## Textile Plant To Be Located In Levelland Hockley County Food Show Set 55mph On Texas Highways To Be Effective Sunday

The 4-H members throughout Hockley County have been learning to prepare foods which are suitable for various localities in Texas. Along with developing cooking skills, these 4-H'ers study the nutritive value of the foods they prepare. A Food Show will be held to give them an opportunity to share with you what they have learned. The theme for this year's show is "Lone Star Foods". Public viewing is scheduled for Saturday, January 19, at 4:30 p.m., in the South Plains College Texan Hall-Annex. About 98 boys and girls are enrolled in the foods project.

Vivian Liner of Southwestern Public Service Company will present a program for the guests at 3:00-4:00 p.m. Her program will

be on garnishes for various dishes. All interested adults and youth are invited to attend.

### Immunization Clinic Set

The monthly Immunization Clinic will be held in the Health Unit, Courthouse Annex, in Levelland, Wednesday, January 23, from 1:00 to 4:00 p.m.

The immunizations offered will be polio, measles, diphtheria, Rubella, whooping cough, and tetanus.

Records are not available on clinic day. You may come by the office Monday through Friday during office hours and pick them up.

The Texas Highway Commission has set a statewide maximum speed limit of 55 miles per hour, effective at 12:01 a.m., Sunday, January 20.

The action was taken in keeping with the law passed by the recent special session of the Texas Legislature, empower the Commission to set lower speed limits to comply with federal energy saving actions.

Under the terms of the Emergency Highway Energy Conservation Act signed by the President, January 2, a state not establishing a 55 mph maximum speed limit would not receive its share of federal highway construction funds.

Federal taxes on items related to the operation of motor vehicles—notably a four cents per gallon levy on gasoline—go into the Federal Highway Trust Fund.

### Services Held for Clois E. Bevers

Services for C.E. Bevers was held at 2 p.m. Saturday in the Caprock Church of Christ in Lubbock. He died about 4 p.m. Wednesday, Jan. 2 in St. Paul Hospital in Dallas. He had been ill for some time. Burial was in Resthaven Memorial Park under direction of Rix Funeral Home.

A native of Lubbock, Bevers was a member of the 12th Street Church of Christ in Levelland. He also belonged to the Masonic Lodge of Levelland, the VFW and Noon Day Lions Club.

Bevers came to Levelland from Mount Pleasant. He previously lived in Idalou. He was co-owner and manager of Levelland Concrete Co.

Survivors include his wife and 2 sons, Brent of the home and Randy of Levelland; his mother, Mrs. Ada Bevers of Bakersfield, Calif.; four brothers, G.C. of Levelland, A.L. of Ropesville, Ray of Muleshoe and Hubert of Lovington, N.M.; six sisters, Mrs. Alton Phillips of Ft. Worth, Mrs. H.V. Fezell of Lubbock, Mrs. J.N. Willis of Ropesville, Mrs. Owen Wylie of Memphis, Tenn., Mrs. Roy Hale of Houston, and Mrs. Keith Barnard of Bakersfield, Calif.

A&B—Max Blackmon, Randy

These funds are apportioned back to the state for the federal government's share of highway construction.

Texas' share amounts to some \$240 million annually which would be withheld if the lower speed limit were not set by early March.

The action is subject to review within eight days by Governor Dolph Briscoe. The lower speed limits will apply to all highways in the state, including highways under the control of the Texas Turnpike Authority, cities and counties.

New speed limit signs replacing the old 70 mph maximum speed limit on the State's major highways, will be in place by the effective date. The Highway Department will begin immediately the task of making and posting the new signs.

The Commission also directed the Highway Department to monitor and document circumstances "which might relate to the establishment of speed limits and to report to the Commission on a monthly basis." This is in order that the Commission may make findings as to whether the 55 mph limit should continue in effect.

Many motorists in Texas already have voluntarily reduced their driving speeds to below 55, Highway Department spokesmen said.

### Auto Mechanics Course at South Plains College Registers First Woman Student

Mrs. Winnie Reid graduated from South Plains College in 1969. She is returning to school this semester as the first woman in the college's history to sign up for an auto mechanics course.

