Local Bank Deposits Increase 2.6 Million

Agenda for the meeting of the City Council on Tuesday, July 16, includes a discussion of fire department requests and consideration of a partial payment of the regional law enforcement communications center.

The Bailey County Cancer Society sponsored "Bike-A-Thon" set for Saturday, July 27th from 12:00 noon to dark has been cancelled due to uncontrollable circumstances.

Two Muleshoe members of the ALMO Senior Babe Ruth All-stars will compete with squad members from Littlefield, Sudan, Morton, Olton, Dimmitt, Amherst and Anton, on Wednesday, July 17, through July 20 in Lubbock at the regional tournament.

Mrs. Morgan Locker is a patient at Central Plains Hospital in Plainview, after undergoing surgery July 10.

Mrs. Charles Arnold was recently dismissed from Scott-White Hospital in Temple. She is the daughter of Mr. and Mrs. D. Clements of Muleshoe. She is staying with one of Mrs. Clements' sisters in Denton.

Mrs. Eric Smith is President of District XVII of the Texas State Teachers Association and will be attending the Leadership Conference in Austin July 22-25 and will also attend the Local Association Presidents' conference in Austin July 30 and 31.

Mrs. Smith and her husband Eric returned July 4 from Chicago where they were delegates to the National Education Association convention. The 112th annual meeting of NEA and the 53rd NEA Representative Assembly was held at McCormick Place, located on the shore of Lake Michigan. The theme of the meeting was "Crisis in Confidence 1974: Challenge for the Classroom."

Mrs. Smith and her husband were among the 8,686 delegates present for the Convention presided over by Mrs. Helen Wise, NEA President. In addition to this number, there were 487 exhibitors and 1,160 non-delegates registered for the convention.

New officers presented at the closing session on July 3 were President James A. Harris of Iowa, Vice-President Willard McGuire of Minnesota, and Treasurer John T. McGarigal of Massachusetts. Mrs. Vivian R. Bowser of Houston, who was elected to the executive committee at the delegate

The overall view in banking circles in Muleshoe and in area banks is that financial statements are considerably "up" from a year ago at this same time. There are hefty increases in deposits.

In the Journal's survey of area banks, inflation, increased economic activity in the area, plus the deposit of last year's bumper crops, were cited as contributing factors for the rise in deposits and loans.

One banker commented, however, that the facts of the general economy "are not looking good - not right. We surely need some rain."

Two area savings and loan companies also show increases in savings and loans.

In Muleshoe, the two banks showed combined deposits of \$26,679,506.96 and combined loans of \$13,656,652.22

Those banks deposits are up

approximately \$3,500,000 both banks as opposed to 19.3 figures. Local loans from banks are up approximately \$25,000 from June 1973. The figures are compared to a combined deposit of \$20 million dollars in 1973, \$17 million in 1972. Combined loans of 11 million dollars in 1973, 10 million for 1972.

"There are traditional highs in the January and April bank call, and mid year's calls most likely fall off," one banker said.

adding "but we are up from last year, down from last quarter."

Another banker commented that farmers are "taking a lot of money to make crops this year; everything - seed, fertilizer, and all - is higher; and no rain."

Time deposits are becoming a larger proportion of total deposits, with depositors more conscious of interest rates, another banker added. As the legal maximum interest rates have

increased since last June, this type of deposit has increased, he added.

The Muleshoe State Bank showed an increase of \$5,061,537.56 in deposits this year. Last year's total was \$10,158,506.04 compared to this year's \$15,220,043.60.

Loans at the Muleshoe State Bank totaled \$8,183,394.24 in 1974 compared to \$6,883,023.44, in 1973 for an increase of

20 New Housing Units In Planning Stage

Twenty new houses for Muleshoe are in the planning stage, with further plans to double that number within a year, Planning Director Jose Valdez of Lubbock told the Journal Friday.

"This is the first self-help housing group in Texas," Valdez said. "Adequate housing in rural areas through self-help of the homeowners-to-be, similar to the assistance at an old fashioned barn raising, is the method. Low-income families can achieve home ownership through this program. Average price of house and land is around \$14,000."

The first 20 houses will be

organized as two groups of ten. They may be either tract (multiple) sites or single lot scattered sites, he said.

The Rural Housing Alliance granted funds in May for the financing of the four-month planning stage, following a proposal by Chicanos Unidos in January this year, Valdez said.

Prospective sites, inspections and negotiations for real estate within the city limits of Muleshoe are being considered at present. A November deadline has been set for beginning construction.

"Cooperation has had no end from officials here and with the backing of the Governor's community affairs office," the planning director said.

The Farmers' Home Administration is mortgage, with District Superintendent Arch Fowler, Lubbock and Clinton Kennedy, Muleshoe, assisting in planning.

"Depending on legislation pending in Congress now, of interest to area farmers, is a possible 'spin-off' program consisting of farm labor housing," Valdez said.

Self-help housing is a method

NEWEST DIRECTOR - Robert Hooten is the most recent director elected to the Tri County Savings and Loan Association. Other directors are Frank H. Ellis, Donald W. Harmon, Linda Murray and Alex H. Williams.

Little League All Stars Play In Olton Monday

Muleshoe Little League All-Stars will play Olton at Olton for the district tournament honors, Monday, July 15. Spring-lake-Earth will play the Plainview All-Stars at 6 p.m., also at Olton. Both games are single elimination.

Announced June 25, Muleshoe's all-stars include Apolonio Sanchez, Russell Magby, Victor Leal, Mike Northcutt, Monty Vandiver, Sam Whalin, Terry Burton, Cody Crittenden, Mickey Powell, Johnny McDonald, Dennis Steinbock, Keim Smith, Russell Windham and Andy Rodgers.

First alternate is Dean Estep and second alternate is Manuel Garcia.

The manager of the Muleshoe Little League All Star team is Elvis Powell and the coach is Butch Vandiver.

Circle Back Baptist Marks Fiftieth Year

The Circle Back Baptist Church will be observing its Fiftieth Anniversary this year.

The church voted to become a church the 5th day of October, 1924. It was first called Friendship Baptist Church and was later changed to the Circle Back Baptist Church. Charter members were: Mr. and Mrs. G.O.

Sharmon, J.E. Moore, Mr. and Mrs. J.M. Garner, Vess Garner, Miss Dewey Garner, Miss Rose Hamrick, Mr. and Mrs. W.H. Walker, Marion Walker, Miss Mattie Walker, Mrs. C.H. May, Mr. and Mrs. W.H. Watley. These first met at the Circle Back school house and was organized into a missionary Baptist Church. Bro. G.I. Brittan acted as moderator, Bro. J.W. Shaffle preached the organization sermon, W.H. Walker was elected church clerk October 5, 1924. They petitioned the State Plains Baptist Association for regular membership and Bro. W.L. Stewart was the first pastor.

In honor of the occasion a homecoming celebration will be observed Sunday July 14th. All former members and pastors have been invited to attend. The main speaker will be Dr. Straus Atkinson, area missionary from Plainview. Services will begin at 10:00 and a basket lunch will be held at noon.

The afternoon will be devoted to visiting to give everyone an opportunity to visit with old friends. Everyone that has been a member of the church of community is invited to attend this anniversary.

School Employs First Bilingual Teacher

Bilingual education, a new public school effort which begins in the first grade this September, is raising questions in two languages.

The answers, contained in the law itself and in policies adopted by the State Board of Education, are short and directly related to the needs of Spanish-speaking children. However, they may not be easily available to all concerned parents and other citizens.

Supt. Neal Dillman announced that Mary Ellen Gutierrez, who has worked in Muleshoe schools as a summer teacher's aid for three years, has obtained bilingual education endorsement, and will teach first grade, for

children of limited English-speaking ability.

Miss Gutierrez is a 1969 graduate of Muleshoe High School and graduated from West Texas State University, Canyon, in December 1973.

Teachers, such as Miss Gutierrez, who will teach children of limited English-speaking ability in all Texas schools with 20 or more Spanish-speaking first graders, must have a bilingual education endorsement. This endorsement can be obtained by attending a TEA sponsored training institute or an approved program at a teacher training institution. In addition the teacher must pass a Spanish language proficiency test.

If monolingual teachers are going to be in the classrooms required by the law (primary grades with 20 or more Spanish speaking children who know little or no English), they will have to train to reach the required degree of proficiency in Spanish. No deadline has been set, NEA says. They may teach on a special assignment permit and take the test again.

The whole purpose of the bilingual education law is to help the Spanish-speaking children learn English and at the same time keep up with English-speaking children in subject

Jaycee H.E.L.P. Project Climbs

Ted Barnhill, Project chairman of Jaycee's project H.E.L.P. reports ticket sales to be soaring. In less than one week, one-third of the projected \$19,740,000 has been reached and there are five weeks remaining in which to complete the goal established.

The automobile has been on display at various businesses in Muleshoe and at the Earth Rodeo. Barnhill advised that the tickets are going at a rapid rate, and anyone desiring a ticket, should contact him or any other Muleshoe Jaycee because they're all gone."

PLANE EXPLODES, PILOT SAFE - - - The charred and mangled remains of Lazbuddie Chemical Company's spraying service plane, "a total loss", lay in a cotton field some 200 yards from a house on Rex Steinbock's farm, southeast of Lazbuddie. The Wednesday morning accident left pilot Fred Locker, 18, with second degree burns on both arms and neck, in "good condition" Saturday morning at West Plains Hospital. Witnesses said that he "probably hit a warm air pocket (turbulence) as he was making a turn over the field, went down, with Locker escaping the plane before it exploded."

Cecil Todd To Hold Pre-Crusade Rally

A pre-crusade rally has been scheduled for July 17 at 8:00 at the First Baptist Church of Muleshoe, Cecil Todd, 40 year old evangelist from Joplin, Mo., and the evangelist from the Crusade in August will be here visiting. Todd will be accompanied by the Southland Gospel Couriers of Lexington, Kentucky. Also accompanying Todd will be his two daughters.

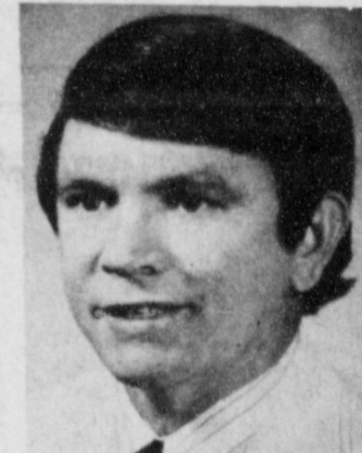

Todd is described as a "fiery young evangelist" by General Chairman H.D. Hunter, minister of the Assembly of God Church

here. Todd will be in Muleshoe seven nights August 12 through 18 for the "Meet Jesus" Crusade. Cecil Todd is the founder and director of the Revival Fires Ministry with headquarters in Joplin.

An office in the First United Methodist Church will be open from 8:30 a.m. until 5 p.m. daily as the Crusade office, with Mrs. Bill Johnson, secretary.

