

# Charter Amendment Election On Tuesday

## The Slaton Slatonite

VOLUME 54, NO. 41

THURSDAY, JULY 23, 1964

Price 10c

### L. W. Hanson Here As New Presbyterian Minister

Reverend Lewis William Hanson has accepted a call to the pastorate of the First United Presbyterian Church of Slaton, and delivered his first sermon there Sunday.

He has been in church work since 1924, when he became a Christian Endeavor executive, speaking in Congregational, Christian, Reformed, Baptist, Lutheran and Presbyterian churches. He was ordained to the ministry by the Newark New Jersey, Presbytery in 1933, and is at present a member of the West Tennessee Presbytery, but expects to be transferred to the Presbytery of the Plains in the Synod of Texas.

REV. L. W. HANSON

Pastor Hanson, who prefers to be called Mister, has quite an impressive educational record. He was born in East Orange, New Jersey and worked in clothing stores and advertising until his graduation from New York University with a degree in merchandising and marketing. Since then he has received an AB degree in English from Upsala Lutheran, in East Orange and Master's degree from the University of Denver with a major in secondary education and a minor in psychology. He received his Doctorate in Theology at McCormick Theological Seminary in Chicago, has done graduate work at the University of Wyoming, Scotts Bluff, Nebraska, Teachers College, State College of Education at Greeley, Colorado; Hill School of Theology at Denver, and holds two honorary degrees.

### James Gravell On Carrier

James H. Gravell, airman apprentice, USN, son of Mr. and Mrs. C. E. Gravell of 915 West Jean, Slaton, Tex., is serving aboard the Navy anti-submarine aircraft carrier USS Kearsarge operating out of Long Beach, Calif.

Kearsarge, currently deployed in the Western Pacific as a unit of the U. S. Seventh Fleet, is the hub of an anti-submarine warfare unit, composed of surface and sub-surface vessels which are equipped to locate and destroy enemy submarines.

Dr. Hanson should be a welcome addition to the ministry in Slaton.

Voters are reminded again of the city elections to be held Tuesday, July 28, at the Junior High school building, 9th and Jean Streets.

A charter amendment is to be voted upon, which if passed will raise the maximum city tax limit from \$1.50 to \$2.00. The \$1.50 limit was established at a time when Slaton had less than 5,000 people and has never been raised. Now we have 7,000 people, and certain street, water and sanitary improvements must be made at once if the town is to continue to grow.

The assessed valuation of city property is about seven million dollars, and state law provides bonded debt may not exceed ten per cent of that amount. At present Slaton could issue about \$293,000 more bonds if necessary, but the \$1.50 tax ceiling does not provide enough revenue to pay interest and provide for retiring them.

This is NOT a bond election and if any bonds are called for they will have to be authorized by the voters at subsequent elections.

The Slatonite believes the charter amendment must pass if the town is to continue to progress, and strongly recommends that you vote for it.

The other matter to be voted upon, only in Ward 1, is that of a commissioner to fill the un-

expired term of Truett Bownds who resigned. R. M. McMinn, who is employed as a switchman by the Santa Fe, was the first to file as a candidate.

Clark Self, Jr., who is in the furniture business, filed just before the deadline.

The commission at present consists of Mayor Jones Cain, and three commissioners, B. H. Bollinger, Earl Reasoner and Robert Banks, Jr.

It is not necessary to be a property owner to be entitled to vote on the charter amendment. There will also be a ballot printed to get the wishes of the people on a curfew law for children under seventeen years of age, and a law to prohibit dogs running at large even if licensed. These are just straw votes to tell the commissioners what the people want, and will have no legal effect until implemented by ordinance.

City Secretary Robert Sokoll said Tuesday eighteen absentee ballots had been received for the city election to be held July 28.

Not all of these were from Ward 1 where a commissioner is to be selected to succeed Truett Bownds, resigned. Only residents in that ward are eligible to vote for either R. M. McMinn or Clark Self, Jr., the only candidates who filed before the deadline.

### New Cooper Methodist Church At Cooper

Methodist Church, six miles south of Slaton on the Taboka road, will have the opening of its new plant next week. The new church, which is larger than the old one, was dedicated in 1963. It is the sixth charter member church in Texas since the 1963 all time high death toll. The church was founded in 1939 by Slide and Woodruff, and consolidated and so on in those three churches was named as was the church, with 100 members, with church and parsonage property valued at about \$125,000.00 and good prospects for future growth.

### Two Seriously Injured At Intersection

In the first serious accident at the intersection of Highway 84 bypass and Farm to Market Road 400 just inside south Slaton city limits, two men were badly injured Friday.

Gary E. Vaughn, 503 East Truitt, Winters, Texas, son of Mr. E. E. Vaughn, is 20 years old and a student at Texas Tech, was approaching the intersection from the south in a 1962 model Chevrolet.

Lanza T. Miller, 3406 East Baylor, Lubbock, a supervisor for Shop Rite Foods, age 42, came into the intersection from the north, and the cars collided, the Vaughn car bursting into fire. Vaughn suffered burns as well as other injuries.

Both men were still in shock Sunday; however they have since been released.

Vaughn, who was badly burned in the automobile accident at US-84 and FM-400 July 10, had recovered enough to be transferred to the Winters, Texas, Hospital, where his family lives. He will be hospitalized for some time yet.

Miller who was in the other car involved in the accident has also gone home, but will be under doctors' care for several weeks.

### Dr. John Ellis Due Here Aug. 1

Dr. John W. Ellis, Jr., who has been in the Air Force, is expected to be discharged and arrive in Slaton soon after August 1 to go into private practice. We understand he will use the office of the late beloved Dr. John Locke.

We also hear that some Slaton people had to enlist the help of Congressman George Mahon to make the Air Force release Dr. Ellis.

Dr. Ellis and his wife have three children.

### Dean Hatchett Takes Second

Despite the fact that Slaton has no golf course of its own, Dean Hatchett managed to take second place in the 16-17 year old age group in the Lubbock Country Club Junior tournament, in which the finals were played Wednesday last week.

Dean had some bad luck in the first round, and was defeated first place by Buddy Hamilton of Amarillo, who came in with 139 to Hatchett's 152 for the 18 holes. Hamilton had taken the honors last year in the 14-15 age group; he had a 4-under par 68 in the opening round in the "senior" group this year, but shot a 71 for his second round. He was 6 strokes up on Dean in the first round.

E. B. Eblen of Slaton was down near the bottom in this group with 193.

In the 14-15 age group, Rodney Farrell of Slaton shot 182. David Tucker 184, Dan Boyd 233.

Randy Johanson of Slaton came in with 179 to take second place in the 12-13 age group.

Don Crow of Slaton wasn't near the top of the 10-11 age group with 146, but at his age is a promising golfer.

Lubbock's John Conine won in the junior boys group with an 88, and Kathy Hudson in the girls division with 84. They were the only Lubbock contestants to place first in their flights.

Players included juniors from Amarillo, Pampa, Odessa, Houston, El Paso, Abilene and other cities where the kids have more opportunity for practice than in Slaton.

### Jaycee Installation

The Jaycee Installation Banquet will be held Saturday, July 25, 1964 at the V. F. W. Hall.

The buffet style banquet will start at 8 p.m., and the officers will be installed right after the meal. The dance, which will be western, with Western dress permitted, will start at 9 p.m. The Western Aces will furnish the music. They are a very talented group from Muleshoe and are members from the Muleshoe Chapter of Jaycees.

### Little League All Stars

Pictured above are the Little League All Stars who will represent Slaton in tournament play in Lamesa, Friday, July 24, at 5:30 p.m. Top row, left to right, Lynn Perdue, Manager, Hilton Merriman, James Stephens, Don Heinrich, Louie Scott, Mike Melcher, Buddy Pettigrew, Randy Gamble and Dwayne Walters, Coach. Bottom row, Allen Fondy, Dennis Rushing, Loyd Norris, Jack Webb, Larry Heinrich, Ray Altman and Joe Harland.

### Babe Ruth Tournament Teams Named

The 1964 Babe Ruth Tournament teams, who will participate in the District Tournament at Brownfield beginning July 25, 1964, were named at closing ceremonies last Tuesday night at Babe Ruth Park.

On the National League Team are: Dennis Vercamp, Charles Underwood, Doyle Etheridge, Junior Martinez, Richard Washington, Henry Johnson, Jack Mason, Pat Wheeler, David Green, Gary Brush, Steve Jones, Tommy Spencer, Paul Hall, Rudy Magnallanes, Gary Glasscock, and alternate Johnny Hodges. Wayne Baker will manage this team with John Fondy and Phil Goad as coaches. This team will play Tricity at 5:00 p.m. Saturday, July 25, 1964 at Brownfield.

