 per cent of 170,205 barrels. Production of 116,000 barrels of distillate and natural gasoline daily will boost November output over the PAW certification.

Producing days for the East Texas field were left unchanged from this month at 23. The Panhandle field was reduced from 24 days to 22. General producing days will number 22.

Allowables by districts for Nov. 1 compared to Oct. 16 (Nov. 1 figures first): 1—25,438 and 25,323; 2—160,826 and 139,766; 3—511,300 and 506,451; 4—192,015 and 186,457; 5—43,009 and 29,997; 6 outside East Texas—110,216 and 108,325; East Texas—383,728 and 372,035; 7B—31,125 and 30,674; 7C—20,688 and 20,632; 8—368,915 and 360,316; 9—134,777 and 132,885; 10—93,639 and 97,667.

Soft shell crabs are a source of protein, highly digestible and well utilized by the body.

### Texas Jailbreaker Caught In Okla.

ATOKA, Okla., Oct. 21, (AP) — Ernest Cleveland Herring who says he has escaped six times from Texas prison farms, is waiting in jail for Texas officers to come and get him again.

He was captured here Tuesday by Harry Bronsfield, a garage mechanic, after an 18-mile chase. State highway patrol officers said Herring represented himself at a garage as being with the owner of an automobile left there. While Bronsfield was getting the bill, they said, Herring sped off but wrecked the car in a ditch 18 miles from here. Bronsfield had given chase, caught Herring when he sought to run away from the wreck and turned him over to Sheriff L. O. McBride.

In jail, Herring told officers he escaped from the Retrieve prison farm in Texas in June of this year, was arrested in Kansas and returned to Texas, but escaped by kicking the officer's car door open.

(The latter escape was at Dallas, Texas, the first of this month.)

### Morgenthau Tours Front

WITH THE FIFTH ARMY IN ITALY, Oct. 21 (AP) — Secretary of the Treasury Morgenthau traveled through forward areas of the Italian front with Lt. Gen. Mark W. Clark today and had high praise for British and American soldiers and for AMG's work in restoring the city of Naples.

"I am much struck by the young British and American soldiers," he said. "Their faces seemed so alert and they were so evidently in the pink of condition that they seemed to be ready for anything."

The secretary noted that water service was being restored in Naples.

"I can assure Gen. Clark that the fighting forces have nothing to worry about the people at home," he added. "They are solemnly behind the war and they'll provide every dollar and every piece of material and that means a good many dollars and lots of material — necessary to bring about complete victory."

"My trip to the front has been one of the greatest experiences of my life. I am filled with new zeal and enthusiasm and I am going home to tackle the fourth war loan in the aggressive spirit of Gen. Clark's Fifth army."

### Nazis Claim Seven Convoy Ships Sunk

By The Associated Press  
The German high command asserted today that seven Allied vessels totaling 54,000 tons had been sunk from Mediterranean convoys by raiding U-boats.

The broadcast claims, which were without Allied confirmation, did not say when the attacks took place.

Another Berlin broadcast, which placed the attacks "east of Gibraltar" and "between Sicily and Salerno," said the new sinkings had raised Allied losses in war material destined for southern Italy to more than 80,000 tons.

### 25,000 Bomber Engines Produced in 21 Months

FLINT, Mich., Oct. 21 (AP) — The Buick Division of General Motors corporation has produced 25,000 Liberator bomber engines, representing something like 30,000,000 horsepower, in less than 21 months. Four of the 1,200 horsepower radial engines, manufactured under license by Pratt & Whitney, go on each big Liberator bomber.

In disclosing the production achievement today, Harlow H. Curtice, head of the Buick division, said production being stepped up steadily as more materials are allocated to aircraft output and additional men and women are put to work in the company's plants here and at Melrose Park, Ill.

Declaring that manpower problems were approaching a critical stage, Curtice said he hoped for even higher efficiency in the plants.

