OPPORTUNITY -Ted Dott

An opportunity presents itself to the citizens of Ropes next week-March 7-11. This is Public School Week. During these five days, all members of the Community are invited to visit the public school. This means that we are invited to attend classes and to view first hand the quality of our public education. This is one of freedom's opportunities.

Not all political entities would invite its citizens to witness public education for fear of criticism. A democracy must invite criticism. It is by good constructive criti-

All members of our community ought to visit the public schools during Public School Week if for no other reason than to sit in a classroom and remember how it was in our day.
