Group Seeks Right-Of-Way For Highway

A delegation from the Slaton Chamber of Commerce appeared before the Lubbock County Commissioners Monday to press for action on securing right-of-way for the Slaton bypass on S. Highway 84.

The commission explained that funds are still not available to purchase the right-of-way but that a bond election for that purpose is being contemplated for early in 1961. The Commission said that such an election would need the undivided support of the Slaton and Lubbock Chambers of Commerce and that it would be the responsibility of those organizations to circulate the petitions for the election and promote the election to secure backing by the voters.

Don Bourn, Joe Gibson, Gordon Gass, Billy Gass, Dave Sanders and Jack Berkley brought back 11 trophies from the Clovis races with 13-year-old Billy Gass stealing the show by coming in second in the A-Super race in a much lower-rated car. He was the only teenager in the race and started off in eleventh place at the pole.

Precinct Liquor Election Is Slated December 10th

Slaton and Lubbock County Justice of the Peace Precinct Two will have their second liquor election in just over a year on Saturday, December 10th.

The election was called at a meeting of the Lubbock County Commissioners Monday after petitions bearing 745 certified names were presented seeking the election. Originally, the petitions had carried 807 names, of which number the County Clerk certified the 745. Spokesmen for backers of the election are Clarence and Norbert Kitten, two longtime Slaton farmers. Their legal counsel is Lawrence Melcher of Lubbock.

Arch Lamb, county commissioner for Precinct One, was the local point of some heated discussion concerning the election during the meeting. As an aftermath of the situation, the commission voted to seek a ruling from the state attorney general on the legality of the Precinct Two election.

Commissioners set the Dec. 10 date for the liquor vote on the legalization of the sale of all forms of alcoholic beverages by "package stores" for off-premises consumption in Precinct 2, which includes the City of Slaton.

Discussion centered around a recent court decision which held that the City of Denison, which voted "wet" in a local option election would remain "wet" even though a county-wide election held shortly afterward made the rest of Grayson County "dry."

Commissioner Arch Lamb of Precinct 1 argued, on the basis of a state law which limits liquor elections to one a year and that a new election in Justice Precinct 2 would mean Slaton residents would be required to vote on liquor sales for off-premises consumption three times in 14 months.

"I am not trying to favor one side over the other," Lamb said, "but it occurs to me that the law requires one year between elections. We could find ourselves having to call elections in each of the 11 different subdivisions of the county until we would be holding about 30 liquor elections a year. That many elections would be entirely too expensive and it would be ridiculous."

County Atty. Alton Griffin, who was called into the court session to advise the court on matters of law, pointed out that the statute is a "must law."

"The law doesn't say that the Commissioners' Court 'can' or

'may' call an election when a petition with the proper number of certified signatures is presented. It says the court 'shall' call an election. The court doesn't have any choice. If an election could be refused in Justice Precinct 2 because Slaton previously held an election, then a petition for a liquor election in the entire county could be refused," Griffin said.

Lamb, after stating that anything that may divide the people of the county would be bad for the county, asked that an opinion by the state Attorney General be secured on the status of Slaton following a precinct-wide election in which the voters might declare the precinct "wet."

In answer, Griffin said that the county attorney's office could prepare the necessary briefs to submit to the Attorney General by the end of the week, but it might be a month before the opinion could be written and returned.

Basketballers Split In 2 Games With Spurs

Slaton's varsity basketball team split their '60-'61 season at home Tuesday night when they took on Spur in their first home game.

Starting for the Tigerettes were seniors Judy Dunn, Judy Bishop and Saphomore Glenda Boudens as forwards. The starting guards were Elaine Pickens, Pat Pettigrew and Jeanette Price, all seniors. Everyone of Coach Boswell's girls saw action in the game with Judy Bishop being the high scorer of the night with 20 points in the first half and finishing the game with a total of 60 points.

The final score in the game was an easy 70 to 55 victory for Slaton.

The Slaton Tigers, with only two returning lettermen, met a seasoned Spur team and lost their game by a 8 goal margin, the final score being 63 for the Bulldogs and 47 for the Slaton Tigers.

Three Slaton members of the Slaton High School Future Farmers of America chapter gave the program at Tuesday's meeting of the Slaton Lions Club.

