Fred Spikes Writes **Voters** and Friends

"Of the People and for the People" Friends and Fellow Citizens:

Realizing that it is next to impossible to meet and see all the voters of this county in person, because of limited time and the vast number of voters, I am there fore sending this message, asking each of you for your vote and influence, for the office of Tax Assessor of Lubbock County, and should I not be able to see you personally prior to the date of election, rest assured I would like to have had that pleasure, and in the meantime, please accept this message from me as my personal request for your vote and influence in the primaries and in the general election.

It may be truly said of me that I am a pioneer in this county, in that I have resided in Lubbock and adjoining counties 41 years, the last half of this time my family and I have lived continuously in Lubbock County. Therefore, I am "of the people." I am also "for the people" in Lubbock County, because your interests and mine are identical and the same, and Sheriff Hardy although many of you have become citizens of this county at a later date than I, it has been a pleasure to me to see this county develop and I wish you well, and I believe we have the best county and the best people to be found anywhere.

New Corporations Birthday Party **Granted Charters**

AUSTIN, July 21-The 174 new corporations granted charters during June had total authorized capital stock of \$6,461,000, which lacked only 3 per cent of equaling the authorized capital stock of new corporations chartered in June last year, according to the University of Texas Bureau of Business Research.

Although last year there were 13 firms whose authorized capital stock was \$100,000 more, this year there were only six; of these six, however, one was a livestock concern with paidin capital stock of \$1,000,000, and another was a \$2,500,000 oil firm. The number of firms capitalized at \$5,000 or less, dropped from 66 in May to 64 in June; last year in June, only 35 firms had such a low capitalization.

Merchandising and oil frms, numberng 40 and 45 respectively, continued to head the list o fnew corportions in number, though both of these groups were smaller than in May; the manufacturing groups, on the compared with fourteen in June a year

Texas Failures Somewhat Declined

AUSTIN, July 21 - Commerical failures in Texas declined by somewhat more than the usaul seasonal amount during June, according to the Bureau of Business Research of the University of Texas. This favorable showing is dimmed, however, by the fact that there was an increase of 39 per cent in average liabilities per failure.

"Fifty-nine were reported in bankruptcy during June by R. G. Dun and Company, an average of about fifteen a week," the Bureau's report said. "The total for the month is 26 per cent below that for May, although the usual seasonal decline went into the hands of receivers.

'The total liabilities of the failing concerns were \$1,550,000, an increase of 2.2 per cent over those for May, and more than three times those in June a year ago. Assets, on the other hand, dropped from \$936,000 in May to only \$554,000 in June. Of the firms which took bankruptcy in June, four had total liabilities of more than \$100,000, and three owed \$90,000 or more; one firm had total liabilities of about \$150,000 and listed assets of only \$5,000, leaving its creditors only a doubtful 3 cents on the dollar. Average liabilities per failure for the whole group of failures were \$26,271 in June, as compared with \$11,450 in June a year ago.

"During the first six months of the year, 532 firms with average liabilities of \$21,357 went into bankruptcy, as compared with 462 firms owing an average of \$19,428 in the same period last year. The number of failures in the first half for both of these years is high, but the record as a whole makes a substantially better showing both in number and in liabilities than that for the years 1921-1922."

Last Friday evening Mr. and Mrs. . E. McCarver, Misses Ophie Aydelott. Christene Champion and Mr. Claude Cooper, Carl Rogers, went swimming at Tumble Inn and afterwards had lunch at the park.

For Tax Assessor

R. C. POTEET TO THE VOTERS OF LUBBOCK COUNTY

BE NOT DECEIVED! If the amendment to merge the office of Tax Assessor and collector carries in November it cannot become operative for two years, because the Tax Assessor will be lected at the same time, for a two year term. (Art. VIII, Sec. 14, of Constitution of Texas).

His election is equivalent to contract between the county and the successful candidate. It is questionable Church Meeting whether the Legislature can set aside this contract.

I favor the merger, or anything else that will cut the cost of county government.

I am qualified for the office of Tax Assessor from the standpoint of education and experience. I merit the job through years of public service as a school teacher and a life of clean, honest upright citizenship. I was born and reared in Cook county, Texas; been in Lubbock 7 years.

Marshall Field and Company, the largest department store in the world, we believe, have issued a circular to himself. their wholesale customers in which they point that while, last year, Federal, State and local taxes took almost 22 cents out of every dollar of private income, the proportion will be higher violated because another rich man said this year because of the greatly reduced income.

Expenses have not been reduced; they have been increased. According to the Field tabulation, since 1927 our Federal costs have increased 63 percent, from \$1,964,000,000 to \$3,195,-100,000 a year. And as this is written Congress is still in session and is trying to spend another couple of billion of tax money, though where it is to come from nobody knows.

This is all wrong. It is time to call a halt. We see only one way to do that, and that is to make economy the watchword of the coming campaign. No man should be supported for election to any office in which he will have anything to say about taxation or the spending of tax money who will not pedge himself to reduce expenses and taxes, even if by doing so he loses a few votes when he comes up for reelection.