Named to the American League Team were: Joe Soto, Danny Rodriguez, Ruben Alvarado, David Flores, Ronnie Coker, Dubbin Englund, Steve Harlan, Stanley Martin, Kenneth Winchester, Gary Beard, Delton Womack, Tyree Clemons, Esse Scott, Jerry Burrell, Oran Smith, and alternate Arnel Isenberg. Milt Ardrey will manage this team with coaches Ebb Stricklin and Rudy Dominguez. This team will play Post at 9:00 p.m. Saturday, July 25, 1964 at Brownfield. Harry Brown and Ray Kitten were named Tournament Coordinators for both teams.

### Mike Dubbs Receives Scholarship

Michael Joe Dubbs, son of Mr. and Mrs. David F. Dubbs, 1570 West Lynn, Slaton, has received one of thirteen scholarships financed by the Anderson-Clayton Co. for children of employees of its Paymaster Division.

Mike graduated from Slaton High School this year, and will use the scholarship to study architecture at Texas Tech.

The Clayton Fund, established by Will L. Clayton, one of the founders of the firm, granted thirteen scholarships to children of employees of the Paymaster Division.

Others who received the scholarship grants were from Abilene, Tuscobia, Clyde, Lockney, Littlefield, Dallas and Corsicana.

Emphasizing the impartiality of the Clayton grants, we found one who aspired to the ministry, several to Arts degrees, but none who signified any intention of raising cotton, which has provided the founders of Anderson-Clayton & Co. the wherewithal to grant scholarships.

Mike graduated from Slaton High School this year, and will use the scholarship to study architecture at Texas Tech.

### Williams On Television

Doug Williams, 16, Explorer Scout and son of Mr. and Mrs. W. C. Williams of Slaton, is enjoying the big Boy Scout Jam-boree in Valley Forge, Pa.

Last Wednesday, he tried to telephone his parents that Columbia Broadcasting System had made a film tape at Valley Forge in which he would appear. It was the wrong day. They were running the Bowling Alley, and the phone lines were tied up with the convention in San Francisco. But CBS got a shot of him trying.

Friday he succeeded in getting through to them, and they were watching when CBS put the tape on the air, showing Doug making fire from flint and steel.

Doug wasn't identified as being from Slaton, Texas, and we don't think Channel 13 at Lubbock knew he was from their area.

### Beauty Hall of Fame at World's Fair

ONLY WOMEN will know for sure what goes on inside the Clairou Color Carousel at the New York World's Fair.

Located at the Pool of Industry, the Clairou pavilion is the only building at the Fair designed exclusively for women and with admission restricted to women. Each woman receives a personal haircoloring analysis while she is seated in a private booth which moves within the beautiful, glass-enclosed circular building.

Adjacent to the Carousel is an exhibit wall dedicated to the history of coif and costume since 1747. Thirty-six steps in the development of beauty fashion are traced by artists and photographers on the contoured wall. A highlight of this exhibit area is the Cosmetology Hall of Fame, the first in the history of the beauty industry. Produced in cooperation with the National Hairdressers and Cosmetologists Association, the Hall of Fame honors members of the profession.

The honorees are: Charles Webb Godefroy of St. Louis, a founding member and third national president of the NHCA; Marcel Grateau of Paris, inventor of the Marcel Wave; Charles Meeker Kozlay of New York, founder and first national president of NHCA in 1921; Charles Nessler of London and New York, inventor of the first permanent waving machine; and Emil Rohde of Chicago, hair stylist, educator and author of beauty culture textbook.

Unlike the inside of the Clairou Color Carousel, which is restricted to women, men can visit the Cosmetology Hall of Fame.

### Church News

The Youth Fellowship of the First Methodist Church is giving a bake sale, which is another special project, Saturday, July 25. Stands will be set up at Teague's, Anthony's, Piggly Wiggly, and T. G. & Y. Cakes, cookies and pies will be sold. Prices will be set up at the stands. Donations will be accepted.

The Youth Fellowship of the First Methodist Church has planned a Youth Activities Week beginning July 27th through July 31st. Theme for the week is "Who Is Dead?"

Monday night activities will begin at 7:00 with the MYF from Post as their guests. Each following night the services will begin at 6:30.

Tuesday night's guest speaker will be Ralph Cooper, minister of Southland.

Wednesday night will feature the Student Body President of Texas Tech, Royal Ferguson, Jr.

Thursday night the Slaton MYF will go to Post as their guests.

Rev. Binkley, pastor of the First Methodist Church, will preside over Communion service, Friday, the closing night.

James L. Barber of Buckner Baptist Family Center, Dallas, will be preaching at Pleasant Valley Baptist Church during the annual summer revival. Mr. Vernon Scott, church music director, will be assisted by Mrs. R. H. Lewis, church pianist, in the program for the Revival. Services begin Sunday, July 26 and will continue through

August 2. Evening services are scheduled for 8:00 p.m. with morning services at 10:30 a.m. Monday through Friday. The public is cordially invited to attend these services.

### OFFICIAL RECORDS

#### MARRIAGE LICENSES

Joe Ronald Pratt, 24, Lubbock and Miss Nancy Jan Johnston, 20, Slaton.

#### WARRANTY DEEDS

John C. Champion and wife and Calude S. Cravens, Jr. to Horace E. Cook, lot 9, block 87, South Slaton addition, \$2,850.73.

Leo Wendel to C. D. Hawthorne, east 17 feet of lot 4, and lots 5 and 6, block 185, West Park addition, \$1,000.

Medlock Inv. Co. to Cecil D. Richardson and wife, east 64 feet lot 85, Idalou Gardens addition, Idalou, \$13,650.

William T. Davis, Jr. and wife to W. T. Davis, lot 1, block 36, South Slaton addition, Slaton.

T. O. Porter to C. A. Porters, lots 14 and 15, block 46, original town, Slaton.

Delbert Geer and wife to James L. Smith and wife, lot 8, block 30, South Slaton addition, \$6,000.

### Going Places in Style

MAGIC IS THE WORD for this jumper that turns from day to night. By day, with organza blouse, it's smart for work or play. By night without blouse, the tiny cap sleeves make it just right. The easy, skimming fit of the jumper is assured by Talon nylon coil Zephyr zipper down the back. Remember, for proper care, cover zipper area with press cloth when ironing. This "Quick 'N Easy" design, ideal for your travels, is made from Butterick pattern #3025.

### LETTERS TO THE EDITOR

Dear Editor, After reading in the Slatonite the account of the city commissioners' meeting I am tempted to get my say in too.

Several things I agree with them what needs to be done to improve our city, not next year but NOW.

First of all I am in favor of our taxes being raised 50 cents on the Hundred Dollars IF the city will get busy and do what needs to be done.

Just one week of living on these dirt streets would convince anyone something needed to be done at once. I think oiling 11th St. would be one of the greatest assets to our city.

Next to Division St. and 9th St. I believe 11th St. has more traffic than any other street in our city. I can't say whether it's people going to and from home, or whether it keeps the "beer guzzlers" off the hi-way.

The second thing I'm drastically in favor of is something being done about these dogs running loose at night. As I sit here writing this letter I can see several trash barrels turn-

ed over with trash scattered to or "Kingdom Come" where the dogs did it last night. One has to be very careful where they step when emptying trash on account of dogs having been around it. Who can keep an alley clean with such as this happening every nite: Why don't the city pass an ordinance requiring er or home owner to garbage pail? how many flies in nate also. Please don't clean old "grouch", I'm just cent for seeing our up and improved it would enjoy living Sincerely, Mrs. ...

His grandparents are Mr. and Mrs. David Stell, Rt. 1, Slaton, and Mr. and Mrs. Claud Roper, Rt. 2, Wilson.

Mr. and Mrs. Modesto Rodriguez, Route 1 Wilson, daughter, 6 pounds, 2 ounces, Lauf Clinic, Lubbock.

Mr. and Mrs. Jesus Corral, Route 1, Slaton, daughter 5 pounds, 6 ounces, Lauf Clinic, Lubbock.

Mr. and Mrs. E. E. Hawes, Route 2, Slaton, daughter, 8 pounds 15 1/2 ounces, Methodist Hospital, Lubbock. Father teaches school at Roosevelt.

**GRAND JURY**  
Auditor J. B. Cassel who has been working on county books at Lubbock, and State Representative Buddy Adams, who had made charges of poor book-keeping and shortages during the recent Democratic primary election campaign, were called before a grand jury at Lubbock Tuesday.

Cassel was in the jury room two hours, Adams twenty minutes.

Nothing was made public about what they had to say.

The grand jury is to meet again Friday.

SKIN irritations from cuts, scrapes or sunburn need not mar your appearance in sleeveless dresses, skirts or bathing suits if you treat the injuries with Johnson & Johnson's new First Aid Spray antiseptic in handy plastic squeeze-bottle. The soothing, moisture spray has exclusive germ-fighting ingredients that protect bleeding injuries from within — where you need protection most. It is very effective for sunburned skin, cooling and comforting the hurt area.

First Aid Spray dries quickly, inconspicuously — a boon to well-groomed women. Completely safe for use on children, too, the spray fits easily into purse or glove compartment of the family car, ready for emergencies.