Right now Mrs. Reid says she has only a "speaking acquaintance" with the workings of a car. After four semesters of intensive study, however, she hopes "to get a job in some field of auto mechanics."

Why? "Too few women know anything at all about an automobile," she said. "And as much as we rely on the automobile, I can't imagine anyone not being interested in how they work," she added.

Her instructor, Claude Kirkpatrick, assistant professor of diesel mechanics at SPC, feels that the field of mechanics has unlimited possibilities for women. Mrs. Reid said that at least 70 percent of the mechanics in England are women.

The Levelland chapter of the Independent Garagemen's Association of Texas is paying for Mrs. Reid's books, tuition and fees.

Mrs. Reid, a native of Texas, was reared in Kansas. She has lived in Levelland for about 30 years. She

Carter, Sherry Fry, Teresa Lindley, Lupe Martinez, Juanita Reyna, Christine Snider.

Daiwa Spinning Co. Ltd. of Osaka, Japan, announced last week that it will construct a \$15 million textile plant just outside the Levelland city limits.

The Japanese firm has accepted a Levelland Industrial Foundation offer of 100 free acres partially adjoining Texas Hwy. 116. Also included in the agreement is 71 acres of water rights plus \$30,000 cash and free sewage disposal. Formal agreement is to be signed Monday in Osaka.

A five member delegation from Levelland comprised of Hockley County Judge H.L. Moreland, Levelland Chamber of Commerce president John Davis, Mayor Jim Montgomery, president of the Levelland Industrial Foundation J.G. Stacy, and LIF director Fred Owens will make the trip to Japan.

The firm plans to build what ultimately will become the most modern textile plant in the United States or Asia. An "open-end" weaving process to be utilized is said to be especially well suited to the types of cotton grown on the South Plains. The plant will be equipped with the most modern textile equipment available, including 50 sets of spinning frames utilizing the "open-end" process.

The plant is expected to be operational by January, 1975 and employment is projected to grow from 150 to 750 persons within five years. The base entry pay is estimated at \$2.50 per hour and will consume approximately 25,000 bales of cotton.

Levelland chamber manager, Jake Street, described the business community's reaction as "jubilant."

is a sponsor for the Fuller Brush Co. and is busy rearing three sons, Randy, a student at Southeastern State College in Durant, Okla.; Jesse, a junior at Levelland High School; and Harley, a fifth grader at Cactus Elementary School.

## W - T Chamber of Commerce Asking for Amendment on Agricultural Act

The Agricultural Act of 1949, Title V - Agricultural Workers, Section 505, has created for West Texas farmers and ranchers almost unsurmountable problems in securing laborers to assist in the production of food and fiber in abundance.

This act prohibits the West Texas farmer and rancher from hiring agricultural workers from the Republic of Mexico.

The Board of Directors of the West Texas Chamber of Commerce has adopted a resolution asking that this act be amended so that farm-laborers from the Republic of Mexico can again be employed to help alleviate the current shortage of farm and ranch labor in West Texas.

"A proven supplemental farm and ranch labor force could be secured from the Republic of Mexico to assist in the nation's efforts to maintain an adequate agriculture productivity if the Act of 1949 were amended," says James A. Rogers of Plainview, Chairman of the WTCC Agriculture and Ranching Committee.

"The sector of Texas economy engaged in agriculture has produced food and fiber in abundance," says the WTCC Chairman, "and it has been produced at a price which has been

and remains substantially below levels that are produced in other parts of the world.

This agriculture sector of the economy is now faced with a complexity of economic factors ranging from the unpredictable forces of nature to competition from a growing array of other businesses and individuals vying for an increasingly limited supply of the necessary items of farm and ranch production.

At the present time agriculture is unable to secure sufficient labor, which under present laws is practically unavailable under any circumstances.

If this act is amended making it possible for West Texas farmers and ranchers to employ labor from across the Rio Grande, a proven supplemental labor force is available at almost anytime while, at the same time, providing for our good neighbor Mexico a welcome boost to their economy."