OBSERVATIONS AND MEDITATIONS

Well, now that both parties have nominated their candidate, the next thing to be done is to put the prohibition question, on something else, on the ballot to induce the voters to go to the polls on election day.

However, the democrats apparently have the best opportunity that they ever had to elect their man.

The anti-prohibition forces may be classified into three classes or group3, namely, those who love money and items and, if they need attention, he Business men, manufactures, pro- popularity more than justice, those perty owners of every class and kind who love booze more than reason, and are joining in the wave of protest those who let the other two classes do

> We are not a drop wetter than we were before John D. Jr. expressed

If the prohibition law ought to be epealed just because a rich man said o, the income tax law ought to be so; and two innocent men ought to be kept in the California pententiary just because a rich corporation said so.

It is generally presumed, in a free country, that the majority has a right to rule, although the majority is not always right. Why not? The cause is obvious. The voting population of any place consists of three classes, namely, those who know right from wrong and are willing to do right, those who know right from wrong but insist in doing wrong for the sake of making money, and those who don't know right from wrong but naturally fail for the money influence; therefore the influence of money often causes the majority to vote wrong.

CHRISTIAN SCIENCE CHURCHES "LIFE" was the subject of the les-Scientist, Sunday, July 17.

The golden text was taken from family, Psalms 27:1. "The Lord is my light and my salvation; whom shall I fear? the Lord is the strength of my life; of whom shall I be afraid?"

The passages read from the Scriptures embraced the following from Deuteronomy 30:15,19: "See I have set before thee this day life and good, and death and evil; . . . therefore choose life, that both thou and thy seed may live."

Citations from te Christian Science textbook, 'Science and Health with Key to the Scriptures," by Mary Baker Eddy, included this from page

"The spiritual fact and the material belief of things are contradictions; but the spiritual is true, and therefore the material must be unture. . . Matter and death are mortal illusions. Spirit and all things spiritual are real and eternal."

Tampering with Meters.

The undersigned desire hereby to call to the attention of all persons the fact that it is a grave criminal ofbeen entirely too much tampering with and family Louise, Ben, Ed, and Jim meters to keep them from registering correctly. It is a species of petty thievery, and all persons who may be tempted to indulge in the practice should take warning that hereafter persons guilty of the offense will be prosecuted to the limit formation we here quote the law on the subject:

Art. 1056, Penal Code of Texas, reads as follows: "Whoever, intentionally, by any means or device, prevents electric current, water or gas from passing through any meter belonging to a person, corporation or company engaged in the manufacture or sale of electricity, water, or gas, for lighting, power or other purposes, furnished such person to register the current of electricity, water or gas, passing through meters, or electricity, water or gas supplied, or in any way, interferes with its proper action or just registration, or without the consent of such person, corporation or company, intentionally diverts any electric current from any wire, or water or gas from any pipe or pipes of such person, corporation or com-"Where Well Dressed Men Dress Up" pany, or otherwise intentionally uses, or cause to be used, without the consent of such person, corporation or company any electricity or gas manufactured, or water produced or distributed, by such person, corporation or company, or any person who retains possession of, or refuses to deliver, any meter, lamp, or other appliances, which may be, or may have been loaned them by any person, corporation or company for the purpose of furnishing electricity, water, or gas, through the same, with the intent to defraud such person, corporation or company, shall for every such offense be fined not less than twenty-five nor more than one hundred dollars. The presence at any time, on or about any such meter, wire or pipe of any device or pipes or wires resulting in the diversion of electric current, water or gas, as above defined or result ing in the prevention of the proper action or just registration of the meter or meters, as above set forth, shall constitute prima facie evidence of knowledge on the part of the person having custory and control of the room or place where such device or pipe or wire is of the existence therof and the effect thereof and shall further constitute prima facie evidence of intention on the part of such person to defraud and shall bring such person prima facie within the scope, meaning and penalties of this article." Art, 1057a of the Texas Penal Code read as follows: "Any person or furnisher of electrical power and current

or gas who fails or refuses to allow the agents of the city commissioners or city council of any cities, towns or villages of the class hereinbefore mentioned to examine the meters and measuring devices hereinbefore referred to, shall be guilty of a misdemeanor, and be punished by a fine not to exceed two hundred dollars, each and every day of such refusal to con-

stitute a separate offense." Honesty is the best policy. Petty stealing of electricity, water and gas in Slaton must stop, and it will be stopped if vigorous prosecutions under the law will do it. Signed:

Side Quit Hurting, Got Stronger, Well; CARDUI Helped Her

Mrs. R. L. West, of Huntsville. Ala., writes: "I was weak and run-down. I had a pain in my side. and I kept losing weight. I grew nervous over my condition-this was nervous over my condition—this was
unusual for me, for I am very cheerful when I am well and don't easily
get nervous. I knew I ought to take
something. My aunt told me I ought
to try Cardui, which I did. I began
to feel better. I kept it up until I
had taken three or four bottles. My
side quit hurting and I was soon
feeling strong and well."