The Dominican Republic was established in 1844 when the Dominicans revolted against Haitian rule.

### FREE AIR AT MARTINDALE

If you must take a detour, you will see scenery you would not have seen otherwise. Don't fret! Enjoy it!

"What parable," asked a teacher of a pupil, "do you like best?"

"The one," replied the pupil, "about the multitude that loafs and fishes."

Do you suppose Eskimo wives hound their husbands for a cloth coat?

Wife: "I was a fool when I married you."

Hubby: "I guess you were, but I was so infatuated at the time that I didn't notice it."

It was close to midnight when Mrs. H sat bolt upright in bed. "John, wake up. I heard a mouse squeak."

John (sleepily): "Well, what do you want me to do — get up and oil it?"

# FENCE-SITTING

Fence-sitting isn't the safest occupation for the small fry, even if it is fun.

But fence-sitting for grown-ups is neither safe nor fun!

A man has to take a stand. He must let the world know his convictions. He must live them!

The principles in which we believe can perish while we dawdle uncommitted, uncertain, or unchurched.

Behind the iron curtain men who are determined to overthrow freedom and faith hide neither their communism nor their atheism.

Here in America on a Sunday morning; no man can afford to sit on the fence IF he believes in God, and in the right to worship Him in the Church of his choice.

# Slaton Slatonite Society - Clubs

The Slaton Slatonite, Thursday, July 23, 1964 3

## Slaton 4-H Club Meets

The Slaton Community 4-H Club met Tuesday, July 14, at 7:30 p.m. at the Slaton Clubhouse with 17 members in attendance. Oleta Bednarz, president presided. The inspirational was given by Joyce Kitten. Members voted to have an ice cream social next month and invite the agents, also their parents. It was announced that Rally Day will be August 13. The Club's Community Project for this year was the making of thirty-three hospital gowns from men's white shirts. Members entering the County Dress Revue modeled their dresses at the July meeting of the St. Joseph's Altar Society. Modeling the dresses they had made were: Joyce Kitten, Cindy Steffens, Oleta Bednarz, Laverne Schwertner, Doris Kitten, Carla Nesbitt, Linda Nell Kahlich, Veronica Kitten and Susan Kahlich. Girls modeling aprons were: Karla Kitten, Mary Mosser and Carol Kitten.

## Attend Installation

Mr. and Mrs. Sam Wilson attended installation of officers, Faith Lodge No. 1158, A. F. & A. M., Wichita Falls, Texas, recently. Officers installed were L. W. Smith, Jr., Worshipful Master; Raymond R. Searcy, Senior Warden; J. Roy Hurd, Junior Warden; Bill C. Ritchie, Treasurer; Estes E. Laseman, Secretary; Ernest E. Prince, Chaplain; Ralph R. Lewis, Senior Deacon; Bobby J. Ritchie, Junior Deacon; C. R. Tucker, Senior Steward; Kenneth M. Adair, Junior Steward; Tom J. Billette, Tiler; C. H. Wilkins, P. M., Installing Master; Jack B. Cross, D. D. G. M., Installing Marshall; Sam H. Wilson, P. M. Slaton Lodge No. 1094, Installing Pursuivant.

Impulse buying can wreck your food budget. It's best to shop from a list and watch food advertisements for good buys. Marie Tribble, Extension nutritionist, says.

## Miss Sandra Roberts Shower Honoree

Miss Sandra Roberts, bride-elect of Gerald Heinrich, was honored with a miscellaneous shower at the home of Mrs. Willie Heinrich, July 19 from 3 p.m. to 5 p.m. Ninety-five guests registered at the informal party. The bride-elect color of blue was carried out with a white floral center piece with blue ribbon and net, and blue candles over an off white linen table cloth. Punch, coffee and cake were served in crystal and silver. Hostesses were: Mesdames Willie Heinrich, J. E. Todd, August Kitten, Ray Kitten, Roy Lee Heinrich, Victor Heinrich, Bobby Reynolds, Ray Miller, Ben Sokoll, Clarence Kitten, Pat Green, Glendoven Hill, Oscar Heinrich, O. J. Buxkemper, Edwin Bednarz, Ervin Heinrich, Billy Balmanno, J. C. Heinrich, Marvin Heinrich, Tony Angerer, Nestor Kitten, O. F. Kitten, R. R. Dryer, Beauford McCain, Leo Kitten, Alex Bednarz, George Ray Angerer, Don Crow, Willis Farrell, Durwood Cordell and A. A. Wimmer. The hostess gift was a mixer.

## Hampton Reunion

Descendents of the late J. G. and Sarah Hampton met in Goree, Tex. last Sunday for their annual reunion. 91 attended including other members of the Hampton family. Activities for the day began with the family attending Sunday morning service of the Goree Methodist Church, followed by a luncheon at the Town Hall. Gene Cade of Morton, Tex., President of the group conducted the business meeting. S. J. Hampton of Seymour, Tex. and Mrs. Tom Hampton of Dallas enlightened the group on bits of family history. Don Wayne Jackson, Randall Gamble, and Vic Edwards gave impersonations of the Beatles. Group singing was led by James Lowder of Lubbock. Coming as a complete surprise to the group was the presentation of the Hampton Coat of Arms, by Tom M. Hampton, of Dallas.

## WAABI Activities

Slaton Rest Home was recently given a complete set of Melmac dishes, a gift from the Lubbock Chapter WAABI'S. Weldon Reichert and three members of Lubbock Chapter of WAABI's recently helped organize a WAABI Chapter in Wichita Falls. Lubbock Chapter members attending the organizational party were Ginger Ziomko, Melba Lloyd and Floyd Kitten, Mark Clark and Patsy Reichert Whillack.

The 4-H Club girls presenting hospital jackets to Sister Mercedes are left to right: Veronica Kitten, Linda Nell Kahlich, Susie Kahlich, Carla Nesbitt, Cynthia Steffens, Doris Kitten, Oleta Bednarz, Laverne Schwertner, Joyce Kitten and Sister Mercedes.

## 4-H Club Gives Jackets

The Slaton 4-H Club carried out a community project of sewing hospital jackets for patients. The boys collected 31 white shirts which were converted into hospital jackets. Those participating were: Bobby Luman, Wayne Kahlich, Lloyd and Floyd Kitten, Mark Schwertner, Donnie Heinrich, Mike Melcher, Jay Wimmer, Dale Wimmer, Clifford Kitten, Joyce Kitten, Oleta Bednarz, Laverne Schwertner, Cindy Steffens, Doris Kitten, Carla Nesbitt, Veronica Kitten, Carol Kitten, Susan Kahlich, Linda Nell Kahlich, Carla Kitten, Mary Mosser. The Slaton Community 4-H Club met on July 14 at 7:30 p.m. Joyce Kitten gave the inspiration and the program was presented by Jay and Dale Wimmer and Mary Schwertner, and consisted of playing records.

## Bollinger Reunion

Mr. and Mrs. B. H. Bollinger attended a reunion in Tatum, New Mexico, over the weekend, in the home of one of their daughters.

Those present at the reunion were five daughters of the Bollingers: Mr. and Mrs. (Pauline) Bass and Peggy Sue, Mr. and Mrs. Bill Kennedy and Billy, all of Tatum, Mrs. O. E. Patterson and son Otis Neil of Olton, Texas, Mr. and Mrs. Billy Francis Ulshaffer and daughters, Tony Lee and Lynn and their son Chris of Culver City, Calif.

Nephews of the Bollingers were: Mr. and Mrs. Merrell Tanner and children, Tony, Mike, Nancy and Karen; Mr. and Mrs. Jerrell Tanner and children, Rodney, Darrell, Joyce and Christy, all of Amarillo; Mr. and Mrs. Lewis Gregory and Jenis of Floyd, New Mexico; Mr. and Mrs. Jack Bollinger, Jerry and Tommy of Tucumcari; Mr. and Mrs. Bud Miller, Connie and Howard of Floyd, N. Mexico.

Nieces were: Mrs. Edith Brown and son Darrell; Miss Mildred Tanner, Mrs. Hazel Hallry, Mr. and Mrs. Robert Crawford, all of Amarillo.

Other guests included a sister, Mrs. Walter Gregory of Floyd, New Mexico, and a brother-in-law, Mr. and Mrs. A. T. Huckabay of Amarillo.

## Mrs. Richard Wayne Polk Wed To R. Polk

Mary Ann Buxkemper of Post, sister, was flower girl, and Arlie Limmer, nephew of the bridegroom, was ring bearer. Wedding music was provided by Charlene Kitten, organist, and Mrs. O. J. Hlavaty, soloist. The bride was given in marriage by her father. The bridal gown of white floor length clantilly lace over taffeta was made by the groom's mother, Mrs. Donald Polk. The fitted bodice featured a Sabrina neckline edged in appliques of scalloped lace with seed pearls. The long, fitted sleeves ended in points of lace also edged in seed pearls. The skirt was highlighted at the back waistline by a cascade of petal roses. Appliqued scallops accented the edge of the dress which terminated in a chapel train. Her triple veil of silk illusion was attached to a large, handmade rose of silk organza edged in seed pearls. The bride carried a bouquet of white frenched carnations fashioned around a large white glabella. Attendants wore street-length, bell-shaped dresses of blue silk organza over taffeta. Large descending ribbons were accented at the waistlines by roses fashioned after those of the bride. They carried clusters of white carnations. A dinner and dance followed in St. Joseph's Hall. For traveling to Dallas, the bride chose a black and white, ribbed cotton suit with white accessories. The couple will reside in Slaton where Polk is employed by C. R. Anthony and Co. The bride is employed by Piggy-Wiggly. Both are graduates of Slaton High School.