The Crusade will be held at the Muleshoe High School Football Stadium and is non-demonstrational. "Everyone, regardless of his religious affiliation, is welcome to come and greet Cecil Todd personally and enjoy the challenging program

that is planned," Gil Lamb, publicity chairman stated.

CECIL TODD

Dedication Speaker Methodist Bishop

The Fellowship Hall and the Educational Building of the First United Methodist Church will be dedicated Sunday afternoon, July 14 at 3:00 p.m. Bishop Alsie H. Carleton, Resident Bishop of the Northwest Texas and New Mexico Episcopal Area, and Rev. Carlton Thomson, Plainview District Superintendent, will lead the service.

Two former pastors will participate in the morning worship at 11:00 a.m. Rev. Waid Griffin, now of Lubbock, will lead the Pastoral Prayer, and the Rev. J.V. Lawler, now of Perryton, will bring the message. Letters have been received from the Rev. Frank Perry and Clarence Stephens, expressing their best wishes

Localities Explain Stir Over Unleaded Gas

Model T's that used white gasoline and all 1975 model automobiles out this September will "go fine" on the new unleaded gasoline. Post-1971 models will perform satisfactorily also, Darrell Turner of Town and Country Motor, told the Journal.

A federal law requires most 1975 model automobiles from 60 to 85 percent to be equipped with the new catalytic converter exhaust system and redesigned fuel tanks which use only unleaded rather than the normal premium or regular gasoline.

Beginning July 1 service stations in Muleshoe across the country with an annual volume of 200,000 gallons of gasoline were required by federal law to furnish unleaded gasoline to their customer.

A spot check around Muleshoe revealed nearly a dozen stations were already selling, or are ready for delivery of, the new gas. Some stations converted old regular or premium tanks into storage for the new unleaded gas; several others have brand new tanks for the non-polluting gasoline. New nozzles are necessary part of servicing with the new gasoline.

"It will be illegal for the owners or the service station operator to put leaded gasoline into the '75 model cars," John Crow of Crow Chevrolet said. "The car owner will also be liable and they can both be fined, up to \$10,000."

The autos due out this fall will have gas-tank openings that are too narrow to take normal pump nozzles. Only the special nozzles used to dispense unleaded gas will fit these openings.

Robert Hooten, Muleshoe Motor Company, said about the stir over unleaded gas, that the old-style leaded gas funneled into the tank of a new-model '75 car could wreck the effectiveness of the expensive catalytic converter, making the

converter unoperative. New catalytic devices cost about \$150 to \$200 and are designed to chemically remove pollutants from the gasoline and convert exhaust emissions into harmless gases.

The purpose of the Environmental Protection Agency's federal order is to help clean up the air and prevent lead poisonings in heavy concentrations of gas fumes. PRICE RANGE

Most Muleshoe service station operators and distributors contacted said the price of unleaded gasoline is either the same as premium gas, or one or two cents less than premium and one or two cents more than regular.

On first call for the new unleaded gas at a local station was thirty minutes before midnight closing time July first when a traveling motorist was "grateful to find the new gas."

Several operators say there are sales of the unleaded gas to older cars, mostly "just to try it". One operator said

Con't on page 2, Col. 3

Local Postal Changes Cited

Postmaster Spencer Beavers has announced that there will be no afternoon collections made from letterboxes after Friday July 19. Letters will be picked up by carriers on their routes and there will be a collection box at the Hospital, the Crossroads and the Post Office. These listed boxes will be tapped at 3:30 p.m. each day.

Triticale Bread Household Word

Muleshoe area residents have enjoyed various and sundry baked goods for the ovens of Mrs. Joe Carroll at the Dinner Bell Cafe for the past several years. Bailey County's own Triticale flour is the main ingredient of these taste-tempting morsels.

While Triticale products are relatively new to some areas, Triticale has been a household word to Muleshoe residents, farmers and ranchers. Some four years ago Triticale producers found Muleshoe growers to be receptive to the idea of trying something new in the small foodgrain line. Steps were then taken to establish suitable growing acreage, offices and a base of operations here. This year is the third year of major production for Triticale for food consumption. Triticale flour and mixes have been on local grocer's shelves for about the same length of time. Muleshoe farmers have been responsible for pioneering this controversial wheat-rye cross.

Over sixty Muleshoe and surrounding area farmers contribute approximately 4,000 acres to both food and seed grain production of this profitable crop. From its initial start in Muleshoe, Triticale has spread to Oklahoma, New Mexico and Kansas, and may well prove to be the "coming thing."

Mrs. Carroll-Rena has been instrumental in testing this new grain product for food consumption. During this testing period, she has served pancakes, piecrusts, donuts and breads made with Triticale flour. All have been received with excellent results and highly praised by travelers as far away as the West Coast.

Mrs. Carroll's products have been sent to the College of Home Economics at Texas Tech for testing purposes and to New York and California for promotional purposes.

Being a resourceful woman, Mrs. Carroll is solely responsible for developing her own recipes for the products

Man Injured In Tractor Mishap

Thursday afternoon July 11 Raul Gonzales, a middle aged man from Earth, was brought in from a tractor accident. His son reported that the tractor had gone off into a ditch and had rolled over onto him. He was transferred to Lubbock's Methodist Hospital.

Gonzales was working for Larry Tunnell of Earth at the time of the accident.

FIRE REPORTED . . . Thursday afternoon about 3:30 the fire department was called to a fire at 512 S. 1st. The fire was in the back of the house belonging to Lupe Quiroz who is the manager of the Alamp's 7-11 grocery store here in Muleshoe. Tommy Black said that "there was not much damage reported and the cause was unknown."

Banks...

Cont. from Page 1

\$1,300,370.80.

The First National Bank of Muleshoe had a total of \$11,459,463.36 in deposits as of June 30, 1974, as compared to \$10,503,868.95 at the same time in 1973. This shows an increase of \$955,594.41 from the same time last year.

Loans at the First National Bank totaled \$5,473,257.98 at the end of June 30, 1974 compared to loans of \$5,158,298.60 in 1973 this is an increase of \$314,959.38.

Tri County Savings and Loans savings were up \$1,766,939.24 from the same time last year. Savings for 1974 were \$8,962,490.59, compared to \$7,195,552.35 in 1973. Loans were up \$2,193,556.63 from last year's loans of \$7,886,161.12 compared to \$10,079,717.75 this year.

First Federal Savings and Loans of Clovis, N.M. savings for 1973 were \$53,948,325.39 compared to \$60,387,225.89 this year at the end of the quarter. This is an increase of \$6,438,900.50. Loans were up \$5,184,896.94 from last year's \$56,125,657.62. This year's loans were \$61,310,554.56.

In a check around the area the following bankers reported in-

creases also:

Mackey McCarty, president of the Citizens State Bank of Earth reported that due to 1973 crops and high prices deposits in that bank were up by \$1,649,787.32. Total deposits at the time of this call was \$5,920,332.09 compared to last year's total of \$4,271,144.77. Loans also increased by \$391,156.57. The total loans in 1973 were \$2,621,763.53 compared to \$3,012,920.10 this year.

Deposits were up \$1,026,487.60 at the First State Bank of Bovina this quarter. At the end of this quarter in 1973 there \$4,887,225.18 compared to \$5,913,712.78. Loans were at \$4,530,762.32 compared to \$4,035,327.84 in 1974 a decrease of \$495,434.47.

Deposits at the Friona State Bank increased by \$2,594,573.11 this year. Last year's deposits were \$15,932,000.00 compared to \$18,526,573.11 this year. Loans were \$12,258,000 last year compared to \$13,545,136.06 this year for an increase of \$1,287,133.06.

At the First State Bank in Morton deposits were listed as \$11,794,514.63, which is \$2,475,449.61 more than the 1973 figure of \$9,319,065.02. Loans also increased this year by \$492,583.90. The 1973 figures were \$7,612,639.25 compared to \$8,105,223.15 this year.

Gas...

Cont. from Page 1

"I've tried it and it runs good." Another added that his mileage was better, "two or three miles more per gallon, but just using it a few weeks".

"Manufacturers claim that most '71 or later automobiles have a lower compression and can perform satisfactorily on non-leaded gasoline," Darrell Turner commented. "The non-leaded fuel ignites before the engine and may cause a pre-detonated 'ping' in some older cars. The main advantage of the expensive new equipment and non-leaded gasoline will be easier and less tuning of the motor and better gas mileage in the new cars."

Unleaded gasoline is required to have an octane rating of at least 91 for regular, more for premium, the amount of lead less. Planners are now talking about doing away with head-end gas by as early as 1978, a government bulletin says.

Someone has said in conclusion "You can have a dirtier engine with a cleaner exhaust, and still keep the air clean."

Muleshoe ...

Cont. from Page 1

Mrs. Burt Seales' sister from Vedford, Ohio is visiting here. She hasn't seen her sister in 25 years. Her brother, Alvert Garmau is also down from Roswell, N.M. for a reunion Sunday.

May sales of Series E and H United States Savings Bonds amounting to \$13,560 in Bailey County were reported today by County Bond Chairman Mrs. Dean Sprabary. Sales for the five-month period totaled \$42,155 for 70% of the 1974 sales goal of \$60,000.

Sales in Texas during the month were \$18,911,460--while the year-to-date sales totaled \$99,363,274 with 42% of the achieved.

Gerald Orr, Director of Music at Jacksonville Baptist Church, will be presenting the Youth Choir of First Baptist Church in Jacksonville, Texas for a program at Richland Hills Baptist Church, Tuesday night, July 16, at 8:00 P.M.

The public is invited to attend this service.

Mr. and Mrs. Bill Lancaster, Joyce Terrel and Betty Jean Terrel visited in Artesia, New Mexico with Mr. and Mrs. Donald Ray Lancaster and family. Betty Jean Terrel will return to school July 18 after visiting with her grandparents.

Two students from Muleshoe have earned "Distinguished Student" ranking at Texas A&M University, announced Registrar Robert A. Lacey.

The undergraduate honor is awarded students who have excelled academically. Recipients must earn at least a 3.25 grade point ratio (out of a possible 4.0) during the most recent grading period.

"Distinguished Student" ranking is limited to 10 percent of TAMU's undergraduate enrollment.

Muleshoe students are Sam E. Feagley, senior chemistry, gley, 1805 W Ave H, and Gary F. Lackey, junior animal science, son of Jesse H. Lackey, Rt 5.

Mankind will do almost anything to make money just so long as mankind worships wealth.

Two Months Given To File For Sub-Minimum Wage

WASHINGTON -- Employers authorized to employ full-time students under the Fair Labor Standards Act at subminimum wages have been given an additional two months to file applications with the nearest regional office of the Wage and Hour Division, U.S. Department of Labor.

These include agricultural and retail or service establishments and institutions of higher education.

Bernard E. DeLury, assistant secretary of labor for employment standards, said that the grace period permitting employers to hire immediately, without waiting to complete and submit the new forms, has been extended through Aug. 31.