The three, Larry DeLaney, Danny Stewart and Jim Ayers, under the direction of J. P. Brown, gave a program they are going to use in district competition at Friendship on November 22 in the Country Radio contest, and information on livestock marketing.

In supporting the calling of the election, Melcher said, "people of Justice Precinct have indicated that they want the election. The only question is its effect in Slaton. If delay calling the election, are telling the people in precinct that they cannot have their election because an election already has been held in part of the precinct."

A motion to delay action of the court was made by Alton Brazzell, commissioner of Precinct 4, and seconded by Derrick, commissioner of Precinct 3, to call the election Dec. 10. The motion carried with Brazzell, Derrick and Clarence Green, commissioner of Precinct 2, voting for it and Lamb opposing.

Brazzell then introduced a motion requesting Griffin to see the Attorney General's opinion on the possible effect of a new election in Slaton. It passed unanimously.

Government Gift Shop?

This year, as in all election years, there has been a world of controversy over our economic and social-economic problems. We have been regaled with almost every conceivable point of view. We have been presented with enticing offerings designed to solve all the real and alleged difficulties that beset us—in national defense, education, agriculture, labor, medical care, foreign and domestic trade, fiscal policy, ration, and so on.

Such matters as these are, inevitably, dealt with in varying degree at the political level. But there are certain principles which transcend partisan politics. In a recent address, Maurice H. Stans, who holds the almost spellbindingly difficult and important position of Budget Director, dealt with some of these.

Mr. Stans laid his stress on the economic strength of this country—which, as he put it, "is just as important to our national strength as the military." He expressed his concern in these words: "In the past quarter of a century we have drifted into a state of mind concerning the federal government's role that has led to a profound change in our political mentality. We have become conditioned to financial practices in government that we would not dream of in our private affairs. We have discovered a variety of excuses for disregarding fiscal prudence. We have beguiled ourselves with the strange delusion that if the money comes from Washington it is no other fellow who provide it. We have succumbed to the miracle theory of government spending—that money will buy it faster. We have abandoned time-proven beliefs of frugality, thrift and self-reliance in exchange for economic nostrums that promise more for everyone from a Washington freelunch counter. We have rationalized all this in one way or another, and as a result we have developed national fiscal problems that will afflict us permanently if we fail to recognize and deal with them, quickly and seriously."

Mr. Stans then dealt with a series of danger signs among them: The federal budget has grown from \$3 billion dollars in 1930 to \$9 billion in 1940, to \$40 billion in 1950, and to almost \$80 billion in 1960—and if the trend continues it will reach or exceed \$160 billion by 1970. Our interest-bearing national debt of \$285 billion exceeds the combined debt of 67 other free world nations by about \$90 billion. Our already-enacted commitments to veterans, along with other unfunded but fixed commitments of various kinds, works out to \$750 billion. The resurre from special interest groups for more federal spending is relentless—major bills introduced in the last Congress alone, had they all been enacted, would have added as much as \$60 billion a year to present spending. The threats of inflation persist—in his words: "Nearly half of the free world countries have suffered inflationary price increases of 50 percent or more in the last ten years; this is a kind of sickness that is catching and we have no guarantee that it can't happen here."

It should not be taken from this that Mr. Stans is an ill-out pessimist. He is convinced that if we are to avoid inflation, save our freedoms, and maintain our free world leadership we must choose an alternative to the cult of spending. Here, to quote him again, is that alternative: "It is disciplined Government which doesn't consider thrift a discredited word. It is Government which is prepared to seek out the right answers to our problems, in the right priorities and within our ability to pay, instead of the pressure-group solution. It is Government that can recognize danger signs and avoid financial brink-

(Editor's Note: Here are two comments on Slaton's recent liquor election carried in newspapers outside the county. The first is from The Post Dispatch and, though it is erroneous in one place and opinionated in another, it gives a pretty good idea of what some Post residents were thinking concerning Slaton's liquor election. The second item is from the Knox County Herald and is written by James Hill, a former employee of The Slatonite and former shop foreman at The Post Dispatch.)

SLATON 'DRYER' NOW THAN A YEAR AGO

Slaton and Dickens voted to remain "dry" Saturday thus preserving the extended "trade territory," including Lubbock, for Post's liquor dealers.

Slaton, where a group of leading business men spearheaded the "wets" campaign, turned down legal liquor sales for off-premise consumption by a 162 vote margin, 1,086 opposed and 924 for.