"An increase in productive efficiency of 25 per cent does not seem impossible," he said, "in view of the large accumulation of production experience on the part of great numbers of new employees thus far in the war effort. This intensifying of effort and skill can provide the cushion needed when all the country's war industries are operating at peak schedules and manpower requirements are at maximum."

Moon, Mrs. L. E. Drake, Mrs. Albert Folds, Mrs. Jim Butler, Mrs. Charles Eckerstrom, Mrs. Charles Potts, Mrs. G. L. Hardin and Mrs. H. L. Davenport.

**Injured:** Lieut. Tom son of Dr. and Mrs. F. Marion Simms of Big Spring, is now in a New Guinea hospital receiving treatment for back injuries received when his plane was shot down. He is the son of Mr. and Mrs. Burney G. Simms of Sacramento, Calif., and received his commission and wings at Phoenix, Ariz.

Spring man, Major Herbie Lees, who is also stationed in England. Sgt. Myers, who is an aerial gunner on a Flying Fortress, was mentioned recently in dispatches when he took part in the daylight raid on Oeschersleben, only 80 miles from Berlin and the site of a big Nazi aircraft factory.

The Big Spring boy was graduated here from high school, attended the University of Texas, and later was associated with department stores here before entering the army.

Major Lees' letter to Piner brought the news of the Air Medal before Mr. and Mrs. Myers received word as they had no notification from their son.

### Sgt. Jimmy Meyers Awarded Air Medal

S/Sgt. James A. Myers, son of Mr. and Mrs. J. A. Myers, has received the Air Medal for five successful combat missions in the European area, according to a letter received here Thursday by R. T. Piner from another Big

### Now Many Wear FALSE TEETH

With More Comfort FASTEETH, a pleasant alkaline (non-acid powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTEETH on your plates. No gummy, gooey, pasty taste or feeling. Checks "plate odor" (denture breath). Get FASTEETH at any drug store. (adv.)

### Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up nights. Frequent or early passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep. When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, swelling, puffiness under the eyes, headache and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

### Muffins Made Of Raw Vegetables

By **RHEBA MERLE BOYLES**  
Co. Home Dem. Agent  
Muffins made with raw vegetables are one of a dozen variations of the standard muffin mixture worked out by home economists of the U. S. department of agriculture. Raw carrots, turnips, beets, cabbage, and even apples were successfully used in muffins. The vegetables were shredded fine and put into the liquid in mixing. The standard recipe for 12 muffins calls for 2 cups sifted flour, 3 teaspoons baking powder, a half teaspoon salt, 1 tablespoon sugar, 1 or 2 eggs beaten, 1 cup milk, 2 tablespoons fat melted. As much as 2 tablespoons of shredded raw vegetable added to this mixture gave appetizing variety in flavor, color and texture, but too much vegetable made the muffins soggy. Combinations of vegetables that also proved good in muffins: carrot and turnip, carrot and beet, beet and cabbage, cabbage and apple.

### Make Man-Size Meals

OVEN BEEF STEW: Sturdy fare for winter meals.

By **MRS. ALEXANDER GEORGE**  
AP Food Editor  
The increased ration point cost of several cuts of meat and of butter calls for an adjustment of menus to meet family appetites which have been sharpened by fall's nippy days and frosty nights. The call is for heavier main dishes to keep the home front going strong. That means homemakers will have to stretch meats and extend meat flavor more than ever. Every scrap of fat and bone, as well as the meat itself, should be called into active service. Make sure that the meat-saving meals you are serving still supply ample food values. For good protein, the B vitamins and minerals,

meat. Make up cornbread and cut into two inch squares. Add some dried beef to creamed corn or savory brown sauce and pour over the hot cornbread. Or combine cooked peas or lima beans with tomato sauce and a cup or so of cubed leftover cooked meat and pour it into a tricky pastry case, made with biscuit dough and baked in a pie pan.  
Half a pound of HAMBURGER can be cooked in two cups of tomato or any preferred sauce and then combined with a cup of diced cooked potatoes or navy beans or carrots. Season this mixture with minced onion, celery salt and a small amount of paprika and sweet basil or thyme.  
Mix grated CHEESE into biscuit dough and cut the dough into two-inch squares. Set the squares half inch apart on top of any cooked creamed vegetable sauce. Sprinkle chopped cooked meat in the spaces between the pastry covers and bake 25 minutes in moderate oven. You save time by cutting the biscuit into squares and there is no dough wasted.