An initial period ending June 30 had been established when the new Fair Labor Standards Act amendments became effective May 1, 1974.

DeLury said the additional

Triticale...

Cont. from Page 1

bread' will be made available on grocer's shelves during the month of July. The base recipe for the commercial "Tritibread" was developed by Ms. Maxine Billinger, a graduate student in the Department of Food and Nutrition in the Texas Tech University College of Home Economics. Ms. Billinger has been conducting research with Triticale while working toward a master's degree.

Triticale is a hybrid cross of rye and wheat and has a higher protein level than either of its parent grains. It is sturdy and its yields will exceed other small grains on the same lands with the same conditions prevalent. The baked product from Triticale flour is exceptional in texture, color, and nutritional value.

Preliminary surveys have been conducted during the month of July with Lubbock residents and the results of these taste tests will be used to advantage by the Triticale people.

Housing...

Cont. from Page 1

by which low-income families can achieve home ownership. Families form an informal association, elect officers, and agree to help each other build their houses with technical assistance provided by a competent construction supervisor.

time is necessary due to the large number of applications still to be distributed, completed and acted on.

He said much employment of full-time students at subminimum wages without certificates continues to be conditioned upon:

(a) Full-time student employment not exceeding the proportions permitted in the regulations;

(b) Payment of not less than 85 percent of the minimum wage applicable under Section six of the Act;

(c) Compliance with the requirements respecting permissible hours of employment during the day or week, oppressive child labor, employment only outside of school hours, abnormal labor conditions and higher wage standards in other laws or in agreements; and

Highway Fund Feud Compromise

DALLAS, TEX.--Seidom does a political decision satisfy everyone. But the constitutional convention has made a good attempt at an all-encompassing solution to the highway fund problem.

Presently three quarters of all revenues from the state gasoline tax goes to the fund. Opponents wanted to freeze income at present levels so future increases in the fuel tax could go into general revenues. The proposal was to have been considered as a separate submission on the revision ballot.

But highway fund proponents balked.

So a compromise was struck. The separate submission was withdrawn, and an exemption was added allowing revenues from a petroleum products manufacturing tax to go into the general fund.

Texas' nickel-a-gallon gasoline tax is one of the lowest in the nation. But only about one of every four gallons of gasoline produced in the state's refineries is consumed by Texans.

Police Report

Friday morning about 9:15 the Highway Patrol, ambulance and fire station answered a call to an accident reported one and one-half miles west on the Clovis Highway. Tommy Black reported a truck had turned over but there was not a fire. The fire department washed down the road to prevent a fire.

Frank Ellis reported that there were no injuries and apparently the stock trailer the driver of the automobile was pulling started whipping, causing the accident.

Investigating the accident were Weldon Parson, Louis Cardinal and Frank Ellis.

Since last Tuesday at noon the Police Department picked up two aliens and released them to the Border Patrol.

Picked up was an escapee from Vernon which the police are holding for Vernon.

Forist Williams of the Police Department picked up a sleeper Tuesday.

Jim Barnes of the License and Weight Department had picked up one for being overweight. The charge was \$130.00.

No politician would accept money or favors if there were not citizens ready to give money or favors.

MRS. LYNIAL RAY ASHFORD

Miss Isbell Weds Lynial Ashford

A double ring ceremony July 5 at 7:30 p.m. in the Trinity Baptist church in Muleshoe united Miss Shelia Denise Isbell and Lynial Ray Ashford, Rev. V.L. Huggins officiated at the ceremony.

The bride is the daughter of Mrs. Sue Daniel and the groom is the son of Mr. and Mrs. Ancel Ashford.

Traditional music was provided by Mrs. Pat Johnson, organist who accompanied Tammy Webb as she sang "We've Only Just Begun", "Twelfth of Never" and "The Lord's Prayer". The couple stood before a candleabra flanked on each side by baskets of blue and white carnations.

The bride, given in marriage by her grandfather, Sam Isbell, was attired in a floor length gown of silk organza trimmed with Venetian lace, which featured a chapel length train. Her shoulder length veil of illusion was attached to a tulle of Brodone lace and seed pearls. She carried a bouquet of carnations fashioned with stephanotis and love knots atop a white Bible.

For something old the bride wore pennies minted the years of their births, something new was her white Bible, something borrowed was her wedding dress and her garter was something blue.

Miss Jotanna Bowman of Clovis was maid of honor. She was attired in a blue floor-length

dress of organza and carried a long stem carnation.

Johnnie Williams of Lawton Okla., was best man, Nick Black and Keith Harp of Muleshoe were ushers.

Miss Jimmy Bruton of Coleman, sister-in-law of the groom registered guests.

Miss Jimmy Bruton of Coleman, sister of the groom registered guests.

The Fellowship Hall of the Trinity Baptist church was the setting for the reception which followed the ceremony. The table was laid with a white lace cloth over blue. Mrs. Johnnie Williams of Lawton, Okla. and Miss Oreda Isbell, sister of the bride, served.

For their wedding trip the bride chose a blue dress of double knit accented with a corsage which lifted from her bouquet.

A rehearsal dinner was given by Mr. and Mrs. Ancel Ashford, Thursday, July 4, at the Corral Restaurant. A salad supper was served to the members of the wedding party.

REBEKAH INSTALLS OFFICERS... District Deputy President, Lena Hawkins, presented the Noble Grand Gavel to Mrs. Bill Henexson with Mrs. Tom Berry looking on Tuesday, July 9.

Mrs. Joe Baker Named TOPS Six Month Queen

TOPS Chapter No. 34 met Thursday evening, July 11 at 6:30 p.m. in the meeting room of Bailey County Electric with 19 members weighing in.

Mrs. Joe Baker was named Six Months Queen. Runners-up in order were Mrs. David Beckett, Mrs. Ralph Hall, Mrs. Raleigh Mason, Miss Aurora Mata, Mrs. Jeff Peeler, Mrs. George Chambliss, Mrs. Ruth

Miller and Mrs. Ronnie Garner. Monthly Queen was Mrs. Burie Vinson with runner-ups Mrs. W.F. Sain and Mrs. David Beckett and Mrs. Joe Baker.

Weekly queen was Mrs. Roy Clark with runner-ups Mrs. Clara Crane and Mrs. David Beckett.

Everyone is reminded to be at the next meeting as rules will be discussed.

AWARDS GIVEN IN TOPS... Mrs. Joe Baker was named Six Months Queen of TOPS Thursday July 11. Mrs. Burie Vinson was named monthly queen and weekly queen was Mrs. Roy Clark. Runners up were Mrs. David Beckett, Mrs. Ralph Hall, Mrs. Raleigh Mason, Aurora Mata, Mrs. Jeff Peeler, Mrs. George Chambliss, Ruth Miller and Mrs. Ronnie Garner.

Rebekah Lodge Installs Officers

Muleshoe Rebekah Lodge #114 met July 9 with Mrs. E.H. Gatlin Noble Grand Presiding. One visitor, Linda Gossett, of Mountain Air Rebekah Lodge #39 was present along with 34 members.

Installation of officers was performed by Lena Hawkins, District Deputy President and her staff, Mrs. Albert Davis, Marshal; Mrs. George Gross, Chaplain; Mrs. H.H. Snow, Warden and Mrs. Frank Snyder, Inside Guardian.

The officers installed were Mrs. Bill Henexson, Noble Grand; Wannie Larence, Vice Grand; Mrs. Ray Black, Warden; Mrs. Joe Carrol, Conductor; Mrs. Zed Robinson, Chaplain; Mrs. Tom Berry, Left Support to Noble Grand; June Davis, Right support to Vice Grand; Mrs. Dailey Howell, Left Support to Vice Grand; Mrs. J.C. Pearson Jr., Inside Guardian; Mrs. M.H. Laney,

Flag Bearer and Lena Hawkins, Musician.

Mrs. E.H. Gatlin, Past Noble Grand, officers are to be installed at a later date. They are Mrs. Clenton Busby, Right Support to Noble Grand, Mrs. R.E. Ethridge, Outside Guardian; Mrs. Harold DeLoach, Right Support to Past Noble Grand; Mrs. L.A. Green, Left Support to Past Noble Grand; Mrs. Frank Snyder, Right support to Chaplain and Mrs. George Gross, Left Support to Chaplain.

A salad supper was held after the meeting.

Trinity Church To Plan Youth Night

The Trinity Baptist Church will be having a youth night

Sunday, July 14. This night the youth will fill the spaces of the regular church leaders.

Larry Vinson will bring the message. Bruce Peterson, one of the Crusaders, will be leading the singing, accompanied by Kay Lawler, a visiting "Invincible" on the piano. Diane Vinson and Cheryl Johnson will bring the special music. Testimonies will be given by Daniel Gonzales and Franklin Smith. Ushers will be Joel Bratcher, head usher, Larry Parker, Jeff Carpenter and Edwin Lewis. And filling the choir will be the Trinity Baptist youth.

Members of the church send a cordial invitation to all. A fellowship will follow the evening services. Services will begin at 7:00 and Training Union at 8:00.

traditionally held at the Greenbrier in White Sulphur Springs, West Virginia.

Mrs. Smith is the scholarship advisor for Theta Zeta chapter of Chi Omega at Eastern New Mexico University. Mrs. Smith accompanied the president the rush chairman from ENMU to the convention. There were 642 active and alumnae Chi Omegas in attendance at the convention, and Mrs. Smith was one of the 473 voting delegates present.

There were delegates present from 157 collegiate chapters of Chi Omega, and there were several 50-year members of Chi Omega present for the convention.

The Chi Omega national headquarters has recently moved into new offices in Carew Towers in Cincinnati, Ohio.

Enochs Home Demonstration Plan Program

Enochs Home Demonstration Club met Tuesday, July 9 at 2:30 with Louise Newtons as hostess. Wilma Petree presided at the meeting.

Roll call was answered by telling of an interesting place they have visited in Texas. The club is to meet with Winnie Byers as hostess on July 23. The County Extension agent, Spencer Tanksey is to give a program.

Marilyn Black Receives Second In Organ Contest

Marilyn Black, daughter of Mr. and Mrs. Eugene Black student affiliate pipe organ solo contest held Sunday, June 9 in Amarillo at the Texas Music Teachers' Convention Miss Black was in the Junior Division consisting of ninth and tenth graders.

Her organ teacher is Mrs. Sam Damron. She played "Prelude and Fugue in G Major" by Bach and "Pueña a Notre Dame" from "Suite Gathigue" by Boeliman.

Keva Roming, daughter of Mr. and Mrs. Ben Roming, was the local winner of the "Texas Composer" contest and played on that program at the convention. She is the pupil of Mrs. Jimmy Milner and played "Festive Piece" by William Gillock.