This was a bigger margin for the drys than the Slaton city box of the precinct election there last year.

Dickens stayed dry for only four votes, 89 to 85. Post liquor dealers were elated at the outcome as a Slaton wet victory would have meant loss of the entire Lubbock liquor business of Slaton and the probable movement of some local stores to Slaton, despite high investment costs involved.

Several dealers reportedly had options on Slaton "store locations" should the wets score the victory many anticipated. One local liquor dealer pleaded his legal right of application for a Slaton liquor store in the Slaton Slatonite, just week two days in advance of Saturday's election, apparently figuring to get a week's jump on the field in getting the notice published and thus into operation sooner if the wets won.

The Slaton dries big advertising push in just Thursday's Slaton paper was a page advertisement entitled, "Let Post Speak." It quoted 11 Post business and professional men, including two county officials to the effects of liquor business on Post's economic picture. All of those quoted said it didn't help business generally, the argument Slaton wets had advanced in backing the package store proposition.

A precinct vote in the Slaton area is expected next as the law requirement of a year's wait between liquor elections has been observed. Wet backers say they will press for both taverns and retail package stores.

But one fact is obvious. Voters in the city of Slaton are not as strong today for legal liquor as they were a year ago. A wet victory in the precinct would locate all the stores out of Slaton as close on the highway to Lubbock as possible, thus preventing any economic benefits to the city of Slaton. So in a precinct election, Slaton conceivably would vote even "drier" than it did late Saturday.

walking. It is Government that won't get in the way of sound economic growth, but will achieve it by encouraging free enterprise instead of stifling it. It is Government that believes, like Lincoln, that it should do for the people only those things that they can't do as well for themselves, not in the centralization of all problems in Washington. It is Government that believes in sound money, that debts must be paid, that the budget should be balanced in good years, and that the public treasury is a trust, not a gift shop."

Clifford King Admitted To Dallas Hospital

Clifford King, 13-year old son of Mr. and Mrs. Robert King, Route 2, Slaton, was admitted on Wednesday, October 26, to the Scottish Rite Hospital for Crippled Children in Dallas. Thirty-five years ago, Scottish Rite Masons founded the hospital, dedicated to an effort to provide a chance at a normal day.

While most observers think it is only a question of time until some community closer to Lubbock votes to go wet for the Lubbock business, it may now take a lot more time than was elieved possible only a week ago.

JUST TALK

By James Hill
Last Saturday, my former hometown of Slaton, had another beer election, and again it was defeated at the polls. I was amused at the ads the two sides ran to try and win the sympathy of the voter to vote THEIR way. The DRY element of Slaton had spent considerable time and money to voice their side, as they had a number of testimonials from Post merchants and leaders on their views of the town since beer and liquor had arrived. In reading the paper seems like one of the biggest selling points for Slaton was the fact that Lubbock folks were not stopping at Slaton to spend any money but were burning up the road on their pilgrimage to Post and the Oasis.

According to the ad drunkenness has increased 465 per cent, driving while intoxicated has increased 1,000 per cent, and bootlegging has increased 400 per cent.

Since going wet 270 cases of intoxication in a public place have been filed, 1,100 cases of driving while drunk, 32 convictions for possession, transportation of alcohol, and three minors charged with possession of alcoholic beverages.

If the report is correct, and according to my past knowledge of Post, there should be approximately 40 bootleggers operating there right now!

Editor's Note: Here is another runnerup theme in the recent theme contest conducted in the local Eighth Grade on the subject of the recent nationally-observed Newspaper Week, Guardian."

YOUR NEWSPAPER—FREEDOM'S GUARDIAN

By Betty Cole
Probably the first newspaper was printed in China about A. D. 800 and was the official news of the Chinese government. Today there are over 1,800 daily newspapers printed alone here in the United States. So from a small beginning to a huge modern industry, the newspaper business is one of our most important ones.

Our newspapers play an important role in our life, in our community, and over the whole world. Our newspapers help all free people to join hands in building a better world for us to live in.

Our newspapers inform us of our neighbor's news, our city's news, our state's affairs, our nation's doings and happenings across the seas. We get first hand information from our newspapers and the news from over the world is brought to us almost as soon as it happens. Through our newspapers we can learn about the governments of other nations, about the customs of their people, about their cities and their ways of life. By having our newspapers we can communicate with other people by learning of their needs and their ways of life.