**Oven Beef Stew**  
1 pound beef for stew  
2 tablespoons fat  
1-2 cup sliced onions  
3 cups boiling water  
3-4 cup diced carrots  
1-4 cup diced turnips  
1-4 cup diced potatoes  
2 teaspoons salt  
1-8 teaspoon pepper  
1-2 cup cooked peas  
1-2 teaspoon Worcestershire sauce  
1-4 cup cold water  
3 tablespoons flour  
Unbaked baking powder biscuits.  
Brown beef in fat. Add onions and saute until golden brown; then add boiling water. Turn into casserole, cover and cook in moderate oven (350 degrees F.) 1-2 hours; then increase heat to hot (450 degrees F.). Add carrots, turnips, potatoes, salt and pepper and continue cooking, covered 20 minutes, or until vegetables are nearly tender. Add peas and Worcestershire sauce. Add water gradually to flour, mixing to a smooth paste; pour into stew, stirring vigorously. Place biscuits on top of stew; return to oven and bake 15 minutes, or until biscuits are browned.

### Dallas Workers Have 48 Hr. Week

WASHINGTON, Oct. 21 (AP)—Thirty new labor shortage areas must operate on a 48-hour week basis by November 15, under a new War Manpower Commission (WMC) directive. The additions bring to 71 the number subject to the longer work week.  
Among the new localities are Indianapolis, Jacksonville, Fla., Oklahoma City, Dallas and Spokane.  
In its order issued yesterday, the WMC also opened the door to early adoption of the 48-hour week in 93 areas where acute labor shortages may be expected within six months.

### JURY DISCHARGED

DALLAS, Oct. 21 (AP)—A jury which reported it was deadlocked in the \$21,500 damage suit of J. F. Grim against a local plumbers union was discharged yesterday by District Judge W. L. Thornton. Grim claimed the union and its officials conspired to have him fired from defense jobs.

### SEARS PAYS OVERTIME

WASHINGTON, Oct. 21 (AP)—The War Labor Board today authorized payment of time and a half to supervisory employees in Sears Roebuck stores throughout the country for work in excess of the basic work week. This is the same overtime schedule granted to non-supervisory workers.

depend upon milk, eggs, dried beans and peas, soybeans (if you can get them) and peanuts. Meals that run heavily to cereals should be balanced by the use of green vegetables, tomatoes and fruits whenever available.  
You may have to coddle family appetites a bit by adding different seasonings to stews and by inventing new topers for meat pies. Zipper sauces and various vegetables may be required to extend the meat and its flavor to more servings.  
CORNBREAD SHORTCAKE, a sturdy main dish, using little

### Public Health Notes

J. A. Olean, M.D., Director  
Big Spring - Howard  
Midland-Ector-Howard County Health Unit

The progress made in promoting maternal and child health can be judged by studying the proportion of mothers and babies who die each year in this country. During 1941 there were born alive 2,513,427 infants.

During 1941, 7,956 mothers died from causes due directly to pregnancy and childbirth—a rate of 32 deaths per 10,000 live births. In 1940, 8,876 mothers died—a rate of 38 and in 1939, 9,151 mothers died—a rate of 40.