There were nine Whitlock theory medal winners on the state level. Those receiving their medals at the convention were Glen Craft, and Libby Kellar, bronze medal, pupils of Mrs. Jimmy Craft; Stacy Campbell, gold medal and Jan Whitt, silver medal, pupils of Mrs. Sam Damron and Keva Roming, gold medal, pupil of Mrs. Jimmy Milner. Those receiving medals but not attending the convention were Jill Turner, gold medal; Sherri Henry, silver medal; Tena Landers and Cindy Hamblen, bronze medals all pupils of Mrs. Jimmy Milner.

Rainbows Have Earth Visitors

The Order of Rainbow for girls held their monthly business meeting Monday, July 3 at 7:00 p.m. The meeting was early because of the party planned afterward. The meeting was opened and closed in due form.

Girls from the Earth assembly were visitors.

After the meeting a party was held at Rhonda Stevenson's house. It was to celebrate the founders birthday which was July 8. Hamburgers were grilled and watermelon cut after which everyone sat around and talked or played games.

Sam Damron and parents: Mrs. Roy Whitt, Mrs. Tim Campbell, Mr. and Mrs. Ben Roming and family and Mrs. Eugene Black.

The teachers convention was Tuesday and Wednesday, June 11 and 12, which was highlighted by a piano master class, presented by Dr. John Perry from the University of Texas at Austin.

Market Report

COLLEGE STATION--You can save money by visiting the poultry and egg departments of your favorite store, advises one expert.

"Turkeys are a likely feature in many stores because supplies are plentiful and turkey barbecues well," Mrs. Gwendolyn Clayatt, consumer marketing information specialist, Texas Agricultural Extension Service, The Texas A&M University System, said this week.

"Grade A Large size eggs are the best quality and economy combination for your egg money," she continued.

The specialist reported beef prices similar to last week, but "broiling cuts have generally taken a slight price increase."

"Look for best beef values on chuck roasts and steaks, ground beef and round steaks and roasts."

"Good pork buys are picnics, ham portions, shoulder roasts and steaks and end-cut loin." "Supplies of sweet cherries, apricots, peaches, seedless grapes, plums and nectarines have increased but these will take a little time to go into the economy class," Mrs. Clayatt reported.

Prices of cantaloupe and watermelon are slightly lower as the supplies increase now. "Most economical vegetable choices include cabbage, carrots, radishes, green onions, tomatoes, dry yellow onions, and locally grown mustard, collard and turnip greens."

CONSUMER WATCHWORD: To preserve egg quality during hot weather, hurry eggs home from the store and refrigerate immediately.

Principal, Head Coach Hired At Sudan School

Tommy Laceywell was hired as Sudan High School Principal and Jackie Stewart as head coach and athletic director at a meeting this week, July 8, of the Board of Trustees of the Sudan Independent School District.

Laceywell is a former coach and teacher of the Sudan School system and comes back from Hale Center where he served as head coach. He and Mrs. Laceywell, who was also rehired and who will teach English to Juniors and Seniors, have one son, Blake.

Stewart comes to Sudan from Slaton where he was first assistant football, basketball and golf coach for the past five years. Prior to that time, he was first assistant football coach at Lampassas High School. He is a graduate of Snyder High School and Sul Ross University where he participated in both football and basketball. His wife, Maryann, will be teaching science in Sudan Junior High.

Patricia Conway was also hired as a Title I teacher. The resignations of Mr. and Mrs. Tom Essex were accepted. He served as a coach and she was a first grade teacher.

The trustees discussed band equipment repairs and purchases for the beginning of the school year. They also discussed and approved the use of school facilities for the October 24 Halloween Carnival. The In-Service Program for teachers was also approved.

Dexter Baker lead the invocation and the meeting was closed with the benediction given by Halbert Harvey.

NEW ARRIVALS

Vickie LaTonya Tubbs

Mr. and Mrs. Hurley D. Tubbs of Texico, N.M. are the proud parents of a new baby girl born July 9, 1974 at 5:05 a.m. in the West Plains Memorial Hospital of Muleshoe. The baby weighed six pounds and 12 ounces and was named Vickie LaTonya Tubbs.

She is the couple's fourth child.

Fashion

Tops with pants are varied and colorful this season. They may be fly away garments tied on the shoulder and falling just below the waistline or they may be T shirts of a flowered print or in contrasting color.

Denim, chambray and calico are in the news for fly clothes and cotton is high fashion for elegant clothes.

Many of the new pants have bell bottoms.

REBEKAHS SERVE PIE AT RODEO... The Muleshoe Rebekahs Lodge No. 114 served pie to the crowd that attended the 30th Annual Earth Rodeo Thursday, July 11. Pie was served after a big barbecue with all the trimmings, which the Earth Lions prepared.

Miss Harvey Attends FHA National Meeting

Cindy Harvey area 13rd Vice-President a Senior in Muleshoe High School will be among the two thousand youth delegates attending the 1974 National Meeting of Future Homemakers of America July 15-18 in Chicago Illinois. She is the daughter of Rev. and Mrs. Charles Harvey.

Revolving around the theme SEARCH the meeting will focus on the use of human and material resources in improving self, developing an understanding of others, and exploring job and career opportunities.

There will be small group workshops and concerns sessions designed to identify problems and issues of concern to youth and discussion on how to work toward their solution.

The Reason
Mr. V.--Our George will be in the hospital for a long time.
Mrs. V.--Why? Have you seen the doctor?
Mr. V.--No, but I've seen his nurse.

MISS MARILYN BLACK

PAIR REPRESENTS BAILEY COUNTY... Last month, Robbie and Shannon Sowder represented Bailey County Electric Cooperative on the annual Government-in-Action Youth Tour to Washington, D.C. Robbie and Shannon are the son and daughter of Mr. and Mrs. Herbert E. (Mickey) Sowder, Robbie, 17, is a senior at Threeway High School, where he is active in basketball and tennis. Shannon, 16, is a junior at Threeway. She is also involved in tennis and basketball, as well as cheer leading. The pair are pictured here at MT Vernon.

4-H Can Have A Lasting Effect

COLLEGE STATION -- The 4-H program can and does make a big difference in the lives of young people.

"Former 4-H members throughout Texas are living proof of just that," says Yvonne Garcia, 4-H and youth specialist for the Texas Agricultural Extension Service.

"For instance, Dr. Robert Steger, Extension area range specialist at San Angelo was an outstanding 4-H member in Irion County. He decided to be a range specialist as a result of his 4-H experiences. He is also serving as an adult volunteer leader."

According to the 4-H specialist, Mrs. Odus Wittenburg of San Angelo received several recognitions as a 4-H member in McLennan County. After serving as a county Extension agent, Mrs. Wittenburg helped organize a Women's Department for the San Angelo Stock Show. She is active in civic and community affairs and was recently named to the San Angelo Commission on Women.

"Interest in 4-H livestock projects had an effect on Dr. W.O. Anderson, Dallas County veterinarian," notes Miss Garcia. "He is recognized for his large animal practice. Anderson has served as president of the Texas Veterinary Medical Association and is both a member of the Texas Animal Health Commission and an official veterinarian for the State Fair of Texas."

According to Miss Garcia, the Saginaw 4-H Club in Tarrant County is quite active and is under the leadership of three former 4-Hers -- Mrs. Yvonne Flippo, Mrs. Dottie Strickland and Mrs. Melissa Stewart.

"These are just a few examples of what former 4-H members are doing. One thing all these and many others have in common is the learning by doing experience," points out Miss Garcia. "That is the foundation of a 4-H education, and that is what gives young people the chance to learn practical things useful for everyday living."

B.

ABOUT YOUR HOME

By April Rhodes

For those fortunate enough to have living mothers, the best gift would be to let them know you love and appreciate them.

May is the month to get plants established in window boxes. Be sure there is a drainage layer in the bottom and holes in the boxes for runoff.

A good way to cut your daughter's bangs evenly is to place a piece of tape across the bangs and use as a cutting line.

LOUISA'S LETTER

Dear Louisa,
Please tell me what a real nice boy who is trying to live his life as good as he can, can do, when some people in this town won't let him alone. He is a real good boy who finishes school this year, works in church a lot, doesn't drink, smoke or use drugs. He sings real good and enjoys it and he wants to make something of his life.

But his mother and her family just won't let him alone. They are causing trouble everywhere he turns. I think he is real great to be so good with all the things going on around here--not just young girls and boys but people of all ages.

B.

Two Attend State Extension Conference

COLLEGE STATION - County Extension Agent Spencer Tankley and Mrs. Robin Taylor will participate in a week of study at Texas A&M University during the State Extension Conference, July 14-19.

On July 16, from 1 until 1:45 p.m., three brief timely topics will be presented by guest speakers, with Extension staff members selecting the session of their choice. Presenters will be Jim C. Langdon, chairman of the Texas Railroad Commission, who will discuss "The Energy Situation," and Dr. Virginia McCormack, consultant from Worthington, Ohio, whose subject will be "Approaches to Volunteer Leadership." A third speaker is to be announced.

Other highlights will be luncheon and evening meetings featuring speakers who will deal with a variety of current topics, awards to several outstanding leaders and Extension personnel, and meetings of professional organizations and alumni groups.

Speaker for the July 17 luncheon will be Dr. Virginia Trotter, assistant secretary for the Department of Health, Education and Welfare, Washington, D.C.

Fifty mini-courses in as many subject matter areas will be offered on the Texas A&M University campus during the week, and each Extension staff member will take part in at least two of these courses, according to Dr. William C. Welch, conference chairman and Extension horticulturist.

Dr. Williams A. Lufburrow, president of Goodwill Industries, Houston, will speak during the luncheon meeting July 18.

Registration is slated for 8 a.m. until noon Sunday, July 14, on the ground floor of the J. Earl Rudder Center, with field staff members registering by their respective districts. Orientation sessions for the mini-courses will be held that afternoon.

Opening general session for the conference will take place at 7:30 p.m. Sunday in the Rudder Center Auditorium, with Dr. John E. Hutchison, Extension director, addressing the group. Dr. Jack K. Williams, president of the Texas A&M University System, will give the welcome.

Special entertainment for the opening session will include a 30-minute variety show presentation by the Bryan-College Station Community Singers.

Mini-courses are slated each morning and afternoon, Monday through Thursday.

Speaker for the July 15 luncheon at Shiba Hall will be Jack Yanitsas, motivational specialist from Lake Charles, Louisiana.

Chairman for the State Extension Conference, that ends at noon July 19, is Dr. Michael Sprott, Extension economist in management. Welch is assistant general chairman.

NOTES, COMMENTS
A talker is sometimes poor company.
Snappy remarks are often senseless utterances.

St. Clair's CLEARANCE SALE STARTS TUESDAY JULY 16 9:30 a.m.

Forage Sorghums Provide Summer Pasture

On the High Plains forage sorghums provide valuable summer pasture in cow-calf and stocker cattling grazing operations, but their value can decrease markedly if stockmen fail to move their cattle through the fields at the right time.

This caution comes from area agronomist Dr. James Supak of the Texas Agricultural Extension Service here.