## Class Meet

Slaton School Class of England met at the home of Mrs. Fondy on July 17, 8 a.m. The meeting was called to order by the President, Peggy Hanna Siler led in prayer. Mrs. Caldwell read the minutes of the last meeting. A dinner and dance followed in St. Joseph's Hall. For traveling to Dallas, the bride chose a black and white, ribbed cotton suit with white accessories. The couple will reside in Slaton where Polk is employed by C. R. Anthony and Co. The bride is employed by Piggy-Wiggly. Both are graduates of Slaton High School.

## Johnston-Pratt Say Wedding Vows

Miss Nancy Johnston and Joe Ronald Pratt exchanged wedding vows in a double ring ceremony at 6 p.m. July 17. The Rev. J. T. Bolding of Lubbock First Baptist Church read the vows. Parents of the couple are Mr. and Mrs. Leonard Johnston of Slaton, and Mr. and Mrs. O. H. Pratt of Odessa. The couple will be at home in Lubbock after their wedding trip. Nancy is employed by the City of Lubbock in the Accounting Dept. Joe Ronald is a recent graduate of Texas Tech where he majored in Advertising and Design.

News about Railroad Folks For Railroad Folks

Among Other Matter

By J. L. H.

Mrs. Billy Matney and daughters Gay and Jan, Mrs. L. L. Lively and granddaughter Charlotte Benson of Lubbock, and Mrs. C. F. Austin of Slaton spent the week end in Clovis, New Mexico, with Mrs. Austin's daughter and family, the W. C. Crawford.

The Crawfords had just completed their swimming pool and the children spent most of the visit in the pool.

Mrs. Tom Keane and Mrs. J. D. Butler visited in Mineral Wells, Friday and Saturday of last week. Mrs. Keane attended a family reunion there, and Mrs. Butler visited a sister, Mrs. Hattie Lawson.

Other relatives visiting in the Lawson home were Van Butler, Mrs. Ellen Butler and Mrs. Dave Abernathy.

Mr. and Mrs. Bob Ussery and Debbie from Fresno, Calif. spent two weeks with Mrs. Ussery's parents, Mr. and Mrs. W. L. Housour.

Frank Massey, a grandson who recently joined the Navy and stationed at Pensacola, Florida, also visited in the Housour home.

Shari Brooks and Sandy Urtamo of Albuquerque, New Mexico, are spending the month of July with Shari's grandparents, Mr. and Mrs. Joe Brooks.

Mrs. James McGraw was a visitor last week in the Bob Kern home. Mrs. McGraw is residing with her parents in Lubbock awaiting her husband's re-assignment to East Pakistan where he is to be located by the U. S. State Department. The McGraws were originally located on the Isle of Cyprus until recent national problems there arose.

South American friends visited in the Bob Kern home, 906 W. Garza, last week. Guests included Mr. and Mrs. Don Edwards and children Amy, Dean and Ben, and Mrs. James Balch and Cecelia Bustamanta of Talara, Peru. The Edwards have toured the East Coast of the U. S., including the World's Fair in New York, and from Slaton were en route to Gatesville where they will reside until mid-August when they return to Peru. The Edwards and Mrs. Balch and husband are employed by Standard of New Jersey as school teachers in the company school.

Mr. and Mrs. Bob Milliken, Kathy, Gennie, and Bobby have returned home after a five week vacation through ten states and Canada. They visited Mr. Milliken's sister and husband, Mr. and Mrs. G. A. Fogg in South Windham, Maine. While in Canada they saw Niagara Falls.

They report a wonderful trip but it was nice to see Slaton and home. Mrs. R. B. Milliken of Lubbock and Claudia Bartha of Houston toured with them. Mrs. Milliken will remain in Windham until Fall with Mrs. Fogg.

Before returning home from a family reunion at Sherman, Mrs. Dean Gilliland visited with her sister-in-law Mrs. Franks of Lone Star, Texas.

Mrs. R. J. Clark has returned from a two weeks' vacation with her daughters, Capt. Mary H. Clark and Miss Patty Clark of Fairfield, Calif.

They toured along the Pacific Coast up into Canada, stopping off at the amn attractions along the way, among them being famous parks, medical centers and the largest shopping center in the world.

Recent visitors in the H. E. Woods' home were their son and family, Mr. and Mrs. George Young, and children George, Jr., Ronnie, Richard and Jeannetta from Wayne, Indiana. Before leaving for home the Youngs visited at the home of Mrs. Young's parents in Whiteface, Texas.

After touring 15 states with their son and family, Mr. and Mrs. H. E. Woods are home. Enroute both families stopped off at Six Flags and visited historic sites in Vicksburg, Miss.

Another visitor in the home of Mr. and Mrs. H. E. Woods was Mrs. Woods' sister, Mrs. W. M. Beaty, Santa Fe, N. M. The two sisters also visited in Clovis and Tucumcari, N. M.

If you like to make ice-cream balls ahead to store in your freezer, you'll find that a quart of ice cream makes six good sized servings.

Railroad News..

Mrs. Vivian Williams visited a few days at College Station with her son Tom, and family. She returned to work Wednesday.

Tom was a flying lieutenant at Lubbock Airbase during the war, and stayed in the service with enlistment status until early this year, when he retired with one of those senior sergeant ratings.

He will be a teacher at the Military Academy near College Station this fall. Teaching Spanish, not flying.

Mrs. H. T. (Lottie) Sefton, retired telegrapher and cashier at Plainview, has entered the company hospital at Albuquerque for a checkup. Mr. Sefton, who was the agent at Idalou, will remain in Albuquerque while she is there.

Raymond (Beany) Johnson was transferred from Mercy Hospital here to the Santa Fe Hospital in Topeka Tuesday for treatment. Yardmaster M. M. Rose accompanied him on the trip.

Odell W. Pierce, third trick chief dispatcher at Fort Worth, died July 14 after suffering a heart attack. He was 57 years old.

N. L. Andrews who was chief dispatcher at Temple and power supervisor at Galveston has been transferred to Chicago as general supervisor of power distribution for the system. His office is with Warren Henry, Assistant to Vice President R. D. Shelton, both formerly of Slaton.

L. A. Townsen, agent at Ropes, has applied for retirement.

The Maintenance of Way Department of the Slaton Division has received a plaque as a reward for having completed the first quarter of 1964 without an injury.

The department, under Division Engineer R. D. Bisbee, employs about 300 men on 1,187 miles of railroad extending from Texico and Canyon to Sweetwater, and from Altus, Okla. to the middle of the international bridge at Presidio.

Perry S. Heath, grand chief engineer of the Brotherhood of Locomotive Engineers, announced from Cleveland Saturday agreement had been reached with all roads included in the National Railway Labor Conference on pay raises that would affect about 35,000 engineers in the nation. The contract is retroactive to June 1 and continues through 1965.

Basic daily rates for engineers would be increased \$1.75, plus an additional \$1.50 increase when the engineer has no fireman.

The \$1.75 general increase applies only to the first 100 miles. Passenger engineers will not receive the \$1.50 for operating without firemen, as no firemen have been taken off passenger trains.

Heath said a typical passenger engineer who makes \$875 a month would get about \$40 more; a yard engineer averaging \$673 would get \$50 to \$100 more, depending on whether

Fresh Bartletts In Classic Dessert

The French dessert classic, "Pears Hélène," receives a few deft California touches when made with fresh Bartlett pears from the Golden State for "Minted Chocolate Pears." The result: An elegant dessert you can prepare ahead of time and assemble in moments just before serving.

Fresh California Bartlett pears arrive in markets in mid-July and reach their seasonal peak in August and September.

**Minted Chocolate Pears**  
 4 fresh California Bartlett pears  
 1 cup water  
 1/2 cup sugar  
 1/4 teaspoon vanilla  
 1/2 teaspoon mint extract  
 1/2 cup semi-sweet chocolate bits  
 1/2 cup light corn syrup  
 2 tablespoons butter

Pare and core pears from blossom end, leaving on stem. Combine water and sugar in saucepan; heat to boiling and stir in 1/2 teaspoon vanilla and 1/2 teaspoon mint extract. Reduce heat, add pears and simmer until fork-tender, about 10 minutes. Transfer pears to shallow dish. Boil sugar mixture until thick; spoon over pears to glaze. Cool. Melt chocolate over hot water; stir in syrup, butter and remaining vanilla and mint extract. Cool. Serve over pears in individual serving dishes. Makes 4 servings.