The 1941 maternal mortality rate (32) was the lowest on record for the United States. There are still, however, far too many maternal deaths. Of the 7,956 deaths of mothers in 1941, 3,034 (38 per cent) were due to infections; 2,031 (25 per cent) to toxemias of pregnancy; 2,032 (26 per cent) to hemorrhage, trauma, or shock; and 859 (11 per cent) to other puerperal causes. Abortion was responsible for 1,384 (17 per cent) of these maternal deaths.

These figures emphasize certain facts. The proportion of maternal deaths is slowly decreasing. Abortion is dangerous to the life of the mother. Good care and supervision all through pregnancy and at birth will reduce the loss of life due to infection, toxemias and hemorrhage. In most instances, the baby is also sacrificed. Parents and mothers must take every precaution to avoid such tragedies. Good doctors, a well-equipped hospital and efficient nurses will serve them best.

(To be continued)  
(In Texas, during the past ten years, maternal deaths dropped from 76 to 38 per 10,000 live births. In 1933, a total of 103,806 live births resulted in 835 maternal deaths, while during 1942, the live birth of 132,175 babies cost

the lives of 494 mothers. A factor in keeping our maternal death rate at its present level is the failure of prospective mothers to realize their greater safety in placing themselves under the continuous supervision of a good physician throughout pregnancy. The value of good care cannot be over estimated.)

In 1941 oil deliveries in 17 eastern states and the District of Columbia averaged about 50,000 barrels a day.

### Trucker Fights Off Bandits

CHICAGO—Clifford Overley's refusal to cooperate with three bandits saved him \$120. Overley, a Glencoe, Minn., truck driver, fell to the ground when the men attacked him, and fought off their attempts to pick him up by kicking at them. One of the trio held Overley's arm long enough to remove his wrist watch. But Overley's wallet with \$120 was not disturbed.

### New Mex. Workers Comin Into U.S.

MEXICO CITY, Oct. 21 (AP)—Mexican laborers returning from the United States after completion of work contracts will be replaced by others, the foreign relations ministry said last night. Some are returning to avoid cold weather in the United States, others to be with their families, but they may receive new contracts later, it was explained.

### Kate Smith swaps stories with Mrs. Edna Nelson of Olympia, Washington

**WAFLE-LOVERS!** Here's a time-saving, trouble-saving idea. Mrs. Edna Nelson of Olympia, Washington writes:  
"I'd plan to have waffles for Sunday morning, then there wouldn't seem to be time. So I decided to make the batter on Saturday evening and keep it in the refrigerator.  
"And my waffles are as good on Sunday morning as if I had just made them! Calumet's 'double-action' takes care of that. I have used Calumet for twenty years exclusively and you couldn't hire me to use any other brand."

**"I'M PASSING** your suggestion along to all my waffle-loving friends, Mrs. Nelson," Kate answers. "They ought to find it real helpful... so thanks a lot.  
"I'm also sending you a favorite recipe of mine for cottage pudding—easy as nothing to make and grand-tasting anytime. I hope you like it."  
\*Listen to "KATE SMITH SPEAKS," CBS Network.

### Kate calls it "Delicious Cottage Pudding"

2 cups sifted Swans Down Cake Flour  
2 teaspoons Calumet Baking Powder  
1/2 teaspoon salt  
3 tablespoons shortening  
1 cup sugar  
1 cup milk  
1/2 teaspoon vanilla  
each addition until smooth. Add vanilla. Bake in greased pan, 8x2 1/2 inches, in moderate oven (350° F.) 50 to 60 minutes, or until done. Serve hot with lemon, chocolate, or cherry sauce.  
(All measurements are level.)

### MIGHTIEST WEAPON OF THE WAR!

**OUR food can lighten the task of our soldiers—can help rehabilitate the peoples of liberated countries—can win lands without a shot being fired—can shorten the war and write the peace.**  
That means less of some foods for you here at home. But it doesn't mean that you won't be well-fed. You will be. Your Government promises that solemnly. But you are asked to help by doing four things:  
**1. PRODUCE FOOD.** Bring your Victory Garden to full harvest. Help out on a farm or in a food processing plant if you can.  
**2. CONSERVE FOOD.** Can and preserve food. Cut waste. Use every crumb, every drop. Stretch your food supply, by eating the most nutritious foods. Substitute plentiful for scarce foods.  
**3. SHARE FOOD.** Put the war's food demands first. Share the food supply willingly with your armed forces, your Allies, your neighbors.  
**4. PLAY SQUARE WITH FOOD.** Accept no rationed foods without giving up ration stamps. Pay no more than top legal prices.

**Plane Tested For Distance Flight**

WASHINGTON, Oct. 21 (AP)—A tiny Mexican-made plane, in which Ramon Leal Diaz, Mexican aviator, plans to fly from Monterrey, Mexico, to Toronto, Canada, was put through test maneuvers yesterday.

Gen. Gustavo Salinas, head of the Mexican air force, pronounced the test successful. The plane named "Minero Mexicano," was made in the shops of the national defense ministry.

**Kraut, A Good Source Of Food Value**

By RHEBA MERLE BOYLES  
Co. Home Demonstration Agent

At this time we are getting plenty of fresh cabbage on the market at reasonable prices. There is likely to be a shortage of fruit in meal planning for the next twelve months, but that does not mean that meals have to be short of Vitamine C, found abundantly in fruits.

You can substitute dishes using sauerkraut to furnish part of that essential vitamine C, and you not only will get a variety in your meals, but you'll be serving a food rich in iron, calcium and phosphorus.

You may get bulletins on kraut-making from your Home Demonstration Agent office.

Here's some sauerkraut recipes your family will like:

**Sauerkraut and Carrot Salad**  
1 c grated raw carrots  
1 c sauerkraut  
1-2 c nut meats  
1-2 c salad dressing

Chop the kraut slightly or cut some of the longer shreds. Mix all ingredients and serve on lettuce leaf. The carrots give an attractive color. The addition of chopped cucumber pickle or green pepper adds to both appearance and flavor.

**Tomato and Kraut Salad**  
(Serves 4)  
1-2 c kraut  
2 hard cooked eggs

2 tomatoes  
Lettuce  
Salt and pepper  
1 small onion  
Green pepper, if desired  
1 T mayonnaise

Arrange 3 slices of tomato on lettuce leaf in individual salad plate. Chop onion, pepper and cooked egg white and mix with Kraut. Add mayonnaise and seasoning. Place in center of sliced tomatoes. Put egg yolk through sieve and sprinkle over top. Garnish with parsley or green pepper. Note: This mixture may be used as a stuffing for a stuffed tomato-kraut salad.

**Kraut and Potato Scallop**  
1 qt. sliced cold boiled potatoes (4 c)  
2 c sauerkraut  
1 1-2 c sweet milk  
2 T butter  
1 c chopped peanuts  
2 c bread crumbs

Butter a baking dish. Mix the crumbs and nuts and place 1-2 in baking dish, then add a layer of kraut and a layer of potatoes. Repeat until all potatoes and kraut are used saving enough crumbs and nuts to cover the top. Pour the milk and salt over top, sprinkle with paprika, dot with butter. Bake in slow oven about an hour.

**Veteran FBI Man Receives A Medal**

WASHINGTON, Oct. 21 (AP)—The dean of FBI agents, James G. Findlay, was called to headquarters today to receive a medal from Director J. Edgar Hoover for remarkable attention to duty.

Findlay, vigorous at 62, never has missed a day for illness since he joined the Federal Bureau of Investigation in August, 1911.

**GIVEN DECORATION**

MEXICO CITY, Oct. 21 (AP)—Ezequiel Padilla, secretary of foreign relations, was presented the decoration of "Prominent Americanist" by the Pan-American Legion. The presentation was made yesterday by Col. Anibal Cervantes.

Approximately 90 out of every 100 men inducted into the U. S. army receive specialists' trainings.

