Dope Peddlers Picked Un In Levelland

The case of a Latin Amerby Mrs. Jewel Robinson, the Ican lad of 18 will go before the grand jury in Levelland Monday morning - the charge will be selling narcotics.

> In his attempt to introduce narcotics into Levelland schools he was foiled by the boy he asked to be a pusher, who told the story to his father who, in turn, notified the authorities. At least four were implicated in the sales, but the actual dope was found on the Latin American.

The accused is under parole on other charges coming from a conviction in Lubbock County.

The senior pictures came in last Wednesday and we were all very glad to get them.

Now we are trying to decide on a place to go on our senior trip.

'The Hockley County Grand Jury will be in session on Monday of next week to consider some thirty cases.

Most of these cases have been prepared by the outgoing County Attorney, Bill Boedeker.

Bill Boedeker has been fill ing out the unexpired term of Warren Tabor, who resigned. Bill is a former county attorney and has a record in office that has never been equaled in the history of the county, and he is one of the outstanding attorneys on the South Plains.

Weather

This may not be news now, but it might be years from now when some one looks over the newspaper files-at about 11 o'clock water to the field. Wednesday morning the cloud cover moved off the South Plains and Old Sol again showed his face. Of course, we do not

know how long the cloud cover will remain away, but we're happy, along with a lot of other folks, to see the sunshine.

The snow and rain will be of great value in giving an underground season for the crops of 1961.

Blighted Cotton Gives Short Yield

Alvin Ryals and Frank Sylvester report that cotton, which was blighted by static electricity in the summer, failed to yield what it should.

Where the land should have produced a bale to a bale and a quarter per acre, it turned up with less than a bale.

Both Alvin and Frank declared that when you are irrigating cotton if it turns out less than a bale to the acre it is a losing proposition. They also report that water in their irrigation wells is falling off and that you have to de as much as twice the pumping now that you did several years ago to get the

> School was closed Friday of last week because of the snow, but Mr. Fuller told us Tuesday morning that they were managing to get their buses through on the complete route, explaining that the real trouble would start when the thaw sets in.

To give you some idea of conditions west of us, Clyde Loveless went to Lovington. N. M., Sunday by way of Church School 10:00 Tatum and said: "I have never seen so much damage in my life. Telephone poles were snapped in two for more than five miles; ice Choir practice 6:30 pm on the wire was as large as a man's leg. All electric service was out-people put food from the deep freezes in the snow to try to preserve it until the electric power was restored. The entire community was out of water, not only the electric wells stopped, but those pumped by windmills were frozen hard and tight. The people had to haul water for miles for their cattle. In the all electric homes the families left them and went to stay with relatives. The light company at Lovington stated they had had more than \$200,000 in damage."

Four Latin American men were charged in Judge Robert's court Wednesday with gambling and fined \$35 each.

Supt. O. V. Fuller told the Plainsman Tuesday there has been a good response to the questionnaires sent out by the school asking the patrons to comment on different phases of the school work.

Heart Attack

A letter from James Martin, who is stationed in Alaska, to his parents, Mr. and Mrs. Jim Martin, states that Jerry Westerman is recovering from a serious heart attack.

Jerry is a former Ropes boy, and is in the Armed Forces. He was in the hospital for some time, but reported to James that he is much improved.

James is at Anchorage, and reports plenty of snow and cold.

-000---**Finger Painfully** Mashed Monday

Mrs. Chester Stephenson was in Lubbock Monday and while there a car door was slammed on her finger, which resulted in severe lacerations, and fractured a bone.

She was carried to a Lubbock hospital where stitches were taken to close the wound.

This is the story from the west, and similar conditions exist to the north of us.

This has been one of the most severe spells of weather, at this time of year, that has visited the South Plains in many years.

And, it's not over yet.

Card of Thanks

I desire to take this means of extending to my friends in the Ropesville community my heartfelt thanks for the words of encouragement, get well cards, flowers, visits, and other acts of kindness during the time I was in the hospital. It is my hope that should you ever have to go through such an ordeal you will find yourselves among friends such as you have proven to be. May God bless each one of you is my prayer.