Keeping clothing immaculately clean actually extends its life. Extension Service clothing specialists emphasize. They remind that the National Institute of Dry-cleaning says it is unwise to specify "press only" for clothing which has been soiled with body oils. Pressing just sets these damaging soils into the fabric so they are harder to remove.

he had a fireman; and a through freight engineer now making \$774 a month could get an increase of \$114 a month if he worked the entire month without a fireman.

Police Blotter

A 26-year-old West Virginia man Henry Walter Stoneham found guilty of burglary by a 99th District Court jury Tuesday, may receive a life sentence in the Texas penitentiary as an habitual criminal. This was his fourth conviction on burglary charges.

K. C. King, Jr., 25, of Slaton, was fined \$25 and costs and sentenced to three days in jail for check law violation. Trial was before Judge Mrs. Paf Moore in County Court-at-Law No. 2 at Lubbock Tuesday.

Billy Fred Brunson, 22, was sentenced to two years imprisonment in 99th District Court at Lubbock Monday, after pleading guilty to burglary. He had been mentioned as a

suspect in some Slaton cases.

Thirteen persons were jailed by city police over the week end, all charged with being drunk, consuming liquor in cars, or creating disturbances.

Also enclosed is stamped, self-addressed envelope. Many thanks, LEE

Dear Lee: I have no personal contact with the ad you sent me. But if they expect you to invest money in even one postcard — they're a fake! I see you live near a major city. Write to their Better Business Bureau. You'll find the address in the telephone directory. Ask if they have information on this advertiser. Also ask if they know reputable firms which will not rip you!

I AM 26  
 Dear Helen: I'm no senior citizen, but I feel you can give me good advice. I'm 36, con-

**Summer Party Potato Salad**

For memorable summer parties, you need a very special potato salad recipe. One that labels you a fine cook, and is a deliciously welcome addition to any picnic, beach or backyard party.

This recipe combines potatoes, scallions, celery, cucumber, green pepper, radishes and celery seed in a tangy mayonnaise dressing, spiced with Tabasco liquid red pepper seasoning to enhance all the good vegetable flavors.

P.S. When you're totting potato salad for any distance, be sure to keep it well chilled to prevent spoiling.

**Tabasco Summer Potato Salad**

3 pounds potatoes (8 cups diced)	1/2 teaspoon celery seed
1/2 cup sliced scallions	2 teaspoons salt
1 cup diced celery	1 cup mayonnaise
1 cup diced cucumber	2 tablespoons prepared mustard
1 green pepper, chopped	2 tablespoons vinegar
6 to 8 radishes, sliced	1/2 teaspoon Tabasco

Cook potatoes in skins until tender. Peel and dice. Add scallions, celery, cucumber, green pepper, radishes, and celery seed; sprinkle with salt. Mix together mayonnaise, mustard, vinegar and Tabasco; add to potato mixture. Mix lightly with a fork being careful not to break potatoes; chill. YIELD: 12 servings.

The blending job will be easiest if you turn flaked coconut into a bowl, sprinkle it with lemon rind and then work together with the back of a wooden spoon. Use 1/4 teaspoon of rind to 1/2 cup coconut.

**WHAT YOU CAN DO WITH 100 KILOWATT HOURS OF ELECTRICITY**

You can operate your

**FOOD WASTE DISPOSER**

**FOR 5 YEARS**

At a cost of about 40¢ a year (based on average usage)... a mighty inexpensive way to get rid of messy garbage. Convenient, too! Using an electric food waste disposer is just another way of using inexpensive electricity to make your kitchen-work easier... to give you additional time for important family attention.

There are, in fact, 166 ways to make electricity work for you, in your home.

**The Electric Company**  
 ELECTRICITY... THE BIGGEST GAIN IN YOUR FAMILY BUDGET

**ALASKA CALLING**

Dear Helen: First, please send me the free list of booklets. My neighbor got them, enjoys them. My son Ronnie is stationed in Anchorage and it gets very lonely for our Air Force boys. They sure appreciate letters from your younger readers. He's 20, nice-looking, Methodist. H. address: A2C Ronnie Carroll, AF 18655194, Box 167, 6981 Security Sp. APO 942, Seattle, Wash. Letters would certainly cheer up our boys way up there.

RONNIE'S MOTHER

**CALIFORNIA CALLING, TOO**

Dear Helen: I live in Redondo Beach and I have been trying to find some senior citizen clubs. Your column is carried through California, so could you please ask them to contact me? I would be glad to hear from clubs in my city or Inglewood or Torrance or Lawndale or Hawthorne, Calif. These cities are near us. Thank you so much.

MRS. T. F. HOLLINGSWORTH  
 2345 — 190th St.  
 Redondo Beach, Calif. 90278

**Know Your State**

THIS PRETTY MISS (guide Kathy Finer) is picking up the "demographic facts of life" at the New York World's Fair.

By listening to telephones for the 50 states at the Equitable Life Pavilion, she learns which state has the lowest median age (New Mexico, 23); which has highest proportion of men (Alaska 132 men to 100 women); which has longest fresh-water shore-line (Michigan); and which is the "Flickertail" state (North Dakota).

Huge counter above clicks off U.S. population with figures six feet tall 24 hours a day. The counter adds one person every 12 seconds.

**THE "RIGHT" COMMUNITY**

Dear Helen: A friend told me you have a booklet on how to pick the right community, for retiring. So I wrote to you at National Senior Center, Lehigh Acres, Fla. 33936. This was a week ago. I forgot to enclose a stamped, self-addressed envelope. Is this why I did not hear from you yet?

**JORDAN**

Dear Jordan: It takes me a week or more to organize my daily mail, research the answers to some problems, then write a personal letter to every body. I try to be as helpful and fast as possible. I have no booklet on the "right" community. But I do have important tips! In a nutshell, you should live where you have quick access to medical, nursing, hospital services; good shopping; a warm social and church life; plenty of recreation; well-built housing. Ask me specific questions, I'll give you specific answers!

**TOO LONELY**

Dear Helen: I really enjoy

your column. Please send me your free booklets. I am a widow, and could use some help in getting some way to put my time to good use. Any information?

**MRS. L.**

DEAR MRS. L.: People like you who live in Kansas have a fine source of help. Let me encourage you to write to Mrs. Loudell Frazier, Director, Division of Services for the Aging, State Office Building, Topeka, Kansas. This Division publishes a good newsletter and has many interesting services. Write today!

**NEED HELP ON A PROBLEM?**

Write to Helen Alpert, National Senior Center, Lehigh Acres, Fla. 33936. Please send a stamped, self-addressed envelope. Or write to this newspaper. Ask for the free list of booklets sent with the compilations of this column.

When you grate a lemon or orange for rind, use a light touch so as to remove only the outer yellow skin.

## Blackberry Benefits

IROQUOIS INDIANS were the first to appreciate blackberries in this country. They soaked them in honey and water and served them as ceremonial food. Blackberries maintain their fine reputation today in homemade jellies and jams made the modern way with pectin, water, sugar, and no cooking of the fruit juice. Here are exact directions for this easy-to-make—especially flavorful—Blackberry Jelly:

### BLACKBERRY JELLY

Yield: about 8 medium (8 oz.) glasses

3 cups prepared juice 3/4 cup water  
2 cups sugar 1 box Sure-Jell Fruit Pectin

First, prepare the juice. Thoroughly crush about 2 quarts fully ripe blackberries. Place crushed fruit in jelly cloth or bag and squeeze out juice. Measure 3 cups into a large bowl or pan.

Then make the jelly. Measure sugar, add to juice, and mix well. Mix water and fruit pectin in small saucepan. Bring to a boil and boil 1 minute, stirring constantly. Stir into fruit juice. Continue stirring about 3 minutes. (There will be a few remaining sugar crystals.) Quickly pour into glasses. Cover at once with tight lids. When jelly is set (may take up to 24 hours), store in freezer. If jelly will be used within 2 weeks, it may be stored in the refrigerator.

## X-Ray Unit Will Return

The mobile unit of the Lubbock County Tuberculosis Association was in Slaton last Friday, making chest examinations for signs of tuberculosis.

They examined some 432 people by chest X-rays. Everyone of them will receive a report by mail, stating what the pictures told.

Contributing to the effort to help people to help themselves were a lot of Slaton FHA girls — we probably missed some of them — but they included:

Belinda and Belva Becker, Debra Scott, Nickie Nowlin, Debbie Wicker, Linda Guelker, Marilyn Edwards, Nan Saage, Lynette Kuss, Pam Davis, Cindy Sherrwood, Jill Scott, Belinda Short, Marilyn Holloman, Diane Jaynes. They assisted in registering and directing those 432 people who were X-rayed.

There is no charge for the X-ray examinations, and you will receive a mail report on a post card if it showed you free, a sealed letter if the picture suggested you might need treatment. If you want to donate 50 cents or more toward carrying on the examinations, well and good, but you don't have to. Only about half of the people accepting the examination did.