**LONG HOPELESS NIGHT**

In the glare of floodlight against the sky, this sentinel box rises above the barbed wire as an ominous warning to prisoners of war. Through War Prisoners Aid, member agency of the National War Fund, facilities for recreation, education and spiritual welfare, distributed to prisoners-of-war, bring new hope into the lives of these men.

**FALL VEGETABLES**

LAREDO, Oct. 21 (AP)—The first solid carload of fall and winter vegetables to move from the Laredo district rolled out this week.

The car included beets, eggplants and squash.

U. S. supplies of citronella oil were cut off when Japan seized the eastern tropics.

**Texans Listed As Prisoners**

WASHINGTON, Oct. 21 (AP)—Fifty-one Texans were included in a list of 897 United States soldiers who the war department announced today are held as prisoners of war by Germany.

The Texans included:  
Brown, Staff Sgt. Joe H.—Alva Brown, father, % W. R. Gostin, Gainesville.  
Champion, Staff Sgt. John G.—Joe A. Champion, father, 111 Elizabeth St., Brownsville.  
Field, Tech. Sgt. Lloyd E.—Mrs. Gussie M. Field, wife, 403 Poplar St., Palestine.  
Landry, Pfc. Edward—Marcelus Landry, father, 723 4th St., Port Arthur.

**IF YOU CAN SMELL IT**  
*Don't buy it!*

Does your coffee "bite" like a sergeant's bark? Is one package "good" and another "terrible"—or tasteless, or weak, or rancid? Well, there's a reason... maybe two or three. To be sure, a coffee that doesn't have certain good qualities to begin with won't gain them by lying on a grocery shelf.

**ALWAYS OBSERVE ONE CAUTION**  
If you can smell the coffee in the package, don't buy it! It means the freshness of the newly ground coffee is evaporating. When freshness evaporates, losses simultaneously occur in flavor and strength and richness. A package this week, though of identical blends, won't taste like last week's.

**ESCAPING AROMA MEANS LOSS**  
To eliminate any such possibility, we developed for ADMIRATION Coffee, when tin went to war, a special, scientific, aroma-proof package. It's called the Triplex LAMOFILM Package. Admiration's wonderful aroma can't leak from it unless of course the package is dropped or its seals are otherwise loosened. Four walls of treated paper lock in the goodness, three of which are moisture-proof.

**MOISTURE CAUSES RANCIDITY**  
Moisture seeping into freshly ground coffee causes rancidity. ADMIRATION'S Triplex LAMOFILM Package is twice sealed against moisture. First in the inner liner. Here two sheets of grease-proof paper are bonded together with a film of rubberized cohesive. The second proofing is in the cellophane, which is wrapped around the entire Admiration Lamofilm package. For extra precaution, the cellophane is heat-sealed.

**ADMIRATION IS ALWAYS FRESH**  
Buy your Admiration Coffee in the Lamofilm package—and save the difference. You'll enjoy a roast of the finest green coffee money can buy, expertly and consistently blended. Each package tastes exactly like the one before... for Admiration's freshness is fully protected. TUNE IN PARKER WILLSON AND HIS GANG, 12:30 NOON WEEKDAYS, LONE STAR CHAIN.

**Duncan's Admiration Coffee**  
IN THE Lamofilm PACKAGE

Competition In The Air

A shower of petitions recently filed with the Aeronautics Board at Washington indicates the keenest kind of competition in prospect between air lines after the war. This is a radical change from the first decade of commercial aviation. Heretofore, the only competition has been between major cities tapped by more than one line.

would be needed, and also that the local travel on the routes of the present lines would increase so much that it would offset any loss in "through business" which the new competition would entail. Our own section is apparently a very coveted territory by several airlines. In addition to the numerous applications for north-south service across West Texas, the Texas & Pacific railroad has come into the picture with a proposal to establish air transport service paralleling its rail lines.

