### WHAT'S A BOOSTER

- Don McWhorter

I went to high school and attended football games and all of the other things that students did and still do. However, during these years I never once stopped to wonder where all Hart with a final score of 25-6. of the aid and money came from and the tickets at the ball games. I supposed that the ticket sales and the school taxes took care of it all. I thought that a Booster was the thing that you hook batteries together with when your car won't

I come to my adult age in a community with a football team and a band and now I discover that a Booster is one of the sources of the needed money and help for the team and band

I waded through three inches of water (mostly falling from the clouds) the other night to go to a now I are one." I was promptly team are: made a member of the Ropes Booster Club and I am very proud to be a member of the group who will back our agles in all of their events and even further.

Now I know what a Booster really is. It is one who cares and is concerned with the outcome of the years of high school in terms of what it means to the character building of the young lives of the young men and women who make up the student body.

These parents and teachers and friends of the Ropes Booster Club are that type of people and tney are voing full speed arad to make the youth of today the type of adults who can build a better world tomorrow. The boosters are more than the members of the club. They are all of us in Ropes who want to make this a better town. We can show our good sportsmanship and our deep concern for the character building of our youth in all sorts of usually offered on Friday evenings sandwiches, hamburgers, steaks,

the teams and band as they perform for only \$1.25. in the ir respective ways. If we support them today they will be able to support a better world tomorrow.

Students, when your battery begins to run down look for a "booster", the town is full of them.

Hart's Longhorns upset the Eagle Wes Bradshaw eleven this past Friday night at

The Longhorns led all the way, for the band and the concessions, but the Eagles had their great moment in the third quarter. The ball was handed to Ricky Braden, who was going for a pass. However, the way was opened up, and he ran 65 yards for the Eagles only touchdown of the game.

We don't know quite what to think about the weather. We don't think Mother Nature does either. We're back to that time of year when we run the air conditioner. and it's too cold, and it's too hot without it.

Football time is here. And the Eagles have already had their wings clipped. But this was just a warm up game, and we are sure the team will be back in full swing this Friday when we meet Wilson on the home gridiron.

We have thoroughly enjoyed three papers this week which Nadine Cain brought back to us while they were on a trip recentlp. They were issues of the Bryan County Star located in Caddo, Okla.; the Bonham Daily Favorite, located in Bonham, Texas; and the Graham Building, according to O. REVISED MOTOR VEHICLE INSPECTION ACT

(Part 5 of 5 Parts)

Austin - The most sweeping changes ever to be made in the State's Motor Vehicle Inspection Act became effective Septembr 1, according to Colonel Wilson E. Speir, director of the Texas Department of Public Safety.

Speir said the amended act, recently adopted by the Texas Legis. lature, will place Texas on a 12 month inspection period The measure increases th inspction fee from \$1.75 to \$2.00, and moves the location of the inspection sticker from the right of the windshield to the left. It also adds exhaust emmission systems on 1968 or later vehicles, and exhaust systems on all vehicles, to the list of items to be inspected.

Speir said that all vehicles subject to inspection must be taken to an approved motor vehicle inspection station between September 1, 1969, and April 15, 1970. Upon satisfactory completion of the inspection procedure, the mechanic-inspector will remove the old sticker the game with the Wison Mustangs The Lord's Acre Program for this and affix the new one.

contain a number nine, and will expire on the last day of Septembr, 1970. A sticker issued in January will expire at the end of January, 1971," he added.

The DPS director urged all motorist to have their cars inspected early to get ready for fall and winter driving, and to avoid long lines which may develop in April as the deadline draws near.

In addition to the new items to be inspected, inspection stations will check brakes, lighting equipment, horns and warning devices, mirrors, Mr. and Mrs. W. C. Morehead windshield wipers, and front seat and Mrs. Tom Boles of Amarillo belts in vehicles where seat belt anwere here over the weekend at-chorages were part of the manufactending the bedside of Mrs. Boles' turer's original equipment on the father, Robert Mayfield who is in vehicle.