West Texas Chamber of Commerce is strongly and vigorously recommending to the House Agriculture Committee and all other concerned legislative committees, and to the West Texas members of Congress, that this act be amended as soon as possible, so that the shortage of farm and ranch labor can be eliminated, and

there will again be an abundant production of food and fiber that will benefit all consumers.

Copies of this resolution have been sent to appropriate national officials.

## Pollard Ford to Take Down Tent Friday Afternoon

Principals of Pollard Ford, Lubbock, are extending a public invitation to the "ending of one era and the beginning of a new one." The occasion is a tent-lowering ceremony, Friday, Jan. 18, 4 p.m. at the site of the new Pollard home, Loop 289 and Indiana. The event will precede grand opening ceremonies to be announced at a later date.

The tent itself is a gigantic 100 by 60 foot landmark used in the interim operation of Pollard Ford the past year and is—according to members of the Pollard firm—reminiscent of the huge circus tents of yesteryear.

But to Dick Pollard, president, it marks a milestone in his career, which began in Roscoe, Texas in 1953. In 1966, Pollard bought out Lubbock Auto Company; in 1973, he limited operation of Pollard Ford Company for expansion purposes and now claims the largest, full-service Ford dealership in West Texas. The new Pollard building is a total of 51,880 square feet and houses the service, sales, parts, paint and body departments. The 37 member staff of the skelton operation of the past few months has expanded to 80 people.

Pollard believes the tent lowering ceremony—aside from announcing readiness for business—will allow older Lubbock area citizens to relive a bit of nostalgia as they remember earlier circus tents, and give younger ones something unusual for a change.

A large number was present. The next meeting will be Thursday night, January 24th.

# SPORTS

by Joe Kelly

One down and thirteen to go!

It sounds so easy when you write it that way, only 13 to go, but every one of those games will be crucial and probably every one of those games will be hard fought.

I'm talking, of course, about Texas Tech basketball. The Raiders opened the conference campaign at Fayetteville Saturday and came through with an overtime victory.

Psychologically, winning the first game is important. It doesn't mean that a championship is in the offing, but it does mean that you have one less game to win and it gives you momentum.

In addition, the victory was on the road against an Arkansas team that usually is at its best at home. Indeed, the Razorbacks don't lose many in the hills and that makes this first Raider win even more important. The Porkers have killed more than one team's hopes in the Ozarks.

\*\*\*\*\*

Typically, it was a team victory. I saw that despite the brilliant game by Rick Bullock and the support by William Johnson, Richard Little and Phil Bailey.

Under Gerald Myers, you're not likely to see the type of scoring that Bullock produced. Not that Gerald is opposed to a man scoring high, nor that Bullock isn't capable of that kind of point production. Instead, the Raiders are drilled in unselfish play.

If Bullock was scoring, it wasn't because he was selfish, but because his teammates were getting him the ball, making it possible for him to pile up points.

It's a lot more difficult to defend a team, for one thing, where there is no one high scorer. On a well balanced team, any player should be capable of scoring. That's one of the things that made Tech so hard to beat last year and the pattern appears to be continuing.

\*\*\*\*\*

Miami proved that the Super Bowl victory last year was no fluke. The Dolphins jumped in front, commanding play and putting the result almost out of reach in the first quarter.

As a matter of fact, the first quarter decided the game and it was academic after that. Minnesota's vaunted defense was ripped to shreds and the Viking offense didn't get untracked until long after the defeat was sealed. After so much anticipation, it was a letdown.

Miami is awesome. I used to think that Green Bay teams came about as close, under Vince Lombardi, as it is to reach perfection. Miami makes you take another look.

Larry Czonka is a ferocious runner. Mercury Morris outside is a constant threat. Bob Griese may not be the greatest passer in NFL history, but you have to respect him. And that defense is something else to behold. They do the job, anchored by Manny Fernandez. The Dolphins are for real. They're also going to be around a long time.

\*\*\*\*\*

I'm sorry that the mails didn't get the column I wrote in Dallas, for after the Cotton Bowl game, here in time to appear. Maybe when they raise the price of stamps, we'll get something better than four day delivery from Dallas to Lubbock. But don't bet on it.