What the Lubbock County TB people are trying to learn is how many of us are either active TB cases or potential carriers to other people.

The mobile unit will return to Slaton July 30 and will be parked on the west side of the city square from 9 to 11:30 a.m. Then they will move down around the Guadalupe Church Hall in South Slaton from 1:00 to 5:00 p.m.

The Slatonite hopes most of the people who live there will try the tests. Costs nothing, you will receive a report of what they think about your X-ray, and there's absolutely nothing you have to do after you receive it.

## Bailey Graduates

Marine Private First Class Gary L. Bailey, son of Mr. and Mrs. W. M. Bailey of 1040 West Dickens, Slaton, Tex., recently graduated from the four-week Mechanical Fundamentals School at the Naval Air Technical Training Center, Memphis, Tenn.

He is continuing his training at the eight-week Aviation Machinist's Mate School, also located at the Memphis Training Center.

The more we promote peace personally, the more we contribute to peace universally. The more we eradicate fear, hatred, and intolerance from our own heart, the more we help to eradicate them from the world.

### Oat Burgers Next Cookout

Oat patties, topped with cheese or onion, served on lettuce and relish make a filling entree for an outdoor cookout.

Pat Oat Burgers has been developed for cookouts. There is just the right amount of liquid, but not too much to make handling difficult. The recipe adds an interesting flavor but this is not the only reason for its popularity.

Pat Oat Burgers  
1/2 lb ground beef  
1/2 cup oats, uncooked  
1/2 cup regular ketchup  
1/2 cup onion, chopped  
2 teaspoons salt  
1/4 teaspoon pepper  
1/4 teaspoon liquid smoke, optional  
1/2 cup milk or tomato juice

Shape into 8 patties, about 3 1/2 inches in diameter. Grill or broil to desired doneness over low heat, turning once. Serve plain or on bun topped with relish, sauce, cheese, or sour cream, as desired. Yield: 8 patties.

for rural and urban families," Mrs. Low said.

The role of decision-making by families is taking on added significance in this dynamic age. Extension's family living program is designed to help youth, young homemakers, adults and older adults make wise decisions in all areas — human relationships, child development, financial management, housing and home furnishings, and leisure time uses. Families should set goals and strive to reach them together, the home economist-educator told the group.

Recognized in the anniversary program were Miss Lida Cooper, Mrs. Mary Katy Zeman, Mrs. Frances Arnold Ellis, Beulah Blackwell, Claudia Williams, Mrs. Eula J. Newman, Mrs. Marian B. Moore, the current HD agent, and Mrs. Low, all former county home demonstration agents in Lamar County. Home demonstration club leaders of the four decades also were recognized, along with top 4-H Club members over the years.

The Farm - Women - of - the - Month Club of Paris also paid tribute to Extension Service and home demonstration leaders of the county during an anniversary luncheon.

State Senator and Mrs. A. M. Aiken, Jr. of Paris were among guests attending the anniversary program. Visitors registered from Dallas, Fort Worth, Bryan - College Station, Center, and other cities.

The application of limestone to acid soils has many advantages, yet Texas Farmers are applying only a tenth of the amount they could profitably use, says John Box, associate agronomist, Texas A&M University.

Beneficial effects from liming probably have been known for as long as those of any other present day soil management practice. Box adds, but the amount used continues to lag. Lime applications are most needed in the East Texas Timberlands and the eastern portion of the Coast Prairie.

Soil testing is definitely the best method for determining limestone needs, the agronomist points out. A soil test will give the level of soil acidity, organic matter content, and the calcium level of a soil, all of which influence limestone needs. Since it takes time for limestone to react with the soil, it should be applied at least three months prior to the seeding of a new crop, Box explains. However, liming immediately before seeding is much more advantageous than not liming at all. If legumes are to be seeded this fall, soil samples should be taken now and submitted to a testing laboratory. Limestone, if needed, can be applied well in advance of the suggested three months before seeding.

A question asked by many people every day is, "What kind of fish shall I put in my pond?" "Stock your pond with what ever kind or kinds you like to catch," says Wallace G. Klusmann, Extension wildlife conservation specialist, Texas A&M University. "If you are a catfisherman only, then there is no reason to stock other species; the same goes for bass or sunfish. If you want all kinds, then bass, channel catfish, and redear sunfish are compatible."

Evidence indicates that it is not necessary to stock a forage fish along with largemouth bass, explains Klusmann. Many sources still recommend stocking a sunfish such as the bluegill along with bass. These cover large sections of the country, including states north of Texas where the growing and spawning seasons are shorter and more favorable for bass-bluegill combinations.

A female bluegill can spawn as many as four times during a single season in Texas, notes the specialist. The result is thousands of small bluegills that never reach edible size. Another factor contributing to the bluegill dilemma is that bluegills are not the "ice cream" in any fish's diet. Bass prefer feeding on their own kind and other species rather than on bluegills, says Klusmann. Channel catfish are scavengers and eat few bluegills.

If sunfish are desired, the most suitable species is the redear since it spawns only once a year and thereby lengthens the time before overcrowding occurs, says the specialist. Crappie or white perch should not be stocked in ponds having less than five to 10 surface acres because, like bluegills, they will overpopulate a small pond in one or two years.

A pond should always be stocked with fingerlings that are approximately the same size such as those obtained from state and federal hatcheries, says the specialist. Never go to a nearby stream or pond and seine fish for stocking. "A balanced fish population is almost impossible to obtain

### IT'S A FACT!.....by Thompson

**JUMPING OVER BONFIRES WAS ONCE CONSIDERED A GOOD WAY TO CLEANSE THE SOUL! IN EUROPE CENTURIES AGO WHOLE VILLAGES PARTICIPATED IN THE RITE.**

**WASHING MISFORTUNE AWAY IS THE PRACTICE IN SOME AMERICAN INDIAN TRIBES. THEY THINK THAT A SICK OR UNLUCKY MAN MAY DO BETTER IF HE "WASHES OFF" HIS OLD NAME AND TAKES A NEW ONE!**

if stocking of all sizes and kinds of fish is practiced. Never introduce fingerlings into a pond containing adult fish, particularly bass," warns Klusmann. "A pond should be stocked with a balanced group of fingerlings only after the adults have been removed."

Fingerlings for stocking private ponds can be obtained free of charge from either state or federal hatcheries.

Application forms and stocking recommendations can be obtained free of charge from the local county agent or game warden, adds Klusmann. Requests for stock fish may be made at any time.

It is important for pondowners to fill the application card correctly and not to "hedge" on the size of the pond in an effort to get more fish, comments the specialist. It is just as bad to stock a pond with too many of the right kind as it is to stock it with undesirable kinds. Just as range land has a certain capacity for a specific number of animals, a pond can only support a specific number of pounds of desirable fish.

### A STRIKING ANNUAL FOR SHADY SITUATIONS

A rather general garden problem is to find a flowering plant that will bloom heavily and produce bright color effects throughout the summer in semi-shaded or shady situations. Dwarf forms of Impatiens are one of the few garden annuals that can be depended upon to show an abundance of color throughout the summer in a shaded location. For complete satisfaction in such areas it ranks with the various species of Begonia.

It is an excellent subject for edging flower beds and shrub borders, as a bedding plant, in window boxes, hanging baskets, tubs and patio planters. Many varieties are available on the market today that provide a color range from sparkling white, through bluish pink, salmon, rose, carmen to fiery scarlet.

Various types can also be obtained that produce plants from 6 inches to twelve inches high, and some as tall as 2 feet. Some of the older sorts have been garden favorites for many years and have been called a score of common names such as sultana, pommee, touch-me-not, and others.

The foliage of the many varieties of Impatiens is also a decided asset to the garden picture. Many of the common varieties have bright fern-green leaves with white edges and still others produce dark reddish leaves.

Impatiens, like several other garden annuals, are best started in late spring or early summer. While it is easy to start from seed, many gardeners like to purchase small plants in

bloom so they have the variety and type best suited to their purpose and then propagate additional plants from cuttings that are extremely easy to root. The variegated green and white forms must be propagated in this manner.

Tip cuttings may be made from the plants in the garden beginning as soon as two weeks after planting. If cuttings are not desired, the tips should be pinched out as soon as the plants are well established to produce bushy, full, compact plants.

This plant will begin to bloom heavily as soon as it is established and will continue to produce flowers until the first heavy frost. Tip cuttings taken in September can be used to produce showy potted plants for use in the home during the winter months.

The most recent introductions from Europe are the dwarf varieties of Impatiens sultani that spread as much as 2 feet in diameter yet grow only about 6 to 8 inches high, with individual flowers as large as 1 inch across. The varieties have a wide range of unusual colors of Impatiens, both in mixtures and solid colors.