I think our newspapers play an important part, also, locally, by informing us about our merchants and businesses and what they have to offer us. I'm just glad we live in a land where we have freedom of speech and freedom of the press, so that we can read and learn everything of importance that happens. All of this we have because we have newspapers.

Today, there is no authority in the United States government

to force the newspaper to print any story. I think our newspaper is a guardian of our freedom. We should work to keep the newspaper free.

Slaton High Band To Attend Contest

Band! Pick up your feet and point your toes. That is a phrase used frequently by the band this time of year.

Slaton High School Band will attend a marching contest at Brownfield on November 22. This year the band will go on the field in triangle formation. A fanfare will be played at the beginning. In the triangle formation the band will play "Hostesses". They then do a contermarch on the north 10 yard line. From this they go into 4 company fronts playing "El Gaucho". The band starts from the 50 yard line and file out into 1 big diamond extending from the north 20 to the south 20 while playing "Grand Entry Swing March". They then go back to the 50 yard line. After the diamond the band goes into 4 company fronts and go to the end of the field playing "Burst of Trumpets," where they do a flank movement and go into block formation. In block formation they form 4 diagonals while playing "The World is Waiting For the Sunrise". At the end of this music the band will be at the north end of the field and will then play the last four notes of the fanfare.

Last year the band went to Levelland where they got a II in marching. Bands entered in the class with Slaton are Floydada, Post,

Claiborne, Shelby Lead Civics Study

Model Senate and House of Representatives were chosen in Mrs. Brown's Civics classes last week.

Tommy Claiborne was elected Speaker of the House, Joe Meicher, clerk and Ann Basinger, chaplain in the third period class. In the fourth period Civics class Don Shelby was selected as Speaker of the House, Lena Glascock, clerk, and Gail Johnson, chaplain.

Each class divided into committees as selected a committee chairman. Bills were presented before the members for debate. Bills debated were: to make all U. S. wet, to cut off passports to Cuba, and abolish all Communism parties in the U. S.

The classes took up the Senate Thursday. This has been very educational for all the students concerned.

The Old Timer

"The people who tell you never to let little things worry you have never tried sleeping with a mosquito in the room."

Farm Facts

To become the world's most efficient farmer, the American farmer has had to step up vastly his outlay for production materials. He, thus, is able to supply his fellow countrymen with food and fiber at prices proportionately lower in relation to their incomes than people in other countries are paying.

Farmers' expenditures for labor, farm machinery, feed, fertilizer, insecticides and other items increased from \$4.4 billion a year during 1937-41 to \$25.1 billion in 1958.

Prices of land, machinery, and equipment have continued upward, and farmers in general have increased the overall sizes of their operations. They are handling more land, machinery, and livestock. As a result of this and inflated prices, the total value of capital per farm has gone up.

Total farm investment in 1959 (\$200 billion) was equivalent to more than two-thirds the value of all stocks of corporations listed on the New York Stock Exchange.

Farmers have twice as much invested in machinery as does the entire steel industry, and five times as much as the automobile industry.

Investment per farm worker in the United States is more than twice the investment per worker in industry.

Pilgrims Started Thanksgiving

Thanksgiving, a national holiday, is celebrated in the United States and all its possessions and territories on the fourth Thursday in November. It is a day of religious observance to give thanks for the blessings of the past year. Family reunions, bountiful dinners and festivities in the home are part of the typical Thanksgiving celebration.

Thanksgiving originated with the Pilgrims of Plymouth Colony in December, 1621. This festival was given in gratitude for the ending of a difficult year and a successful harvest.

Native fruits and vegetables, wild turkeys, and pumpkin pies constituted the menu of the First Thanksgiving. This menu has become the traditional food for the celebrated day.

During the 19th century an increasing number of states celebrated annually — each state appointing its own day. Then on October 3, 1863, Abraham Lincoln appointed the last Thursday in November as Thanksgiving, and until 1939, this day was observed. In this year, President Franklin D. Roosevelt named the next to the last Thursday in November as the date for celebration in an attempt to lengthen the interval between Thanksgiving and Christmas, Congress passed

Cost Of A Date Inquired At SHS

Do you know the cost of a date? Here is some information gathered by a male member of the Tiger's Cage staff:

On an average date, you use about 4-6 gallons of gas, if you drive a small car. That's about \$1.80. Then, if you attend a show, you spend from \$1.00 to \$2.00. In the show, you must buy at least \$1.00 worth of candy, cokes, pop corn, and miscellaneous junk. That amounts to \$3.00. These figures are for an average date.