\*\*\*\*\*

Anyway, in that column I commented on the Gator Bowl game and the tremendous Tech victory. The Raiders won both the football game and the halftime show, as I remarked.

I also said that Lubbock folks should write bitter letters to ABC and complain about the treatment the Gator Bowl received. Tennessee fans should have been just as unhappy. Any real fan was going to watch the Sugar Bowl game and the over-promotion of that battle was totally uncalled for.

Several Dallasites, including the press, felt the same way. Field Scovell and Ken Dowell were furious. There were many others. It's not too late to let the network know that you resented the shabby treatment, let alone the Tennessee-slanted coverage.

\*\*\*\*\*

As for the band performance, it was superb! It was what West Texans have grown to expect, but have never become blasé about. The musicians and the players lived up to expectations.

Joe Barnes again had a brilliant game, while the defense rose to the occasion. And, after seeing the Cotton Bowl game, it may well be that Texas didn't want any part of Tech again in 1973. I look forward to 1974. That's when I think Tech will rule supreme.

\*\*\*\*\*

The action by the Southwest Conference in slightly more than slapping SMU on the wrists was anticipated. Both an SMU official and a player told me that this was what they expected.

They expected this because the SMU president personally admitted guilt and reported it. It's a little hard to kick someone in the teeth too hard when they say they're guilty voluntarily. It may have come out later, but by admitting it sooner, SMU escaped more easily.

\*\*\*\*\*

The player told me that he thought the big trouble with the Mustang football team was that Coach Dave Smith was too demanding. "He made us think that every game was the most important on the schedule. After we lost to Missouri, we really felt that the season was over."

The player also said that a majority of the Mustang squad wanted Bum Phillips as head coach and, when he left because he wasn't appointed, a lot of players resented the treatment.

\*\*\*\*\*

But look for more action in the conference, because SMU, while admitting guilt, says that it knows of other institutions that are doing just as much, if not more, than they are.

Not that Mustang officials are vindictive, but they would like to see the entire conference brought in line. Tech fans, to the best of our knowledge, can watch with a sign of relief, because the chance of any guilt here are next to zero.

\*\*\*\*\*

UCLA just rolls on and on and on, despite the loss of Bill Walton by injury or fouls. You know that one of these days the Bruins are going to lose, but you don't know when.

In the meantime, they continue their incredible streak. The Bruins must be considered the seventh wonder of the athletic world. Recruiting, of course, is a large part of the answer, but the lion's share of the credit has to go to Johnny Woodin, a super coach.

"Linty" Laundry

Lint is a natural by-product of all laundering, but whether or not it clings to clothes may depend on the homemaker.

Normally, lint flows down the drain or collects on lint filters built into most of today's washers and dryers.

When it persistently clings to freshly laundered clothes, the homemaker should recheck laundering procedures.

Five major factors cause clinging lint—improper sorting of laundry, too little detergent, insufficient water, overloading washer and dryer, and overdrying.

Concentrate on these areas to overcome lint problems.

**Classified Ads** may be placed in this newspaper at the rate of \$.05 per word—minimum charge \$1.00—by contacting your local news editor or by calling 745-3419 in Lubbock.

•Check lint filters. For peak efficiency, clean filters after each wash and dry load.

•Examine sorting procedures. Separate lint "givers", towels and flannel pajamas, from lint "attractors" such as linens, corduroys, dark cottons, man made fabrics and durable press garments. Also, launder heavy linters, such as chenille bedspreads, alone. Turning lint holders inside out may help too.

•Use proper amount of detergent. Detergents increase the wetting of fabric surfaces. If too little is used, wetting action is reduced and lint adheres more readily. Proportion detergent to type of machine, water hardness, load size and degree of soil.

•Don't overload. Loading too many clothes into a washer inhibits free movement of clothes, which normally flushes lint from fabric. Check instruction booklet to determine recommended load size and water level.

•Avoid overdrying. When overdried, man made fabrics magnetically draw lint due to static buildup. Correct timing and use of fabric softener help