New York Underworld—

Visitor Finds It Easy To Get Lost In Subway

He boarded the wrong subway trying to get 50 blocks to the office and traveled approximately 126 miles getting back from where the express finally let him off. There are miles of underground railway too. All you see through the underground's gloom are blank tunnel walls, but these are a scenic improvement over the flats and dumps that flank most above-ground tracks.

You can't go to the deepest point under Manhattan, like you do to the top of the Empire State building. It is 700 feet below sea level and it is the Catskill water tunnel where it dives under East river. There are 5,122 miles of water mains down below, all full of water and not taking visitors just now. The sewer people were cooperative. Just pick a nice sewer out of any of the 550 miles of them, they said, and we will let you stroll around. But by the time we reached the nearest and biggest one New York had been having a rain and the water was rising in the sewer to the enthusiasm of your correspondent. So all the sewer data are strictly second-hand.

At noon you can go below again via the escalator to the Center's underground shopping district, eat lunch in half a dozen languages at the international cafes and tea-rooms, call on your banker, send a telegram, mail a letter, get a haircut, buy a suit and some socks and go to a show—all without seeing the light of day.

There are, for example, 16,990 miles of electric cable, 1,214 miles of gas mains, 52.83 miles of steam tunnels carrying heat to Manhattan's buildings, 9,356,606 miles of telephone wire—enough mileage to get one to the moon 39 times, if one wanted to go there. Then there are more miles and miles of telegraph wires, high pressure salt water lines for fire-fighting, fire department signal wires, burglar alarm wires, and no telling what else because somebody is always digging up something no one knew was down there. Take the time they built the subway under Broad St. and came upon a sunken road which the early Dutch had built of palmetto logs over a bog.

Washington Daybook— One Certainty; Your Tax Bill Is Going Higher

By JACK STINNETT WASHINGTON — In the next few months, you are going to hear more about taxes than you have heard for years and I'm afraid a lot of it is going to be just plain unadulterated eyewash. The reasons are complicated, but the simplest one is that next year is election year and our national legislators are not keen to anger any group of constituents with a brutal tax program. More difficult to understand is the Treasury's 10.5 billion dollar tax program, and Economic Stabilizer Fred M. Vinson's insistence that it go through as proposed.

Both Treasury Secretary Morgenthau and Vinson have made it pretty clear that they are not nearly so interested in revenue as in holding the line against inflation. If that is true, their tax program should be just about three times what it is. Using round figures, the American people will put about \$150,000,000,000 in their pockets this fiscal year. If they pay everything—in sight, they can't spend more than about \$90,000,000,000 of it. That leaves a surplus of \$60,000,000,000. Existing taxes (of all types) and war bonds will draw off something more than \$35,000,000,000 of that. That leaves \$25,000,000,000 that might be diverted into inflationary channels.

In the Wake of MURDER By ADELINE McELFRESH

Chapter 22 The tree wavered, fiery brands dropping on the highway. Jane pressed the accelerator against the floor boards. Then the tree was falling. For the split second that it took for the car to plunge across the danger area, Jane was conscious of nothing except the tongues of flame that licked red, raw holes in the night. Then slowly, almost painfully, she realized that they had escaped the falling torch by the width of a bumper.

Resolutely, she pushed the questions aside, he couldn't—she wouldn't—think of them now. There was no time. Aunt Ella must have medical attention in a hurry. Jane slid behind the wheel and gave the starter a vicious kick that worked off some of her anger against Brad for not taking her into his confidence. After all, he could trust her. He should have known that. If he is a government agent. The six words were emblazoned on her mind like a front-page steamer.

Ex-Service Buttons To Be Issued Soon WASHINGTON, Oct. 21 (AP) — Honorably discharged service men and women soon will be authorized to wear government issued service buttons, Chairman Walsh (D-Mass.) of the senate naval affairs committee announced today. He said the joint army-navy personnel board had approved the lapel buttons after he pointed out that men of draft age who had been discharged from the armed services for physical reasons often were embarrassed because they could not wear uniforms.