Varieties of Impatiens hosti are similar in some respects, but the plants grow from 2 to 3 feet tall, and they produce larger leaves and flowers. All the Impatiens have brittle translucent stems and glossy foliage. The flowers are spurred like columbine and are borne in clusters that are held well above the foliage. If you have been searching for color for a shady spot in the garden, Impatiens are well worth a trial. They also will bloom beautifully indoors during the winter months.

High milk production isn't an accident. It doesn't just happen. A dairyman has to earn it. He must follow rigid culling, intelligent feeding, and planned breeding programs," says A. M. Meekma, Extension dairy specialist, Texas A&M University. Meekma believes that record keeping is essential for high production. As he puts it, "There is no substitute for intelligent use of records and research findings." The first step, therefore, in herd improvement, is production testing. The weigh - a-day-a-month, the owner - sampler, or the dairy herd improvement association plans will each aid the dairyman in developing a high - producing, more profitable dairy herd. The county agricultural agent will be glad to explain these production testing plans and will help each dairyman determine which plan meets his needs best, says Meekma. To emphasize his point, the specialist says that it would take approximately twice as

### Screwworm Endangers All Texas

Screwworms penetrated into central and west Texas during May for the first time this year and are now in an excellent position to swoop into any area of the state where farmers and ranchers are not watching and treating animal wounds.

Screwworm eradication officials warned that infestations have been reported as far north as Coryell County in Central Texas and as far west as Presidio County in the Big Bend.

The number of cases has remained relatively low, with only 36 cases reported in May as compared to 451 a year ago.

However, with many livestock producers failing to take adequate precautions in handling their animals and weather conditions favorable for screwworm development prevailing over most of the state, the insect could easily spread into any area of Texas, eradication workers said.

Emergency eradication measures initiated wherever a screwworm infestation is reported are credited with keeping the native fly population down. Large numbers of flies, reared and sexually sterilized in the Mission plant, are dispersed in areas where infestations are discovered. Sterile flies mating with fertile female flies prevent offspring from being produced. Campaign workers also spray livestock in infested herds and flocks to prevent further infestations.

These measures are started only after a sample collected by a producer has been positively identified as screwworms at the Mission laboratory. Handy collection kits are available through county agricultural agents' offices for producers to use in collecting and mailing larvae specimens and mailing Stockmen can also aid the program by treating animal wounds and spraying their livestock before they become infested, eradication officials say.

Spray solutions containing Corral or Korlan will give protection against other external parasites as well as screwworms, they pointed out.

much digestible feed nutrients to produce 200,000 pounds of milk with 5,000 - pound producers than it would with 10,000 pound producers. A herd of 40 cows producing at the rate of 5,000 pound is needed to make the 200,000 pound per year. But 20 cows producing at the rate of 10,000 pounds yearly will do the job.

Depreciation, interest, repairs, taxes, insurance, and labor needed to maintain a herd of 40 cows will be much higher than for 20 cows.

"It is more profitable and requires much less work to breed good cows and feed them than to work with cows that are not well bred and are underfed," says Meekma.

A standard two - egg cake made with two cups of flour may be baked in two round eight - inch layer pans or in a nine - inch square cake pan.

### Peanut Butter Party for Small Fry

PARTIES AND LITTLE GIRLS seem to go together. When it is a party which she can prepare herself it's double fun. Peanut Butter Jelly Rolls are easy to fix and fun to eat — what flavor combination is nearer and dearer to the young set's heart than this? Open a can of fruit juice or punch to go with the sandwiches and the party is all set. Here's how your little lady can make these cute sandwiches. Let her use her own equipment, a small size rolling pin, blunt scissors (well washed) and a small spreading knife. Bread, peanut butter and grape jelly are the three ingredients needed. Follow these step-by-step directions.

- 1. Use one slice of white bread for each sandwich.
- 2. With the blunt scissors, cut the crusts from the bread slice.
- 3. Place slice on board and roll with rolling pin until bread is thin.
- 4. Spread the peanut butter in a thin layer right to the edge of the slice. Use smooth or crunchy peanut butter — either one is good.
- 5. Spread a layer of grape jelly on top of the peanut butter, not quite to the edge of the bread. (If you put on too much it will squeeze out when you roll the sandwich.)
- 6. Roll the sandwich up like a jelly roll. When you put it on the plate put the open edge down. It looks prettier that way.

Make as many more sandwiches as you think you and your guests can eat... and mmmmm, they're good.

### Willie Fantroy Dies

Willie Fantroy, one of the first Negroes to settle in Slaton, died last Friday in the Veterans Hospital at Big Spring.

Willie was born in Winkler, Texas, November 25, 1894. He served in Company B of the 32d Service Battalion of the Quartermaster Corps from June 18, 1918 until July 30, 1919, and was honorably discharged. At one time, Fantroy owned most of New Mexico Street in Slaton.

Funeral services will be conducted from the Mount Olive Baptist Church Thursday with the Rev. C. W. Henderson officiating. Interment in Englewood Cemetery.

Survivors include three sisters, Alberta Warren and Minnie Govan of Slaton and Ethel Jones of Tucson, two brothers, Seth of Clovis, N. Mex. and Henry of Corsicana, a son who lives in California, and a niece, Bernice Hartrick of Slaton.

Pallbearers nominated for the funeral are Essie Smith, Jimmie Posey, Bubba Posey, Herbert Clark Smith, J. D. Maxwell, and R. D. Slay.

### CHILD SMOTHERED

Another child was smothered to death in Plainview Sunday. An eight months old girl, who had been left with her mother's sister while the parents attended church, got her head inside a plastic cleaning bag. It had been left unthoughtedly in the crib, but the child suffocated. The number of similar deaths of infants is becoming appalling. Plastic coverings for a newly pressed suit are nice, but don't try to save them. Destroy them first time you wear the garment.

### Hot-Day Treat: Olive Miracle Molds

Sprightly seasoned tomato aspic is given a deliciously different flavor twist with the addition of ripe olives, salad dressing and whipped cream for "Olive Miracle Molds."

Garnish them with shrimp, sliced tomatoes, whole ripe olives and potato chips and serve them with deviled eggs and a cooling beverage. These refreshing salad molds will be the mainstay of a most satisfying meal on a hot day.

#### Olive Miracle Molds

- 1 cup ripe olives
- 1 cup tomato juice
- 1 tablespoon grated onion
- 1 teaspoon salt
- 1/4 teaspoon celery seed
- 1/4 teaspoon sugar
- 1/4 Finch black pepper
- 1 envelope plain gelatin
- 3/4 cup cold water
- 1/2 cup salad dressing
- 1/2 cup whipping cream, whipped
- 1 can (4 1/2 oz.) deviled shrimp
- 1 Lettuce
- 2 tomatoes, sliced
- Potato chips

Cut olives into large pieces, saving a few whole olives for garnish. Heat tomato juice, onion and seasonings in covered saucepan about 5 minutes. Soften gelatin in cold water; dissolve in hot tomato juice mixture. Chill until slightly thickened. Blend with salad dressing and cream. Fold in cut olives. Pour into 5 or 6 individual molds; chill until firm. Rinse, drain and chill shrimp. Unmold salads on lettuce-lined plates; garnish with shrimp, tomatoes, chips and whole olives. Makes 5 or 6 salads.

## COTTON TALKS

Representatives of the American Textile Manufacturers Institute have told Secretary of Agriculture Orville Freeman that the one-price cotton program passed by congress this year is already having a beneficial effect on the cotton industry, according to a report published in the Daily News Record — the textile industry's daily newspaper.

Heading up the group meeting with Mr. Freeman was William E. Reid, President of Riegel Textile Corporation and President-elect of ATMI. He told the Secretary that carded and combed yarn prices have fallen and that there has also been a decline in fabric prices.

Inventories throughout the industry were low in anticipation of one-price cotton. It was pointed out, and only the strong demand following institution of the program has kept prices from falling to even lower levels.

Reid said the cotton textile industry and the apparel industry are so competitive that the lower raw cotton prices will be passed down the line, but there is a time lag before these lower prices will reach the consumer. Among the benefits coming to the industry, Mr. Freeman was told that the program has already caused increased cotton consumption and is resulting in new mills devoted to cotton fabric production.

**Boll Weevil Education**  
A meeting July 1 with county agents from over the South Plains gave assurance of a full scale effort by the Extension Service to educate area farmers and businessmen on all phases of the coming boll weevil control program.

W. H. (Bud) Jones, District Extension Agent, told Plains Cotton Growers that the Extension Service would "be holding meetings within cotton producing counties to present the latest and most comprehensive information available on why the boll weevil must be controlled before it establishes a foothold on the Plains." In addition, Jones said County Agents would discuss and recommend weevil control measures in those counties already plagued with weevil infestations.

Also attending the meeting were Bill Garter, Area Extension Agronomist of Lubbock, and V. G. Young, State Agricultural Agent from College Station. It was pointed out at the meeting that the possible \$2 million cost of the "diapause" control program to be initiated this fall figures to be only 6 of one percent of the lint and seed value of a normal crop produced in the 23-county area served by Plains Cotton Growers.

President Johnson has requested the Senate to include \$1 million in the 1965 fiscal year budget to provide funds for matching those put up by High Plains producers for weevil control, and Congressman George Mahon has testified in favor of the appropriation before the Senate Agricultural Appropriations Subcommittee.

**Pfeiffenberger Back**  
George W. Pfeiffenberger, Executive Vice President of PCG since its inception in 1956,

has returned to the office on a part time basis following recent surgery.

**Quality Report**  
The comprehensive report on "Production and Quality" of the 1963 High Plains cotton crop soon to be published by PCG will show total production for the 23 counties of 2,097,995 bales; a per-acre yield average of 480 pounds lint; average fiber strength (Pressley) of 78,000 pounds per square inch; micronaire average of 3.5, and an area staple average of 29.8 thirty-seconds of an inch. The complete report should be published this month.

**New Weatherman Hits**  
Oliver Newton, who moved into South Plains Research and Extension Center offices in May as Area Agricultural Meteorologist, is so far batting pretty close to an even 1,000 on his 30-day forecast. For June he predicted from two to four inches of rain over the High Plains, and that rain would fall on each farm or community an average of five times during the month. It's hard to imagine how you could stick your neck out any farther on the High Plains—but the rain came through to save him. Horay! We hope he has the same success with similar predictions in the future.

**PCG Calendar Out Soon**  
The calendar published each year by PCG, containing tips on farming practices and dates of important agricultural meetings plus the usual information, has gone to the printer and will be out before the current calendar runs out on July 31. A new feature this year is the schedule of loan rates on the 1964 crop, freight differentials, and premiums and discounts for micronaire. The information will be printed on the last page of the calendar.

**Former Slaton Woman Dies In Clois, N. M.**  
Mrs. Homer Kelley, 75, died last Wednesday in Clois, at the home of her son, C. D. Kelley. She lived in Slaton about 25 years before moving to Lorenzo in 1943.

## STATE CAPITAL Highlights and Sidelights

BY VERN SANFORD  
Texas Press Association  
AUSTIN, Tex. — A costly plan for "catching up" with other states in the field of higher education has been outlined to Texans by the Governor's Committee on Education Beyond the High School.

It will take considerable money to accomplish just one of the major tests of excellence in education — bringing Texas faculty salaries up to the national average. More is needed for libraries and research facilities.

To help achieve goals in those three fields, the Committee recommended that further college construction be delayed. By using present classrooms and laboratories more hours a day and more days a year, this saving can be accomplished, the committee felt.

Gov. John Connally conceded that it will take new taxes to finance the program which he has termed his No. 1 interest. Neither he nor the committee recommended a financing plan. Committee did say the Legislature should double college tuition, so students and their parents would share more of the cost of education.

Plan calls for expansion of the junior college system, and wide use of vocational training to prepare students for skilled and semi-skilled technical jobs in industry.

Coordination, to eliminate duplication between state colleges, would be placed in the hands of an 18-member board appointed by the governor. Board would take over duties of the present junior college division of the Texas Education Agency and the Commission on Higher Education. This would put junior and senior college and university supervision in a single group.

Goal would be to make junior college training available to all, and to raise its level of excellence so all junior college credits would be immediately transferrable to senior colleges.

Committee, headed by H. B. Zachry, San Antonio construction executive, is taking its case to the public in a series of meetings with business leaders in their communities.

**CUT AGAIN** — Another 28,602-barrel cut in daily oil allowables was ordered by the Texas Railroad Commission as it held August production to 26.3 per cent of the capability of the wells. Two large purchasers complained they are over-supplied with oil and unable to sell it.

**A POPULAR PLACE** — Texas' State Capitol is being invaded daily by both Texans and out of state tourists who come here to pay tribute to the history of the state. Men, women and children — about three times as many children as parents, it seems — literally crowd the Capitol's halls, their numbers reaching as many as 1,200 a day.

One of the most popular stops on the informal tour (there are no guides) of State buildings is the State Archives and Library, just across a walkway from the Capitol.

There, renowned artists Peter Hurd and his son-in-law Peter Rogers are executing a mural of Texas' history, featuring remarkable likenesses of Stephen F. Austin, Sam Houston and Anson Jones, as well as Davy Crockett and William B. Travis. The mural depicts the conquistador as well as the cowboy.

Visitors are invited to pull up a chair and watch the artists at work, and they do. They are also treated to a newly-arranged re-creation of a room from Gov. Elisha Pease's (1853-57, 1867-69) mansion. Furniture was donated to the archives when former Gov. Allan Shivers bought the venerable mansion.

**MAKING WAY FOR 1990** — A large number of Texas cities with populations of less than 50,000 are planning now for the year 1990 by developing a blueprint for progress under a Fed-

eral-local program being administered by the State Health Department.

Under this program, a city can obtain studies of current facilities and projections of future needs in every area from economic and sociological needs to budgeting for capital improvements. The Housing and Home Finance agency makes grants for the master plans and the city pays one-third the cost, while the Federal agency pays two-thirds.

A typical town under study is the West Texas city of Winters, which has a population of 3,200 and will spend \$4,845 toward a \$13,365 master plan.

So far, 109 cities have enrolled in the planning project to see where they can go and how they can get there over the next 25 years.

**PUBLIC PIER** — Parks and Wildlife Department will advertise a second time for bids for concession rights on the new State fishing pier at Port Lavaca. Only one person submitted a bid July 1 after 13 said they were interested.

The 3,200-foot-long pier, which replaced one destroyed by Hurricane Carla, is said to be the world's longest fishing pier. Access to it will be free to the public, but the department is trying to provide a source of bait, soft drinks and fishing gear via a concessionaire contract.

**ANIMAL HEALTH HEAD** —

**CHANGE DUE** — Texas Animal Health Commission will decide on July 27 on a new commission director to replace Dr. R. G. Garrett of Taylor who plans to resign.

Decision will be made at a meeting to be hosted by Chairman Ed Knolle of Sandia at his Knolle Jersey Farm in Jim Wells County. Knolle said there have been several "well-qualified" applicants for the post, but declined to list them. However, it has been rumored that a staff veterinarian with the commission, Dr. S. B. Walker, will be favored.

**BRUCellosis PROGRAM BLOCKED** — Animal Health Commission postponed to September a decision on whether to let a Type II brucellosis control program be set up in one part of Brooks County.

Commission has been informed that many Brooks County producers want to organize a program, but the King Ranch which has 3,991 of the 16,000 head of cattle on county tax rolls does not. Approval of the owners of 75 per cent of the cattle in a county is necessary so the proponents want to organize a program in just the soil conservation district which covers all of the county except King Ranch property.

Commission said it lacked sufficient information for a decision at this time.

**WEST TEXAS SCHOOL** — West Texas cities that want to be home to a new West Texas School for the mentally retarded will have to wait until at least September 14 to learn which will be chosen.

Chairman of the Board for State Hospitals and Special Schools' site selections committee, C. E. Bentley of Abilene, said his committee will report to the board on that date. However Bentley did not say that the committee will make a

definite recommendation on a single site at that time.

**INDUSTRIAL DEVELOPMENT** — Texas Industrial Commission is boasting in the July issue of Texas Parade Magazine that 27 new plants were announced in Texas in May. Map used to illustrate the new industry points out quite prominently the fact that while the Dallas-Fort Worth area gained 12 of these new plants, seven were located in Panhandle towns and six others were in other small towns.

Commission announced that Patrick J. Ryan of the Lamesa Chamber of Commerce and Sylvan R. Lange of Greater Marshall Industries have been approved for the first year class at the Industrial Development Institute in Norman, Oklahoma.

**ATTORNEY GENERAL RULINGS** — Atty. Gen. Waggoner Carr rules that a county election board must furnish voting booths for all polling places within each city of 10,000 or more inhabitants.

Carr also ruled that a county clerk does not have authority to charge the fee for releasing of a chattel mortgage or lien on personal property at the time such mortgage is filed.

**VETERANS' COMMISSION** — State Auditor C. H. Cavness reports that the Veterans' Affairs Commission helped Texas Veterans and their dependents and survivors obtain \$93,591,000 in benefits during the year which ended August 31, 1963.

Commissioners are John E. McKelvey of El Paso; Justin M. Morrow, Rotan; J. Walter Jankov, Somerville; Joe F. Ramsey, Jr., Houston; and Charles C. Ford, Longview.

Ethiopian Emperor Haile Selassie, whose titles include that of Conquering Lion of Judah keeps pet lions, cheetahs and leopards in his imperial palace.

### Rites Said For McNutt

Funeral services were held at 3:00 p.m. Wednesday in the Bible Baptist Church at Slaton for Earl E. McNutt, 57, who died Monday night after a heart attack at Cloudford, New Mexico.

Mr. McNutt was born at Pecos Gap, Texas, and moved from Slaton to a farm near Meadow about seven years ago. Interment was in Englewood Cemetery, under direction of the Williams Funeral Home.

Survivors are his wife, Addie; a sister, Mrs. A. W. Weir