On a special date, one may spend as much as \$10.

Many girls were asked this question the past week. Here are a few answers.

Sue Reasner considered the cost of an average date from \$6 to \$7 and for a special date she thought the cost to be about \$10. Jan Jenkins thought an average date would cost from \$2 to \$3 and a special date about \$7. Gail Johnson estimated the cost of an average date at \$2.50 to \$3.00. She thought a more expensive date would cost about \$5. Glenda Bownds believed the cost of an average date would be about \$3 and a more elaborate date about \$5.00 to \$5.50. Fonda Patterson said that the cost of a date depended largely on the boy.

In 1940 a survey was taken at Texas Tech concerning the cost of a date. It was found to be about \$8.00. Times have really changed, haven't they, boys?

SHS Homemaking Teacher Reveals Extraordinary Abilities Through Life

"If it's worth doing, it's worth doing right." Mrs. Ima Dora Haile learned this motto early in youth and has continually practiced it throughout her life. Slaton High School was fortunate in having Mrs. Haile move into the Slaton Homemaking department in 1952. She has helped to make Slaton well-known throughout the state with her youth interest. Forty-six girls in Slaton have received State Homemaking Degrees under Mrs. Haile's guidance. She has directed and sponsored four area presidents, three state officers, and one nominee for national office. In 1958, Mrs. Haile was made a State Honorary FHA member. She is currently President of Homemaking Section District XIII Texas Vocational Association, President of District XIII Homemaking Teachers, Vice-President of Lubbock County Homemaking Teachers and the Area I FHA Sponsor.

Not only successful achievements in the "present" but also an unusual "past" fill in the life of our wonderful homemaking teacher, Mrs. Haile. Graduating as valedictorian of her class in Anton, she enrolled in College intending a science major but was

steered into the Home Economics Dept. instead. In high school, Mrs. Haile was a basketball forward, baseball and volleyball player. She was a member of debate and extemporaneous speech teams.

Mrs. Haile has had varied positions and responsibilities. She has taught the eighth grade, third grade and high school students. She coached all girls' athletics in Anton, Loop and Ira. Mrs. Haile's teaching career has included in addition to homemaking, Chemistry, Biology, general science, typing, math and English. Besides teaching, she has traveled extensively with her husband and has held jobs as secretary of Chamber of Commerce in Helena, Arkansas; Supervisor of Coffee Shop in Memphis, Tennessee; bookkeeper for Montgomery Ward in Houston and Amarillo and clerk typist in Idaho.

Mrs. Haile taught at Sundown and Winters, Texas, before coming to Slaton. Slaton High School is proud to have Mrs. Ima Dora Haile as a member of their fine teaching staff. A sincere "thank you" is extended to her from the SHS student body.

Kennedy, Johnson Winners In Vote

Kennedy and Johnson were elected President and Vice-President in the Civics and American History classes last week.

Each student was given a ballot such as was handed out at the polls Tuesday. After a poll was taken Kennedy and Johnson were selected as our President and Vice President for the next four years.

The reason for this was to instill in each student the right to vote.

Police Department Presents Programs

The Slaton Police Department has presented two of a series of six programs to be presented to the students of Slaton High School.

Two films, "Motor Mania" and "Death on the Highway," were presented at the first program by Officers Golmon, Douglas, and Childress.

Following these two films was a question and answer period. Many students participated in this.

Two questions asked by students were "Can you pass a car that is stopped to turn left on the right?" and "Can you turn right on a red light?" Second in the series of programs was a film, "A Day in Court." This film presented the different types of drivers on the road today.

Following the film, Joe Ryan talked to the student body. Officer Ryan answered the questions asked by students.

Ask a Little Child

Did you ever notice that small children talk about God with a faith so simple, so beautiful that you cannot question its sincerity? Ask them why they like the rain, for instance, and they may answer, "Because God made it, so the flowers will grow."