## Watch Or Pompeian Art Easily Bought In Naples

NAPLES, Oct. 11 (Delayed AP) — Naples is having its biggest merchandising boom of the war as American and British soldiers crowd its counters to buy Christmas presents for mothers, wives or girl friends back home.

It is a happy hunting ground for the shopper, because he can dive into a crowd and come up with anything from a coral bracelet to a bottle of cognac.

Everybody in Naples seems to have something to sell. For example as you walk along a street a dark-haired stranger comes up and tells you in broken English: "You are lucky. My favorite grandmother has just expired at the age of 77 and left me a brand-new Swiss watch. It has 21 jewels. That is fortunate for me, but you are even more fortunate. Why? Because I am going to let you have this watch—it is dust-proof, waterproof and sandproof—listen, you cannot even hear it run—for only \$65. Long live free Italy!"

Then you both curse fascism and Mussolini and the bargaining begins. You shake the watch and if it ticks more than three times you make him an offer. You take out the back of the watch and show him that it has two and one-half jewels instead of 21, and that two of them are cracked.

"My own grandmother lied to me," he says. "What can a man believe? I will take \$22.50 for the watch. I will never trust that

grandmother again, dead or alive."

"Ten dollars—no more," you answer and start to walk away. By taking a series of short walks and getting called back each time you can finally get the watch for \$12. It is probably worth seven dollars but you can always sell it to another correspondent for five dollars more than you paid for it.

"You want to buy some cognac?" asks the street vendor, pocketing your \$12. By the time you finally stagger away he has sold you a one dollar bottle of cognac for four dollars, a fifty-cent bottle of champagne for three dollars, a two-dollar cameo brooch for six dollars, a ten-cent package of postcards for a quarter and a five dollar coral necklace for \$12. You arrange to meet him at the same spot the following day when he is going to sell you a 200-pound statue from the ruins of Pompeii for eight dollars, and don't think the average Neapolitan won't stay up all night to hammer out a statue he can sell for eight dollars. These industrious people will go to any length to turn an honest penny.

## War Dept. Will Issue Awards

First awards to civilian employees of the war department may be issued early in December, according to an announcement from Secretary of War Henry L. Stimson.

These will go to "civilian employees... who have contributed significantly to the successful prosecution of the war" and will be presented in three classes by the office of the secretary of war, office of the chief of staff, army air force, army ground forces and army service forces. They will be in the form of lapel ribbons with the emblem in color of the issuing unit. Additional strands at the base of the blue and silver affairs will denote higher awards.

The three classes of awards are: 1) Emblem of Civilian Service upon all employees having a record of six consecutive months of satisfactory service or to any granted one of the higher awards prior to six months service; 2) Emblem of Meritorious Civilian Service to all employees who have completed 10 years of satisfactory service, or to those who have suggested or been responsible for new methods of procedure, shown

exceptional initiative in developing skills of employees, extraordinary devotion to duty, building morale, etc., and 3) Emblem of Exceptional Civilian Service to be conferred by the secretary of war in person or his personal representative to those who have been responsible for development of skill or procedure on such a wide scale that it has resulted in more efficiency and economy of operation for the war department, or those who have shown such outstanding courage or risked their lives to save fellow employees.

**English Admiral Taken By Death**

LONDON, Oct. 21 (AP)—Admiral of the Fleet Sir Dudley Pound, who resigned early this month as

first British sea lord because of ill health, died today in London at the age of 66.

Sir Dudley directed the British fleet through four of its most critical war years and is credited with shaping more than any other man the course of Britain's modern naval policy.

He was taken ill while returning from the Churchill-Roosevelt conference at Quebec. He resigned as first sea lord Oct. 4 and was succeeded the next day by Admiral Sir Andrew Brounne Cunningham, who had been commander of British naval forces in the Mediterranean.