Few if any forage plants can produce as much useable forage as quickly as the sorghums, the specialist claims. Under irrigation and with proper fertilization these summer annuals can produce 25 to 40 tons of green matter per acre within 30 days after planting which can be used as grazing, green chop, hay or silage. Forage sorghums include sudangrasses, sudangrass hybrids, grain sorghum-sudangrass hybrids and others.

A problem frequently encountered in these type operations is the timely and efficient use of the forage," he adds. "Numerous research studies have shown that there is an inverse relationship between forage yield and quality. Yields tend to increase as the plants mature, while such quality factors as digestible dry matter and crude protein begin to decline as the plant reaches the more advanced stages of development. Because of this it is generally recommended that forage sorghums be utilized before head emergence."

Supak says that the yield-quality relationship is usually no problem in late spring or early summer when forage production lags behind grazing needs. However, as sorghums enter their production period in July and August growers frequently find they have more forage than their animals can consume. As a result, many forage sorghum pastures are allowed to "go to seed" and quality begins to deteriorate.

What influence does this have on animal performance? Pointing to a West Virginia University study showing the effect of stage of sorghum maturity on the intake of digestible dry matter by sheep, Supak says that as the plant becomes more mature the animal has to increase its daily consumption of forage to maintain a satisfactory level of performance.

"This relationship between forage quality and performance applies to all classes of animals but is an especially important consideration with light weight cattle," he emphasizes. "These young animals can only consume a limited quantity of forage daily, and if the quality of what they eat is poor, their rate of gain will be less than optimum."

One way to get around this problem, the agronomist suggests, is to prepare for and use a rotational grazing system. This is usually accomplished by staggering planting dates or using hybrids which differ in maturity. This allows pasturing the earlier planting or faster hybrids while the other segments of the pastures are developing.

"In fields that were planted to one variety or hybrid on the same date, it is still advisable to divide the pasture into small areas that can be grazed down quickly," he adds. "This practice will keep the growth young, succulent and highly nutritious through the grazing season. Forage that cannot be utilized through grazing may be cut for hay, green chop or harvested for ensilage."

Supak explains that most of the forage sorghums make excellent regrowth when moisture is not limiting. This second growth occurs through tillering or suckering at the base of the plant. For this reason, he recommends that forage sorghum should not be grazed or cut to a height shorter than eight to 10 inches.

IRRIGATION AND FERTILIZATION
Water and fertilizer are the keys to good forage sorghum production, Supak believes. Under irrigation, a preplant application of 80 to 100 pounds of nitrogen per acre plus two post-plant applications of 60 to 80 pounds of this element in July and August are normally required for best production, he says. In the dryland areas, a single application of 60 to 80 pounds of nitrogen per acre is normally adequate. The specialist recommends a soil test to determine if other nutrients are needed and if these general recommendations for nitrogen are really what the pasture needs.

He says that post-plant fertilizer should be applied soon after cattle are rotated from the pasture but before irrigation. This will assure an adequate supply of nitrogen during the regrowth period.

In addition, says Supak, research has shown that sorghum plants accumulate nitrates for brief periods following nitrogen fertilization. The nitrate hazard can be reduced by applying these fertilizers as far in advance of the next grazing period as possible.

"In contrast to their many desirable features, forage sorghums are contributing to, if not creating, some serious weed problems in many cropping areas," he warns. "These sorghums are frequently used in a rotation program with grain sorghum or corn. If these forage sorghums are not managed properly -- that is if they were allowed to mature a grain crop -- the seed which is produced will likely constitute a serious volunteer problem the following year."

"The best way to avoid this is to prevent the forage sorghum from maturing a seed crop by grazing or harvesting it for hay before viable seed are set. Next year, the stockman can plant a broadleaf crop such as cotton or soybeans that permits the use of herbicides recommended for controlling grasses."

Above all, Supak adds, grain sorghum should not be planted in the field until the volunteer problem is eliminated. Although forage sorghums provide an excellent source of high quality forage during the summer months, they can be a prolific source of weeds which may take several years to eliminate.

sorghum should not be planted in the field until the volunteer problem is eliminated. Although forage sorghums provide an excellent source of high quality forage during the summer months, they can be a prolific source of weeds which may take several years to eliminate.

An investment in Your Future ATTEND CHURCH

"I DON'T SEE ANYTHING"

THERE IS ONLY ONE WAY TO SEE THROUGH A CAMERA

Did you ever try to look through a camera from the front side? Yes, most of us have... out of curiosity... but we would not even consider trying to take a picture in such a manner. There are many though, who go through life never giving themselves a chance to really see God. In order to see God, one must look at him through faith. Attend church regularly, seek God where others can help direct you in your search for God.

"So then faith cometh by hearing, and hearing by the word of God."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

On Wall Street
By Bob Hill
Lentz, Newton & Co.

When the cost of gas becomes an important factor in deciding whether you are going to go anywhere on your vacation this year, you may wind up doing what a growing number of Americans are doing. They are staying home and adding a room to the house or building a fence, paneling a room, insulating the house or adding storm windows or a host of other do-it-yourself projects.

The homebuilding industry is in trouble. Housing starts have dropped sharply but the do-it-yourself projects are running at a tremendous clip. It has to be a do-it-yourself boom when Yours Truly (who is still trying to figure out the hammer) decides to build some window boxes himself instead of having them custom made.

More homebuilders are staying put this year because of high travel expenses. They have also decided to stay in their present houses and add improvements instead of buying that new house with an interest rate on the mortgage that is so high, it's embarrassing.

Consequently, the home-improvement industry is chalking up record sales. The National Remodelers Association estimates that industry sales are up 30% to 35% over a year ago. Individual purchases are also up by 20%, due partly to inflation but also because projects are more elaborate and expensive.

The industry has recognized the trend in do-it-yourself projects. Instructions are included with various products which are packaged in kit form for standard size rooms or areas. Some supply store chains are offering weekly night classes in everything from paneling to elementary plumbing and electric wiring. In fact, business is so good for the do-it-yourself home improvement field, that dealers are now concerned about possible shortages of materials reflected by price increases. Concrete is up 35% and gypsum wallboard is up 30%. So far, there doesn't seem to be a shortage of anything as long as you can pay the price.

St. Clair's CLEARANCE SALE STARTS TUESDAY JULY 16 9:30 a.m.

Finance Seminar Planned

COLLEGE STATION -- Business firms that are engaged in producing, marketing or processing agricultural products or that supply or serve agri-

business firms will have an opportunity to receive special financial training at an upcoming seminar at Texas A&M University.

A Financial Management Seminar for Agribusiness Firms is scheduled for Oct. 22-25 in the J. Earl Rudder Center on the A&M campus,

STATEMENT OF CONDITION

SUMMER READERS AT WEST CAMP -- Typical of the use of the Four County Bookmobile headquartered in Muleshoe is a group seen Thursday at the West Camp stop. At right, Joe Simnacer, and his granddaughter Sonya Ferrel, visiting from Amarillo; Jaimi Wilcox of Amarillo, sits on the counter in front of her grandmother, Mrs. Joe Sooter, bookmobile librarian. At far left, Walter Little is ready to "read up" the books received from Assistant Librarian Mrs. Bob Henderson. Little plans to return to his studies at the University of San Francisco this fall.

announces Dr. Wayne Hayenga, economist in agribusiness management for the Texas Agricultural Extension Service.

Major topics of discussion include "Measuring Financial Progress," "Avoiding Financial Pitfalls," "Investment Analysis," "Communicating with Lenders," "Working Capital Management," and "Forms of Business Organizations."

According to Hayenga, the seminar will offer tools and methods to evaluate the feasibility and profitability of investments and to analyze current or forthcoming financial problems. Special learning situations based on actual questions and problems faced by the participants will be an important part of the overall seminar, adds Hayenga.

Among the discussion leaders will be Dr. Peter Barry, associate professor of agricultural economics; Dr. John Hopkin, head of the Department of Agricultural Economics and Rural Sociology; Dr. Vernon Schneider, Roy B. Davis Distinguished Professor of agricultural cooperation; and Dr. Donald Levi, associate professor of agricultural law, all with the Texas Agricultural Experiment Station; Dr. Phillip Ljungdahl, associate professor of accounting, and Hayenga. Seminar sponsors include the G.R. White Charitable Trust along with the Texas Agricultural Extension Service, Texas Agricultural Experiment Station, and the Texas A&M University College of Agriculture. Advance registration information is available from Hayenga at the Department of Agricultural Economics and Rural Sociology, Texas A&M University, College Station, Texas 77843.

Six hours (sleep) for a man, seven for a woman, and eight for a fool.

New CHAMPVA Pamphlet Available

Families eligible for the Veterans Administration's Civilian Health and Medical Program (CHAMPVA) will soon be receiving in the mail a new VA pamphlet on these health benefits services for dependents and survivors, according to Jack Coker, VA Regional Office Director.

The just-published CHAMPVA pamphlet (VA Information Bulletin 13-6) furnishes detailed information on eligibility, medical services, and methods for filing claims.

Coker said copies are available at all VA hospitals, clinics, domiciliaries, and

regional offices, at the veterans' assistance centers, nationwide, and at U.S. embassies and consulates overseas.

Request for the pamphlet should be sent to the nearest VA hospital or regional office, not to the VA Central Office in Washington, D.C.

CHAMPVA provides partial VA payment for the health care of wives and children of veterans who are 100 percent disabled from service-connected causes and for the survivors of those who died of such causes after leaving military service.

Bula News
By Mrs. John Blackman

Mrs. Etchel Griffin, mother of Mrs. Eddie Riley passed away early Monday morning in a Childress hospital. Funeral services were held Wednesday afternoon at 2:00 p.m. in Childress. Mrs. Griffin has been in ill health for some time and had been a patient in the hospital for several weeks. Rev. and Mrs. Riley and small son, Chris were with her family at the time of her death. Friends from Bula attending the funeral were Mr. and Mrs. Dewitt Tiller and Mr. and Mrs. James Sinclair.

Mr. and Mrs. C.A. Williams attended the funeral Wednesday July 3, for her brother Mr. J.D. Swanner, held at the funeral home in Corpus Christi. Mr. Swanner had been in failing health for some time and made his home in a rest home there for the past two years.

Mr. and Mrs. Clyde Hogue enjoyed having their son Arias and wife and son Jodie from Fort Smith, Arkansas visit with them for the past week. Friday they had a family get-together at the home of their daughter Mr. and Mrs. Romie Fisher and children in Littlefield. To enjoy the day together were, Mr. and Mrs. Hogue, Mr. and Mrs. Arias, Jodie, Mrs. Debra Matthews and small son Chris of Lubbock, Mrs. Lottie Moonsey of Truth or Consequences, N.M., Mr. and Mrs. Denver Offield of Olton and the Fishers.

Mrs. Vera Farington of Littlefield was a dinner guest Monday of her sister Mr. and Mrs. Gene Bryan. In the afternoon they both drove to Friona for a visit with another sister Mrs. Otis Neel and husband.

Mrs. James Couder of El Paso came for a few days visit with her parents Mr. and Mrs. C.A. Williams. Her sons Steve and Jay Scott returned home with her after a visit of several days with their grandparents.

Mr. and Mrs. Tom Bogard returned Monday from a short visit with their daughter and family Mr. and Mrs. Delbert Roberts and sons, Rance and Kendon, who live at Junction.

Mr. and Mrs. Jack McCormack and children Danny, Heather and Cornell spent the week end with his parents Mr. and Mrs. Cleo McCormack at Clovis. They all helped Cornell to celebrate his fourth birthday.

Dinner guests Sunday with the F.L. Simmons were their granddaughter and family Mr. and Mrs. Bob Murphey and girls Sharron and Sheila from Littlefield and Bob Stone, Methodist minister and his friend Miss Sharron McCommus from Hobbs.

WMU met Tuesday at 2:30 for their weekly study. Miss Vina Tugman having charge of the study, which was taken from the Royal Service magazine, with the topic for study being "Baptist Work in Washington D.C." Mrs. Richardson read the prayer calendar with Mrs. Locker giving the opening prayer and prayer for the missionaries. Mrs. Pierce offered

the benediction. Attending were Mrs. Fred Locker, Mrs. P.R. Pierce, Mrs. E.W. Black, Mrs. Rowena Richardson, Mrs. E.O. Battles and Miss Vina Tugman.

Mr. and Mrs. P.R. Pierce spent the weekend at Fort Davis, visiting with her sister and husband Mr. and Mrs. J.D. McNew.

Recent company for Mr. H.M. Black and children were another son Mr. Bill Black and small daughter Sarayleia from Fort Worth and a daughter Mr. and Mrs. James Carroll and small daughter Jennifer from Abilene.

Tuesday evening June 16, at 7:00 p.m. till 10:00 p.m. is the date set for the first are class to be taught by Jerry Teaff, classes will be held in the Bula school lunchroom.

Miss Oralia Devila was honored with a surprise birthday party Sunday Evening in the school lunchroom by her parents Mr. and Mrs. Bernie Davila and 30 of her friends. The room was decorated in purple and white, the serving table was laid in a white and purple cloth, centered with a purple candle surrounded with flowers. Punch and birthday cake decorated with white icing with orchid and purple flowers and carrying the writing "Sweet 16, Oralia" in purple. The evening was spent in listening to records and playing games.

Mrs. W.C. Risinger, accompanied by her sister Mrs. Ruby Field of Littlefield drove to Fort Sumner, Sunday afternoon to visit with their brother and family the Jack Fronabargers until Thursday.

Mr. and Mrs. Jerry Smith of Fort Worth have been visiting here with her parents Mr. J.C. Withrows, and sister Mr. and Mrs. Freddie Maxwell.

Mr. and Mrs. Buck Medlin enjoyed having all their children and their families to visit in their home Saturday except a son-in-law Glen Salyer. To enjoy the day together and dinner were Mrs. Glen Salyer and children Shelly and Greg of Felt, Okla., Mr. and Mrs. Dennis Medlin and children DeWayne, Becky and Jason from Corsicana, Mr. and Mrs. Rock-

ey Dewbre and son Michael of Lubbock. Also his mother Mrs. L.H. Medlin and her parents Mr. and Mrs. W.B. Gage and Dot from Littlefield.

Mrs. Ken Gray and her mother Mrs. Ester Blvins of Lubbock, visited Monday with her sister Mr. and Mrs. Jack McCormack.

Low-Interest Loans Offered

The Farmers Home Administration (FmHA) of the U.S. Department of Agriculture (USDA) has started a program to encourage the use of existing housing and provide better homes for low-income rural families through low interest home improvement loans.

The agency will provide "interest credits" to reduce the effective interest rate on loans made to rehabilitate or repair a dwelling a borrower owns and lives in or will live in once it is brought up to standard.

Loans of up to \$7,000 can be made. For further information contact the nearest ASCS office. Office locations also can be found in the telephone directory under U.S. Government-Agriculture Department.

The Sandhills Philosopher

Editor's note: The Sandhills Philosopher on his Johnson grass farm gets tangled up in economics again this week.

Dear editor: If a person pinched himself every time he hears or reads something it's impossible to believe these days he'd stay black and blue. It's wall-Washington solemnly swear he favor and can't at all recall another thing that'd convict him. But one of the oddest things I've read lately, having nothing to do with remembering, was a statement the other day by the chairman of the President's Council of Economic Advisers, Herbert Stein.

In opposing a five to 10-billion-dollar tax cut to slow down inflation, Mr. Stein said it wouldn't do any good. "We shouldn't be putting that much money in the hands of the people because they'd only go out and spend it," he said.

"Wait a minute," I said to myself before hunting for a new spot to pinch, "you mean the government will keep that 5 to 10-million-dollar denied tax cut and put it in a savings and loan account? You mean the Federal government, which has over-spent its income every year for the past 25 or 30 and is now over 300 billion dollars in debt, is lecturing the people for spending money?"

I got up and went for a long walk. Maybe an economist can but I can't understand why if the government spends 10 billion dollars it's all right but if the people do it's inflationary.

In fact, I have as much trouble understanding the economy, for

instance, Economist Stein said that inflation should be blamed on the people for lack of self-discipline, for too many demands, and that they should return to the "old time religion" of saving and controlling their desires.

This is true, people shouldn't spend more than they make and ought to add to their savings every pay day, but have you ever stopped to think what would happen if everybody did? If everybody saved and saved till we all had say \$200,000 apiece drawing 8 per cent interest, or \$16,000 a year, which ought to be enough to live on, how much do you think \$16,000 would be worth in buying power? Probably \$250, and everybody would have to go back to work again.

It doesn't pay to think too much about economics. It's safer to just go on like we are, stopping every now and then to cuss the government.

Yours faithfully,
J.A.

Water Level Data In Book

The High Plains Underground Water Conservation District No. 1 has recently published an 81-page book entitled, "Ogallala Aquifer Water-Level Data, With Interpretation, 1965-1974."

The book, available free of charge to anyone interested in the future groundwater supply within the District, may obtain a copy of the book by writing the District office, 1628 15th Street, Lubbock, 79401 or by calling 762-0181.

Maps showing locations of observation wells, hydrographs and statistical analyses of water-level records and tables of water level records by counties, are also included for all of the 15 counties located within the boundaries of the Water District.

Corn Borer alert!
southwestern corn borers are threatening your corn crop

Stop southwestern corn borers before they can cause profit-robbing damage to your corn fields. Use dependable, economical SEVIMOL® 4 carbaryl insecticide... a free-flowing liquid blend of molasses and SEVIN featuring simple measurement and no pre-mixing. It's ideal for ground or air application.

SEVIN carbaryl is biodegradable, and compared with other agricultural insecticides it ranks low in toxicity to people, farm animals, birds and fish. Chances of illegal residues occurring on adjacent crops are less with broadly registered SEVIN carbaryl than with insecticides registered on fewer crops. See bee caution on label. SEVIMOL 4 should be your choice. It lets you get tough on southwestern corn borers... and get tough sensibly.

UNION CARBIDE

The Gary Stacy family of Levelland converted to electric heating and became the 10,000th wise user of energy on our lines.

And now even more than 10,000 homes and apartments are heated electrically.

Daughter Paige, Mr. and Mrs. Stacy, and son Mitchell enjoy the comfort of their electrically conditioned home.

Mrs. Stacy and daughter Paige appreciate the cleanliness of their electric kitchen.

Gary Stacy is proud of his space-saving electric comfort conditioning system. Hidden away in the attic, the heating, cooling, electronic air filter and humidifier release valuable downstairs space for storage.

Electricity, the most efficient energy at the point of use, right in the home, is a wise use of precious energy. It has been estimated that if electricity heated every home, air pollution in cities would be decreased by 20% of today's level. Modern electric generating stations are rigidly monitored to be certain that raw fuel is used wisely and with the maximum efficiency that modern technology has devised. Wherever, however you use electricity, it is as clean as an electric light bulb. No wonder the Stacys chose to convert to electric heating.

FOR INFORMATION or free electric home heating survey, call us.

Bula News
By
Mrs. John Blackman

Mrs. Etchel Griffin, mother of Mrs. Eddie Riley passed away early Monday morning in a Childress hospital. Funeral services were held Wednesday afternoon at 2:00 p.m. in Childress. Mrs. Griffin has been in ill health for some time and had been a patient in the hospital for several weeks. Rev. and Mrs. Riley and small son, Chris were with her family at the time of her death. Friends from Bula attending the funeral were Mr. and Mrs. Dewitt Tiller and Mr. and Mrs. James Sinclair.

Mr. and Mrs. C.A. Williams attended the funeral Wednesday July 3, for her brother Mr. J.D. Swanner, held at the funeral home in Corpus Christi. Mr. Swanner had been in failing health for some time and made his home in a rest home there for the past two years.

Mr. and Mrs. Clyde Hogue enjoyed having their son Arius and wife and son Jodie from Fort Smith, Arkansas visit with them for the past week. Friday they had a family get-together at the home of their daughter Mr. and Mrs. Ronnie Fisher and children in Littlefield. To enjoy the day together were, Mr. and Mrs. Hogue, Mr. and Mrs. Arius Hogue and Jodie, Mrs. Debra Matthews and small son Chris of Lubbock, Mrs. Lottie Moon-ey of Truth or Consequences, N.M., Mr. and Mrs. Denver Offield of Olton and the Fishers.

Mrs. Vera Farington of Littlefield was a dinner guest Monday of her sister Mr. and Mrs. Gene Bryan. In the afternoon they both drove to Friona for a visit with another sister Mrs. Otis Neel and husband.

Mrs. James Couder of El Paso came for a few days visit with her parents Mr. and Mrs. C.A. Williams. Her sons Steve and Jay Scott returned home with her after a visit of several days with their grandparents.

Mr. and Mrs. Tom Bogard returned Monday from a short visit with their daughter and family Mr. and Mrs. Delbert Roberts and sons, Rance and Kendon, who live at Junction.

Mr. and Mrs. Jack McCormack and children Danny, Heather and Cornell spent the week end with his parents Mr. and Mrs. Cleo McCormack at Clovis. They all helped Cornell to celebrate his fourth birthday.

Dinner guests Sunday with the F.L. Simmons were their granddaughter and family Mr. and Mrs. Bob Murphy and girls Sharon and Sheila from Littlefield and Bob Stone, Methodist minister and his friend Miss Sharon McCommus from Hobbs.

WMU met Tuesday at 2:30 for their weekly study. Miss Vina Tugman having charge of the study, which was taken from the Royal Service magazine, with the topic for study being "Baptist Work in Washington D.C." Mrs. Richardson read the prayer calendar with Mrs. Locker giving the opening prayer and prayer for the missionaries. Mrs. Pierce offered

the benediction. Attending were Mrs. Fred Locker, Mrs. P.R. Pierce, Mrs. E.W. Black, Mrs. Rowena Richardson, Mrs. E.O. Battles and Miss Vina Tugman.

Mr. and Mrs. P.R. Pierce spent the weekend at Fort Davis, visiting with her sister and husband Mr. and Mrs. J.D. McNew.

Recent company for Mr. H.M. Black and children were another son Mr. Bill Black and small daughter Surayleia from Fort Worth and a daughter Mr. and Mrs. James Carroll and small daughter Jennifer from Abilene.

Tuesday evening June 16, at 7:00 p.m. til 10:00 p.m. is the date set for the first are class to be taught by Jerry Teaff, classes will be held in the Bula school lunchroom.

Miss Oralia Devila was honored with a surprise birthday party Sunday Evening in the school lunchroom by her parents Mr. and Mrs. Berule Davila and 30 of her friends. The room was decorated in purple and white, the serving table was laid in a white and purple cloth, centered with a purple candle surrounded with flowers. Punch and birthday cake decorated with white icing with orchid and purple flowers and carrying the writing "Sweet 16, Oralia" in purple. The evening was spent in listening to records and playing games.

Mrs. W.C. Risinger, accompanied by her sister Mrs. Ruby Field of Littlefield drove to Fort Sumner, Sunday afternoon to visit with their brother and family the Jack Fronabargers until Thursday.

Mr. and Mrs. Jerry Smith of Fort Worth have been visiting here with her parents the, J.C. Withrows, and sister Mr. and Mrs. Freddie Maxwell.

Mr. and Mrs. Buck Medlin enjoyed having all their children and their families to visit in their home Saturday except a son-in-law Glen Salyer. To enjoy the day together and dinner were Mrs. Glen Salyer and children Shelly and Greg of Felt, Okla., Mr. and Mrs. Dennis Medlin and children DeWayne, Becky and Jason from Corsicana, Mr. and Mrs. Rock-

ey Dewbre and son Michael of Lubbock. Also his mother Mrs. L.H. Medlin and her parents Mr. and Mrs. W.B. Gago and Dot from Littlefield.

Mrs. Ken Gray and her mother, Mrs. Ester Blevins of Lubbock, visited Monday with her sister Mr. and Mrs. Jack McCormack.

Low-Interest Loans Offered

The Farmers Home Administration (FmHA) of the U.S. Department of Agriculture (USDA) has started a program to encourage the use of existing housing and provide better homes for low-income rural families through low interest home improvement loans.

The agency will provide "interest credits" to reduce the effective interest rate on loans made to rehabilitate or repair a dwelling a borrower owns and lives in or will live in once it is brought up to standard.

Loans of up to \$7,000 can be made. For further information contact the nearest ASCS office, office locations also can be found in the telephone directory under U.S. Government-Agriculture Department.

FOR SO MANY PEOPLE

The future is ELECTRIC

A weekly public service feature from the Texas State Department of Health

Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

The battle against tuberculosis is one of the most successful being waged by State Health Department authorities -- who in 1973 saw the number of new cases drop to its lowest point.

Statistics from the State Health Department's Tuberculosis Control Program reveal that only 2,224 new active cases were reported in 1973 -- a case rate of just 19 per 100,000 population. This compares to the high mark in 1968 of 3,216 new active cases -- a case rate of 29.3 per 100,000 population. Last year's figures, as compared to 1968, represent a 31.8 per cent reduction in newly reported active cases and a 35.2 per cent reduction in the new active case rate.

Statistics don't tell the full story about tuberculosis or any other disease for that matter. How can you accurately chronicle the pain, the suffering, the stigma accompanying a disease which didn't occur?

The Bureau of Tuberculosis Services attributes the success of its TB Control Program to the active campaign that ensures: treatment and other essential services for the known cases; examinations of persons suspected of having tuberculosis; and, prevention of disease in persons at high risk.

Services are provided through local health department outpatient clinics and in 10 State Health Department Regions, Tyler, San Antonio and Harlingen and contracts with other medical facilities for other support services.

The Tuberculosis Control Program as we know it today was placed under the State Health Department in 1965 by the 59th State Legislature.

A significant change has been seen in tuberculosis case-finding, treatment and prevention.

One aspect of the program is centered in the schools of Texas with close cooperation of

school officials, nurses, local health departments, health officers and voluntary organizations. All school personnel must have an annual tuberculosis examination. In addition, an average of a half-million first and seventh grade students have been tested annually since 1966. The result has been a sharp decrease in the incidence of TB in children through 14 years of age.

New drugs and new treatment procedures have greatly shortened the length of time necessary to cure a new tuberculosis patient.

Tuberculosis, in fact, has been tamed. But, according to State Health Department authorities, it hasn't been eliminated and probably will not be eliminated anytime in the future.

What can you expect if you get TB?

There are some reassuring facts. First, very few TB patients die of the disease. In fact, tuberculosis no longer means that the victim must spend endless years, languishing in a hospital. In many cases, a tuberculosis patient today will spend about two or three months in a hospital -- either one of the State Chest Hospitals or in a public or private hospital closer to home.

Medical treatment begins as soon as the disease has been

accurately diagnosed. Usual treatment consists of two or more medicines, taken orally several times a day. In many cases, the spread of the disease can be stopped in a matter of a few days and the patient is no longer infectious.

Once it is certain that the disease has been checked, the patient can be released from the hospital. And, in just a few weeks, the patient may return to his normal life -- including his usual work. Health authorities report that most TB patients, as soon as medication begins, feel better than they have for years.

After release from the hospital, the tuberculosis patient must continue on medication for as long as two years in order to make sure that the disease organisms won't have a chance to take hold again. Because of this long-term therapy, the patient must see a physician regularly.

The State Health Department keeps track of patients undergoing therapy, and its case registry at the end of 1973 contained 10,066 names. The State Health Department doesn't underestimate the threat of TB, once the state's leading killer. It recognizes it as a serious public health problem. But, it's a problem that can be cured and is being cured.

Rules Of The Road Apply To Boaters

AUSTIN--Although the road is a watery one, boaters are faced with a set of "Rules of the Road" which are as essential to boating safety as traffic laws are to drivers of automobiles, according to an article in the July issue of TEXAS PARKS AND WILDLIFE magazine.

The article, which is reprinted from the Texas Skipper's Course, makes the distinction between "privileged" boats and "burdened" boats. Privileged boats have the right of way, while burdened boats have the burden of responsibility for taking whatever action is best to avoid a collision.

Rules of the road are just common sense. Action should be taken when it is clear that a potentially dangerous situation exists. The action should be clear and decisive and should be taken early enough to be noticed and understood by the other boat.

Large vessels can't stop quickly, change course or generally maneuver as well as small boats. Also, large ves-

sels in harbors and rivers must stay within the channels. Consequently, they have the right of way and the burden to avoid collisions is on the skipper of the small boat.

Sailboats under sail lack the means of control that may be required for decisive and timely action. Therefore, they have the right of way over a powered boat, except when passing, but not over large vessels in confined or narrow channels.

Since hand signals and signals with lights are impractical on water, boaters must communicate with other boaters by using either a whistle or horn. There are three types of situations between two approaching vessels that require horn or whistle signals to be given. These are: meeting, crossing and overtaking.

In meeting head-on or nearly so, just as in driving a car, stay to your right. One boat gives a signal short blast; the other responds with the same signal, and each skipper knows what the other is going to do.

When two boats are well clear of each other, suddenly changing course in order to pass on the other boat's left side would create a dangerous situation. So, two short blasts will inform the other skipper that you intend to keep to his right.

If, at any time, there is confusion about signals or intent, four short blasts is the danger signal -- each boat must come to a stop until the situation is clarified.

A crossing situation is similar to meeting another car at an intersection that has no stop signs.

As ashore, the vehicle to the right is privileged -- in fact, he must continue his course and speed. Inland rules do not require signals in this situation, but common sense should prevail. The boat on the right (privileged) should signal his intent to maintain his course and speed with one short horn blast. The burdened vessel should reply with a short blast signaling his intent to slow down and/or change course to pass astern of the other boat.

Finally, there are the overtaking situations. Normally, you'd pass the privileged vessel on his left, as you would in a car, and signal this intent with

two short blasts.

If it is safe to pass, the privileged vessel will respond with two short blasts. Then the burdened boat passes, keeping well clear of the privileged boat.

If it is more reasonable to pass on the privileged boat's right, signal your intent with one short blast. A one-short-blast reply gives the go-ahead.

Should the privileged vessel consider it unsafe for you to pass as you proposed, it must reply with four short blasts (the danger signal). The burdened vessel must then remain in position and make no further attempt to pass until the privileged vessel answers a one- or two-short-blast signal with one or two short blasts, respectively, or proposes a new signal.

When a boat is ready to leave a dock, slip or mooring, normally the boat is backed out in the regular traffic channel. Few boats maneuver well when going underway. The rules of the road require that you sound one long blast on the horn or whistle (eight to 10 seconds) as soon as you clear the dock or slip.

This signal must also be sounded when approaching a blind bend in a river or channel. It would warn any boat approaching the bend from the other direction.

Once in sight of each other, normal rules of the road and maneuvering signals apply.

Duck Survey Focuses On Panhandle Ducks

AUSTIN-- The Texas Panhandle may look dry and dusty to most folks, but to a good-sized population of ducks, it's home.

The ducks stay near the shallow playa lakes in the Panhandle the year round. Species include mallards, pintails, cinnamon and blue-winged teal, ruddy ducks, redheads, and coots.

The Texas Parks and Wildlife Department plans to run a brood-production survey in July to get an accurate estimation of duck production in the Panhandle.

According to Bob West, a waterfowl biologist stationed in Canyon, the water situation in the Panhandle is critical this year, and some of the normally productive areas have dried up.

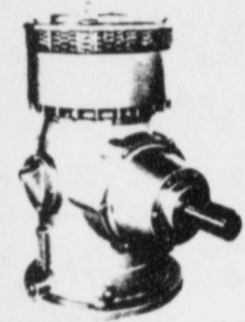

Consequently, the outlook is dim for brood production al-

though some broods have been observed on several of the more stable playa lakes.

West says the periodical droughts and sporadic rains which characterize each Panhandle summer affect the nesting of the hens, but even with the present drought, late rains will allow existing broods to mature before the hunting season.

The biologists survey will furnish both state and federal agencies with reliable data on numbers of nests, size of broods and a year-to-year census.

According to West, many of the early mallard and pintail ducks bagged by Texas hunters are thought to be home-reared birds. A more complete picture of the population makeup will be in store as a result of a banding program planned for next year.

Publicity, like fire, can
be friend or foe.

Kindness has never yet
done anyone serious harm.

It's fine to think you're
usually right, as long as you
can keep it a secret.

The successful man has
the ability to make himself
as well as others work.

The best way to get your
share of the wealth of the
country is to work hard for
it.

**Rites Held For
Jim Guinn**

Graveside services for Jim
Guinn 54, son of Mrs. Myrtle
Guinn of Muleshoe and brother
of Allen and Pete, both of Mule-
shoe, who died Monday
following a lengthy illness, 2:30
p.m., Wednesday in the Bovina
Cemetery.

Officiating was the Rev. Larry
Heard, pastor of the Bovina
First Baptist Church. Burial
was under the direction of Par-
son-Ellis Funeral Home.

Guinn, who was a Baptist,
lived in Friona 49 years.
Survivors include his wife;
two daughters, Mrs. Caroline
Vaughn and Mrs. Cynthia Tay-
lor, both of Friona; his mother
Mrs. Myrtle Guinn of Muleshoe;
a sister, Mrs. Margaret Holt
of Durango, Colo.; two brothers,
Allen and Pete, both of Mule-
shoe; and a grandson.

**Services Held For
Father Of Local
Woman**

Services for Henry Richard-
son Miller Jr., 79, father
of Mrs. Mary Nell Bleaker of
Muleshoe are pending at Par-
sons Funeral Home.

Miller a charter member of
the First United Methodist
Church in Olton, dies at 11 a.m.
Tuesday in the Medical Arts
Hospital in Littlefield.

Survivors include five sons,
Rev. Robert R. of Plaquemine,
La., Henry R. of Houston, Billy
Mac of Corpus Christi, David
of Roscoe and Ronnie Clark of
Bronson Colo., five daughters,
Mrs. Lennie Donald of Ashland,
Va., Mrs. Frances J. Shull of
Lubbock, Mrs. Mary Nell Bleak-
er of Muleshoe, Mrs. Lena Mae
Hackler of Denver, Colo., and
Mrs. Juanita Criswell of Olton;
four brothers, A.D. and S.A. of
Clovis, N.M., Marshall of Dallas
and Johnny of Canyon; 22 grand-
children and 16 great-grand-
children.

**Services Held
For Brother Of
Local Women**

Services for Monroe Calvin
Walters, brother of Mrs. Mary
Simpson of Maple, were at 2
p.m. Friday in the Southside
Church of Christ with Austin
Sibert officiating.

Burial was the City of Lub-
bock Cemetery under the direc-
tion of Sanders Funeral Home.
Walters died Tuesday in Bent-
onville, Ark., after a short ill-
ness.

Walters has been a Lubbock
resident for 30 years before
moving to Bentonville in 1965.
While in Lubbock he was a build-
ing contractor and a former
elder of the Southside Church
of Christ.

At the time of his death,
Walters was a member of the
Hiwasee Church of Christ near
Bentonville.

Survivors include his wife,
Frances; three daughters, Mrs.
Kenneth Boughan of Gavette,
Ark., Mrs. Delton Jones of Dal-
las and Mrs. Charles Bolton
of Lubbock, a son Monroe Jr.
of the home; three sisters, Mrs.
Mary Simpson of Maple, Mrs.
Nora Lee McCrary of Lubbock
and Mrs. Clara Payne of Phoe-
nix, Ariz., and eight grand-
children.

Used To It
"Just why do you want a
married man to work for you,
rather than a bachelor?"
asked the curious friend.

"Well," signed the em-
ployer, "the married men
don't get so upset if I yell
at them."

No greatness exists un-
less it is based upon prin-
ciple and not upon profits.

Happiness is in part the
conclusion that you can't re-
make people or the world.

**John Tower
United States Senate**

TAX REFORM

The Senate has spent consid-
erable time during the past week
debating a bill designed to tem-
porarily raise the federal debt
ceiling limit to keep government
operations going past June 30th.
Unfortunately, a great host of
amendments were offered to the
debt limit bill in the name of tax
reform. One of the most dam-
aging amendments was the one
by a number of senators from
northern consumer states to
immediately abolish the oil and
gas depletion allowance.

Fundamentally, I am opposed
to higher and higher debt ceil-
ing, although the debt limit it-
self is not the cause of our fi-
scal problems. The Congress
is basically at fault. It should
establish its spending prioriti-
es and promote a stable fi-
scal policy. Instead it continues
to spend more and more every
year.

In recent times, we have
brought up debt ceiling exten-
sion bills two and three times
a year. Each time the legisla-
tion has become a political
football for those who have
sought to amend it with pet
legislation knowing the Presi-
dent would be hardpressed to
veto it. Thus two or three
times a year we go through the
charade and have long debates
over the merits of various tax
measures. In the end we raise
the ceiling because we have no
other choice.

There is no question that we
must increase the temporary
debt ceiling to \$495 billion by
the end of June. The govern-
ment must have funds to op-
erate. The fact that this pro-
posal is so vital gives rise to
attempts to add provisions
which could not be adopted
standing alone.

Thus we see a hundred or
more amendments offered to the
bill designed to do everything

from cutting personal taxes to
increasing taxes on various
businesses. Tax reduction pro-
visions should not be included in
the debt ceiling bill particularly
in view of the present inflatio-
nary situation. We are in need
of some vital tax reform. But
there is great danger that tax
reduction now will only make
current inflationary pressures
even more severe.

It becomes tiresome to me
that in every other year--spe-
cifically election year--there
are those in Congress who
clamor for a tax cut. Regard-
less of the situation at the time,
these politicians come through
with a promise to reduce your
taxes. I certainly would not
object to a tax cut if it could
be done in a manner that re-
presents fiscal responsibility.
But to dangle a \$15 tax cut in
front of the taxpayer during
these times when such a cut
probably would feed the fires
of inflation to the extent that
his costs go up another \$20
just doesn't make sense.

Additionally, any tax cut takes
money from the government.
And to cut government income at
a time of deficit spending would
only double the inflationary
reaction.

The chief culprit of our in-
flationary spiral in recent years
has been excess spending by the
federal government. During
the past 10 years, the national
debt has increased by \$166 bil-
lion. This has resulted chiefly
from the huge spending meas-
ures proposed by the previous
Administration and passed by
the Congress during the 1960's.
We are still trying to bail our-
selves out from the huge debts
of the so-called "Great Society."

To cut taxes at this particu-
lar time would do serious
damage to the nation's economy
fanning the fires of inflation
even hotter. At the proper time,
I shall fight on the Senate floor
for a tax cut. But first, we

must make a serious effort to
cut federal spending, and I have
as yet seen little or no effort
in this vein from the present
leadership of the 93rd Con-
gress.

The Senate just a week ago
by a vote of 80-to-zero voted
for a budget reform bill. To
go ahead with tax cuts and
other major changes in our
personal and corporate tax
structure without any hearings
on these proposals would be a
signal that the Senate intends
to pay no attention to the years
of work that went into its own
budget reform bill.

It would be even more ruin-
ous for the Congress to go
through with proposals to cut
the oil and gas depletion allow-
ance, and pass other tax increase
proposals on business in general.
Admittedly, the price of gas-
oline and other petroleum prod-
ucts has risen in recent
months. But the added rev-
enues from these sales will
provide the base for the huge
sums needed to explore and
develop the vast new sources
of oil and gas that this coun-
try needs.

As most of us in Texas know,
the depletion allowance helps
the small independent more than
it does any other segment of the
oil industry. And it is the inde-
pendent who drills for, finds and
develops about 80 percent of our
petroleum resources. If we kill
off the independent, we will lose
the major source of new oil and
gas discoveries in this country.
Such action would most certain-
ly lead to greater shortages and
higher and higher prices at the
gasoline pump.

WASHINGTON REPORT BY

Lloyd Bentsen,

United States Senator

It is time for the Federal Reserve Board to take a new look at its tight money policy, which has helped drive interest rates through the roof. The Board has tightened the supply of money as part of the fight against inflation, which is indeed, one of the most serious problems facing our country today. But, it is fighting the wrong war. Much of the inflation today is caused by shortages--shortages of housing, shortages of steel, shortages of energy. And by clamping a lid on the supply of money, the Federal Reserve has made it increasingly difficult to borrow money

for building houses or producing steel or drilling for oil. A continuation of this policy will only intensify the shortages. Today's high interest rates make it very hard for people to borrow money for their individual needs, too. The prime lending rate--the rate offered to the biggest borrowers--is now at 11 and one-half percent, the highest it has been since the Civil War. And at last word, it may rise even more. But, in Texas, you aren't allowed to loan money to an individual at more than 10% interest. I have been in contact with many Texans who have not been able to obtain loans for such

necessary items as homes or home bills. **HIGH INTEREST HAMPEES HOME SALE** One realtor in our state recently told of the difficulty he had in selling his own home. He put in on the market last November, but couldn't find a buyer until May. During that six month period, he was in contact with four potential buyers who all turned away because interest rates were too high. Each of them, he said, had good credit ratings and could make a reasonable down payment. But, none of them could afford the financing at today's sky-high interest rates. The fifth buyer was able to make the purchase only because he had cash from selling his home and did not have to make a loan. The owner of a small garage hit the nail on the head, I believe, when he wrote me that "causing the banks to get tight in lending is backward in curbing inflation."

"Raising the interest rates causes problems with all business, including the stock market, and puts a burden on the banks also," he wrote. "When we, the businessmen, are going full force we hire more people and produce more goods, and when there is a lot of something, it gets cheap." This Texas businessman is **BIBLE VERSE** "Come along with me and I will show you how to fish for the souls of men!" 1. Where is this verse found in the Bible? 2. To whom was it spoken? 3. By whom was it spoken? 4. Is the invitation recorded elsewhere in the Bible? **Answers to Bible Verse** 1. Matthew 4:19b (Living Bible). 2. To Simon and Andrew, who were fishing. 3. By Jesus. 4. Mark 1:17.

exactly right. The law of supply and demand dictates that, "when there is a lot of something, it gets cheap." But today's interest rates prevent businesses and industries from producing 'a lot' of almost anything. And, as a result, prices keep rising. **BUSINESS, INDUSTRY NEED CAPITAL** In the Senate, I have long been concerned about the unavailability of capital and I am working to improve the situation. American business and industry face unprecedented needs for capital investments, and high interest rates only make that capital harder and harder to come by. The domestic oil industry alone will require \$200 billion in capital by 1985. Power

utilities will need \$70 billion over the next five years. Bethlehem steel estimates its needs at \$3 billion to \$4 billion per year between now and 1980 to replace obsolete facilities, install pollution control equipment, and expand capacity to meet increased demand. And changes in the automotive and transportation industries will require tremendous outlays of capital. **Wrong Repairman** The lady of the house summoned a TV serviceman to fix the set. Spreading out his tools, the repairman inquired, "What seems to be the trouble?" Replied the little woman, "Well, for one thing, all the programs are lousy."

The battle against inflation is of great concern to all of us. But inflation caused by shortages can best be cured through increased production, and this takes money. I think it's time for the Federal Reserve to let up, put some

The inflation of 1974 is different from the inflation of 1969 and 1970. And you cannot win today's battle with yesterday's weapons. more money in circulation, and help bring interest rates down to earth.