Unlike grown-ups, children accept God's order without a doubt. They believe in his love for them as naturally as they get up with the daylight and go to bed with the dark.

In God's eyes, we are all children . . . His children. And what we adults have lost in the way of vision, in the way of faith, must be renewed and replenished with each day and advancing year. We, too, can find our way—and, often, ourselves as well—by going to church, by praying, and by accepting the love He stands so ready to give us.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

JUST TALK BY A. M. J.

One evening not long ago Lee Wooten struggled across the street to see us. He had a handkerchief in each hand and some Kleenex in his shirt pocket, vivulets of tears streamed from his eyes and he made swipes at his nose like a man picking peas.

In a foggy voice he explained that he was suffering from a cold and the influenza and felt sure he was taking down with double pneumonia. There was no doubt he was long for this earth. The biggest regret was he would not be here to see that his cotton was gathered.

While trying to comfort him, I explained that I would try to see that his crop was gathered properly but from the way I felt I might be coming down something terrible myself. In fact I had a date at the time to go the next day for a flu shot myself and if the shots were as rough as I had been informed they were I might be doomed.

The next day was a busy one as usual at the doctor's office and while I sat there I am sure the nurses must have murdered two or three babies in the back rooms for the screams could have come only from children who were being put through the ringer. Joel Combs, the editor of The Slatonite, was there and in the last stages of double pneumonia and would hardly talk at all. When I tried to engage several others, who sat around in utter dejection, I nearly got my heart stabbed with my looks as I got a last July magazine and read a very sad story about what a tough time Marilyn Monroe had as a child having to live in an orphan's home and nearly starved to death. But I soon stifled my sobs and dried my tears when it told that she is now several times a million-airess. Then I picked up a book telling about how all the people of the United States are eating themselves into an early grave. Most all of us are filling our veins with cholesterol and it is all caused by eating meat, potatoes, bread, sweets, alcohol, acids and alkalis.

According to that magazine it is very dangerous to drink a cup of coffee and no one should ever put butter on a piece of toast. Most all of us are lined inside with ulcers although most of us do not know it and a glass full of orange juice or a piece of cake might blow us up like a Christmas firecracker. In an emergency it might not be too much of a risk to nibble on a small piece of zwieback but one should never over-indulge.

After all the emergency cases had been taken care of it came my time and I feebly staggered into the office and told him I would like to have my ulcers taken care of and a shot for the flu, and that I felt that I needed blood transfusions and I showed him the magazine.

He took my blood pressure, grunted, stabbed me with a needle and headed me for the door before I had a chance to tell him how far gone I was.

As soon as possible I climbed in bed with a burning brow, ice cold feet and a stomach that was quivering like a bowl of jello. In vain I waited for the flu shot to knock me for a loop and after a while I got hungry so I got up and went into the kitchen and cut myself a big slab of coconut pie with a lot of whipped cream on it. Now I am sure I am over-allowing with cholesterol but I also feel sure if it had not been for that piece of pie that I would have gone to the happy hunting ground from pure exhaustion.

—Just talk—

Things sure were boiling on the north side of the square the Saturday before the national election.

Will Rogers, former Buffalo Lakes operator and red hot De-

ocrat was gabbing with Mr. Claud Spence who also sees red, white and blue when such a thing as a Republican is mentioned. Mr. Rogers shook hands with Mr. Spence and agreed with him that the world would come to an end should Nixon get the job and went to get into his car and noticed that someone had put a Nixon-Lodge sticker on his windshield.

After a considerable struggle Mr. Rogers was quieted down and Mr. Spence started to mount his new automobile only to find the same kind of sticker on it. There are still some mighty blasphemous words floating around down there and it is not safe for a timid person like me to even go on that side of town.

Things are not like they used to be. A Republican used to be mighty hard to find in Texas. I remember when I was a boy in Paris, when the Republicans were in power, they had to search mighty close to find a Republican to make Postmaster. There were only two in the town of about twelve thousand and only one of them could read or write. A Republican in those days was one degree worse than a horse thief and I believe Mr. Rogers and Mr. Spence still

feel that they are in the same class.

—Just talk—

We get a lot of pleasure at our house from reading magazines. Where other people spend money for picture shows, football games and various entertainments we keep our money channeled into magazines and get a lot of mighty silly and worthless reading material as well as some that is good and some good jokes. Here are two that struck me as funny:
